### **Principal activities**

Titomic Limited is an Australian publicly listed company specialising in manufacturing and technology solutions for high-performance metal additive manufacturing, metal coatings, and repairs using its unique patented Titomic Kinetic Fusion® cold spray technology with its principal activities in the global defence, aerospace, mining, energy and transport industries.

#### **Review of operations**

Operating loss for the half-year after providing for income tax of \$6,570,998 (31 December 2023: \$5,903,996 loss) was materially in line with expectations and increased from the prior half-year predominantly due to increased sales revenue being offset by the delay in receiving the research and development tax incentive. Expenses were reasonably consistent half on half. Refer below and prior in this report for further discussion.

### Revenue and other income

Total revenue decreased by \$255,871 to \$3,950,939 (31 December 2023: \$4,206,810). Increased sales revenue was offset by the delay in receiving the research and development tax incentive in respect of the 2024 financial year.

Revenue from contracts with customers increased by \$1,432,795 to \$3,740,306 (31 December 2023: \$2,307,511). Underpinning revenues in the half-year was a \$1,263,088 sale of ten low-pressure cold spray systems and consumables to The Royal Dutch Army recognised in July 2024. In addition to other sales of low and medium pressure cold spray machines there was also an increase in project revenue and powder and consumables in relation to our installed base of cold spray machines.

Other revenue reduced by \$1,688,666 to \$210,633 (31 December 2023: \$1,899,299). In the prior half-year \$581,988 was received for the last instalment of the Space Grant and \$1,011,607 was received in respect of the 2023 financial year research and development tax incentive. The research and development tax incentive in respect of the 2024 financial year is expected to be received in the second quarter of 2025 with the refund anticipated to be \$695,297.

Titomic Limited
Directors' Report
For the half-year ended 31 December 2024

### **Operating expenses**

Total expenses decreased by \$288,595 to \$10,551,396 (31 December 2023: \$10,262,801). Included in expenses are non-cash related costs (share based payments, depreciation, amortisation and notional interest expenses) of \$1,327,778 (31 December 2023: \$2,046,125).

### Production and related expenses

Production and related expenses increased by \$275,323 to \$3,214,763 (31 December 2023: \$2,939,440). Included are all costs of production such as material, salaries and wages factory related costs as well as research and development expenses. The increase in production and related expenses compared to the increase in revenue for the year shows improved utilisation of the consolidated entity's facilities. The consolidated entity anticipates further improvement in margin as it continues to expand its sales revenue base.

### Corporate and administrative expenses

Corporate and administrative expenses increased by \$144,014 to \$3,972,974 (31 December 2023: \$3,828,960). The small increase in corporate and administrative expenses whilst seeing sales growth reflects the benefit of continual monitoring and optimisation of expenses. It is anticipated that there will be some growth in corporate and administrative expenses as the business continues to grow although the consolidated entity is and will continue to maintain a focus of strict cost control in this and other areas.

### Sales, marketing and promotion expenses

Sales, marketing and promotion expenses increased by \$684,322 to \$1,966,170 (31 December 2023: \$1,281,848). Sales, marketing and promotion expenses include direct marketing costs, salaries and wages related to sales and marketing employees and sales related travel expenses (i.e. for trade shows). The increase compared to the prior half can be attributed to increases in our sales and marketing efforts in the U.S., including the commencement of Dr. Patti Dare to head U.S. sales efforts. The consolidated entity anticipates increased spending in this area to support increased sales growth.

### Liquidity

The consolidated entity had cash at 31 December 2024 of \$24,110,576 (30 June 2024: \$2,729,484). The increased cash balance is due to the \$30 million (before costs) capital raise completed during the half-year. The funds raised provide a platform for the consolidated entity to move forward with previously announced initiatives to setup a manufacturing facility (and move operational headquarters) to Huntsville, Alabama in the United States of America as well as expand the consolidated entities' European manufacturing capabilities in The Netherlands. The Board will continue to oversee the growth aspirations of the consolidated entity with the need to maintain a strict cost discipline.

### Outlook

The consolidated entity anticipates sales revenue in the 2025 financial year to be greater than sales revenue achieved in the 2024 financial year. This is underpinned by an increased order pipeline from the 2024 financial year that is being delivered throughout 2025.

The consolidated entity anticipates increased spending in the second half of the 2025 financial year as it sets up its operational headquarters and manufacturing facility in the U.S. and moves to a new facility in The Netherlands. The consolidated entity also anticipated higher salaries and wages in the second half of the financial year in relation to its U.S. expansion and investment to increase organisational capability.

### Significant changes in state of affairs

There were no significant changes in state of affairs to the consolidated entity during the year other than identified in this report.

Titomic Limited
Directors' Report
For the half-year ended 31 December 2024

### Matters subsequent to the end of the financial year

On 24 January 2025, the consolidated entity entered into an agreement to purchase premises in Huntsville, Alabama for a purchase price of US\$7.2 million. The consolidated entity has received a financing commitment from First National Bank, Alabama to fund US\$5.75 million of the purchase price over a period of 25 years. The agreement is subject to a 60 day due diligence period whereby the consolidated entity has the option to terminate the agreement.

No other matter or circumstance has arisen since 31 December 2024 that has significantly affected, or may significantly affect the consolidated entity's operations, the results of those operations, or the consolidated entity's state of affairs in future financial years.

