HIGHLIGHTS

Apurimac Iron Ore Project (Peru)

- Environmental Impact Assessment (EIA) submission for **Opaban 1 Concession** drilling program to support further resource definition and exploration submitted.
- Community and stakeholder engagement continues with sponsorship of Apurimac Business Leaders Forum in Andahuaylas. Stakeholder workshops also conducted to address local needs including infrastructure and farming assistance.
- Meetings held with Peruvian Government officials at IMARC and in Peru to progress development plans relating to the Andahuaylas-Marcona Railway.
- Ongoing discussions with international firms for potential offtake agreements and project financing.

Corporate

- On 25 October 2024, Lithium Energy Limited shares suspended from ASX pursuant to the disposal of Lithium Energy's main undertaking (being the Solaroz Project).
- On 6 December 2024 Lithium Energy and CNGR agreed to amend the terms of the Solaroz Sale (Amended Agreement).
- On 20 January 2025, CNGR paid Lithium Energy US\$6 million as second deposit pursuant to the Amended Agreement with US\$55.2 million outstanding, to be paid in 2 tranches.
- Strike Resources holds a 27.7% stake in Lithium Energy Limited (ASX:LEL).

About Strike Resources Limited (ASX:SRK)

Strike Resources Limited (ASX:SRK) is an ASX listed resource company which owns the high grade Apurimac Iron Ore Project in Peru where it has exported "Apurimac Premium Lump" DSO product of ~65% Fe. Strike also has a 27.7% (31.01 million shares) interest in Lithium Energy Limited (ASX:LEL), which was spun-out of Strike under a \$9 million IPO in May 2021. Lithium Energy is developing battery minerals related assets - the Solaroz Lithium Brine Project in Argentina and the Burke and Corella Graphite Projects in Queensland.

PROJECTS

Apurimac Iron Ore Project (Peru)

Strike's Apurimac Iron Ore Project in Peru is recognised as one of the highest-grade, large-scale magnetite projects in the world with the potential to support the establishment of a significant iron ore operation (refer Figure 1).

A JORC (2012) Indicated and Inferred Mineral Resource has been defined at the main Opaban 1 and Opaban 3 concessions, totalling **269 Mt of iron ore at 57.3% Fe (142 Mt Indicated Resource at 57.8% Fe and 127 Mt Inferred Resource at 56.7% Fe)**.¹

Strike has previously completed two shipments of high-grade (+65% Fe) Apurimac Premium Lump shipping iron ore (DSO) in 2021 to Chinese and South American steel mills.²

Strike continues to advance critical initiatives related to the Apurimac Project. While activities such as the recommencement of mining operations have been impacted by current market conditions, the Company remains focused on securing community support, progressing permitting processes, and exploring strategic partnerships to support the project's future development. Progress is influenced by market conditions and the regulatory landscape, with several initiatives poised for execution as market conditions improve.

Discussions with local artisanal miners and logistics providers are ongoing, aiming to formalise relationships for potential small-scale surface mining operations. These activities have been delayed due to current low iron ore prices, with plans to proceed as market conditions recover.

Strike has proactively engaged with local communities in the Apurimac region through business forums, community meetings, and sponsorship of social events. During the December Quarter, the Company sponsored the Apurimac Business Leaders Forum in Andahuaylas and held workshops to identify local needs, including infrastructure improvements and farming support. These activities form part of Strike's broader community relations strategy, which is integral to guiding future development plans.

Strike has initiated a permitting process for an area within the **Opaban 1 Concession** to conduct a drilling program to aid in further resource definition and exploration at Apurimac. A submission for a reduced Environmental Impact Assessment (**EIA**) pathway has been made to facilitate the approval process. While this is expected to streamline approvals, further permits for additional drilling and mining activities will be contingent on regulatory requirements and environmental reviews.

In October 2024, Strike Directors met with senior Peruvian Government officials, including the Minister of Energy and Mines and the Minister of Economy and Finance, at the International Mining and Resources Conference (**IMARC**) in Sydney.³ This meeting, facilitated by the Austrade Office in Peru, included discussions on:

- Strike's multi-faceted development plans for Apurimac;
- The Government's Andahuaylas-Marcona Railway project;
- Strike's potential role in the railway's development; and
- Possible Government support for advancing the Apurimac Project.

