

APPENDIX 4D AND INTERIM FINANCIAL STATEMENTS

PERTH, Australia and SAN FRANCISCO, California - 27 February 2025

PYC Therapeutics, (ASX:PYC) ('PYC' or 'the Company'), submits the following Appendix 4D and 31 December 2024 Interim Financial Statements.

This ASX announcement was approved and authorised for release by the Board of PYC Therapeutics Ltd

About PYC Therapeutics

PYC Therapeutics (ASX: PYC) is a clinical-stage biotechnology company creating a new generation of RNA therapies to change the lives of patients with genetic diseases. The Company utilises its proprietary drug delivery platform to enhance the potency of precision medicines within the rapidly growing and commercially proven RNA therapeutic class. PYC's drug development programs target monogenic diseases – **the indications with the highest likelihood of success in clinical development**¹.

Forward looking statements

Any forward-looking statements in this ASX announcement have been prepared on the basis of a number of assumptions which may prove incorrect and the current intentions, plans, expectations, and beliefs about future events are subject to risks, uncertainties and other factors, many of which are outside the Company's control. Important factors that could cause actual results to differ materially from assumptions or expectations expressed or implied in this ASX announcement include known and unknown risks. Because actual results could differ materially to assumptions made and the Company's current intentions, plans, expectations, and beliefs about the future, you are urged to view all forward-looking statements contained in this ASX announcement with caution. The Company undertakes no obligation to publicly update any forward-looking statement whether as a result of new information, future events or otherwise.

This ASX announcement should not be relied on as a recommendation or forecast by the Company. Nothing in this ASX announcement should be construed as either an offer to sell or a solicitation of an offer to buy or sell shares in any jurisdiction.

PYC Therapeutics Limited and its controlled entities Directors' report 31 December 2024

The Directors present their report, together with the financial statements, on the consolidated entity (referred to hereafter as the 'consolidated entity' or 'the Group') consisting of PYC Therapeutics Limited and its controlled entities (referred to hereafter as the 'Company' or 'parent entity') and the entities it controlled at the end of, or during, the half-year ended 31 December 2024.

Review of operations

PYC Therapeutics is a clinical-stage biotechnology company developing a pipeline of precision medicines for patients who have genetic diseases and no treatment options available today. The Company combines its proprietary drug delivery platform with its precision drug design capability to create novel therapeutics within the rapidly growing RNA therapeutic class. PYC has four first-in-class drug candidates in its pipeline - each of which addresses the underlying cause of the relevant disease.

During the six months ending 31 December 2024, the Company made material progress in all four drug development programs including:

- Presentation of data from ongoing phase 1/2 studies demonstrating that patients were improving on two registrational endpoints following treatment with the Company's investigational drug candidate for Retinitis Pigmentosa Type 11 (RP11). This drug candidate (currently known as VP-001) also received Orphan Drug Designation and Rare Pediatric Designation from the US Food and Drug Administration (FDA) during the period.
 Commencement of dosing in patients with the first drug candidate (PYC-001) that addresses the underlying cause of Autosomal Dominant Optic Atrophy (ADOA). This drug candidate also received Rare Pediatric Disease designation from the FDA during the period.
 Completion of pre-clinical studies for PYC-003, a drug candidate with disease-modifying potential in Polycystic Kidney Disease (PKD). The successful completion of pre-clinical studies in this program was followed by receipt of the relevant regulatory approvals to commence human trials for this drug candidate following the end of the half-year period.
 Nomination of a clinical development candidate for the Phelan-McDermid Syndrome (PMS) program. PMS is a severe childhood neurodevelopmental disorder and the nomination of the clinical candidate occurred following successful pre-clinical studies in both animal and patient-derived models supporting both the safety and efficacy profile of the drug candidate.

programs through to FY27 providing sufficient runway to deliver critical human safety and efficacy data in the Company's three clinical-stage drug development programs¹.

The interim financial statements have been reviewed by the Group's independent auditor which includes a paragraph regarding a material uncertainty in relation to going concern. For further information, refer to note 1 of the interim financial statements, together with the auditor's report.

