Chairman's Letter

To our valued shareholders and other stakeholders

Welcome to the Annual Report for 2024.

It has been another very busy year for the team at Kingston, with the successful completion of the tailings retreatment project and refurbishment of the process plant in readiness for mining hard gold and polymetallic ores for our resources.

We completed the tailings treatment in May, with 12,461oz of gold sold for the year, producing \$10 million in operating cash flow. First gold ore from the Pearse pits was mined in June and processing through the newly refurbished crusher and mills commenced after year end in July 2024.

What is most exceptional about the plant refurbishment is that very low costs incurred, which was achieved by a small team of highly skilled and dedicated professionals at site to manage the project. We anticipate this will be the start of long run of mining and processing at Mineral Hill that will underpin the growth of the Company in the coming years.

As with most other activities at Mineral Hill, open pit mining is being carried out by the Company. Local employees who were operating the tailings re-mining project have transitioned across to open pit mining, with mining equipment being hired from a local supplier. We believe this strategy will continue to deliver significant benefits to the Company and local communities, and we therefore intend to follow the same strategy for development of the underground mine, which will recommence in 2025.

At Kingston we believe Mineral Hill is now a significant strategic asset. It is unique in NSW, being a fully permitted mining and processing operation that can produce precious and base metals from the various orebody types that exist within the broader Cobar region. The region has multiple "stranded" orebodies that are not currently large enough to justify the time and cost to permit and build a dedicated process plant and tailings facility, thus presenting a significant opportunity for Kingston and the shareholders of other companies to benefit through strategic cooperation.

The other significant development is the renewed enthusiasm for gold. In FY24, the gold price rose 21% from A\$2,877 to A\$3,486, as the global economy adjusted to expectations of falling interest rates following the high inflationary period post covid.

Misima continues to represent an outstanding investment opportunity with strong economics and a long mine life. We continue to pursue strategic options for the development of Misima that will lead to growth in shareholder value and realisation of significant social benefits to the people of Misima and the people of PNG more broadly.

Thank you again for your continued support for Kingston.

Your sincerely

Mick Wilkes

Non-Executive Chair

Directors' Report

The Directors present their report together with the financial statements of the Consolidated Entity (or 'Group'), being Kingston Resources Limited ('Kingston' or the 'Company') and its subsidiaries, for the financial year ended 30 June 2024 and the independent auditor's report thereon.

PRINCIPAL ACTIVITIES

The Company is an Australian-based Company listed on the ASX. The principal activity of the Group during the period was mineral production and exploration.

OPERATING RESULTS AND REVIEW OF OPERATIONS FOR THE YEAR

Operating Results

Kingston reported a statutory after tax loss of \$720,353 (2023: profit \$9,787,333). The financial loss in FY24 relative to profit in FY23 is due to completion of tailings retreatment project and transitioning to hard rock mining during the year.

Review of Operations

Kingston had an enormously productive year at Mineral Hill, completing numerous development projects and maximising gold production and cash flow over the term. The company also boasted commencement of open pit mining and a full plant refurbishment at Mineral Hill. Other major achievements included:

- Gold production of 11,818oz from the Tailings Project at Mineral Hill.
- Commenced open pit mining at Pearse North with the first blast on 11 June 2024.
- Processing plant refurbishment, a major technical and financial success, with key refurbishments including ball mill re-lining, conveyor belt alignment, crusher circuit, and motor control modernisation.
- Near mine underground discovery at Southern Ore Zone (SOZ), with a new underground lode discovered, confirming potential resource expansion.
- Assays from drill holes at SOZ extended high grade mineralisation over 400m along strike, confirming high-grade polymetallic mineralisation and supporting resource confidence.
- Mineral Resource Estimate for Pearse North increased by 30% in gold and 67% in silver (contained metal basis).
- Multiple phases of exploration and geotechnical drilling at deposits within the current mine plan and near mine targets within the mining lease.
- Strategic review at Misima Gold Project in PNG continued to maximise project value with interest driven by favourable gold prices. Potential pre-tax NPV of \$2.2 billion under current market conditions.

The company's growth outlook has been strengthened by the transition back to hard rock mining, allowing the company to redirect resources and skilled staff to higher grade ore. This achievement lays the groundwork for a five-year mine plan beyond the tailings processing phase. This plan complements the longer-term opportunities offered by the Misima Gold Project.

Mineral Hill Mine

Tailings Project

Kingston had a highly successful year at Mineral Hill for our operations and projects. The Tailings project was successfully completed in May 2024, producing a total of 34,540 ounces of gold and generating \$26 million in operating

For personal use only

cash flow since acquisition of Mineral Hill by Kingston in January 2022. This achievement has provided a solid financial foundation for the company's ongoing operations.

Gold sales from the Tailings Project were 12,461oz at an average sales price of A\$3,104/oz with all-in-sustaining cost (AISC) of \$2,291

Table 1: FY24 production results and performance relative to FY23.

	FY23 Actuals	FY24 Actuals	Y on Y Δ
Tonnes Processed (t)	627,994	505,845	-19%
Average Feed Grade (g/t)	1.36	1.30	-4%
Gold Production (oz)	16,520	11,818	-28%
Gold Sales (oz)	16,068	12,461	-22%
Silver Sales (oz)	16,898	16,266	-4%
AISC (A\$/oz)	\$1,686	\$2,291	36%
Sales (A\$m)	\$44.7	\$38.67	-13%
Operating Cashflow (A\$m)	\$16.9	\$9.99	-41%

Open Pit Mining Commences

Open pit mining commenced at Pearse North, with the initial blast on 11 June and the first oxide ore delivered to the ROM pad (See ASX Announcement on 18 June 2024). This marks a significant step towards Kingston's goal of becoming a regionally significant producer, following the successful completion of the tailings retreatment project in May 2024. The company's emphasis on owner-operator mining has continued, with equipment operators from the tailings mining operation successfully transitioning over to the open pit mining operations.

Figure 1: Open pit blast.

Figure 2: Open pit excavation haulage

Processing Plant Refurbishment and Commissioning

The plant refurbishment has been a major technical and financial success for Kingston this year. Rapid advancements are occurring in every area of the operation. The project has been entirely managed in-house with our own expertise, significantly impacting our organisation's capabilities and creating a workforce with diverse skills.

Key areas of focus during the year include the re-lining of the ball mills, alignment of the conveyer belts, refurbishment of the crusher circuit and fine ore bins and the modernisation of the motor control circuits (electrical control).

In July, stockpiled oxide ore from Pearse North was fed into the comminution circuit, sales of gold and silver doré commenced in August. Restoring the Mineral Hill processing plant to full capability is creating immense value for the region. The plant is the only facility in the southern Cobar Basin capable of producing multiple metal concentrates and precious metal doré.

Figure 4: Kingston Board of Directors inspecting the Minerals Hill plant

Exploration and Development

Kingston’s main focus on exploration drilling during the financial year was on the Pearse gold-silver deposits and SOZ polymetallic deposit. The primary aim of the drilling was to infill the existing drilling and provide data for updating the Mineral Resources, Ore Reserves and Life of Mine Plan (LOM) plan.

Southern Ore Zone (SOZ)

At SOZ, drilling programs were focussed on increasing the confidence in the current Mineral Resource estimates and exploring for extensions to the mineralisation. Infill and extensional drilling into the Southern Ore Zone returned high grade polymetallic assays and resulted in the confirmation of the near mine discovery made in the December quarter of 2023.

For personal use only

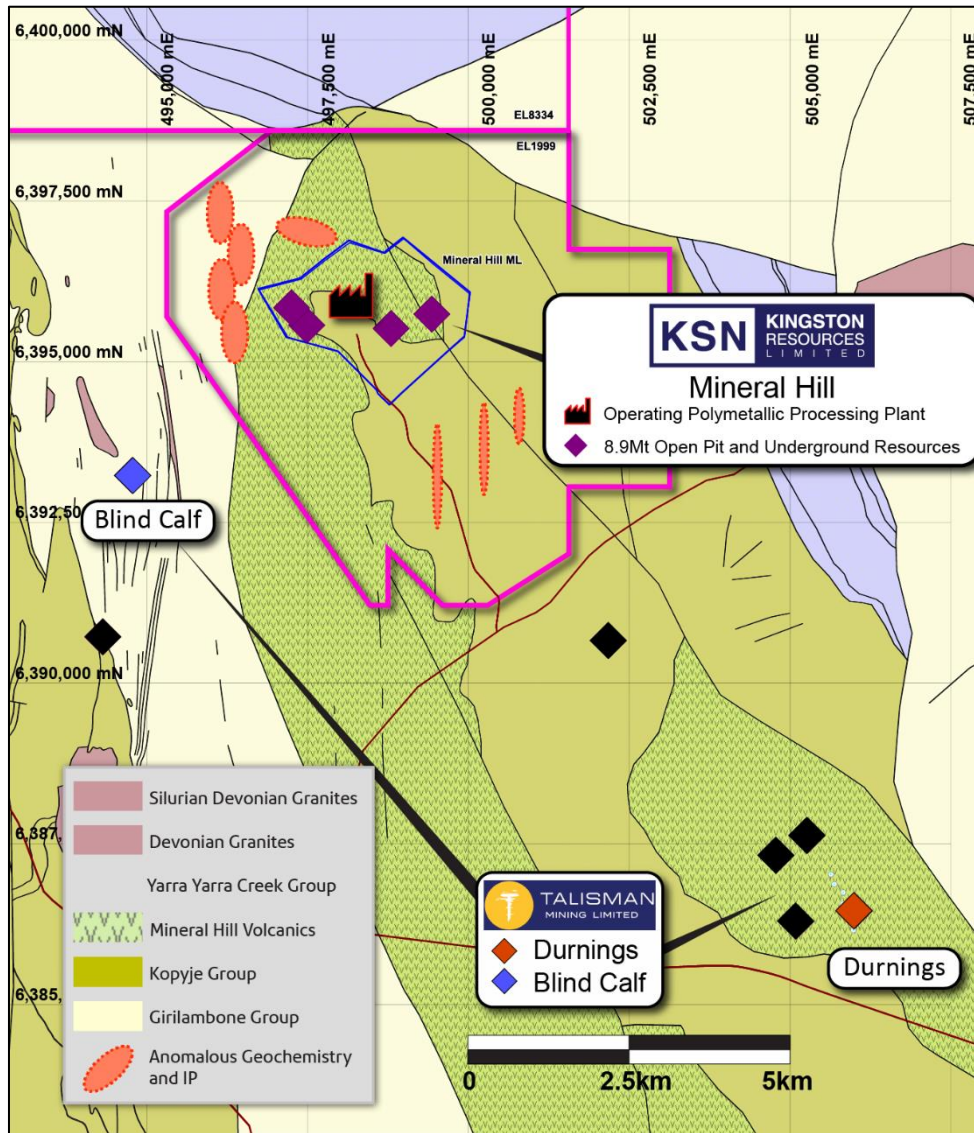

Figure 5: Mineral Hill regional geology, resources and infrastructure.

Near-Mine Underground Discovery

Kingston now has three intersections into the newly discovered underground lode. Drill hole KSNDDH019 followed up the initial intersection made in KSNDDH017 in the footwall of the Southern Ore Zone (See ASX announcement on 15 February 2024). Significant assays over this zone include:

- 12.5m @ 3.41% CuEq from 405m (KSNDDH017)
- 2m @ 6.37% CuEq from 255m (KSNDDH019)

These two drill holes have also confirmed the historical significant intercepts from “New Structure #1” and highlighted the potential to extend the mineral resources at depth.

For personal use only

For personal use only

Figure 6: Board review on the progress of process plant refurbishment on July 23

The confirmation of the new lode marks a significant milestone for the company, as it paves the way for further discoveries within the mine. The Southern Ore Zone remains open along strike at both ends and at depth. The availability of suitable drilling platforms has been the only limiting factor for continuing to expand the footprint of underground mineralisation so far.

Confirmation of the Main Underground Lode over 400m.

Additional infill and extensional drilling into the underground resources was undertaken during the March quarter. Outstanding assay results were reported, clearly illustrating the high-grade nature of the deposit and the region’s metal endowment (see ASX announcement on 9 April 2024). Drill holes KSNDH020, 21, 22 and 23 were drilled to infill the upper areas of the underground resources and aimed at increasing the confidence and extent of the existing resources. The

main lode in this part of the deposit (namely, the A-lode) has now been traced continuously over 400m strike and 200-250m down dip.

Significant intersections include:

- **9m @ 3.14% CuEq from 214m** (KSNDDH020):
 - Including **3m @ 8.13% CuEq**
- **4m @ 2.38% CuEq from 228m** (KSNDDH020)
 - Including **3m @ 4.67% CuEq from 191m** (KSNDDH021)
- **7.0m @ 3.76% CuEq from 164m** (KSNDDH022):
 - Including **3m @ 6.18% CuEq from 165m**
- **8.0m @ 2.06% CuEq from 173m** (KSNDDH023)
- **10.2m @ 2.73% CuEq from 187.8m** (KSNDDH023)

Figure 7: Drill core from KSNDDH021 (4m wide sulphide rich breccia lode (estimated true width of 2m) within a broader 31.6m wide brecciated and veined lode zone from 175.3mdh).

