

ASX Release

Appendix 4C – Q4 2024 Quarterly Cash Flow Report

24 January 2025 – Melbourne, Australia – Oneview Healthcare PLC (ASX:ONE) (“Oneview” or “the Company”), a global healthcare technology company, today released its Appendix 4C – Quarterly Cashflow report for the quarter ending 31 December 2024 (Q4 24) and provided an update on business activities.

Financial Highlights

Oneview's cash balance on 31 December 2024 was €13.8 million (A\$23.2m).

The Company raised additional equity capital during the quarter, including the placement of CHES depositary interests over fully paid ordinary shares in the Company (CDIs) to institutional and sophisticated investors, which raised A\$20m in gross proceeds on 21 November 2024. The Company also completed an over-subscribed Security Purchase Plan (SPP) in December 2024 which raised A\$3.0m in gross proceeds. The aggregate net proceeds of approximately €13.3 million (approximately A\$22.0 million) strengthens the balance sheet as deployment of the direct pipeline of contracted beds continues and as sales under the recently extended and expanded Baxter partnership ramps up. The proceeds will also fund Oneview's critical growth initiatives related to its AI strategy and internal configuration tooling to enable more efficient deployment at scale.

The Company had a net operating cash outflow of €4.1m during the quarter compared to an outflow of €0.1 million in the same quarter of the prior year. The higher outflow is primarily due to the timing of customer receipts, with two large customer receipts totalling over €2 million in aggregate received during the first weeks of January 2025. Product manufacturing and operating costs were higher in the quarter due to the payment of €386,000 for the expedited delivery of additional OEM hardware from a US supplier that manufactures in China, to mitigate against the risks of changes in global tariffs or delayed deliveries because of these possible changes. Marginally higher staff and admin costs for the quarter also contribute to the higher outflow as the Company resources the fulfilment of recent new signings and the Baxter pipeline.

In accordance with ASX Listing Rule 4.7C, payments made to related parties and their associates included in item 6.1 of the Appendix 4C. Payments to related parties of the entity and their associates in the quarter were comprised of directors' fees and salaries totalling €176,000 (A\$287,000).

Operational Activities

Baxter Partnership

As previously announced, Oneview signed a 2-year extension to Oneview's Value-Added Reselling Agreement with Baxter International, Inc. ("Baxter"), until June 2027 during the quarter. We continue to see growing momentum in this partnership with progress in product innovation and integration as well as sales opportunities and pipeline advancement with Oneview receiving POs from three new logos through the Baxter channel and one direct new logo during the quarter.

Direct Sales

Contracted beds increased by 23% during 2024 from 15,821 to 19,429. Live beds also increased by 23% during 2024 from 10,151 to 12,514. Note this live bed number is 770 beds or 7% ahead of the installation burn up forecast provided in the HY2024 earnings release. Alongside the significant momentum from the Baxter partnership, Oneview's record direct sales pipeline positions the company for significant growth in its contracted beds and its revenues during 2025.

Customer Implementations and Expansions

The Company continues its implementations in facilities contracted under recent agreements:

- Deployments of the core platform, the digital door sign and the digital whiteboard continued during the fourth quarter of 2024 at Inova Health under the Master Services Agreement which was signed in April 2024. A purchase order was recently received for another 316 beds which includes our core platform and the digital whiteboard which we expect to deploy during the first half of 2025.
- The deployment project at the Children's Hospital of Orange County also commenced during the quarter, where Oneview's new product, MyStay Mobile, will be deployed alongside in-room televisions across inpatient and outpatients points of care.
- A 235-bed deployment was completed at Mercy Ardmore in Oklahoma as part of the continued roll-out across a number of Mercy Health System sites.

Incremental deployments were also completed at existing customers during the quarter including UCSF, NYU and the University of Miami health systems.

2024 revenue was impacted by the postponement of projects by a large customer due to corporate activity and by construction delays in the Children's Hospital Ireland.

Outlook

CEO James Fitter commented, "With the unwavering support of our shareholders during the recent capital raise, we are uniquely positioned among our competitors as the most trusted and reliable care experience platform on the market. We can provide not just the product innovation and scalability but also the balance sheet strength to ensure we are the partner of choice for the world's most discerning healthcare systems."

Mr. Fitter added "We are very well positioned to exploit the significant commercial traction we are gaining in the market through our own direct sales channels and through the Baxter partnership during 2025. We look forward to the year ahead with confidence and excitement".

This announcement has been approved for release by the board of Oneview Healthcare plc.

About Oneview Healthcare plc

For healthcare systems who lead on exemplary care, Oneview Healthcare plc provides digital tools for patients, families and caregivers to improve the care experience. Unifying a facility's systems, content and services into one digital platform with dedicated devices at the point of care, Oneview helps deliver more control for patients and families, more time for care teams, and less complexity for executives and IT teams. Oneview is proud to partner with leading healthcare systems in the US, Australia, Ireland, the Middle East and Asia to unify the care experience, in over 80 hospitals.

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standard applies to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
