ASX Announcement: 9th December 2024

APPOINTMENT OF HIGHLY EXPERIENCED CEO TO DRIVE WA GOLD STRATEGY

Asra Minerals Limited (ASX: ASR; “Asra” or “the Company”) is pleased to announce the appointment of **Mr Paul Stephen as Chief Executive Officer**, effective immediately.

Mr Stephen has a Bachelor of Commerce degree from the University of Western Australia, has held directorships across both ASX, Canadian and London Stock Exchange listed companies, and has a strong knowledge of operations and compliance across multiple jurisdictions.

Mr Stephen was the co-founder and Executive Director of Crusader Resources Ltd, where he oversaw the discovery, development and operations of the Posse Iron Ore mine in Brazil. In addition, Mr Stephen managed the discovery and delineation of over 2.8 million ounces of gold for Crusader while operating in Brazil.

With a strong track record of delivering projects from discovery through to fully permitted and operational mines, as well as in-depth experience in commercial and corporate aspects required to successfully lead a publicly listed exploration company, in his role with Asra, Mr Stephen will utilise these skill sets to help drive shareholder value.

Asra’s Executive Chairman, Paul Summers commented:

“We are delighted to have Paul as the CEO at this important point in the Company’s development, to assist Asra in advancing its gold portfolio in the world class Leonora gold province. Paul brings a wealth of experience, having delivered projects from discovery through to production, which will help to ensure Asra successfully delivers the next phase of its project development.”

The Board is confident that Paul has the necessary experience and skill set to optimise Asra’s existing assets and to maximise its strategic options so as to deliver shareholder value.”

- ENDS -

This announcement has been authorised for release by the Board.

Competent Person Statement

The information in this report that relates to Exploration Results is based on information compiled by Mr. John Harris who is a full-time employee of the Company and is a member of the Australian Institute of Geoscientists. Mr. Harris has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Mr. Harris consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

The Information in this report that relates to the Orion-Sapphire Mineral Resources is based on information compiled by Mr Paul Payne, a Competent Person who is a Fellow of the Australasian Institute of Mining and Metallurgy and is an employee of Payne Geological Services. Mr Payne has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr Payne consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

Information on the gold JORC Mineral Resources presented for the Mt Stirling Project, together with JORC Table 1 information, is contained in the ASX announcement released on 25 February 2019, 29 January 2020 and 5 September 2022. The Company confirms that it is not aware of any new information or data that materially affects the information in the relevant market announcements, and that the form and context in which the Competent Persons findings are presented have not been materially modified from the original announcements. Where the Company refers to Mineral Resources in this announcement (referencing previous releases made to the ASX), it confirms that it is not aware of any new information or data that materially affects the information included in that announcement and all material assumptions and technical parameters underpinning the Mineral Resource estimate with that announcement continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Persons findings are presented have not materially changed from the original announcement.
