LETTER FROM THE CHIEF EXECUTIVE OFFICER

Dear Eligible Retail Shareholder

PYC Therapeutics Limited – Accelerated Non-Renounceable Entitlement Offer

On behalf of PYC Therapeutics Limited (**PYC** or **Company**), I am pleased to present you with an opportunity to participate in the retail component of a pro-rata accelerated non-renounceable entitlement offer to eligible shareholders on the basis of one (1) new share for every four (4) existing shares held which is intended to raise approximately A\$145.8 million (before costs) (**Entitlement Offer**).

The Entitlement Offer will comprise the issue of up to approximately 117 million new fully paid ordinary shares in PYC (**New Shares**) at an offer price of \$1.25 (**Offer Price**) per New Share, which represents a:

- 2.7% discount to the last traded price of A\$1.285 on 14 February;
- 2.2% discount to the Theoretical Ex-Rights Price (**TERP**)¹ of A\$1.28 per share; and
- 4.9% discount to the 5-day volume weighted average price of shares up to and including 14 February 2025.

Use of proceeds

The proceeds from the Entitlement Offer will be used to:

- progress PYC's first blinding eye disease drug candidate into late-stage human trials
- progress PYC's second blinding eye disease drug candidate into mid-stage human trials
- progress PYC's polycystic kidney disease drug candidate through early-stage human trials
- support progression of the Company's Phelan-McDermid Syndrome drug program into human trials

¹ The theoretical ex-rights price is theoretical price at which PYC shares should trade immediately after the ex-date for the Entitlement Offer. The TERP is a theoretical calculation only and the actual price at which PYC's shares trade immediately after the ex-date for the Entitlement Offer will depend on many factors and may not equal the TERP. TERP is calculated by reference to PYC's closing price of A\$1.285 on 14 February 2025.

- further drug discovery and platform development efforts
- general working capital and Entitlement Offer costs

The Retail Entitlement Offer is fully underwritten meaning the Company will raise the full \$145.8 million under the Offer.

Entitlement Offer

The Entitlement Offer comprises an accelerated institutional component (**Institutional Entitlement Offer**), and a retail component (**Retail Entitlement Offer**).

This document (**Retail Offer Booklet**) relates to the Retail Entitlement Offer only.

The Retail Entitlement Offer is fully underwritten. Refer to Section 4.5 for details of the Underwriting Agreement.

Institutional Entitlement Offer

As announced to ASX on 19 February 2025, the Institutional Entitlement Offer was successfully completed with PYC having received subscriptions for all New Shares that were available under the Institutional Entitlement Offer to raise approximately \$91 million (before costs). For more information, please see the Company's ASX announcement dated 19 February 2025 included in the Annexure.

Retail Entitlement Offer

Under the Retail Entitlement Offer, Eligible Retail Shareholders are entitled to subscribe for 1 New Share for every 4 Shares held on the Record Date at an Offer Price of \$1.25 per New Share. This is the same price per New Share that was offered to Eligible Institutional Investors who participated in the Institutional Entitlement Offer.

The Retail Entitlement Offer is expected to raise approximately \$55 million (before costs).

Eligible Retail Shareholders may also apply for additional New Shares at the Offer Price for up to 100% of their existing Entitlement (**Top-up Facility**). Additional New Shares will only be available where there is a shortfall between Applications received from Eligible Retail Shareholders and the number of New Shares proposed to be issued under the Retail Entitlement Offer. The Company retains the right to scale back Applications for additional New Shares at their discretion (refer to Section 4.4 of this Retail Offer Booklet for more information).

The Entitlement Offer is non-renounceable and therefore your Entitlements will not be tradeable on the ASX or otherwise transferable. This means that Eligible Retail Shareholders who do not take up their full Entitlement will not receive any payment or value for those Entitlements and their percentage holding in PYC will be reduced.

The number of New Shares to which you are entitled to subscribe for is detailed in the Entitlement and Acceptance Form.

5.2 Consider your personal investment objectives and circumstances

The Retail Entitlement Offer is being made pursuant to provisions of the Corporations Act (as modified by *ASIC Corporations (Non-Traditional Rights Issues) Instrument 2016/84*) which allows entitlement offers to be made without a prospectus.

This Retail Offer Booklet does not detail all of the information which may be required in order to make an informed decision regarding an application for New Shares offered under the Retail Entitlement Offer.

As a result, it is important for you to carefully read and understand the information on PYC and the Retail Entitlement Offer made publicly available and other PYC ASX announcements, prior to accepting all or part of your Entitlement or doing nothing in respect of your Entitlement. In particular, please refer to this Retail Offer Booklet and other announcements by PYC made available at www.asx.com.au (including announcements which may be made by PYC after publication of this Retail Offer Booklet).

Please consult with your stockbroker, accountant or other independent professional adviser if you have any queries or are uncertain about any aspect of the Retail Entitlement Offer. You should also refer to the "Key Risks" section in the Appendix of the Investor Presentation released to ASX which is included in the Annexure.

5.3 Options available to you

If you are an Eligible Retail Shareholder, you may do any one of the following:

- (a) take up all of your Entitlement (refer to Section 5.4) and also apply for additional New Shares under the Top-up Facility (up to a maximum amount of 100% of your Entitlement) or if you wish to take up all of your Entitlement only;
- (b) take up some but not all of your Entitlement (refer to Section 5.5);
- (c) do nothing, in which case all of your Entitlement will lapse and you will receive no value for those lapsed Entitlements (refer to Section 5.6).

Ineligible Retail Shareholders may not participate in the Retail Entitlement Offer.

PYC reserves the right to reject any Application that is received after the Retail Closing Date. The Directors reserve the right to issue any Shortfall under the Entitlement Offer at their discretion. For further information, please see Section 4.4.

PYC also reserves the right (in its absolute discretion) to reduce the number of New Shares issued to Eligible Retail Shareholders, or persons claiming to be Eligible Retail Shareholders, if PYC believes their claims to be overstated or if they or their nominees fail to provide information to substantiate their claims to PYC's satisfaction.

The Retail Closing Date for acceptance of the Retail Entitlement Offer is 5.00pm (Perth time) on 14 March 2025 (unless extended).

Further details regarding your options are provided below.

5.4 **Taking up all of your Entitlement and, if you wish, applying for New Shares under the Top-up Facility**

If you wish to take up all of your Entitlement, or take up all of your Entitlement and participate in the Top-up Facility, payment must be made by following the instructions set out on the personalised Entitlement and Acceptance Form.

Payment must be received by no later than 5.00pm Perth time on the Retail Closing Date.

