Commentary on Results for the Period

Corporate Review

During the first half of the 2024 financial year Connected Minerals Limited (formerly Connected IO Limited) (“Connected” or “the Company”) has continued to evaluate potential acquisition opportunities, with several progressing through negotiations to formal due diligence.

On 27 June 2024 Connected announced to the ASX details of binding agreements under which the Company proposes to acquire:

- 100% of the issued capital of Namibia U308 Pty Ltd, which will hold an 80% interest in 1 granted exclusive prospecting licence (EPL) and 3 EPL applications located in Namibia, which are prospective for uranium; and
- 100% of the legal and beneficial interest in 3 granted exploration licences located in Western Australia, which are prospective for gold from Mining Equities Pty Ltd.

In conjunction with the above acquisitions, the Company undertook a consolidation on a 20 to 1 basis and issued a Prospectus to raise up to \$5,200,000 (before costs) via a:

1. non-renounceable entitlement offer of Shares to eligible Shareholders on an 8.5 for 10 basis to raise \$2,700,000 (before costs); and
2. placement of Shares to institutional and professional investors to raise up to \$2,500,000 (before costs),

(together, the Proposed Transaction).

The capital raisings will provide funding for the Company to adopt and implement its new business undertakings, including exploration activities on the Namibian and WA projects.

Upon completion of the Proposed Transaction, Connected will effectively transform into a junior minerals explorer and, by re-complying with Chapters 1 and 2 of the Listing Rules with exploration and potential development of the Namibian and WA projects as its main business undertaking, the Company's shares will be reinstated to trading on the ASX.

A Notice of General Meeting was dispatched to shareholders on the 26 June 2024 seeking approval of the Proposed Transaction, including the change of company name to “*Connected Minerals Limited*”.

Further details on the Proposed Transaction and the Namibian and WA projects are contained in the release to ASX and Notice of General Meeting dated 26 June 2024.

Following shareholder approval of all resolutions at the General Meeting held on 26 July 2024, the Company's new name has been registered with the Australian Securities and Investments Commission. The name change to

Connected Minerals Limited will be reflected on the Official List of ASX upon the Company's shares being re-instated to trading, at which time Company's ASX ticker code will also be changed to "CML".

Corporate Review (continued)

Following completion, the Company's strategy will involve undertaking best practice and systematic exploration of the Namibian Projects and WA Projects so that any economic deposits may be defined and potentially developed for commercial gain. The Company has assembled an experienced and qualified team to deliver on its core exploration and corporate strategy.

During the 2024 financial year Connected announced that it had received payments of \$27,394 from Focus Minerals Ltd (ASX: FML) in respect to a historical royalty granted to the Company in 1995 over a mining tenement near Coolgardie, Western Australia. The Company welcomes the opportunity to benefit from future cash royalty payments should further mining activities be conducted on any of the tenements triggering the entitlement or to consider the potential sale of the royalty.

There have been no changes to management or the Board during the year.

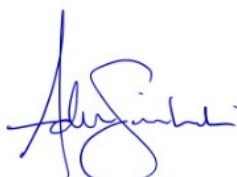

Operational Review

Connected's revenues from ordinary activities decreased from \$59,070 for FY2023 to \$35,916 for FY2024, representing a 39.20% decrease which was primarily associated with the receipt of interest income on short term deposits of \$8,522 and total royalty payments of \$27,394 from Focus Minerals Ltd (ASX: FML).

The net loss for the Company for the year ended 30 June 2024 was \$417,684.

(CIO Tech) to its previous Managing Director, Mr Yakov Temov agreed to accept responsibility for the repayment of a \$400,000 loan owed by CIO Tech to the Company of which \$94,027 was repaid via the sale of shares held by Mr Temov.

Due to the uncertainty regarding the recoverability of the outstanding loan receivable of \$305,973, the Directors resolved to recognise a provision for doubtful debt for the entire outstanding balance as at 30 June 2022.

NOTES TO THE FINANCIAL STATEMENTS AS AT 30 JUNE 2024

2. Trade and other receivables (continued)

In June 2024, the Company entered into a settlement agreement and release with Mr Temov to resolve and end the dispute. Expected credit losses

The Company applies the AASB 9 simplified model of recognising lifetime expected credit losses for all trade receivables as these items do not have a significant financing component.

In measuring the expected credit losses, the trade receivables have been assessed on a collective basis as they possess shared credit risk characteristics. They have been grouped based on the days past due.

