Letter from the Chairman

Dear Shareholder

On behalf of the Directors and management, I am pleased to invite you as a valued Shareholder of Labyrinth Resources Limited (**Labyrinth** or **Company**) to participate in a 1 for 1.9813 non-renounceable pro rata entitlement offer of new fully paid ordinary shares in the Company (**New Shares**) at an issue price of \$0.003 per New Share (**Issue Price**) to raise up to approximately \$2,003,801 (before costs).

Entitlement Offer and Placement

On 17 July 2024, the Company announced its intention to raise approximately up to \$4.0 million (before costs) by way of:

- 1 a two-tranche placement (**Placement**) to sophisticated and institutional investors to raise \$2,000,000 (\$400,000 in tranche 1 and \$1,600,000 in tranche 2) through the issue of 666,666,666 Shares (133,333,333 Shares in tranche 1 and 533,333,333 Shares in tranche 2) at an issue price of \$0.003 per Share; and
- 2 a non-renounceable entitlement offer to raise approximately up to \$2,003,801 (before costs) at an issue price of \$0.003 per Share (the **Entitlement Offer**).

As announced on 17 July 2024, the Placement received strong support with firm commitments of approximately \$2 million. Shareholder approval for the tranche 2 Placement was obtained on 13 September 2024 and the Placement completed on 20 September 2024 raising \$2 million before costs.

Entitlement Offer

Under the Entitlement Offer, Eligible Shareholders are entitled to acquire 1 New Share for every 1.9813 existing fully paid ordinary shares in the Company (**Shares**) held on the record date, being 5:00pm (AWST) on 19 September 2024 (**Record Date**). New Shares issued under the Entitlement Offer will rank equally with existing Shares.

Use of funds

As announced to the ASX on 17 July 2024, the Company intends to apply the proceeds from the Entitlement Offer towards:

- exploration at the Company's Comet Vale gold project in WA;
- exploration at the Vivien gold project in WA;
- tenement and holdings costs at the Labyrinth Gold Project in Quebec, Canada; and
- corporate costs and general working capital.

Actions required to take up your Entitlement

As an Eligible Shareholder, subject to the terms set out in this Offer Booklet, you may choose one of the following options:

- 1 apply for all of your Entitlement under the Entitlement Offer;
- 2 apply for part of your Entitlement; or
- 3 take no action.

For personal use only

Eligible Shareholders will not be entitled to apply for Shortfall Shares in excess of their Entitlement.

The Entitlement Offer closes at **5.00pm (AWST)** on 10 October 2024, unless extended. To participate in the Entitlement Offer, your application for New Shares must be received before this time in accordance with the instructions set out on the accompanying Entitlement and Acceptance Form and in Section 2. Late applications will not be accepted.

Entitlements are non-renounceable and will not be tradeable on ASX or otherwise be transferable. Shareholders who do not take up their Entitlements in full will not receive any value in respect of the Entitlements they do not take up, and their percentage shareholding in the Company will be reduced following the issue of New Shares.

It is important that you carefully read this Offer Booklet and the other publicly available information about the Company on our website (<https://www.labyrinthresources.com/asx-announcements/>) and consider in particular the risk factors set out in Section 3 before making any investment decision. With this Offer Booklet you will also find your Entitlement and Acceptance Form which details your Entitlement and provides instructions on how to participate in the Entitlement Offer.

On behalf of the Directors, I invite you to consider this opportunity and thank you for your continued support.

Yours sincerely

1 Details of the Entitlement Offer

1.1 Overview of the Entitlement Offer

1.1.1 The Company proposes to raise approximately up to \$2,003,801 under the Entitlement Offer through the issue of approximately 667,933,698 New Shares. Under the Entitlement Offer, the Company is offering Eligible Shareholders the opportunity to subscribe for 1 New Share for every 1.9813 existing Shares held at the Record Date, at the Issue Price of \$0.003 per New Share (**Entitlement Offer**).

1.1.2 The Entitlement Offer is not underwritten.

1.1.3 Director participation in the Entitlement Offer is set out in Section 0.

1.1.4 Where fractions arise in the calculation of an Entitlement, they have been rounded up to the next whole number of New Shares.

1.1.5 The Entitlement Offer comprises:

(a) (**Entitlement Offer**) under which Eligible Shareholders are being sent this Offer Booklet, together with a personalised Entitlement and Acceptance Form, and are being invited to take up all or part of their Entitlement; and a

(b) (**Shortfall Facility**) under which New Shares attributable to Entitlements:

(i) not taken up by Eligible Shareholders; and

(ii) that would have been offered to Ineligible Shareholders if they had been entitled to participate in the Entitlement Offer,

will be offered under a Shortfall Facility to Sternship who has the right to subscribe for and/or allocate 100% of the Shortfall Shares, including placing the Shortfall Shares to sophisticated and institutional clients of Sternship.

1.1.6 Eligible Shareholders will not be entitled to apply for Shortfall Shares in excess of their Entitlement. See Section 1.4 for further information in this respect.

