Half year ended 30 June 2024 (ASX listing rule 4.2A)

Eagers Automotive Delivers Resilient 1H24 Result

Financial Highlights	Half Year to June 2024 \$ Million	Half Year to June 2023 \$ Million
Revenue	5,464.2	4,817.6
Underlying EBITDA ⁽¹⁾⁽²⁾	265.9	254.1
Underlying Operating Profit Before Tax ⁽¹⁾	182.5	207.4
Statutory Profit Before Tax	181.3	216.1
Ordinary Interim Dividend per Share (cents)	24.0	24.0

Key Highlights

- Record first half Revenue of \$5,464.2 million (1H23: \$4,817.6 million).
- Statutory Profit Before Tax of \$181.3 million (1H23: \$216.1 million) and Statutory Profit After Tax of \$123.4 million (1H23: \$150.5 million).
- Underlying Operating Profit Before Tax⁽¹⁾ of \$182.5 million (1H23: \$207.4 million).
- Statutory basic EPS of 45.4 cents per share (cps) (1H23: 54.4 cps) and Underlying⁽¹⁾ basic EPS of 45.9 cps (1H23: 52.2 cps).
- Ordinary interim fully franked dividend of 24.0 cps approved for payment for 1H24 (1H23: 24.0 cps).
- Maintained strong financial position with available liquidity of \$444.7 million (31 December 2023: \$620.3 million). and net debt position of \$495.1 million at 30 June 2024 (31 December 2023: \$262.7 million).
- Significant owned property portfolio of \$726.9 million (31 December 2023: \$597.9 million including assets held for sale).

Operational & Strategic Highlights

- Record first half revenue driven by strong contributions from core Franchised Automotive business, recent large-scale acquisitions, Retail Joint Venture and maturing greenfield businesses, leveraging a record first half new car market⁽³⁾.
- New vehicle margins remain resilient, supported by demand which remains strong relative to historic levels and strong embedded margins in our material order bank.
- Strong earnings contribution from Franchised Automotive (excluding interest and depreciation) demonstrating successful multi-year execution of our Next100 Strategy and the resilience of the automotive retail operating model.
- Record first half profit in our independent pre-owned business, benefiting from normalised supply and continued execution of our benchmark operating models.
- Retail Joint Venture profit contribution in first 4 months materially impacted by clearance of excess inventory, while minimal contribution received in the first half from recently completed acquisitions.
- Disciplined cost management despite high inflationary environment, combined with higher levels of inventory and higher interest rates relative to the first half of 2023.
- Continued to outperform industry averages in the financial services business for new and used finance income and penetration, with our ancillary product strategy driving further margin growth.
- Continued execution of our property strategy, with the further acquisition of \$56
 million in ~37,000 sqm of prime property anticipated to settle in the second half of
 2024.
- Subsequent to 30 June 2024, the Company completed a refinance of syndicated and property debt facilities, increasing total undrawn debt facilities to \$797.0 million, providing further balance sheet strength and flexibility to fund future growth opportunities.

Dividend

The Board has approved an ordinary interim dividend of 24.0 cps fully franked for 1H24 (1H23: 24.0 cps). The ordinary dividend has been approved for payment on 20 September 2024 to shareholders who are registered on 11 September 2024 (Record Date).

The interim payout demonstrates the confidence the Board and Management have in the underlying business, the continued progress against our strategic initiatives and the opportunities that will present in the near to mid-term. This confidence will always be balanced with disciplined operating behaviour and a cautious view to any economic and industry headwinds.

The Company's dividend reinvestment plan (DRP) will not operate in relation to the ordinary dividend.

Financial Performance

The Company achieved a Statutory Net Profit Before Tax of \$181.3 million for 1H24 (1H23: \$216.1 million). The 1H24 statutory result included significant items totalling \$1.2 million net loss before tax, compared to \$8.7 million net income in the prior period, primarily related to the impact of business acquisition costs and AASB16 on the business.

Statutory Net Profit After Tax for 1H24 was \$123.4 million, compared to a profit of \$150.5 million in 1H23.

Statutory and Underlying⁽¹⁾ revenue increased 13.4% to a record first half of \$5,464.2 million, with incremental contributions from recent acquisitions in Victoria and Northern Territory, combined with growth in our Retail Joint Venture and maturing greenfield operations. On a like-for-like basis⁽⁴⁾, Statutory and Underlying⁽¹⁾ revenue increased 8.0% to \$5,115.3 million.

