## Appendix 4D & FY25 Interim Report

Microba Life Sciences Limited (ASX: MAP) ("Microba" or the "Company), a company at the forefront of microbiome diagnostics & therapeutics, is pleased to announce its results for the six-month period ending 31 December 2024 ("H1 FY25").

#### **Key Highlights**

#### Testing

#### Australia - Continued strong growth for MetaXplore™

- 4,400 tests sold in H1 FY25, up 146% vs pcp
- 735 ordering clinician accounts, up 92% vs PCP
- H1 growth is underpinned by growth in both ordering clinicians and orders per clinician

#### Australia - MetaPanel<sup>™</sup> clinical adoption continues to build

- Clinical adoption continuing to grow following launch with Sonic Healthcare (ASX: SHL)
- 420 tests sold in H1 FY25, up 171% vs H2 FY24
- $\circ$  ~ Total sales of 575 tests since launch as at December 31, 2024
- December was a record sales month for MetaPanel<sup>™</sup>

#### **United Kingdom - Invivo Clinical**

- $\circ$  UK Supplements business remains robust, delivering growth during the period
- O UK Testing business transitioning to new growth phase, following the first access to MetaXplore<sup>™</sup> in the UK in October 2024
- The initial UK clinician test referral rates are similar to Australia, demonstrating healthy initial traction and market acceptance, providing confidence to accelerate towards full market access in H2 FY25
- o Pleasingly, revenue has remained steady despite this transition phase in the Testing business

#### Therapeutics

#### Program advancement

- o Inflammatory Bowel Disease Program focused on advancing MAP 315 to Phase 2
- o Immuno-Oncology Program Clinical data and sample set grown to over 5,500 patients supporting this program
- o Autoimmune Program leads further advanced through pre-clinical development and securing IP filings
- International Flavors & Fragrances (IFF) continued to advance multistage research program to develop novel treatments for allergies

To realise the value of the Company's therapeutic assets, and progress MAP 315 to a Phase 2 clinical trial in IBD, the Company is continuing to be active in a range of non-dilutive strategic opportunities

#### **Additional achievements**

 Agreement signed for the Strategic Transfer of the Research Testing Services business unit to Clinical Microbiomics A/S

#### ASX Announcement 26 Feb 2025

- A number of key hires during the period including:
  - Eric Davis, Ex Abbott and Cochlear appointed as Chief Growth Officer
  - Chris Saad, Ex Uber appointed as Chief Product Officer
  - Alaster Stockwell-Jones, Ex Stryker and GE appointed as UK Commercial Director
- Positive progress on the pathway to securing US reimbursement for MetaPanel

#### **Financial metrics**

- H1 revenue of \$8.08 million, up 147% vs PCP
- H1 cash receipts of \$8.98 million, up 144% vs PCP
- o \$17.3 million in cash and equivalents at 31 December 2024

#### Commenting on the Interim Report, Microba CEO Dr Luke Reid said:

"We continue to see strong sales momentum for our testing business led by MetaXplore test sales in Australia. MetaPanel clinical adoption continues to grow, setting a sales record in December. We have commenced the process of activating this growth in the United Kingdom, with early access to MetaXplore demonstrating market acceptance data that has enabled acceleration to full market access in Q4 FY25".

"In parallel, to realise the value of our therapeutic assets and advance MAP 315 into a Phase 2 clinical trial, we have been active in a range of non-dilutive strategic opportunities."

"We remain intensively focused on executing our testing and therapeutic business strategies. We are gaining strong clinical adoption of our diagnostic tests, exemplified by the break-out growth of MetaXplore sales in Australia, giving us conviction in the opportunity and growth profile ahead including plans for expansive UK growth and US entry with public reimbursement"

# 01 Review of Operations

# Review of **Operations**

The Directors of Microba Life Sciences Limited (ASX: MAP) ("Microba" or the "Company") are pleased to present their Review of Operations for the half-year ended 31 December 2024 ("H1 FY25") in conjunction with the financial statements of Microba Life Sciences Limited and its subsidiaries (together referred to as the "Group"), and the auditor's report thereon. The financial statements have been reviewed by the Company's auditor and approved by the Directors.

