Overseas shareholders

The Offers do not, and is not intended to, constitute an offer in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus.

It is not practicable for the Company to comply with the securities laws of overseas jurisdictions having regard to the number of overseas Shareholders, the number and value of Shares these Shareholders would be offered and the cost of complying with regulatory requirements in each relevant jurisdiction. Accordingly, the Offers are not being extended and Securities will not be issued to Shareholders with a registered address which is outside Australia or New Zealand.

For further information on overseas Shareholders please refer to Section 2.9.

Continuous disclosure obligations

Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Securities.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

Having taken such precautions and having made such enquires as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the three months before the issue of this Prospectus which required the Company to notify ASX of information about specified events or

Financial forecasts

The Directors have considered the matters set out in ASIC Regulatory Guide 170 and believe that they do not have a reasonable basis to forecast future earnings on the basis that the operations of the Company are inherently uncertain. Accordingly, any forecast or projection information would contain such a broad range of potential outcomes and possibilities that it is not possible to prepare a reliable best estimate forecast or projection.

Clearing House Electronic Sub-Register System (CHES) and Issuer Sponsorship

The Company will apply to participate in CHES, for those investors who have, or wish to have, a sponsoring stockbroker. Investors who do not wish to participate through CHES will be issuer sponsored by the Company.

Electronic sub-registers mean that the Company will not be issuing certificates to investors. Instead, investors will be provided with statements (similar to a bank account statement) that set out the number of Securities issued to them under this Prospectus. The notice will also advise holders of their Holder Identification Number or Security Holder Reference Number and explain, for future reference, the sale and purchase procedures under CHES and issuer sponsorship.

Electronic sub-registers also mean ownership of securities can be transferred without having to rely upon paper documentation. Further monthly statements will be provided to holders if there have been any changes in their security holding in the Company during the preceding month.

1.6 Details of Substantial Holders

Based on publicly available information and the Company's records as at the date of this Prospectus, those persons which (together with their associates) have a relevant interest in 5% or more of the Shares on issue are set out below:

Shareholder	Shares	%
Brayter Limited	46,631,507	13.11

Brayter Limited has committed to subscribe for 23,097,568 Shares and 23,097,568 Attaching Options for approximately \$923,903 under Tranche 2 of the Placement and has indicated that it will not participate in the Entitlement Offer. On this basis and in the event all Entitlements are accepted, Brayter Limited will hold 69,729,075 Shares representing a 10.23% relevant interest in all issued Shares (assuming no other Shares are issued) following the issue on completion of the Offers.

1.7 Underwriting and Joint Lead Mangers

The Entitlement Offer is partially underwritten by GBA Capital Pty Ltd (**GBA Capital** or **Underwriter**).

GBA Capital and Ord Minnett Limited (together, **Joint Lead Managers**) have been appointed as joint lead managers for the Capital Raising pursuant to a lead manager mandate (**JLM Engagement Letter**). As part of the JLM Engagement Letter, the Company has agreed to issue the Joint Lead Managers up to 73,320,068 New Options in consideration for the underwriting and acting as joint lead managers of the Capital Raising.

Refer to Section 6.3.1 for details regarding the key terms of the Underwriting Agreement and Section 6.3.2 for details regarding the key terms of the JLM Engagement Letter.

The Underwriter has entered into sub-underwriting agreements in respect of the Entitlement Offer with various sub-underwriters, to take up Shortfall Securities. The allocation of Shortfall Securities not taken up by the sub-underwriting will be determined by the Underwriter in agreement with the Company. For further information regarding the application and allocation of Shortfall Securities please refer to Section 2.6.5.

1.8 Effect on Control

The Underwriter (including its related entities) has a relevant interest in 1,807,500 Shares, representing approximately 0.4% of issued Shares as at the date of this Prospectus. It is not a related party of the Company for the purposes of the Corporations Act. The issue of Shares under this Prospectus to the Underwriter may increase its interest in the Company and dilute the Shareholding of other Shareholders to the extent they elect not to participate in the Entitlement Offer or are ineligible to participate in the Entitlement Offer.

In accordance with the terms of the Underwriting Agreement, the Underwriter will allocate the Shortfall to its sub-underwriters and/or clients and people who have otherwise agreed to assist with the completion of the Entitlement Offer such that neither the Underwriter, the sub-underwriters nor any of the Underwriter's clients, individually, will have a voting power in the Company in excess of 19.99% after the issue of the Shortfall.

The Company, in consultation with the Underwriter, will ensure that the Entitlement Offer (including the equitable dispersion of any Shortfall Securities) complies with the provisions of Chapter 6 of the Corporations Act and is otherwise consistent with the policy guidelines contained in ASIC Regulatory Guide 6 and Takeovers Panel Guidance Note 17.

1.9 Potential dilution on non-participating Shareholders

In addition to potential control impacts set out in Section 1.8, Shareholders should note that if they do not participate in the Entitlement Offer, their holdings are likely to be diluted by approximately 34% (as compared to their holdings and number of Shares on issue as at the date of this Prospectus).

No immediate dilution will occur as a result of the issue of the New Options under this Prospectus. However subsequent exercise of any or all of the New Options will result in dilution. Based on Full Subscription and assuming all New Options offered pursuant to this Prospectus are issued and exercised into Shares, Shareholders who do not participate in the Entitlement Offer, are likely to be diluted by an aggregate of approximately 47% (as compared to their holdings and number of Shares on issue as at the date of the Prospectus).

For illustrative purposes, the table below shows how the dilution may impact the holdings of Shareholders:

Holder	Holding as at Record date	% at Record Date	Entitlement Shares under the Entitlement Offer	Holdings if Entitlement Offer not taken Up	% post Entitlement Offer
Shareholder 1	10,000,000	2.46	3,333,334	10,000,000	1.69
Shareholder 2	5,000,000	1.23	1,666,667	5,000,000	0.84
Shareholder 3	2,500,000	0.62	833,334	2,500,000	0.42
Shareholder 4	1,250,000	0.31	416,667	1,250,000	0.21
Shareholder 5	625,000	0.15	208,334	625,000	0.11

Notes:

1. This is based on a share capital of 406,363,011 Shares as at the date of the Prospectus. Based on Full Subscription of the Entitlement Offer and does not account for New Options to be issued under this Prospectus.
2. Based on full subscription under the Entitlement Offer and assuming no Options are exercised. The dilutionary effect shown in the table is the maximum percentage on the assumption that those Entitlements not accepted by Eligible Shareholders are placed under the Underwriting and Shortfall Offer. In the event all Entitlements are not accepted and some or all of the resulting Shortfall was not subsequently placed, the dilution effect for each Shareholder not accepting their Entitlement would be a lesser percentage.

2. DETAILS OF THE OFFERS

2.1 The Placement

The Company received firm commitments from existing and new professional and sophisticated investors (**Placement Participants**) to raise a total of \$4,024,502 (before costs) through the issue of a total of 100,612,567 Shares at an issue price of \$0.04 per Share (**Placement Shares**) over two tranches. The first tranche (**Tranche 1**) of Shares under the Placement comprising 50,612,567 Shares (**Tranche 1 Shares**) were issued on 23 October 2024 utilising the Company's existing placement capacity under ASX Listing Rule 7.1 and the second tranche (**Tranche 2**) of Shares under the Placement comprises an aggregate 50,000,000 Shares (**Tranche 2 Shares**), subject to Shareholder approval to be sought at the Company's 2024 Annual General Meeting scheduled for late November 2024.

As the Tranche 1 Shares have been issued before the Record Date for the Entitlement Offer, the recipients of Tranche 1 Shares are eligible to participate in the Entitlement Offer in relation to the Tranche 1 Shares.