Underlying⁽¹⁾ Operating NPBT⁽⁵⁾/Sales ratio decreased to 3.3% in 1H24 (1H23: 4.3%). The decline was driven by a combination of materially higher finance costs related to current interest rate and inventory cycles, in addition to recent acquisitions which are yet to be integrated into the broader business. These impacts were partially offset by benefits from ongoing productivity and cost-out programs.

Segments

Half Year to June	Half Year to June 2024 \$ Million	Half Year to June 2023 \$ Million
Car Retailing Segment		
Statutory & Underlying ⁽¹⁾ Revenue	5,464.2	4,817.3
Underlying ⁽¹⁾ Operating Profit Before Tax	176.5	198.9
Statutory Profit Before Tax	171.9	211.2
Property Segment		
Underlying ⁽¹⁾ Operating Profit Before Tax	5.5	11.6
Statutory Profit Before Tax	8.8	8.0

The Company's national, independent pre-owned business, headlined by easyauto123 and supported by its national auction business Carlins, delivered a record profit result in 1H24, achieved through disciplined optimisation of the unique business economics.

The value of the property portfolio increased to \$726.9 million as at 30 June 2024, compared with \$597.9 million at 31 December 2023 (including assets held for sale), with the increase attributable to strategic property acquired as part of the Victorian and Northern Territory acquisitions.

Underlying⁽¹⁾ Operating Profit Before Tax for the Property Segment was impacted by higher interest and depreciation costs on owned property relative to the prior period.

Financial Position

Eagers Automotive is in a very strong financial position underpinned by a substantial property portfolio and asset base, together with \$444.7 million of available liquidity at 30 June 2024. This liquidity position includes available cash and undrawn commitments under corporate debt facilities.

Corporate debt (Term and Capital loan facilities) net of cash on hand was \$495.1 million as at 30 June 2024, up from \$262.7 million at 31 December 2023, following the disciplined deployment of capital in 1H24 to fund M&A growth opportunities and the acquisition of associated strategic property. The Company's leverage metrics are in a strong position, with the gearing ratio at 0.89 times at 30 June 2024 (FY23: 0.48 times).

Subsequent to 30 June 2024, the Company completed a refinance of syndicated and property debt facilities, increasing total undrawn debt facilities to \$797.0 million. The increased appetite from our financiers provides confidence in the long-term execution of our Next100 Strategy through evolving market cycles.

Total inventory levels increased to \$1,837.4 million at 30 June 2024, up from \$1,620.0 million at 31 December 2023, driven by the acquisition of the Victorian and Northern Territory businesses and growth in greenfield businesses. Eagers Automotive continues to maintain significant equity ownership in used vehicle inventory.

The Company remains focused on cash management, generating a strong cash position of \$297.4 million at 30 June 2024, driven by operating cash flows of \$278.0 million. Strong operating cash flows for the period enabled M&A and property acquisitions, continued investment in new automotive retail formats and payment of dividends.

Outlook

The resilient performance of the business over the first half of 2024 and the strength of our underlying EBITDA⁽²⁾ margin demonstrates that the business continues to operate with industry leading discipline.

The Company remains on track to deliver on our full year revenue growth expectations for 2024, delivering more than \$1 billion in top line growth, in addition to the growth achieved in 2023. This growth is expected to be achieved through a balanced contribution from acquisitions, organic growth and greenfield operations.

Whilst we are not immune to shifts in consumer sentiment, which reflect current economic and inflationary headwinds, demand remains strong relative to historic levels and the industry remains on track to deliver another record full year new vehicle market in 2024. Our material order bank provides strong embedded gross profit, with vehicle margins expected to remain above long-term industry averages.

Through the second half of 2024, we expect to see the following dynamics evidenced in our results:

- Delivering on full year revenue growth expectations by continuing to execute organic, greenfield and acquisition initiatives;
- Maintaining sustainable and profitable growth in our independent pre-owned business, supported by our unique inventory sourcing channels and proprietary technology initiatives;
- Strong recovery in the performance of our Retail Joint Venture, benefiting from normalisation of inventory levels, footprint expansion via retail partner model and continued strong demand for affordable battery electric and plug-in hybrid vehicles;
- A focus on improving performance from acquisitions through the ongoing integration and optimisation of these businesses;
- Continued rollout and implementation of our unique proprietary technology initiatives to realise further productivity improvements; and

 Disciplined review of accretive acquisition opportunities consistent with our Next100 Strategy, while executing on greenfield opportunities with both existing and new partners.

While the second half of 2024 continues to present challenging conditions, we expect further opportunities will emerge to drive our long-term track record of sustainable growth.

The Company remains uniquely positioned with unrivalled scale, geographic reach and brand diversity, with proprietary operating advantages and businesses that make Eagers Automotive unlike any competitors in our market.

We have a track record of executing with discipline against a clear and consistent strategy and will be focused on continuing to deliver for the benefit of all our stakeholders over the remainder of 2024 and beyond.

1 Significant accounting policies

(a) Statement of compliance

The condensed consolidated half year financial report ("half year report") is prepared in accordance with the *Corporations Act 2001* and AASB 134 *Interim Financial Reporting* ("AASB 134"). Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 *Interim Financial Reporting*. The half year report does not include notes of the type normally included in an annual financial report and should be read in conjunction with the most recent annual financial report and any public announcements made by Eagers Automotive Limited ("the Company" and "the Group") during the half year reporting period in accordance with the continuous disclosure requirements of the *Corporations Act 2001*.

(b) Basis of preparation

The half year report has been prepared on the basis of historical cost, except for the revaluation of certain non-current assets and financial instruments. Cost is based on the fair values of the consideration given in exchange for assets. All amounts are presented in Australian dollars, unless otherwise stated.

The Company is an entity of the kind referred to in Australian Securities and Investments Commission Corporations Instrument 2016/191, dated 24 March 2016. In accordance with that Corporations Instrument, amounts in the Directors' report and the half year report are rounded to the nearest thousand dollars, unless otherwise indicated.

The accounting policies and methods of computation adopted in the preparation of the half year report are consistent with those adopted and disclosed in the Group's 2023 annual financial report for the financial year ended 31 December 2023. The accounting policies are consistent with Australian Accounting Standards and with International Financial Reporting Standards.

(c) New and amended Accounting Standards that are effective for the current period

The Group has considered all of the new and revised Standards and Interpretations issued by the Australian Accounting Standards Board ("AASB") that are relevant to their operations and effective for the current half year. There are no new and revised Standards and Amendments thereof and Interpretations effective for the current half year that are relevant to the Group.

(d) Going concern

The half year report has been prepared on the basis that the Group is a going concern, able to realise assets in the ordinary course of business and settle liabilities as and when they fall due.

The Group has maintained a robust balance sheet with net current assets of \$39.7 million at the balance sheet date. This includes a substantial asset base and property portfolio valued at \$726.9 million (including construction in progress) and total available liquidity of \$444.7 million (cash in bank of \$297.4 million and undrawn facilities of \$147.3 million). Corporate debt net of cash is \$495.1 million at 30 June 2024. Subsequent to 30 June 2024, the Group has refinanced the existing term and bank guarantee facilities, which adds an additional \$391.1 million of available liquidity.

The Group has generated positive net cash flows from operating activities of \$278.0 million and profit after tax from operations of \$123.4 million for the half year ended 30 June 2024.

The Group is in compliance with bank covenants at 30 June 2024 and is forecast to be compliant 12 months from the signing date of the half year financial report.

Based on the strength of the Group's balance sheet and its cash flow modelling, the Directors are of the view that the Group will be able to settle all obligations as they fall due for a period of at least 12 months following this report. The Directors are therefore of the opinion that the preparation of the financial statements as a going concern is appropriate.

2 Significant changes in the current reporting period

The financial position and performance of the Group was affected by the following events and transactions during the six months to 30 June 2024:

(a) Purchase of a portfolio of dealerships from NGP Group and associated property

The purchase of a portfolio of brands from NGP Victoria Dealership Group was completed on 29 February 2024. The transaction was subject to shareholder approval due to the related party relationship between Mr Nick Politis, a member of the Eagers Automotive Board of Directors, and the various selling entities. An independent expert provided a report examining the acquisition and concluded that the acquisition was both fair and reasonable to shareholders. The acquisition was successfully approved at the Extraordinary General Meeting held on 30 January 2024.

The Group acquired a portfolio of dealerships, including BMW, Jaguar, Land Rover, Mercedes-Benz, MG, Mini, Mitsubishi, Nissan, Renault, Skoda, Volkswagen and Volvo, and associated properties across Melbourne and the Mornington region of Victoria for \$241 million.

