

25 Oct 2024

September 2024 quarterly activities report

QUARTER 3 HIGHLIGHTS

Tala Hamza Zinc Project

- The Algerian Government completed the acquisition of 234 hectares of land which covers the footprint of the Tala Hamza Mining Permit. This land is now accessible for WMZ to commence construction.
- Terramin is making significant progress in its negotiations with major construction groups regarding the funding and construction of the project.

Bird in Hand Gold Project

- The Judicial Review of the South Australian Government decisions was heard in the Supreme Court on the 14th and 15th October 2024. The judge has reserved his decision.

Kapunda In Situ Copper Recovery Project

- Preparations for a full site environmental lixiviant test trial later this year are well underway.

South Gawler Ranges Project

- Drilling of three targets commenced subsequent to the end of the quarter.

Corporate

- The Company's total cash balance was \$0.3 million at the end of the quarter.
- Subsequent to the end of the quarter, a \$1.0 million debt facility has been established.
- Mr Alan Broome AM was appointed to the Board of Terramin as a Non-executive Director and Deputy Chair.

For personal use only

TALA HAMZA ZINC PROJECT

100% owned by Western Mediterranean Zinc Spa (WMZ)

Tala Hamza Zinc Project (Tala Hamza) is one of the largest undeveloped zinc & lead deposits in the world containing 3.5 million tonnes of zinc plus with a resource of 53.0 million tonnes at 6.6% zinc plus lead¹. Tala Hamza is located on the Mediterranean coast of Algeria approximately 15 kilometres from the port city of Bejaia. Bejaia has a population of over 300,000 people with an export deep water port facility and an international airport. The project is close to major rail, road and energy infrastructure.

Terramin holds a 49% shareholding in WMZ and holds management rights in respect of Tala Hamza. The remaining 51% is held by two Algerian government-owned companies: Enterprise Nationale des Produits Miniers Non-Ferreux et des Substances Utiles Spa (ENOF) (48.5%) and Office National de Recherche Géologique et Minière (ORGM) (2.5%).

For personal use only

In May 2023, Terramin was pleased to announce the achievement of a major project milestone with the Algerian mining regulator issuing the Mining Permit for Tala Hamza.

The issue of the Mining Permit means that Tala Hamza has satisfied all Algerian regulatory, financial and environmental requirements and that it can now proceed towards development. In collaboration with our Algerian partners, this Mining Permit will allow for the mining and processing of 2.0mtpa of ore instead of the 1.3mtpa anticipated in the 2018 Tala Hamza Definitive Feasibility Study, indicating that project returns will be enhanced over the anticipated 20+ year mine life. The Mining Permit encompasses all the area of land required for operation of the mine including mining, processing, haul roads, ore stockpiles, tailings dams, concentrate handling and maintenance and administration.

Subsequent to the end of the quarter, the Algerian Government completed the acquisition of 234 hectares of land which covers the footprint of the Tala Hamza Mining Permit. This land is now accessible for WMZ to commence construction and there are no physical impediments in assessing the Mining Permit. The acquisition of the land is a very significant financial commitment to our project by the Algerian Government and is indicative of their strong support for the project.

Terramin has continued to make significant progress in its negotiations with major construction groups regarding the funding and construction of the project.

The zinc price has continued to trade strongly in recent months with the price settling above US\$3,000 per tonne. The Chinese stimulus package and the continued tight zinc concentrate supply is continuing to support the zinc price.

Terramin's expenditure in respect of Tala Hamza during the quarter was \$0.06 million with our Algerian partners contributing funding in respect of 51% of the project expenditure.

1. ASX Announcement on 29 August 2018 – Tala Hamza Resources and Reserves Statement

BIRD IN HAND GOLD PROJECT & ANGAS ZINC MINE SITE

100% owned by Terramin and its subsidiary Terramin Exploration Pty Ltd

The Bird in Hand Gold Project (BIHGP) is located approximately 30km north of Terramin's existing mining and processing facilities at the Angas Zinc Mine (Angas). The project has a high-grade Resource of 650,000 tonnes at 12.6g/t for 265,000 ounces of gold. A feasibility study showed that the BIHGP expected to generate a post-tax NPV₈ of \$141 million with an IRR of 80.5% over approximately 4 years of production. The project's base case projection is to produce an average of 44,700 ounces of gold per annum at a low C1 cash cost of \$737 per ounce and an all-in sustaining cost of \$959 per ounce. It is anticipated that, subject to required regulatory approvals, the Bird in Hand ore will be processed utilising the facilities at Angas which can be modified to process gold-bearing material. The existing tailings dam at Angas has the capacity to hold Bird in Hand tailings.