Pearse North

During the year, drilling was completed at Pearse North, with the primary purpose of collecting additional geotechnical data in preparation for open pit mining (see ASX announcement on 5 September 2023). The results returned numerous high-grade gold intercepts, validating the existing geological model and enhancing the Company’s confidence in the mine plan. Additionally, there were other significant intersections outside the existing Mineral Resources, indicating the potential for additional mineralisation during mining operations.

For personal use only

For personal use only

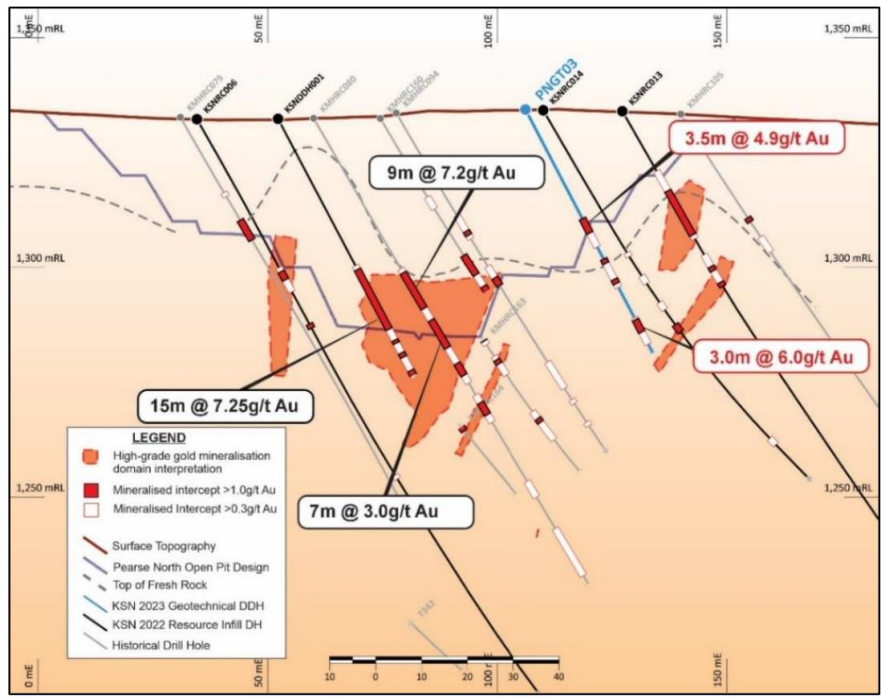

Figure 8: PGNT03 significant intersections

The Mineral Resource Estimate (MRE) for Pearse North increased substantially, with gold and silver resources rising by 30% and 67% respectively. The total Resources is now 292 kt @ 3.2 g/t Au and 34 g/t Ag with 30 koz of gold and 318 koz of silver (see ASX Announcement on 7 May 2024).

This increase reflects a greater confidence in the deposit’s continuity, as a review of the orientation of mineralisation demonstrated greater spatial continuity than previously modeled. Additionally, the mine plan is being optimised to leverage the current favorable gold prices, with planned pit designs undergoing re-optimisation.

Table 2 Pearse North Mineral Resource Estimate at 1.0g/t Au Cut Off

Classification	Tonnes kt	Grade Au g/t	Grade Ag g/t	Metal Au koz	Metal Ag koz
Indicated	270	3.2	34.2	28	297
Inferred	22	2.9	29.1	2	21
Total	292	3.2	33.9	30	318

* Due to rounding to appropriate significant figures, minor discrepancies may occur, tonnages are dry metric tonnes.

For personal use only

Figure 9: Plan view of Pearse North mineralisation wireframe outlines, block model and pit design (horizontal section at 310m AHD +/-5m).

Eastern Ore Zone

Drilling at the Eastern Ore Zone during the year confirmed a continuous lode, with a notable interval of 3m @ 25.94g/t gold. Kingston plans to re-enter the Eastern Ore Zone's underground development, where high-grade gold-copper was historically mined.

The company is updating Mineral Resource estimates for near-term production areas. While EOZ mineralisation isn't currently included, it may be incorporated in future estimates.

Encouraged by positive results, Kingston aims to expand Mineral Resources and extend Mineral Hill's life of mine through further exploration and drilling. The company remains focused on maximising mining value and sustainable growth.

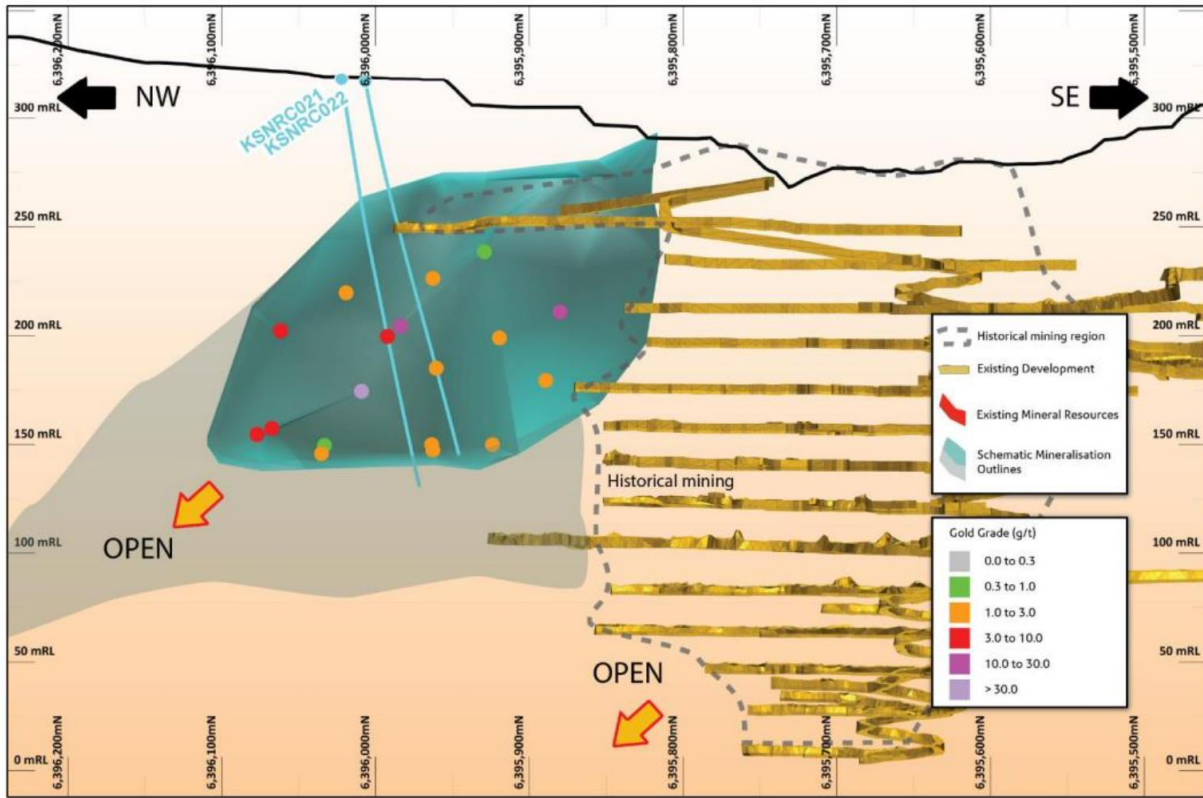

Figure 10: Long section view of Eastern Ore Zone (EOZ) showing extension potential.

Updated LOM Plan

An update of the life of mine (LOM) schedule is currently underway. This update will include revised Ore Reserve estimates for the Pearse Pits and a first-ever Ore Reserve for the Southern Ore Zone (SOZ). The Ore Reserve inputs will incorporate the latest Pearse North Mineral Resource Estimate (MRE), updated metal pricing for all deposits, and a planned update of the SOZ MRE (which is being finalized). The sequencing will align with the LOM plan disclosed to the ASX on 27 June 2023, comprising open pit mining from the Pearse Pits and underground mining from SOZ and Jack's Hut. This represents the most comprehensive technical work undertaken at Mineral Hill in recent history, providing all stakeholders with clarity on the asset's long-term future. Numerous opportunities to extend the LOM and increase the proportion of Ore Reserves in the mine plan will continue to emerge.

Safety, Environment and Sustainability

During the year, Kingston implemented extensive new safety, training, and hazard management measures at Mineral Hill. With the transition to open pit mining, we've updated mining procedures and implemented a range of explosives management plans and protections.

On-site training has intensified with the addition of staff in the mining and processing departments. In line with our commitment to local employment, we've launched a traineeship program offering nationally recognised qualifications. We're continuously upgrading our workforce's skills through on-the-job training, focusing on areas such as working at height, confined space operations, first aid, and blast procedures.

Kingston Resources is committed to sustainability principles and has begun reporting on key environmental, social, and governance aspects. We're compiling sustainability disclosures using universal, comparable metrics centred on people, planet, prosperity, and governance principles. This framework allows us to align our mainstream reporting with performance against key indicators.

We're actively seeking opportunities to enhance transparency on issues material to our business.

For personal use only

Misima Gold Project

Kingston's focus at the Misima Gold Project has been to attract a company to help bring the mine back into production. An internal process has been operating to select a partner who has the technical credibility and financial strength to realise the project's huge cash flow potential. . The project contains enormous latent value for Kingston shareholders, particularly in light of the recent strength in the price of gold.

Recent momentum in the gold price over the last year has generated significant interest in the project, which is highly leveraged to gold prices. Under a favourable gold price scenario of US\$2,400/oz and an AUD:USD exchange rate of 0.65, Misima is projected to deliver a pre-tax NPV1 of \$2.2 billion.

Near-mine surface mapping and inspections were undertaken during the year to firm up exploration models. Additionally, further environmental data was collected for the environmental impact statement (EIS).

The company is partnering with the local PNG government representatives and related financial institutions to deliver a Women in Business program, which aims to increase the financial literacy of women on the island. Women are encouraged to develop business plans for their own business ideas so that they can advance their idea through to funding and eventual launch. The program has had high engagement and groups in the broader community are also expressing interest in being involved.

COMPETENT PERSON'S STATEMENT

The information in this report that relates to Exploration Results and Mineral Resources is based on information compiled by Mr. Stuart Hayward BAppSc (Geology) MAIG, a Competent Person who is a member of the Australian Institute of Geoscientists. Mr. Hayward is an employee of the Company. Mr. Hayward has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr. Hayward consents to the inclusion in this report of the matters based upon the information in the form and context in which it appears.

The Competent Person signing off on the overall Ore Reserves Estimate is Mr John Wyche BE (Min Hon), of Australian Mine Design and Development Pty Ltd, who is a Fellow of the Australasian Institute of Mining and Metallurgy and who has sufficient relevant experience in operations and consulting for open pit metalliferous mines. Mr Wyche consents to the inclusion in this report of the matters based upon the information in the form and context in which it appears.

Kingston publicly reports Exploration Results and Mineral Resource estimates in accordance with the ASX Listing Rules and the requirements and guidelines of the 2012 edition of the Australasian Code for Reporting Exploration Results, Mineral Resources and Ore Reserves – the JORC Code. Kingston's governance for public reporting of Exploration Results and Mineral Resource estimates includes important assurance measures. All reports are signed-off by appropriate JORC Competent Persons with JORC Code Table 1 Checklists as required. Exploration Results and Mineral Resource estimates are also peer reviewed (either by Kingston technical staff or suitably qualified external consultants) before Board approval and ASX release.

FINANCIAL POSITION

At the end of the financial year, the Consolidated Entity had net assets of \$90,781,524 (2023: \$76,454,900) and held \$8,357,776 in cash (2023: \$18,206,767).

On 26 July 2023, the Company issued 4,561,810 shares to eligible employees upon exercise of 4,561,810 LTI options for cash totalling to \$45,618. The fair value of options issued was \$183,515.

On 17 August 2023, the Company issued 11,764,705 shares and 5,882,352 unlisted attaching options totalling to \$1,000,000 under Tranche 2 of the Share Placement Offer. No monies were raised from the Tranche 2 placement, however the final milestone payment of USD\$3.5 million due to Quintana Resources Holdings LP upon producing 30,000 Oz's of gold since acquisition of Mineral Hill Pty Ltd was reduced by USD\$645,100 (A\$1million). Fair value of unlisted options amounting to \$69,043 was recognised under share-based payment reserve. The unlisted options are each exercisable at \$0.14 each to acquire one fully paid ordinary share exercisable at any time up to 31 July 2025.

On 17 August 2023, the Company issued 10,247,017 shares and 5,123,459 unlisted attaching options under the SPP offer for cash totalling \$871,000. Fair value of unlisted options amounting to \$60,136 was recognised under share-based payment reserve. The unlisted options are each exercisable at \$0.14 each to acquire one fully paid ordinary share exercisable at any time up to 31 July 2025.

On 18 August 2023, the SPP was completed upon issuing 1,517,647 shares and 758,823 unlisted attaching options to the sub underwriter Delphi Unternehmensberatung Aktiengesellschaft, an existing major shareholder and sophisticated investor for cash totalling to \$129,000. Fair value of unlisted options amounting to \$8,907 was recognised under share-based payment reserve. The unlisted options are each exercisable at \$0.14 each to acquire one fully paid ordinary share exercisable at any time up to 31 July 2025.

