VISION, MISSION, VALUES AND SUSTAINABILITY

VISION

E79 Gold's Vision is to create significant value for Shareholders through good science and applied exploration with a strong culture of operating ethically and responsibly.

MISSION

To discover gold and develop sustainable operations whilst acting responsibly towards the environment.

STATEMENT OF VALUES

- ❖ To respect cultures, customs and values of all Stakeholders, including employees, contractors, suppliers, Traditional Owners, pastoralists and the community.
 - ❖ At all times conduct ourselves with integrity, honesty and transparency.
- ❖ Encourage an enjoyable and safe workplace based on technical excellence, teamwork, collaboration and diversity.
 - ❖ Seek to protect the environment and enrich the communities in which we work.

SUSTAINABILITY, SOCIAL RESPONSIBILITY AND COMMUNITY

E79 Gold is committed to operating ethically and sustainably, and embracing responsible environmental, social and governance practises. E79 Gold strives to respect cultures, customs, and values in all dealings with people, places, governments and companies involved in our activities. E79 Gold's success depends on our ability to build and maintain these relationships.

ENVIRONMENT

Our tenure is based in the Western Australian Goldfields region, with rich and diverse habitats. Our exploration activities are undertaken with care to protect the flora, fauna and sites of cultural significance. As part of our Values, E79 Gold strives to ensure transparent communication and engagement with the community, Traditional Owners and pastoralists in the areas we operate.

HEALTH AND SAFETY

E79 Gold's values our people and the community in which we operate. Our Code of Conduct is intended to instil a culture of safety awareness and strives to eliminate risks of harm.

REVIEW OF OPERATIONS

Summary of Operations

E79 Gold's mineral assets are located in Western Australia and the Northern Territory. The Laverton South and Murchison Projects are in Western Australia, and the Mountain Home Project is in the Northern Territory.

Key highlights during the 12 months were:

Mountain Home Project:

- E79 Gold optioned the copper-gold project during the year
- Project expanded to 868km² with two new tenement applications
- High grade copper values up to 45.5% Cu from initial rock chip sampling¹
- High grade gold values up to 11.75g/t Au from initial rock chip sampling²
- Coincident gold and copper anomalism from soil sampling

Jungar Flats Project:

- 945 auger holes (~1m depth) over the southern part of the Jungar Flats project
- 69 rock chips testing lithium targets
- New tenements, prospective for lithium and gold, were granted, increasing the Jungar Flats Project area by 193km²

Laverton South Project:

- 9,805m of aircore drilling (232 holes) testing early-stage regional targets
- 183m of reverse circulation ('RC') drilling (one hole) testing the eastern zone at Target 3

Safe and efficient exploration was undertaken on all projects with no incidents to report.