Results of Operations

- Operating loss after tax attributable to the owners of PYC Therapeutics Limited and its controlled entities for the halfyear ended 31 December 2024 was \$25,572,615 (31 December 2023: loss after tax: \$15,094,867)
- Consolidated cash position at 31 December 2024 was \$49,253,334.
- Expenditure for the half year was \$38,558,169 (31 December 2023: \$24,379,165). The increase in expenditure is due to the continued progression of the Company's pipeline of drug candidates through translational studies and clinical trials.

Significant changes in the state of affairs

There were no significant changes in the state of affairs of the consolidated entity during the financial half-year.

¹ Refer ASX announcement and presentation 17 February 2025 for details of offer and risks associated with forecasts made on progression of programs.

PYC Therapeutics Limited and its controlled entities Directors' report 31 December 2024

Auditor's independence declaration

A copy of the auditor's independence declaration as required under section 307C of the Corporations Act 2001 is set out immediately after this Directors' report.

This report is made in accordance with a resolution of Directors, pursuant to section 306(3)(a) of the Corporations Act 2001.

On behalf of the Directors

Rohan Hockings

Note 1. Material accounting policies

Basis of preparation

These interim financial statements for the interim half-year reporting period ended 31 December 2024 have been prepared in accordance with Australian Accounting Standard AASB 134 'Interim Financial Reporting' and the Corporations Act 2001, as appropriate for for-profit oriented entities.

These interim financial statements do not include all the notes of the type normally included in annual financial statements. Accordingly, these financial statements are to be read in conjunction with the annual report for the year ended 30 June 2024 and any public announcements made by the Company during the interim reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.

The principal accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, unless otherwise stated.

Going Concern basis

PYC Therapeutics Limited (referred to hereafter as the 'consolidated entity' or 'the Group') consists of PYC Therapeutics Limited (referred to hereafter as the 'Company' or 'parent entity') and the entities it controlled at the end of, or during, the half-year ended 31 December 2024.

The Group is a clinical-stage biotechnology company and as such does not expect to generate revenue until its drug development programs have become marketable. The Group has incurred recurring losses since inception, including a loss to the half-year ended 31 December 2024. The Group also incurred a net cash outflow from operating activities for the half-year ended 31 December 2024. The Group expects to continue incurring losses into the foreseeable future. The interim financial statements have been prepared assuming that the Group will continue as a going concern, which contemplates the realisation of assets and the satisfaction of its liabilities in the normal course of business.

The continuing viability of the Group is dependent on its ability to raise additional capital to finance the continuation of its planned research and development programs through to a commercialisation stage. The Group expects to be able to finance these activities via the issuance of additional equity in the Company or via out licensing a program in the Group's development pipeline. The Directors intend to investigate both of these options to enable progression of the Group's planned research and development programs, however there is uncertainty associated with the ability to execute these transactions at the time and amount needed to meet the Group's requirements.

An inability to obtain funding, as and when needed, would have a negative impact on the Group's financial condition and the ability to pursue its business strategies. If the Group is unable to obtain the required funding to run its operations and to develop and commercialise its drug candidates, the Group could be forced to delay, reduce or eliminate some or all of its research and development programs, which could adversely affect its business prospects.

The directors believe the Group will be successful in raising additional capital when required and accordingly have prepared the financial report on a going concern basis, notwithstanding there is a material uncertainty related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern and that it may be unable to realise its assets and discharge liabilities in the normal course of business. Subsequent to the end of the period, the Company announced a \$145.8 million accelerated non-renounceable entitlement offer (ANREO). Refer to note 9 for further information.

Note 2. Operating segments

Identification of reportable operating segments

The Group comprises a single business segment comprising discovery and development of novel RNA therapeutics, with a single geographical location in Australia. There is an office in the US to drive formal drug development activities including regulatory engagement as well as engagements with prospective investors and business development partners. At this stage the US location is not considered a material segment separate from the Australian operations. The segment details are therefore fully reflected in the results and balances reported in the statement of comprehensive income and statement of financial position.