Over the past seven years, Microba has strategically invested to unlock the human gut microbiome, leveraging its world leading technology to pioneer the development of clinical microbiome diagnostics and novel biotherapeutics. This investment is now yielding results with accelerating adoption of the company's clinical testing products, exemplified by increasing MetaXplore test sales in Australia, increasing clinical adoption of MetaPanel in Australia in partnership with Sonic Healthcare, and MetaXplore's strong Australian performance is now being initiated into the UK with early sales data providing confidence to accelerate to full market access.

Microba's progress in the first half of FY25 delivered a H1 revenue result of \$8.08m, up 147% on the prior corresponding period. This was underpinned by growth in MetaXplore sales in Australia and maintaining consistent revenues in the Invivo Clinical business in the United Kingdom as we transition to growth in that region.

The Company continued to mature its drug discovery business, focused on advancing MAP 315 to a Phase 2 trial for the Inflammatory Bowel Disease (IBD) program, and preclinical advancement for the Immuno-Oncology (IO) and Autoimmune Disease (AI) programs. This saw the data and sample set grown to >5,500 patients supporting the IO program, and the AI program leads advanced through multiple pre-clinical validation models confirming their disease relevant activity and to securing IP filings. To realise the value of the Company's therapeutic assets, and progress MAP 315 to a Phase 2 clinical trial in IBD, the Company is continuing to be active in a range of non-dilutive strategic opportunities.

The net loss before income tax for the Group in H1 FY25 was \$5.74m, a 50% decrease on the prior period of \$11.49m. This result was driven by the Company's increased scale, with revenue rising from \$3.27 million in H1 FY24 to \$8.08 million in H1 FY25, and gross profit increasing from \$1.38 million to \$3.83 million over the same period, positioning Microba well as revenue continues to scale. The Company reduced its expenditure during the period, with Total Operating Expenses decreasing from \$16.75 million to \$13.84 million. This reduction was primarily driven by lower spending on Therapeutics research and development programs following the completion of largescale discovery, validation and clinical de-risking initiatives, including the first in human MAP 315 Phase 1 Clinical Trial in IBD and the large-scale Autoimmune Discovery program with Ginkgo Bioworks (NYSE: DNA).

As at 31 December 2024, Microba had \$17.3m in cash and equivalents.

#### **Testing Business Advancement**

#### Australia - MetaXplore™ Gastrointestinal Disorder Test

The MetaXplore<sup>™</sup> test provides the most comprehensive gastrointestinal testing solution available to Healthcare Professionals combining diagnostic gastrointestinal health tests with metagenomic-driven gut microbiome analysis. The MetaXplore<sup>™</sup> test range developed by Microba together with leading healthcare professionals, addresses a large addressable market of patients suffering from a functional gastrointestinal disorder which impacts more than 30% of the population.

# Review of **Operations**

Following the Australian launch of Microba's next generation microbiome test, MetaXplore™ in H2 FY23, the Company continues to see strong growth in test sales with:

- 4,400 tests sold in H1 FY25, up 146% vs PCP
- 735 ordering clinician accounts, up 92% vs PCP

Strategic clinician education, targeted sales activities and product enhancements (such as *Expert Summary* and *Report Sharing*) delivered strong growth momentum in H1 FY25 for MetaXplore in Australia. This growth was driven by an increase in both the number of ordering clinicians and the volume of orders per clinician.

Sales momentum exceed the anticipated seasonal decline typically seen in December, which is traditionally the slowest month for the industry due to seasonality and reduced trading days, further highlighting the success of the quarter.

#### Australia - MetaPanel™ - Gastrointestinal Pathogen Test

In H1 FY25, we made positive progress in driving adoption with general practitioners and gastroenterologists across Australia together with our partners at Sonic Healthcare (ASX: SHL), and passed a first milestone of 500 MetaPanel<sup>™</sup> tests sold since launch.

MetaPanel<sup>™</sup> is a world-first NATA accredited test for diagnosing gastrointestinal pathogens. It is the most comprehensive gastrointestinal pathogen test available, detecting both common and difficult-toidentify pathogens capable of causing infection.