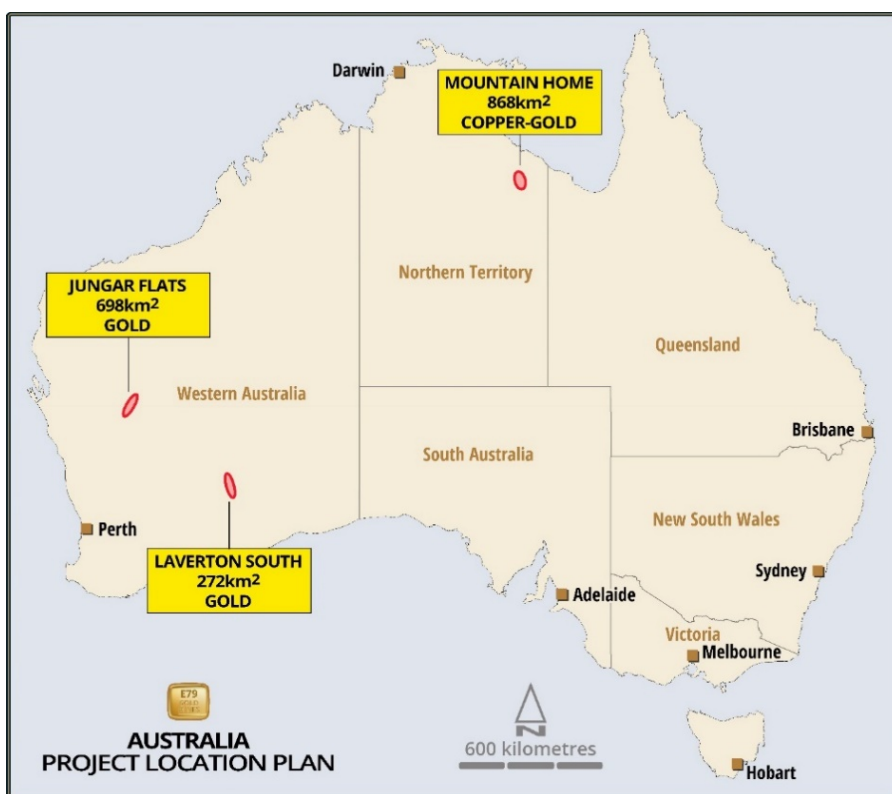

Figure 1: Map showing E79 Gold's project locations

Mountain Home Project

The Mountain Home Project is located in the Northern Territory, with an area of 868km², and covers a prospective inlier of McArthur Basin Stratigraphy. This district hosts the world-class McArthur River Zinc-Lead Mine (Figure 2), the Teena Zinc-Lead Deposit and numerous other base metal prospects. The Mountain Home Project is prospective for copper and gold. E79 Gold optioned the Project during the year³ and the initial field trip mapped the previously known mineralised copper gossan from 150m to over 1,000m.

During the year, E79 Gold secured an option to acquire the Mountain Home Project for four (4) years.

The total payable to NT Minerals Limited over four years is \$200,000, including \$100,000 to secure the option to purchase (paid) and a further \$100,000 to complete the purchase to be paid within the four (4) year option period. After the final payment, upon exercise of the option, E79 Gold will become 100%owner of the Mountain Home Project.

E79 Gold has expanded the Project by applying for two additional exploration tenements, with E79 Gold now expecting to control 868km² at the Mountain Home Project subject to these applications being granted.

E79 Gold undertook a reconnaissance mapping and sampling exercise that was highly successful in extending the known outcropping copper mineralisation from 150m to 1,000m in strike⁴. Fifteen (15) rock chips were

taken along the 1,000m length of outcrop, while 36 soil samples were taken on lines oriented perpendicular to the strike of the known outcrop.

Selective rock chips taken on the initial field trip returned exceptional copper and gold results, including⁵;

- MHR0004 - 28.9% Cu, 0.16 g/t Au
- MHR0008 - 0.11% Cu, 11.75 g/t Au
- MHR0009 - 22.0% Cu, 0.45 g/t Au
- MHR0010 - 45.5% Cu, 0.08 g/t Au – See Photo 1
- MHR0011 - 38.4% Cu, 0.23 g/t Au
- MHR0012 - 24.9% Cu, 1.33 g/t Au
- MHR0013 - 39.8% Cu, 1.72 g/t Au
- MHR0014 – 30.0% Cu, 0.29 g/t Au

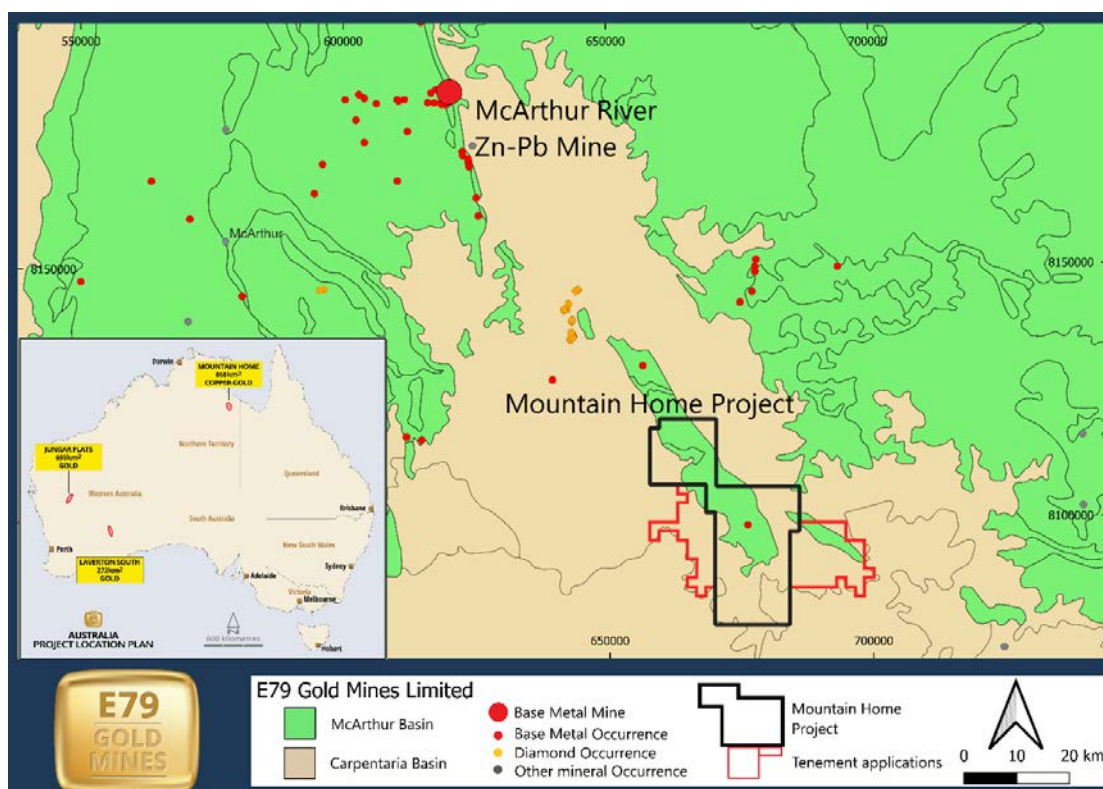

Figure 2: Location map of the Mountain Home Project with McArthur and Carpentaria Basins

