Financial Overview

The result was delivered against a complex macro environment with ongoing disruption in the automotive industry. It demonstrated the resilience of the group's diversified business and the value we provide to our customers.

Infomedia's NPATA² increased by 11% to \$10.5 million and total revenue increased by 2% to \$71.2 million. We continue to see growth across our diversified product suite, with recurring revenue of \$70.7 million, an increase of 3% on pcp.

Exit Annual Recurring Revenue (ARR)², our measure of growth on a constant currency basis, was \$141.4 million, a 1% increase on pcp. Annual Recurring Costs (ARC)² for the half were \$102.6 million, also a 1% increase on pcp.

Underlying free cash flow² was \$17.2 million, an increase of 62% on pcp.

The group has a solid balance sheet with \$78 million cash on hand and no debt, providing flexibility for continued growth.

Operational Overview

We continued our investments in the initiatives required to enable the business to transition to the Scale phase. The main initiatives that have been completed during the half are:

- Strengthening of the Leadership teams in both the EMEA and Americas regions through the appointments of a new head of EMEA who joined in December 2024, and a new head of Americas who will join during 2H25
- Bolstered our R&D capacity whilst maintaining margins by continuing to offshore R&D resources where appropriate
- Finalised the joint data landing between SimplePart and Microcat, which has freed up resources allowing us to invest in other product solutions without increasing our cost base

The initiatives where work is still ongoing are:

- Rebuild of Infodrive CX's tech stack to make the product globally scalable. The pipeline of future revenue opportunities for this product continues to increase
- Global roll-out of our customer success program
- Upgrade and strengthening of our global enterprise systems
- Expansion of our existing products into new market segments and acceleration our global expansion

Commenting on the business performance, Mr Monsees stated: "As a tech company, Infomedia is focused on ongoing product innovation, delivering additional value for customers, and driving efficiency. As we focus on the remaining initiatives in the Strengthen phase, the company continues to invest whilst demonstrating strong operating discipline."

Outlook and Guidance

Our three main priorities over the coming period are: the strengthening the regional sales team in EMEA and Americas, the rebuild of Infodrive CX tech stack and the integration of Intellegam.

Infomedia reaffirms guidance of total revenue in the range of \$142 million to \$149 million, with stable margins⁴.

Separately, Infomedia announced today that it will conduct an on-market buyback of up to 5% of the Company's issued capital over the next 12 months.
