**Dynamic Metals Limited (ASX:DYM) (“Dynamic” or “the Company”)** is pleased to advise that it has formed a lithium-focused joint venture on the Widgiemooltha Project with MinRes, as initially announced on 5 March 2024.

#### **Dynamic’s Managing Director, Karen Wellman, commented:**

*“We are very pleased to announce the successful formation of the significant joint venture with MinRes on our Widgiemooltha Project lithium tenements.”*

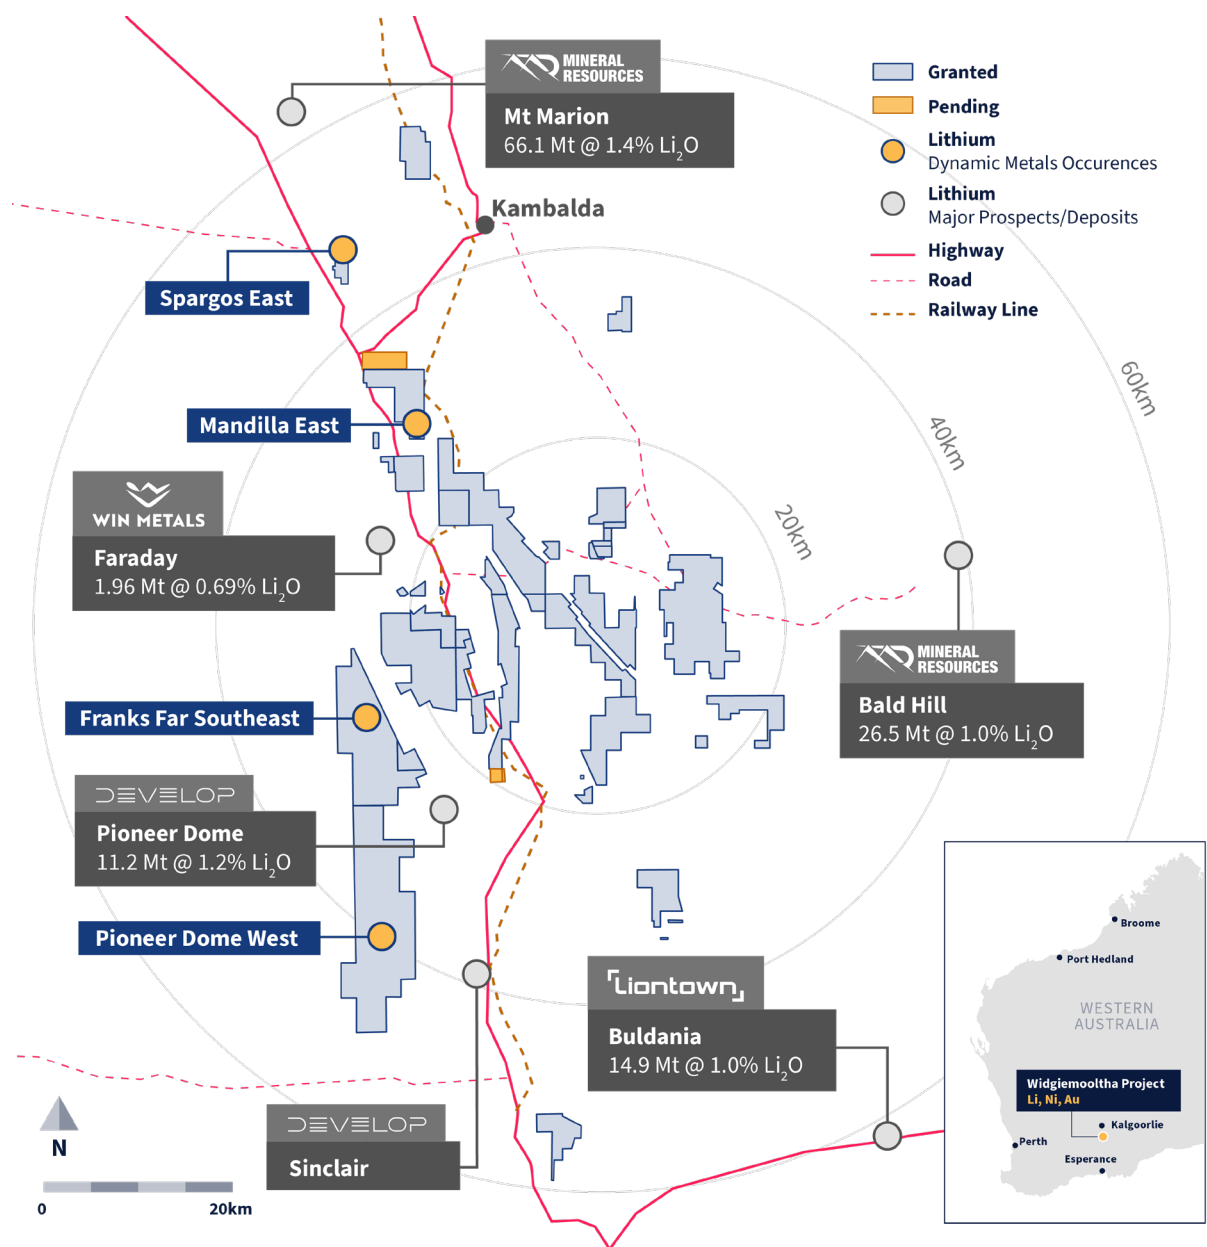

*“As a leader in Australia’s lithium sector, MinRes brings invaluable technical expertise to the project, and we are looking forward to their commencement of the exploration program.”*

#### **Landmark Lithium-Focused JV and Farm-in**

In March 2024<sup>1</sup>, Dynamic entered into a binding term sheet for a farm-in and joint venture (“**Agreement**”) with ACN 654 242 690 Pty Ltd (“**HoldCo**”), a wholly-owned subsidiary of Mineral Resources Limited (“**MinRes**”), and MinRes (as guarantor of the initial cash payments), under which the Company has now sold 40% of all lithium mineral rights held by Dynamic on the Widgiemooltha tenement package (see Annexure B) (“**Tenements**”) for \$5M cash consideration (the “**MinRes Transaction**”).

From completion, HoldCo and Dynamic have now formed a 40% / 60% unincorporated joint venture. HoldCo has the ability to increase its stake to 65% by sole funding an additional \$15M of exploration expenditure on the Tenements over the 4 years following