Eligible Retail Shareholders who participate in the Retail Entitlement Offer will see their percentage holding in PYC stay the same if they take up all of their Entitlement.

If you apply to take up all of your Entitlement, you may apply to take up any additional New Shares in excess of your Entitlement via the Top-up Facility (refer section 4.5). Application Monies received by PYC in excess of the amount in respect of your Entitlement (**Excess Amount**) that is not eligible for the Top-up Facility, or is scaled back due to excess demand for the facility, will be refunded as set out below.

If your Application Monies include an Excess Amount for additional New Shares which exceed your Entitlement, you will be refunded (without interest) the amount of the overpayment after the Retail Closing Date. Refund amounts of less than \$2.00 will be disregarded.

Refund amounts, if any, will be paid in Australian dollars by direct credit to the nominated bank account as noted on the share register. No interest will be paid on refunded amounts.

Refer to Section 5.7 for the available payment options.

5.5 **Taking up part of your Entitlement and allowing the balance to lapse**

If you wish to take up part of your Entitlement, payment for the number of New Shares you wish to be allocated must be made by following the instructions set out on your personalised Entitlement and Acceptance Form.

If PYC receives an amount that is less than the Offer Price multiplied by your Entitlement, your payment will be treated as an Application for as many New Shares as your Application Monies will pay for in full. Alternatively your Application may not be accepted and as such your Application Monies will be refunded. Refund amounts of less than \$2.00 will be disregarded.

If you do not take up your Entitlement in full, any part of your Entitlement which you do not take up will lapse and you will not receive any New Shares under the Retail Entitlement Offer in respect of that part of your Entitlement. Refer to Section 5.7 for the available payment options.

5.6 **Entitlement not taken up**

If you do not wish to accept any of your Entitlement under the Retail Entitlement Offer, you do not need to do anything.

Your Entitlement to participate in the Retail Entitlement Offer is non-renounceable, which means it is non-transferrable and cannot be sold, traded on ASX or any other exchange, nor can the Entitlement be privately transferred.

You will not receive any value for the Entitlements you choose not to take up and they will lapse worthless.

By allowing part or all of your Entitlement to lapse, you will forgo any exposure to increases or decreases in the value of the New Shares had you taken up your Entitlement in full and you will not receive any value for any part of your Entitlement which lapses. Your interest in PYC will also be diluted.

5.7 Payment

The method of acceptance of the Retail Entitlement Offer will depend on your method of payment being:

- (a) by BPAY® (all Eligible Retail Shareholders); or
- (b) by EFT (for Eligible Retail Shareholders registered in New Zealand who do not have an Australian bank account and are unable to submit payment via BPAY®).

It is your responsibility to ensure that your BPAY® payment is received by the Share Registry by no later than the Retail Closing Date. You should be aware that your financial institution may implement earlier cut-off times with regard to electronic payment and you should therefore take this into consideration when making payment.

(d) Payment by EFT (New Zealand only)

For payment by EFT, please follow the instructions on the personalised Entitlement and Acceptance Form.

When paying by EFT, please make sure you use the specific account details and your Unique Reference Number on your personalised Entitlement and Acceptance Form. - (iii) if you pay more than is required to subscribe for your Entitlement, you will be taken to have applied for both your Entitlement and to have subscribed for the Top-up Facility (see Section 5.4). It is your responsibility to ensure that your EFT payment is received by the Share Registry by no later than the Retail Closing Date. You should be aware that your financial institution may implement earlier cut-off times with regard to electronic payment, and, therefore, you should take this into consideration in the timing of when you make payment.

5.8 Application Monies

Application Monies will be held on trust for Applicants until allotment of the New Shares. Interest earned on Application Monies will be for the benefit of the Company. No interest will be paid on any Application Monies received or refunded.

5.9 Entitlement and Acceptance Form is binding

Completing and returning your personalised Entitlement and Acceptance Form or paying any Application Monies by EFT or BPAY® will be taken to constitute a binding acceptance of New Shares on the terms and conditions set out in this Retail Offer Booklet and, once lodged or paid, cannot be withdrawn.

If the Entitlement and Acceptance Form is not completed correctly, it may still be treated as a valid application for New Shares. The Directors' decision whether to treat an acceptance as valid and how to construe, amend or complete the Entitlement and Acceptance Form is final.

5.11 Notice to nominees and custodians

The Retail Entitlement Offer is being made to all Eligible Retail Shareholders. Nominees with registered addresses in the eligible jurisdictions, irrespective of whether they participate under the Institutional Entitlement Offer, may also be able to participate in the Retail Entitlement Offer in respect of some or all of the beneficiaries on whose behalf they hold Existing Shares, provided that the applicable beneficiary would satisfy the criteria for an Eligible Retail Shareholder.

Nominees and custodians who hold Existing Shares as nominees or custodians will have received, or will shortly receive, a letter from PYC. Nominees and custodians should carefully consider the contents of that letter and note, in particular, that the Retail Entitlement Offer is not available to, and they must not purport to accept the Retail Entitlement Offer in respect of:

- (a) beneficiaries on whose behalf they hold Existing Shares who would not satisfy the criteria for an Eligible Retail Shareholder;
- (b) Eligible Institutional Shareholders who received an offer to participate in the Institutional Entitlement Offer (whether they accepted their Entitlement or not);
- (c) Ineligible Institutional Shareholders who were ineligible to participate in the Institutional Entitlement Offer; or
- (d) Shareholders who are not eligible under all applicable securities laws to receive an offer under the Retail Entitlement Offer.

In particular, persons acting as nominees for other persons may not take up Entitlements on behalf of, or send any documents relating to the Retail Entitlement Offer to, any person in the United States.

PYC is not required to determine whether or not any registered holder is acting as a nominee or the identity or residence of any beneficial owners of Shares. Where any holder is acting as a nominee for a foreign person, that holder, in dealing with its beneficiary, will need to assess whether indirect participation by the beneficiary in the Retail Entitlement Offer is compatible with the terms of the Retail Entitlement Offer and applicable foreign offer restrictions. In particular, without the consent of the Company, nominees and custodians may participate in the Retail Entitlement Offer only on behalf of beneficial holders with addresses in Australia and New Zealand who were not invited to participate in the Institutional Entitlement Offer.

5.12 Risks

Eligible Retail Shareholders should be aware that an investment in PYC involves risks. The key risks identified by PYC are set out in the 'Key risks' section of the Investor Presentation included in the Annexure.

5.13 Enquiries

If you have not received or you have lost your personalised Entitlement and Acceptance Form, or have any questions regarding the Entitlement Offer, please contact Automic Share Registry on 1300 288 664 (within Australia) or +61 2 9698 5414 (International) from 5.30am to 5.00pm (Perth time) Monday to Friday or email corporate.actions@automicgroup.com.au during the Retail Entitlement Offer Period.

