

Kal East – First Gold Doré from Myhree

Black Cat Syndicate Limited (“**Black Cat**” or “**the Company**”) is pleased to provide an update to 30 September 2024 on the turn-key funding, development and processing package at the Myhree/Boundary open pits, part of the 100% owned Kal East Gold Project (“**Kal East**”).

HIGHLIGHTS (all amount in A\$ unless otherwise stated)

- Myhree was discovered by Black Cat post-listing in 2018. Pre-strip and Ore production commenced on 26 July 2024. The first gold doré from Myhree ore has been poured ahead of schedule.
- Open pit mining is progressing safely and ahead of schedule. Results to 30 September 2024, include:
 - Myhree Ore has been mined to 20m below surface (375mRL) with waste removal now being prioritised to achieve a common RL. The 200t excavator is on site and is prioritising bulk waste movement to further expedite the schedule.
 - Still no requirement for drill and blast, with significant cost savings.
 - Grade reconciliation to the block model is as expected at this stage of the pit with ~78kt of Ore mined to 30 September 2024 with three Ore parcels constructed ahead of plan, including:
 - MYSP001 (13,790t¹ @ 1.18g/t Au for 523oz): 100% hauled to and being processed at Paddington, 50% prepayment received in respect of first gold doré production.
 - MYSP002 (27,387t² @ 1.96g/t Au for 1,726oz): >50% hauled to Paddington.
 - MYSP003 (37,251t³): grade determination assays pending.
- Following recovery of start-up costs, the first \$30M of cashflow will be received by Black Cat. Thereafter, Black Cat and MMS will share profits.

For personal use only

Figure 1: MMS employees Nathan Ramm (left) and Chris Kerr (right) holding doré containing some gold from Myhree Ore parcel MYSP001 intermingled with Paddington’s own doré

Black Cat’s Managing Director, Gareth Solly, said: “Excellent progress is being made on all fronts as we continue the pre-strip and the gold production build. The first Ore parcel has been hauled and processed at Paddington resulting in first doré from Myhree. Myhree was discovered by Black Cat just after our listing in 2018 and to see first doré is a significant milestone for the Company. As we transition to a production organization, results for Myhree/Boundary will be shown monthly during 2024 and thereafter quarterly.”

Kal East Gold Project – First Gold Doré from Myhree

Site Activity:

Myhree produced ~78kt of Ore for the quarter with grade reconciliation to the block model as expected at this stage of the pit. Ore mining and a 24-hour free-dig operation is underway at Myhree/Boundary with ~78kt of Ore mined between 26 July and 30 September 2024.

PLANNED ACTIVITIES

Planned activities and announcements include:

Early Oct 2024:	US\$20.5M secured debt facility completion
Oct - Dec 2024:	Monthly progress reports on Myhree/Boundary open pits and Paulsens high-grade gold strategy and processing facility refurbishment
Oct 2024:	Quarterly Report
27 Nov 2024:	Annual General Meeting
Dec 2024:	Paulsens commissioning on low-grade stockpile and ROM pad mineralised material followed by high-grade stockpile

Kal East Gold Project – First Gold Doré from Myhree

ABOUT BLACK CAT SYNDICATE (ASX: BC8)

Assuming the completion of the secured debt, Black Cat is fully funded and the key pillars are in place for Black Cat to become a multi operation gold producer at its three 100% owned operations. The three operations are:

Paulsens Gold Operation: Paulsens is located 180km west of Paraburdoo in WA. Paulsens consists of an underground mine, 450ktpa processing facility, 128 person camp, numerous potential open pits and other related infrastructure. The operation has commenced the mill refurbishment stage, with a plan to be in production by the end of 2024. Paulsens has a Resource of 4.3Mt @ 4.0g/t Au for 548koz and significant exploration and growth potential.

Coyote Gold Operation: Coyote is located in Northern Australia, ~20km on the WA side of the WA/NT border, on the Tanami Highway. There is a well-maintained airstrip on site that is widely used by government and private enterprises. Coyote consists of an open pit and an underground mine, 300ktpa processing facility, +180 person camp and other related infrastructure. The operation is currently on care and maintenance and has a Resource of 3.7Mt @ 5.5g/t Au for 645koz with numerous high-grade targets in the surrounding area.

Kal East Gold Project: comprises ~650km² of highly prospective ground to the east of the world class mining centre of Kalgoorlie, WA. Kal East contains a Resource of 18.8Mt @ 2.1g/t Au for 1,294koz, including a preliminary JORC 2012 Reserve of 3.7Mt @ 2.0 g/t Au for 243koz. A turn-key funding, development & processing arrangement to mine and mill the Myhree and Boundary open pit deposits is underway¹. Separately and in the future, Black Cat plans to construct a central processing facility near the Majestic deposit, ~50km east of Kalgoorlie. The 800ktpa processing facility will be a traditional carbon-in-leach gold processing facility which is ideally suited to Black Cat's Resources as well as to third party free milling ores located around Kalgoorlie.

Coyote Gold Operation

- Landholding ~1,030sqkm
- Gold Resources: 3.7Mt @ 5.5g/t for 645koz
- Mill: 300ktpa - only mill in Western Tanami region (expandable); operational +180 person camp
- Historical Production: >35kozpa (211koz @ 4.9 g/t)
- C&M, multiple open pits & underground potential

Paulsens Gold Operation

- Landholding ~1,580sqkm
- Gold Resources: 4.3Mt @ 4.0g/t for 548koz
- Critical/Base Metals: 14kt Sb, 19kt Pb, 1.6kt Cu, 1.5Moz Ag
- Mill: 450ktpa - regionally strategic location; +128 person camp
- Historical Production: ~75kozpa (1,003koz @ 6.9 g/t mined)
- Mill refurbishment, multiple open pits & underground potential

Kal East Gold Project

- Landholding ~650sqkm
- Gold Resources: 18.8Mt @ 2.1g/t for 1,294koz
- Proposed Mill: ~800ktpa - designed, permitted, components acquired; spare 700ktpa mill to expand to 1.5Mtpa
- Historical Production: ~600koz
- Pre-development, open pit & underground potential
- Turn-key Funding, Development & Processing arrangement signed with mining at Myhree and Boundary to commence June/July 2024

Strategic Landholding
~3,260 km²

Notes on Resources:

- The preceding statements of Mineral Resources conforms to the 'Australasian Code for Reporting of Exploration Results Mineral Resources and Ore Reserves (JORC Code) 2012 Edition'.
- All tonnages reported are dry metric tonnes.
- Data is rounded to thousands of tonnes and thousands of ounces gold. Discrepancies in totals may occur due to rounding.
- Resources have been reported as both open pit and underground with varying cut-offs based off several factors discussed in the corresponding Table 1 which can be found with the original ASX announcements for each Resource.
- Resources are reported inclusive of any Reserves.
- Paulsens Inferred Resource includes Mt Clement Eastern Zone Au of 7koz @ 0.3g/t Au accounting for lower grades reported.

The announcements containing the Table 1 Checklists of Assessment and Reporting Criteria relating for the 2012 JORC compliant Resources are:
