### Ohmgebirge Development

In line with South Harz's streamlined low-cost optimisation approach, corporate and operational activities during the quarter were focused on:

- Progression of detailed due diligence and negotiation of definitive documentation for the purchase of the neighbouring Sollstedt mine property from Deusa International GmbH (**Deusa**) (refer ASX announcement dated 22 May 2024, *Landmark Sollstedt Mine Purchase, Ohmgebirge Pre-Feasibility Study and Maiden Ore Reserve*). - Qualification assessment for potential German R&D tax incentive rebates (supplementary working capital), with a preferred local adviser selected by South Harz post the Quarter end to assist with these activities, and complementary funding opportunities such as freight rail access and clean energy utilisation / critical minerals grants; and
- Evaluation of Definitive Feasibility Study funding pathways, including potential strategic partnership.

## Corporate

### Successful capital raising activities

In August 2024, South Harz announced the completion of an equity placement through the issue of 103,000,000 new shares to new and existing institutional and sophisticated investors at an issue price of A\$0.01 per share (**Placement**). The Placement included subscriptions by the South Harz Directors of A\$401,167 for 40,116,690 Placement Shares (**Director Placement Shares**). Within the subscriptions for the Director Placement Shares, the Company will offset A\$193,807 of creditor balances owing to the Directors. The creditor balances owed to the Directors are comprised of Director Loans of A\$100,000 (see further details below) and accrued and unpaid Non-Executive Directors fees totalling A\$93,807.

In addition to the Placement, South Harz also offered eligible shareholders the right to participate in a 1-for-3 pro-rata non-renounceable entitlement issue (**Entitlement Offer**) to raise approximately A\$3.0 million (before costs).

On 23 September 2024, South Harz announced the results of this Entitlement Offer where, of the 296,689,424 shares offered under the Entitlement Offer, 54,109,646 shares (representing new equity of A\$541,096) were applied for by eligible shareholders, including those subscribing for shares in excess of their entitlements. The Entitlement Offer also included participation by the South Harz Directors of approximately A\$107,061.

In total, approximately 18.2% of all shares on offer were applied for, leaving a shortfall of 242,579,778 Shares (**Shortfall Shares**).

Following the completion of the Entitlement Offer, South Harz announced on 8 October 2024 that it had secured additional binding commitments from:

1. Investors applying for 40,000,000 Shortfall Shares at A\$0.01 to raise A\$400,000 under the shortfall offer of the prospectus dated 9 August 2024 (**Shortfall Offer**), and
2. Mr Len Jubber (Executive Chairman) to subscribe for 5,000,000 new shares at A\$0.01 (being A\$50,000) via a private placement on the same terms as the Shortfall Shares (**Director Shortfall Shares**)

The issue of the Director Placement Shares and the Director Shortfall Shares is subject to receipt of shareholder approval at the Company's 2024 Annual General Meeting, which is to be held during November.

Summarizing the above, as at the date of this report, the Company has in aggregate issued new shares or has received binding commitments for approximately \$2.0 million of new equity as a result of its capital raising activities since the beginning of the Quarter.

The Company engaged Martin Place Securities Pty Ltd (ACN 159 611 060) (AFSL 291787) to act as lead manager to the Placement, Entitlement Offer and Shortfall Offer. Subsequent to the end of the Quarter, the lead manager advised that following an internal reorganisation, the mandate had been assigned to Martin Place Group Pty Ltd (ACN 681 213 294) under the terms of the lead manager agreement.

Further activities targeting placement of residual shares under the Shortfall Offer (being 202,579,778 shares) remain ongoing.