2.2 The Entitlement Offer

The Entitlement Offer is being made as a pro-rata non-renounceable entitlement issue of one (1) Share for every three (3) Shares held by Eligible Shareholders registered at the Record Date at an issue price of \$0.04 per Share together with one (1) free attaching Option exercisable at \$0.064 and expiring on 31 December 2027 (**Attaching Options**) for every one (1) Share subscribed for and issued. Fractional entitlements will be rounded up to the nearest whole number.

Based on the capital structure of the Company as at the date of this Prospectus, (and assuming no additional Shares are issued prior to the Record Date) up to approximately 135,454,337 Shares and 135,454,337 Attaching Options may be issued under the Entitlement Offer to raise up to \$5,418,173 (before costs). No funds will be raised from the issue of the Attaching Options.

2.6.2 Payment options

(a) By BPAY®

For payment by BPAY®, please follow the instructions on the Entitlement and Acceptance Form found online at <https://investor.automic.com.au>. You can only make a payment via BPAY® if you are the holder of an account with an Australian financial institution that supports BPAY® transactions. Please note that should you choose to pay by BPAY®:

- (i) you do not need to submit the Entitlement and Acceptance Form but are taken to have made the declarations on that Entitlement and Acceptance Form;
- (ii) if you do not pay for your Entitlement in full, you are deemed to have taken up your Entitlement in respect of such whole number of Shares which is covered in full by your Application monies; and
- (iii) if you pay more than is required to subscribe for your Entitlement, you will be taken to have applied for Shortfall Securities (if any) under the Shortfall Offer, to the extent of the excess.

You should be aware that your own financial institution may implement earlier cut-off times with regard to electronic payment, and you should therefore take this into consideration when making payment. **It is your responsibility to ensure that funds submitted through BPAY® are received by 5:00pm (AEDT) on the Closing Date. The Company shall not be responsible for any delay in the receipt of the BPAY® payment.**

Guidance where you have more than one CRN (Shareholding of Shares)

If you have more than one shareholding of Shares and consequently receive more than one Entitlement and Acceptance Form, when taking up your Entitlement in respect of one of those Shareholdings only use the CRN specific to that Shareholding as set out in the applicable Entitlement and Acceptance Form. **Do not use the same CRN for more than one of your Shareholdings.** This can result in your Application monies being applied to your Entitlement in respect of only one of your Shareholdings (with the result that any Application in respect of your remaining Shareholdings will not be valid).

(b) By Electronic Funds Transfer

For payment by Electronic Funds Transfer (EFT), please follow the instructions on the Entitlement and Acceptance Form found online at <https://investor.automic.com.au>. You can only make a payment via EFT if you are the holder of an account that supports EFT transactions to an Australian bank account. Please note that should you choose to pay by EFT:

- (i) you do not need to submit the Entitlement and Acceptance Form but are taken to have made the declarations on that Entitlement and Acceptance Form;

- (ii) if you do not pay for your Entitlement in full, you are deemed to have taken up your Entitlement in respect of such whole number of Shares which is covered in full by your Application monies; and
- (iii) if you pay more than is required to subscribe for your Entitlement, you will be taken to have applied for Shortfall Securities (if any) under the Shortfall Offer, to the extent of the excess.

You should be aware that your own financial institution may implement earlier cut-off times with regard to electronic payment, and you should therefore take this into consideration when making payment. **It is your responsibility to ensure that funds submitted through EFT are received by 5:00pm (AEDT) on the Closing Date. The Company shall not be responsible for any delay in the receipt of the EFT payment.**

Guidance where you have more than one unique reference number (Shareholding of Shares)

If you have more than one shareholding of Shares and consequently receive more than one Entitlement and Acceptance Form, when taking up your Entitlement in respect of one of those Shareholdings only use the unique reference number specific to that Shareholding as set out in the applicable Entitlement and Acceptance Form. **Do not use the same unique reference number for more than one of your Shareholdings.** This can result in your Application monies being applied to your Entitlement in respect of only one of your Shareholdings (with the result that any Application in respect of your remaining Shareholdings will not be valid).

(c) **Other forms of payment not accepted**

Payment by cheque, money order or cash will not be accepted.

2.6.3 Implications of an acceptance

Payment of any Application monies by BPAY® or EFT in accordance with the instructions on your personalised Entitlement and Acceptance Form, will be taken to constitute a representation by you that:

- (a) you have received a copy of this Prospectus and the accompanying Entitlement and Acceptance Form, and read them both in their entirety;
- (b) you acknowledge that once the BPAY® or EFT payment instruction is given in relation to any Application monies, the application may not be varied or withdrawn except as required by law.

2.6.4 Minimum subscription

The minimum subscription in respect of the Entitlement Offer is \$3,007,500, being the partially underwritten amount of the Entitlement Offer.

No Securities will be issued until the minimum subscription has been received. If the minimum subscription is not achieved within 4 months after the date of issue of this Prospectus, the Company will either repay the Application monies to the Applicants or issue a supplementary prospectus or replacement prospectus and allow Applicants one month to withdraw their Application and be repaid their Application monies.

2.6.5 Shortfall Offer

Any Entitlement not taken up pursuant to the Entitlement Offer will form the Shortfall Offer (**Shortfall Securities**). The Shortfall Offer is a separate offer made pursuant to this Prospectus and will remain open for up to three months following the Closing Date. The issue price for each Share to be issued under the Shortfall Offer shall be \$0.04 being the price at which Shares have been offered under the Entitlement Offer (**Shortfall Share**). The Shortfall Offer will also include the issue of one (1) Attaching Option for every one (1) Shortfall Share issued and subscribed for, on the same terms as the Entitlement Offer.

If you do not wish to take up any part of your Entitlement you are not required to take any action. That part of your Entitlement not taken up will form part of the Shortfall Offer and potentially be allocated to other Eligible Shareholders or other third parties as part of the Shortfall Offer. The Shortfall Offer will only be available where there is a Shortfall between applications received from Eligible Shareholders and the number of Shares proposed to be issued under the Entitlement Offer.

Eligible Shareholders who wish to subscribe for Securities above their Entitlement are invited to apply for Shortfall Securities under the Shortfall Offer by completing the appropriate section on their Entitlement and Acceptance Form or by making payment for such Shortfall Securities in accordance with Section 2.6.2.

Allocation of the Shortfall Securities will be at the discretion of the Board in conjunction with the Underwriter and will otherwise be subject to the terms of the Underwriting Agreement, details of which are set out in Section 6.3.1, and any agreements with Sub-Underwriters. If the Entitlement Offer is oversubscribed (by take up of Entitlements and applications for Shortfall Securities by Eligible Shareholders), scale back will be applied to applications under the Shortfall Offer. The Company may in its absolute discretion determine to apply the scale back to the extent and in the manner it sees fit, which may include taking into account a number of factors including, but not limited to:

- (a) the size of your shareholding at the Record Date;
- (b) the extent to which you have sold or purchased Shares since the Record Date;
- (c) whether you have multiple registered holdings;
- (d) the date on which your application was made; and
- (e) the total number of applications and Shares subscribed for by Eligible Shareholders.

The Underwriter notes that no Securities will be issued to an applicant under this Prospectus or via the Shortfall Offer if the issue of Securities would contravene the takeover prohibition in section 606 of the Corporations Act. Similarly, no Securities will be issued via the Shortfall Offer to any related parties of the Company.

2.7 ASX listing

Application for Official Quotation of the Shares offered pursuant to this Prospectus will be made within 7 days after the date of this Prospectus. If ASX does not grant Official Quotation of the Shares offered pursuant to this Prospectus before the expiration of three months after the date of issue of the Prospectus, (or such period as varied by the ASIC), the Company will not issue any Shares and will repay all Application monies for the Shares within the time prescribed under the Corporations Act, without interest.