On 2 April 2024, the Company announced its intention to undertake a Share Placement Offer and an Accelerated Non-Renounceable Rights Issue Offer (ANREO) raising a total of \$13.48 Million. On 8 April 2024, the Company issued 124,490,461 shares under the Placement Offer and 11,241,969 shares under the accelerated component of the ANREO for cash totalling to \$8,822,608.

On 15 May 2024, the Company issued 71,751,815 shares under the retail component of the ANREO for cash totalling to \$4,663,867.

SIGNIFICANT CHANGES IN THE STATE OF AFFAIRS

Other than reported above in the Review of Results and Operations, there were no significant changes in the state of affairs of the Company during the reporting period.

MATTERS SUBSEQUENT TO THE END OF FINANCIAL YEAR

On 29 August 2024, 1,134,182 STI performance Options vested and were converted to non-transferable ZEPOs. All the vested STI ZEPOs have an expiry date of 3 years from vesting. 2,010,910 unvested STI performance options expired.

On 23 August 2024, the Company secured a \$5 million debt facility in addition to its existing \$10 million debt, under a revised facility agreement with PURE Asset Management to fund the Company's key growth initiatives at Mineral Hill. The additional debt facility was drawn immediately and is repayable on 22 February 2027.

Other than the above, there has been no other matter or circumstance which has arisen since 30 June 2024 that has significantly affected or may significantly affect:

- a) Kingston Resources Limited's operations in future financial years; or
- b) the results of those operations in future financial years; or
- c) Kingston Resources Limited's state of affairs in future financial years.

DIVIDENDS OR DISTRIBUTIONS

No dividends were paid during the financial year and the directors do not recommend the payment of a dividend.

FUTURE DEVELOPMENTS AND EXPECTED RESULTS

The Group will continue its operating activities and evaluation of its mineral projects and undertake generative work to identify and potentially acquire new resource projects. Due to the nature of the business, the result is not predictable.

ENVIRONMENTAL REGULATIONS

The mineral tenements granted to the Company pursuant to New South Wales Mining Act 1992 and the Papua New Guinea Mining Act 1992, are granted subject to various conditions which include standard environmental requirements. The Company adheres to these conditions and the directors are not aware of any non-compliance with environmental laws.

INFORMATION ON THE DIRECTORS

The Directors of the Company at any time during or since the end of the financial year are:

- Mick Wilkes – Chair (Independent Non-Executive)
- Andrew Corbett – Director (Managing)
- Anthony Wehby – Director (Independent Non-Executive)
- Stuart Rechner - Director (Independent Non-Executive)

Directors have been in office since the start of the financial year to the date of this report unless otherwise stated.

Mick Wilkes, Non-Executive Chair (B Eng (Hons), MBA, GAICD)

Term of Office: Appointed Non-Executive Chair of Kingston Resources Limited from 1 December 2020; previously Non-Executive Director of Kingston Resources Limited from 6 July 2018 to 1 December 2020.

Skills and Experience: Mr Wilkes is a mining engineer with over 35 years of broad international experience with a strong emphasis on operations management and new mine development, predominantly in precious and base metals across Asia and Australia. He was the President and CEO of OceanaGold Corporation (ASX:OCG) from 2011 to 2020. In previous roles he was the Executive General Manager of Operations at OZ Minerals responsible for the development of the Prominent Hill copper/gold project in South Australia and General Manager of the Sepon gold/copper project for Oxiana based in Laos. His earlier experience included 10 years in various project development roles in Papua New Guinea.

Mr Wilkes was appointed as a Non-Executive Director of Genesis Minerals Ltd in September 2022. In April 2022 Mr Wilkes was appointed Non-Executive Chair of Andromeda Metals Ltd (ASX:ADN). Mr Wilkes was previously Non-Executive Director of Dacian Gold Ltd (ASX:DCN) from September 2021 then Non-Executive Chair from March 2022 to July 2022. He was also a Non-Executive Director of Matador Mining Ltd (ASX:MZZ) from July 2020 to May 2022.

Mr Wilkes holds a Bachelor of Engineering from the University of Queensland, a Master of Business Administration from Deakin University, and is a member of both the Australian Institute of Mining and Metallurgy, and the Australian Institute of Company Directors.

Andrew Corbett, Managing Director (B Eng (Mining, Hons), MBA)

Term of Office: Managing Director of Kingston Resources Limited since 4 July 2016.

Skills and Experience: Mr Corbett is Managing Director and CEO of the Company. Mr Corbett is a highly experienced mining engineer, having operated in the mining industry for over 25 years. Mr Corbett has senior corporate, operational and mine management experience combined with an in-depth understanding of global equity markets, business development and corporate strategy within the mining sector. His prior roles include General Manager at Orica Mining Services based in Germany and Co-Portfolio Manager of the Global Resource Fund at Perpetual Investments as well as mine management and operations roles with contractor and owner-mining operations.

Anthony Wehby, Non-Executive Director (MAICD)

Term of Office: Non-Executive Director of Kingston Resources Limited from 1 December 2020; previously Non-Executive Chairman of Kingston Resources Limited from 4 July 2016 to 1 December 2020. Mr Wehby is Chair of the Audit and Risk Committee.

Skills and Experience: Mr Wehby is a highly experienced board member and chairman. He is the Chairman of Variscan Mines Limited (ASX: VAR). He was previously a Director of Ensurance Ltd and Chairman of Tellus Resources Limited and Aurelia Metals Limited. Since 2001, Mr Wehby has maintained a financial consulting practice, focusing on strategic advice to companies including investments, divestments and capital raisings. Prior to 2001, Mr Wehby was a partner in PricewaterhouseCoopers Australia (Coopers & Lybrand) for 19 years.

Mr Wehby is a Member of the Australian Institute of Company Directors.

Stuart Rechner, Non-Executive Director (BSc, LLB, MAIG, MAusIMM, GAICD)

Term of Office: Non-Executive Director from 4 July 2016; previously Executive Director of Kingston Resources Limited from 23 February 2015. Mr Rechner is Chair of the Remuneration and Nomination Committee.

Skills and Experience: Mr Rechner is an experienced company director and geologist with a proven track record in project generation, acquisition, exploration, funding and development in Australia and overseas. Mr Rechner holds degrees in both geology and law and is a member of the Australian Institute of Geoscientists, the Australasian Institute of Mining and Metallurgy and the Australian Institute of Company Directors. For over ten years Mr Rechner was an Australian diplomat with postings to Beijing and Jakarta.

Mr Rechner has been a Director of Strategic Energy Limited (ASX:SER) since 12 September 2014.

COMPANY SECRETARY

Robyn Slaughter was the Company Secretary from 8 November 2022 to 22 January 2024. Robyn is a Company Secretary who works at Automic Group, which provides market leading, cloud-based share registry technology, compliance and governance solutions, supported by a tailored range of professional services. She works closely with a number of boards of both listed and unlisted public companies. Robyn is a qualified Governance Professional ('CGI') and Affiliate of the Governance Institute of Australia ('GIA'), who holds a Master's degree in Corporate Governance and a Bachelor's degree in Accounting and Finance.

Vinod Manikandan is the General manager in Finance for the group and has been the Company Secretary since 22 January 2024 . Vinod is a member of CPA Australia and an associate member of the Governance Institute of Australia. He has completed his post graduate studies in Applied Corporate Governance and has a Bachelor's degree in Commerce.

	Meetings held while a Director	Number attended	Meetings held while a Director	Number attended	Meetings held while a Director	Number attended
Mick Wilkes	6	6	4	4	2	2
Andrew Corbett	6	6	-	-	-	-
Anthony Wehby	6	6	4	4	2	2
Stuart Rechner	6	6	4	4	2	2

REMUNERATION REPORT (AUDITED)

This remuneration report outlines the director and executive remuneration arrangements of the Company and the Group for the year ended 30 June 2024 in accordance with the requirements of the Corporations Act 2001 and its Regulations.

(a) Key management personnel disclosed in this report

For the purposes of this report, key management personnel (KMP) of the Group are defined as those persons having authority and responsibility for planning, directing and controlling the major activities of the Group, directly or indirectly, including a director (whether executive or otherwise) of the Company.

Details of key management personnel:

M Wilkes	Non-Executive Chair
A Corbett	Managing Director
A Wehby	Non-Executive Director
S Rechner	Non-Executive Director

(b) Remuneration Philosophy

The objective of the Group's executive remuneration framework is to attract, motivate and retain high quality personnel then incentivise and reward performance fairly and responsibly. The framework aligns executive reward with the achievement of strategic objectives and the creation of long-term value for shareholders. The Board has established a separate Remuneration and Nomination Committee which meets as required to review remuneration, recruitment, retention, and termination procedures and to evaluate KMP performance. Our values of safety, respect for the environment, respect for each other, social responsibility, honesty and accountability guide the Committee in policy formation and decision making.

Executive remuneration is benchmarked against similar organisations in regards to industry and size; and, from time to time, independent external advice is sought from remuneration consultants. The Corporate Governance Statement provides further information on the Company's remuneration governance.

(c) Executive remuneration policy and framework

In determining executive remuneration, the Remuneration and Nomination Committee aims to ensure that remuneration practices are:

- Competitive and reasonable, enabling the Company to attract and retain key talent;
- Aligned to the Company's strategic and business objectives and the creation of shareholder value;
- Transparent and easily understood; and
- Acceptable to shareholders.

The Remuneration and Nomination Committee reviews executive packages annually by reference to the executive's performance and comparable information from industry sectors and other listed companies in similar industries. The terms and conditions for the Managing Director are considered appropriate for a junior precious and base metals producer and developer.

Options and performance rights may be issued to directors subject to approval by shareholders. All remuneration paid to directors is valued at the cost to the Group and expensed. Options are valued using the Black-Scholes methodology.

(d) Relationship between remuneration and the Group's performance

The Board has structured its remuneration arrangements in such a way it believes is in the best interests of building shareholder wealth in the longer term. Directors' remuneration is set by reference to other companies of similar size and industry, and by reference to the skills and experience of directors. Fees paid to Non-Executive Directors are not linked to the performance of the Group.

The following table shows the net loss, loss per share and share price for the last five financial years.

	2024	2023	2022	2021	2020
Net Profit/(Loss)	(\$720,353)	\$9,807,227	(\$2,088,167)	(\$1,954,631)	(\$751,587)
Diluted Profit/(Loss) per share (cents/share)	(0.14)	2.37	(0.67)	(0.76)	(0.42)
Share price at year end (cents)	8.2	7.8	8.1	21.5	17.0

Long-term (LTI) and short-term (STI) incentives are provided to KMP in the form of Performance Securities over ordinary shares of the Company and are considered to promote continuity of employment and provide additional incentive to recipients to increase shareholder wealth. Performance Securities may only be issued to directors subject to approval by shareholders in general meeting. Outstanding business and individual performance are required to achieve the maximum level of remuneration. This includes financial; health and safety; and environmental, social & governance components.

During the Financial Year the following incentive Performance Securities were issued:

- FY23 Service Fee Options 699,313
- FY24 Service Fee Options 874,576
- Unlisted Options 6,737,891 (FY23 5,171,621)
- STI Performance Rights nil (FY23 6,785,845).
- STI Performance Options 3,145,092 (FY23: nil)

Non-Executive Directors remuneration policy

On appointment to the Board, all non-executive directors enter into a service agreement with the Company in the form of a letter of appointment. The letter summarises the Board policies and terms including remuneration, relevant to the office of director.

The Board policy is to remunerate non-executive directors at commercial market rates for comparable companies for their time, commitment and responsibilities.

The maximum aggregate amount of fees that can be paid to non-executive directors is subject to approval by shareholders is currently set at \$500,000 per annum (approved by shareholders at 2021 AGM). Fees may also be paid to non-executive directors for additional consulting services provided to the Company above and beyond normal non-executive duties.

Fees for non-executive directors are not linked to the performance of the Group. Non-executive directors' remuneration may also include an incentive portion consisting of options, subject to approval by shareholders.

(e) Voting and comments made at the Company's 2023 Annual General Meeting

Kingston received over 96.79% of "yes" votes (3.21% of "no" votes) on its remuneration report for the 2023 financial year.

(f) Remuneration Details for the Year Ended 30 June 2024

The following table of benefits and payments details, in respect to the financial year, the components of remuneration for each member of the KMP of the Group.

Director	Short-term Benefits				Post-employment Benefits		Long-term Benefits		Equity-settled Share-based Payments		Cash-settled Share-based Payments	Termination Benefits	Total

(g) Service Agreements

Remuneration and other terms of employment for KMP are formalised in service agreements. The service agreements specify the components of remuneration, benefits and notice periods.

Michael Wilkes

Mr Wilkes was appointed a Non-Executive Director on 6 July 2018. On 1 December 2020 Mr Wilkes was appointed as Non-Executive Chair. The appointment is contingent upon satisfactory performance and successful re-election by shareholders of the Company as and when required by the constitution of the Company and the Corporations Act. Mr Wilkes is not entitled to any termination benefits unless paid at the discretion of directors.

Andrew Corbett

Mr Corbett was appointed as Managing Director on 4 July 2016. Mr Corbett is remunerated pursuant to the terms and conditions of an employment agreement entered into on 4 July 2016 with no fixed term. The agreement may be terminated by either party on the giving of six months' notice. Mr Corbett is not entitled to any termination benefits other than accrued pay, leave entitlements and other statutory payments unless paid at the discretion of directors.

