Q1 FY25 Secured Hire Contracts

Acrow is also pleased to report secured hire contract wins for Q1 FY25 of \$24.8m, up 51% on the previous corresponding period, and a record quarter for the Company. This follows on from the strong June 2024 finish, in which Acrow recorded its single biggest month of wins, totalling \$12.3m. As the leading forward looking indicator for future performance, these results point to a very strong medium term outlook for the business.

Commenting on the announcement, CEO, Steven Boland said: "We are excited about the expanded Westpac facility. We have been very clear on our strategy to grow our Industrial Access business nationally, both organically and via targeted acquisitions. This new debt structure strengthens our balance sheet and provides cashflow flexibility, enabling the Company to aggressively pursue non-dilutionary, small to medium sized accretive acquisitions that meet our stringent acquisition metrics and fit within our general acquisition growth strategy.

Furthermore, I am extremely pleased with the performance of our sales and engineering teams in converting opportunities from our extensive sales pipeline into secured hire contracts. Our conversion rate has never been stronger. I am also particularly delighted with the success in both our Jumpform and Screens businesses, that are helping to create the foundations for a very strong second half of FY25."

This release was approved by the Acrow Board of Directors.