1.2 Placement

1.2.1 On 25 July 2024, the Company completed tranche 1 of the Placement with sophisticated and institutional investors to raise \$400,000. The Shares under the tranche 1 Placement were issued on 25 July 2024 at an issue price of \$0.003 per Share under the Company's placement capacity pursuant to Listing Rules 7.1. As the Shares were issued prior to the Record Date for the Entitlement Offer, investors who participated in tranche 1 of the Placement may participate in the Entitlement Offer as an Eligible Shareholder in respect of any Shares issued under the tranche 1 of the Placement and held on the Record Date.

1.2.2 On 13 September 2024, the Company obtained shareholder approval to issue Shares to sophisticated and institutional investors under the tranche 2

Placement to raise approximately \$1,600,000. Shares under the tranche 2 Placement were issued on 20 September 2024, after the Record Date. As the Shares were issued after the Record Date, investors who participated in the tranche 2 Placement may not participate in the Entitlement Offer as an Eligible Shareholder in respect of any Shares issued under the tranche 2 Placement.

1.3 Eligible Shareholders

1.3.1 This Offer Booklet contains an offer of New Shares to Eligible Shareholders. Eligible Shareholders are those holders of Shares who:

- (a) are registered as a holder of Shares on the Record Date;
- (b) have a registered address in Australia and New Zealand;
- (c) are not in the United States and are not acting for the account or benefit of a person in the United States (to the extent such person holds shares in the Company for the account or benefit of such person in the United States); and
- (d) are eligible under all applicable securities laws to receive an offer under the Entitlement Offer without any requirement for a prospectus or offer document to be lodged or registered.

1.3.2 Shareholders that are not Eligible Shareholders are Ineligible Shareholders. The Company has determined that it is unreasonable to extend to Ineligible Shareholders the opportunity to participate in the Entitlement Offer because of the small number of such Shareholders, the number and value of Shares that they hold and the cost of complying with the applicable regulations in jurisdictions outside Australia or New Zealand.

1.3.3 The Entitlements of Eligible Shareholders who also hold performance rights or options will be calculated on the basis of the number of Shares they hold on the Record Date, disregarding any performance rights or options which have not been exercised or converted before that time.

1.4 Shortfall Facility and Shortfall Allocation Policy

1.4.1 Any New Shares available to form part of the Shortfall Facility will be limited to the extent that there are sufficient New Shares from Eligible Shareholders who do not take up their full Entitlements or from New Shares that would have been offered to Ineligible Shareholders if they had been entitled to participate in the Entitlement Offer (**Shortfall Shares**).

1.4.2 Sternship has the right, subject to the Corporations Act and the Listing Rules, to place any Shortfall Shares to any sophisticated or institutional investors (excluding related parties) within 3 months after the close of the Entitlement Offer (and at an issue price of \$0.003).

1.4.3 Eligible Shareholders will not be entitled to apply for Shortfall Shares in excess of their Entitlement.

1.4.4 Sternship will retain complete discretion regarding the allocation of Shortfall Shares. This may include investors that are not current Shareholders.

1.4.5 No Shortfall Shares will be allocated or issued to any person to the extent that to do so would result in (or in the Company's opinion would likely result

in) a breach of the Corporations Act, the ASX Listing Rules or any other relevant legislation or law, including without limitation, a breach of section 606 of the Corporations Act.

1.5 Rights and liabilities attaching to New Shares

- 1.5.1 The New Shares issued under the Entitlement Offer will rank equally with existing Shares.
- 1.5.2 Full details of the rights and liabilities attaching to the New Shares (and the Shares) are set out in the Company's Constitution, a copy of which is available for inspection at the Company's registered office during normal business hours or on request to the Share Registry.

1.6 Effect of the Entitlement Offer on capital structure

1.6.1 Share capital

The proposed capital structure of the Company following the issue of the New Shares in connection with the Entitlement Offer and Placement will be as follows:

Event	Shares

Shares issued to vendors as part consideration for the Distilled Acquisition	1,816,666,667
Shares issued to Sternship in connection with the Distilled Acquisition and the Placement	133,333,333

New Shares to be issued under the Entitlement Offer*	667,933,698
Total Shares on issue on completion of Entitlement Offer and Placement*	4,581,310,733

*These figures assume the full take up of New Shares available under the Entitlement Offer

The final number of New Shares to be issued under the Entitlement Offer is subject to reconciliation.

1.6.2 Other securities

- (a) As at the date of this Offer Booklet, the Company has on issue 126,500,000 options. Of those, 36,500,000 options expire on 7 November 2024 with an exercise price of \$0.045 and 90,000,000 options (issued following the completion of the Distilled Acquisition and therefore, after the Record Date) expire on 20 September 2029 with exercise prices ranging from \$0.00375 to \$0.00840. Optionholders will not be entitled to participate in the Entitlement Offer, unless they are entitled to exercise their options under the terms of their issue and have done so, so that they are registered as holders of Shares prior to the Record Date and participate in the Entitlement Offer as a result of being a holder of Shares registered on the register of the Company at the Record Date.
- (b) Following completion of the Distilled Acquisition, 220,000,000 performance rights were issued to the shareholders of Distilled (**Vendor Performance Rights**) as part consideration in relation to the Distilled Acquisition. A summary of the key terms of the Vendor Performance Rights is included in the Notice of Meeting.
- (c) Following completion of the Distilled Acquisition, 90,000,000 options (**Adviser Options**) were issued to Sternship in connection with the Distilled Acquisition and the Placement. A summary of the key terms of the Adviser Options is included in Schedule 2 to the Notice of Meeting.