Anthony Wehby

Mr Wehby was appointed Non-Executive Chair on 4 July 2016 and transitioned to a Non-Executive Director on 1 December 2020. The appointment is contingent upon satisfactory performance and successful re-election by shareholders

of the Company as and when required by the constitution of the Company and the Corporations Act. Mr Wehby is not entitled to any termination benefits unless paid at the discretion of directors.

Stuart Rechner

Mr Rechner was appointed as Executive Director on 23 February 2015 and transitioned to a Non-Executive Director on 4 July 2016. The appointment as Non-Executive Director is contingent upon satisfactory performance and successful re-election by shareholders of the Company as and when required by the constitution of the Company and the Corporations Act. Mr Rechner is not entitled to any termination benefits unless paid at the discretion of directors.

(h) Equity Interests of KMP

Options holdings of KMP

The number of options over ordinary shares held by each KMP of the Group during the 2024 and 2023 reporting periods is as follows:

(i) Loans to key management personnel

There were no loans to individuals or members of KMP during the financial year or the previous financial year.

(j) Other KMP transactions

On 14 August 2023 Shareholders approved the grant of up to \$300,000 MH Project Goal Performance Options to Andrew Corbett, subject to the following vesting conditions:

- a. Completion of process plant upgrade commissioning;
- b. Announcement of commercial production; and
- c. Commencement of concentrate sales.

The earliest date on which the Options may vest is 30 June 2025. The number of options to be provided in respect of the rights will be calculated on the basis of 20-day KSN VWAP immediately prior to the vesting condition being met. All MH Project Options that have not vested by 31 July 2025 will automatically lapse and be forfeited. Fair value of the options is \$209,179.

There have been no other transactions involving equity instruments other than those described above. For details of other transactions with KMP, refer to Note 22 Related Party Transactions

END OF AUDITED REMUNERATION REPORT

SHARE OPTIONS, PERFORMANCE RIGHTS, PERFORMANCE OPTIONS AND WARRANTS

During the 2024 reporting period, the unissued ordinary shares of the Company under option, warrants and performance options were as follows:

Security Type	Grant Date	Date of Expiry	Exercise Price	Held at 1-Jul-23	Issued	Exercised	Lapsed / Cancelled	Held at 30-Jun-24
Options	6-Nov-19	31-Jul-23	1 cent	4,561,810	-	4,561,810	-	-
Options	27-Nov-20	31-Jul-23	1 cent	2,591,840	-	-	2,591,840	-
Options	5-Nov-21	31-Aug-24	0 cents	1,377,981	-	-	-	1,377,981

Performance Rights	6-Dec-22	31-Aug-23	0 cents	6,785,845	-	742,826	6,043,019	-
Performance Options	28-Nov-23	31-Aug-27	0 cents	-	3,145,092	-	-	3,145,092

¹Subsequent to 30 June 2024, 983,718 options vested and 1,359,297 options lapsed.

²Subsequent to 30 June 2024, 793,414 options lapsed.

³Subsequent to 30 June 2024, 37,048 options lapsed.

⁴Subsequent to 30 June 2024, 301,249 options lapsed.

⁵Subsequent to 30 June 2024, 1,134,182 Performance Options vested and were converted to STI ZEPOs and 2,010,910 Performance Options lapsed.

On 14 August 2023, the Company granted MH Project Goal Performance Options for a total value of \$900,000 to certain employees, exercisable at nil consideration upon meeting certain vesting conditions. The earliest date on which the Options may vest is 30 June 2025. The number of options to be provided in respect of the rights will be calculated on the basis of 20-day KSN VWAP immediately prior to the vesting condition being met. All MH Project Options that have not vested by 31 July 2025 will automatically lapse and be forfeited. As at the reporting date, MH Project Goal Performance Options have not vested.

During the year ended 30 June 2024, 7,204,758 ordinary shares in the Company were issued pursuant to the exercise of options and performance rights. During the year ended 30 June 2023, 2,257,031 ordinary shares in the Company were issued pursuant to the exercise of options. Apart from as described in this report, there have been no conversions to, calls of, or subscriptions for ordinary shares of issued or potential ordinary shares since the reporting date and before the completion of these financial statements.

No person entitled to exercise an option had or has any right by virtue of the option to participate in any share issue of any other body corporate.

PROCEEDINGS ON BEHALF OF THE GROUP

No person has applied to any court pursuant to section 237 of the Corporations Act 2001 for leave to bring proceedings on behalf of the Group or intervene in any proceedings to which the Group is a party for the purpose of taking responsibility on behalf of the Group for all or any part of those proceedings. The Group was not a party to any such proceedings during the year.

INDEMNITIES GIVEN AND INSURANCE PREMIUMS PAID TO AUDITORS AND OFFICERS

The Company has entered into Deeds of Access, Indemnity and Insurance with each Director.

Under these deeds, the Company has undertaken, subject to the restrictions in the Corporations Act, to:

- a) indemnify each Director from certain liabilities incurred from acting in that position under specified circumstances;
- b) maintain directors' and officers' insurance cover (if available) in favour of each Director whilst that person maintains such office and for seven years after the Director has ceased to be a director;
- c) cease to maintain directors' and officers' insurance cover in favour of each Director if the Company reasonably determines that the type of coverage is no longer available.
- d) If the Company ceases to maintain directors' and officers' insurance cover in favour of a Director, then the Company must notify that Director of that event; and
- e) provide access to any Company records which are relevant to the Director's holding of office with the Company, for a period of seven years after the Director has ceased to be a Director.

During the year, the Company paid a premium to insure officers of the Group. The officers of the Group covered by the insurance policy include all directors and the company secretary.

The liabilities insured are legal costs that may be incurred in defending civil or criminal proceedings that may be brought against the officers in their capacity as officers of the Group, and any other payments arising from liabilities incurred by the officers in connection with such proceedings, other than where such liabilities arise out of conduct involving a wilful breach of duty by the officers or the improper use by the officers of their position or of information to gain advantage for themselves or someone else to cause detriment to the Group.

Details of the amount of the premium paid in respect of the insurance policies is not disclosed as such disclosure is prohibited under the terms of the contract.

The Group has not otherwise, during or since the end of the financial year, except to the extent permitted by law, indemnified or agreed to indemnify any current or former officer or auditor of the Group against a liability incurred as such by an officer or auditor.

AUDIT COMMITTEE

The Board has established a separate Audit and Risk Management Committee to assist the Board to discharge its corporate governance duties in relation to implementing and maintaining appropriate policies and procedures relating to risk management, financial reporting, external and internal control and auditing.

NON-AUDIT SERVICES

During the year the Company's auditor provided taxation services to the Company at a total cost of \$21,472.

AUDITORS' INDEPENDENCE DECLARATION

A copy of the auditor's independence declaration as required by section 307C of the Corporations Act 2001 is included in this Annual Report. Hall Chadwick continues in office in accordance with section 327 of the Corporations Act 2001.

Pursuant to section 298(2) Corporations Act, this Directors' Report:

- a) is made in accordance with a resolution of the Directors; and
- b) is dated 13 September 2024 and
- c) is signed by Mr Mick Wilkes.

**AUDITOR'S INDEPENDENCE DECLARATION
UNDER SECTION 307C OF THE CORPORATIONS ACT 2001
TO THE DIRECTORS OF KINGSTON RESOURCES LIMITED**

In accordance with section 307C of the *Corporations Act 2001*, I am pleased to provide the following declaration of independence to the directors of Kingston Resources Limited. As the lead audit partner for the audit of the financial report of Kingston Resources Limited for the year ended 30 June 2024, I declare that, to the best of my knowledge and belief, there have been no contraventions of:

- (i) the auditor independence requirements of the *Corporations Act 2001* in relation to the audit; and
- (ii) any applicable code of professional conduct in relation to the audit.

Notes to the Financial Statements

This financial report includes the consolidated financial statements and notes of Kingston Resources Limited and controlled entities ('Consolidated Group' or 'Group').

For the purpose of preparing the consolidated financial statements, the Company is a for-profit entity.

Note 1: Statement of Material Accounting Policies

The financial report is a general purpose financial report that has been prepared in accordance with Australian Accounting Standards including Australian Accounting Interpretations, other authoritative pronouncements of the Australian Accounting Standards Board and the Corporations Act 2001. The consolidated financial statements are presented in the currency of Australian dollars.

Statement of Compliance

Compliance with Australian Accounting Standards ensures that the financial statements and notes of Kingston Resources Limited and its controlled entities comply with International Financial Reporting Standards (IFRS).

The financial statements were authorised for issue by the directors on 13 September 2024.

Basis of Preparation

The financial statements have been prepared on an accrual basis and are based on historical costs modified by the revaluation of selected non-current assets, financial assets and financial liabilities for which the fair value basis of accounting has been applied.

Significant Accounting Policies

a) Principles of Consolidation

The Group financial statements consolidate those of the Parent Company and all of its subsidiaries as of 30 June 2024. The Parent controls a subsidiary if it is exposed, or has rights, to variable returns from its involvement with the subsidiary and has the ability to affect those returns through its power over the subsidiary. All subsidiaries have a reporting date of 30 June. A list of controlled entities is contained in Note 12 to the financial statements.

All transactions and balances between Group companies are eliminated on consolidation, including unrealised gains and losses on transactions between Group companies. Where unrealised losses on intra-group asset sales are reversed on consolidation, the underlying asset is also tested for impairment from a group perspective. Amounts reported in the financial statements of subsidiaries have been adjusted where necessary to ensure consistency with the accounting policies adopted by the Group.

Profit or loss and other comprehensive income of subsidiaries acquired or disposed of during the year are recognised from the effective date of acquisition, or up to the effective date of disposal, as applicable.

Non-controlling interests, presented as part of equity, represent the portion of a subsidiary's profit or loss and net assets that is not held by the Group. The Group attributes total comprehensive income or loss of subsidiaries between the owners of the parent and the non-controlling interests based on their respective ownership interests.

b) Changes in Accounting Policies

The Group has considered the implications of new or amended Accounting Standards which have become applicable for the current financial reporting period.

c) New Accounting Standards and Interpretations

Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet mandatory, have not been early adopted by the consolidated entity for the annual reporting period ended 30 June 2024.

For personal use only

d) Income Tax

The income tax expense (revenue) for the year comprises current income tax expense (income) and deferred tax expense (income). Current and deferred income tax expense (income) is charged or credited directly to other comprehensive income instead of the profit or loss when the tax relates to items that are credited or charged directly to other comprehensive income.

Current tax

Current income tax expense charged to the profit or loss is the tax payable on taxable income calculated using applicable income tax rates enacted, or substantially enacted, as at reporting date. Current tax liabilities (assets) are therefore measured at the amounts expected to be paid to (recovered from) the relevant taxation authority.

Current tax assets and liabilities are offset where a legally enforceable right of set-off exists and its intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur.

Deferred tax

Deferred income tax expense reflects movements in deferred tax asset and deferred tax liability balances during the year as well unused tax losses.

Deferred tax assets and liabilities are ascertained based on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets also result where amounts have been fully expensed but future tax deductions are available. No deferred income tax will be recognised from the initial recognition of an asset or liability, excluding a business combination, where there is no effect on accounting or taxable profit or loss.

Deferred tax assets and liabilities are offset where a legally enforceable right of set-off exists, the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur in future periods in which significant amounts of deferred tax assets or liabilities are expected to be recovered or settled.

Tax consolidation

Kingston Resources Limited and its wholly-owned Australian subsidiaries have formed an income tax consolidated group under the tax consolidation legislation. Each entity in the Group recognises its own current and deferred tax liabilities. Such taxes are measured using the 'stand-alone taxpayer' approach to allocation. Current tax liability (assets) and deferred tax assets arising from unused tax losses and tax credits in the subsidiaries are immediately transferred to the head entity. The Group notified the Australian Taxation Office that it had formed an income tax consolidated group to apply from 1 July 2003.

e) Property, Plant and Equipment

Each class of property, plant and equipment is carried at cost or fair value less, where applicable any accumulated depreciation and impairment losses.

Plant and equipment

Plant and equipment are measured on the cost basis.

The carrying amount of plant and equipment is reviewed annually by directors to ensure it is not in excess of the recoverable amount from these assets. The recoverable amount is assessed on the basis of the expected net cash flows that will be received from the assets employment and subsequent disposal.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to profit or loss on the statement of profit or loss and other comprehensive income.

Depreciation

The depreciable amount of all fixed assets is depreciated using the straight line method commencing from the time the asset is held ready for use.

The depreciation rates used for each class of depreciable asset are:

Class of Fixed Assets	Depreciation Rate
Motor Vehicles	20-25%
Buildings	10-33%
Plant & Equipment	10-50%

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each reporting date.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. The gains and losses are included in profit or loss in the statement of profit or loss and other comprehensive income. When revalued assets are sold, amounts included in the revaluation reserve relating to that asset are transferred to retained earnings.

f) Leases

At inception of a contract the Group assesses if the contract contains or is a lease. If there is a lease present and the Group is the lessee, a right-of-use asset and a corresponding lease liability is recognised. However, all contracts that are classified as short-term leases (i.e. a lease with a remaining lease term of 12 months or less) and leases of low-value assets are recognised as an operating expense on a straight-line basis over the term of the lease.

Initially, the lease liability is measured at the present value of the lease payments still to be paid at commencement date. The lease payments are discounted at the interest rate implicit in the lease. If this rate cannot be readily determined, the Group uses the incremental borrowing rate.

Lease payments included in the measurement of the lease liability are as follows:

- fixed lease payments less any lease incentives;
- variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date;
- the amount expected to be payable by the lessee under residual value guarantees;
- the exercise price of purchase options, if the lessee is reasonably certain to exercise the options;
- lease payments under extension options, if lessee is reasonably certain to exercise the options; and
- payments of penalties for terminating the lease, if the lease term reflects the exercise of an option to terminate the lease.

The right-of-use assets comprise the initial measurement of the corresponding lease liability as mentioned above, any lease payments made at or before the commencement date, as well as any initial direct costs. The subsequent measurement of the right-of-use assets is at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated over the lease term or useful life of the underlying asset, whichever is the shortest. Where a lease transfers ownership of the underlying asset, or the cost of the right-of-use asset reflects that the Group anticipates to exercise a purchase option, the specific asset is depreciated over the useful life of the underlying asset.

g) Fair Value of Assets and Liabilities

The Group measures some of its assets and liabilities at fair value on either a recurring or non-recurring basis, depending on the requirements of the applicable Accounting Standard.

Fair value is the price the Group would receive to sell an asset or would have to pay to transfer a liability in an orderly (i.e. unforced) transaction between independent, knowledgeable and willing market participants at the measurement date.

For personal use only

As fair value is a market-based measure, the closest equivalent observable market pricing information is used to determine fair value. Adjustments to market values may be made having regard to the characteristics of the specific asset or liability. The fair values of assets and liabilities that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data.

To the extent possible, market information is extracted from either the principal market for the asset or liability (i.e. the market with the greatest volume and level of activity for the asset or liability) or, in the absence of such a market, the most advantageous market available to the entity at the end of the reporting period (i.e. the market that maximises the receipts from the sale of the asset or minimises the payments made to transfer the liability, after taking into account transaction costs and transport costs).

For non-financial assets, the fair value measurement also takes into account a market participant's ability to use the asset in its highest and best use or to sell it to another market participant that would use the asset in its highest and best use.

The fair value of liabilities and the entity's own equity instruments (excluding those related to share-based payment arrangements) may be valued, where there is no observable market price in relation to the transfer of such financial instruments, by reference to observable market information where such instruments are held as assets. Where this information is not available, other valuation techniques are adopted and, where significant, are detailed in the respective note to the financial statements.

h) Financial Instruments

Initial recognition and measurement

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions to the instrument. For financial assets, this is the date that the Group commits itself to either the purchase or sale of the asset (i.e. trade date accounting is adopted).

Financial instruments (except for trade receivables) are initially measured at fair value plus transaction costs, except where the instrument is classified "at fair value through profit or loss", in which case transaction costs are expensed to profit or loss immediately. Where available, quoted prices in an active market are used to determine fair value. In other circumstances, valuation techniques are adopted.

Trade receivables are initially measured at the transaction price if the trade receivables do not contain a significant financing component or if the practical expedient was applied as specified in AASB 15.63.

Classification and subsequent measurement

Financial liabilities

Financial instruments are subsequently measured at:

- amortised cost; or
- fair value through profit or loss.

A financial liability is measured at fair value through profit and loss if the financial liability is:

- a contingent consideration of an acquirer in a business combination to which AASB 3: Business Combinations applies;
- held for trading; or
- initially designated as at fair value through profit or loss.

All other financial liabilities are subsequently measured at amortised cost using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest expense in profit or loss over the relevant period. The effective interest rate is the internal rate of return of the financial asset or liability. That is, it is the rate that exactly discounts the estimated future cash flows through the expected life of the instrument to the net carrying amount at initial recognition.

A financial liability is held for trading if:

- it is incurred for the purpose of repurchasing or repaying in the near term;

- part of a portfolio where there is an actual pattern of short-term profit taking; or
- a derivative financial instrument (except for a derivative that is in a financial guarantee contract or a derivative that is in a effective hedging relationships).

Any gains or losses arising on changes in fair value are recognised in profit or loss to the extent that they are not part of a designated hedging relationship are recognised in profit or loss.

The change in fair value of the financial liability attributable to changes in the issuer's credit risk is taken to other comprehensive income and are not subsequently reclassified to profit or loss. Instead, they are transferred to retained earnings upon derecognition of the financial liability. If taking the change in credit risk in other comprehensive income enlarges or creates an accounting mismatch, then these gains or losses should be taken to profit or loss rather than other comprehensive income.

A financial liability cannot be reclassified.

Financial assets

Financial assets are subsequently measured at:

- amortised cost;
- fair value through other comprehensive income; or
- fair value through profit or loss.

Measurement is on the basis of two primary criteria:

- the contractual cash flow characteristics of the financial asset; and
- the business model for managing the financial assets.

A financial asset that meets the following conditions is subsequently measured at amortised cost:

- the financial asset is managed solely to collect contractual cash flows; and
- the contractual terms within the financial asset give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding on specified dates.

A financial asset that meets the following conditions is subsequently measured at fair value through other comprehensive income:

- the contractual terms within the financial asset give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding on specified dates;
- the business model for managing the financial assets comprises both contractual cash flows collection and the selling of the financial asset.

By default, all other financial assets that do not meet the measurement conditions of amortised cost and fair value through other comprehensive income are subsequently measured at fair value through profit or loss.

The Group initially designates a financial instrument as measured at fair value through profit or loss if:

- it eliminates or significantly reduces a measurement or recognition inconsistency (often referred to as “accounting mismatch”) that would otherwise arise from measuring assets or liabilities or recognising the gains and losses on them on different bases;
- it is in accordance with the documented risk management or investment strategy, and information about the groupings was documented appropriately, so that the performance of the financial liability that was part of a group of financial liabilities or financial assets can be managed and evaluated consistently on a fair value basis;
- it is a hybrid contract that contains an embedded derivative that significantly modifies the cash flows otherwise required by the contract.

The initial designation of the financial instruments to measure at fair value through profit or loss is a one-time option on initial classification and is irrevocable until the financial asset is derecognised.

Equity instruments

At initial recognition, as long as the equity instrument is not held for trading and not a contingent consideration recognised by an acquirer in a business combination to which AASB 3: Business Combinations applies, the Group made an irrevocable election to measure any subsequent changes in fair value of the equity instruments in other comprehensive income, while the dividend revenue received on underlying equity instruments investment will still be recognised in profit or loss.

Regular way purchases and sales of financial assets are recognised and derecognised at settlement date in accordance with the Group's accounting policy.

Derecognition

Derecognition refers to the removal of a previously recognised financial asset or financial liability from the statement of financial position.

Derecognition of financial liabilities

A liability is derecognised when it is extinguished (i.e. when the obligation in the contract is discharged, cancelled or expires). An exchange of an existing financial liability for a new one with substantially modified terms, or a substantial modification to the terms of a financial liability is treated as an extinguishment of the existing liability and recognition of a new financial liability.

The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

Derecognition of financial assets

A financial asset is derecognised when the holder's contractual rights to its cash flows expires, or the asset is transferred in such a way that all the risks and rewards of ownership are substantially transferred.

All of the following criteria need to be satisfied for derecognition of financial asset:

- the right to receive cash flows from the asset has expired or been transferred;
- all risk and rewards of ownership of the asset have been substantially transferred; and
- the Group no longer controls the asset (i.e. the Group has no practical ability to make a unilateral decision to sell the asset to a third party).

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

On derecognition of a debt instrument classified as at fair value through other comprehensive income, the cumulative gain or loss previously accumulated in the investment revaluation reserve is reclassified to profit or loss.

On derecognition of an investment in equity which was elected to be classified under fair value through other comprehensive income, the cumulative gain or loss previously accumulated in the investment revaluation reserve is not reclassified to profit or loss, but is transferred to retained earnings.

Impairment

The Group recognises a loss allowance for expected credit losses on:

- financial assets that are measured at amortised cost or fair value through other comprehensive income;
- lease receivables;
- contract assets (e.g. amounts due from customers under construction contracts);
- loan commitments that are not measured at fair value through profit or loss; and
- financial guarantee contracts that are not measured at fair value through profit or loss.

Loss allowance is not recognised for:

- financial assets measured at fair value through profit or loss; or

- equity instruments measured at fair value through other comprehensive income.

Expected credit losses are the probability-weighted estimate of credit losses over the expected life of a financial instrument. A credit loss is the difference between all contractual cash flows that are due and all cash flows expected to be received, all discounted at the original effective interest rate of the financial instrument.

The Group uses the general approach to impairment, as applicable under AASB 9: *Financial Instruments*:

Under the general approach, at each reporting period, the Group assesses whether the financial instruments are credit-impaired, and if:

- the credit risk of the financial instrument has increased significantly since initial recognition, the Group measures the loss allowance of the financial instruments at an amount equal to the lifetime expected credit losses; or
- there is no significant increase in credit risk since initial recognition, the Group measures the loss allowance for that financial instrument at an amount equal to 12-month expected credit losses.

Recognition of expected credit losses in financial statements

At each reporting date, the Group recognises the movement in the loss allowance as an impairment gain or loss in the statement of profit or loss and other comprehensive income.

The carrying amount of financial assets measured at amortised cost includes the loss allowance relating to that asset.

Assets measured at fair value through other comprehensive income are recognised at fair value, with changes in fair value recognised in other comprehensive income. Amounts in relation to change in credit risk are transferred from other comprehensive income to profit or loss at every reporting period.

For financial assets that are unrecognised (e.g. loan commitments yet to be drawn, financial guarantees), a provision for loss allowance is created in the statement of financial position to recognise the loss allowance.

i) Impairment of Non-Financial Assets

At each reporting date, the Group reviews the carrying values of its tangible and intangible assets to determine whether there is any indication that those assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, is compared to the asset's carrying value. Any excess of the asset's carrying value over its recoverable amount is expensed to the statement of profit or loss and other comprehensive income.

Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

j) Foreign Currency Transactions and Balances

Functional and presentation currency

The functional currency of each of the Group's entities is measured using the currency of the primary economic environment in which that entity operates. The consolidated financial statements are presented in Australian dollars which is the parent entity's functional and presentation currency.

Transaction and balances

Foreign currency transactions are translated into functional currency using the exchange rates prevailing at the date of the transaction.

Exchange differences arising on the translation of monetary items are recognised in profit or loss, except where deferred in equity as a qualifying cash flow or net investment hedge in which case they would be recognised in other comprehensive income.

k) Employee Benefits

Provision is made for the Company's liability for employee benefits arising from services rendered by employees to reporting date. Employee benefits that are expected to be settled wholly within one year have been measured at the amounts expected to be paid when the liability is settled plus related on costs. Employee benefits payable later than one year have been measured at the present value of the estimated future cash outflows to be made for those benefits.

Equity-settled compensation

The Group operates a share-based compensation plan which includes a share option arrangement. The bonus element over the exercise price of the employee's services rendered in exchange for the grant of options is recognised as an expense in the statement of profit or loss and other comprehensive income, with a corresponding increase to an equity account. The total amount to be expensed over the vesting period is determined by reference to the fair value of the shares of the options granted. The fair value of options is ascertained using a Black-Scholes pricing model which incorporates all market vesting conditions, the fair value of Performance Rights is ascertained using the Monte Carlo method.

l) Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, deposits held at call with banks and other short-term highly liquid investments with original maturities of three months or less.

m) Provisions

Provisions are recognised when the Group has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

n) Revenue and Other Income

Interest revenue is recognised on a proportional basis taking into account the interest rates applicable to the financial assets.

Research and development credits are treated as Other Income and recognised to the extent that the related expenditure has been expensed in the Statement of Profit and Loss and Other Comprehensive Income. Research and development credits that pertain to expenditure on any capitalised amounts remaining on the Statement of Financial Position are deferred accordingly to be recognised in-line with expensing of those items.

All revenue is stated net of the amount of goods and services tax (GST).

o) Mine Development

Mine development expenditures incurred are capitalised in respect of each identifiable area of interest where there is a reasonable assessment of existence of recoverable reserves. These costs are only capitalised to the extent that they are expected to be realised through production and sale of mineral resources identified.

When production commences, the accumulated costs for the relevant area of interest are amortised over the life of the area according to the rate of depletion of the economically recoverable reserves.

A regular review is undertaken of each area of interest to determine the appropriateness of continuing to capitalise costs in relation to that area of interest.

p) Exploration Expenditure

Exploration, evaluation and development expenditures incurred are capitalised in respect of each identifiable area of interest. These costs are only capitalised to the extent that they are expected to be recovered through the successful development of the area or where activities in the area have not yet reached a stage that permits reasonable assessment of the existence of economically recoverable reserves.

Accumulated costs in relation to an abandoned area are written off in full against profit in the year in which the decision to abandon the area is made.

When production commences, the accumulated costs for the relevant area of interest are amortised over the life of the area according to the rate of depletion of the economically recoverable reserves.

A regular review is undertaken of each area of interest to determine the appropriateness of continuing to capitalise costs in relation to that area of interest.

Costs of site restoration are provided over the life of the project from when exploration commences and are included in the costs of that stage. Site restoration costs include the dismantling and removal of mining plant, equipment and building structures, waste removal, and rehabilitation of the site in accordance with local laws and regulations and clauses of the permits. Such costs have been determined using estimates of future costs, current legal requirements and technology on an undiscounted basis.

Any changes in the estimates for the costs are accounted on a prospective basis. In determining the costs of site restoration, there is uncertainty regarding the nature and extent of the restoration due to community expectations

For personal use only

and future legislation. Accordingly the costs have been determined on the basis that the restoration will be completed within one year of abandoning the site.

q) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the statement of financial position are shown inclusive of GST.

Cash flows are presented in the statement of cash flows on a gross basis, except for the GST component of investing and financing activities, which are disclosed as operating cash flows.

r) Comparative Figures

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

s) Going Concern

The consolidated entity has earned an operating loss of \$720,353 (2023: Profit \$9,807,227) and positive operating cash flows of \$5,879,105 (2023 \$15,494,238) for the year ended 30 June 2024. The consolidated entity's net current liability position as at 30 June 2024 was \$2,383,783 (2023: Net current assets \$4,669,638) including \$8,357,776 in cash (2023: \$18,206,767).

During the year the following significant equity and debt raisings were made:

- On 2 April 2024, the Company announced its intention to undertake a Share Placement Offer and an Accelerated Non-Renounceable Rights Issue Offer (ANREO) raising a total of \$13.48 Million. On 8 April 2024, a total of 135,732,433 shares were issued at \$0.065 raising \$8,091,880 under the Placement Offer and \$730,728 raised under the accelerated component of the ANREO. On 15 May 2024, a total of 71,751,815 shares were issued at \$0.065 raising \$4,663,867 under the retail component of the ANREO.

For details on the remaining shares issued during the year see Note 16.

The entity has planned to use these funds largely on Life of Mine exploration and development activities, the expenditure of which can be varied and applied discretionarily.

The Group's cash balance of \$8,357,776 as at 30 June 2024 leaves it with sufficient funding to continue to meet operational expenditure requirements, including minimum exploration commitments across its tenement portfolio. Nevertheless, the nature of an exploration and development company is to have negative cash flow from operations and investing activities, and as such the Company may need to raise equity from time to time as successfully demonstrated most recently in April 2024 and May 2024. If the Group is unsuccessful in raising capital, a material uncertainty exists, that may cast significant doubt on the Group's ability as a going concern and its ability to recover assets, and discharge liabilities in the normal course of business and at the amount shown in the financial statements. The financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or to the amounts and classification of liabilities that might be necessary should the Group not continue as a going concern.

Taking into account the current cash reserves of the Company, the Directors are confident the Company has adequate resources to continue in its main business activity for the foreseeable future. As a result, the financial statements have been prepared on the basis of going concern which contemplates continuity of normal business activities and the realisation of assets and settlement of liabilities in the ordinary course of business and at the amounts stated in the financial report.

For personal use only

t) **Joint arrangements and associates**

Associates are those entities over which the Group is able to exert significant influence but which are not subsidiaries.

A joint venture is an arrangement that the Group controls jointly with one or more other investors, and over which the Group has rights to a share of the arrangement's net assets rather than direct rights to underlying assets and obligations for underlying liabilities. A joint arrangement in which the Group has direct rights to underlying assets and obligations for underlying liabilities is classified as a joint operation.

Investments in associates and joint ventures are accounted for using the equity method. Interests in joint operations are accounted for by recognising the Group's assets (including its share of any assets held jointly), its liabilities (including its share of any liabilities incurred jointly), its revenue from the sale of its share of the output arising from the joint operation, its share of the revenue from the sale of the output by the joint operation and its expenses (including its share of any expenses incurred jointly).

Any goodwill or fair value adjustment attributable to the Group's share in the associate or joint venture is not recognised separately and is included in the amount recognised as investment.

The carrying amount of the investment in associates and joint ventures is increased or decreased to recognise the Group's share of the profit or loss and other comprehensive income of the associate and joint venture, adjusted where necessary to ensure consistency with the accounting policies of the Group.

Unrealised gains and losses on transactions between the Group and its associates and joint ventures are eliminated to the extent of the Group's interest in those entities. Where unrealised losses are eliminated, the underlying asset is also tested for impairment.

Critical Accounting Estimates and Judgements

The directors evaluate estimates and judgements incorporated into the financial statements based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the Group.

Key estimates – Impairment

The Group assesses impairment at each reporting date by evaluating conditions specific to the Group that may lead to impairment of assets.

Share-based payment transactions

The Group measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined by management review using the Black Scholes, Monte Carlo, or an agreed fair value method. The relevant assumptions are detailed in Note 21. The accounting estimates and assumptions relating to equity-settled share-based payments would have no impact on the carrying amounts of assets and liabilities within the next annual reporting period but may impact expenses and equity.

Assessment of mine life of assets

The Assessment of mine life of assets has been based on Life of Mine Plan. In addition, condition of the assets is assessed at least once per year and considered against the remaining mine life. Adjustments to mine lives are made when considered necessary.

Estimation of useful lives of assets

The estimation of the useful lives of assets has been based on historical experience and manufacturers' warranties (for plant and equipment). In addition, the condition of the assets is assessed at least once per year and considered against the remaining useful life. Adjustments to useful lives are made when considered necessary.

Exploration and evaluation of expenditure

Costs arising from exploration and evaluation activities are carried forward provided the rights to tenure of the area of the interest are current and such costs are expected to be recouped through successful development, or by sale, or where exploration and evaluation activities have not, at reporting date, reached a stage to allow a reasonable assessment regarding the existence of economically recoverable reserves. Costs carried forward in respect of an area of interest that is abandoned are written off in the year in which the decision to abandon is made. The carrying value of the capitalised exploration and evaluation expenditure is assessed for impairment whenever facts and circumstances suggest that the

For personal use only

carrying amount of the asset may exceed its recoverable amount. Such capitalised exploration expenditure is carried at the end of the reporting period at \$49,592,453 (see Note 23).

The Group has applied AASB 6 Exploration for and Evaluation of Mineral Resources.

	Consolidated Group	
	2024 \$	2023 \$
2. OTHER INCOME		
Other income		
Interest income	38,674	3,238
Rental income	18,000	18,000
Total other income	<u>56,674</u>	<u>21,238</u>

	Consolidated Group	
	2024 \$	2023 \$
3. DEPRECIATION		
Depreciation of:		
- right of use asset	(219,495)	(225,107)
- building	(96,166)	(86,670)
- plant and equipment	(4,370,558)	(3,063,598)
Total depreciation and amortisation	<u>(4,686,219)</u>	<u>(3,375,375)</u>

4. INCOME TAX

(a) Income tax recognised in profit and loss

The prima facie tax expense (benefit) on operating result is reconciled to the income tax provided in the statement of profit or loss and other comprehensive income as follows:

	Consolidated Group	
	2024 \$	2023 \$
Accounting profit/(loss) before income tax	(720,353)	9,807,227
Income tax benefit calculated at 25%	180,088	(2,451,807)
Non-deductible expenses	11,958	143,455
Utilisation of tax losses previously not recognised	-	2,308,352
Tax losses/temporary difference not brought into account	192,046	-
Income tax expense (benefit)	<u>-</u>	<u>-</u>

The tax rate used in the above reconciliation is the corporate tax rate of 25% (FY23 25%) payable by Australian corporate entities on taxable profits under Australian tax law.

(b) Analysis of deferred tax asset

No deferred tax assets have been recognised other than to offset deferred tax liabilities, as it is currently not probable that future taxable profit will be available to realise the asset. The potential deferred tax asset on carry forward losses amounts to \$8,934,461 (2023: \$6,296,780).

Tax Consolidation

Effective 1 July 2003, for the purposes of income taxation, the Company and its 100% wholly-owned subsidiaries formed a tax consolidated group; the head entity of the tax consolidated group is Kingston Resources Limited.

5. RIGHT OF USE ASSETS

The Group's Right of use Assets include buildings (in the form of an office lease), plant and equipment and motor vehicles.

	Consolidated Group	
	30 June 2024	30 June 2023

(c) Weighted average number of ordinary shares on issue used in the calculation of basic profit/(loss) per share	510,164,957	413,256,806
(d) Weighted average number of ordinary shares on issue used in the calculation of diluted profit/(loss) per share	510,164,957	460,037,170
(d) Profit/(Loss) used in calculation	(\$720,353)	\$9,807,227

	Consolidated Group	
	2024	2023
	\$	\$
9. CASH AND CASH EQUIVALENTS		
Cash at bank and in hand	8,357,776	18,206,767
Total	<u>8,357,776</u>	<u>18,206,767</u>

Cash at bank earns interest at floating rates based on daily deposit rates. The carrying amounts of cash and cash equivalents represent fair value.

10. TRADE AND OTHER RECEIVABLES

Current

	Consolidated Group	
	2024	2023
	\$	\$
Other receivables	515,345	1,315,211
Total current trade and other receivables	515,345	1,315,211

The Group has no significant concentration of credit risk with respect to any single counter party or group of counter parties other than those receivables specifically provided for as mentioned within this note. The class of assets described as Other Receivables is considered to be the main source of credit risk related to the Group. During the year, the Group took up a provision equivalent to 100% of total GST receivable for Gallipoli Exploration (PNG) Ltd and WCB PNG Exploration Ltd totalling \$974,628. The provision increased the capitalised expenditure for Misima gold project by \$974,6289.

The Group applies the AASB 9 general approach to measuring expected credit losses, which permits the use of the lifetime expected loss provision for all other receivables. Under the general approach a nil expected loss rate was applied to all receivables as at 30 June 2024 and 30 June 2023.

11. FINANCIAL ASSETS

Financial assets at fair value through profit and loss:

At fair value

	Consolidated Group

During the period the Company issued share capital amounting to 2,849,712 fully paid ordinary shares of no par value. At shareholders' meetings each fully paid ordinary share is entitled to one vote when a poll is called.

On 27 June 2023, the Company announced its intention to undertake a two Tranche Share Placement offer with one attaching unlisted option for every two Placement Shares raising a total of \$5,500,000. On 30 June 2023, advanced placement monies totalling \$4,500,000 was received under Tranche 1 of the Placement offer. On 3 July 2023, 52,941,176 Tranche 1 Placement shares and on 17 August 2023, 26,245,576 unlisted attaching options were issued for cash totalling to \$4,500,000. Fair value of unlisted options amounting

to \$330,293 was recognised under share-based payment reserve. The unlisted options are each exercisable at \$0.14 each to acquire one fully paid ordinary share exercisable at any time up to 31 July 2025.

On 26 July 2023, the Company issued 4,561,810 shares to eligible employees upon exercise of 4,561,810 LTI options for cash totalling to \$45,618. The fair value of options issued was \$183,515.

On 17 August 2023, the Company issued 11,764,705 shares and 5,882,352 unlisted attaching options totalling to \$1,000,000 under Tranche 2 of the Share Placement Offer. No monies were raised from the Tranche 2 placement, however the final milestone payment of USD\$3.5 million due to Quintana Resources Holdings LP upon producing 30,000 Oz's of gold since acquisition of Mineral Hill Pty Ltd was reduced by USD\$645,100 (A\$1million). Fair value of unlisted options amounting to \$69,043 was recognised under share-based payment reserve. The unlisted options are each exercisable at \$0.14 each to acquire one fully paid ordinary share exercisable at any time up to 31 July 2025.

On 17 August 2023, the Company issued 742,826 shares to eligible employees upon short term performance rights being vested for nil cash consideration. The fair value of the performance rights issued was \$4,765.

On 17 August 2023, the Company issued 326,233 shares to its non-executive directors upon exercise of FY22 service fee options for nil cash consideration. The fair value of the options issued was \$22,558.

On 17 August 2023, Kingston issued staff 206,764 shares for nil consideration to an employee as part of their employment contract. The fair value of the shares amounted to \$22,558.

On 17 August 2023, the Company issued 10,247,017 shares and 5,123,459 unlisted attaching options under the SPP offer for cash totalling \$871,000. Fair value of unlisted options amounting to \$60,136 was recognised under share-based payment reserve. The unlisted options are each exercisable at \$0.14 each to acquire one fully paid ordinary share exercisable at any time up to 31 July 2025.

On 18 August 2023, the SPP was completed upon issuing 1,517,647 shares and 758,823 unlisted attaching options to the sub underwriter Delphi Unternehmensberatung Akteingesellschaft, an existing major shareholder and sophisticated investor for cash totalling to \$129,000. Fair value of unlisted options amounting to \$8,907 was recognised under share-based payment reserve. The unlisted options are each exercisable at \$0.14 each to acquire one fully paid ordinary share exercisable at any time up to 31 July 2025.

On 2 April 2024, the Company announced its intention to undertake a Share Placement Offer and an Accelerated Non-Renounceable Rights Issue Offer (ANREO) raising a total of \$13.48 Million. On 8 April 2024, the Company issued 124,490,461 shares under the Placement Offer and 11,241,969 shares under the accelerated component of the ANREO for cash totalling to \$8,822,608.

On 15 May 2024, the Company issued 71,751,815 shares under the retail component of the ANREO for cash totalling to \$4,663,867.

On 15 May 2024, the Company issued 699,313 shares to its non-executive directors upon exercise of FY23 service fee options for nil cash consideration. The fair value of the options issued was \$58,742.

On 15 May 2024, the Company issued 874,576 shares to its non-executive directors upon exercise of FY24 service fee options for nil cash consideration. The fair value of the options issued was \$73,464.

During the financial year, 6,461,932 fully paid ordinary shares were issued as a result of the exercise of options, and 742,826 shares were issued as a result of Performance Rights vesting.

Since the end of the financial year end, no ordinary shares have been issued as a result of the exercise of options.

For more details on issues subsequent to the end of financial year, refer Subsequent Events note.

(b) Options

- (i) For information relating to the Company's employee and consultant option scheme, including details of options issued, exercised and lapsed during the financial year and the options outstanding at year end, refer to Note 21 Share-based Payments.
- (ii) For information relating to share options issued to key management personnel during the financial year, refer to the Directors' Report.

(c) Capital Management

Management controls the capital of the Group in order to maintain a good debt to equity ratio, provide the shareholders with adequate returns and ensure that the Group can fund its operations and continue as a going concern.

The Group's debt and equity capital includes ordinary share capital and financial liabilities, supported by financial assets. There are no externally imposed capital requirements.

Management effectively manages the Group's capital by assessing its financial risks and adjusting its capital structure in response to changes in these risks and in the market. These responses include the management of debts levels, distributions to shareholders and share issues.

There have been no changes in the strategy adopted by management to control the capital of the Group since the prior year.

17. RESERVES

(a) Share-based Payment Reserve

The share-based payment reserve records items recognised as expenses on valuation of unlisted employee and consultant incentive scheme options and performance rights. Refer to Note 21 Share-based Payments for further details.

18. COMMITMENTS AND CONTINGENCIES

The Group has certain obligations to perform minimum exploration work and to expend minimum amounts of money on such work on mining tenements. These obligations may be varied from time to time subject to approval and are expected to be fulfilled in the normal course of the operations of the Group. These commitments have not been provided for in the financial report. Due to the nature of the Group's operations in exploring and evaluating areas of interest, it is difficult to accurately forecast the nature and amount of future expenditure beyond the next year. Expenditure may be reduced by seeking exemption from individual commitments, by relinquishing tenure or by new joint venture arrangements. Expenditure may be increased when new tenements are granted or joint venture agreements amended. The minimum expenditure commitment on currently held tenements is:

	Consolidated Group	
	2024	2023
Exploration commitment	\$	\$
Not later than one year	1,390,207	1,465,151
Later than one year and less than five years	3,161,458	3,161,458

Rehabilitation Security Bond commitment

In the Prior year, the Company held cash backed Rehabilitation Security Bond for Mineral Hill mining leases totalling to \$7,247,000.

During the year, the Rehabilitation Security Bond commitment was increased by \$161,000. On 16 May 2024, the Company fulfilled its commitment and increased its cash backed Rehabilitation Security Bond by \$161,000, to a total of \$7,408,000.

For personal use only

The Group has finance leases between two and five years for motor vehicles and equipment purchased for the Mineral Hill mine. The future minimum lease payments are as follows:

	Consolidated Group	
	2024	2023
	\$	\$
Finance lease commitment		
Not later than one year	177,695	268,317
Later than one year and less than five years	188,019	327,276

The Group is a party to rental leases for its office premises. The future minimum lease payments are as follows:

	Consolidated Group	
	2024	2023
	\$	\$
Operating lease commitment		
Not later than one year	79,086	86,342
Later than one year and less than five years	-	79,086

19. SEGMENT REPORTING

For the year ended 30 June 2024, the Group has two segments, being mining and exploration of minerals in Australia and Papua New Guinea.

Segment results, assets and liabilities include items directly attributable to a segment as well as those that can be allocated on a reasonable basis.

Segment capital expenditure is the total cost incurred during the period to acquire segment assets that are expected to be used for more than one period in that geographic region.

2024	Australia	PNG	Total

Net cash flows from operating activities	5,879,105	15,494,238

21. SHARE-BASED PAYMENTS

- (i) Share options and performance rights are granted to employees and directors of the Company, or any Associated Body Corporate of the Company. The following employee share-based payment arrangements existed at 30 June 2024.

Share options:

Date of grant	Share-based payment	Number Outstanding	Value	Share Price on Issue	Exercise Price	Expiry
5 Nov 2021	LTI Options ¹	1,377,981	67,640	0.205	0.00	31 August 2024
14 Dec 2021	LTI Options ¹	815,952	40,052	0.165	0.00	31 August 2024
17 Jun 2022	LTI Options ¹	149,082	7,318	0.094	0.00	31 August 2024
6 Dec 2022	LTI Option ¹	5,171,621	84,407	0.105	0.00	31 August 2028
17 Aug 2023	LTI Options ¹	37,048	605	0.016	0.00	31 August 2028
28 Nov 2023	LTI Options ¹	6,700,843	120,878	0.082	0.00	31 August 2029

¹ LTI Performance Options vest subject to share price hurdles

On 26 July 2023, the Company issued 4,561,810 shares to eligible employees upon exercise of 4,561,810 LTI options for cash totalling to \$45,618. The fair value of options issued was \$183,515.

On 17 August 2023, the Company issued 742,826 shares to eligible employees upon short term performance rights being vested for nil cash consideration. The fair value of the performance rights issued was \$4,765.

On 17 August 2023, the Company issued 326,233 shares to its non-executive directors upon exercise of FY22 service fee options for nil cash consideration. The fair value of the options issued was \$22,558.

On 28 November 2023, the Company issued 699,313 FY23 Service Fee Options to its non-executive directors. On 15 May 2024, the Company issued 699,313 shares to its non-executive directors upon exercise of FY23 Service Fee options for nil cash consideration. The fair value of the options issued was \$58,742.

On 28 November 2023, the Company issued 874,576 FY24 Service Fee Options to its non-executive directors. On 15 May 2024, the Company issued 874,576 shares to its non-executive directors upon exercise of FY24 service fee options for nil cash consideration. The fair value of the options issued was \$73,464.

During the year, \$203,420 was recognised as fair value of MH project Goal Performance Options.

During the financial year, 1,900,122 fully paid ordinary shares were issued as a result of the exercise of options (2023:2,257,031), and 742,826 shares were issued as a result of Performance Rights vesting (2023:627,186).

Performance Options:

Date of grant	Share-based payment	Number granted	Value	Expiry date
28 Nov 2023	STI Performance Options ¹	3,145,092	39,887	31 August 2027

¹ STI Performance Options issued on 28 November 2023 will vest as follows:

- (a) Up to 50% of STI Performance Options will automatically vest if the Company's June 2023 VWAP is equivalent to the 50th percentile relative to a peer group of companies.
- (b) Up to 100% of STI Performance Options will automatically vest if the Company's June 2023 VWAP is equivalent to the 80th percentile relative to a peer group of companies.
- (c) 0% will vest if the Company's June 2023 VWAP is below the 50th percentile relative to a peer group of companies.

Upon vesting, STI Options convert to non-transferable ZEPO. All vested STI ZEPOs have an expiry date of 3 years from vesting.

All STI Options that have not vested by 31 August 2024 will automatically lapse and be forfeited.

The principal assumptions used in estimating the value of the STI and LTI options include volatility of 55% determined with reference to the Company's historic volatility and the volatility of peer group companies.

The number and weighted average exercise prices of share options granted to employees and directors is as follows:

	2024		2023	
	Number of Options	Weighted Average Exercise Price \$	Number of Options	Weighted Average Exercise Price \$
Outstanding at beginning of period	14,994,519	0.00	13,438,838	0.05
Exercised during the period	(6,461,932)	0.00	(2,257,031)	0.01
Expired during the period	(2,591,840)	0.01	(1,358,909)	0.33
Issued during the period	11,456,872	0.00	5,171,621	0.00
Outstanding at year-end	17,397,619	0.00	14,994,519	0.00
Exercisable at year-end	-	-	4,888,043	0.00

- (ii) Other share-based payments granted to third parties.

Share based payments to external parties:

There was nil share-based payment to external parties during the year.

22. RELATED PARTY TRANSACTIONS

(a) Key Management Personnel

Key management personnel compensation has been included in the Remuneration Report section of the Directors' Report and Note 6 Interests of Key Management Personnel.

(b) Directors' Interests

As at 30 June 2024 the relevant interests of each of the Directors, held either directly or indirectly through their associates, in the securities of Kingston was as follows:

Director	Fully Paid Ordinary Shares (KSN)	Unlisted Options	Performance Options
Mick Wilkes ¹	3,945,679	176,470	-
Andrew Corbett ^{2,5}	7,986,181	4,801,349	922,473
Anthony Wehby ³	3,044,223	352,941	-
Stuart Rechner ⁴	1,344,281	176,470	-

¹ Mick Wilkes holds a relevant interest in the specified number of Shares and Options as a result of being a director of Eligius Holdings Pty Limited as trustee of Eligius Holdings Pty Limited ATF, which is the registered holder of those Shares and Options.

² Andrew Corbett holds a relevant interest in the specified number of Shares and Options as a result of being a director of Milamar Group Pty Ltd as trustee of Milamar Family Trust, which is the registered holder of those Shares and

³ Anthony Wehby holds a relevant interest in Options as he is a related party to Mrs Rosemary Wehby, who is the registered holder of the options.

⁴ Stuart Rechner holds a relevant interest in the specified number of Shares and Options as a result of being a director of Osmium Holdings Pty Limited as trustee of Ferndale Superannuation Fund, which is the registered holder of those Shares and Options

⁵ As approved by Shareholders at the general meeting on 14 August 2023, Andrew Corbett has a right to acquire MH Project Goal Performance Options valued at \$300,000, subject to satisfaction of various vesting conditions. The earliest vesting date is 30 June 2025. The number of securities to be issued in respect of rights will be calculated on the basis of the 20-day KSN VWAP immediately prior to the vesting condition being met. Any unvested securities will automatically lapse on 31 July 2025.

Net Carrying Amount	22,865,123	49,759,508	72,624,631

An impairment assessment was undertaken of the Group's exploration assets held at the end of FY24. Nothing has come to the Company's attention to indicate that amounts recorded as Capitalised Exploration Expenditure as at 30 June 2024 are not reasonable, require impairment, or do not meet the requirements of AASB 6.

Of the total \$49,759,508 capitalised exploration expenditure, \$44,277,784 is attributable to the Misima Gold Project, 5,481,724 is attributable to Mineral Hill tenements.

24. FINANCIAL INSTRUMENTS

The Group's principal financial instruments comprise receivables, payables, FVTPL financial assets, cash and short-term deposits and a commercial loan.

The main risks arising from the Group's financial instruments are interest rate risk, credit risk and liquidity risk. The Company uses different methods to measure and manage different types of risks to which it is exposed. These included monitoring levels of exposure to interest rate and market forecasts for interest rate. Ageing analyses and monitoring of specific credit allowances are undertaken to manage credit risk. Liquidity risk is monitored through the development of future rolling cash flow forecasts.

The Board reviews and agrees policies for managing each of these risks which are summarised below.

(a) Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in a financial loss to the Group.

Credit risk arises from cash and cash equivalents, trade and other receivables and FVTPL financial assets. The Group's exposure to credit risk arises from potential default of the counter party, with a maximum exposure equal to the carrying amount net of any provisions for these assets as disclosed in the statement of financial position and notes to the financial statements.

The Group has adopted a policy of only dealing with creditworthy counter parties as a means of mitigating the risk of financial loss from defaults. It is the Group's policy that all customers who wish to trade on credit terms are subject to credit evaluations including an assessment of their independent credit rating, financial position, past

experience and industry reputation. Risk limits are set for each individual customer in accordance with parameters set by the Board. These risk limits are regulatory monitored. The Group does not require collateral in respect of financial assets.

In addition, receivable balances are monitored on an ongoing basis with the result that the Group's exposure to bad debts is not significant. At the reporting date there were no significant concentrations of credit risk. Refer to Note 10 for further information on impairment of financial assets that are past due.

(b) Liquidity risk

Ultimate responsibility for liquidity risk management rests with the Board of Directors, who have built an appropriate liquidity risk management framework for the management of the Group's short, medium and long-term funding and liquidity management. The Group manages the liquidity risk by maintaining adequate cash reserves, and by continuously monitoring forecast and actual cash flows while matching the maturity profiles of financial assets and liabilities. There are no material financial assets or financial liabilities that are subject to liquidity risk as at 30 June 2024 or 30 June 2023.

(c) Interest rate risk

The Group's current exposure to the risk of changes in market interest rates relate primarily to cash assets rates. The Group does not account for fixed rate financial assets and liabilities at fair value through profit or loss.

The following table illustrates sensitivities to the Group's exposures to changes in interest rates. The table indicates the impact on how profit / (loss) and equity values reported at reporting date would have been affected by changes in the relevant risk variable that management considers to be reasonably possible. The Group's main interest rate risk arises from cash and cash equivalents with variable interest rates.

	Consolidated Group	
	2024	2023
	\$	\$
Financial assets		
Cash and cash equivalents	8,357,776	18,206,767
	<u>8,357,776</u>	<u>18,206,767</u>
Impact on post tax profit / (loss) and equity		
+ 2% in interest rate	167,156	364,135
- 2% in interest rate	(167,156)	(364,135)

(d) Foreign currency risk

The Group is not exposed to significant financial risks from movements in foreign exchange rates. The Group does not participate in any type of hedging transactions or derivatives. Therefore, no sensitivity analysis is required.