Application for official quotation of the New Options offered pursuant to this Prospectus will also be made within 7 days after the date of this Prospectus. If ASX does not grant official quotation of the New Options offered pursuant to this Prospectus before the expiration of three months after the date of issue of the Prospectus, (or such period as varied by the ASIC), the Company will not issue any New Options.

The fact that ASX may grant Official Quotation to the Securities is not to be taken in any way as an indication of the merits of the Company or the Securities now offered for subscription.

2.8 Issue of Securities

Securities issued pursuant to the Entitlement Offer will be issued in accordance with the ASX Listing Rules and timetable set out at Section 1.1.

Securities issued pursuant to the Shortfall Offer will be issued on a progressive basis. Where the number of Securities issued is less than the number applied for, or where no issue is made surplus Application monies will be refunded without any interest to the Applicant as soon as practicable after the closing date of the Shortfall Offer.

Pending the issue of the Securities or payment of refunds pursuant to this Prospectus, all Application monies will be held by the Company in trust for the Applicants in a separate bank account as required by the Corporations Act. The Company, however, will be entitled to retain all interest that accrues on the bank account and each Applicant waives the right to claim interest.

Holding statements for Securities issued under the Entitlement Offer will be mailed as soon as practicable after the issue of Securities and for Shortfall Securities issued under the Shortfall Offer as soon as practicable after their issue.

2.9 Overseas shareholders

These Offers do not, and is not intended to, constitute an offer in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus.

It is not practicable for the Company to comply with the securities laws of overseas jurisdictions having regard to the number of overseas Shareholders, the number and value of Securities these Shareholders would be offered and the cost of complying with regulatory requirements in each relevant jurisdiction. Accordingly, the Entitlement Offer is not being extended and Securities will not be issued to Shareholders with a registered address which is outside Australia or New Zealand.

New Zealand

The Entitlement Offer is being extended to New Zealand investors in reliance on the *Financial Markets Conduct Act (Incidental Offers) Exemption Notice 2021* (New Zealand).

Nominees and custodians

Nominees and custodians may not submit an Entitlement and Acceptance Form on behalf of any Shareholder resident outside Australia or New Zealand without the prior consent of the Company, taking into account relevant securities law restrictions. Return of a duly completed Entitlement and Acceptance Form will be taken by the Company to constitute a representation that there has been no breach of those regulations.

2.10 Appointment of Nominee – Entitlement Offer

Pursuant to ASX Listing Rule 7.7, the Company has appointed Ord Minnett Limited as nominee to sell the Entitlements to which Ineligible Shareholders are entitled. The nominee will have the absolute and sole discretion to determine the timing and price at which the Entitlements may be sold and the manner of any such sale.

The proceeds of the sale of these Entitlements will firstly be applied against expenses of such sale, including brokerage, and any balance will accrue to the relevant Ineligible Shareholders as described below.

The net proceeds of the sale of these Entitlements will then be forwarded by the Company as soon as practicable to the Ineligible Shareholders, in proportion to their share of such Entitlements (after deducting brokerage commission and other expenses). If any such net proceeds of sale are less than the reasonable costs that would be incurred by the Company for distributing those proceeds, such proceeds may be retained by the Company.

Notwithstanding that the nominee must sell Entitlements, Ineligible Shareholders may nevertheless receive no net proceeds if the costs of the sale are greater than the sale proceeds. In this regard, the nominee will not be required to sell Ineligible Shareholders' Entitlements at a particular price.

Shareholders resident in Australia or New Zealand holding Securities on behalf of persons who are resident overseas are responsible for ensuring that taking up an Entitlement under the Entitlement Offer does not breach regulations in the relevant overseas jurisdiction. Return of a duly completed Entitlement and Acceptance Form will be taken by the Company to constitute a representation that there has been no breach of those regulations.

4.1 Rights and Liabilities attaching to Shares

The following is a summary of the more significant rights and liabilities attaching to the Shares and the underlying securities of the New Options being offered pursuant to this Prospectus. This summary is not exhaustive and does not constitute a definitive statement of the rights and liabilities of Shareholders. To obtain such a statement, persons should seek independent legal advice.

Full details of the rights and liabilities attaching to Shares are set out in the Constitution, a copy of which is available for inspection at the Company's registered office during normal business hours.

(a) General meetings

Shareholders are entitled to be present in person, or by proxy, attorney or representative to attend and vote at general meetings of the Company.

Shareholders may requisition meetings in accordance with section 249D of the Corporations Act and the Constitution of the Company.

(b) Voting rights

Subject to any rights or restrictions for the time being attached to any class or classes of shares, at general meetings of shareholders or classes of shareholders:

- (i) each Shareholder entitled to vote may vote in person or by proxy, attorney or representative;
- (ii) on a show of hands, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder has one vote; and
- (iii) on a poll, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder shall, in respect of each fully paid Share held by him, or in respect of which he is appointed a proxy, attorney or representative, have one vote for each Share held, but in respect of partly paid shares shall have such number of votes as bears the same proportion to the total of such Shares registered in the Shareholder's name as the amount paid (not credited) bears to the total amounts paid and payable (excluding amounts credited).

(c) Dividend rights

Subject to the rights of any preference shareholders and to the rights of the holders of any shares created or raised under any special arrangement as to dividend, the Directors may from time to time declare a dividend to be paid to the Shareholders entitled to the dividend which shall be payable on all Shares according to the proportion that the amount paid (not credited) is of the total amounts paid and payable (excluding amounts credited) in respect of such Shares.

The Directors may from time to time pay to the Shareholders any interim dividends as they may determine. No dividend shall carry interest as against the Company. The Directors may capitalise any profits of the Company and distribute that capital to the Shareholders, in the same proportions as the Shareholders are entitled to a distribution by dividend.

Subject to the ASX Listing Rules and the Corporations Act, the Company may, by resolution of the Directors, implement a dividend reinvestment plan on such terms and conditions as the Directors think fit and which provides for any dividend which the Directors may declare from time to time payable on Shares which are participating Shares in the dividend reinvestment plan, less any amount which the Company shall either pursuant to the Constitution or any law be entitled or obliged to retain, be applied by the Company to the payment of the subscription price of Shares.

(d) **Winding-up**

If the Company is wound up, the liquidator may, with the authority of a special resolution, divide among the Shareholders in kind the whole or any part of the property of the Company, and may for that purpose set such value as he considers fair upon any property to be so divided, and may determine how the division is to be carried out as between the Shareholders or different classes of Shareholders.

(e) **Shareholder liability**

As the Shares issued will be fully paid shares, they will not be subject to any calls for money by the Directors and will therefore not become liable for forfeiture.

(f) **Transfer of shares**

Generally, shares in the Company are freely transferable, subject to formal requirements, the registration of the transfer not resulting in a contravention of or failure to observe the provisions of a law of Australia and the transfer not being in breach of the Corporations Act and the ASX Listing Rules.

(g) **Future increase in capital**

The allotment and issue of any new Shares is under the control of the Directors of the Company. Subject to restrictions on the issue or grant of Securities contained in the ASX Listing Rules, the Constitution and the Corporations Act (and without affecting any special right previously conferred on the holder of an existing share or class of shares), the Directors may issue Shares as they shall, in their absolute discretion, determine.

(h) **Variation of rights**

Under section 246B of the Corporations Act, the Company may, with the sanction of a special resolution passed at a meeting of Shareholders vary or abrogate the rights attaching to shares.

If at any time the share capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class), whether or not the Company is being wound up, may be varied or abrogated with the consent in writing of the holders of three quarters of the issued shares of that class, or if authorised by a special resolution passed at a separate meeting of the holders of the shares of that class.