1.7 Use of funds

The Company intends to apply the funds raised from the Entitlement Offer and Placement as follows:

Source of Funds	\$	Use of Funds	\$
Tranche 1 of Placement	400,000	Tenement holding costs at the Labyrinth gold project in Quebec, Canada	200,000
Tranche 2 of Placement	1,600,000	Exploration at Labyrinth's Comet Vale gold project in WA	2,000,000
Entitlement Offer*	2,003,801	Exploration at the Vivien gold project in WA	500,000
		Transaction costs, stamp duty, corporate costs and general working capital	1,303,801
Total*	4,003,801	Total	4,003,801

*These figures assume the full take up of New Shares available under the Entitlement Offer

1.8 Directors' Interests

The relevant interest of each of the Directors of the Company as at the date of this Offer Booklet, together with their Entitlement and indicated participation under the Entitlement Offer are set out below:

Name	Existing Shares as at date of the Offer Booklet		Entitlements	Indicated Participation
	By number	By percentage		
Dean Hely	36,250,001 ¹	0.94%	8,201,687	8,201,687
Matt Nixon	10,046,372	0.26%	5,070,597	5,070,597
Simon Lawson	14,900,000 ²	0.39%	3,734,922	3,734,922

¹ This includes 20,000,000 Shares issued after the Record Date pursuant to shareholder approval obtained on 13 September 2024.

² This includes 7,500,000 Shares issued after the Record Date pursuant to shareholder approval obtained on 13 September 2024.

1.9 Potential effect on control of the Company

- 1.9.1 Eligible Shareholders who take up their Entitlements in full will not have their proportionate interests in the Company diluted by the Entitlement Issue.
- 1.9.2 The calculations in this section 1.9 assume that 66,666,667 Shares will be issued to Sand Queen on completion of the Option Deed.
- 1.9.3 As at the date of this Offer Booklet, the following persons are substantial Shareholders (that is, Shareholders holding 5% or more of the Company's voting securities) (**Substantial Shareholders**):

Name	Shares held before Entitlement Offer	%
Elefantino Pty Ltd atf Talula Trust	561,855,670	14.36%
Sam Wilson atf Sam Wilson Trust and Pilbara Conveyor Supplies Pty Ltd	471,913,059	12.06%
Sharlin Nominees Pty Ltd atf Sharlin Investments Trust	468,213,058	11.96%

- 1.9.4 Based on the substantial shareholder notices given to the Company prior to the date of this Offer Booklet, there are no other Shareholders with a

"relevant interest" (as that term is defined in section 608(1) of the Corporations Act) in 5% or more of the Shares.

- 1.9.5 The Company has no major shareholder who, as a result of the Entitlement Offer, will have the ability to control more than 20% of the voting power in the Company.
- 1.9.6 Therefore, the Company does not consider that the issue of New Shares under the Entitlement Offer will have a material impact on control of the Company.
- 1.9.7 The potential effect of the issue of New Shares under the Entitlement Offer on the control of the Company is as follows:
- (a) If all Eligible Shareholders take up their Entitlements in full, then the Entitlement Offer will not have no effect on the control of the Company and all Shareholders will hold the same percentage interest in the Company, subject only to changes resulting from ineligible shareholders being unable to participate in the Offer.
 - (b) If an Eligible Shareholder does not take up their Entitlement in full, then the proportionate interest of that Eligible Shareholder in the Company will be diluted.
 - (c) The proportionate interest of Shareholders with registered addresses outside of Australia or New Zealand will be diluted because such Shareholders are not eligible to participate in the Entitlement Offer.
 - (d) The Company's only Substantial Shareholders (referred to in the table below) acquired their Shares after the Record Date and therefore are not Eligible Shareholders for the purpose of the Entitlement Offer. If all Eligible Shareholders take up their entitlement in full, the voting power of the Substantial Shareholders will decrease as shown below:

Name	Shares held before Entitlement Offer opening date	%	Shares held after the Entitlement Offer closing date	%
Elefantino Pty Ltd aff Talula Trust	561,855,670	14.36%	561,855,670	12.40%
Sam Wilson aff Sam Wilson Trust and Pilbara Conveyor Supplies Pty Ltd	471,913,059	12.06%	471,913,059	10.41%

Sharlin Nominees Pty Ltd atf Sharlin Investments Trust	468,213,058	11.96%	468,213,058	10.33%
--	-------------	--------	-------------	--------

- (e) If there is a shortfall, eligible shareholders who do not subscribe for their full entitlement of Shares under the Entitlement Offer and ineligible shareholders unable to participate in the Entitlement Offer will be diluted relative to those shareholders who subscribe for some or all of their entitlement. Examples are shown in the following table:

Shareholder	Shares held as at Record Date	Approx. % at Record Date ¹	Entitlement	Shareholding if Entitlement Offer not taken up	Approx. % post Entitlement Offer if Entitlement Offer not taken up ²
Shareholder 1	50,000,000	3.778%	25,235,957	50,000,000	1.091%
Shareholder 2	20,000,000	1.511%	10,094,383	20,000,000	0.437%
Shareholder 3	5,000,000	0.378%	2,523,596	5,000,000	0.109%
Shareholder 4	500,000	0.038%	252,360	500,000	0.011%
Shareholder 5	50,000	0.004%	25,236	50,000	0.001%

¹ This calculation is based on an issued share capital of 1,323,377,035 Shares as at the Record Date.