**About South Harz Potash: Responsible potash mine development in the heart of the European market**

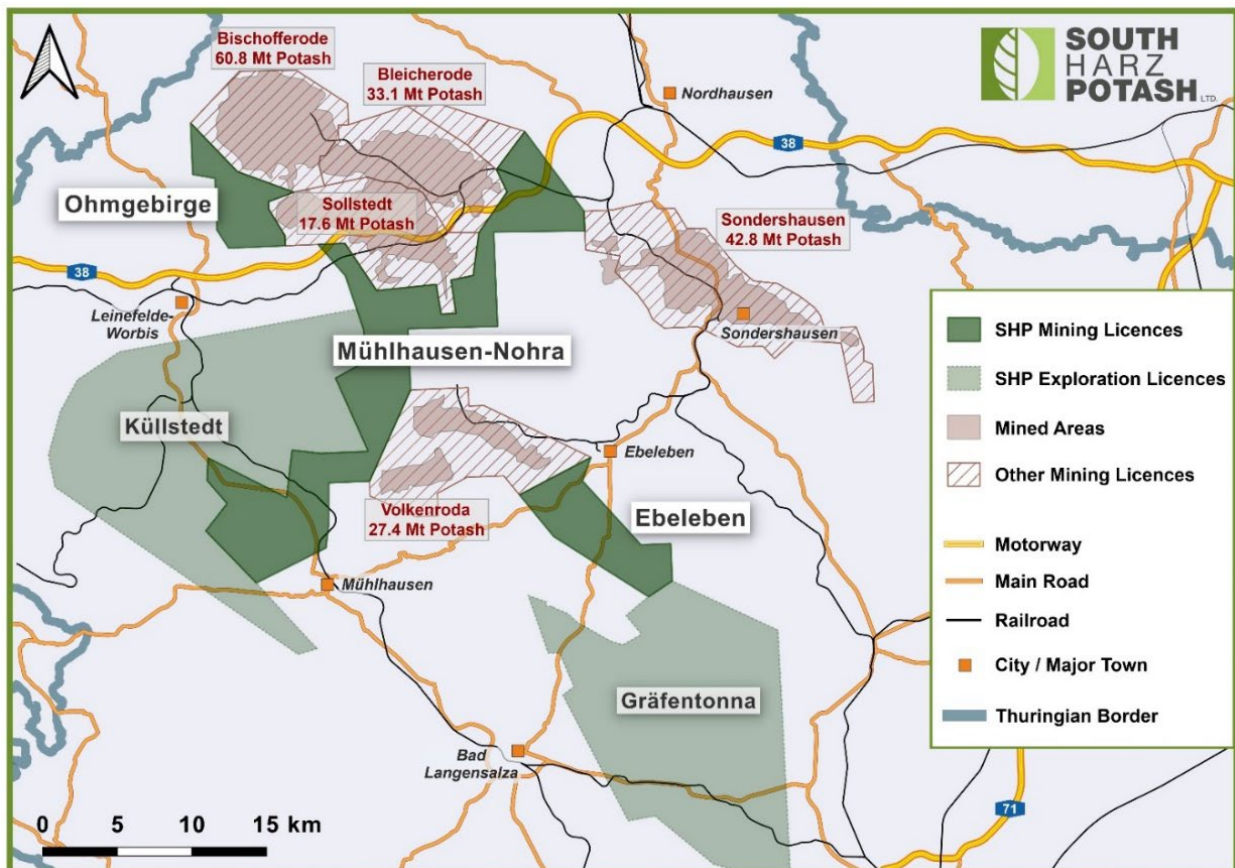

South Harz is a potash exploration and development company with its flagship project located in the historic South Harz Potash District region of Germany, midway between Frankfurt and Berlin.

The South Harz Project hosts a globally large-scale potash JORC (2012) Mineral Resource estimate of 258 million tonnes at 13.2% K<sub>2</sub>O of Indicated Resources and 5.1 billion tonnes at 10.6% K<sub>2</sub>O of Inferred Resources across four wholly-owned project areas located favourably within central Europe. This comprises three perpetual potash mining licences, Ohmgebirge, Ebeleben and Mühlhausen-Nohra, and two potash exploration licences, Küllstedt and Gräfen-tonna.

The flagship Ohmgebirge Development (1.0 Mtpa potash capacity) was the subject of a positive Pre-Feasibility Study (PFS) and maiden Ore Reserve declaration in May 2024. As part of that process, South Harz also agreed non-binding key terms for the purchase of the neighbouring Sollstedt mine property, which includes extensive underground and surface infrastructure (including multiple operating shafts). The envisaged brownfield development of Ohmgebirge (as facilitated by the Sollstedt mine) delivers significantly lower pre-production capital expenditure and surface footprint (relative to the greenfield alternatives).

South Harz also received the Spatial Planning Assessment for Ohmgebirge in June 2024, a key step in the permitting process which confirmed the compatibility of all submitted site options with regional planning requirements. [www.southharzpotash.com](http://www.southharzpotash.com)

8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:

8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Answer: No. Expenditures on operating activities have decreased significantly compared to previous quarters following the conclusion of the Pre-Feasibility Study and the movement by SHP to a lower cost structure focussed on internal project optimisation (as previously announced). Corporate and project related expenditure, and working capital requirements for the coming quarters is intended to be funded via continued progression of the capital raising activities announced during the Quarter. In addition, the Company is continuing with its efforts to evaluate strategic alternatives towards funding a definite feasibility study (DFS) for the Ohmgebirge Potash Development.

8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer: Yes. See 8.8.1 above in relation to fund-raising activities currently in progress. In particular the fund-raising activities include commitments by:

- i. the South Harz Directors for 40,116,690 placement shares, subject to shareholder approval at the forthcoming AGM (refer ASX announcement dated 1 August 2024, *A\$4.0 million to advance Ohmgebirge Potash Development*);
- ii. the Executive Chairman, Mr Len Jubber for 5,000,000 shortfall shares, subject to shareholder approval at the forthcoming AGM (refer ASX announcement dated 8 October 2024, *New Equity Commitments of A\$450,000 Received*); and
- iii. investors for 40,000,000 shortfall shares (refer ASX announcement dated 8 October 2024, *New Equity Commitments of A\$450,000 Received*).

8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: Yes. SHP expects to be able to successfully raise the necessary funds via the current fund-raising processes underway.

*Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.*