A reconnaissance soil sample program, completed during E79 Gold’s initial programme, was successful in outlining a coincident copper and gold anomalous zone, up to 80m wide across the mineralised outcrop⁶. The outstanding success of this initial reconnaissance program paves the way for larger-scale comprehensive sampling programs to be undertaken.

REVIEW OF OPERATIONS

Laverton South Project

The Laverton South Project, with an area of 272km², covers a southern portion of the Laverton Tectonic Zone ('LTZ') approximately 130km east-northeast of Kalgoorlie, within the major gold producing Archean Yilgarn Craton of Western Australia. The LTZ is one of the world's richest gold belts with more than 30 million ounces ('Moz') in historical production, reserves and resources and hosts numerous prolific deposits including Granny Smith (3.7Moz), Sunrise Dam (10.3Moz) and Wallaby (11.8Moz)⁷. Within the Laverton South Project are two tenement packages, Lake Yindana and Pinjin.

- **Pinjin (100% E79)** 139km² of prospective ground with early-stage drilling success
- **Lake Yindana (100% E79)** 133km² within a newly identified greenstone package

Exploration work during the year focused on heritage surveys at Lake Yindana, followed by a regional aircore program targeting a previously untested greenstone belt, and a second program testing an interpreted intrusion into the greenstone. Wide spaced aircore drilling, consisting of 9,805m in 232 holes was completed. Anticipated greenstone lithologies were intersected by the drilling program, however assay results show little encouragement from this limited extent of drilling⁸. Exploration will now focus on the northern part of the greenstone sequence as well as domal formations similar to those at the nearby Rebecca gold project.

REVIEW OF OPERATIONS

At the Pinjin Project a deeper RC hole was drilled on the eastern edge of Target 3, a large-scale gold anomaly defined by aircore drilling. Results from the deeper RC drilling showed bedrock anomalism of the same order of magnitude as the overlying anomaly.

REVIEW OF OPERATIONS

Murchison (Jungar Flats) Project

The Jungar Flats Project, in the North Murchison region, is located 70km west of Meekatharra and 45km north-northeast of the 2.8Moz Big Bell gold deposit. The Project tenure covers an area of 698km², contains approximately 60km of strike of the highly prospective Big Bell Shear and straddles a narrow north-south trending greenstone belt.

Work on the Jungar Flats project consisted of a program of 945 auger holes (~1m depth) over the southern part of the Jungar Flats project. This, combined with the ~3,000 auger program from last year⁹ mean that 40km of the prospective greenstone, defined by the Company's gravity surveys, has been auger tested.

From these combined auger sampling programs an area of elevated lithium was identified and multiple field programs resulted in 69 rock chip samples being taken, showing a number of areas of outcropping lithium bearing pegmatites¹⁰ with Li₂O up to 0.39%, with two areas tested (Figure 5). The southern area showed a broader zone with multiple pegmatites within dolerite units with granite to the east and west of the pegmatites, while the northern area showed more discrete outcropping pegmatites over a low dolerite hill. Based on the success of these programs a number of other lithium anomalies will be mapped and tested.

DIRECTORS' REPORT

Your Directors submit their report for the year ended 30 June 2024.

DIRECTORS

The Directors in office at the date of this report and at any time during the year are as follows. Directors were in office for the entire period unless otherwise stated.

Current Directors

Christopher Cairns - appointed 30 September 2021

Peter Ironside - appointed 5 April 2007

Deborah Lord - appointed 30 September 2021

INFORMATION ON DIRECTORS

Christopher Cairns – B.Sc (Hons)

Non-executive Chair - appointed 30 September 2021

Christopher (Chris) Cairns completed a First Class Honours degree in Economic Geology from the University of Canberra in 1992. Chris has extensive experience having worked for:

- BHP Minerals as Exploration Geologist/Supervising Geologist in Queensland and the Philippines.
- Aurora Gold as Exploration Manager at the Mt Muro Gold Mine in Borneo.
- LionOre as Supervising Geologist for the Thunderbox Gold Mine and Emily Anne Nickel Mine drill outs.
- Sino Gold as Geology Manager responsible for the Jinfeng Gold Deposit feasibility drillout and was responsible for the discovery of the stratabound gold mineralisation, taking the deposit from 1.5Moz to 3.5Moz in 14 months.

Chris joined Integra Mining Limited in March 2004 and as Managing Director oversaw the discovery of three gold deposits, the funding and construction of a new processing facility east of Kalgoorlie, transforming the company from explorer to gold producer with first gold poured in September 2010. In 2008, Integra was awarded the Australian Explorer of the Year by Resources Stocks Magazine and in 2011, was awarded Gold Miner of the Year by Paydirt Magazine and the Gold Mining Journal.

In January 2013, Integra was taken over by Silver Lake Resources Limited for \$426 million (at time of bid) at which time Chris resigned along with the whole Integra Board, after having successfully recommended shareholders accept the Silver Lake offer.

Chris is currently the Executive Chairman of Stavelly Minerals Limited, is a Fellow of the Australian Institute of Geoscientists, a Fellow of the Australian Institute of Mining and Metallurgy, a member of the JORC Committee, a member of the Society of Economic Geologists and Chairman of the Australian Prospectors and Miners Hall of Fame. In 2020, Stavelly Minerals Limited was awarded the prestigious Craig Oliver Award for an 'all-round' mid- to small-cap mining company.

Chris is a member of the Company's Audit and Risk Committee.

DIRECTORS' REPORT

B. REMUNERATION POLICY, LINK TO PERFORMANCE AND ELEMENTS OF REMUNERATION

Remuneration Governance

The Board is responsible for ensuring that the Company's remuneration structures are aligned with the long-term interests of E79 Gold and its Shareholders.

Once the Board is of a sufficient size and structure, and the Company's operations are of a sufficient magnitude, to assist the Board in fulfilling its duties, the Board will establish a Remuneration Committee. Until that time, the Board has taken a view that the full Board will hold special meetings or sessions as required. The Board are confident that this process is stringent and full details of remuneration policies and payments are provided to Shareholders in the annual report and on the web. The Board has adopted the following policies for Directors' and Executives' remuneration.

Remuneration Philosophy

The performance of the Group depends upon the quality of its Directors and Executives. To prosper, the Group must attract, motivate and retain highly skilled Directors and Executives.

To this end, the Group embodies the following principles in its remuneration framework:

- provide competitive rewards to attract high calibre Executives;
- link Executive rewards to shareholder value; and
- in the near future, will establish appropriate, demanding performance hurdles in relation to variable Executive remuneration.

As E79 Gold is an exploration company, not yet generating income, a greater use of equity-based remuneration is considered appropriate both to preserve capital and to retain and incentivise Key Management Personnel.

In accordance with best practice corporate governance, the structure of Non-Executive Director and Executive compensation is separate and distinct.

Non-Executive Directors' Remuneration

Objective

The Board seeks to set aggregate remuneration at a level which provides the Group with the ability to attract and retain Directors of the highest calibre, whilst incurring a cost which is acceptable to Shareholders.

Structure

Non-Executive Directors' fees are paid within an aggregate limit which is approved by the shareholders from time to time. Retirement payments, if any, are agreed to be determined in accordance with the rules set out in the Corporations Act as at the time of the Director's retirement or termination. Non-Executive Directors' remuneration may include a portion consisting of options, as considered appropriate by the Board, which are subject to shareholder approval in accordance with ASX listing rules. The option incentive portion is targeted to add to shareholder value by having a strike price considerably greater than the market price at the time of granting.

The amount of aggregate remuneration sought to be approved by Shareholders and the manner in which it is apportioned amongst Directors is reviewed annually. The Board considers the amount of Director fees being paid by comparable companies with similar responsibilities and the experience of the Non-Executive Directors when undertaking the annual review process. The aggregate remuneration for Non-Executive Directors is currently \$250,000 per annum approved by Shareholders with the adoption of the Company's Constitution on 9 July 2021.

DIRECTORS' REPORT

Executive Remuneration

Objective

The Group aims to reward Executives with a level and mix of remuneration commensurate with their position and responsibilities within the Group and so as to:

- reward Executives for company, and individual performance;
- ensure continued availability of experienced and effective management; and
- ensure total remuneration is competitive by market standards.

Structure

In determining the level and make-up of Executive remuneration, the Board negotiates a remuneration to reflect the market salary for a position and individual of comparable responsibility and experience. Remuneration is regularly compared with the external market by participation in industry salary surveys and during recruitment activities generally. If required, the Board may engage an external consultant to provide independent advice in the form of a written report detailing market levels of remuneration for comparable Executive roles.

Remuneration consists of a fixed remuneration and may include short and long term incentive portion as considered appropriate.

Fixed Remuneration - Objective

The level of fixed remuneration is set so as to provide a base level of remuneration which is both appropriate to the position and is competitive in the market. Fixed remuneration is reviewed annually by the Board and the process consists of a review of Company and individual performance, and relevant comparative remuneration in the market. As noted above, the Board may engage an external consultant to provide independent advice.