For personal use only

On 21 June 2019, Terramin submitted applications for a mining lease and a miscellaneous purposes licence (Applications) pursuant to sections 36 and 49 of the *Mining Act 1971 (SA)* (Act) in respect of the BIHGP.

On 8 February 2023, the Honourable Tom Koutsantonis, South Australian Minister for Energy and Mining (Minister) made a decision to refuse the Applications.

The decision was made notwithstanding an extensive review of Terramin's Applications by the South Australian Department for Energy and Mining (DEM). DEM made a positive assessment of the Applications and found that appropriate environmental outcomes could be achieved should the mining lease and miscellaneous purposes licence be granted. DEM's Assessment Report was later published on 14 February 2023. The conclusion by DEM is not a surprise as Terramin's Applications were supported by comprehensive studies based on science, which demonstrated that there would be no adverse environmental or socio-economic outcomes arising from Terramin's mining proposal. These studies were peer reviewed by independent and Government experts over many years. Terramin has not been made aware of any issues with the methodology or conclusions of these studies.

Subsequently, Terramin was informed of a proposal by the Minister to recommend to her Excellency the Governor of South Australia that an area corresponding with mining lease application and mineral claim 4473 be reserved pursuant to section 8 of the Act (meaning that those areas be excluded from the possibility of future applications under the Act). Following that recommendation, on 27 April 2023 her Excellency made the *Mining (Reservation from Act) Proclamation 2023 (SA)* reserving the land from the operation of parts 4, 5, 6, 6A, 8 and 8A of the Act.

In August 2023, Terramin filed legal proceedings in the Supreme Court of South Australia (Supreme Court) seeking judicial review of the refusal of the Applications and the making of the recommendation to the Governor.

On the 14th and 15th of October 2024, the matter was heard in the Supreme Court before the Chief Justice Chris Kourakis. The Chief Justice has reserved his decision.

The Angas site continued to be maintained in accordance with the DEM approved Mine Care and Maintenance Plan and is operating in compliance with its lease conditions.

Expenditure on the BIHGP and Angas site during the quarter was \$0.2 million (noting that this number includes care and maintenance costs at Angas).

KAPUNDA IN SITU COPPER RECOVERY PROJECT

25% free carried interest until completion of project thresholds

The Kapunda In Situ Copper Recovery Project is located near the township of Kapunda which is approximately 90km north of Adelaide. The project is focused on the recovery of copper and gold from a historical mining area through the use of in situ recovery. The project has a resource of 47.4 million tonnes at 0.25% copper containing 119,000 tonnes of copper.

During 2020, Terramin's joint venture partner, Environmental Copper Recovery Pty Ltd (ECR) earned a 50% interest in the project after spending \$2.0 million and has elected to earn a further 25% by spending an additional \$4.0 million. Subject to the completion of this expenditure, Terramin will retain 25% and receive a 1.5% royalty in respect of all metals extracted by the joint venture.

For personal use only

Following the successful completion of the Site Environmental Lixiviant Test (SELT) trial during the previous quarter, the Kapunda In-Situ Copper Recovery Project has established a new series of injection/extraction and monitoring bores. Copper mineralisation was intersected in the injection and extraction wells and samples have been submitted for assaying.

Meetings have been scheduled with various government departments to discuss the recent trial results and discuss any modifications required for the next phase of groundwork.

The next step in SELT trial is the construction phase for lixiviant circulation once approvals have been received which is expected in the coming months.

EXPLORATION PROJECTS

100% owned by Terramin and Terramin subsidiaries Terramin Exploration Pty Ltd or Menninnie Metals Pty Ltd unless otherwise disclosed as part of a joint venture arrangement

The Adelaide Hills Project consists of eight contiguous exploration tenements that cover 2,736km² and stretch from Lake Alexandrina to Kapunda. This project area is considered highly prospective for gold, copper, lead, zinc and rare earth elements.

Terramin's South Gawler Ranges Project is located along the southern margin of the Gawler Ranges, northern Eyre Peninsula, South Australia. The project comprises a group of eleven Exploration Licenses totaling 4,524km².

Adelaide Hills Project

No significant exploration activity has been undertaken during the quarter outside those activities detailed in this report in respect of the BIHGP and the Kapunda In Situ Copper Recovery Project.