(e) Price risk

The Group's exposure to commodity and equity securities price risk is minimal. Equity securities price risk arises from investments in equity securities.

The price risk for both listed and unlisted securities is immaterial in terms of a possible impact on profit and loss or total equity and as such a sensitivity analysis has not been completed.

(f) Fair value

For the financial assets and liabilities disclosed in this note, the fair value approximates their carrying value.

The aggregate fair values and carrying amounts of financial assets and financial liabilities are disclosed in the statement of financial position and in the notes to and forming part of the financial statements.

For personal use only

	Footnote	2024		2023	
		Net Carrying Value \$	Fair Value \$	Net Carrying Value \$	Fair Value \$
Consolidated Group					
Financial assets					
Cash and cash equivalents	(i)	8,357,776	8,357,776	18,206,767	18,206,767
Trade and other receivables	(i)	515,345	515,345	1,315,211	1,315,211
Financial assets at fair value	(ii)	287,900	287,900	269,150	269,150
Total financial assets		9,161,021	9,161,021	19,791,128	19,791,128
Financial liabilities					
Trade and other payables	(i)	8,746,694	8,746,694	7,907,918	7,907,918
Lease liabilities		444,800	444,800	761,021	761,021
Deferred Payables		4,158,967	4,158,967	9,579,789	9,579,789
Interest bearing liabilities		9,277,975	9,277,975	8,864,972	8,864,972
Total financial liabilities		22,628,436	22,628,436	27,113,700	27,113,700

The fair values disclosed in the above table have been determined based on the following methodologies:

- (i) Cash and cash equivalents, trade and other receivables and trade and other payables are short-term instruments in nature whose carrying value is equivalent to fair value. Trade and other payables exclude amounts provided for annual leave, which is not considered a financial instrument.
- (ii) For financial assets at fair value through profit and loss, closing quoted bid prices at the end of the reporting period are used. These listed investments are included within level 1 of the hierarchy of financial assets.
- (iii) Lease liabilities and Interest bearing liabilities are carried at amortised cost.

26. BORROWINGS

	Consolidated Group	
	2024	2023
	\$	\$
Interest bearing loans	9,104,811	8,822,176

On 7 July 2022, the Company secured a two tranche \$10m debt facility with PURE Asset Management. Under Tranche 1, \$5 million was drawn under a 4-year secured loan facility at an interest rate of 9.90% per annum with 25,000,000 detached warrant shares at an exercise price of \$0.20. An establishment fee of \$150,000 was recognised as a reduction in proceeds.

On 29 June 2023, the Company withdrew \$5million under Tranche 2 of the facility, under a 4-year secured loan facility at an interest rate of 9.90% per annum with 35,714,286 detached warrant shares at an exercise price of \$0.14. An establishment fee of \$150,000 was recognised as a reduction in proceeds.

Conversion by the lender

Tranche 1 Warrants - The lender may elect at any time up to 7 July 2027, to convert any number greater than or equal to 5,000,000 warrant shares per conversion, at a rate of \$0.20 share for every warrant share converted (this conversion rate may be adjusted in the event of significant future capital raisings). The noteholder is not entitled to any additional payments on account of this conversion

Tranche 2 Warrants - The lender may elect at any time up to 29 June 2028, to convert any number greater than or equal to 5,000,000 warrant shares per conversion, at a rate of \$0.14 share for every warrant share converted (this conversion rate may be adjusted in the event of significant future capital raisings). The noteholder is not entitled to any additional payments on account of this conversion.

During the year, the Company issued more than 15% of the numbers of shares on issue under a Share Placement Offer and an ANREO offer within 12 months of last equity raising in August 2023. This event has triggered repricing of Tranche 1 Warrants from \$0.20 and Tranche 2 warrants from \$0.14 per share to \$0.083 per share under the anti-dilution price adjustment clause. The Company will seek shareholder approval to reprice the Tranche 1 and Tranche 2 Warrants in the next shareholder meeting.

Failure to Redeem

If the noteholder does not convert all their warrant shares during the exercise period, then the balance of the debt facility under Tranche 1 facility will be repaid on 7 July 2026 and the balance of the debt facility under the Tranche 2 facility will be repaid on 29 June 2027.

Movement in interest bearing loan

	Consolidated Group

Less: Fair value of equity component – share warrants	-	(1,004,579)
Add: Unwinding of discount	282,635	126,755
Carrying value as at end of the period	9,104,811	8,822,176

27. DEFERRED PAYABLES

	Consolidated Group	
	2024	2023
	\$	\$
Opening balance	9,579,789	12,557,882
less:		
- Milestone payments	(4,593,208)	(2,240,813)
- T2 share placement offer	(1,000,000)	-
- Royalty payments to Quintana	(703,140)	(896,782)
- Restructuring fee (final milestone payment)	(150,966)	-
- Foreign exchange loss	1,026,492	159,502
Closing balance	4,158,967	9,579,789

On 17 January 2022, the Group completed the acquisition of Mineral Hill Pty Ltd. Mineral Hill Pty Ltd assets include operating Mineral Hill Mine. Upon Acquisition, the Group recognised deferred payment totalling to \$12.8 million, comprising of USD\$8 million (AUD\$11.1 million) for milestone payments and \$1.7 million for royalty payment. As at the end of the year, the Group has paid milestone payments totalling to USD\$4.5 million (\$6.8 million) and royalty payments totalling to USD\$1.2 million (AUD\$1.8 million). The Final Milestone Payment of USD\$3.5 million was reduced by USD\$645,100 (AUD\$1 million) from Quintana Holdings LLP participation in Tranche 2 Placement offer which was completed on 17 August 2023. The Group is currently in discussions with Quintana Holdings LLP for restructuring the remaining Milestone payment of USD\$2.85 million AUD\$4.3 million). On 28 June 2024, the Group paid a fee totalling to USD\$100,000 (AUD\$150,966) to restructure the outstanding milestone payment.

SUBSEQUENT EVENTS

On 29 August 2024, 1,134,182 STI performance Options vested and were converted to non-transferable ZEPOs. All the vested STI ZEPOs have an expiry date of 3 years from vesting. 2,010,910 unvested STI performance options expired.

On 23 August 2024, the Company secured a \$5 million debt facility in addition to its existing \$10 million debt, under a revised facility agreement with PURE Asset Management to fund the Company's key growth initiatives at Mineral Hill. The additional debt facility was drawn immediately and is repayable on 22 February 2027.

Other than the above, there has been no other matter or circumstance which has arisen since 30 June 2024 that has significantly affected or may significantly affect:

- d) Kingston Resources Limited's operations in future financial years; or
- e) the results of those operations in future financial years; or
- f) Kingston Resources Limited's state of affairs in future financial years.

Consolidated Entity Disclosure Statement

This Consolidated Entity Disclosure Statement (CEDS) has been prepared in accordance with the Corporations Act 2001. It includes certain information for each entity that was part of the Consolidated Entity at the end of the financial year.

Directors' Declaration

The Directors of the Company declare that:

1. In the opinion of the Directors of the Company:
 - (a) the financial statements and notes set out on page 30 to 62, and the Remuneration disclosures that are contained in page 20 to 25 of the Remuneration Report in the Directors' Report, are in accordance with the Corporations Act 2001, including:
 - (i) giving true and fair view of the Group's financial position as at 30 June 2024 and of its performance, for the financial year ended on that date;
 - (ii) complying with Australian Accounting Standards (including the Australian Accounting Interpretations) and the Corporations Regulations 2001; and
 - (iii) complying with International Financial Reporting Standards as disclosed in Note 1.
 - (iv) the Consolidated Entity Disclosure Statement included in the financial statements is true and correct.
 - (b) the remuneration disclosures that are contained in page 20 to 25 of the Remuneration Report in the Directors' Report comply with Australian Accounting Standard AASB 124 Related Party Disclosures.
 - (c) the directors have been given the declaration required by s295A of the Corporations Act 2001 by the persons undertaking the roles of Managing Director and Chief Financial Officer.
2. There are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

Signed in accordance with a resolution of the Board of Directors.

**INDEPENDENT AUDITOR'S REPORT TO THE OWNERS OF
KINGSTON RESOURCES LIMITED**

Report on the Financial Report

Opinion

We have audited the financial report of Kingston Resources Limited (the Company) and its controlled entities (the Group), which comprises the consolidated statement of financial position as at 30 June 2024, the consolidated statement of profit or loss, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a statement of material accounting policies, consolidated entity disclosure statement and the directors' declaration.

In our opinion the accompanying financial report of Kingston Resources Limited and Controlled Entities is in accordance with the *Corporations Act 2001*, including;

- a. giving a true and fair view of the Group's financial position as at 30 June 2024 and of its financial performance for the year then ended; and
- b. complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Those Standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance about whether the financial report is free from material misstatement. Our responsibilities under those Standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110: *Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter – Material Uncertainty Related to Going Concern

We draw attention to Note 1(s) in the financial report, which describes the principal conditions that raise doubt about the Group's ability to continue as a going concern. As stated in Note 1(s), these events or conditions indicate that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report for the year ended 30 June 2024. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matter	How Our Audit Addressed the Key Audit Matter
<p>Capitalised Exploration and Mine Development Expenditure</p> <p>Refer to Note 23 "Mine/Resource Development and Exploration"</p>	
<p>At 30 June 2024, the Group's assets included capitalised exploration costs of \$49,759,508, and mine development expenditures of \$22,865,123.</p> <p>The Group's accounting policy in respect of mine development and exploration expenditure is outlined in Note 1(o) and Note 1(p).</p> <p>Due to the net assets of the Group exceeding its market capitalisation, the Group identified indicators of impairment in its PNG and Mineral Hill Cash Generating Unit (CGU) during the year.</p> <p>As a result, the Group considered PNG and Mineral Hill CGU for impairment. As a result of the Group's assessment, no impairment was recognised during the year.</p> <p>This is a key audit matter because the carrying value of the assets are material to the financial statements and significant judgement is applied in determining whether an indicator of impairment exists in relation to capitalised exploration costs, and mine development expenditures in accordance with Australian Accounting Standard AASB 6 "Exploration for and Evaluation of Mineral Resources" and AASB 136 "Impairment of Assets".</p>	<p>Our audit procedures included but were not limited to:</p> <ul style="list-style-type: none"> • Confirming the existence and tenure of the exploration assets in which the Group has a contracted interest by obtaining confirmation of title from the relevant authorities. • Tested a sample of additions of capitalised exploration costs, and mine development expenditures to supporting documentation. • In assessing whether an indicator of impairment exists in relation to the Group's capitalised exploration costs, in accordance with AASB 6 "Exploration for and Evaluation of Mineral Resources", we: <ul style="list-style-type: none"> – examined the minutes of the Group's board meetings; – discussed with management the Group's ability and intention to undertake further exploration activities. – evaluated the Group's assessment that there were indicators of asset impairment at 30 June 2024. • In assessing whether an indicator of impairment exists in relation to the Group's mine development expenditures in accordance with AASB 136 "Impairment of Assets", we: <ul style="list-style-type: none"> – examined the minutes of the Group's board meetings; – tested the significant inputs in the Group's cash flow forecasts for consistency with their future activity regarding mine development. – evaluated the Group's assessment that there were indicators of asset impairment at 30 June 2024. – considered whether the discounted cash flow model used to estimate the recoverable amount was consistent with Australian Accounting Standards and the assumptions detailed

INDEPENDENT AUDITOR'S REPORT TO THE OWNERS OF
 KINGSTON RESOURCES LIMITED

Key Audit Matter	How Our Audit Addressed the Key Audit Matter
<p>Rehabilitation provision</p> <p>Refer to Note 1(o) "Mine Development"</p> <p>As a result of its mining and processing operations, the Group is obligated to restore and rehabilitate the land and environment disturbed by these operations and remove related infrastructure. Rehabilitation activities are governed by a combination of regulatory and legislative requirements and Group standards. At 30 June 2024, the Group had a rehabilitation provision of \$7,465,000.</p> <p>This was a key audit matter due to the significant of the balance and the required judgements in the assessment of the nature and extent of future works to be performed, the future cost of performing the works, and the timing of when the rehabilitation will take place.</p>	<p>Our procedures included but were not limited to:</p> <ul style="list-style-type: none"> • Developing an understanding on how the Group identified the relevant methods, assumptions or sources of data that are appropriate for developing rehabilitation plans and associated cost estimates in the context of the Australian Accounting Standards • Developing an understanding of and assessing the appropriateness of the significant assumptions and key data used to develop the rehabilitation provision with regard to applicable regulatory and legislative requirements. • Reviewing the adequacy of the Company's disclosures in respect of the accounting treatment of the rehabilitation provision in the financial statements, including the significant judgments involved, and the accounting policy adopted.

Information Other than the Financial Report and Auditor's Report Thereon

The directors are responsible for the other information. The other information comprises the information included in the Group's annual report for the year ended 30 June 2024, but does not include the financial report and our auditor's report thereon. Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon. In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The directors of the company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

For personal use only

**KINGSTON RESOURCES LIMITED
ABN 44 009 148 529
AND CONTROLLED ENTITIES**

**INDEPENDENT AUDITOR'S REPORT TO THE OWNERS OF
KINGSTON RESOURCES LIMITED**

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the financial report. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial report of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.