If you have any further questions, you should contact your stockbroker, solicitor, accountant or other professional advisor.

6 Additional Information

6.1 Eligibility of Retail Shareholders

The Retail Entitlement Offer is being offered to all Eligible Retail Shareholders only.

Eligible Retail Shareholders are those persons who:

- (a) are registered as holders of Existing Shares as at 4.00pm Perth time on the Record Date (being, Wednesday, 19 February 2025);
- (b) have a registered address recorded on PYC's share register in Australia or New Zealand;
- (c) are not in the United States and are not a person (including nominees or custodians) acting for the account or benefit of a person in the United States;
- (d) were not invited to participate in the Institutional Entitlement Offer and were not treated as Ineligible Institutional Shareholder under the Institutional Entitlement Offer; and
- (e) are eligible under all applicable securities laws to receive an offer under the Retail Entitlement Offer without any requirement for a prospectus or other disclosure document to be lodged or registered.

Retail shareholders who do not satisfy the above criteria are Ineligible Retail Shareholders.

By making a payment by either BPay® or EFT, you will be taken to have represented and warranted that you satisfy each of the criteria listed above to be an Eligible Retail Shareholder. Nominees, trustees or custodians are therefore advised to seek independent professional advice as to how to proceed.

PYC has determined that it is unreasonable to extend the Retail Entitlement Offer to Ineligible Retail Shareholders because of the small number of such Shareholders, the number and value of Shares that they hold and the cost of complying with the applicable regulations in jurisdictions outside Australia and New Zealand.

However, in accordance with section 615 of the Corporations Act, PYC has appointed Euroz Hartleys Limited as its ASIC-approved nominee (the **Nominee**) to arrange for the sale on ASX of the New Shares which represent the full entitlement of Ineligible Institutional Shareholders and Ineligible Retail Shareholders (**Sale Shares**). The Nominee will be required to direct the net proceeds (if any, after deduction of the Offer Price, and costs of sale including brokerage and commission, if any (**Selling Fees**)) to

the Share Registry to facilitate pro rata payments of any net proceeds to Ineligible Institutional Shareholders and Ineligible Retail Shareholders.

The Sale Shares will be issued at the same time as the issue of shares under the Retail Entitlement Offer.

The Nominee will be instructed to sell the Sale Shares on a best endeavours basis as soon as practicable following issue of the Sale Shares.

The proceeds of sale (if any) will be paid in Australian dollars to the Ineligible Institutional Shareholders and Ineligible Retail Shareholders for whose benefit the Sale Shares have been sold in proportion to their shareholdings (after deducting the Selling Fees).

Notwithstanding that the Nominee may sell Sale Shares, Ineligible Institutional Shareholders and Ineligible Retail Shareholders may nevertheless receive no net proceeds if the Offer Price plus the Selling Fees is greater than the sale proceeds.

If any such net proceeds of sale are less than the reasonable costs that would be incurred by PYC for distributing those proceeds, such proceeds may be retained by PYC.

Neither PYC nor the Nominee will be liable for a failure to obtain any net proceeds, or to sell Sale Shares at any particular price.

6.2 **Ranking of New Shares**

The New Shares issued under the Retail Entitlement Offer will be fully paid and rank equally with Existing Shares.

6.3 **Allotment**

PYC has applied for quotation of the New Shares on ASX in accordance with ASX Listing Rule requirements. If ASX does not grant quotation of the New Shares, PYC will repay all Application Monies (without interest).

Trading of New Shares will, subject to ASX approval, occur shortly after allotment. It is expected that allotment of the New Shares under the Retail Entitlement Offer will take place on 21 March 2025 (unless extended). Application Monies will be held by PYC on trust for Applicants until the New Shares are allotted. No interest will be paid on Application Monies.

Subject to approval being granted, it is expected that the New Shares allotted under the Retail Entitlement Offer will commence trading on a normal basis on 24 March 2025 (unless extended).

It is the responsibility of Applicants to determine the number of New Shares allotted and issued to them prior to trading in the New Shares. The sale by an Applicant of New Shares prior to receiving their holding statement is at the Applicant's own risk.

6.4 Reconciliation

The Entitlement Offer is a complex process and in some instances investors may believe they own more Shares than they actually do or are otherwise entitled to more New Shares than initially offered to them. These matters may result in a need for reconciliation. If reconciliation is required, it is possible that PYC may need to issue a small quantity of additional New Shares to ensure all Eligible Shareholders receive their appropriate allocation of New Shares up to their full Entitlement. The price at which these additional New Shares would be issued, if required, is the Offer Price.

PYC also reserves the right to reduce the size of an Entitlement or number of New Shares allocated to Eligible Retail Shareholders, or persons claiming to be Eligible Retail Shareholders or other applicable investors, if PYC believes in its complete discretion that their Entitlement claims are overstated or if they or their nominees fail to provide information requested to substantiate their claims. If necessary, the relevant shareholder may need to transfer existing Shares held by them or to purchase additional Shares on-market to meet this obligation. The relevant Shareholder will bear any and all losses caused by subscribing for New Shares in excess of their Entitlement and any actions they are required to take in this regard.

By applying under the Retail Entitlement Offer, those doing so irrevocably acknowledge and agree to do the above as required by PYC in its absolute discretion. Those applying acknowledge that there is no time limit on the ability of PYC to require any of the actions set out above.

6.5 Underwriting Agreement

PYC has entered into the Underwriting Agreement with the Underwriters pursuant to which the Underwriters collectively underwrite the Retail Entitlement Offer on the following terms and conditions:

- (a) **(Underwriters)** The Underwriters are five (5) separate investors from its longstanding top 40 shareholders. The Underwriters are severally, (a) Custom Binders Pty Ltd ACN 006 084 322, (b) Mr John Baird, (c) Mr Sami Zouad, (d) Mr Adrian Bonaddio, and (e) Dr Yang Sheng Yeo & Ms Esther Mei Yen Liaw as trustees for the Papy Family Trust ABN 36 892 861 556. Ms Liaw is an employee of the Company but not part of the Company's Key Management Personnel and nor a person for whom shareholder approval is required under ASX Listing Rule 10.11. None of the Underwriters are or have been substantial shareholders of the Company in the past 6 months.
- (b) **(Scope of Underwriting)** The Retail Entitlement Offer is underwritten for a maximum \$70 million in aggregate of all Underwriters. Each Underwriter is individually responsible for underwriting its own committed amount, being two (2) Underwriters at \$20 million per Underwriter and three (3) Underwriters at \$10 million per Underwriter.
- (c) **(unconditional)** Underwriters have agreed to take on the underwriting risk unconditionally without the benefit of customary conditions precedent
- (d) **(Underwriting Fees)** The Company will pay an Underwriting Fee of 6% of the underwritten amount committed by each Underwriter.
- (e) **(sub-underwriting)** each Underwriter may appoint sub-underwriter(s) and will be solely responsible for any sub-underwriting, broker commissions or other selling fees to any appointed sub-underwriters