Active field sales efforts are gaining traction with lunch and dinner event series with strong clinician attendance, engagement and conversion to ordering clinicians. In collaboration with Sonic Healthcare, the team are continuing to drive active KOL engagement, evidence generation activities and utility publications to support clinician adoption. As at the end of H1 FY25, 575 MetaPanel tests had been sold since launch, with December delivering a record sales month.

#### United Kingdom - Invivo Clinical

A fundamental investment thesis of the Invivo Clinical acquisition was the ability to accelerate Microba's entry of its world leading MetaXplore™ test into the United Kingdom through an established team and customer base.

During H1 FY25 we were pleased to commence early access for MetaXplore in the UK, setting up for full market access by the end of FY25. Clinician accounts participating in the Early Access Program delivered test referral rates similar to Australia, demonstrating healthy initial traction and market acceptance, providing confidence to accelerate towards full market access by the end of FY25.

The transition to a new growth testing phase has transiently impacted sales for existing testing products, however the considered focus on MetaXplore is expected to translate into growth in H2 FY25 as adoption gains momentum.

The supplements business remains robust delivering growth during the period. Pleasingly Invivo revenue remained steady despite this transition phase in the testing business.

#### Strategic transfer of Research Testing Services Business Unit

During the period, Microba announced it had entered into an agreement for the strategic transfer of its non-core Research Testing Services business unit to Clinical Microbiomics A/S (CMC), a Denmark headquartered, global contract research organisation (CRO) specialising in microbiome genetic and metabolic analysis to industry and academic institutions.

The transfer of Microba's Research Testing Services business unit will allow Microba to allocate 100%

# Review of **Operations**

of its testing operations and business development resources to the growth of its core diagnostic microbiome testing business. This reinforces Microba's commitment to growth through intensive focus and operational excellence.

Under the terms of the Transfer Agreement, Microba will receive:

- Retained revenue payable to Microba from existing contracts assigned to CMC
- Commission payments for existing contracts assigned to CMC to the extent performed by CMC for up to a four-year period after completion.
- Commission payments for new contracts with existing customers transitioned to CMC to the extent performed by CMC for up to a four-year period after completion, and new customers referred by Microba to CMC; and
- Potential milestone payments across the next four financial years.

As a result of the above, the potential revenue to be received by Microba under the Transfer Agreement is up to \$3,000,000 across the next four financial years.

#### **Therapeutic Business Advancement**

#### Inflammatory Bowel Disease Program – Advancing MAP 315 for Phase 2

Further progress was made during the half to prepare for a Phase 2 clinical trial with regulatory and manufacturing (CMC) activities towards an Investigational New Drug (IND) submission to the FDA.

On the back of recent progress across the Company's therapeutic programs, and as we progress MAP 315 to a Phase 2 clinical trial in IBD, the Company is active in a range of partnering activities evaluating various non-dilutive strategic opportunities.

MAP 315 is being developed for the treatment of Ulcerative Colitis (UC), a debilitating form of Inflammatory Bowel Disease (IBD) with more than 50% of patients unable to achieve sustained remission with current standard of care. The market for UC treatment was valued at US\$7.5b in 2020 and is forecast to grow to US\$10.8b by 2030<sup>1</sup>.

# Immuno-Oncology Program – Clinical data and sample set grown to over 5,500 patients

During the half Microba's clinical data and sample set grew to over 5,500 patients. These additional clinical insights provide a powerful data package in support of potential future clinical development.

Through the national Precision Oncology Screening Platform Enabling Clinical Trials (PrOSPeCT) study. Microba is capturing a large and diverse bank of patient specimens for cancer patients receiving treatment and enrolled in clinical trials. This has quickly grown to over 5,500 patient samples and is expected to be one of the largest clinical specimen resources with respect to the microbiome and cancer treatment. This resource adds to more than 1,000 patient samples Microba has previously analysed from internally recruited and published studies.

Microba's Immuno-Oncology program is targeting the development of a therapeutic to improve response rates in cancer patients receiving Immune Checkpoint Inhibitor therapy. Global ICI sales continue to grow, with Merck announcing sales of the market-leading drug Keytruda of US\$29.5b for calendar year 2024<sup>2</sup>.

# Autoimmune Disease Program – Successful completion of discovery program

During the period, the six leads from the discovery program completed with Ginkgo Bioworks (NYSE: DNA) were further advanced through pre-clinical development activities and validation models towards securing the IP filings for these assets ahead of clinical development.

