

## Titan to Get Cracking after \$20m Placement

Titan Minerals Limited (ASX: TTM) (“Titan” or the “Company”) is pleased to advise it has received firm commitments from institutions and sophisticated investors for a placement to raise \$20 million (before costs). The Placement was strongly supported by Tribeca, one of the Company’s existing large shareholders, who has scaled up, as well as other new domestic and international investors looking to support the Company’s growth aspirations in Ecuador.

Titan CEO, Melanie Leighton commented:

*“The quantum and quality of the Placement is a fantastic outcome, giving Titan real capacity to get on with our strategy to expand our exciting Dynasty Gold-Silver Project in southern Ecuador, where we have already established resources of 3.1 million oz of gold and 22 million oz of silver- extending from surface. Our recent exploration has delineated many new targets, and we have an aggressive drill program underway, aimed at significantly expanding our resource base. With funding secured, we now have a clear runway and are set to deliver strong results and growth in the coming 12 months.*”

*In parallel, our JV partner Hanrine (subsidiary company of Hancock Prospecting), is completing a major drill program at our Linderos Copper Project, and our wholly owned Copper Duke Project also boasts several exciting porphyry copper targets set to be drill tested in 2025.”*
