Ms A. Tansey

Principal activities

The principal activities of the Company and its controlled entities were the provision of salary packaging, novated leasing, disability plan management, support co-ordination, asset management and related financial products and services.

In the opinion of the Directors, there were no significant changes in the nature of activities of the Company and its controlled entities during the course of the half year ended 31 December 2024.

Review of operations

The consolidated net profit for the half year ended 31 December 2024 attributable to the members of the Company after providing for income tax was \$45,224,000 (1HFY24: \$37,581,000).

Normalised UNPATA from continuing operations for the half year ended 31 December 2024 was \$49,634,000 (1HFY24: \$53,213,000).

Review of operations - Group

In the first half of FY25 MMS continued to progress its strategy focused on delivering long term sustainable growth. The Company achieved revenue growth across all three segments, providing valuable support to Australians amid ongoing cost-of-living pressures while continuing to invest in customer growth and ongoing efficiencies.

The Simply Stronger program remains on track, focused on delivering superior digital experiences, technology-enabled productivity and broadening solutions and relationships.

The Company made strategic investments in the half with operating expenses up \$11.9m or 6.8% vs 1HFY24. The increase in expenditure has supported the Simply Stronger program, Oly growth, and initiatives to enhance customer experience, drive process automation.

These investments provided benefits within the half including Oly which grew to be 3% of GRS novated sales, PSS invoice automation which delivered an increase in invoices processed per FTE up 31%, new client wins, and cost savings of ~\$0.4m in the half, with further benefits expected in 2HFY25. Operating expenses in 1HFY25 include \$4.4m in non-recurring costs.

Onboard Finance's momentum continued with novated lease receivables up 97% compared to December 2023 with additions in the half representing circa 20% of Group Remuneration Services (GRS) novated lease volumes (excluding Oly). In the half, Onboard Finance successfully completed an amortising private debt placement for \$300m, adding investor diversity, an improved maturity profile and an increase in funding headroom for the securitisation program.

MMS delivered strong Normalised ROCE at 61.7% and declared an interim dividend of 71c representing 100% of Normalised UNPATA.

Group Remuneration Services (GRS)

The GRS segment demonstrated revenue resilience in the half, growing Normalised Revenue to \$143.7m, up 0.7%, despite the previously announced non-renewal of the South Australian Government contract.

Novated lease sales grew 6.8% on pcp reflecting continuing order momentum and faster order-to-sale conversion from improved vehicle delivery times. The improved conversion on orders taken during the period drove a reduction in carryover, decreasing from \$24.8m at 30 June 2024 to \$15.5m at 31 December 2024. Yields were relatively stable compared with 2HFY24 down 0.7%.

The Oly rollout gained traction in the market, attracting new customers and expanding distribution via partnerships with key manufacturers and dealerships, representing approximately 3% of GRS novated lease sales for the half.

Normalised EBITDA was \$55.4m, a 13.8% decline reflecting the investments in the Oly rollout, enhancements to customer experience, process automation and the Simply Stronger program, which includes \$4.4m non-recurring costs. Excluding non-recurring costs, EBITDA was \$59.8m, with a margin of 41.6%.

Directors' Report

Asset Management Services (AMS)

The AMS segment delivered 2.4% revenue growth for the first half of FY25 to \$92.3m. This growth reflected new business wins and improvements in vehicle supply which supported the renewal of fleets. Fleet renewals and growth in financed assets supported higher written down value levels which were up 8.8%.

Remarketing units were up 5.7% compared with 1HFY24 offset by lower yields from the expected moderation in used vehicle prices.

EBITDA decreased by 2.5% to \$14.7m in the half reflecting lower remarketing yields, investments made in digital enhancements and business development resources to support client growth.

	1HFY25 \$m	1HFY24 \$m	Change %
Statutory revenue	92.3	90.1	2.4%
EBITDA ⁴	14.7	15.1	(2.5%)
UNPATA ⁵	9.6	9.9	(3.0%)

Refer notes 1-6 at the end of Review of Operations below

Plan and Support Services (PSS)

The PSS segment delivered growth across all key financial metrics during the first half of FY25. Segment revenue increased by 6.0% to \$27.8m reflecting a 10.1% increase in customers, with the segment now supporting over 37,000 NDIS participants. The trend of lower renewal rates continued as the Scheme continues to lengthen NDIS plan durations.