- (f) **(timing)** Underwriters are required to subscribe and pay the Offer Price for their Respective Proportion of the Shortfall Shares on the same day that the announcement of the results of the Retail Entitlement Offer is made (currently scheduled for Tuesday 18 March 2025).
- (g) **(representations, warranties and undertakings)** Underwriters give representations and warranties to the Company about themselves including their respective capacity to carry out their obligations under the Underwriting Agreement. The Company only gives limited warranties about its capacity and authority.
- (h) **(No termination rights)** Underwriters do not have express termination rights. The Company had the right to terminate the Underwriting Agreement at its discretion but only before the announcement of the Entitlement Offer. The Company did not elect to exercise its termination right.

6.6 Capital structure on completion of the Entitlement Offer

The proposed capital structure of the Company following the issue of the New Shares under the Entitlement Offer, assuming full take-up, will be as follows:

Shares	Number
Existing Shares currently on issue at the Record Date ¹	466,607,718
Maximum number of New Shares offered pursuant to Entitlement Offer ²	116,651,930
Total Shares on issue after completion of the Entitlement Offer^{1,2}	583,259,648

Notes:

- The above figures assume that no existing options over Shares will be exercised prior to the Record Date. At the date of this Retail Offer Booklet, the Company has 6,010,000 options for new fully paid ordinary Shares outstanding with a collective weighted average exercise price of \$1.90 (and individual exercise prices ranging from \$0.90 to \$3.00). No Shares or Options on issue are subject to escrow restrictions, either voluntary or ASX imposed.
- Subject to rounding of fractions of entitlements

6.7 Potential Dilution Effect

You should note that if you do not participate in the Entitlement Offer, your holdings may be diluted by as much as approximately 20% (after taking into account dilution following completion of the Entitlement Offer).

The following are examples of how any dilution may impact you if you do not participate in the Entitlement Offer, assuming the maximum number of New Shares are issued:

Example Shareholder	# Existing Shares at Record Date	% at Record Date	Entitlement	# Shares if Entitlement declined	% after issue of New Shares
Shareholder 1	5,000,000	1.07%	1,250,000	5,000,000	0.86%
Shareholder 2	4,000,000	0.86%	1,000,000	4,000,000	0.69%
Shareholder 3	1,000,000	0.21%	250,000	1,000,000	0.17%
Shareholder 4	500,000	0.11%	125,000	500,000	0.09%

Notes:

- The table assumes that no Shares are issued other than under the Entitlement Offer.
- The dilution effect shown in the table is the maximum percentage of dilution on the assumption that the Offer is fully subscribed. If the Retail Entitlement Offer is not fully subscribed, the dilution effect for each Shareholder not accepting their Entitlement would be a lesser percentage.

6.8 Details of substantial shareholders

As at the Record Date, Company has the following substantial holders (based on the substantial holder notices received by the Company and released to the ASX):

Substantial holders of the Company	No. of Shares ¹	Voting Power
Australian Land Pty Ltd (and associates)	158,726,741	34.02%
David Sietsma (and associates)	28,340,000	6.07%

Notes: 1. The Table does not include the proposed issue of New Shares under the Institutional Entitlement Offer.

6.9 Possible control implications

The potential effect of the issue of New Shares on control of the Company, and the consequences of that effect, will depend on a number of factors, including investor demand and the extent to which eligible shareholders take up their entitlements under the Entitlement Offer. Shareholders should note that if they do not participate in the Entitlement Offer, their holdings are likely to be diluted.

Under section 606 of the Corporations Act, a person cannot acquire a relevant interest in the issued voting shares of a company if, because of a transaction in relation to securities of that company, a person's voting power in the company increase from 20% or below to more than 20% (or from a starting point that is above 20% and below 90%).

There are certain exceptions to the above prohibition in section 606 of the Corporations Act. Item 10A of the table in section 611 (as notionally inserted by ASIC Corporations (Takeovers – Accelerated Rights Issues) Instrument 2015/1069 (**Item 10A Exception**)) provides an exception for an acquisition of securities pursuant to a rights issue. If the Item 10A Exception is to be relied upon then section 615 of the Corporations Act (regarding the appointment of a nominee for the sale of the New Shares which represent the full entitlement of Ineligible Institutional Shareholders and Ineligible Retail Shareholders) must be complied with, which includes a requirement for ASIC to approve the nominee. As detailed in section 6.1, the Company has appointed Euroz Hartleys Limited as its Nominee and this appointment has been approved by ASIC.

Major Shareholder participation

As described above, Chairman Mr Alan Tribe represents PYC's major shareholder through Australian Land Pty Ltd and its associates (collectively, **Australian Land**) with voting power of 34.02% immediately before the Entitlement Offer.

Under the Institutional Entitlement Offer, the total of New Shares to be issued under the Institutional Entitlement Offer is 72,984,880 New Shares raising approximately \$91 million (before costs).

Australian Land committed to take up part of its Entitlement of 39,681,685 New Shares subscribing for 28,000,000 New Shares at a total value of \$35 million.

On the completion of the Institutional Entitlement Offer, Australian Land is expected to have a total shareholding of 186,726,741 Shares and as such have voting power in PYC of approximately 34.6%.

Whilst the voting power of Australian Land immediately following the completion of the Institutional Entitlement Offer will increase to approximately 34.61%, immediately following the completion of the Retail Entitlement Offer, Australian Land's voting power will reduce to approximately 32.01% (assuming the maximum number of shares are issued under the Retail Entitlement Offer).

For further information on the potential effect of the Entitlement Offer, please refer to the Company's cleansing notice that was released to ASX on 17 February 2025 (before the results of the Institutional Entitlement Offer were known).

6.10 Taxation

There may be tax consequences for Shareholders who decide to participate in the Retail Entitlement Offer and receive New Shares. The Company does not consider that it is appropriate to give advice regarding the taxation consequences of applying for New Shares under the Retail Entitlement Offer. The taxation consequences will depend on the circumstances of each Applicant. Applicants should consult their own professional adviser in connection with the taxation implications of subscribing for New Shares offered in the Retail Entitlement Offer.