(i) **Alteration of constitution**

In accordance with the Corporations Act, the Constitution can only be amended by a special resolution passed by at least three quarters of Shareholders present and voting at the general meeting. In addition, at least 28 days written notice specifying the intention to propose the resolution as a special resolution must be given.

(j) **Proportional Takeover Provisions**

The Constitution contains provisions in relation to proportional takeover approval. The effect of these provisions will be to prohibit the transfer of Shares as a result of acceptance of an offer made under a proportional takeover bid unless and until a resolution is passed by the Company approving the proportional takeover bid.

(m) **No change in exercise price or number of underlying securities**

An Option does not confer the right to a change in Exercise Price or a change in the number of underlying securities over which the Option can be exercised in the event of the Company making a pro rata issue of Shares or other securities to shareholders (other than a Bonus Issue).

(n) **Transferability**

The Options are freely transferable subject to any restrictions imposed by ASX or under applicable Australian securities laws.

5. RISK FACTORS

This section includes details of the key risks attaching to an investment in securities in the Company and its subsidiaries (**Group**). These risks may affect the future operating and financial performance of the Company and the value its securities. The key risks are not set out in any particular order and are not exhaustive. Before deciding whether to invest in Novattis securities, you should consider whether such an investment is suitable for you having regard to publicly available information (including this presentation), your personal circumstances and following consultation with a financial or other professional adviser. Additional risks and uncertainties that the Company is unaware of, or that it currently considers to be immaterial, may also become important factors that adversely affect the Company's operating and financial performance.

You should note that the occurrence or consequences of many of the risks described in this section are partially or completely outside the control of the Company, its directors and senior management. Further, you should note that this section focuses on the potential key risks and does not purport to list every risk that the Company may have now or in the future. It is also important to note that there can be no guarantee that the Company will achieve its stated objectives or that any forward-looking statements or forecasts contained in this presentation will be realised or otherwise eventuate. All potential investors should satisfy themselves that they have a sufficient understanding of these matters, including the risks described in this section, and have regard to their own investment objectives, financial circumstances, and taxation position.

Specific risks

(a) Going Concern

The last set of financial statements the Company issued were for the period ended 30 June 2024 which were prepared on the basis that the entity is a going concern, and contemplates the continuity of normal business activity, realisation of assets and settlement of liabilities in the normal course of business. The Group recorded revenue of \$42.9 million, a net loss after tax of \$20.6 million and incurred net cash outflows from operating activities of \$13.4 million. The Company has continued to be loss making since that date.

The Group's ability to continue as a going concern is dependent upon its ability to generate positive cashflow from its business operations which is targeted in early calendar year 2025. These matters indicate that a material uncertainty exists that may cast significant doubt about the entity's ability to continue as a going concern and, therefore, that it may be unable to realise its assets and discharge its liabilities in the normal course of business.

The financial statements have been prepared on the basis that the entity is a going concern, which contemplates the continuity of normal business activity, realisation of assets and settlement of liabilities in the normal course of business for the following reasons:

- the Company's directors are planning for the business to reduce net operating cash outflows during the 2024/25 financial year by increasing cash receipts from customers and further reducing costs in order to work towards positive future operating cash flow;
- the Group owns a number of investments that the Group can potentially sell;

- the Company has historically demonstrated its ability to raise funds to satisfy its cash requirements;
- Group management is actively considering the future capital requirements of the entity and will consider all funding options as required;
- the Company's directors are able and willing to defer amounts owed to them in cash or settle outstanding obligations, including director fees, in equity instruments (subject to shareholder approval if applicable) until such time as the Group has sufficient working capital to settle the obligations in cash;
- the Group is undertaking a simplification strategy to extract more value from existing resources rather than adding extra cost and has the ability to scale back certain activities that are non-essential to existing customers so as to conserve cash; and
- post 30 June 2024, the Group divested 100% of its remaining interest in IBOA Group Holdings Pty Ltd, raising \$2.87 million in cash. The directors may consider, if required, the sale or dilution of the Group's interest in other non-core business assets.

Should the entity not be able to continue as a going concern it may be required to realise its assets and discharge its liabilities other than in the ordinary course of business, and at amounts that differ from those stated in the financial statements. The above-mentioned financial statements do not include any adjustments relating to the recoverability or classification of recorded asset amounts, nor the amounts or classification of liabilities that might be necessary should the Group not be able to continue as a going concern.

(b) **Regulatory and licensing risk**

The Company operates in a complex regulatory environment and in jurisdictions that have varying degrees of enactment and implementation of regulations.

The financial services sector in Australia and other markets in which the Company operates are subject to stringent and complex regulations. A failure to comply with financial license conditions, or related regulatory requirements including KYC and AML, may adversely affect the Company and its business units.

In addition, changes to the regulations themselves or the way such regulations are interpreted, implemented or enforced may affect the Company's platforms or products in those jurisdictions or the ability of the Company or its partners to conduct business in those jurisdictions.

(c) **Growth and Profitability**

The Company continues to trade in a loss-making position, incurring operating cash outflows as it strives to achieve positive operating cashflows through continued growth alongside organizational restructuring and refactoring operating costs.

The Company's future growth and profitability is dependent on continuing to increase the usage of its products, particularly in the focus area of Payments AU/NZ. Its key strengths are the strong market and domain knowledge of payments,

flexible approaches to value exchange, and the breadth of payments capabilities to drive tailored solutions into new target verticals.

A failure to continue to innovate and add new functionality to its platforms, and to operate its platforms at a standard that will retain clients and attract new clients could lead to customers not renewing their engagement with the Company, which could adversely impact the Company's financial performance and/or operations. If the Company is not able to grow revenues and cash receipts, reduce operating costs or obtain additional financing as needed, it may be required to reduce the scope of its operations and may be prevented from progressing the commercialisation of its technology.

(d) **Reliance on key suppliers and third party platforms**

The Company relies on a range of third party vendors and suppliers to deliver services to customers in a range of markets, including white labelled platforms, onboarding, processing, transaction facilitation, distribution and banking facilities. The Company expects there is a need to transition away from at two key platform providers in the near term, which will involve execution and customer migration risks. In some cases, limited alternatives are in place or implementing alternatives may involve significant time and cost. If single suppliers were to discontinue operations, adjust their risk appetite or otherwise restrict services, the Company may need to limit the scope of operations, discontinue certain products or withdraw from certain markets.

The Company's products and services are intended for use across a number of internet access platforms, mobile and desktop devices and software operating systems. The Company depends on the ability of its products and services to operate on such platforms, devices and operating systems however it cannot control the maintenance, upkeep and continued supply of effective service from external suppliers in these areas. Any changes in such platforms, operating systems or devices that adversely affect the functionality of the Company's products and services or give preferential treatment to competitive products and services could adversely affect usage of the Company's products and services.

(e) **Reliance on access to and confidence in telecommunications and internet**

In some instances, the Company will depend on the ability of clients and their customers to access a deployed solution over telecommunications and internet access and to remain confident processing financial transactions online.

A failure of telecommunications networks could severely impact the Company's ability to deliver its services, and there may be a loss of confidence in the Company's products that may negatively impact ongoing revenue and sales.

(f) **Ability to run effective and reliable financial and payments systems**

The Company develops, deploys, maintains and operates financial and payments systems technology. There is little tolerance for error or downtime in such systems and the Company must maintain effective and reliable system performance for all customers. Should the Company experience significant and unanticipated errors and downtime, there may be a loss of confidence in the Company's products that may negatively impact ongoing revenue and sales.