# Review of **Operations**

The six lead strains from the discovery program were advanced through studies to examine impact on gut barrier integrity and JAK/STAT pathway inhibition, confirming their disease relevant activity. In addition, the strains were further characterised for manufacturability and safety.

Microba's Autoimmune Disease program was established in partnership with Ginkgo Bioworks (NYSE: DNA) in FY22 following their strategic investment into Microba's IPO, and embodies a 2-year discovery program principally targeting three autoimmune disorders (lupus, psoriatic arthritis and autoimmune liver diseases). The global market for autoimmune disease treatments was estimated to be US\$198b in 2023 and forecast to grow to US\$288b by 2028<sup>3</sup>.

#### International Flavors & Fragrances (NYSE:IFF)

Microba continued to advance its multistage research program with IFF to develop novel microbiome-based treatments for multiple forms of allergy. The isolation campaign completed in H1 FY25 with six of the target lead species successfully isolated. The scheduled safety and manufacturability assessments of the lead strains has now been completed. Custom assays relevant to allergic responses were established at Microba and the ability of the lead species to modulate these responses is currently underway. These experiments are expected to be completed in H2 FY25.

To realise the value of the Company's therapeutic assets, and progress MAP 315 to a Phase 2 clinical trial in IBD, the Company is continuing to be active in a range of nondilutive strategic opportunities.

#### H1 FY25 Strategic Appointments

#### A number of key hires during the period including:

#### Eric Davis, Ex Abbott and Cochlear appointed as Chief Growth Officer

Eric brings 35 years of experience in global commercial leadership roles across strategic planning, new product innovation, marketing and sales. Eric has led high-performance teams at Cochlear and Abbott, driving numerous global product launches and significant revenue growth. Notably he played an instrumental role in the world's most successful medical device, the continuous glucose monitor, Freestyle Libre, now generating over \$5B in annual sales for Abbott. Eric is leading the next phase of Microba's global medical diagnostics go-to-market strategy and growth.

#### Chris Saad, Ex Uber appointed as Chief Product Officer

Chris is a renowned product leader with 25 years' experience building high-growth companies in Australia and Silicon Valley. A sought-after advisor globally in product leadership and organisation design, product strategy and product management. Notably, Chris was a product leader at Uber during its critical growth years.

# Alaster Stockwell-Jones, Ex Stryker and GE appointed as UK Commercial Director

Alaster comes to Microba as an experienced MedTech leader with 26 years' experience serving in leadership roles across the UK, US, EMEA, LATAM, ASEAN & APAC. He has commercialised some of the most recognised MedTech brands and most talked about new product launches in the Medical Device, therapeutic and diagnostic sectors from Eli Lilly to GE Healthcare to Styker and beyond. Alaster is leading the commercial "Go-to-market" execution in the United Kingdom.

MICROBA

# 02 Directors' Report

#### Microba Life Sciences Limited and controlled entities Directors' report For the half-year ended 31 December 2024

The Directors present their report, together with the condensed financial statements, on the consolidated entity (referred to hereafter as the 'Group' or 'Microba') consisting of Microba Life Sciences Limited (referred to hereafter as the 'Company' or 'parent entity') and the entities it controlled at the end of, or during, the half-year ended 31 December 2024.

#### **Directors and Company Secretaries**

The following persons were Directors of Microba Life Sciences Limited during the half-year period and up to the date of this report, unless otherwise stated:

Pasquale Rombola lan Frazer Gene Tyson Richard Bund Hyungate Kim Jacqueline Fernley

Independent Non-Executive Director Independent Non-Executive Director Non-Executive Director Non-Executive Director Non-Executive Director Independent Non-Executive Director

The names of the Company Secretaries in office at any time during or since the end of the half-year are:

#### James Heath

Peter Webse (resigned 31 August 2024)

The Company Secretaries have been in office since the start of the period to the date of this report unless otherwise stated.

#### Results

The loss for the Group after providing for income tax amounted to \$5,741,685 (31 December 2023: \$11,488,179).

#### Review of operations

Information on the operations and financial position of the Group is set out in the Review of Operations and Activities on pages to 10 of this condensed financial report.

