REVIEW OF OPERATIONS

(a) Overview

The Company remains registered under the Pooled Development Fund program. Benefits for shareholders are described on the Company's website.

(b) Operating result

The Group incurred an after-tax loss for the half-year ended 31 December 2024 of \$1,375,917 (2023: \$1,470,393). The loss was attributable to the funding of project developments conducted through the Group's subsidiaries and the costs associated with operating an ASX listed company in Australia.

Net assets of the Group decreased from \$5,381,358 to \$4,906,477 during the half-year as a result of incurring a loss of \$1,375,917 (2023: \$1,470,393).

(c) Corporate

On 31 December 2024 the Group had a cash and cash equivalents balance of \$5,030,229 (30 June 2024: \$5,635,577).

On 10 July 2024 the Company issued 21,875,000 shares at an issue price of \$0.04 per share raising \$875,000 before issue costs. Each share issued includes a free attaching option exercisable at \$0.06 per option with an expiry date of 16 August 2027. The purpose of the funds raised is to progress current investees and new investment opportunities.

Also, on 16 August 2024 3,500,000 options over ordinary shares were issued to a consultant to the Company for advisory services rendered in connection with potential technology investments of the Company on the same terms as those above. The fair value of the options is \$68,124.

During the half-year, shareholders approved the issue of up to a total of 18,000,000 shares to potentially be issued in lieu of cash payments over a 3 year period commencing 25 October 2024. The price at which those shares will be issued will be based on the VWAP for a 5 day period leading up to the issue date. This will be a cost effective way for the company to remunerate Directors which will allow the Company to preserve its cash and spend a greater proportion of its cash reserves on its operations. At the date of this report no shares had yet been issued in lieu of fees.

DIRECTORS' REPORT (CONTINUED)

Also, during the half-year ended 31 December 2024 the shareholders approved the issue of 6,500,000 performance rights ("PRs") to directors of the Company under the Company Employee Securities Incentive Plan. The vesting of the PRs is dependent on the achievement of the following performance hurdle; "transfer energy ink technology to a commercial production facility and manufacture a minimum volume of 1,000 prototype energy ink cells." The PRs have a vesting period of 3 years from the date of shareholder approval (see Note 4 in the notes to the financial statements for further details). A further 3,250,000 PRs were granted to other staff/consultants on the same terms as those granted to Directors.

At the Annual General Meeting held at Hampden Conference Centre, 230 Hampden Road, Crawley WA on 13 November 2024, all resolutions contained in the Notice of Meeting were passed by shareholders by way of a poll.

EVENTS AFTER THE REPORTING DATE

Subsequent to the reporting date no matter or circumstance has arisen which has significantly affected, or may significantly affect the operations of the Group, the result of those operations, or the state of affairs of the Group in subsequent financial years.

PRINCIPAL ACTIVITIES

The Company is a registered Pooled Development Fund (PDF).

DIVIDENDS

No dividends have been paid or declared since the start of the financial year and the Directors do not recommend the payment of a dividend in respect of the financial year.

ENVIRONMENTAL LEGISLATION

With respect to its environmental obligations regarding its exploration activities the consolidated entity endeavours to ensure that it complies with all regulations when carrying out any exploration and evaluation activities and is not aware of any environmental legislation breach at this time.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. Material accounting policies**Statement of compliance**

The condensed consolidated interim financial report is a general purpose financial report prepared in accordance with the requirements of the *Corporations Act 2001*, AASB 134 'Interim Financial Reporting' ("AASB 134") and other pronouncements of the Australian Accounting Standards Board ("AASB"). Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 *Interim Financial Reporting*.

The condensed consolidated interim financial report does not include full disclosure of the type normally included in an annual financial report, and accordingly this report should be read in conjunction with the most recent annual financial report and any public announcements made by the Company during the interim reporting period in accordance with the continuous disclosure requirements of the *Corporations Act 2001* and the ASX listing rules.

These condensed consolidated interim financial statements were authorised for issue on 24 February 2025.