6.11 **Continuous disclosure**

PYC is a “disclosing entity” under the Corporations Act and is subject to regular reporting and disclosure obligations under the Corporations Act and ASX Listing Rules, including the preparation of annual reports and half yearly reports.

PYC is required to notify ASX of information about specific events and matters as they arise for the purposes of ASX making that information available to the stock markets conducted by ASX. In particular, PYC has an obligation under the ASX Listing Rules (subject to certain exceptions) to notify ASX immediately of any information of which it is or becomes aware which a reasonable person would expect to have a material effect on the price or value of PYC shares. That information is available to the public from ASX.

6.12 **No cooling off rights**

Cooling off rights do not apply to an investment in New Shares. You cannot withdraw your Application once it has been accepted.

6.13 **Not investment advice**

It is also not financial product advice and has been prepared without taking into account your investment objectives, financial circumstances or particular needs. PYC is not licensed to provide financial product advice in respect of the New Shares.

The information contained in this Retail Offer Booklet does not purport to contain all the information that you may require to evaluate a possible application for New Shares, nor does it purport to contain all the information which would be required in a prospectus prepared in accordance with the requirements of the Corporations Act. It should be read in conjunction with PYC’s other periodic statements and continuous disclosure announcements lodged with ASX.

6.14 **Privacy**

The Company collects information about each Applicant provided on an Entitlement and Acceptance Form for the purposes of processing the Application and, if the Application is successful, to administer the Applicant’s security holding in the Company.

By submitting an Entitlement and Acceptance Form, each Applicant agrees that the Company may use the information provided by an Applicant on the Entitlement and Acceptance Form for the purposes set out in this Retail Offer Booklet and may disclose it for those purposes to the Share Registry, the Company’s related bodies corporate, agents, contractors and third party service providers, including mailing houses and professional advisers, and to ASX and regulatory authorities.

If you do not provide the information required on the Entitlement and Acceptance Form, the Company may not be able to accept or process your Application. An Applicant has a right to gain access to the information that the Company holds about that person subject to certain exemptions under law. A fee may be charged for access. Access requests must be made in writing to the Company’s registered office.

6.15 **Jurisdiction**

6.16 Foreign jurisdictions

In particular, this Retail Offer Booklet may not be distributed to any person, and the New Shares may not be offered or sold, in any country outside Australia except to the extent permitted below.

- PYC Therapeutics will raise up to approximately \$146 million via a 1 for 4 pro-rata accelerated non-renounceable entitlement offer
- New Shares will be issued at A\$1.25 per share, representing a 2.7% discount to the last traded price
- Proceeds from the equity raising will be used to fund progression of the Company's pipeline of first-in-class drug candidates for patients with major unmet needs through critical human data read-outs
- All four pipeline programs are expected to be fully funded through to FY27 following the Offer¹
- Major shareholder Australian Land Pty Ltd (an entity controlled by Chairman Alan Tribe), representing ~34% of PYC's issued capital, has subscribed for \$35m worth of New Shares under the Entitlement Offer

PERTH, Australia– 17 February 2025

PYC Therapeutics Limited (ASX:PYC) (**PYC** or the **Company**) today announces that it is undertaking a pro-rata accelerated non-renounceable entitlement offer to eligible shareholders on the basis of one (1) New Share for every four (4) existing shares held to raise up to approximately A\$146 million (before costs) (**Entitlement Offer**).

The Entitlement Offer will comprise the issue of up to approximately 117 million new fully paid ordinary shares in PYC (New Shares) at an offer price of \$1.25 (**Offer Price**) per New Share, which represents a:

- 2.7% discount to the last traded price of A\$1.285 on 14 February 2025;

¹ Subject to successful completion of the Offer

- 2.2% discount to the Theoretical Ex-Rights Price (**TERP**)² of A\$1.28 per share; and
- 4.9% discount to the 5-day volume weighted average price of shares up to and including 14 February 2025.

The Entitlement Offer comprises:

- an accelerated institutional component open to eligible institutional shareholders to be conducted from Monday, 17 February 2025 to Tuesday, 18 February 2025 (**Institutional Entitlement Offer**); and
- a retail component open to eligible retail shareholders in Australia or New Zealand anticipated to be conducted from Monday, 24 February 2025 to Friday, 14 March 2025 (unless extended) (**Retail Entitlement Offer**).

The offer ratio and Offer Price for New Shares under the Retail Entitlement Offer are the same as for the Institutional Entitlement Offer.

Retail shareholders who wish to participate in the Offer have an opportunity to oversubscribe for New Shares up to the value of twice of their entitlement under the Offer³.

Key shareholder support

As described above, Chairman Alan Tribe via Australian Land Pty Ltd has agreed to take up the majority of his entitlement under the Entitlement Offer (representing approximately \$35 million worth of entitlements).

Underwriting of the Retail Offer

PYC has entered into a binding underwriting agreement with existing large shareholders in the Company to subscribe for a minimum of \$70m worth of New Shares in the event that the Retail Entitlement Offer results in the creation of a shortfall. The minimum amount the Company will raise through the Offer is \$105m⁴.

Use of funds

The proceeds from the Entitlement Offer will be used to:

- progress PYC's first blinding eye disease drug candidate into late-stage human trials

² The Theoretical Ex-Rights Price (TERP) is the theoretical price at which PYC shares should trade immediately after the ex-date for the Entitlement Offer. The TERP is a theoretical calculation only and the actual price at which PYC's shares trade immediately after the ex-date for the Entitlement Offer will depend on many factors and may not equal the TERP. TERP is calculated by reference to PYC's closing price of A\$1.285 on 14 February 2025.

³ Shareholders should refer to the Retail Offer Booklet for details of how to take up their entitlements and to oversubscribe for additional entitlements should they wish to do so. The Retail Offer Booklet is expected to be sent to shareholders on or around 24 February 2025

⁴ Subject to successful completion of the Offer and before the costs of the Offer are considered. This comprises of the \$35m of commitments received from Australian Land Pty Ltd and the \$70m of underwriting commitments received from five existing shareholders in the Company including Custom Binders Pty Ltd, Mr. John Baird, Mr. Sami Zouad, Mr Adrian Bonaddio, and the Trustees of the Papy Family Trust. The Company has entered into irrevocable underwriting commitments with these sophisticated investors in respect of the retail component of the Entitlement Offer up to a maximum value of \$70m. While the underwriting commitments are expressed as being irrevocable, the Company's ability to achieve its stated objectives may be materially affected if any underwriter defaults in the performance of its obligations under the underwriting commitments. If any party defaults in the performance of its obligations, it may be necessary for the Company to approach a court to seek a legal remedy, which can be costly.

