Quarterly Activities Report & Appendix 4C for December 2024 Quarter

Highlights

- A strong start to FY25 (September year-end) with a record December quarter for the company
- 26% increase in cash receipts and 17% increase in revenue, whilst operating expenses held to a 1% increase, positioning the business for accelerated operating leverage in 2025 and beyond
- The company has had a strong selling season with 59 new schools signed for 2025 across the VET-in-Schools and eBooks divisions
- Strong selling season complemented by further improvement of retention rates for existing school customers in eBooks to 93% and significant growth initiatives in the VET-in-Schools division
- The company is now positioned to financially benefit from its recent achievements as the seasonally strong March and June quarters are delivered

ReadCloud Limited ("ReadCloud" or "the Company") (ASX: RCL) provides eLearning solutions to secondary schools and the Vocational Education and Training ("VET") sector in Australia.

Trading update

The Company is building on its breakthrough positive underlying EBITDA and operating cashflow results for FY24.

ReadCloud's sustained focus on customer-facing activities is driving positive outcomes. Customers are identifying value in how ReadCloudVET integrates ReadCloud's proprietary eBooks technology with proprietary learning and assessment materials customised for the secondary school setting.

Momentum continues to accelerate in the high margin VET-in-schools ("ReadCloudVET") business. 52 new schools have joined ReadCloudVET for 2025 with plans to deliver 79 qualifications, a 55% increase over 2024.

ReadCloud is now forecasting FY25 VET-in-schools revenue growth to exceed 25% and gross margins to remain above 90%. This is expected to be delivered by growth in revenue of 10%-15% from the existing customer base, complemented by revenue from newly onboarded schools.

VET-in-schools pre-sales for 2026 suggest growth of new customers will continue to accelerate.

The eBooks revenue base is also expected to grow as a result of incremental growth from existing customers and the addition of new schools in 2025.

Southern Solutions, ReadCloud's industry training business, continues to trade strongly, consolidating its materially improved performance in FY24.

Finance Update

The accompanying Appendix 4C Cash Flow statement contains detail on specific line items. The highlights are:

- Receipts from customers increased 26% on pcip to \$2.41m (a record December quarter). As illustrated, the December quarter is a lower relative contributor to annual group revenue than the materially larger March and June quarters:

- Operating costs increased 1% on pcip. The cost mix was broadly in line with pcip with staff costs continuing to be the most material contributor.
- Net operating cash outflow for the quarter was \$0.35m as expected, an improvement of 35% on pcip.

- Payments to related parties (item 6.1 of the attached Appendix 4C) consisted of remuneration paid to directors during the quarter.

As at 31 December 2024 ReadCloud had cash reserves of \$1.07 million and no debt, placing the Company in a strong cash position leading into the March and June quarters when the majority of the revenue is received from customers.

The Company's Appendix 4C Cash Flow Statement accompanies this report.

The Board of ReadCloud Limited has approved the release of this announcement.