EBITDA increased by 19.7% to \$8.1m reflecting a continued focus on customer experience, turnaround times, operational efficiency and automation, which led to a 23.3% improvement in the customers per FTE measure.

During the period, the NDIA provided further clarity on which supports are eligible for funding under the Scheme as part of its efforts to enhance the sustainability and efficiency of the NDIS. PSS remains committed to supporting these objectives by working closely with the NDIA, the Federal Government, and other stakeholders.

As part of our ongoing efforts to support the integrity and sustainability of the NDIS, our integrity checks flagged \$31.2 million in invoices for further investigation, while delivering \$45.7 million in Scheme savings during the period.

Notes for performance metric tables

- Continuing operations. All financial information and metrics in the review of operations are from continuing operations only
 unless otherwise stated. Discontinued operations in 1HFY24 relates to previously announced divestments of Aggregation
 and UK businesses.
- Normalised revenue, Normalised expenses, Normalised EBITDA, Normalised UNPATA, UNPATA and Normalised EPS are non-IFRS metrics used for management reporting. The Group believes Normalised UNPATA and UNPATA reflects what it considers to be the underlying performance of the business.
- 3. Normalised refers to adjustments made for the negative earnings transitional period for the implementation of the funding warehouse, Onboard Finance ("Warehouse"). The adjustment normalises for the Warehouse's in year operating income and expenses and an adjustment for commissions that would have otherwise been received had the sales been financed via a principal and agency funder rather than through the Warehouse. Normalised financials are stated for 1HFY25 and 1HFY24 (for comparative purposes) and will to be stated up to and including FY25. Normalised impacts of 1HFY25 are Revenue \$9.4m, EBITDA (\$5.4m), EBIT (\$6.1m) and UNPATA of (\$4.3m) and 1HFY24 are Revenue (\$4.6m), EBITDA (\$12.6m), EBIT (\$13.3m) and UNPATA of (\$9.3m).

Directors' Report

- 4. Earnings before interest (excluding fleet and warehouse asset related interest), tax, depreciation (excluding fleet operating lease depreciation) and amortisation (EBITDA) excludes the pre-tax impact of acquisition and divestment related activities and non-operational items otherwise excluded from UNPATA on a post-tax basis.
- 5. Underlying net profit after tax and amortisation (UNPATA), being net profit after tax but before the after-tax impact of acquisition and divestment related activities and non-operational items.
- 6. Normalised return on capital employed (ROCE), is based on last 12 months' Normalised earnings before interest and tax (EBIT). Normalised EBIT (continuing operations) is before the pre-tax impact of acquisition and divestment related activities and non-operational items otherwise excluded from UNPATA on a post-tax basis. Capital employed (excluding lease liabilities) used in the calculations includes the add back of impairment of acquired intangible asset charges incurred in the respective financial period and also includes add back for the Warehouse.

Outlook

MMS expects 2HFY25 Normalised UNPATA to be higher than 1HFY25. For the second half, benefits are expected from growth in novated sales reflecting order momentum, Oly, net new client wins, Simply Stronger efficiencies, and a reduction in non-recurring costs.

Onboard Finance will continue to target ~20% of novated volumes with a Normalisation adjustment of ~(\$8m) expected in FY25, the final year of Normalisation.

The FBT exemption for plug-in hybrids will end on 1 April 2025, the exemption on battery EVs continues with the Federal Government committed to review the FBT EV Discount by mid-2027.

The Company will focus on our strategic priorities – excelling in customer experience, driving simplicity and technology-enablement and broadening our solutions and relationships.

Directors' Report

Indemnification and insurance

Under the Company's Constitution, the Company indemnifies the Directors and officers of the Company and its wholly owned subsidiaries to the extent permitted by law against any liability and all legal costs in connection with proceedings incurred by them in their respective capacities.

The Company has also entered into a Deed of Access, Indemnity and Insurance (Deed) with each Director and each Company Secretary which protects individuals acting as officeholders during their term of office and after their resignation. Under the Deed, the Company also indemnifies each officeholder to the full extent permitted by law.

The Company has a Directors & Officer Liability Insurance policy in place for all current and former officers of the Company and its controlled entities. The policy affords cover for loss in respect of liabilities incurred by Directors and officers where the Company is unable to indemnify them and covers the Company for indemnities provided to its Directors and officers. This does not include liabilities that arise from conduct involving dishonesty. The Directors have not included the details of the premium paid with respect to this policy as this information is confidential under the terms of the policy.