- progress PYC's second blinding eye disease drug candidate into mid-stage human trials
- progress PYC's polycystic kidney disease drug candidate through early-stage human trials
- support progression of the Company's Phelan-McDermid Syndrome drug program into human trials
- further drug discovery and platform development efforts
- general working capital and Entitlement Offer costs

Commenting on the Entitlement Offer, PYC's CEO, Dr Rohan Hockings said:

"This extension to the Company's funding runway enables us to deliver clinical efficacy data for our drug development programs simultaneously. The Company now has scope to deliver substantial patient-impact across multiple high-value indications that lack approved treatment options today."

Further details of the Entitlement Offer are set out below.

Eligible shareholders who do not take up their Entitlement under the Entitlement Offer in full or in part, will not receive any value with respect to those Entitlements not taken up. The Nominee will be required to remit any net proceeds (if any, after deduction of the Offer Price, costs of sale including brokerage and costs) from the sale of those New Shares to those ineligible shareholders. Executive Summary

Company introduction

PYC Therapeutics is a drug development company with 3 clinical-stage assets. Each of PYC's drug development programs has the potential to become the standard of care in areas of high unmet patient need (markets worth \$1-\$10 billion per annum)¹

Capital raising overview

PYC is undertaking a 1 for 4 pro-rata accelerated non-renounceable entitlement offer at an offer price of \$1.25 per Share to raise approximately A\$145.8 million

- The Offer comprises an accelerated institutional component open to eligible institutional shareholders and a retail component to eligible retail shareholders in Australia and New Zealand
- Alan Tribe, PYC Chairman, intends to subscribe for New Shares with a value of \$35 million

Impact of the fundraising

Successful completion of the Offer will enable PYC to **generate human safety and efficacy data for all three of its clinical-stage assets** as well as progressing a fourth drug candidate with market-leading potential into human trials²

Appendix A: Key Risks

Appendix A: Key Risks

Disclaimer

This section discusses some of the key risks associated with any investment in PYC, which may affect the value of PYC shares. The risks set out below are not listed in order of importance and do not constitute an exhaustive list of all risks involved with an investment in PYC. Before investing in PYC, you should be aware that an investment in PYC has a number of risks, some of which are specific to PYC and some of which relate to listed securities generally, and many of which are beyond the control of PYC. If any of these risks eventuate, they could have a material adverse effect on business, financial condition, PYC share price, operating and financial performance and return to shareholders. Before investing in PYC, you should consider whether this investment is suitable for you. Potential investors should carefully review publicly available information on PYC, carefully consider their personal circumstances (including the ability to lose all or a portion of their investment) and consult their professional advisers before making an investment decision. Many of the risks highlighted in this section may be heightened due to the current economic climate and the current and potential future impact of COVID-19. Additional risks and uncertainties that PYC is unaware of, or that it currently considers to be immaterial, may also become important factors that adversely affect PYC's operating and financial performance.

Technology risk	<p>For PYC to be competitive in the drug discovery and development market, the Directors expect it will need to continue to develop or acquire new technologies and platforms, develop niche markets and to take early advantage of technological advancements. While the Directors regard PYC's "Peptide Libraries" and "Antisense Oligonucleotide design capabilities" as being at the forefront of drug discovery, competition and new technologies have the potential to negatively impact market share, product prices, profit margins, and the financial value of products. Further, it may render PYC's research projects and the high costs associated with such research and development obsolete. Outcomes of research and development work will affect the future performance of PYC and its Shares.</p>
Drug development	<p>Drug development is a long and highly regulated process with many identified potential risks. Therapeutics derived from peptides and oligonucleotides are subject to some of these potential risks as described below. These risks can indirectly influence the possibility of PYC to obtain downstream revenue from drug sales or milestone payments and royalties from drugs it discovers or develops being taken through clinical development and subsequent marketing. Difficulty could be encountered with absorption, delivery, metabolism, toxicity, stability, delivery or efficacy in animal or human trials. This could result in early termination of a specific drug candidate program. Formulation difficulties such as poor solubility may also be encountered or other chemical or manufacturing controls related issues which may occur with the drug candidate. Drugs developed from peptides and oligonucleotides may not be suitable for all individuals such as different genetic backgrounds, patients suffering from particular conditions. Unforeseen interactions with other pharmaceuticals or substances may be encountered. Peptides and oligonucleotides that appear specific at early stages of drug discovery may nonetheless exhibit unforeseen side effects in animal or human trials resulting in early termination of the specific drug candidate program. Government regulatory bodies are the final arbiters of approval of drugs for market. Applications for approval may not be granted in all instances in all markets.</p>

For personal use only

Appendix A: Key Risks continued

Research and development	<p>PYC can make no representations that any of its research and development will be successful, that PYC's development milestones will be achieved or that PYC will develop products that are commercially exploitable. Prior to commercialisation, projects may be delayed or terminated for a range of unexpected scientific, preclinical, clinical, regulatory or commercial reasons. Being at the forefront of both peptide and antisense oligonucleotide drug discovery and development, PYC is entering uncharted territory which may present unforeseen biological complexities. PYC may need to develop new technologies to resolve these complexities and to advance its programs.</p>
Operational success is uncertain	<p>Clinical trials are complex projects and sometimes fail to provide the anticipated data. For example, the inability to recruit sufficient numbers of patients, or the practical challenges associated with capturing the necessary data, can cause a study to fail, even though the drug itself may be efficacious.</p>
Pre-clinical development risk	<p>Before PYC's drug candidates can be considered appropriate for human clinical trialling, candidates must successfully satisfy a number of preclinical requirements. These include the ability to manufacture sufficient amounts of drug of sufficient quality to be used in both preclinical studies and also early stage human clinical trialling. Candidates must demonstrate acceptable safety and tolerability in rigorous toxicology studies. These studies must also reveal a suitable initial dose for use in human trials. There is no guarantee that these requirements will be met, failing which PYC would be unable to develop its products.</p>
Clinical development risk	<p>The nature of clinical drug development is inherently risky, with many drug candidates failing to be successfully developed into marketable products. Clinical trials have many associated risks which may impact commercial potential and therefore future profitability. Such trials may fail to recruit patients, be terminated for safety reasons, or fail to be completed within acceptable timeframes. Clinical trialling may reveal drug candidates to be unsafe, poorly tolerated or non-effective. Any of these outcomes will likely have a significant adverse effect on PYC, the value of its securities and the future commercial development of its drug candidates including VP-001 (RP11). Clinical trials might also potentially expose PYC to product liability claims in the event its products in development have unexpected effects on clinical subjects.</p>
Regulatory approvals necessary for clinical trials	<p>PYC may be unable to secure necessary approvals from regulatory agencies and institutional bodies (clinics and hospitals) to conduct its planned clinical trials. There is also no assurance that drug candidates trialled by PYC will prove to be safe and efficacious in clinical trials, or that the regulatory approval to manufacture and market its products will be received.</p>