² This calculation assumes that 100% of the Shortfall Shares is placed.

- (f) Given the discounted Issue Price and the relatively small number of Substantial Shareholders, the Company does not expect the Entitlement Offer to have a material effect on the control of the Company.

1.10 Consolidation

1.10.1 On 13 September 2024, Shareholders approved a consolidation of the Company's issued capital, whereby:

- (a) every 10 Shares will be consolidated into 1 Share;
- (b) every 10 options on issue will be consolidated into 1 option; and
- (c) every 10 performance rights on issue will be consolidated into 1 performance right,

(Consolidation).

- 1.10.2 The indicative timetable for the Consolidation was announced on 14 August 2024. Accordingly, the Consolidation is to be effective from 1 November 2024.
- 1.10.3 The conditions for the Consolidation have been met except for the completion of the Comet Vale Option Deed which is expected to occur on or about 26 September 2024.
- 1.10.4 As the Consolidation applies equally to all security holders, it will have no material effect on the percentage shareholding interest of each individual shareholder.

1.11 Withdrawal of Entitlement Offer

The Board reserves the right to withdraw all or part of the Entitlement Offer at any time before the issue of New Shares, in which case the Company will refund Application Money without payment of interest in accordance with the Corporations Act.

1.12 No cooling off rights

Cooling off rights do not apply to a subscription for New Shares under the Entitlement Offer. You cannot withdraw your application or payment once it has been accepted, except as allowed by law.

1.13 No Entitlements trading

Entitlements are non-renounceable and will not be tradeable on ASX or otherwise transferable. Shareholders who do not take up their Entitlement in full will not receive any value in respect of those Entitlements that they do not take up.

1.14 Minimum subscription

There is no minimum subscription for the Entitlement Offer.

1.15 Rounding of Entitlements

Where fractions arise in the calculation of Entitlements, they will be rounded up to the nearest whole number of New Shares.

1.16 Opening and Closing Date for applications

The Entitlement Offer opens for acceptances on 24 September 2024 and all Entitlement and Acceptance Forms and payments of Application Money must be received by no later than 5.00pm (AWST) on 10 October 2024, unless the Closing Date is extended in accordance with the Listing Rules.

1.17 Allotment of New Shares and ASX quotation

- 1.17.1 It is expected that the New Shares will be issued as soon as practicable after the Closing Date and no later than 17 October 2024. However, if the Closing Date is extended, the date for issue will also be extended.
- 1.17.2 No allotment of New Shares will be made until permission is granted for their quotation by ASX.

1.18 Not underwritten

- 1.18.1 The Entitlement Offer is not underwritten. This means that the full amount proposed to be raised by the Company under the Entitlement Offer may not ultimately be raised by the Company.

- 1.18.2 Any new Shares not taken up by Eligible Shareholders by the Closing Date will form part of the Shortfall Facility.

It is your responsibility to ensure that funds submitted through BPAY® are received by 5.00pm (AWST) on the Closing Date. **Late applications and Application Money will not be accepted.**

Excess Application Money that is not sufficient to subscribe for a number of New Shares multiplied by the Issue Price (or is provided in excess of your Entitlement) will be refunded to you except where that amount is less than \$1.00, in which case it will be retained by the Company. The method by which you receive the refund will be at the discretion of the Company. No interest will be paid to Eligible Shareholders on any Application Money received or refunded.

The Company encourages Eligible Shareholders to make payment via BPAY.

3 Risk factors

3.1 Risks

- 3.1.1 An investment in New Shares should be regarded as speculative and involves many risks.
- 3.1.2 There are a number of risks, both specific to the Company and of a general nature which may, either individually or in combination, affect the future operational and financial performance of the Company and the mining industry in which it operates, and the value of the New Shares under the Entitlement Offer.
- 3.1.3 There are numerous risk factors involved with the Company's business. Accordingly, an investment in the Company carries no guarantee with respect to the payment of dividends, return of capital or price at which New Shares will trade.
- 3.1.4 Set out below is a summary of the key risks to be considered. However, these risks below are not exhaustive and do not take into account the individual circumstances of investors. The Company does not give any assurances or guarantees of the future performance or profitability of the Company or the value of the New Shares offered under this Offer Booklet.
- 3.1.5 Every investor should:
 - (a) rely on their own knowledge of the Company;
 - (b) carefully consider the following risk factors, as well as the other information contained in this Offer Booklet;
 - (c) refer to disclosures made by the Company on ASX; and
 - (d) consult their professional advisers before deciding whether to apply for Shares under the Entitlement Offer.

3.2 Key risk factors

- 3.2.1 The key risks include, but are not limited to, the following:
 - (a) Exploration and development risk
The exploration for and development of mineral deposits, involve significant risks which even careful evaluation, experience and

knowledge may not eliminate. While the discovery of minerals may result in substantial rewards, few properties which are explored are ultimately developed into producing mines. Major expenses may be incurred to locate and establish mineral resources and/or reserves, to develop metallurgical processes and to construct or acquire mining and processing facilities at any particular site.