completion. HoldCo has the further ability to elect to increase its stake to 80% by sole funding expenditure through to a Decision to Mine. Upon HoldCo earning 80% interest Dynamic must elect to either remain in Joint Venture and contribute to Joint Venture expenses or convert its interest into a royalty.

## ABOUT DYNAMIC METALS

**Dynamic Metals (ASX: DYM)** is a dedicated exploration company focused on advancing an underexplored portfolio of minerals critical to decarbonisation and the growing battery metals market.

Dynamic’s flagship project, Widgiemooltha, covers an extensive area of ~800km<sup>2</sup> extending between Norseman and Kambalda. The Widgiemooltha region is highly prospective for nickel and gold and more recently emerged in significance for its lithium mineralisation and prospectivity. In early 2024, Dynamic entered into a binding joint venture and farm-in agreement with Mineral Resources Limited (ASX: MIN) (MinRes), whereby Dynamic sold 40% of its lithium rights on the Widgiemooltha Project for \$5m. MinRes can increase its interest to 65% by spending \$15m and then to 80% by sole funding to a Decision to Mine.

In addition to Widgiemooltha, Dynamic holds an extensive portfolio of exploration tenure in Western Australia, including several joint venture positions in Western Australia where other parties are funding ongoing exploration to earn-in interest in the project. These projects are prospective for gold, nickel, lithium, iron ore and diamonds.