For the half year ended 31 December 2024

1. Basis of preparation

McMillan Shakespeare Limited (the Company) is a company limited by shares, incorporated and domiciled in Australia.

The consolidated interim financial report is a general purpose financial report prepared in accordance with the International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB), *Corporations Act 2001* and AASB 134 *Interim Financial Reporting.* The Group has prepared the interim financial report on the basis that it will continue to operate as a going concern.

This consolidated interim financial report does not include all the information and disclosures required in the annual financial report. Accordingly, this report is to be read in conjunction with the annual report for the year ended 30 June 2024 and any public announcements made by the Company during the half year period in accordance with the continuous disclosure requirements arising under the Australian Securities Exchange Listing Rules and the *Corporations Act 2001*. The Company is a for-profit entity for financial reporting purposes under the Australian Accounting Standards.

Rounding of amounts

The Company is of a kind referred to in ASIC Corporations (Rounding in Financials/Directors' Reports) Instrument 2016/191, issued by the Australian Securities and Investments Commission, relating to the "rounding off" of amounts in the financial report. Amounts in the financial report have been rounded off in accordance with that Corporations Instrument to the nearest thousand dollars, or in certain cases, the nearest dollar.

The consolidated interim financial report was approved by the Board of Directors on 27 February 2025.

2. Significant accounting policy changes

The same accounting policies and methods of computation have been followed in this interim financial report as were applied in the Group's last annual financial report for the year ended 30 June 2024. There were no new or amended Accounting Standards that are effective for the current period which have a material impact upon the Group.

Where appropriate amounts have been adjusted to ensure comparability between reporting periods.

3. Segment reporting

Operating segments have been identified after considering the nature of the products and services, type of customer and distribution methods.

Reportable Segment	Service provided
Group Remuneration	Administrative services in respect of salary packaging and facilitating motor
Services (GRS)	vehicle novated leases for customers.
	Ancillary services associated with motor vehicle novated lease products,
	including the provision of novated lease finance.
Asset Management Services (AMS)	Financing and ancillary management services associated with motor vehicles, commercial vehicles and equipment with operations in Australia and New Zealand.
Plan and Support Services (PSS)	Plan management and support coordination services to participants in the National Disability Insurance Scheme (NDIS).

Underlying net profit after-tax and amortisation (UNPATA), being net profit after tax but before the after-tax impact of acquisition and divestment related activities and non-operational items (as outlined in the following tables), is the key measure by which management monitors the performance of the segments. Segment revenue and expenses are reported as attributable to the shareholders of the Company.

Normalised UNPATA refers to adjustments made for the negative earnings transitional period for the implementation of the funding warehouse, Onboard Finance (Warehouse). The adjustment normalises for the Warehouse's in year operating income and expenses and an adjustment for commissions that would have otherwise been received had the sales been financed via a principal and agency (P&A) funder rather than through the Warehouse. Normalised financials are stated for 1HY24 and 1HY25 and will be stated up to and including FY25.

4. Revenue

Set out below is the disaggregation of the Group's revenue.

	31 Dec 2024 \$'000	31 Dec 2023 \$'000
Revenue from contracts with customer		
Remuneration services	121,744	119,848

Lease rental services	71,858	56,111
Other revenue	430	122
	264,579	245,705

The Group has disaggregated revenue recognised from contracts with customers into categories that relate to the services performed across the business such as remuneration services including salary packaging and novated leases, sale of leased and other assets, lease rental services, and disability plan and support services. Revenue is recognised as services are rendered.

5. Cash and cash equivalents

	31 Dec 2024 \$'000	30 Jun 2024 \$'000
Bank balances	146,168	152,699
Short term deposits	252	253
	146,420	152,952

Cash and cash equivalents

Includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of 3 months or less that are readily convertible to known amounts of cash subject to an insignificant risk of changes in value. Cash and cash equivalents are controlled by the Group and the contractual rights transfer to the Company substantially all of the benefits and risks of ownership.

Cash at bank and short-term deposits earn interest at floating rates at an average interest rate of 4.15% pa (31 December 2023: 4.01% pa). Short-term deposits have an average maturity of 90 days (31 December 2023: 90 days) and are highly liquid.