Mineral exploration and development is a speculative and high-risk undertaking that may be impeded by circumstances and factors beyond the control of the Company. Success in this process involves (amongst other things):

- (i) discovery and proving-up, or acquiring, an economically recoverable resource and/or reserve;
- (ii) access to adequate capital throughout the acquisition/discovery and project development phases.
- (iii) securing and maintaining title to mineral exploration projects;
- (iv) obtaining required development consents and approvals necessary for the acquisition, mineral exploration, development and production phases; and
- (v) accessing the necessary experienced operational staff, the applicable financial management and recruiting skilled contractors, consultants and employees.

There can be no assurances that exploration on the Company's projects or any other exploration properties that may be acquired in the future will result in the discovery of an economic mineral resource. Even if an apparently viable mineral resource is identified there is no guarantee that it can be economically exploited.

The future exploration activities of the Company may be affected by a range of factors including geological conditions, limitations on activities due to seasonal weather patterns, unanticipated operational and technical difficulties, industrial and environmental accidents, changing government regulations and many other factors beyond the control of the Company.

(b) Landowners and access risk

Land access is critical for exploration and evaluation to succeed. In all cases the acquisition of prospective tenements/licences is a competitive business, in which proprietary knowledge or information is critical and the ability to negotiate satisfactory commercial arrangements with other parties is often essential.

Access to land for mining and exploration purposes can be affected by land ownership including private (freehold) land, native and local title obligations, treaty settlements, heritage obligations, pastoral lease and regulatory requirements within the jurisdictions where the Company operates.

The Company will be required to negotiate access arrangements and pay compensation to landowners, local authorities, traditional land users and others who may have an interest in the area covered by a mining tenement. The Company's ability to resolve access and compensation issues will have an impact on the future success and financial performance of the Company's operations. If the Company is unable to resolve such compensation claims on economic terms, this could have a material adverse effect on the business, results or operations and financial condition of the Company and any delays or costs in respect of conflicting third-party rights, obtaining necessary consents, or compensation obligations, may adversely impact the Company's ability to carry out exploration or mining activities within the affected areas. Access to land for exploration purposes can be affected by land ownership, nature reserves and national parks, government regulation and environmental restrictions.

Access is critical for exploration and development to succeed and the ability to be able to negotiate satisfactory commercial arrangements with landowners, farmers and occupiers is often essential. Any delays or costs in respect of conflicting third party rights (for example, in relation to the assignment of any access agreements or the relocation of existing infrastructure on any existing miscellaneous licences that overlap with a tenement), obtaining necessary consents, or compensation obligations, may adversely impact the Company's ability to retain the projects and carry out exploration or mining activities within the affected areas.

Rights to mineral tenements/licences carry with them various obligations in regard to minimum expenditure levels and responsibilities in respect of third party interests, the environment and safety. Failure to observe these requirements could prejudice the right to maintain the access rights to a given area.

(c) Native title claims and Aboriginal heritage

Where native title claims exist over the area covered by any tenements in Western Australia, or a subsequent determination of native title over the area occurs, this will not impact the rights or interests of the holder provided any tenement has been or will be validly granted in accordance with the Native Title Act.

If any tenements were not validly granted in compliance with the Native Title Act, this may have an adverse impact on the Company's activities. The Company is not aware of any circumstances to indicate that any of its tenements in Western Australia were not or will not be validly granted in accordance with the Native Title Act.

The grant of any future tenure to the Company over areas that are covered by registered claims or determinations will likely require engagement with the relevant claimants or native title holders (as relevant) in accordance with the Native Title Act. The Directors will

closely monitor the potential effect of native title claims involving any tenements in which the Company has or may have an interest.

There remains a risk that additional Aboriginal sites may exist on the land the subject of a tenement. The existence of such sites may preclude or limit mining activities in certain areas of the Company's tenements.

(d) Results, geological conditions and development

Possible future development of mining operations at the Company's projects is dependent on several factors including, but not limited to, the acquisition and/or delineation of economically recoverable mineralisation, favourable geological conditions, receiving the necessary approvals from all relevant authorities and parties, seasonal weather, unanticipated technical and operational difficulties encountered in extraction and production activities, mechanical failure of operating plant and equipment, shortages or increases in the price of consumables, spare parts and plant and equipment, cost overruns, access to the required level of funding and contracting risk from third parties providing essential services.

If the Company commences production on its projects, its operations may be disrupted by a variety of risks and hazards which are beyond the control of the Company. No assurance can be given that the Company will achieve commercial viability through the development of its projects. The risks associated with the development of a mine will be considered in full should the Company's projects reach that stage and will be managed with ongoing consideration of stakeholder interests.

(e) Operational risk

The Company's operations are primarily focused on the development of high-grade deposits within the gold sector in Western Australia and Quebec. The Company's operations generally involve a high degree of risk and are subject to all the hazards and risks normally encountered in the mining and development of mineral deposits including:

- (i) failure to locate or identify minerals deposits;
- (ii) failure to achieve predicted grades in exploration and mining;
- (iii) operational and technical difficulties encountered in mining;
- (iv) insufficient or unreliable infrastructure, such as power, water and transport;
- (v) difficulties in commissioning and operating plant equipment;
- (vi) mechanical failure or plant breakdown;

(vii) unanticipated metallurgical problems which may affect extraction costs; and

(viii) adverse weather conditions.