(g) **Operational risk**

Operational risk relates to the risk of loss resulting from inadequate or failed internal processes, people and systems, or from external events which affect the Company's business.

The Company is exposed to operational risks such as external and internal fraud, processing errors, system or hardware failure and failure of information security systems. Loss from operational risk events could divert investment from new products into remediation of existing systems and processes, damage client relations or our reputation, adversely affect the Company's financial results or position, as well as divert staff away from their core roles to remediation activity. In addition, losses could include legal or remediation costs and loss of property and/or information.

(h) **Reliance on key senior staff**

The Company's operational success will depend substantially on the continuing efforts of senior executives. The loss of services of one or more senior executives may have an adverse effect on the Company's operations.

(i) **Reliance on continual product development**

The Company's ability to grow the use of its products and generate revenue will depend in part on its ability to continue to innovate and develop features for existing products and additional products. A failure of innovation and product development could lead to a loss of confidence in the Company's products that may negatively impact ongoing revenue and sales.

(j) **Competition**

The Company competes with other organisations and businesses, many of which have greater financial and other resources than the Company. As a result, they may be in a better position to compete for future business opportunities and adversely impact upon the Company's ability to make sales and earn revenue.

(k) **Changes in technology**

The Company's success will depend, in part, on its ability to expand its products and grow its business in response to changing technologies, client adoption and end consumer behaviour. Further, the cost of responding to changing technologies is unpredictable and may impact the Company's profitability or, if such cost is prohibitive, may reduce the Company's capacity to expand or maintain its business.

(l) **Data loss, theft or corruption**

The Company, its hosting providers, and networks are required to adhere to their own and service provider's security and compliance standards. If adequate safeguards and measures to mitigate breaches are not provided and maintained, it could negatively impact upon the Company's reputation, revenue and profitability. If the Company's security measures are breached, or if its products are subject to cyber-attacks that expose or restrict customer access to the platform or their data, its solutions may be perceived as less secure than competitors and customers may stop using the Company's products.

(m) **Liquidity and realisation risk**

There can be no guarantee that an active market in the Company's securities will be maintained or that the price of its securities will increase.

The Company may experience relatively few buyers and/or sellers at any given time and this may restrict the ability to trade in securities and increase the volatility of their market price.

(n) **Additional requirements for capital**

The Company's capital requirements depend on numerous factors. Depending on the Company's ability to generate income from its operations, the Company may require further financing in the future. Any additional equity financing will dilute shareholdings, and further debt financing, if available, may involve restrictions on financing and operating activities. If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations or scale back its product or market development.

(o) **Potential acquisitions**

As part of its business strategy, the Company may make acquisitions of, or significant investments in, complementary companies or prospects although no such acquisitions or investments are currently planned. Any such transactions will be accompanied by risks commonly encountered in making such acquisitions.

(p) **International business risks**

The Company has global operations. Businesses that operate across multiple jurisdictions face additional complexities from the unique business requirements in each jurisdiction. Wherever the Company sets up operations it is exposed to a range of political and multi-jurisdictional risks such as risks relating to labour practices, environmental matters, difficulty in enforcing contracts, changes to or uncertainty in the relevant legal regime (including in relation to financial services regulation, taxation and foreign investment and practices of government and regulatory authorities) and other issues in foreign jurisdictions in which the Company operates.

(q) **Sustainability and climate change risk**

Environmental, Social and Governance (or ESG) risks are becoming increasingly relevant to all businesses. The possible effects of climate change may impact the prosperity of economies, environments and societies all around the world.

Though the Company's operations are not subject to any particular and significant environmental regulation under any law of the countries in which it operates, this area and associated governmental responses have potential impact on the Company's business in unknown ways.

(r) **Taxation risk**

As at the date of this document, the Company is overdue in paying net liabilities of approximately \$3.7 million plus interest and penalties to the Australian Taxation Office (**ATO**) for PAYG balances accruing since November 2022 and, as a consequence, the Company is in breach of tax legislation and exposing the Company and its directors to ATO action.

Whilst the Company is seeking to finalise an 18 month repayment plan and has entered multiple information exchanges with the ATO to achieve this outcome, there is no guarantee that the ATO will agree to this on terms the Company seeks or at all. The Company has made a lump sum payment of \$1m in September 2024 against the debt with monthly instalments of \$0.24m scheduled from October 2024 while the payment plan is being finalised. If a payment plan is not accepted, the need to immediately pay and the imposition of significant fines, charges or penalties and reputational damage as a result of the overdue amounts could adversely affect the Company's business and financial condition, and may result in the Company needing to raise further funds.

Furthermore, unresolved tax liabilities pose a substantial financial burden on the Company's operations, potentially impacting liquidity, cashflow, investor confidence and the ability to secure debt or equity financing.

The Victorian State Revenue Office is undertaking a customary payroll tax review of the Group in the ordinary course of its activities. The Company does not expect any material liability to arise out of the review process, however there is no guarantee that this will be the case, therefore exposing the Company to further unanticipated tax liability and, in addition to that liability, the risk of fines, charges or penalties and reputational damage as a result.

(s) **Litigation**

The Company is exposed to the risk of actual or threatened litigation or legal disputes in the form of claims by contract counterparties, personal injury and property damage claims, environmental and indemnity claims, employee claims and other litigation and disputes. There is a risk that such litigation, claims and disputes could materially and adversely affect the Company's operating and financial performance due to the cost of defending and/or settling such claims, and could affect the Company's reputation.

The Company has been joined as a defendant in legal proceedings in the Supreme Court of New South Wales that have been brought by a shareholder, Qing Li, regarding two purported transfers of securities in the Company to Chen Xiadi, another shareholder in the Company. The Company is a party to the proceedings as it maintains the members register through its agent, Automic. Neither Madam Li nor Mr Chen have made any claim or allegations of wrongdoing against Novatti in these proceedings.

Madam Li claims that the attempted share transfers were not authorised by her and the proceedings have been brought to determine the underlying beneficial ownership of the securities. Mr Chen has lodged a counterclaim against Madam Li's claim. A directions hearing is set for 24 October 2024.

The Company is in dispute with the sellers of ATX Fintech Holding SB Malaysia (**ATX**) regarding payment and timing of earn out consideration linked to the financial performance of ATX post-acquisition. The Company acquired ATX in January 2022.

The Company has received a letter of demand from a Malaysian law firm acting for the ATX sellers, who are claiming an amount of MYR7,379,174.27 (approximately A\$2.6 million). The Company has responded to that letter. ATX unexpectedly delivered operating losses in CY22 and CY23 with the Company holding back full earn out payments for both these periods whilst it reconciles the position given that ATX had delivered operating profits prior to acquisition.

ATX is operating normally and has not been impacted by the dispute, with financial performance having improved early in the current financial year following intervention by Company management.

Whilst the Company expects to resolve the dispute without the need for litigation, there is a risk that the matter is not resolved by agreement and that some or all of the ATX sellers commence formal legal proceedings in the Malaysian courts or elsewhere. There is no guarantee that the Company will be able to fully or partially succeed in the defence of such a claim or that the matter will be resolved on favourable terms for the Company.

The Company is not aware of any other legal proceedings pending against it or any subsidiary.

(t) **Insurance coverage**

The Company currently has in place what it believes are adequate levels of insurance for directors' and officers' liability, professional liability and indemnity, commercial general liability and property damage, cyber and workers' compensation to protect the Company from potential losses and liabilities. However, there is a possibility that events may arise which are not adequately covered by the Company's existing insurance policies and the Company cannot guarantee that the Company's existing insurance will be available or offered in the future. An inability of the Company to maintain such cover in the future could limit the ability of the Company to conduct its business, which could have a negative impact on the financial results and prospects.