Fixed Remuneration - Structure

The fixed remuneration is a base salary.

Variable Pay – Short and Long Term Incentives - Objective

The objective of short and/or long term incentives is to reward Executives in a manner which aligns this element of remuneration with the creation of shareholder wealth. As E79 Gold is an exploration company, there are usually no performance hurdles attached to equity awards. The Board however may include an incentive portion that is payable based upon attainment of objectives related to the Executive's job responsibilities. The objectives will vary, but are to be targeted to relate directly to the Group's business and financial performance and thus to shareholder value.

Variable Pay – Short and Long Term Incentives – Structure

Short and/or long term incentives granted to Executives may be delivered in the form of options and/or performance rights. The equity incentives granted are aimed to motivate Executives to pursue the short and long term growth and success of the Group within an appropriate control framework and demonstrate a clear relationship between key Executive performance and remuneration. Performance hurdles may be attached to vesting periods and the Board determines appropriate vesting periods to provide rewards over a period of time to key management personnel.

During the year, no performance related cash payments were made.

DIRECTORS' REPORT

C. CONTRACTUAL ARRANGEMENTS OF KMP REMUNERATION

On appointment to the Board, all Non-Executive Directors enter into a service agreement with E79 Gold in the form of a letter of appointment. The letter summarises the Board policies and terms, including compensation, relevant to the office of director.

Remuneration and other terms of employment for the Executive Directors and the other key management personnel are also formalised in service agreements. The major provisions of the agreements relating to remuneration are set out below.

Name	Term of agreement	Base annual salary exclusive of statutory superannuation at 30/6/2024	Termination benefit
Non-Executive Directors			
Christopher Cairns	Ongoing, subject to re-elections	\$50,000	None
Peter Ironside	Ongoing, subject to re-elections	\$40,000	None
Deborah Lord	Ongoing, subject to re-elections	\$40,000	None
Executives and Other Key Management Personnel			
Edward Summerhayes	Ongoing	\$220,000	3 Months
Amanda Sparks	Ongoing	\$60,000	None

There were no increases in base remuneration during the year ended 30 June 2024.

⁽¹⁾ Equity based payments – options. These represent the amounts expensed for options granted and vested in the year.

There were no performance related payments made during the year. Performance hurdles were not attached to remuneration options as these options were to provide an incentive component of remuneration to motivate and reward the performance of the recipients and to provide a cost effective way for the Company to remunerate, which allows the Company to spend a greater proportion of its cash reserves on exploration than it would if alternative cash forms of remuneration were given.

Shares issued to Key Management Personnel on exercise of compensation options

During the year ended 30 June 2024, no shares were issued to Key Management Personnel on exercise of compensation options.

DIRECTORS' REPORT

Share-based Compensation

During the year, the following options were granted as equity compensation benefits to Directors and other Key Management Personnel. These options vested at grant date.

2024	Number of Unlisted Options at \$0.115 expiry 30/11/2026	Value* per option at grant date \$
Directors		
C Cairns	500,000	0.0323
P Ironside	500,000	0.0323
D Lord	500,000	0.0323
Executives / Other Key Management Personnel		
E Summerhayes	1,000,000	0.0198
A Sparks	500,000	0.0198

By offering these incentives in the form of options, rather than cash, the Company can maximise the availability of cash for the Company's future exploration activities.

* Value at grant date has been calculated in accordance with AASB 2 Share-based Payments. The assessed fair values of the options were determined using a Black-Scholes option pricing model, taking into account the exercise price, term of option, the share price at grant date and expected price volatility of the underlying share, expected dividend yield and the risk-free interest rate for the term of the option.

The inputs to the model used were:

Grant date	16/11/2023	14/12/2023
	Directors	Other KMPs
Option exercise price (\$)	0.115	0.115
Expected life of options (years)	3.04	2.96
Dividend yield (%)	-	-
Expected volatility (%)	67.85	68.97
Risk-free interest rate (%)	4.01	3.73
Underlying share price (\$)	0.115	0.115
Value of Option (\$)	.0323	.0198
Vesting Date	16/11/2023	14/12/2023

The expected life of the options is based on historical data and is not necessarily indicative of exercise patterns that may occur. The expected volatility reflects the assumption that the historical volatility is indicative of future trends, which may also not necessarily be the actual outcome. No other features of options granted were incorporated into the measurement of fair value.

DIRECTORS' REPORT

MATERIAL BUSINESS RISKS

E79 Gold maintains a Risk Register that identifies the material risks for the Group. These risks include the loss of a significant tenement, inability to access land, failure to raise future capital, the occurrence of a fatality or permanent disability injury to persons to whom the Company has a duty of care, adverse changes to government policies or legislation, commodity price decreases, inaccurate financial reporting, non-compliance with rules and laws, and loss of technical data.