The current expected loss rates are based on the payment profile for sales over the past 24 months before 30 June 2024 and 30 June 2023 respectively as well as the corresponding historical credit losses during that period. The historical rates are adjusted to reflect current and forwarding looking factors affecting the customer's ability to settle the amount outstanding. The expected credit loss at 30 June 2024 and 2023 was nil.

Upon completion of the Proposed Transaction, Connected will effectively transform into a junior minerals explorer and, by re-complying with Chapters 1 and 2 of the Listing Rules with exploration and potential development of the Namibian and WA projects as its main business undertaking, the Company's shares will be reinstated to trading on the ASX.

A Notice of General Meeting was dispatched to shareholders on the 26 June 2024 seeking approval of the Proposed Transaction, including the change of company name to "*Connected Minerals Limited*".

Further details on the Proposed Transaction and the Namibian and WA projects are contained in the release to ASX and Notice of General Meeting dated 26 June 2024.

Following shareholder approval of all resolutions at the General Meeting held on 26 July 2024, the Company's new name has been registered with the Australian Securities and Investments Commission. The name change to Connected Minerals Limited will be reflected on the Official List of ASX upon the Company's shares being re-instated to trading, at which time Company's ASX ticker code will also be changed to "CML".

Following completion, the Company's strategy will involve undertaking best practice and systematic exploration of the Namibian Projects and WA Projects so that any economic deposits may be defined and potentially developed for commercial gain. The Company has assembled an experienced and qualified team to deliver on its core exploration and corporate strategy.

During the 2024 financial year Connected announced that it had received payments of \$27,394 from Focus Minerals Ltd (ASX: FML) in respect to a historical royalty granted to the Company in 1995 over a mining tenement near Coolgardie, Western Australia. The Company welcomes the opportunity to benefit from future cash royalty payments should further mining activities be conducted on any of the tenements triggering the entitlement or to consider the potential sale of the royalty.

There have been no changes to management or the Board during the year.

DIRECTORS' REPORT

Significant changes in the state of affairs

On 27 June 2024, following the Company's pursuit of various acquisition opportunities during the year, the Company announced that it has entered into binding agreements to acquire the Namibian Uranium Project and Mt Genoa Project (collectively, the Acquisitions), signalling a new strategic direction and potential future opportunity for the Company within the minerals exploration industry.

Namibian Uranium Project

The Company entered into a share sale agreement (NU308 Agreement) with Namibia U308 Pty Ltd (Namibia U308) and key shareholders of Namibia U308 (Major NU308 Shareholders) to acquire 100% of the share capital in Namibia U308 and, in doing so, its 80% legal and beneficial interest in 1 granted tenement, being EPL 6933, and 3 tenement applications, being EPL 9162, EPL 9705 and EPL 9576, located in Namibia that are prospective for uranium (NU308 Acquisition).

Mt Genoa Project

The Company entered into a binding term sheet (ME Agreement) with Mining Equities Pty Ltd (ME Vendor) under which the Company proposes to acquire 100% legal and beneficial interest in the Mt Genoa Project, Civilisation Bore Project and the Pallingup Project located in Western Australia (WA Projects) that are prospective for gold (ME Acquisition).

In conjunction with the Acquisitions, the Company undertook a consolidation of its share capital on a 20 to 1 basis in August 2024 and issued a prospectus (in July 2024), by way of a non-renounceable entitlement offer and share placement (collectively, the Capital Raisings), to provide funding for the Company to adopt and implement its new business undertaking, including exploration activities on the Namibian Uranium Project and the WA Projects.

Non-renounceable Entitlement Offer

A non-renounceable entitlement offer of shares to eligible shareholders on an 8.5 for 10 basis to raise \$2.7 million (before costs) through the issue of 13.5 million shares (on a post-consolidation 20 to 1 basis) at an issue price of \$0.20 per share (Entitlement Offer).

NOTES TO THE FINANCIAL STATEMENTS

1 SUMMARY OF MATERIAL ACCOUNTING POLICIES

(a) Basis of preparation

The financial report is a general purpose financial report, which has been prepared in accordance with the requirements of the *Corporations Act 2001*, Australian Accounting Standards and Interpretations and complies with other requirements of the law.

The accounting policies detailed below have been consistently applied to all of the years presented unless otherwise stated. For the purpose of preparing the financial statements, the Company is a for-profit entity.