#### Significant changes in the state of affairs

There were no significant changes in the state of affairs of the Group during the financial half-year, other than those referred to elsewhere in this report.

#### Principal activities

The principal activity of the Group during the year was providing world class microbiome testing and analysis services as well as developing new pathology services, therapeutics and diagnostics based on the human gut microbiome.

No significant change in the nature of these activities occurred during the half-year period.

#### After balance date events

On 10 February 2025, subsequent to the balance date, the Board granted share options to key and senior management personnel entitling them to acquire a total of 13,438,078 ordinary shares at an exercise price of \$0.379 cents per share.

No other matter or circumstance has arisen since 31 December 2024 that has significantly affected, or may significantly affect the Group's operations, the results of those operations, or the Group's state of affairs in future financial years.

#### **Dividends**

There were no dividends paid, recommended or declared during the current or previous financial half-year.

#### Auditor's independence declaration

A copy of the auditor's independence declaration is set out immediately after this Directors' report.

#### Microba Life Sciences Limited and controlled entities Directors' report For the half-year ended 31 December 2024

This report is made in accordance with a resolution of Directors. On behalf of the Directors:

Pasquale Rombola Chair

26 February 2025 Brisbane, Queensland

#### Note 1. General information

The financial statements cover Microba Life Sciences Limited as a consolidated group (referred to hereafter as the 'Group' or 'Microba') consisting of Microba Life Sciences Limited (referred to hereafter as the 'Company' or 'parent entity') and the entities it controlled at the end of, or during, the half-year.

Microba Life Sciences Ltd is a listed public company limited by shares, incorporated and domiciled in Australia. Its registered office and principal place of business is Level 10, 324 Queen Street, Brisbane, Queensland, Australia.

The financial statements were authorised for issue, in accordance with a resolution of Directors, on 26 February 2025.

#### Note 2. Material accounting policy information

#### Basis of preparation

The condensed consolidated interim general purpose financial statements for the half-year ended 31 December 2024 have been prepared in accordance with Australian Accounting Standard AASB 134 '*Interim Financial Reporting*', and the requirements of the shareholders and Directors. Compliance with AASB 134 ensures compliance with International Financial Reporting'.

The half-year financial report has been prepared under the historical cost convention, as modified by revaluations to fair value for certain classes of assets as described in the accounting policies.

The condensed consolidated interim financial statements do not include all the notes of the type normally included in annual financial statements. Accordingly, these financial statements are to be read in conjunction with the annual report for the year ended 30 June 2024 and any public announcements made by the Company during the interim reporting period in accordance with the continuous disclosure requirements of the *Corporations Act 2001*.

The accounting policies and methods of computation adopted in the preparation of the condensed consolidated financial report re consistent with those adopted and disclosed in the Group's annual financial report for the financial year ended 30 June 2024.

#### Going concern

The condensed consolidated financial statements have been prepared on a going concern basis, which contemplates continuity of normal business activities and the realisation of assets and the settlement of liabilities in the ordinary course of business.

The Group incurred a loss from ordinary activities of \$5,741,685 during the half- year ended 31 December 2024 (31 Dec 2023: loss of \$11,488,179) and has a net cash outflow from operating activities of \$2,671,431 (31 Dec 2023: \$11,574,830). The Group held cash and cash equivalents of \$17,316,014 at 31 December 2024 (30 June 2023: \$20,889,451).

In considering the ability of the consolidated entity to continue as a going concern, the Directors considered the following matters:

- the consolidated entity has the ability to raise additional capital through the issue of equity and is well supported by its major, and high-quality shareholders;
- the consolidated entity has a successful history of revenue growth within its testing and supplements business, whilst
  strategically collaborating with high quality peers within the industry, opening up opportunities and demonstrating success
  not only locally, but internationally;
- the consolidated entity has a successful history of progressing its drug therapeutic development programs and has been successful in receiving R&D tax incentives under the R&D tax incentive scheme; and
- the consolidated entity has the ability to reduce expenditure levels should this be required in the foreseeable future.

Having assessed the future cash flows for the 12 month period subsequent to this report, the Directors believe that the consolidated entity will continue to operate as a going concern for at least one year from the date of this report. Therefore, the Directors consider it is appropriate to prepare the financial statements on a going concern basis.