The Risk Register records all current controls in place to minimise the risks and identifies the overall control effectiveness. The Group considers the following to be key material business risks:

Exploration Risk

Mineral exploration and development are high-risk undertakings, and there is no assurance that exploration of the tenements will result in the discovery of an economic deposit. Even if an apparently viable deposit is identified there is no guarantee that it can be economically exploited. The future exploration activities of the Company may be affected by a range of factors including geological conditions, limitations on activities due to permitting requirements, availability of appropriate exploration equipment, exploration costs, seasonal weather patterns, unanticipated operational and technical difficulties, industrial and environmental accidents and many other factors beyond the control of the Company.

Additional requirements for capital

The Company's capital requirements depend on numerous factors. Given that the Company's primary business is mineral exploration and that it does not currently have any mining operations, the Company will require further funding. Any additional equity financing will dilute shareholdings, and debt financing, if available, may involve restrictions on financing and operating activities. If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations and scale back its exploration programmes as the case may be. There is however no guarantee that the Company will be able to secure any additional funding or be able to secure funding on terms favourable to the Company.

Land Access Risk

Land access is critical for exploration and exploitation to succeed. It requires both access to the mineral rights and access to the surface rights. Minerals rights may be negotiated and acquired. In all cases, the acquisition of prospective exploration and mining licences is a competitive business in which proprietary knowledge or information is critical and the ability to negotiate satisfactory commercial arrangements with other parties is often essential. The Company may not be successful in acquiring or obtaining the necessary licences to conduct exploration or evaluation activities outside of the mineral tenements that it owns.

The Native Title Act recognises and protects the rights and interests in Australia of Aboriginal and Torres Strait Islander people in land and waters, according to their traditional laws and customs. There is significant uncertainty associated with Native Title in Australia and this may impact on the Company's operations and future plan.

In relation to tenements which the Company has an interest in or will in the future acquire such an interest, there may be areas over which Native Title rights of Aboriginal and Torres Strait Islander people exist. If Native Title rights do exist, the ability of the Company to gain access to tenements (through obtaining consent of any relevant landowner), or to progress from the exploration phase to the development and mining phases of operations may be adversely affected.

DIRECTORS' REPORT

Occupational Health and Safety

Safety is a critical element of the Company. While the Company has a strong commitment to achieving a safe performance in the field and a strong record in achieving safety performance, a serious safety incident could impact upon the reputation and financial performance of the Company. Additionally, laws and regulations may become more complex and stringent. Failure to comply with applicable regulations or requirements may result in significant liabilities, suspended activities and increased costs.

EVENTS OCCURRING AFTER THE REPORTING PERIOD

There are no matters or circumstances that have arisen since 30 June 2024 that have or may significantly affect the operations, results, or state of affairs of the Group in future financial years.

This report is made in accordance with a resolution of Directors, pursuant to section 298(2)(a) of the Corporations Act 2001.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

June 2024

1. MATERIAL ACCOUNTING POLICIES

(i) Basis of Preparation

These general purpose financial statements for the year ended 30 June 2024 have been prepared in accordance with the Corporations Act 2001 and Australian Accounting Standards (including Australian Accounting Interpretations) and authoritative pronouncements of the Australian Accounting Standards Board. These financial statements have been prepared in accordance with the historical costs convention with the exception of investments which have been measured at fair value. E79 Gold Mines Limited is a for-profit entity for the purpose of preparing the financial statements.

The financial report is presented in Australian dollars, which is the Group's functional and presentation currency.

The financial report of E79 Gold Mines Limited for the year ended 30 June 2024 was authorised for issue in accordance with a resolution of Directors on 20 September 2024.

(ii) Statement of Compliance

This financial report complies with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).

(iii) Adoption of New and Revised Standards and Change in Accounting Standards

Early adoption of accounting standards

The Group has not elected to apply any pronouncements before their operative date in the annual reporting year beginning 1 July 2024.

New and amended standards adopted by the Company

The Group adopted all new or amended Accounting Standards and interpretations issued by the Australian Accounting Standards Board (AASB) that are mandatory for the current reporting period.

New Accounting Standards and Interpretations not yet mandatory or early adopted by the Company

Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet mandatory, have not been early adopted by the consolidated entity for the annual reporting period ended 30 June 2024. The consolidated entity has not yet assessed the impact of these new or amended Accounting Standards and Interpretations.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

June 2024

1. MATERIAL ACCOUNTING POLICIES - continued

(iv) Significant accounting judgements, estimates and assumptions

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements, estimates and assumptions on historical experience and on other various factors, including expectations of future events, management believes to be reasonable under the circumstances.