The Group is primarily focused on discovering and developing novel RNA therapeutics for the treatment of genetic diseases.

Consolidated

Consolidated

Note 2. Operating segments (continued)

Accounting policy for operating segments

Operating segments are presented using the 'management approach', where the information presented is on the same basis as the internal reports provided to the Chief Operating Decision Makers ('CODM'). The CODM of the Group is considered to be the CEO, Dr Rohan Hockings. The CODM is responsible for the allocation of resources to operating segments and assessing their performance.

Note 3. Other income

	Const	Consonualeu		
	31 Dec 2024 \$	31 Dec 2023 \$		
R&D tax incentive Interest income	11,837,074 855,060			
Other income	12,692,134	9,122,606		

The R&D Tax Incentive Scheme is an Australian Federal Government program under which eligible companies with annual aggregated revenue of less than \$20 million can receive cash amounts equal to 43.5% of eligible research and development expenditures from the Australian Taxation Office (ATO). The R&D Tax Incentive Scheme relates to eligible expenditure incurred in Australia relating to the Group's R&D activities. The R&D tax incentive is applied annually to eligible expenditure incurred during the Group's financial year following annual application to AusIndustry, an Australian governmental agency, and subsequent filing of its Income Tax Return with the ATO after the financial year end.

R&D Tax Incentive is recognised when there is reasonable assurance that the entity will comply with the conditions attaching to them and the incentives will be received. The incentive recognised for the period ending 31 December 2024 is an estimated receivable related to expenditure incurred in 1H25 which will be receivable upon receipt of annual registration with AusIndustry and subsequent lodgement of the FY25 income tax return. The incentive recognised for the period ending 31 December 2023 was associated with the eligible expenditure incurred for 1H24. The incentive attributable to the FY24 expenditure was recognised as a receivable at 30 June 2024 of which 17,309,135 was received in the six months ending 31 December 2024.

Note 4. Research and development expenditure

	31 Dec 2024 \$	31 Dec 2023 \$
Research and development expenses	35 711 141	21 847 527

The accounting standards do not permit the capitalisation of development expenditure in circumstances where the Group cannot demonstrate sustainable revenue generation derived from the results of the expenditure. Research expenditure must be expensed under accounting standards. The expenditure incurred in relation to obtaining and maintaining patent protection have been expensed.

Expenditure on research activities, undertaken with the prospect of gaining new scientific or technical knowledge and understanding, is recognised in the statement of profit or loss and other comprehensive income as an expense as incurred. The Group does not currently undertake development activities as defined in AASB 138 Intangible Assets and therefore has not capitalised development expenditure.

Ordinary shares - fully paid	466,608,341	466,608,341	230,575,898	230,575,898

Ordinary shares

I Ordinary shares entitle the holder to participate in dividends and the proceeds on the winding up of the Company in proportion to the number of and amounts paid on the shares held. The fully paid ordinary shares have no par value and the Company does not have a limited amount of authorised capital.

On a show of hands every member present at a meeting in person or by proxy shall have one vote and upon a poll each share shall have one vote.

On 13 November 2024, at the Company's General Meeting, shareholders approved the consolidation of the Company's issued capital and outstanding options on the basis that every 10 Shares be consolidated into 1 Share. Prior period comparatives have been translated to reflect the issued and fully paid shares on a post-consolidation basis.

Earnings per share

Prior period comparatives for the earnings per share for loss attributable to the Company have been restated to reflect the loss per issued and fully paid shares on a post-consolidation basis

Note 6. Issued capital (continued)

Share buy-back

There is no current on-market share buy-back.

Note 7. Interests in subsidiaries

The consolidated financial statements incorporate the assets, liabilities and results of the following subsidiary with non-controlling interests in accordance with the accounting policy.