South Gawler Ranges Project (SGRP) (Exploration Agreement with Japan Organization for Metals and Energy Security (JOGMEC))

In March 2022, Terramin entered into a \$10.5 million agreement with JOGMEC for exploration of the SGRP. The agreement was subsequently given FIRB approval in June 2022. To date, JOGMEC has expended in excess of \$1.5 million under the agreement and has earned a 30% interest option in the SGRP tenements.

Subsequent to the quarter, JOGMEC and Terramin have commenced a drilling program focusing on targets identified in earlier exploration programs undertaken under the agreement.

The exploration drilling program is focused on three target areas:

- MD131 located on EL 5949 (Menninnie Dam) approximately 2km south-southeast of the Menninnie Central Ag-Pb-Zn deposit, and 600 metres south-southeast of the Viper Ag-Pb-Zn lodes. It is anticipated that this drillhole will be drilled to a depth of approximately 1000 metres. It is targeting skarn-hosted Cu/Au mineralisation.
- BC3E01 located on EL 6413 (Kolendo), targeting coincident gravity and EM anomalies that potentially host Iron Oxide Copper Gold (IOCG) mineralisation. BC3E01 will be drilled to a depth of approximately 800 metres.
- BC1S01 located on EL 6412 (Mt Ive South) to test for IOCG mineralisation in dense conductive rocks beneath an epithermal quartz-hematite vein array. BC1S01 will be drilled to a depth of approximately 600 metres.

These activities are expected to be completed by mid to late November 2024.

Terramin's expenditure on the Adelaide Hills and South Gawler Ranges tenements was \$0.03 million.

1. Subject to an amalgamated expenditure arrangement with the Department for Energy and Mining (DEM) encompassing the Adelaide Hills tenements.
2. These tenements are subject to an exploration agreement with JOGMEC, and subject to an amalgamated expenditure arrangement with the DEM encompassing the Menninnie Metals (South Gawler Ranges) tenements. JOGMEC has earned a 30% interest in the SGRP tenements but has elected to defer the exercise until the end of Stage 2 or 3 Earn-in Periods. Stage 2 Earn-in Period has commenced.
3. The Mining Permit for Tala Hamza was issued on 10 May 2023 with an initial term of 10 years, which may be extended by application at the end of the initial 10-year period.

CORPORATE AND ENVIRONMENTAL PERFORMANCE

Terramin continued to pursue its safety and environmental goals during the quarter. There were no recordable injuries and no instances of non-compliance with relevant safety or environmental regulation or lease conditions.

During the quarter, no equity was issued.

As at 30 September 2024, the Company's total cash balance was \$0.3 million.

Subsequent to the end of the quarter, the Company's subsidiary, Terramin Exploration Pty Ltd entered into an agreement with major shareholder Asipac Group Pty Ltd to re-establish the unsecured Standby Term (No. 2) Facility for \$1.0m, expiring on 31 January 2025.

During the quarter, Mr Alan Broome AM was appointed to the Board of Terramin as a Non-executive Director and Deputy Chair, as well as a member of both the Audit and Risk Committee and Nominations and Remuneration Committee. He has replaced Mr Michael Kennedy who has retired.

In reference to item 6.1 of the Appendix 5B for the quarter ended 30 September 2024, the Company paid \$37,500 to Mr Sheng and Mr Siciliano (related parties) in respect of their directors fees during the quarter.

This ASX release was approved by the Terramin Board.

Forward Looking Statements

This announcement includes certain “forward looking statements”. All statements, other than statements of historical fact, are forward looking statements that involve various risks and uncertainties. There can be no assurances that such statements will prove accurate, and actual results and future events could differ materially from those anticipated in such statements. Such information contained herein represents management’s best judgement as of the date hereof based on information currently available. Except for statutory liability which cannot be excluded, each of Terramin, its officers, employees and advisors expressly disclaim any responsibility for the accuracy or completeness of the material contained in this document and exclude all liability whatsoever (including in negligence) for any loss or damage which may be suffered by any person as a consequence of any information in this statement or any error or omission. The Company does not assume any obligation to update any forward-looking statement. Accordingly, no person or entity should place undue reliance on any forward looking statement.

Competent Persons Statement

The information in this report that relates to Exploration Results and Mineral Resources is based on information compiled by Mr Eric Whittaker (Tala Hamza and Exploration) and Mr Dan Brost (Bird-in-Hand), both being Competent Persons who are Member(s) of The Australasian Institute of Mining and Metallurgy (AusIMM). Mr Whittaker is employed as the Principal Resource Geologist of Terramin Australia Limited and Mr Brost is a geologist consulting to Terramin. Mr Whittaker and Mr Brost have sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as Competent Person(s) as defined in the 2012 Edition of the ‘Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves’. Mr Whittaker and Mr Brost consent to the inclusion in the report of the matters based on his information in the form and context in which it appears.

The information in this report that relates to Ore Reserves is based on information compiled or reviewed by Mr Luke Neesham, a Competent Person who is a Member of The Australasian Institute of Mining and Metallurgy (AusIMM). Mr Neesham is Principal Mining Engineer for GO Mining Pty Ltd a consulting firm engaged by Terramin Australia Limited to prepare mining designs and schedules for the Tala Hamza Feasibility Study. Mr Neesham has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the ‘Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves’. Mr Neesham consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

6.2	Aggregate amount of payments to related parties and their associates included in item 2	-
<i>Note: if any amounts are shown in items 6.1 or 6.2, your quarterly activity report must include a description of, and an explanation for, such payments.</i>		

Mining exploration entity or oil and gas exploration entity quarterly cash flow report

7.	Financing facilities	Total facility amount at quarter end \$A'000	Amount drawn at quarter end \$A'000
	<i>Note: the term "facility" includes all forms of financing arrangements available to the entity. Add notes as necessary for an understanding of the sources of finance available to the entity.</i>		
7.1	Loan facilities	27,184	27,184
7.2	Credit standby arrangements	-	-
7.3	Convertible note	9,861	9,861
7.4	Total financing facilities	37,045	37,045
7.5	Unused financing facilities available at quarter end		-
7.6	Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.		
	<p>At 30 September 2024, Terramin and its subsidiary, Terramin Exploration Pty Ltd (TZNEX) has secured Facility Agreements with major shareholder Asipac Group Pty Ltd (Asipac) totalling \$27.18m, incorporating the secured Standby Term Facility \$21.18m and Bird in Hand Facility \$6m, which were fully drawn at the reporting date. The facilities have a maturity date of 31 January 2025.</p> <p>Subsequent to the end of the quarter, the Company's subsidiary, Terramin Exploration Pty Ltd entered into an agreement with major shareholder Asipac Group Pty Ltd to re-establish the unsecured Standby Term (No. 2) Facility for \$1.0m, expiring on 31 January 2025.</p> <p>At 30 September 2024, the Company has an unsecured and unlisted US\$6.68 million (approximately A\$10.00 million) convertible note (Note) on issue. (<i>ASX Announcement issued on 2 January 2024: Terramin secures US\$6.68 million investment</i>). The Note has a term expiring 3 years from the issue date of 3 January 2024, an annual interest rate of 2.5% applies (non-compounding), the noteholder may decide to convert the note to fully paid ordinary shares in Terramin after 2 years from the issue date (lock-in period), and if not converted then the Note is repayable in cash denominated in USD (issue value plus interest) at maturity (the maturity date is 3 January 2027). Being denominated in USD, the settlement will be subject to a foreign exchange impact.</p>		

8.	Estimated cash available for future operating activities	\$A'000
8.1	Net cash from / (used in) operating activities (item 1.9)	(718)
8.2	(Payments for exploration & evaluation classified as investing activities) (item 2.1(d))	(30)
8.3	Total relevant outgoings (item 8.1 + item 8.2)	(748)
8.4	Cash and cash equivalents at quarter end (item 4.6)	335
8.5	Unused finance facilities available at quarter end (item 7.5)	-
8.6	Total available funding (item 8.4 + item 8.5)	335
8.7	Estimated quarters of funding available (item 8.6 divided by item 8.3)	0.45
	<i>Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.</i>	

Mining exploration entity or oil and gas exploration entity quarterly cash flow report

8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:

8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Answer: Yes.

8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer: During the quarter, the Company continued to hold discussions with potential financiers / investors with a number of financing options currently being considered.

The Company continues to seek support in the short-term from major shareholder Asipac Group Pty Ltd, a long-standing supporter of the Company, having already extended the expiry term of the abovementioned loan facilities to 31 January 2025, and re-establishing the unsecured finance facility for \$1.0M subsequent to the reporting date.

8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: Yes, refer to item 8.8.2 above.

Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.

Compliance statement

- 1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- 2 This statement gives a true and fair view of the matters disclosed.

Date: 25 October 2024.....

Authorised by: By the Board.....
(Name of body or officer authorising release – see note 4)

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