The key judgements, estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of certain assets and liabilities are:

Share-based payment transactions

The Group measures the cost of equity-settled transactions by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined using a Black-Scholes model taking into account the terms and conditions upon which the instruments were granted. The accounting estimates and assumptions relating to equity-settled share-based payments would have no impact on the carrying amounts of assets and liabilities within the next annual reporting period but may impact profit or loss and equity. Refer to note 3 for further information.

Commitments - Exploration

The Group has certain minimum exploration commitments to maintain its right of tenure to exploration permits. These commitments require estimates of the cost to perform exploration work required under these permits.

Deferred Exploration Expenditure Acquisition Costs

The Group capitalises acquisition expenditure relating to exploration and evaluation where it is considered likely to be recoverable or where the activities have not reached a stage which permits a reasonable assessment of the existence of reserves. While there are certain areas of interest from which no reserves have been extracted, the Directors are of the continued belief that such expenditure should not be written off since exploration activities in such areas have not yet concluded.

(v) Basis Of Consolidation And Business Combinations

The consolidated financial statements comprise the financial statements of E79 Gold Mines Limited (Company or Parent Entity) and its subsidiaries (the Group). Subsidiaries are all entities over which the Group has control. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee);
- Exposure, or rights, to variable returns from its involvement with the investee; and
- The ability to use its power over the investee to affect its returns.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

June 2024

1. MATERIAL ACCOUNTING POLICIES - continued

(v) Basis Of Consolidation And Business Combinations - continued

The financial statements of the subsidiaries are prepared for the same period as the Parent Entity, using consistent accounting policies.

In preparing the consolidated financial statements, all intercompany balances and transactions, income and expenses and profit or losses resulting from intra-group transactions have been eliminated in full.

9. DEFERRED EXPLORATION EXPENDITURE ACQUISITION COSTS

Exploration expenditure is expensed to the statement of profit or loss and other comprehensive income as and when it is incurred and included as part of cash flows from operating activities. Exploration costs are only capitalised to the statement of financial position if they result from an acquisition. Costs carried forward in respect of an area of interest which is abandoned are written off in the year in which the abandonment decision is made.

Deferred exploration acquisition costs carried forward	3,346,479	3,246,479

In May 2024, the Group secured an option to acquire the Mountain Home Copper-Gold Project located in the Northern Territory.

The material details of the Option to acquire are:

- An upfront payment of \$100,000 cash (paid in May 2024);
- Payment upon exercise of the Option to acquire (no later than end of Year 4) of \$100,000 cash; and
- A Net Smelter Royalty to NT Minerals of 2%, capped at a maximum of A\$3 million.

The total payable to NT Minerals Limited over four years is \$200,000. After the final payment, E79 Gold will become 100% owner of the Mountain Home Project.

Ultimate recoupment of exploration and evaluation expenditure carried forward is dependent on successful development and commercial exploitation or, alternatively, sale of the respective areas.

(d) Terms and Conditions of Issued Capital

Ordinary shares have the right to receive dividends as declared and, in the event of winding up the Company, to participate in the proceeds from the sale of all surplus assets in proportion to the number of and amounts paid up on shares held.

Ordinary shares entitle their holder to one vote, either in person or by proxy, at a meeting of the Company.

(e) Capital Management

When managing capital, management's objective is to ensure the entity continues as a going concern as well as to maintain optimal returns to Shareholders and benefits for other stakeholders. Management also aims to maintain a capital structure that ensures the lowest cost of capital available to the entity.

Management may in the future adjust the capital structure to take advantage of favourable costs of capital and issue further shares in the market. Management has no current plans to adjust the capital structure. There are no plans to distribute dividends in the next year.

Total capital is equity as shown in the statement of financial position. The Company is not subject to any externally imposed capital requirements.

16. SEGMENT INFORMATION

Management has determined the operating segments based on the reports reviewed by the Board of Directors that are used to make strategic decisions. The Group does not have any material operating segments with discrete financial information. The Group does not have any customers and all its assets and liabilities are primarily related to the mineral exploration industry and are located within Australia. The Board of Directors review internal management reports on a regular basis that is consistent with the information provided in the statement of profit or loss and other comprehensive income, statement of financial position and statement of cash flows. As a result, no reconciliation is required because the information as presented is what is used by the Board to make strategic decisions.

17. FINANCIAL RISK MANAGEMENT OBJECTIVES, POLICIES AND INSTRUMENTS

Interest revenue

Interest revenue is recognised as it accrues, taking into account the effective yield on the financial asset.

The Group's principal financial instruments comprise cash and short-term deposits. The main purpose of these financial instruments is to provide working capital for the Group's operations.

The Group has various other financial instruments such as receivables and trade creditors, which arise directly from its operations.