Restricted client trust funds for salary packaging	(467,117)	(403,364)	

Restricted client trust Funds recognised in the Statement of Financial Position

Pursuant to contractual arrangements with clients, GRS administers cash flows on behalf of clients as part of the remuneration benefits administration service. These funds are for the purpose of making salary packaging payments on behalf of those customers only and therefore not available to settle group liabilities and are held on trust for the benefit of clients. The Group has recognised these funds in the Statement of Financial Position.

The cash in the Restricted client trust funds is held in bank accounts specifically designated as funds in trust for clients, with all client trust funds segregated from the Group's own cash. Pursuant to contractual arrangements, the Group may earn interest from these client funds held in trust. The average interest rate on Restricted client trust funds for the period ended 31 December 2024 was 4.58% pa (31 December 2023: 4.50% pa).

6. Finance lease receivables

	31 Dec 2024 \$'000	30 Jun 2024 \$'000
Current finance lease receivables	86,138	68,067
Non-current finance lease receivables	335,923	268,545
	422,061	336,612

The Onboard Finance and AMS finance lease contracts entered into are recognised as finance lease receivables and classified as financial assets measured at amortised cost as the contract transfers substantially all the risks and rewards of ownership of an underlying asset. The net investment in the lease equals the net present value of the future minimum lease payments. Finance lease income (referred to as revenue from lease rental services) is recognised as income in the period to reflect a constant periodic rate of return.

(a) Impairment test of goodwill

An impairment loss is recognised in the profit or loss for the amount that the asset's carrying value exceeds the recoverable amount. Recoverable amount is determined as the higher of the asset's fair value less costs to sell and value-in-use (VIU). For the purpose of assessing fair value, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of cash inflows from other assets (CGUs). Where the asset does not generate independent cash flows, the Group estimates the recoverable amount of the CGU to which the asset belongs.

For the half year ended 31 December 2024

The carrying amount of goodwill is allocated to the Group's cash-generating units (CGUs) listed below based on the organisation and management of its businesses.

		Consolidated Group									
	Goodwill	Intangibles	Total 31 Dec 2024	Goodwill 30 Jun 2024	Intangibles 30 Jun 2024	Total 30 Jun 2024

No indicators of goodwill impairment were identified for the half year ended 31 December 2024, and there remains no reasonably possible changes to assumptions which would result in any indicator of impairment.

9. Borrowings

	31 Dec 2024 \$'000	30 Jun 2024 \$'000
Current		
Other external loans payable	4,087	2,200
Total current borrowings	4,087	2,200
Non-current		
Bank loans	231,282	229,737
Notes payable	404,511	311,261
Other external loans payable	-	4,034
Total non-current borrowings	635,793	545,032
Total borrowings	639,880	547,232

Bank loans, notes payable and other loans payable are initially recorded at fair value, net of transaction costs and subsequently measured at amortised cost using the effective interest rate method. The effective interest rate method exactly discounts the estimated cash flows through the expected life of the borrowing. Transaction costs comprise fees paid for the establishment of loan facilities and are amortised over the term of the borrowing facilities.

The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Group for similar financial instruments. The fair value of current borrowings approximates the carrying amount, as the impact of discounting is not significant.

Other external loans payable is an amount payable in respect of the sale of the RFS retail business. There are no financial covenants in respect of this loan balance.

For the half year ended 31 December 2024

Financing arrangements

Committed revolving borrowing facilities for the AMS and GRS businesses to finance their lease portfolios, together with other borrowing requirements used for Group liquidity purposes are as follows:

Bank loan and notes payable facilities in local	;	31 Dec 2024		3	0 June 2024	
currency (AUD'000)	Facility	Utilised	Unutilised	Facility	Utilised	Unutilised
AMS bank loan facilities ¹	210,879	171,282	39,597	210,903	169,737	41,166
Other bank loan facilities	60,000	60,000	-	60,000	60,000	-
Warehouse notes payable facilities ²	661,511	404,511	257,000	364,200	311,261	52,939
Total bank loans and notes payable facilities	932,390	635,793	296,597	635,103	540,998	94,105

- 1. Bank loans include capitalised borrowing costs of \$408,000 (30 June 2024: \$468,000). Capitalised borrowing costs include loan establishment fees and legal costs. Establishment fees were applied at an average rate of 0.26% (30 June 2024: 0.26%).
- Warehouse notes payable include capitalised securitisation establishment fees and legal costs of \$1,289,000 (30 June 2024: \$nil)

Revolving AMS facilities with varying maturity dates have been provided by a financing club of three major Australian banks operating under common terms and conditions.

