

Share Purchase Plan closes oversubscribed, raising \$602,000

Highlights

- **SPP well supported** by existing shareholders **raising in excess of the \$500,000 target**
- In conjunction with funds raised via the Placement, **KalGold is well-funded to accelerate its work programs in the Pinjin area**

Kalgoorlie Gold Mining (ASX: KAL) ('KalGold' or 'the Company'), is pleased to announce the successful completion of its Share Purchase Plan ('**SPP**').

The SPP was strongly supported by eligible shareholders and was oversubscribed by \$102,000. Valid applications received totalled \$602,000 at an issue price of A\$0.026 per share (together with a 1-for-1 attaching unquoted option with an exercise price of A\$0.032 per share and expiry of 19 September 2026) ('**Attaching Options**').

The Board of Directors of KalGold ('**Board**') has exercised its absolute discretion under the terms of the Offer Booklet of 7 August 2024 to accept all valid applications in full to accommodate all applications. The Board took this decision in recognition of the long-term support of its retail shareholders.

Commenting on the outcome of the SPP, Managing Director and CEO, Matt Painter, said:

"We are extremely pleased with the response to the SPP and sincerely appreciate the support of existing shareholders. We were also pleased to see demand for the SPP exceed the size of the offer. The Company wishes to thank shareholders for their continued support."

The SPP was announced on 29 July 2024 in conjunction with a A\$2.3 million institutional placement ('**Placement**'). Funds raised from the SPP, together with funds raised under the Placement will be used to accelerate drilling and satisfy farm-in commitments at Pinjin. These works are already underway with the first of the new drill programs focusing on t Wessex, Kirgella Gift North, and Providence West almost complete.

As a result of the SPP, the Company will issue a total of 23,153,822 new fully paid ordinary shares. The issue of shares under the SPP is expected to take place on or around 6 September 2024.

Subject to shareholder approval at the upcoming General Meeting to be held on 19 September 2024 ('**Meeting**'), successful subscribers under the SPP will be entitled to subscribe for the issue of the Attaching Options under a separate option offer prospectus ('**Options Prospectus**').

The Options Prospectus will also set out the terms on which option holders may be eligible for bonus options, being for every 1 Attaching Option (exercisable at A\$0.032) exercised within the first 12 months of issue, eligible shareholders will receive 1 additional unquoted option exercisable at A\$0.060 per option and expiring three years from the date of issue of the Attaching Options.

Authorised for lodgement by the Board of Kalgoorlie Gold Mining Limited.

About KalGold

ASX-listed resources company Kalgoorlie Gold Mining (KalGold, ASX: KAL) is a proven, low-cost gold discoverer with a large portfolio of West Australian projects and a total gold resource in excess of 214,000 oz. KalGold prides itself on defining shallow, potentially open-pittable gold resources at very low costs, currently less than A\$4.60 per ounce of gold². Current focus includes:

- The **Pinjin Project** within the **30Moz Laverton Tectonic Zone** (host to Sunrise Dam, Granny Smith, Rebecca, Anglo Saxon, and Wallaby projects) is located only 25km north along strike from Ramelius Resources (ASX: RMS) **Rebecca Gold Project**. A first JORC (2012) MRE at Kirgella Gift and Providence (2.34 Mt @ 1.0 g/t Au for 76,400 oz¹) represents the first area targeted by the Company at Pinjin, with many more targets scheduled for testing. The company aims to define further resources as these targets are tested. Some tenure is the subject of a farm-in over two years. Between this tenure and KalGold's own tenure and applications, the Company has established a significant presence in a strategic and important gold producing region.
- The **Bulong Taurus Project**, 35km east of Kalgoorlie-Boulder. Contains the outcropping **La Mascotte** gold deposit as well as a series of satellite prospects and historic workings of the **Taurus Goldfield**. KalGold's definition of a JORC (2012) MRE (3.61 Mt @ 1.19 g/t Au for 138,000 oz²) is outcropping and only 35km from the City of Kalgoorlie-Boulder. Work continues at the project

In accordance with ASX Listing Rule 5.23, the Company is not aware of any new information or data that materially affects the information included in this release, and the Company confirms that, to the best of its knowledge, all material assumptions and technical parameters underpinning the estimates in these releases continue to apply and have not materially changed.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING INFORMATION

This news release contains forward-looking statements and forward-looking information within the meaning of applicable Australian securities laws, which are based on expectations, estimates and projections as of the date of this news release.