In the event that any of these potential risks eventuate, the Company's operational and financial performance may be adversely affected.

(f) Commercial and commodity price risk

The mining industry is competitive and there is no assurance that, even if commercial quantities are discovered, a profitable market will exist for sales of such commodities. There can be no assurance that the quality of the commodity will be such that the Company's projects can be mined at a profit.

(g) Reliance on Key Personnel

The Company is substantially reliant on the expertise and abilities of its key personnel in overseeing the day-to-day operations of its projects. There can be no assurance given that there will be no detrimental impact on the Company if one or more of these employees or contractors cease their relationship with the Company.

(h) Acquisitions

The Company may make acquisitions of, or significant investments in, companies or assets that are complementary to its business. Any such future transactions are accompanied by the risks commonly encountered in making acquisitions of companies or assets, such as integrating cultures and systems of operation, relocation of operations, short term strain on working capital requirements, achieving mineral exploration success and retaining staff.

(i) Safety

Safety is a fundamental risk for any exploration and production company with regard to personal injury, damage to property and equipment and other losses. The occurrence of any of these risks could result in legal proceedings against the Company and substantial losses to the Company due to injury or loss of life, damage or destruction of property, regulatory investigation, and penalties or suspension of operations. Damage occurring to third parties as a result of such risk may give rise to claims against the company.

(j) Environmental risk

The company's activities will be subject to the environmental laws inherent in the mining industry and in Australia and Canada. The Company may be the subject of accidents or unforeseen circumstances that could subject the Company to extensive liability.

In addition, environmental approvals may be required from relevant government or regulatory authorities before activities may be undertaken which are likely to impact the environment. Failure or delay in obtaining such approvals will prevent the Company from undertaking its planned activities.

Further, the Company is unable to predict the impact of additional environmental laws and regulations that may be adopted in the future, including whether any such laws or regulations would materially increase the Company's cost of doing business or affect its operations in any area.

(k) Risk of uninsured losses

The Company's activities are subject to a number of risks and hazards generally, including adverse environmental conditions, industrial accidents, unusual or unexpected geological conditions, ground or slope failures, contamination, changes in the regulatory environment and natural phenomena such as inclement weather conditions. Such occurrences could have a material adverse effect on the Company's business, operating result or financial condition.

Although the Company holds comprehensive property and equipment insurance, as well as business interruption insurance to protect against certain risks in such amounts as it considers reasonable, its insurance may not cover all the potential risks associated with a mining company's operations. If such risks or hazards occur, it could have material adverse effect on the Company's business, financial position, results of operations, cash flows and/or prospects.

3.3 General risks

(a) Additional requirements for capital

The funds raised under the Offer complement the Company's existing cash reserves and available current assets and are considered sufficient to meet the current proposed objectives of the Company. Further funding may be required by the Company in the event future costs exceed the Company's estimates and to effectively support its ongoing operations and implement its strategies.

The Company's ability to effectively implement its business and operations plans in the future, to take advantage of opportunities for future acquisitions or other business opportunities and to meet any unanticipated liabilities or expenses which the Company may incur depend in part on its ability to raise further funds. The Company may seek to raise further funds through equity or debt financing or other means. There can be no assurance that additional finance is available when needed or, if available, the terms of the financing may not be favourable to the Company and might involve substantial dilution to Shareholders.

Any inability to obtain sufficient funding for the Company's activities and future projects may result in the delay or cancellation of certain activities or projects, which would likely adversely affect the potential growth of the Company.

Loan agreements and other financing arrangements such as debt facilities, convertible note issues and finance leases (and any related guarantee and security) that may be entered into by the Company may contain covenants, undertakings and other provisions, which if breached, may entitle lenders to accelerate repayment of loans and there is no assurance that the Company would be able to repay such loans in the event of an acceleration.

(b) Unforeseen expenditure risk

Expenditure may need to be incurred that has not been taken into account in the Company's budgeting. Although the Company is not aware of any such additional expenditure requirements, if such expenditure is subsequently incurred, this may adversely affect the Company's financial performance.

(c) Litigation risk

The Company may in the ordinary course of business become involved in litigation and disputes. Any such litigation or disputes could involve significant economic costs and damage to relationships with stakeholders. Such outcomes may have an adverse impact on the Company's business, reputation and financial performance.

(d) Equity market conditions

Listed securities can experience extreme price and volume fluctuations that are often unrelated to operating performance. The market price of Shares may fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general and commodities in particular.

General factors that may affect the market price of Shares include economic conditions in both Australia and internationally, investor sentiment, local and international share market conditions, changes in interest rates and the rate of inflation, variations in commodity prices, changes to government regulation, policy or legislation, taxation changes and changes in exchange rates.

(e) Regulatory risk and change in government policy and legislation

The Company's operations require government approvals. There is a risk that onerous conditions may be attached to the approvals or that the grant of the approvals may be delayed or not granted. The Company is subject to extensive laws and regulations relevant to its activities. Compliance with environmental regulations, rehabilitation, closure and other matters may potentially involve significant costs and or liabilities.