Basis of preparation

The condensed consolidated financial statements have been prepared on the basis of historical cost. Cost is based on the fair values of the consideration given in exchange for assets. The Consolidated entity, comprising Strategic Elements Limited, Strategic Materials Pty Ltd, Australian Advanced Materials Pty Ltd, Maria Resources Pty Ltd, Stealth Technology Pty Ltd and Cognition Engines Pty Ltd is domiciled in Australia and all amounts are presented in Australian dollars, unless otherwise indicated.

The accounting policies and methods of computation adopted in the preparation of the interim financial report are consistent with those adopted and disclosed in the Company's financial report for the financial year ended 30 June 2024.

For the purpose of preparing the report, the half-year has been treated as a discrete reporting period.

Basis of consolidation

The condensed consolidated financial statements incorporate the financial statements of the Company or Group and entities controlled by the Company (its subsidiaries) (referred to as the Group in these financial statements). Control is achieved where the Company has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. The accounting policies of subsidiaries have been changed when necessary to align them with the policies adopted by the Group.

In preparing the condensed consolidated financial statements, all inter-company balances and transactions, income and expenses, profit and losses resulting from intra-group transactions have been eliminated in full.

Going Concern

The condensed consolidated interim financial report has been prepared on the going concern basis, which contemplates continuity of normal business activities and the realisation of assets and settlements of liabilities in the ordinary course of business. The Group has reported a loss for the period of \$1,375,917 (2023: \$1,470,393) and a cash outflow from operating activities of \$1,434,129 (31 December 2023: \$1,367,845). At the end of the half-year, the Group had \$5,030,229 (30 June 2024: \$5,635,577) in cash and cash equivalents and a working capital surplus of \$4,868,246 (30 June 2024: \$5,364,409).

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. Material accounting policies

In arriving at this position, the Directors have had regard to the fact that the Group has, or in the Directors' opinion will have access to, sufficient cash to fund administrative and other committed expenditure. The Group's cashflow forecast indicates that the Group will have access to sufficient cash to fund administrative and other committed expenditure and be able to settle its liabilities as and when they fall due for a period of at least 12 months from the date of signing the condensed financial report.

New Standards and Interpretations applicable for the half year ended 31 December 2024

For the half-year ended 31 December 2024, the Directors have reviewed all of the new and revised Standards and Interpretations issued by the AASB that are relevant to the Group and effective for the current reporting period. As a result of this review the Directors have determined that there is no material impact of the Standards and Interpretations on issue and therefore, no change is necessary to Group accounting policies.

New Standards and Interpretations on issue not yet effective

The Directors have also reviewed all of the new and revised Standards and Interpretations in issue not yet effective for the period ended 31 December 2024. The Directors have reviewed these amended pronouncements and have decided not to early adopt.

Rounding of amounts

In accordance with ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191, the amounts in the directors report and in the condensed consolidated interim financial report have been rounded to the nearest dollar.

Significant Accounting Judgements and Key Estimates

The preparation of this interim financial report requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amount of assets, liabilities, income and expense. Actual results may differ from these estimates.

In preparing this condensed consolidated interim financial report the significant judgements made by management in applying the Groups' accounting policies and key sources of estimation uncertainty were the same as those that applied to the financial report for the year ended 30 June 2024.

A decision on whether this accrual will be settled via cash or shares has not been made at the date of this report.

4. Share-based payments

Options over ordinary shares

On 2 August 2024 the Company granted 3,500,000 options over ordinary shares for services rendered. The options which are unlisted were issued on 16 August 2024 with an exercise price of \$0.06 and an expiry date of 16 August 2027. The fair value of the options is \$68,124.

The expected volatility reflects the assumption that the historical volatility is indicative of future trends, which may also not necessarily be the actual outcome. No other features of options granted were incorporated into the measurement of fair value.

Auditor's Responsibilities for the Review of the Condensed Consolidated Interim Financial Report

Our responsibility is to express a conclusion on the Condensed Consolidated Interim Financial Report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the Condensed Consolidated Interim Financial Report is not in accordance with the Act including giving a true and fair view of the Group's financial position as at 31 December 2024 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of an interim financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