Appendix A: Key Risks continued

Competition	<p>The biotechnology and pharmaceutical industries are intensely competitive and subject to rapid and significant technological change, both in Australia and internationally, and there are no guarantees about PYC's ability to successfully compete. Although the Board believes that PYC's technology is unique and will be effective in identifying and developing drug candidates, there are competing technologies which will continue to be used and other competitors unknown to PYC may emerge from time to time. The introduction of new competitors or a more successful outcome from existing participants may affect the operating performance of PYC.</p>
Funding	<p>PYC's long-term value requires its drug candidates to be successful in development and to reach the market. Otherwise, it may be dependent upon the funds raised by this Offer, existing collaboration agreements, and its ability to obtain future equity or debt funding to support commercialisation of development programs. PYC's ability to raise further equity or debt including ability to divest part of its interest in its drug development programs or assets and the terms of such transactions, will vary according to a number of factors, including the success of research and development results and the future development of PYC's technology and stock market conditions.</p> <p>While the Directors believe that PYC will have sufficient funds to fund its activities in the short term, PYC is operating in a dynamic and complex industry. There can be no assurance that PYC will not seek to exploit business opportunities of a kind which will require it to raise additional funding from equity or debt sources or divestments including via out-licensing of a drug development program. There can be no assurance that PYC will be able to raise such funding on favourable terms or at all. Any additional equity raising may dilute the interest of Shareholders and any debt financing may involve financial covenants which limit PYC's operations. If PYC is unable to obtain such additional funding, PYC may be required to reduce the scope of any expansion, which could adversely affect its financial performance.</p>
Intellectual Property Risks	<p>PYC's success depends in large part on our ability to obtain and maintain patent protection in Australia and other countries with respect to our therapeutic programs and other proprietary technologies we may develop. PYC seeks to protect its proprietary position, in part, by filing patent applications in Australia and abroad relating to our therapeutic programs and other proprietary technologies we may develop. If PYC is unable to obtain or maintain patent protection with respect to our therapeutic programs and other proprietary technologies PYC may develop, its business, financial condition, results of operations and prospects could be materially harmed. Intellectual property rights do not necessarily address all potential threats. The degree of future protection afforded by our intellectual property rights is uncertain because intellectual property rights have limitations and may not adequately protect PYC's business or permit PYC to maintain its competitive advantage. For example, others may be able to make products that are similar to any product candidates we may develop but that are not covered by PYC's intellectual property rights. Similarly, third parties might third parties might conduct research and development activities in jurisdictions where PYC does not have patent or other intellectual property rights and then use the information learned from such activities to develop competitive products for sale in our target commercial markets. Should any of these events occur, they could significantly harm PYC's business, financial condition, results of operations and prospects.</p>

Appendix A: Key Risks continued

PYC is dependent on key personnel	PYC depends on being able to attract and retain personnel with specialist expertise, and to ensure continuity of key management. The loss of one or more key members of the management team could material affect PYC’s ability to pursue its business plan and to realise value for investors.
Research & Development (R&D) Tax Rebate	PYC has received R&D rebate(s) on part of its expenditure in research and development. There is a risk that the Australian Government may make material changes to the rebate scheme, which may adversely impact the funding available to PYC to fund its operations. In order to obtain an R&D rebate on that part of its expenditure that is incurred out of Australia PYC must first gain approval for that expenditure from the Australian Government. Such an approval is called an Advanced Finding. PYC prepares Advanced Finding applications from time to time. However, there is no guarantee that this application will be approved
Orphan Drug Act	The anticipated development timeline and commercial success of PYC’s drug development program is dependent on the assumption that PYC is eligible to receive special designations from the US Food and Drug Administration (FDA) under the Orphan Drug Act 1983. These designations, if received by PYC, would enable, in some cases, priority pathways to commercialisation of a clinical drug program. Additionally, the anticipated pricing of a commercialised product is dependent on PYC meeting the eligibility criteria of that Act. Any changes to the Act or PYC’s eligibility for these designations would have an adverse effect on the commercial success of PYC’s development programs.
Partnerships and collaborations	PYC relies on partners, collaborators, licensees, and vendors to drive forward its drug development and commercialisation efforts. PYC’s ability to engage such parties in the future is uncertain, and the performance of current parties, while reasonably ensured by customary legal agreements, is also ultimately uncertain.
Product liability and uninsured risks	Through its intended business, PYC is exposed to potential product liability risks which are inherent in the research and development, manufacturing, marketing and use of its products or products developed with future co-development alliance partners. It will be necessary to secure insurance to help manage such risks. PYC may not be able to maintain insurance for product or service liability on reasonable terms in the future and, in addition, PYC’s insurance may not be sufficient to cover large claims, or the insurer could disclaim coverage on claims. Although PYC endeavours to work to rigorous standards there is still the potential for the products to contain defects which may result in system failures. These defects or problems could result in the loss of or delay in generating revenue, loss of market share, failure to achieve market acceptance, diversion of development resources, injury to PYC’s reputation or increased insurance costs. If PYC fails to meet expectations, PYC’s reputation could suffer and it could be liable for damages. Further PYC is exposed to the risk of catastrophic loss to necessary laboratory equipment, computer equipment or other facilities which would have a serious impact on PYC . PYC gives no assurance that all such risks will be adequately managed through its insurance policies to ensure that catastrophic loss does not have an adverse effect on its performance.