#### Rounding of amounts

The Company is of a kind referred to in Corporations Instrument 2016/191, issued by the Australian Securities and Investments Commission, relating to "rounding off". Amounts in this report have been rounded off in accordance with that Corporations Instrument to the nearest dollar.

#### Note 2. Material accounting policy information (continued)

#### **Business Combinations**

The acquisition method of accounting is used to account for business combinations regardless of whether equity instruments or other assets are acquired.

The consideration transferred is the sum of the acquisition-date fair values of the assets transferred, equity instruments issued or liabilities incurred by the acquirer to former owners of the acquiree. All acquisition costs are expensed as incurred to profit or loss.

On the acquisition of a business, the Group assesses the financial assets acquired and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic conditions, the Group's operating or accounting policies and other pertinent conditions in existence at the acquisition-date.

Contingent consideration to be transferred by the acquirer is recognised at the acquisition-date fair value. Subsequent changes in the fair value of the contingent consideration classified as an asset or liability is recognised in profit or loss.

The difference between the acquisition-date fair value of assets acquired and liabilities assumed in the acquiree and the fair value of the consideration transferred is recognised as goodwill. Any goodwill that arises is tested annually for impairment. Transaction costs are expensed as incurred except if related to the issue of debt or equity securities.

#### New or amended Accounting Standards and Interpretations adopted

The Group has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

-Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

#### Note 3. Revenue from contracts with customers

Disaggregation of revenue from contracts with customers is as follows:

S	31 Dec 2024 \$	31 Dec 2023 \$
Personal Testing & Supplements - revenue recognised at a point in time Personal Testing & Supplements - revenue recognised over time Research Testing - revenue recognised over time	6,850,105 50,646 1,183,385	2,027,035 298,192 947,628
	8,084,136	3,272,855

On 16 September 2024, the Group entered into an agreement for the strategic transfer of its non-core Research Testing Services business unit to CMBio (formerly Clinical Microbiomics A/S), a Denmark headquartered, global contract research organisation specialising in microbiome genetic and metabolic analysis to industry and academic institutions. The transfer of the Group's Research Testing Services business unit will allow it to allocate 100% of its testing operations and business development resources to the growth of its core diagnostic microbiome testing business.

Microba recognises revenue from contracts with customers as follows:

#### Note 3. Revenue from contracts with customers (continued)

Less: Allowance for expected credit losses	(78,452)	(17,929)
	2,160,034	8,102,722

During the period, the Group accessed the Australian Federal Government's Research & Development Tax Incentive Program which provides access to a 43.5% tax incentive to the Group for eligible Research & Development (R&D) activities. The R&D Tax Incentives for the Group are recognised as Grant & Subsidies income and are recognised when it is probable that the Group will be able to realise the benefit and when the amount can be reliably estimated. The Group's income from the Research and Development Tax Incentive receivable for the interim period has been accrued based on the Group's estimated eligible research and development expenditure during the period being \$1,178,441. The Research and Development Tax Incentive will be lodged after the close of the current financial year, and will be received after financial year end (30 June 2025). During the current period the Research and Development Tax incentive for the financial year ended 30 June 2024 has been received in full (\$5,993,291).

	1,220,036	395,387

#### Equipment loan

A funding arrangement was entered into to finance the purchase of a state-of-the-art Illumina NovaSeqX Plus sequencing machine. The funding is secured against the machine. The balance originally drawn was \$1,298,209 on 30 July 2024. The funding arrangement is repayable over 36 equal monthly instalments, with a fixed interest rate of 8.52%. The funding agreement is secured against the asset and requires a term deposit of \$1,000,000 to be held as additional security (note 4).

9,094,222

#### Note 9. Borrowings (continued)

#### Insurance premium funding

Insurance premium funding is utilised by the Group to evenly distribute annual insurance premiums owed over an 10 month period, as a liquidity management strategy. The balance owed in relation to the Group's insurance premium funding arrangement is shown above.

