ASX Announcement

Titomic advances significant global defence sector engagements

Highlights:

- Titomic makes further advances in global defence and aerospace sectors including contracts with international defence prime contractors and key suppliers leveraging its world-class cold spray capabilities;
- These engagements represent A\$476k in revenue for Titomic;
- Forming long-term strategic relationships in the global defence sector with Titomic-supplied parts being used in sensitive aerospace and defence applications;
- Further revenue generation expected through the ongoing advancement of these engagements and Titomic's activity in these sectors generally;
- Engagements are of global significance with further disclosure restricted by force of legislation and international regulations applicable to Titomic.

Titomic Limited (ASX: TTT) ("Titomic" or the "Company") the world's leading provider of cold spray solutions, is pleased to report on its significant advances in the global defence sector, leveraging its world-class and industry-leading cold spray capabilities.

Titomic has recently secured a number of highly sensitive projects with international defence primes and suppliers – in each case directly leveraging Titomic's cold spray capabilities.

These contracts are worth aggregate revenues of A\$476k for Titomic of which A\$64k has been recognised as at May 2024 and a further A\$412k is expected to be recognised by Q2 FY2025. Further advancement of these engagements will be revenue accretive and subject to future disclosure by Titomic.

Managing Director of Titomic, Herbert Koeck, commented:

"We are thrilled to have secured these engagements with international defence primes and key suppliers to the global defence and aerospace sectors.

"We are working closely with our partners to apply Titomic's industry-leading cold spray capabilities in these new applications encompassing defence component design and supply, and research and development manufacturing projects. These projects present significant long term revenue generation opportunities for Titomic as adoption of our technology expands within these projects and within the broader defence sector."

The Company is restrained from disclosing the nature of these engagements due to legislative and regulatory restrictions governing information disclosure in the defence sector due to national and global security concerns. This restriction applies not only to the scope of Titomic's work but also the contract counterparty. In any case, the Company considers this information would fall within the concept of 'trade secrets' as set out in the ASX Listing Rules.

ABOUT TITOMIC LIMITED

Titomic Limited (ASX: TTT) is an Australian public company specialising in large integrated solutions for industrial-scale metal additive manufacturing, using its patented cold spray additive manufacturing (Cold Spray AM) technology. Titomic provides Cold Spray AM solutions, OEM production and R&D services to the global Aerospace, Defence, Shipbuilding, Oil & Gas, Mining and Automotive industries. Titomic also offers global sales and support for all of its Cold Spray AM activities from its Melbourne Head Office, as well as through local presence in the USA and Europe. Titomic delivers competitive advantages in metal additive manufacturing at every stage in the product value chain. For more information, please visit www.titomic.com.

FORWARD LOOKING STATEMENTS

Certain statements made in this release are forward-looking statements and are based on Titomic's current expectations, estimates and projections. Words such as "anticipates", "expects," "intends," "plans," "believes," "seeks," "estimates," "guidance" and similar expressions are intended to identify forward-looking statements. Although Titomic believes the forward-looking statements are based on reasonable assumptions, they are subject to certain risks and uncertainties, some of which are beyond Titomic's control, including those risks or uncertainties inherent in the process of both developing and commercialising technology. As a result, actual results could materially differ from those expressed or forecasted in the forward-looking statements. The forward-looking statements made in this release relate only to events as of the date on which the statements are made. Titomic will not undertake any obligation to release publicly any revisions or updates to these forward-looking statements to reflect events, circumstances or unanticipated events occurring after the date of this release except as required by law or by any appropriate regulatory authority.