The activities of the Company are subject to various federal, state and local laws of Australia and Canada relating to prospecting, development, production, taxes, occupational health and safety and other matters. Any material adverse changes in relevant government policies or applicable laws may affect the viability of the Company.

3.4 Speculative investment

- 3.4.1 The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. Additional risks that the Company is unaware of or that it currently considers to be immaterial may also potentially have a material adverse impact on the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the Shares offered under this Offer Booklet. Therefore, the New Shares to be issued pursuant to this Offer Booklet carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those Shares.
- 3.4.2 Before applying for New Shares, any prospective investor should be satisfied that they have a sufficient understanding of the risks involved in making an investment in the Company and should consider whether the Shares are a suitable investment, having regard to their own investment objectives, financial circumstances and taxation position. If you do not understand any part of this Offer Booklet or are in any doubt as to whether to invest in the New Shares, it is recommended that you seek professional guidance from your stockbroker, solicitor, accountant, tax adviser or other independent and qualified professional adviser before deciding whether to invest.

4 Important information for Shareholders

4.1 Rights issue pursuant to section 708AA of the Corporations Act

- 4.1.1 This Offer Booklet has been prepared in accordance with section 708AA of the Corporations Act and applicable ASIC Corporations (Non-Traditional Rights Issue) Instrument 2016/84 (**ASIC Instrument 2016/84**). In general terms, section 708AA permits certain companies to undertake rights issues without being required to use or provide to shareholders a prospectus or other disclosure document. Accordingly, this Offer Booklet is not a prospectus, disclosure document or other offering document under the Corporations Act (or any other Australian or foreign law) and has not been (and will not be) lodged with ASIC.
- 4.1.2 The level of disclosure in this Offer Booklet is significantly less than the level of disclosure required in, and what you would expect in, a prospectus. Eligible Shareholders should rely on their own knowledge of the Company, refer to disclosures made by the Company to ASX and consult their professional advisers before deciding to accept the Offer.
- 4.1.3 This Offer Booklet is not investment advice and does not take into account your investment objectives, financial situation, tax position and particular needs. Before deciding whether to apply for New Shares, you should consider whether they are a suitable investment for you in light of your

personal circumstances (including financial and taxation issues) and seek professional guidance before deciding whether to invest.

- 4.1.4 The Company is a 'disclosing entity' under the Corporations Act for the purpose of section 111AC of the Corporations Act and as such it is subject to regular reporting and disclosure obligations under section 674 of the Corporations Act and the Listing Rules, including the preparation of annual reports and half-yearly reports.
- 4.1.5 The Company is required to notify the ASX of information about specific events and matters as they arise for the purposes of the ASX making that information available to the stock markets conducted by the ASX. In particular, the Company has an obligation under the Listing Rules (subject to certain exceptions) to notify the ASX immediately of any information which it is or becomes aware which a reasonable person would expect to have a material effect on the price value of its Shares. That information is available to the public from the ASX.
- 4.1.6 For the Company to rely on the disclosure exemption in section 708AA of the Corporations Act, the Company is required to lodge a "cleansing notice" under section 708AA (2)(f) of the Corporations Act. That notice is required to:
- (a) set out any information that has been excluded from a continuous disclosure notice in accordance with the Listing rules and that investors and their professional advisor would reasonably require, and would reasonably expect to find in a disclosure document, for the purpose of making an informed assessment of:
 - (i) the assets and liabilities, financial position and performance, profits and losses and prospects of the Company; or
 - (ii) the rights and liabilities attaching to the New Shares; and
 - (b) state the potential effect of the issue of the New Shares on the control of the Company and the consequences of that effect.
- 4.1.7 The Company lodged the requisite cleansing notice in respect of the Entitlement Issue with ASX on 17 July 2024.

4.2 Rights issue exception not available

- 4.2.1 No nominee has been appointed for Ineligible Shareholders under section 615 of the Corporations Act and, as such, Eligible Shareholders will not be able to rely on the exception for rights issues in item 10 of section 611 of the Corporations Act. Accordingly, when an Eligible Shareholder applies for some or all of their Entitlement, they must have regard to section 606 of the Corporations Act. Eligible Shareholders who may be at risk of exceeding the 20% voting power threshold in section 606 as a result of acceptance of their Entitlement should seek professional advice before completing and returning (or being deemed to have completed and returned) the Entitlement and Acceptance Form.

4.3 Shareholders outside Australia

4.3.1 General restrictions

- (a) This Offer Booklet and accompanying Entitlement and Acceptance Form do not constitute an offer of New Shares in any jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer. In particular, this Offer Booklet may not be distributed to any person, and the New Shares may not be offered or sold, in any country outside Australia except to the extent permitted below.
- (b) The distribution of this Offer Booklet in jurisdictions outside Australia and New Zealand may be restricted by law and therefore persons who come into possession of this document outside Australia and New Zealand should seek advice on and observe any such restrictions. A failure to comply with these restrictions may constitute a violation of applicable securities laws.
- (c) It is the responsibility of any applicant to ensure compliance with any laws of the country relevant to their application. Return of a duly completed Entitlement and Acceptance Form and/or payment of Application Money will be taken by the Company to constitute a representation that there has been no breach of such laws and that the applicant is physically present in Australia or New Zealand.