The initial accounting for the acquisition has been provisionally determined at the end of the half year as the Group concludes the asset valuation process. Refer to Note 12 for further information. For internal management purposes, the NGP Victorian Dealership Group business has been allocated to the Group's VIC & TAS cash generating unit.

(b) Acquisition of Alice Springs Toyota and associated property

The purchase of Alice Springs Toyota was completed on 29 February 2024. The Group acquired the business for \$23 million along with two associated properties for \$9 million. The initial accounting for the acquisition has been provisionally determined at the end of the half year.

For internal management purposes, the Alice Springs Toyota business has been allocated to the Group's SA & NT cash generating unit.

(c) Subleases with Scott's Refrigerated Logistics

There has been significant movement in the Group's finance lease receivables during the first half of 2024, associated with the termination and assignment of a sublease held with Scott's Refrigerated Logistics, following the appointment of receivers in 2023.

As at Thursday 22 August 2024, the aggregate amount of the interim dividend expected to be paid on 20 September 2024 from retained earnings at the end of the half year, but not recognised as a liability, including all shares yet to be issued, is:	61,962	61,278

4 Segment information

Segments are identified on the basis of internal reports about components of the Group that are regularly reviewed by the chief operating decision maker, being the Board of Directors, in order to allocate resources to the segment and to assess its performance.

The Group operates in two operating and reporting segments being (i) Car Retailing and (ii) Property. These are identified on the basis of being the components of the Group that are regularly reviewed by the chief operating decision maker for the purpose of resource allocation and assessment of segment performance.

Information regarding the Group's reporting segments is presented below:

(i) Car Retailing

Within the Car Retailing segment, the Group offers a diversified range of automotive products and services, including new vehicles, used vehicles, vehicle maintenance and repair services, vehicle parts, service contracts, vehicle brokerage, vehicle protection products and other aftermarket products. They also facilitate financing for vehicle purchases through third-party sources. New vehicles, vehicle parts and maintenance services are predominantly supplied in accordance with franchise agreements with manufacturers. This segment includes a motor auction business and forklift rental business.

(ii) Property

Within the Property segment, the Group acquires commercial properties principally for use as facility premises for its motor dealership operations. The Property segment charges the Car Retailing segment commercial rent for owned properties occupied by that segment. The Property segment reports property assets at fair value, based on annual assessments by the Directors supported by periodic, but at least triennial, valuations by external independent valuers. Revaluation increments arising from fair value adjustments are reported internally and assessed by the chief operating decision maker, and credited in other comprehensive income through to the revaluation reserve in equity. The chief operating decision maker excludes revaluation increments arising from fair value adjustments when assessing the overall returns generated by the Property segment to the Group.

Consolidated

8 Non-current assets - intangible assets

For the purposes of impairment testing, goodwill is allocated to each of the Group's cash generating units ("CGU"), or groups of CGUs, that are expected to benefit from the synergies of the combinations. Each unit or group of units to which goodwill is allocated represents the lowest level at which assets are monitored for internal management purposes.

The Group has eight groups of CGUs in the Car Retailing segment, grouped by the operating region, state or product types, and a National Used CGU, with the lowest level for which there are independent cash flows determined to be on an operating region or State basis. During the period the Group amended its CGUs as the Northern Territory area was operationally aligned with the SA region having previously been aligned to the QLD region to create the SA & NT region.

The Group's eight Car Retailing segment CGUs are now QLD, NSW, VIC & TAS, SA & NT, WA, ACT, NZ, and BYD.

The value of intangible assets assessed for impairment is as follows:

	30 June 31 Decen	
	2024	2023
Intangible assets	\$'000	\$'000
Goodwill	969,407	837,968
Trademarks/brand names	5,915	5,915
Customer relationships	1,743	2,468
Other intangible assets	18,129	13,222
Total intangible assets	995,194	859,573

The Group performs its annual impairment test in December and when circumstances indicate that the carrying value may be impaired. The Group's impairment test for goodwill and intangible assets with indefinite lives is based on discounted cash flow calculations on a value-in-use basis. The key assumptions used to determine the recoverable amount for the different CGUs were disclosed in the annual financial report for the year ended 31 December 2023.

At each reporting period the Group considers all available sources of information (both internal and external) to conclude whether any indicators of impairment exist that would require management to estimate the recoverable amount of CGUs at 30 June 2024. As disclosed in the Company's annual financial report for the year ended 31 December 2023, the CGU most sensitive to possible impairment is New Zealand.

For all CGUs aside from the New Zealand CGU, the Group has concluded that there are no indicators of impairment that would require management to estimate the recoverable amount as at 30 June 2024.

New Zealand CGU:

During the six month period, the New Zealand CGU has underperformed against budget predominately due to continued softness in the New Zealand new car market.

The Group applied the value-in-use method to determine the estimated recoverable value of the group of CGUs and this exceeded the carrying amount of related assets. The projected cash flows were updated to reflect the prevailing economic conditions and a post-tax discount rate of 9.25% (31 December 2023: 9.25%) was applied. Cash flows beyond the five-year period were extrapolated using a 2.5% growth rate (31 December 2023: 2.5%).

As a result of the updated analysis, management did not identify an impairment for this CGU as at 30 June 2024. This CGU will continue to be monitored during the second half of the year.

Sensitivity to changes in assumptions

The key assumptions are underpinned by a turnaround in the New Zealand economy that would see the automotive retail market return to normalised trading conditions. Whilst the impairment testing conclusion outlines management's best estimates of key assumptions, should the New Zealand market continue to underperform, this may materially impact the determination of the recoverable amount. Therefore, management recognises that a reasonably possible change in one or a combination of the key assumptions applied to the post-tax discount rate, growth rates or gross margin could result in an impairment.

10 Borrowings

Term Facility

During the six month period, the Group drew down \$200.7 million from the term facility. \$133.4 million of the proceeds from the draw down have been used to fund the acquisition of the NGP Victoria Dealership Group and Alice Springs Toyota. Refer to Note 12 for further information. The undrawn balance of the term facility at 30 June 2024 was \$86.7 million.

Capital Loan

During the six month period, the Group drew down \$118.1 million to fund property acquisitions, including the properties associated with the two business acquisitions disclosed in Note 12 for a total acquisition price of \$114.9 million. The undrawn balance of the capital loan facility at 30 June 2024 was \$60.6 million.

11 Fair value

The Directors consider that the carrying amounts of financial assets and financial liabilities recorded in the financial statements approximate their fair value.

The fair value and net fair value of financial assets and financial liabilities are determined as follows:

- The fair value of financial assets and financial liabilities with standard terms and conditions, and traded on active liquid
 markets, are determined with reference to quoted market prices (includes listed redeemable notes, bills of exchange,
 debentures and perpetual notes); and
- The fair value of derivative instruments are calculated using quoted prices. Where such prices are not available, discounted
 cash flow analysis is performed using the applicable yield curve for the duration of the instruments for non-optional
 derivatives and option pricing models for optional derivatives. Interest rate swaps are measured at the present value of
 future cash flows, estimated and discounted based on the applicable yield curves derived from quoted interest rates.

Details of the Group's freehold land and buildings held at fair value and information about the fair value hierarchy as at 30 June 2024 are as follows:

Explanation of asset classes:

- Car Higher and Best Use ("HBU") Alternate Use refers to properties which have a HBU greater than that of a car dealership; and
- · Franchised Automotive Dealership refers to properties operating as car dealerships with a HBU consistent with that use.

Independent Auditor's Review Report to the Members of Eagers Automotive Limited

Conclusion

We have reviewed the half-year financial report of Eagers Automotive Limited (the "Company") and its subsidiaries (the "Group") which comprises the condensed consolidated statement of financial position as at 30 June 2024, and the condensed consolidated statement of other comprehensive income, the condensed consolidated statement of cash flows and the condensed consolidated statement of changes in equity for the half-year ended on that date, notes to the financial statements, including material accounting policy information and other explanatory information, and the directors' declaration as set out on page 20.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of the Group does not comply with the *Corporations Act 2001*, including:

- Giving a true and fair view of the Group's financial position as at 30 June 2024 and of its performance for the halfyear ended on that date; and
- Complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Entity. Our responsibilities are further described in the Auditor's Responsibilities for the Review of the Half-year Financial Report section of our report. We are independent of the Group in accordance with the auditor independence requirements of the Corporations Act 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards) ("the Code") that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001* which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's review report.

Directors' Responsibilities for the Half-year Financial Report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Review of the Half-year Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 30 June 2024 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Deloitte.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