1 Refer Strike's ASX Announcement dated 20 January 2015: Apurimac Mineral Resources Updated to JORC 2012 Standard

2 Refer Strike's ASX Announcements dated 19 August 2021: Maiden Iron Ore Shipment from Peru and 29 October 2021: Second Iron Ore Shipment from Peru Completed

3 Refer Strike's ASX Announcements dated 12 November 2024: Peru Ministers Discuss Collaboration on Apurimac Development

The parties agreed to continue discussions in Peru. Subsequently, Strike's Peru team met with various Government officials and a Parliamentary Congressman representing the Apurimac region (also the President of the Energy and Mines Commission of Congress) to further discuss the development of Apurimac.

The resignation of the Minister of Energy and Mines in November 2024 introduces short-term uncertainty. Strike plans to engage with the incoming minister to maintain progress on regulatory matters and align with Government priorities for the mining sector.

Strike has continued discussions with international firms regarding potential offtake agreements and project financing. While these discussions remain ongoing, are subject to market conditions and no formal agreements have been reached, they represent significant opportunities for securing support for the project's development.

CORPORATE

Update on Investment in Lithium Energy Limited (LEL)

Strike has a 27.7% (31.01 million shares) interest in Lithium Energy Limited (ASX:LEL), which was spun-out of Strike under a \$9 million IPO in May 2021. Lithium Energy is developing battery minerals related assets - the Solaroz Lithium Brine Project in Argentina and the Burke and Corella Graphite Projects in Queensland.

Solaroz Lithium Brine Project, Argentina

Lithium Energy announced on 30 April 2024 that it had entered into a Share Sale Agreement (Solaroz SSA) with CNGR Netherlands New Energy Technology B.V. (CNNET), a subsidiary of CNGR Advanced Material Co. Ltd. (CNGR), in respect of the sale of Lithium Energy's 90% interest in Argentinian company, Solaroz S.A. (Solaroz) for consideration totalling US\$63 million (~A\$97 million) cash, which includes the assignment of a loan owed by Solaroz to Lithium Energy (Solaroz Sale).⁴

4 Refer to LEL ASX Announcement dated 30 April 2024: Sale of Solaroz Lithium Project for A\$97 Million

In connection with the Solaroz Sale, Lithium Energy has received a US\$1.8 million (~A\$2.8 million) first deposit and on 20 January 2025 received a second deposit of US\$6 million, with the balance of the US\$55.2 million (~A\$85 million) consideration payable by CNET.

Completion of the Solaroz Sale was to occur after the satisfaction (or waiver, as applicable) of a number of conditions precedent under the Solaroz SSA (**Conditions**) on or before 6 months after the date of the Solaroz SSA (i.e. by 25 October 2024) and may be extended by 60 days by either party under the Solaroz SSA.

With a number of the Conditions still outstanding, on 21 October 2024, CNET requested that the time for completion be extended by a further 60 days to 24 December 2024, as permitted under the Solaroz SSA.⁵

On 6 December 2024, Lithium Energy and CNGR agreed to amend the terms of the Solaroz Sale.⁶ Whilst the total purchase price of US\$63 million remains unchanged, under the amended and restated sale agreement (**the Amended Agreement**), the parties have agreed to remove all conditions precedent and CNGR will:

- Pay a second deposit of US\$6 million in January 2025 (following receipt of shareholder approval of the Amended Agreement – shareholder approval was received at the Lithium Energy general meeting of shareholders held on 15th January 2025⁷ and this money was subsequently received on 20 January 2025⁸) – this second deposit is non-refundable save in limited circumstances and the parties have agreed that the first deposit of US\$1.8 million (received in May 2024) is now fully non-refundable;
- Pay US\$26 million on 24 April 2025, upon which Lithium Energy will transfer a 39.9% shareholding in Solaroz to CNGR;
- Pay US\$21.7 million (together with the transfer of US\$3 million into a joint escrow account to be held for 12 months) on 9 January 2026, upon which Lithium Energy will transfer its remaining 50.1% shareholding in Solaroz to CNGR;
- Pay US\$4.5 million deferred consideration contingent on the Benchmark Lithium Carbonate Price exceeding US\$23,000/tonne; and
- Contribute up to US\$15 million (via unsecured loans repayable from future production) to fund Solaroz operations from 1 January 2025.