The main risks arising from the Group's financial instruments are interest rate risk, liquidity risk and credit risk. The Board reviews and agrees on policies for managing each of these risks and they are summarised below.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

June 2024

17. FINANCIAL RISK MANAGEMENT OBJECTIVES, POLICIES AND INSTRUMENTS - continued

Liquidity Risk

The Group has no significant exposure to liquidity risk as there is effectively no debt. The Group manages liquidity risk by monitoring immediate and forecast cash requirements and ensuring adequate cash reserves are maintained.

Interest Rate Risk

At reporting date, the Group's exposure to market risk for changes in interest rates relates primarily to the Group's short-term cash deposits. The Company constantly analyses its exposure to interest rates, with consideration given to potential renewal of existing positions, the mix of fixed and variable interest rates and the period to which deposits may be fixed.

At reporting date, the Company had the following financial assets exposed to variable interest rates:

	2024	2023
	\$	\$
Financial Assets:		
Cash and cash equivalents (interest-bearing accounts)	1,769,709	4,276,822
Receivables	30,000	30,171
Net exposure	1,799,709	4,306,993

There is no interest rate exposure on the Group's financial liabilities.

At 30 June 2024, if interest rates had increased by 0.25% from the year end variable rates with all other variables held constant, post tax loss for the Company would have been \$4,491 lower and equity higher (2023: changes of 3% \$128,604 lower). The 0.25% (2023: 3%) sensitivity is based on reasonably possible changes, over a financial year, using an observed range of historical RBA movements over the last three years.

Credit Risk

Credit risk refers to the risk that a counter party will default on its contractual obligations resulting in financial loss to the Group. The Group has adopted the policy of dealing with creditworthy counterparties and obtaining sufficient collateral or other security where appropriate, as a means of mitigating the risk of financial loss from defaults. The Group measures credit risk on a fair value basis.

Significant cash deposits are with institutions with a minimum credit rating of AA- (or equivalent) as determined by a reputable credit rating agency e.g. Standard & Poor.

The Group does not have any other significant credit risk exposure to a single counterparty or any group of counterparties having similar characteristics.

INDEPENDENT AUDITOR'S REPORT

To the members of E79 Gold Mines Limited

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of E79 Gold Mines Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 30 June 2024, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial report, including material accounting policy information, the consolidated entity disclosure statement and the directors' declaration.

In our opinion the accompanying financial report of the Group, is in accordance with the *Corporations Act 2001*, including:

- (i) Giving a true and fair view of the Group's financial position as at 30 June 2024 and of its financial performance for the year ended on that date; and
- (ii) Complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the Financial Report* section of our report. We are independent of the Group in accordance with the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Carrying value of exploration and evaluation expenditure

Key audit matter	How the matter was addressed in our audit
<p>As disclosed in Note 9 to the Financial Report, the carrying value of capitalised exploration and evaluation expenditure represents a significant asset of the Group.</p> <p>Refer to Note 1 (iv) of the Financial Report for a description of the accounting policy and significant judgments applied to capitalised exploration and evaluation expenditure.</p> <p>In accordance with AASB 6 Exploration for and Evaluation of Mineral Resources (“AASB 6”), the recoverability of exploration and evaluation expenditure requires significant judgment by management in determining whether there are any facts or circumstances that exist to suggest that the carrying amount of this asset may exceed its recoverable amount. As a result, this is considered a key audit matter.</p>	<p>Our procedures included, but were not limited to the following:</p> <ul style="list-style-type: none"> • Obtaining a schedule of the areas of interest held by the Group and assessing whether the rights to tenure of those areas of interest remained current at balance date, which included obtaining and assessing supporting documentation such as license status records; • Considering the Group’s intention to carry out significant ongoing exploration programmes in the respective areas of interest by holding discussions with management, and reviewing the Group’s exploration budgets, ASX announcements and directors’ minutes; • Considering whether any such areas of interest had reached a stage where a reasonable assessment of economically recoverable reserves existed; • Considering whether any facts or circumstances existed to suggest impairment testing was required; and • Assessing the adequacy of the related disclosures in Notes 9 and 1(iv) to the Financial Report

Other information

The directors are responsible for the other information. The other information comprises the information in the Group’s annual report for the year ended 30 June 2024, but does not include the financial report and the auditor’s report thereon.

Our opinion on the financial report does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors for the Financial Report

The directors of the Company are responsible for the preparation of:

- a) the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001 and
- b) the consolidated entity disclosure statement that is true and correct in accordance with the Corporations Act 2001, and

for such internal control as the directors determine is necessary to enable the preparation of:

- i) the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error; and
- ii) the consolidated entity disclosure statement that is true and correct and is free of misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at:

https://www.auasb.gov.au/admin/file/content102/c3/ar1_2020.pdf

This description forms part of our auditor's report.

Report on the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included in pages 10 to 17 of the directors' report for the year ended 30 June 2024.

In our opinion, the Remuneration Report of E79 Gold Mines Limited, for the year ended 30 June 2024, complies with section 300A of the *Corporations Act 2001*.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