10. Financial instruments

Fair value measurement

The Group measures financial instruments such as derivatives at fair value at each balance date.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement:

Level 1	Derived from quoted prices (unadjusted) in active markets for identical assets or liabilities
Level 2	Derived from inputs other than quoted prices included in level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
Level 3	Derived from inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The Group has classified its financial assets and financial liabilities into the three levels as prescribed under the accounting standards, with details provided in the following table of those financial assets and liabilities measured at fair value.

	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	Total \$'000
31 Dec 2024				
Financial assets / (liabilities)				
Derivatives used for hedging	-	(2,384)	-	(2,384)
Total financial assets / (liabilities)	-	(2,384)	-	(2,384)
30 Jun 2024				
Financial assets / (liabilities)				
Derivatives used for hedging	-	1,680	-	1,680
Total financial assets / (liabilities)	-	1,680	-	1,680

The carrying amount of the Group's financial assets and financial liabilities approximate their fair values, except for finance lease receivables as detailed in Note 6. The carrying amount of trade and other receivables, trade and other payables and other liabilities is assumed to be the same as their fair values, due to their short-term nature. The Group considers the fair value of borrowings to be not materially different to their carrying amounts as the interest rates applicable are consistent with market rates.

For the half year ended 31 December 2024

For assets and liabilities that are recognised at fair value on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level of input that is significant to the fair value measurement as a whole) at the end of each reporting period. There were no transfers between Level 1 and Level 2 fair value measurements, and no transfers into or out of Level 3 fair value measurements for the period ended 31 December 2024.

There were no changes in the Group's valuation processes, valuation techniques, and types of inputs used in the fair value measurements during the period.

Financial risk management

Credit risk

Finance lease, trade and other receivables are assessed for impairment at the end of each reporting period on an expected credit loss (ECL) basis. The Group applies the AASB 9 simplified model of recognising lifetime expected credit losses for all receivables as these items do not have a significant financing component. In measuring the expected credit losses, the trade receivables and finance lease receivables have been grouped based on substantially shared credit risk characteristics. Trade receivables include a total loss allowance of \$642,000 (30 June 2024: \$1,872,000) which includes a specific loss allowance of \$114,000 (30 June 2024: \$133,000). Finance lease receivables include a total loss allowance of \$2,056,000 (30 June 2024: \$1,673,000).

Asset risk

The portfolio of motor vehicles under operating lease and the residual value of assets under P&A arrangements and other facilities of \$265,397,000 (30 June 2024: \$271,888,000) include a residual value provision of \$2,857,000 (30 June 2024: \$2,888,000).

Derivative financial instruments

In accordance with the Group's Treasury Policy, derivative interest rate products entered into include interest rate swaps, forward rate agreements and options as cash flow hedges to mitigate both current and future interest rate volatility that may arise from changes in the fair value of its borrowings.

The amounts relating to hedged items and hedging instruments are as follows:

Cash flow hed	lges	Nominal amount of the hedging instrument \$'000	Carrying amount of the hedging instrument Assets Liabilities \$'000 \$'000		Statement of financial position where the hedging instrument is located \$'000	Changes in fair value used for calculating hedge ineffectiveness \$'000
Interest rate ri	sk					
Interest rate	31 Dec 2024	566,056	87	(2,500)	635,793	(4,071)
swaps	30 Jun 2024	481,822	1,676	26	540,998	(261)

There has been no hedge ineffectiveness in relation to the cash flow hedges and therefore \$nil profit or loss recognised for the period ended 31 December 2024.

Independent auditor's review report to the members of McMillan Shakespeare Limited

Conclusion

We have reviewed the accompanying half-year financial report of McMillan Shakespeare Limited (the Company) and its subsidiaries (collectively the "Group"), which comprises the consolidated statement of financial position as at 31 December 2024, the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the half-year ended on that date, explanatory notes and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of the Group does not comply with the *Corporations Act 2001*, including:

- a. Giving a true and fair view of the consolidated financial position of the Group as at 31 December 2024 and of its consolidated financial performance for the half-year ended on that date; and
- b. Complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Basis for conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity* (ASRE 2410). Our responsibilities are further described in the *Auditor's responsibilities for the review of the half-year financial report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Directors' responsibilities for the half-year financial report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's responsibilities for the review of the half-year financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2024 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