Burke and Corella Graphite Projects, Queensland

On 3 April 2024, Lithium Energy entered into a Share Sale and Purchase Agreement (Mt Dromedary SPA) with NOVONIX Limited (ASX:NVX) (NOVONIX) to acquire its high-grade Mt Dromedary Graphite Deposit, which is located directly adjacent to and is a continuation of the graphite mineralisation within the Company's Burke Graphite Deposit, in Queensland.⁹

5 Refer LEL ASX Announcement dated 22 October 2024: Timetable for Solaroz Sale Completion Extended by 60 Days

6 Refer LEL ASX Announcement dated 6 December 2024: Amended Terms of A\$97 Million Sale of Solaroz Project

7 Refer LEL ASX Announcement dated 15 January 2025: Results of General Meeting - 15 January 2025

8 Refer LEL ASX Announcement dated 20 January 2025: US\$6 Million Received as Second Deposit for Solaroz Sale

9 Refer LEL ASX Announcement dated 3 April 2024: Merger of Lithium Energy and NOVONIX Natural Graphite Assets and Proposed Axon Graphite Limited Spin-Out and IPO

Lithium Energy and NOVONIX will spin-out their consolidated high-grade graphite assets via an Initial Public Offering (IPO) by Axon Graphite Limited (proposed ASX Code: AXG) (Axon Graphite) (currently a subsidiary of Lithium Energy) to form a distinct vertically integrated Battery Anode Material (BAM) business in Queensland, Australia.

The Axon Graphite IPO Prospectus is currently being finalised in preparation for lodgement with ASIC.

Suspension of Trading from ASX

On 25 October 2024, ASX determined that Lithium Energy did not have a sufficient level of operations to warrant the continued quotation of its securities in the context of the agreement to dispose of its main undertaking (being the Solaroz Project) and suspended the Company's securities from trading on ASX.¹⁰

Lithium Energy expects that the suspension will remain in place until it has satisfied ASX that it has a sufficient level of operations to justify the reinstatement of quotation of its shares on ASX and/or is otherwise compliant with the Listing Rules of the ASX.

¹⁰ Refer LEL ASX Announcement dated 25 October 2024: ASX Decision to Suspend Trading in LEL Securities

Summary of Expenditure Incurred

A summary of expenditure incurred by the Consolidated Entity during the quarter, in relation to cash flows from operating and investing activities reported in the Appendix 5B Cash Flow Report is as follows:

For Current Quarter ending 31 December 2024	Consolidated Entity Cash Outflows		
	Operating \$'000	Investing \$'000	Total \$'000
Exploration and evaluation expenditure	(10)	94	84
Development	-	-	-
Personnel expenses	170	-	170
Occupancy expenses	29	-	29
Corporate expenses	154	-	154
Administration expenses	61	-	61
Other Apurimac Project (Peru) operating costs	258	-	258
Total Expenditure	662	94	756

Payments to Related Parties

During the quarter, Strike paid a total of \$165k in respect of Directors' remuneration, comprising salaries, fees, PAYG remittances to the ATO and statutory employer superannuation contributions. This is disclosed in Item 6 of the accompanying Appendix 5B Cash Flow Report.

For personal use only

LIST OF MINERAL CONCESSIONS

The following mineral concessions were held as at the end of the quarter and currently:

Apurimac Iron Ore Project (Peru)

Concession Name	Area (Ha)	Province	Code	Title	File No
Opaban I	999	Andahuaylas	5006349X01	No 8625-94/RPM Dec 16, 1994	20001465
Opaban III	990	Andahuaylas	5006351X01	No 8623-94/RPM Dec 16, 1994	20001464
Cristoforo 22	379	Andahuaylas	010165602	RP2849-2007-INGEMMET/PCD/PM Dec 13, 2007	11067786
Ferrum 31	327	Andahuaylas	010552807	RP 1266-2008-INGEMMET/PCD/PM May 12, 2008	11076509
Wanka 01	100	Andahuaylas	010208110	RP 3445-2010-INGEMMET/PCD/PM Oct 18,2010	11102187

JORC MINERAL RESOURCES

Apurimac Iron Ore Project (Peru)

The Apurimac Project has a JORC Mineral Resource of 269.4 Mt, consisting of:

- a 142.2 Mt Indicated Mineral Resource at 57.8% Fe; and
- a 127.2 Mt Inferred Mineral Resource at 56.7% Fe.