Appendix A: Key Risks continued

Regulatory Approval	PYC operates within a highly regulated industry, relating to the manufacture, distribution and supply of pharmaceutical products. Accordingly, PYC is continually exposed to the risk of changes in laws, regulation and government policies in Australia, US, EU and other international target markets. If we fail to comply with the regulatory requirements and receive applicable marketing approvals, our target market will be reduced and our ability to realise the full market potential of our product candidates will be harmed and our business will be adversely affected. We may not obtain regulatory approvals on a timely basis, if at all. Our failure to obtain approval of any of our product candidates by regulatory authorities in another country may significantly diminish the commercial prospects of that product candidate and our business prospects.
Dependence on commercial partners	PYC utilises third parties, including suppliers and third-party service providers for product development, manufacture and commercialisation of products, and certain financial transactional processes. For example, the operation of clinical trials may be outsourced to a contract research organisation. Outsourcing these functions involves the risk that the third party service provider may not comply with regulatory and legal requirements, may not produce reliable results, may not perform in a timely manner or fail to perform at all, may not maintain confidentiality or meet contractual or other obligations. Failure of these third parties could have a material adverse effect on PYC or the success of any of its programs.
Competitive environment may change	Despite customary competitor surveillance, it is possible that development of therapeutic products by other companies will materially, and in an unforeseen way, limit the commercial opportunity associated with PYC's lead drug program, even if it should be successful in clinical trials.
Future access to funding is uncertain	PYC is a pre-revenue company and, as such, is substantially dependent on investors to fund its operations until it is able to generate sufficient cashflows. Future access to equity capital is uncertain. If PYC is unable to fund its continuing operations, the value of PYC may be significantly and adversely affected.
Currency risk	Expenditures in overseas jurisdictions are subject to the risk of fluctuations in foreign exchange markets. For example, PYC has certain payment obligations that are denominated in foreign currencies. Accordingly, payment will be made in those countries' currencies, and may exceed the budgeted expenditure if there are adverse currency fluctuations against the Australian dollar.
Workplace Health and Safety	PYC's business activities may expose its staff to potentially dangerous working environments. Workplace health and safety legislation and regulations differ in each jurisdiction. If any of PYC's employees suffers injury or death, compensation payments or fines may be payable and such circumstances could result in the loss of a licence or permit required to carry on the business. Such an incident may also have an adverse effect on the PYC's business and reputation.
Litigation	There has been substantial litigation and other proceedings in the pharmaceutical and biotechnology industries. There is a risk that PYC may in future be the subject of or required to commence litigation. There is, however, no litigation currently underway or threatened.
Dividends	PYC has never paid a dividend and PYC does not intend on paying dividends in the foreseeable future which means that holders of shares may not receive any return on their investment from dividends.

Appendix A: Key Risks continued

Cyber security	<p>PYC relies heavily on its information technology systems including its networks, equipment, hardware, software, telecommunications and other information technology (collectively, IT Systems), and the IT Systems of third-party service providers, to operate its business as a whole. PYC's operations depend on the timely maintenance, upgrade and replacement of its IT Systems, as well as pre-emptive efforts to mitigate cybersecurity risks and other IT System disruptions. IT Systems are subject to an increasing threat of continually evolving cybersecurity risks from sources such as computer viruses, cyber-attacks, natural disasters, power loss, defects in design, security breaches and other manipulation or improper use of the Company's systems and networks, resulting in, among other things, unauthorised access, disruption, damage or failure of the Company's IT Systems (collectively, IT Disruptions). Although to date the Company has not experienced any material data losses or financial impost relating to such IT Disruptions, there can be no assurance that it will not incur such losses in the future. The occurrence of one or more IT Disruptions could have effects such as damage to the Company's equipment, downtimes, operational delays, destruction or corruption of data, increases in capital expenditures, expensive remediation efforts, distraction of management, damage to the Company's reputation or events of noncompliance which could lead to regulatory fines or penalties or ransom payments. Any of the foregoing could have a material adverse effect on PYC's results of operations and financial performance.</p>
Economic risk and market forces	<p>Any deterioration in the domestic and global economy may have a material adverse effect on the performance of PYC business and PYC's share price. It is possible that new risks might emerge as a result of Australian or global markets experiencing extreme stress, or existing risks, and may manifest themselves in ways that are not currently foreseeable. The equity markets have in the past and may in the future be subject to significant volatility. Other factors including, but not limited to, political movements, stock market trends, changing customer preferences, interest rates, inflation levels, commodity prices, industrial disruption, environmental impacts, international competition, taxation changes and legislative or regulatory changes, may all have an adverse impact on PYC's operating costs, profit margins and share price. These factors are beyond the control of the Company and PYC cannot, to any degree of certainty, predict how they will impact the Company.</p>
Share Investment	<p>There are risks associated with any investment in equity capital and stock markets. The market price of PYC shares will fluctuate due to various factors, many of which are out of PYC's control, such as general movements in the stock markets, recommendations by brokers and analysts, changes in inflation rates and interest rates, changes in government, fiscal, monetary and regulatory policies, global geopolitical events and hostilities, acts of terrorism and investor perceptions. As a consequence, PYC shares may trade at a higher or lower price than the issue price of the Offer shares. Equity capital markets are subject to significant volatility and PYC, its directors and its management cannot guarantee the performance of the shares issued under the Offer.</p>

Appendix A: Key Risks continued

Dilution risk	Existing shareholders who do not participate in the Offer will be diluted as a result of the issue of new shares. A participating shareholder may still be diluted even though they participate in the Offer, depending on the number of shares issued to them. In the future, PYC may decide to issue additional shares to raise funds for operations or acquisitions the company decides to make, and shareholders may be diluted as a result.
Liquidity risk	There is no guarantee of an active market for PYC shares or that the price of PYC shares will increase. Shareholders who wish to sell their Offer shares may be unable to do so at an acceptable price, or at all, if insufficient liquidity exists in the market. Therefore, changes in the prevailing market price of PYC shares may result in a loss of money invested for shareholders.
Taxation	Changes to taxation laws and in the way taxation laws are interpreted may impact the tax liabilities of PYC, shareholder returns, the level of dividend imputation or franking, or tax treatment of a shareholder's investment. In particular, both the level and basis of taxation may change. Frequent changes to taxation laws may cause compliance issues and any failure by PYC to comply with evolving laws may increase its tax liabilities or expose the company to enforcement action. An investment in shares involves tax considerations that differ for each investor. Investors should consult with a tax professional in connection with any investment in PYC.
COVID-19 and global health risks	<p>Global health risks or the potential for these events could have a negative impact on PYC. Since early 2020 the coronavirus pandemic, now known as COVID19, has spread rapidly to many countries globally. The impact of COVID-19 has led to the adoption of extreme preventative measures by governments and other authorities, including the imposition of limits on public gatherings, restrictions on travel, the closure of borders, requirements for self-isolation, restriction of access to services and the closure of stores and businesses, including in Australia. Given the high degree of uncertainty surrounding the extent and duration of COVID-19 it is not possible to assess the impact of COVID-19 on PYC's business. These events have had and can be expected to continue to precipitate sudden significant changes and volatility in regional and global economic conditions and financial markets.</p> <p>If there is a significant increase in the number of COVID-19 cases, this may burden hospitals and healthcare institutions to the extent that all non-urgent medical procedures, including clinical trials, may be cancelled or postponed indefinitely. This may impact the ability of PYC to progress the phases of their clinical trials. As a result, the operations of PYC may be significantly adversely affected by such events.</p>