			Non- controlling			Non- controlling	
	Country of		Parent ownership interest	interest Ownership interest	Parent ownership interest	interest Ownership interest	
Name	incorporation	Principal activities	Dec 2024	Dec 2024	June 2024	June 2024	
Vision Pharma Pty Ltd	Australia	Drug development	96.2%	3.8%	96.2%	3.8%	

Note 8. Dividends

There were no dividends paid, recommended or declared during the current or previous financial half-year.

Note 9. Events after the reporting period

On 19 February 2025, the company launched a 1 for 4 pro-rata accelerated non-renounceable entitlement offer (ANREO) for shareholders to raise up to approximately \$145.8 million. The Institutional component of the offer was completed on 26 ebruary 2025 raising \$91.2 million. The Retail Entitlement Offer is fully underwritten and will raise approximately \$54.6 million. The Offer is expected to be completed in late March 2025.

Note 10. Share-based payments

Set out below are summaries of options granted under the plan:

0 0 1	Number of options 31 Dec 2024	Weighted average exercise price 31 Dec 2024	Number of options 31 Dec 2023	Weighted average exercise price 31 Dec 2023
Outstanding at the beginning of the financial half-year	5,060,000	\$1.640	4,130,000	\$1.650
Granted	1,400,000	\$2.184	350,000	\$0.900
Forfeited	-	-	(120,000)	\$1.700
Expired	(50,000)	\$1.700	(1,200,000)	\$1.500
Outstanding at the end of the financial half-year	6,410,000	\$1.900	3,160,000	\$1.620

Note: The number of options and the relevant exercise price have been restated for the prior period and the opening balance for the 6 months ending 31 December 2024 to account for the effect of the 10:1 consolidation of ordinary shares and options in the Company. All values, including the number of options, exercise price and share price, disclosed in this note are presented on a post-consolidation basis. Please refer to note 6 for details of the consolidation.

Note 10. Share-based payments (continued)

PYC Therapeutics Limited and its controlled entities Directors' declaration 31 December 2024

In the Directors' opinion:

- the attached financial statements and notes are in accordance with the Corporations Act 2001, including:
- complying with Accounting Standards, the Corporations Regulations 2001 and other mandatory professional reporting requirements, and
- giving a true and fair view of the consolidated entity's financial position as at 31 December 2024 and of its performance for the half-year ended on that date and
- there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the directors.

On behalf of the Directors

Rohan Hocking

Executive Director & Chief Executive Officer

Independent auditor's review report to the members of PYC Therapeutics Limited

Report on the half-year financial report

Conclusion

We have reviewed the half-year financial report of PYC Therapeutics Limited (the Company) and the entities it controlled during the half-year (together the Group), which comprises the consolidated statement of financial position as at 31 December 2024, the consolidated statement of changes in equity, consolidated statement of cash flows and consolidated statement of profit or loss and other comprehensive income for the half-year ended on that date, selected explanatory notes and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of PYC Therapeutics Limited does not comply with the *Corporations Act 2001* including:

- 1. giving a true and fair view of the Group's financial position as at 31 December 2024 and of its performance for the half-year ended on that date
- 2. complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations* 2001.

Basis for conclusion

We conducted our review in accordance with ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Entity (ASRE 2410). Our responsibilities are further described in the Auditor's responsibilities for the review of the half-year financial report section of our report.

We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional & Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to the audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Material uncertainty related to going concern

We draw attention to Note 1 in the financial report, which indicates that the Group incurred a net loss of \$25,866,035 and net cash outflows from operating activities of \$17,015,887 during the six-months ended 31 December 2024 and that the continuing viability of the Group is dependent on raising additional capital to finance the continuation of its planned research and development programs through to a commercialisation stage. These conditions, along with other matters set forth in Note 1, indicate that a material uncertainty exists that may cast significant doubt about the Group's ability to continue as a going concern. Our conclusion is not modified in respect of this matter.

Responsibilities of the directors for the half-year financial report

The directors of the Company are responsible for the preparation of the half-year financial report, in accordance with Australian Accounting Standards and the *Corporations Act 2001*, including giving a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement whether due to fraud or error.

Auditor's responsibilities for the review of the half-year financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2024 and of its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