Category	Concession	Density t/m ³	Mt	Fe%	SiO ₂ %	Al ₂ O ₃ %	P%	S%
Indicated	Opaban 1	4	133.71	57.57	9.46	2.54	0.04	0.12
Indicated	Opaban 3 *	4	8.53	62.08	4.58	1.37	0.07	0.25
Inferred	Opaban 1	4	127.19	56.7	9.66	2.7	0.04	0.2
Total Indicated and Inferred			269.4	57.3	9.4	2.56	0.04	0.16

Refer Strike's ASX Announcement dated 20 January 2015: Apurimac Mineral Resources Updated to JORC 2012 Standard.

* The Opaban 3 Mineral Resource has been diminished by production and sales of 50,095 tonnes of lump iron ore grading 65.78% Fe, 2.42% SiO₂, 0.72% Al₂O₃, 0.057% P and 0.09% S.

JORC CODE COMPETENT PERSON'S STATEMENT

JORC Code (2012) Competent Person Statement - Apurimac Project Mineral Resources

The information in this document that relates to Mineral Resources in relation to the Apurimac Iron Ore Project (Peru) is extracted from the following ASX market announcement made by Strike Resources Limited on:

- 20 January 2015: Apurimac Mineral Resources Updated to JORC 2012 Standard.

The information in the original announcement that relates to these Mineral Resources and other Exploration Results (as applicable) is based on, and fairly represents, information and supporting documentation prepared by Mr Ken Hellsten, B.Sc. (Geology), who is a Fellow of the Australasian Institute of Mining and Metallurgy (AusIMM). Mr Hellsten was a principal consultant to Strike Resources Limited and was also formerly the Managing Director of Strike Resources Limited (between 24 March 2010 and 19 January 2013). Mr Hellsten has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves' (the **JORC Code**). The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcement. The Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcement.

The Strike ASX market announcement referred to above may be viewed and downloaded from the Company's website: www.strikeresources.com.au or the ASX website: www.asx.com.au under ASX code "SRK".

FORWARD LOOKING STATEMENTS

This document contains "forward-looking statements" and "forward-looking information", including statements and forecasts which include without limitation, expectations regarding future performance, costs, production levels or rates, mineral reserves and resources, the financial position of the Company, industry growth and other trend projections. Often, but not always, forward-looking information can be identified by the use of words such as "plans", "expects", "is expected", "is expecting", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates", or "believes", or variations (including negative variations) of such words and phrases, or state that certain actions, events or results "may", "could", "would", "might", or "will" be taken, occur or be achieved. Such information is based on assumptions and judgements of management regarding future events and results. The purpose of forward-looking information is to provide the audience with information about management's expectations and plans. Readers are cautioned that forward-looking information involves known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company and/or its subsidiaries to be materially different from any future results, performance or achievements expressed or implied by the forward-looking information. Such factors include, among others, changes in market conditions, future prices of minerals/commodities, the actual results of current production, development and/or exploration activities, changes in project parameters as plans continue to be refined, variations in grade or recovery rates, plant and/or equipment failure and the possibility of cost overruns. Forward-looking information and statements are based on the reasonable assumptions, estimates, analysis and opinions of management made in light of its experience and its perception of trends, current conditions and expected developments, as well as other factors that management believes to be relevant and reasonable in the circumstances at the date such statements are made, but which may prove to be incorrect. The Company believes that the assumptions and expectations reflected in such forward-looking statements and information are reasonable. Readers are cautioned that the foregoing list is not exhaustive of all factors and assumptions which may have been used. The Company does not undertake to update any forward-looking information or statements, except in accordance with applicable securities laws.

Notes

1. The Company currently holds the following listed share investments:

ASX code	Company	31-Dec-24		
		No Shares	Last Bid Price	Market Value
LEL	Lithium Energy Limited	31,010,000	\$0.350	\$10,853,500

2. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
3. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, AASB 6: Exploration for and Evaluation of Mineral Resources and AASB 107: Statement of Cash Flows apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
4. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
5. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee"
6. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's Corporate Governance Principles and Recommendations, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