(u) **Credit Risk**

Credit risk arises from the financial assets of the Company, which comprise cash and cash equivalents, trade and other receivables and other financial assets. The Company's exposure to credit risk arises from potential default by the counterparty, with maximum exposure equal to the carrying amount of these instruments. Exposure at the reporting date is addressed in each applicable note.

(v) **Market Risk –Foreign Currency**

The Company is exposed to currency risk on cash at bank, accounts receivable and payable accounts and on its financial assets in Canadian Dollars (CAD) to fund its Canadian operations, Euro (EUR) and Great British Pounds (GBP) to service its European Operations in the UK, also US Dollars (USD) and New Zealand Dollars (NZD).

(w) **Market Risk –Price Risk**

The Company is exposed to other price risk on its investments in listed and unlisted entities. These investments are classified on the statement of financial position as investment assets initially recorded at cost and are subsequently measured at fair value through the statement of profit or loss. The investments are in three different entities. The assets and liabilities within these investments indirectly expose the Company to equity price risks.

(x) **Liquidity Risk on Working Capital**

Liquidity risk arises from the Group's management of working capital. It is the risk that the Group will encounter difficulty in meeting its financial obligations as they fall due. The Group's policy is to ensure that it will always have sufficient cash to allow it to meet its liabilities when they become due. To achieve this aim, it seeks to maintain cash balances to meet expected requirements for a period of at least three months.

General risks

(a) **Economic risk**

Changes in the general economic climate in which the Company will operate may adversely affect the financial performance of the Company. Factors that may contribute to that general economic climate include the level of direct and indirect competition against the Company, industrial disruption and the rate of growth of gross domestic product in Australia and other jurisdictions in which the Company operates or may acquire specific assets.

(b) **Changes in government policies and legislation**

Changes in the political relationship between Australia and other countries can affect the demand for the Company's products and services. Examples of this might be trade embargos or restrictions on the Company's services, restrictions on the free flow of migrants and travellers, or economic sanctions against countries that may use the Company's products and services.

(c) **Changing geo-political environment**

Changes in the political relationship between Australia and its trading parties can affect the demand for the Company's products and services. Examples of this might be trade embargos or increased tariffs on the Company's goods or economic sanctions against the countries that are buying the Company's products and services, or war between countries to which the Company exports its products and services.

(d) **Global credit and investment markets**

Global credit, commodity and investment markets can experience a high degree of uncertainty and volatility. The factors which lead to this situation are outside the control of the Company and may result in volatility and uncertainty in world stock markets (including ASX). This may impact the price at which the Company's securities trade regardless of operating performance and affect the Company's ability to raise additional equity and/or debt to achieve its objectives, if required. The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general, and fintech securities in particular. Neither the Company, nor its directors warrant the future performance of the Company or any return on an investment in the Company.

(e) **Changes in tax laws and their interpretation**

Changes in tax law or changes in the way tax laws are interpreted may impact the level of tax that the Company is required to pay or collect, shareholder returns, the level of dividend imputation or franking or the tax treatment of a shareholder's investment. In particular, both the level and basis of taxation may change. Tax law is frequently being changed, both prospectively and retrospectively. Further, the status of some key tax reforms remains unclear at this stage.. Additionally, tax authorities may review the tax treatment of transactions entered into by the Company. Any actual or alleged failure to comply with, or change in the application or interpretation of, tax rules applied in respect of such transactions, may increase the Company's tax liabilities or expose it to legal, regulatory or other actions.

(f) **Changes in accounting standards and their interpretation**

Changes to accounting or financial reporting standards or changes to the interpretation of those standards could materially adversely impact the reported financial performance and position of the Company.

(g) **Force majeure events**

Events may occur within or outside Australia that could impact upon the global and Australian economies, the operations of the Company and the price of the Company's securities. These events can have an adverse impact on the demand for the Company's services and its ability to conduct its business. The Company has only a limited ability to insure against some of these risks. If any of these event occur, there may be a material adverse impact on the Company's operations, financial performance and viability.

Risks

Novatti

Key Risks

This section includes details of the key risks attaching to an investment in securities in the Company and its subsidiaries (**Group**). These risks may affect the future operating and financial performance of the Company and the value its securities. The key risks are not set out in any particular order and are not exhaustive. Before deciding whether to invest in Novatti securities, you should consider whether such an investment is suitable for you having regard to publicly available information (including this presentation), your personal circumstances and following consultation with a financial or other professional adviser. Additional risks and uncertainties that the Company is unaware of, or that it currently considers to be immaterial, may also become important factors that adversely affect the Company's operating and financial performance.

You should note that the occurrence or consequences of many of the risks described in this section are partially or completely outside the control of the Company, its directors and senior management. Further, you should note that this section focuses on the potential key risks and does not purport to list every risk that the Company may have now or in the future. It is also important to note that there can be no guarantee that the Company will achieve its stated objectives or that any forward-looking statements or forecasts contained in this presentation will be realised or otherwise eventuate. All potential investors should satisfy themselves that they have a sufficient understanding of these matters, including the risks described in this section, and have regard to their own investment objectives, financial circumstances, and taxation position.

Specific risks

(a) Going Concern

The last set of financial statements the Company issued were for the period ended 30 June 2024 which were prepared on the basis that the entity is a going concern, and contemplates the continuity of normal business activity, realisation of assets and settlement of liabilities in the normal course of business. The Group recorded revenue of \$42.9m, a net loss after tax of \$20.6m and incurred net cash outflows from operating activities of \$13.4m. The Company has continued to be loss making since that date.

The Group's ability to continue as a going concern is dependent upon its ability to generate positive cashflow from its business operations which is targeted in early calendar year 2025. These matters indicate that a material uncertainty exists that may cast significant doubt

about the entity's ability to continue as a going concern and, therefore, that it may be unable to realise its assets and discharge its liabilities in the normal course of business.

The financial statements have been prepared on the basis that the entity is a going concern, which contemplates the continuity of normal business activity, realisation of assets and settlement of liabilities in the normal course of business for the following reasons:

- the Company's directors are planning for the business to reduce net operating cash outflows during the 2024/25 financial year by increasing cash receipts from customers and further reducing costs in order to work towards positive future operating cash flow;
- the Group owns a number of investments that the Group can potentially sell;
- the Company has historically demonstrated its ability to raise funds to satisfy its cash requirements;
- Group management is actively considering the future capital requirements of the entity and will consider all funding options as required;
- the Company's directors are able and willing to defer amounts owed to them in cash or settle outstanding obligations, including director fees, in equity instruments (subject to shareholder approval if applicable) until such time as the Group has sufficient working capital to settle the obligations in cash;
- the Group is undertaking a simplification strategy to extract more value from existing resources rather than adding extra cost and has the ability to scale back certain activities that are non-essential to existing customers so as to conserve cash; and
- post 30 June 2024, the Group divested 100% of its remaining interest in IBOA Group Holdings Pty Ltd, raising \$2.87million in cash. The directors may consider, if required, the sale or dilution of the Group's interest in other non-core business assets.

Should the entity not be able to continue as a going concern it may be required to realise its assets and discharge its liabilities other than in the ordinary course of business, and at amounts that differ from those stated in the financial statements. The above-mentioned financial statements do not include any adjustments relating to the recoverability or classification of recorded asset amounts, nor the amounts or classification of liabilities that might be necessary should the Group not be able to continue as a going concern.

Key Risks (cont.)

(b) Regulatory and licensing risk

The Company operates in a complex regulatory environment and in jurisdictions that have varying degrees of enactment and implementation of regulations.

The financial services sector in Australia and other markets in which the Company operates are subject to stringent and complex regulations. A failure to comply with financial license conditions, or related regulatory requirements including KYC and AML, may adversely affect the Company and its business units.

