Mindoolah Gold Mining Centre Heritage Survey Completed

HIGHLIGHTS

- ☆ **Heritage Survey for upcoming RC drill program completed**
- ☆ **Survey covers potential high-grade gold targets**
- ☆ **Survey results expected within six weeks**
- ☆ **Pending heritage approvals, drilling expected to commence early 2025**

Westar Resources Limited (ASX: **WSR**) (**Westar** or the **Company**) is pleased to announce the completion of the Heritage Survey at the Mindoolah Gold Mining Centre, part of the Mindoolah Gold Project (**Mindoolah** or the **Project**) located 70km from Cue, WA (Figure 1).

The survey, conducted by the Wajarri Yamatji Aboriginal Corporation, involved six Traditional Owners alongside archaeological and anthropological consultants. Representing Westar were CEO Jason Boladeras and Exploration Manager Steve Sheppard. The survey covered the area of Westar's proposed inaugural RC drill program, targeting high-priority gold targets identified through historical data, mapping, sampling, and geological interpretation.

A preliminary heritage survey report is expected within six weeks.

Westar CEO and Executive Director Jason Boladeras commented:

"Westar appreciates the efforts of everyone who contributed to completing this important milestone before the end of the year. With heritage approvals pending, we are looking forward to beginning our first drill program in early 2025 to explore the potential for gold mineralisation continuing along strike and down-dip from historical workings and open pits."

Westar will provide an update on the heritage survey results, which if successful, will include the timeline for the drill program's commencement in the first quarter of 2025.