### 1 Material accounting policies

These general purpose financial statements do not include all the notes of the type normally included in annual financial statements. Accordingly, these financial statements are to be read in conjunction with the annual report for the year ended 30 June 2024 and any public announcements made by the consolidated entity during the interim reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.

### **Going Concern**

The financial statements have been prepared on the going concern basis, which contemplates the continuity of normal business activities and the realisation of assets and discharge of liabilities in the normal course of business.

### **Share-based payments**

Share-based compensation benefits may be provided through the issue of fully paid ordinary shares under the Employee Share and Option Plan. Options may also be granted to employees and consultants in accordance with the terms of their respective employment and consultancy agreements. Any options granted to employees are made in accordance with the terms of the consolidated entity's Employee Share and Option Plan (ESOP).

The fair value of options granted under employment and consultancy agreements are recognised as share based payment expenses with a corresponding increase in equity. The fair value of the options are measured at grant date and recognised over the period during which the employees or consultants become unconditionally entitled to the options. The cost of transactions settled by share based payments are measured using an appropriate market based valuation model.

#### **Issued** capital

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

### New or amended Accounting Standards and Interpretations adopted

The consolidated entity has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

The company is of a kind referred to in Corporations Instrument 2016/191, issued by the Australian Securities and Investments Commission, relating to 'rounding-off'. Amounts in this report have been rounded off in accordance with that Corporations Instrument to the nearest thousand dollars, or in certain cases, the nearest dollar.

### **Comparatives**

The comparative results presented refer to the six month period up to 31 December 2023 for the Statement of Profit or Loss and Other Comprehensive Income and the Statement of Cash Flows. Identification of reportable operating segments

The consolidated entity is organised into three operating segments. These operating segments are based on the internal reports that are reviewed and used by the Board of Directors (who are identified as the Chief Operating Decision Makers ('CODM')) in assessing performance and in determining the allocation of resources. There is no aggregation of operating segments.

The CODM reviews EBITDA (earnings before interest, tax, depreciation and amortisation). The accounting policies adopted for internal reporting to the CODM are consistent with those adopted in the financial statements.

The information reported to the CODM is on a monthly basis.

The consolidated entity operates in three geographical segments; located in Australia, USA and Netherlands. Segment details are therefore already deemed to be fully reflected in the body of the financial report.

The principal products and services of each of these operating segments are as follows:

- Australia: High pressure, large scale cold spray additive manufacturing machines and manufactured products for customers in the aerospace and defence industry segments.
- USA: Sales, marketing and customer relationship activities in the US and globally to develop business with the aerospace and defence industry customers, particularly in the USA.
- Europe: Low and medium pressure cold spray additive manufacturing machines for use by end customers in providing various metal coating and repair services.

## Intersegment transactions

Intersegment transactions were made at market rates. Intersegment transactions are eliminated on consolidation.

### Intersegment receivables, payables and loans

Intersegment loans are initially recognised at the consideration received. Intersegment loans receivable and loans payable that earn or incur non-market interest are not adjusted to fair value based on market interest rates. Intersegment loans are eliminated on consolidation.

### CSIRO IP liability

The consolidated entity has three core pieces of Intellectual Property (IP) around its Titomic Kinetic Fusion (TKF) Cold Spray robotic technology manufacturing process. TKF is the process of spraying metal powders at supersonic speed (up to two times the speed of sound) onto a scaffold surface, resulting in the powder particles plastically deforming at the edges and, on impact, bonding at a particle level with the surrounding particles.

The consolidated entity has exclusively licensed the IP for three royalty-bearing licences owned by the Commonwealth Scientific and Industrial Research Organisation (CSIRO). The licences are in respect of:

- (1) Patent Application No PCT/AU2013/000318 "A Process For Producing A Titanium Load-bearing Structure", and any applicable Know-How and relevant subject matter;
- (2) Patent Application No PCT/AU2009/000276 "Manufacture of Pipes" using Titanium and Titanium Alloys; and any applicable Know-How and relevant subject matter; and
- (3) Patent Application No PCT/AU2013/001382 "Method of forming seamless pipe of titanium and/or titanium alloys", and any applicable Know How and relevant subject matter.

The term of these licences is to the expiration, lapsing or cessation of all licenced patents, a maximum of 20 years or the life of the underlying patent.

Under the agreement, the consolidated entity must pay CSIRO 1.5% of attributable gross sales revenue attributed to products produced utilising the licensed patented technologies within the licensed field and 20% of non-sales revenue attributable to products produced using the licensed patented process within the licensed field.

Minimum royalty payments are structured as follows:

Period	\$
FY2025-FY2029	90,000
FY2030-FY2032	150,000
FY2033-FY2035	225,000
FY2036-FY2038	300,000

The above performance criteria is discounted using an indicative discount rate of 7.42% pa and has been spread over the period to determine the value of the intangible asset acquired.

In addition, there are two earn out components calculated as a percentage of revenue payable three years and five years after the acquisition date. The first of these payments is contingent upon a key employee being in continued employment on 30 November 2024 (this was paid in November 2024). ### Capital risk management

The consolidated entity's objectives when managing capital is to safeguard its ability to continue as a going concern, so that it can provide returns for shareholders and benefits for other stakeholders and to maintain an optimum capital structure to reduce the cost of capital.

Management assesses the Company's capital requirements in order to maintain an efficient overall financing structure and considers adjustments to it in light of changes to economic conditions and the risk characteristics of its economic activities. In order to maintain or adjust the capital structure, the Company may issue new shares.