4.3.2 New Zealand

- (a) The New Shares are not being offered to the public within New Zealand other than to existing shareholders of the Company with registered addresses in New Zealand to whom the offer of these securities is being made in reliance on the Financial Markets Conduct (Incidental Offers) Exemption Notice 2016.
- (b) This document has not been registered, filed with or approved by any New Zealand regulatory authority under the Financial Markets Conduct Act 2013. This document is not a product disclosure statement under New Zealand law and is not required to, and may not, contain all the information that a product disclosure statement under New Zealand law is required to contain.

4.4 Ineligible Shareholders

- 4.4.1 In determining eligibility, in accordance with ASX Listing Rule 7.7.1(a) and section 9A(3) of the Corporations Act, the Company has decided that it is unreasonable to make an offer under the Entitlement Offer to any Shareholder with a registered address outside Australia or New Zealand as at the Record Date (**Ineligible Foreign Shareholder**) having regard to:
- (a) the number of Shareholders with addresses in such other countries as a proportion of the total Shareholders in the Company;
 - (b) the number and value of the Shares those Shareholders would be offered under the Entitlement Offer; and

- (c) the costs to the Company of complying with applicable laws and regulatory requirements in those other countries.

4.4.2 Accordingly, the Entitlement Offer is not being extended to Ineligible Foreign Shareholders. Any entitlements to New Shares will lapse and the relevant Shares will form part of the shortfall under the Entitlement Offer.

4.4.3 To the extent that there are any Ineligible Shareholders registered at the Record Date, the Company will send details of the Offer to each Ineligible Shareholder and advise each Ineligible Shareholder that they will not be offered New Shares under the Entitlement Offer. Where this Offer Booklet has been dispatched to Ineligible Shareholders, it is provided for information purposes only.

4.5 Notice to nominees and custodians

The Company is not required to determine whether or not any registered holder is acting as a nominee or the identity or residence of any beneficial owners of securities. Where any nominee or custodian is acting on behalf a foreign person, that holder, in dealing with its beneficiary, will need to assess whether indirect participation by the beneficiary in the Entitlement Offer is compatible with applicable foreign laws. Any person in the United States with a holding through a nominee may not participate in the Entitlement Offer. Nominees and custodians may not distribute any part of this Offer Booklet in the United States or in any other country outside of Australia or New Zealand.

4.6 Taxation consequences

The taxation consequences of any investment in New Shares will depend upon your particular circumstances. Potential investors must make their own enquiries concerning the taxation consequences of an investment in the Company. Applicants should consult their tax adviser for advice applicable to their individual needs and circumstances.

4.7 Privacy

4.7.1 If you complete an Entitlement and Acceptance Form and apply for New Shares, you will be providing personal information to the Company, its agents, contractors and third-party service providers. The Company, its agents, contractors and third-party service providers will collect, hold and use that information to assess your acceptance, carry out administration of your shareholding, service your needs as a Shareholder and facilitate corporate communications.

4.7.2 The information may also be used from time to time and disclosed to persons inspecting the register, bidders for your securities in the context of takeovers, regulatory bodies, including the Australian Taxation Office, print service providers, mail houses and the Share Registry.

4.7.3 Failure to provide the required personal information may mean that your acceptance is not able to be processed efficiently, if at all.

4.7.4 You may request access to your personal information held by (or on behalf of) the Company and by the Share Registry. You can request access to, or the updating of, your personal information by telephoning or writing to the

Company or the Share Registry using the details shown in the Corporate Directory.

- 4.7.5 The collection, maintenance and disclosure of certain personal information is governed by legislation including the *Privacy Act 1988* (Cth) and the Corporations Act.

4.8 Future performance and forward-looking statements

- 4.8.1 This document contains certain forward-looking statements with respect to the financial condition, results of operations, projects and business of the Company. These forward-looking statements involve known and unknown risks, uncertainties and other factors which are subject to change without notice. The Company gives no assurance that the anticipated results, performance or achievements expressed or implied in those forward-looking statements will be achieved.
- 4.8.2 Forward looking statements are provided as a general guide only and there can be no assurance that actual outcomes will not differ materially from these statements. Except as required by law, and only to the extent so required, no person warrants or guarantees the future performance of the Company or any return on any investment made pursuant to this Entitlement Offer.

4.9 Past performance

Past Share price performance provides no guarantee or guidance as to future Share price performance. Past performance information given in this Offer Booklet is provided for illustrative purposes only and should not be relied upon as (and is not) an indication of future performance. The historical information in this Offer Booklet is or is based upon information that has been released to the market. For further information, please see past announcements released to the ASX.

4.10 Risks

- 4.10.1 Please consult with your accountant or other independent professional adviser if you have any queries or are uncertain about any aspect of the Entitlement Offer.
- 4.10.2 Section 3 details important factors and risks that could affect the financial and operating performance of the Company. You should consider these risk factors carefully in light of your personal circumstances, as well as any financial or taxation consequences, before making an investment decision in connection with the Entitlement Offer.

4.11 Disclaimer of representations

- 4.11.1 No person is authorised to give any information or make any representation in connection with the Entitlement Offer, which is not contained in this Offer Booklet. Any information or representation not contained in this Offer Booklet may not be relied on as having been authorised by the Company in connection with the Entitlement Offer. Except as required by law, and only to the extent so required:
