

Market Release:

Yancoal added to S&P/ASX 200 and S&P/ASX 300 indices from 23 September 2024

Yancoal Australia Ltd (“Yancoal” or the “Company”) notes the index announcement from S&P Dow Jones Indices dated 6 September 2024. Following its September quarterly review, effective prior to the open of trading on 23 September 2024, Yancoal will be added to following indices:

- S&P/ASX 200, and
- S&P/ASX 300.

The ASX index inclusion follows Yancoal’s addition to the Hang Seng Composite, and inclusion in the list of stocks eligible for trading under the Stock Connect program with the mainland Chinese stock market in March 2023.

David Moul, Chief Executive Officer, said this is a welcome event in Yancoal’s 20th anniversary year, and 12 years since its listing on the ASX.

“We were encouraged to see the notable increase in the Company’s market valuation, average daily turnover and shareholder base during recent years as we recovered from extended rain disruptions and our free float increased.

“Yancoal provides investors with direct exposure to international coal markets. In the 12 months to 30 June 2024, Yancoal operations produced over 62 million tonnes of ROM coal and 36 million tonnes of attributable saleable coal. Our anticipated production rate over the remainder of 2024 puts us on track to be the second largest coal producer in Australia.

“We see the Company’s inclusion in the S&P ASX indices providing a further opportunity to expand our investor base and bolster the trading liquidity of our shares.”

Yancoal released its 1H 2024 Financial Results on 19 August 2024; the materials are available on the Company website and the Australian Securities Exchange (“ASX”) and Stock Exchange of Hong Kong (“HKEX”) websites. The next scheduled disclosure is the 2024 Third Quarter Production Report due for release on 17 October 2024.