In addition, changes to the regulations themselves or the way such regulations are interpreted, implemented or enforced may affect the Company's platforms or products in those jurisdictions or the ability of the Company or its partners to conduct business in those jurisdictions.

(c) Growth and Profitability

The Company continues to trade in a loss-making position, incurring operating cash outflows as it strives to achieve positive operating cashflows through continued growth alongside organizational restructuring and refactoring operating costs.

The Company's future growth and profitability is dependent on continuing to increase the usage of its products, particularly in the focus area of Payments AU/NZ. Its key strengths are the strong market and domain knowledge of payments, flexible approaches to value exchange, and the breadth of payments capabilities to drive tailored solutions into new target verticals.

A failure to continue to innovate and add new functionality to its platforms, and to operate its platforms at a standard that will retain clients and attract new clients could lead to customers not renewing their engagement with the Company, which could adversely impact the Company's financial performance and/or operations. If the Company is not able to grow revenues and cash receipts, reduce operating costs or obtain additional financing as needed, it may be required to reduce the scope of its operations and may be prevented from progressing the commercialisation of its technology.

(d) Reliance on key suppliers and third party platforms

The Company relies on a range of third party vendors and suppliers to deliver services to customers in a range of markets, including white labelled platforms, onboarding, processing,

transaction facilitation, distribution and banking facilities. The Company expects there is a need to transition away from at two key platform providers in the near term, which will involve execution and customer migration risks. In some cases, limited alternatives are in place or implementing alternatives may involve significant time and cost. If single suppliers were to discontinue operations, adjust their risk appetite or otherwise restrict services, the Company may need to limit the scope of operations, discontinue certain products or withdraw from certain markets.

The Company's products and services are intended for use across a number of internet access platforms, mobile and desktop devices and software operating systems. The Company depends on the ability of its products and services to operate on such platforms, devices and operating systems however it cannot control the maintenance, upkeep and continued supply of effective service from external suppliers in these areas. Any changes in such platforms, operating systems or devices that adversely affect the functionality of the Company's products and services or give preferential treatment to competitive products and services could adversely affect usage of the Company's products and services.

(e) Reliance on access to and confidence in telecommunications and internet

In some instances, the Company will depend on the ability of clients and their customers to access a deployed solution over telecommunications and internet access and to remain confident processing financial transactions online.

A failure of telecommunications networks could severely impact the Company's ability to deliver its services, and there may be a loss of confidence in the Company's products that may negatively impact ongoing revenue and sales.

(f) Ability to run effective and reliable financial and payments systems

The Company develops, deploys, maintains and operates financial and payments systems technology. There is little tolerance for error or downtime in such systems and the Company must maintain effective and reliable system performance for all customers. Should the Company experience significant and unanticipated errors and downtime, there may be a loss of confidence in the Company's products that may negatively impact ongoing revenue and sales.

Key Risks (cont.)

(g) Operational risk

Operational risk relates to the risk of loss resulting from inadequate or failed internal processes, people and systems, or from external events which affect the Company's business.

The Company is exposed to operational risks such as external and internal fraud, processing errors, system or hardware failure and failure of information security systems. Loss from operational risk events could divert investment from new products into remediation of existing systems and processes, damage client relations or our reputation, adversely affect the Company's financial results or position, as well as divert staff away from their core roles to remediation activity. In addition, losses could include legal or remediation costs and loss of property and/or information.

(h) Reliance on key senior staff

The Company's operational success will depend substantially on the continuing efforts of senior executives. The loss of services of one or more senior executives may have an adverse effect on the Company's operations.

(i) Reliance on continual product development

The Company's ability to grow the use of its products and generate revenue will depend in part on its ability to continue to innovate and develop features for existing products and additional products. A failure of innovation and product development could lead to a loss of confidence in the Company's products that may negatively impact ongoing revenue and sales.

(j) Competition

The Company competes with other organisations and businesses, many of which have greater financial and other resources than the Company. As a result, they may be in a better position to compete for future business opportunities and adversely impact upon the Company's ability to make sales and earn revenue.

(k) Changes in technology

The Company's success will depend, in part, on its ability to expand its products and grow its business in response to changing technologies, client adoption and end consumer behaviour. Further, the cost of responding to changing technologies is unpredictable and may impact the Company's profitability or, if such cost is prohibitive, may reduce the Company's capacity to expand or maintain its business.

(l) Data loss, theft or corruption

The Company, its hosting providers, and networks are required to adhere to their own and service provider's security and compliance standards. If adequate safeguards and measures to mitigate breaches are not provided and maintained, it could negatively impact upon the Company's reputation, revenue and profitability. If the Company's security measures are breached, or if its products are subject to cyber-attacks that expose or restrict customer access to the platform or their data, its solutions may be perceived as less secure than competitors and customers may stop using the Company's products.

(m) Liquidity and realisation risk

There can be no guarantee that an active market in the Company's securities will be maintained or that the price of its securities will increase.

The Company may experience relatively few buyers and/or sellers at any given time and this may restrict the ability to trade in securities and increase the volatility of their market price.

(n) Additional requirements for capital

The Company's capital requirements depend on numerous factors. Depending on the Company's ability to generate income from its operations, the Company may require further financing in the future. Any additional equity financing will dilute shareholdings, and further debt financing, if available, may involve restrictions on financing and operating activities. If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations or scale back its product or market development.

Key Risks (cont.)

(o) Potential acquisitions

As part of its business strategy, the Company may make acquisitions of, or significant investments in, complementary companies or prospects although no such acquisitions or investments are currently planned. Any such transactions will be accompanied by risks commonly encountered in making such acquisitions.

(p) International business risks

The Company has global operations. Businesses that operate across multiple jurisdictions face additional complexities from the unique business requirements in each jurisdiction. Wherever the Company sets up operations it is exposed to a range of political and multi-jurisdictional risks such as risks relating to labour practices, environmental matters, difficulty in enforcing contracts, changes to or uncertainty in the relevant legal regime (including in relation to financial services regulation, taxation and foreign investment and practices of government and regulatory authorities) and other issues in foreign jurisdictions in which the Company operates.

(q) Sustainability and climate change risk

Environmental, Social and Governance (or ESG) risks are becoming increasingly relevant to all businesses. The possible effects of climate change may impact the prosperity of economies, environments and societies all around the world.

Though the Company's operations are not subject to any particular and significant environmental regulation under any law of the countries in which it operates, this area and associated governmental responses have potential impact on the Company's business in unknown ways.

(r) Taxation risk

As at the date of this document, the Company is overdue in paying net liabilities of approximately \$3.7 million plus interest and penalties to the Australian Taxation Office (ATO) for PAYG balances accruing since November 2022 and, as a consequence, the Company is in breach of tax legislation and exposing the Company and its directors to ATO action.

Whilst the Company is seeking to finalise an 18 month repayment plan and has entered multiple information exchanges with the ATO to achieve this outcome, there is no guarantee that the ATO will agree to this on terms the Company seeks or at all. The Company has made a lump sum payment of \$1m in September 2024 against the debt with monthly instalments of \$0.24m scheduled from October 2024 while the payment plan is being finalised. If a payment plan is not accepted, the need to immediately pay and the imposition of significant fines, charges or penalties and reputational damage as a result of the overdue amounts could adversely affect the Company's business and financial condition, and may result in the Company needing to raise further funds.

Furthermore, unresolved tax liabilities pose a substantial financial burden on the Company's operations, potentially impacting liquidity, cashflow, investor confidence and the ability to secure debt or equity financing.