This forward-looking information includes, or may be based upon, without limitation, estimates, forecasts and statements as to management's expectations with respect to, among other things, the timing and amount of funding required to execute the Company's exploration, development and business plans, capital and exploration expenditures, the effect on the Company of any changes to existing legislation or policy, government regulation of mining operations, the length of time required to obtain permits, certifications and approvals, the success of exploration, development and mining activities, the geology of the Company's properties, environmental risks, the availability and mobility of labour, the focus of the Company in the future, demand and market outlook for precious metals and the prices thereof, progress in development of mineral properties, the Company's ability to raise funding privately or on a public market in the future, the Company's future growth, results of operations, restrictions caused by COVID-19, performance, and business prospects and opportunities. Wherever possible, words such as "anticipate," "believe," "expect," "intend," "may" and similar expressions have been used to identify such forward-looking information. Forward-looking information is based on the opinions and estimates of management at the date the information is given, and on information available to management at such time.

Forward-looking information involves significant risks, uncertainties, assumptions, and other factors that could cause actual results, performance, or achievements to differ materially from the results discussed or implied in the forward-looking information. These factors, including, but not limited to, fluctuations in currency markets, fluctuations in commodity prices, the ability of the Company to access sufficient capital on favourable terms or at all, changes in national and local government legislation, taxation, controls, regulations, political or economic developments in Australia or other countries in which the Company does business or may carry on business in the future, operational or technical difficulties in connection with exploration or development activities, employee relations, the speculative nature of mineral exploration and development, obtaining necessary licenses and permits, diminishing quantities and grades of mineral reserves, contests over title to properties, especially title to undeveloped properties, the inherent risks involved in the exploration and development of mineral properties, the uncertainties involved in interpreting drill results and other geological data, environmental hazards, industrial accidents, unusual or unexpected formations, pressures, cave-ins and flooding, limitations of insurance coverage and the possibility of project cost overruns or unanticipated costs and expenses, and should be considered carefully. Many of these uncertainties and contingencies can affect the Company's actual results and could cause actual results to differ materially from those expressed or implied in any forward-looking statements made by, or on behalf of, the Company. Prospective investors should not place undue reliance on any forward-looking information.

Although the forward-looking information contained in this news release is based upon what management believes, or believed at the time, to be reasonable assumptions, the Company cannot assure prospective purchasers that actual results will be consistent with such forward-looking information, as there may be other factors that cause results not to be as anticipated, estimated or intended, and neither the Company nor any other person assumes responsibility for the accuracy and completeness of any such forward-looking information. The Company does not undertake, and assumes no obligation, to update or revise any such forward-looking statements or forward-looking information contained herein to reflect new events or circumstances, except as may be required by law.

No stock exchange, regulation services provider, securities commission or other regulatory authority has approved or disapproved the information contained in this news release.

COMPETENT PERSON STATEMENT

The information in this report that relates to Exploration Targets, Exploration Results, Mineral Resources or Ore Reserves is based on information compiled by Dr Matthew Painter, a Competent Person who is a Member of the Australian Institute of Geoscientists. Dr Painter is the Managing Director and Chief Executive Officer of Kalgoorlie Gold Mining Limited (KalGold) and has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Dr Painter consents to the inclusion in the report of the matters based on his information in the form and context in which it appears. Dr Painter holds securities in Kalgoorlie Gold Mining Limited.