The financial report has been prepared on an accruals basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities.

The financial report is presented in Australian dollars.

Connected Minerals Limited is incorporated in Australia and its shares are currently suspended from quotation on ASX until such time that the Company is able to demonstrate compliance with Listing Rule 12.1.

The Company previously prepared consolidated financial reports incorporating its controlled entities, Connected IO (Asia) Pty Ltd and Connected IO (USA) LLC. However, both subsidiaries were de-registered during the year ended 30 June 2024. As these subsidiaries had immaterial assets and liabilities, there has been no adjustment to comparative information as a result of the deconsolidation.

During the year ended 30 June 2024, the Company continued to evaluate potential acquisition opportunities.

On 27 June 2024 the Company announced that it has entered into binding agreements to acquire the Namibian Uranium Project and Mt Genoa Project, signalling a new strategic direction and potential future opportunity for the Company within the minerals exploration industry.

(b) Statement of compliance

The financial report was authorised for issue on 29 August 2024.

The financial report complies with Australian Accounting Standards, which include Australian equivalents to International Financial Reporting Standards (AIFRS). Compliance with AIFRS ensures that the financial report comprising the financial statements and notes thereto, complies with International Financial Reporting Standards (IFRS).

(c) Adoption of new and revised standards

Standards and Interpretations applicable to 30 June 2024

For the year ended 30 June 2024, the Directors have reviewed all of the new and revised Standards and Interpretations issued by the AASB that are relevant to the Company and effective for the current reporting periods beginning on or after 1 July 2023.

As a result of this review, the Directors have determined that there is no material impact of the new and revised Standards and Interpretations on the Company and therefore no material change is necessary to the Company's accounting policies.

The following Accounting Standards and Interpretations is most relevant to the Company:

NOTES TO THE FINANCIAL STATEMENTS

1 SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

(c) Adoption of new and revised standards (continued)

AASB 2021-2: Amendments to Australian Accounting Standards – Disclosure of Accounting Policies and Definition of Accounting Estimates

The Company adopted AASB 2021-2 which amends AASB 7, AASB 101, AASB 108 and AASB 134 to require disclosure of 'material accounting policy information' rather than significant accounting policies' in an entity's financial statements. It also updates AASB Practice Statement 2 to provide guidance on the application of the concept of materiality to accounting policy disclosures.

The adoption of the amendment did not have a material impact on the financial statements.

Standards and Interpretations in issue not yet effective

The Directors have also reviewed all of the new and revised Standards and Interpretations in issue not yet effective for the year ended 30 June 2024.

As a result of this review the Directors have determined that there are no new and revised Standards and Interpretations that may have a material effect on the application in future periods and therefore, no material change is necessary to the Company's accounting policies.

(d) Revenue recognition

The Company recognises revenue as follows:

Interest income

Interest income is recognised as interest accrues using the effective interest method. This is a method of calculating the amortised cost of a financial asset and allocating the interest income over the relevant period using the effective interest rate, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial asset.

Other income

Other income is recognised when it is received or when the right to receive payment is established.

(e) Trade and other receivables

Trade receivables are measured on initial recognition at fair value and are subsequently measured at amortised cost using the effective interest rate method, less any allowance for expected credit loss. Trade receivables are generally due for settlement within 30 days.

The Company has applied the simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance. To measure the expected credit loss, trade receivables have been grouped based on days overdue.

Other receivables are recognised at amortised cost less any allowance for expected credit losses.

(f) Income tax

The income tax expense or benefit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the balance date.

NOTES TO THE FINANCIAL STATEMENTS

1 SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

(g) Trade and other payables

Trade payables and other payables are carried at amortised costs and represent liabilities for goods and services provided to the Company prior to the end of the financial year that are unpaid and arise when the Company becomes obliged to make future payments in respect of the purchase of these goods and services. Trade and other payables are presented as current liabilities unless payment is not due within 12 months.

(h) Issued capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

(i) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors of the Company.

(j) Earnings/loss per share

Basic earnings/loss per share is calculated as net profit/loss attributable to members of the parent, adjusted to exclude any costs of servicing equity (other than dividends) and preference share dividends, divided by the weighted average number of ordinary shares, adjusted for any bonus element.

Diluted earnings/loss per share is calculated as net profit/loss attributable to members of the parent, adjusted for:

- costs of servicing equity (other than dividends) and preference share dividends;
- the after tax effect of dividends and interest associated with dilutive potential ordinary shares that have been recognised as expenses; and
- other non-discretionary changes in revenues or expenses during the period that would result from the dilution of potential ordinary shares, divided by the weighted average number of ordinary shares and dilutive potential ordinary shares, adjusted for any bonus element.

In the event of changes in the ordinary shares on issue as a result of a capitalisation, bonus issue or share split, the calculation of the basic and diluted earnings/loss per share is adjusted accordingly for all periods being presented.

(k) Critical accounting estimates and judgments

The application of accounting policies requires the use of judgements, estimates and assumptions about carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions are recognised in the period in which the estimate is revised if it effects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

(a) Income tax recognised in profit or loss		
Tax expense comprises:		
Current tax expense	-	-
Deferred tax expense	-	-
Total tax expense relating to continuing operations	-	-

The prima face income tax expense on pre-tax accounting loss from operations reconciles to the income tax expense in the financial statements as follows:

Loss for the year	(417,684)	(455,733)
Income tax benefit calculated at 30% (2023: 25%)	(125,305)	(113,933)

Add/(Less):

- Unused tax losses and tax offset not recognised as deferred tax assets	(230,814)	109,151
- Other deferred tax assets and tax liabilities not recognised	117,484	4,782
- Change in tax rate	240,659	-
Income Tax Expense	-	-

(b) Unrecognised deferred tax balances

The following deferred tax assets and liabilities have not been brought to account 30% (2023: 25%):

Deferred tax assets comprise:

Accrued expenses and liabilities	15,225	34,008
Share issue expenses	34,929	44,859
Blackhole expenses	14,101	5,865
Depreciation timing differences	14,375	12,112
Losses available for offset against future taxable income – revenue	1,487,490	1,106,452
Losses available for offset against future taxable income – capital	1,970,311	1,641,926
Total deferred tax assets	3,536,431	2,845,222

Deferred tax assets have not been recognised in respect of the above items because it is not considered probable that future taxable profit will be available against which the Company can utilise the benefits thereof. Deferred tax liabilities have not been recognised in respect of these taxable temporary differences as the entity is able to control the timing of the reversal of the temporary differences and it is probable that the temporary differences will not reverse in the foreseeable future.

Closing balance	17,216	14,773

Trade receivables are non-interest bearing and are generally on 30 day terms. All amounts are short term. The carrying value of trade receivables is considered a reasonable approximation of fair value.

(i) Loan receivable – Yakov Temov

During the year ended 30 June 2022, as part of the Company's disposal of CIO Technology, Inc. (CIO Tech) to its previous Managing Director, Mr Yakov Temov agreed to accept responsibility for the repayment of a \$400,000 loan owed by CIO Tech to the Company of which \$94,027 was repaid via the sale of shares held by Mr Temov.

Due to the uncertainty regarding the recoverability of the outstanding loan receivable of \$305,973, the Directors resolved to recognise a provision for doubtful debt for the entire outstanding balance as at 30 June 2022.

In June 2024, the Company entered into a settlement agreement and release with Mr Temov to resolve and end the dispute. As part of the terms of the settlement, Mr Temov will pay the Company USD \$4,500 (AUD \$6,745) and in doing so, both the Company and Mr Temov will release and discharge one another from any and all claims in respect of the matter.

Expected credit losses

The Company applies the AASB 9 simplified model of recognising lifetime expected credit losses for all trade receivables as these items do not have a significant financing component.

In measuring the expected credit losses, the trade receivables have been assessed on a collective basis as they possess shared credit risk characteristics. They have been grouped based on the days past due.

The current expected loss rates are based on the payment profile for sales over the past 24 months before 30 June 2024 and 30 June 2023 respectively as well as the corresponding historical credit losses during that period. The historical rates are adjusted to reflect current and forwarding looking factors affecting the customer's ability to settle the amount outstanding. The expected credit loss at 30 June 2024 and 2023 was nil.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of:

- (a) the financial report (other than the consolidated entity disclosure statement) that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001*; and
- (b) the consolidated entity disclosure statement that is true and correct in accordance with the *Corporations Act 2001*, and

for such internal control as the directors determine is necessary to enable the preparation of:

- (a) the financial report (other than the consolidated entity disclosure statement) that gives a true and fair view and is free from material misstatement, whether due to fraud or error; and
- (b) the consolidated entity disclosure statement that is true and correct and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material

- misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
 - Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
 - Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial report of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.