The Victorian State Revenue Office is undertaking a customary payroll tax review of the Group in the ordinary course of its activities. The Company does not expect any material liability to arise out of the review process, however there is no guarantee that this will be the case, therefore exposing the Company to further unanticipated tax liability and, in addition to that liability, the risk of fines, charges or penalties and reputational damage as a result.

(s) Litigation

The Company is exposed to the risk of actual or threatened litigation or legal disputes in the form of claims by contract counterparties, personal injury and property damage claims, environmental and indemnity claims, employee claims and other litigation and disputes. There is a risk that such litigation, claims and disputes could materially and adversely affect the Company's operating and financial performance due to the cost of defending and/or settling such claims, and could affect the Company's reputation.

The Company has been joined as a defendant in legal proceedings in the Supreme Court of New South Wales that have been brought by a shareholder, Qing Li, regarding two purported transfers of securities in the Company to Chen Xiadi, another shareholder in the Company. The Company is a party to the proceedings as it maintains the members register through its agent, Automic. Neither Madam Li nor Mr Chen have made any claim or allegations of wrongdoing against Novatti in these proceedings.

Key Risks (cont.)

Madam Li claims that the attempted share transfers were not authorised by her and the proceedings have been brought to determine the underlying beneficial ownership of the securities. Mr Chen has lodged a counterclaim against Madam Li's claim. A directions hearing is set for 24 October 2024.

The Company is in dispute with the sellers of ATX Fintech Holding SB Malaysia (**ATX**) regarding payment and timing of earn out consideration linked to the financial performance of ATX post-acquisition. The Company acquired ATX in January 2022.

The Company has received a letter of demand from a Malaysian law firm acting for the ATX sellers, who are claiming an amount of MYR7,379,174.27 (approximately A\$2.6 million). The Company has responded to that letter. ATX unexpectedly delivered operating losses in CY22 and CY23 with the Company holding back full earn out payments for both these periods whilst it reconciles the position given that ATX had delivered operating profits prior to acquisition.

ATX is operating normally and has not been impacted by the dispute, with financial performance having improved early in the current financial year following intervention by Company management.

Whilst the Company expects to resolve the dispute without the need for litigation, there is a risk that the matter is not resolved by agreement and that some or all of the ATX sellers commence formal legal proceedings in the Malaysian courts or elsewhere. There is no guarantee that the Company will be able to fully or partially succeed in the defence of such a claim or that the matter will be resolved on favourable terms for the Company.

The Company is not aware of any other legal proceedings pending against it or any subsidiary.

(f) Insurance coverage

The Company currently has in place what it believes are adequate levels of insurance for directors' and officers' liability, professional liability and indemnity, commercial general liability and property damage, cyber and workers' compensation to protect the Company from potential losses and liabilities. However, there is a possibility that events may arise which are not adequately covered by the Company's existing insurance policies and the Company cannot guarantee that the Company's existing insurance will be available or offered in the future. An inability of the Company to maintain such cover in the future could limit the ability of the Company to conduct its business, which could have a negative impact on the financial results and prospects.

(u) Credit Risk

Credit risk arises from the financial assets of the Company, which comprise cash and cash equivalents, trade and other receivables and other financial assets. The Company's exposure to credit risk arises from potential default by the counter-party, with maximum exposure equal to the carrying amount of these instruments. Exposure at the reporting date is addressed in each applicable note.

(v) Market Risk – Foreign Currency

The Company is exposed to currency risk on cash at bank, accounts receivable and payable accounts and on its financial assets in Canadian Dollars (CAD) to fund its Canadian operations, Euro (EUR) and Great British Pounds (GBP) to service its European Operations in the UK, also US Dollars (USD) and New Zealand Dollars (NZD).

(w) Market Risk – Price Risk

The Company is exposed to other price risk on its investments in listed and unlisted entities. These investments are classified on the statement of financial position as investment assets initially recorded at cost and are subsequently measured at fair value through the statement of profit or loss. The investments are in three different entities. The assets and liabilities within these investments indirectly expose the Company to equity price risks.

(x) Liquidity Risk on Working Capital

Liquidity risk arises from the Group's management of working capital. It is the risk that the Group will encounter difficulty in meeting its financial obligations as they fall due. The Group's policy is to ensure that it will always have sufficient cash to allow it to meet its liabilities when they become due. To achieve this aim, it seeks to maintain cash balances to meet expected requirements for a period of at least three months.

Key Risks (cont.)

General risks

(a) Economic risk

Changes in the general economic climate in which the Company will operate may adversely affect the financial performance of the Company. Factors that may contribute to that general economic climate include the level of direct and indirect competition against the Company, industrial disruption and the rate of growth of gross domestic product in Australia and other jurisdictions in which the Company operates or may acquire specific assets.

(b) Changes in government policies and legislation

Changes in the political relationship between Australia and other countries can affect the demand for the Company's products and services. Examples of this might be trade embargos or restrictions on the Company's services, restrictions on the free flow of migrants and travellers, or economic sanctions against countries that may use the Company's products and services.

(c) Changing geo-political environment

Changes in the political relationship between Australia and its trading parties can affect the demand for the Company's products and services. Examples of this might be trade embargos or increased tariffs on the Company's goods or economic sanctions against the countries that are buying the Company's products and services, or war between countries to which the Company exports its products and services.

(d) Global credit and investment markets

Global credit, commodity and investment markets can experience a high degree of uncertainty and volatility. The factors which lead to this situation are outside the control of the Company and may result in volatility and uncertainty in world stock markets (including ASX). This may impact the price at which the Company's securities trade regardless of operating performance and affect the Company's ability to raise additional equity and/or debt to achieve its objectives, if required. The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general, and fintech securities in particular. Neither the Company, nor its directors warrant the future performance of the Company or any return on an investment in the Company.

(e) Changes in tax laws and their interpretation

Changes in tax law or changes in the way tax laws are interpreted may impact the level of tax that the Company is required to pay or collect, shareholder returns, the level of dividend imputation or franking or the tax treatment of a shareholder's investment. In particular, both the level and basis of taxation may change. Tax law is frequently being changed, both prospectively and retrospectively. Further, the status of some key tax reforms remains unclear at this stage. Additionally, tax authorities may review the tax treatment of transactions entered into by the Company. Any actual or alleged failure to comply with, or change in the application or interpretation of, tax rules applied in respect of such transactions, may increase the Company's tax liabilities or expose it to legal, regulatory or other actions.

(f) Changes in accounting standards and their interpretation

Changes to accounting or financial reporting standards or changes to the interpretation of those standards could materially adversely impact the reported financial performance and position of the Company.

(g) Force majeure events

Events may occur within or outside Australia that could impact upon the global and Australian economies, the operations of the Company and the price of the Company's securities. These events can have an adverse impact on the demand for the Company's services and its ability to conduct its business. The Company has only a limited ability to insure against some of these risks. If any of these event occur, there may be a material adverse impact on the Company's operations, financial performance and viability.

Underwriting Agreement

The Company has entered into an underwriting agreement (**Underwriting Agreement**) with GBA Capital, pursuant to which GBA Capital has agreed to partially underwrite the Entitlement Offer (**Underwritten Securities**). GBA Capital may appoint sub-underwriters to sub-underwrite the Entitlement Offer. The appointment of any sub-underwriter and the allocation of any Underwritten Securities is at the sole discretion of the Underwriter, subject to ensuring that no sub-underwriter (together with their associates) acquires a relevant interest in more than 19.99% of the issued share capital of the Company.

The material terms and conditions of the Underwriting Agreement are summarised below:

The Company has agreed to pay the Underwriter an underwriting fee of 6% of the Entitlement Offer proceeds and to issue to the Underwriter (or its nominee/s) the Options contemplated in the JLM Engagement Letter.