#### Note 10. Lease liabilities

	31 Dec 2024 \$	30 Jun 2024 \$

#### Note 11. Other liabilities

CO	31 Dec 2024 \$	30 Jun 2024 \$
Current liabilities Deferred Government Grants - Research and Development Tax Incentive ovated lease liability Contingent consideration payable	160,131 4,745 1,958,971_	127,160 2,792 2,324,338
	2,123,847	2,454,290
Non-current liabilities		
Deferred government grants - Research and Development Tax Incentive Contingent consideration payable	359,492	458,986 1,834,754
	359,492	2,293,740
	2,483,339	4,748,030

The contingent consideration payable is a pre-determined fixed sum that may be disbursed to the previous shareholders of Invivo Clinical Limited, comprising both cash and shares. This payment is contingent upon the attainment of specific revenue targets in both Year 1 and Year 2 of the company's operation post acquisition. Management has assessed the fair value of the contingent consideration by calculating the present value of anticipated future cash outflows, factoring in the likelihood of meeting the specified revenue targets. An amount of \$2,449,795 has been credited to the condensed statement of profit or loss and other comprehensive income on 5 December 2024, being treated as other income, as Year 1 targets have not been met.

#### Note 12. Issued capital

	31 Dec 2024	30 Jun 2024	31 Dec 2024	30 Jun 2024
	Shares	Shares	\$	\$
Ordinary shares	447,851,977	447,851,977	102,881,628	102,881,628

#### Rights of each type of share

Ordinary shares participate in dividends and the proceeds on winding up of the parent entity in proportion to the number of shares held.

At shareholders meetings each ordinary share is entitled to one vote when a poll is called.

#### Share buy-back

There is no current on-market share buy-back.

#### Note 13. Share-based payments

#### **Equity-settled share-based payments**

#### Employee option plan

The Group has approved an employee share and option plan titled the 'Microba Employee Share and Option Plan' ('ESOP') designed, to provide eligible persons with the opportunity to participate at the discretion of the directors. The shares and options issued under the plan are subject to vesting conditions and disposal restrictions. Options issued under the ESOP are issued at a premium to the last share issuance price to align employee and shareholder interests.

npetails of the options granted are provided below:

Grant date	Expiry date	Exercise price	Balance at 1 July 2024	Granted during the period	Forfeited/ expired during the period	Exercised during the period	Balance at 31 Dec 2024
25/11/2019	24/11/2024	\$0.288	4,300,000	-	(4,300,000)	-	-

#### Note 16. Operating segments

#### Identification of reportable operating segments

The Group is organised into two (2) operating segments: Testing Services and Supplements, and Research & Development. These operating segments are based on the internal reports that are reviewed and used by the Board of Directors (who are identified as the Chief Operating Decision Maker ('CODM')) in assessing performance and in determining the allocation of resources. There is no aggregation of operating segments.

The CODM reviews the profit and loss before tax of the consolidated Group on a monthly basis. The accounting policies adopted for internal reporting to the CODM are consistent with those adopted in the financial statements.

#### Major Customers

During the half year period, there were no significant customers from which 10% or more of the Group's external revenue was derived.

#### Note 16. Operating segments (continued)

Details of all related party relationships have been disclosed in the annual report for the year ended 30 June 2024. There were no new transactions with related parties during the current financial half-year.

#### Note 18. Business combinations

The purchase price of \$17,536,046. Invivo is a microbiome testing leader for healthcare professionals in the United Kingdom. The purchase price of \$17,536,046. Invivo is a microbiome testing leader for healthcare professionals in the United Kingdom. The vivo has established a base of over 1,700 active customers, and an engaged list of additional 5,800 prospective customers. Addition to its leading position in Gastrointestinal microbiome testing services, Invivo has testing products spanning Vaginal, Oral and Urinary testing, together with a targeted set of evidence-based intervention formulations.

The acquisition of Invivo aligns to Microba's core testing services growth strategy in expanding internationally into high value markets in a capital efficient manner. The United Kingdom is a key market in the next phase of Microba's international testing services growth strategy. Acquiring a market leading position, customer and geographical base in the United Kingdom, together with Sonic Healthcare provides deep access to the entire UK healthcare market spanning private practice and the public NHS environment.

The acquisition includes contingent consideration of \$8,576,002 subject to meeting key revenue targets for the first and second year of operation under the ownership of the Company. Consequently, this amount has been assessed as purchase consideration and has been included in the acquisition-date fair value of the total consideration transferred after discounting and adjusting for managements' estimates of the revenue targets being achieved. An amount of \$2,449,795 has been credited to the statement of profit or loss and other comprehensive income on 5 December 2024, being treated as other income, as Year 1 targets have not been met.

The acquired business contributed revenue of \$9,214,582 and a net loss after tax of \$808,898 to the Group for the period since acquisition on 5 December 2023 to 31 December 2024. If the acquisition had occurred on 1 July 2023, the contributed revenue for the 18 months to 31 December 2024 would have been \$12,888,638 and net loss after tax of \$807,982.

There has been \$1,005,740 of acquisition related costs incurred to date and expensed in Legal and intellectual property advisory fees (\$489,926), Consulting fees (\$350,015) and Accounting fees included within Other expenses (\$165,799).

As at 31 December 2024, the accounting for this business combination is final.

<sup>1</sup> Following the finalisation of the tax treatment for the acquired technology assets of Invivo Clinical (UK) Limited, it was concluded that the future amortisation of these assets is non-deductible for tax purposes, resulting in the recognition of a deferred tax liability (DTL) of £339,861 (\$647,701). This measurement period adjustment has led to an increase in goodwill and a revision to the previously reported deferred tax liability as of 30 June 2024. The impact of this adjustment has been fully reflected in the condensed consolidated financial statements as of 31 December 2024, finalising the acquisition accounting for Invivo Clinical (UK) Limited

No contingent liabilities or guarantees existed at the acquisition date.

#### Note 18. Business combinations (continued)

The fair value, and the gross amount, of the Trade receivables is \$259,006 has been collected apart from one debt that was provided for in full valued at \$18,028.

The results of this operation form part of the testing services & supplements segment and are classified therein.

The total goodwill arising on acquisition is \$9,144,466 which relates predominantly to the acquisition of key management, specialised know-how of the workforce, key stakeholder relationships, competitive position and product & service offerings that do not meet the recognition criteria as an intangible asset at the date of acquisition.

#### Note 19. Events after the reporting period

On 10 February 2025, subsequent to the balance date, the Board granted share options to key and senior management personnel entitling them to acquire a total of 13,438,078 ordinary shares at an exercise price of \$0.379 cents per share.

Personnel entitling them to acquire a total of 13,438,078 ordinary shares at an exercise price of \$0.379 cents per share.
No matter or circumstance has arisen since 31 December 2024 that has significantly affected, or may significantly affect the Group's operations, the results of those operations, or the Group's state of affairs in future financial years.

#### **Microba Life Sciences Limited and controlled entities Directors' declaration** For the half-year ended 31 December 2024

The Directors of the company declare that:

- the attached financial statements and notes comply with Australian Accounting Standard AASB 134 'Interim Financial . Reporting';
- the attached financial statements and notes give a true and fair view of the Group's financial position as at 31 December 2024 and of its performance for the financial half-year ended on that date; and
- there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

Signed in accordance with a resolution of Directors.

Independent Auditor's Review Report to the Members of Microba Life Sciences Limited

#### **Report on the Half-Year Financial Report**

#### Conclusion

We have reviewed the half-year financial report of Microba Life Sciences Limited (the "Company") and its controlled entities ("the Group"), which comprises the condensed consolidated statement of financial position as at 31 December 2024, the condensed consolidated statement of profit or loss and other comprehensive income, condensed consolidated statement of changes in equity and condensed consolidated statement of cash flows for the half-year ended on that date, a summary of material accounting policies and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of the Group does not comply with the *Corporations Act 2001* including:

- (a) giving a true and fair view of the Group's financial position as at 31 December 2024 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.

#### **Basis for Conclusion**

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the Auditor's Responsibilities for the Review of the Financial Report section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001* which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's review report.

#### **Responsibility of the Directors for the Financial Report**

The directors of the Group are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Pitcher Partners is an association of independent firms. An Independent Queensland Partnership ABN 84 797 724 539. Liability limited by a scheme approved under Professional Standards Legislation. Pitcher Partners is a member of the global network of Baker Tilly International Limited, the members of which are separate and independent legal entities.

#### Auditor's Responsibility for the Review of the Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2024 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting and the Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
