ABOUT BANNERMAN ENERGY LTD

About Bannerman - Bannerman Energy Ltd is a uranium development business listed on the Australian and Namibian stock exchanges and traded on the OTCQX Market in the US. Its flagship asset is the advanced Etango Uranium Project located in the Erongo Region of Namibia.

Etango has benefited from extensive exploration and feasibility activity over the past 15 years. The Etango tenement possesses a globally large-scale uranium mineral resource¹. In December 2022, a Definitive Feasibility Study (DFS)² was completed on the Etango-8 Project, confirming to a definitive-level the strong technical and economic viability of conventional open pit mining and heap leach processing of the Etango deposit at 8Mtpa throughput (for average annual output of 3.5 Mlbs U₃O₈). In March 2024, a scoping study³ demonstrated the capacity to expand annual production to 6.7 Mlbs U₃O₈.

Etango's advanced credentials are further highlighted by the construction and multi-year operation of the Etango Heap Leach Demonstration Plant, which comprehensively de-risked the conventional acid heap leach process to be utilised on the Etango ore. All environmental approvals have been received for the proposed Etango mine and external mine infrastructure, based on a 12-year environmental baseline. Bannerman was awarded the Mining Licence for Etango in December 2023 and is progressing all key project workstreams towards a targeted positive Final Investment Decision (FID) in parallel with strengthening uranium market fundamentals.

Namibia is a premier uranium investment jurisdiction, with a 45-year history of uranium production and export, excellent infrastructure and support for uranium mining from both government and community. As the world's third largest producer of uranium, Namibia is an ideal development jurisdiction boasting political stability, security, a strong rule of law and an assertive development agenda. The Bannerman team has ample direct experience in the development, construction and operation of uranium projects in Namibia, as well as extensive links into the downstream nuclear power industry.

Bannerman has long established itself as an Environmental, Social and Governance (ESG) leader in the uranium and nuclear energy sector. It is also a leader within Namibia on social development and community engagement and exercises best-practice governance in all aspects of its business. This was recently recognised with receipt of the 2023 African Mining Indaba's ESG Award for Community Engagement.

REVIEW AND RESULTS OF OPERATIONS

Principal activities

Bannerman is an exploration and development company with uranium interests in Namibia, a southern African country which is a premier uranium mining jurisdiction. Bannerman's principal asset is its 95%-owned Etango Project situated southwest of CNNC's Rössing uranium mine and CGNPC's Husab Mine and to the northwest of Paladin Energy's Langer-Heinrich mine. Etango is one of the world's largest undeveloped uranium deposits. Bannerman is focused on the development of a large open pit uranium operation at Etango.

The principal activities of the Group during the reporting period were execution of site early works for the project and continuation of detailed design of the project.

Operating Result

The Group's net loss before tax of \$2,703,243 for the half year ended 31 December 2024 (31 December 2023: Net loss before tax of \$6,175,188) was attributable primarily to corporate and administrative expenses and non-cash share-based compensation expenses, a share of losses in an equity-accounted investment of \$99,532 (31 December 2023: \$897,396 loss) and an impairment of equity-accounted investments being \$1,420,618 (31 December 2023: \$3,568,253).

Interest income for the half year ended 31 December 2024 was \$2,257,291 (31 December 2023: \$871,132).

Cash Position

Cash and cash equivalents were \$81,111,170 as at 31 December 2024 compared with \$24,046,438 as at 30 June 2024.

ETANGO URANIUM PROJECT (BANNERMAN 95%)

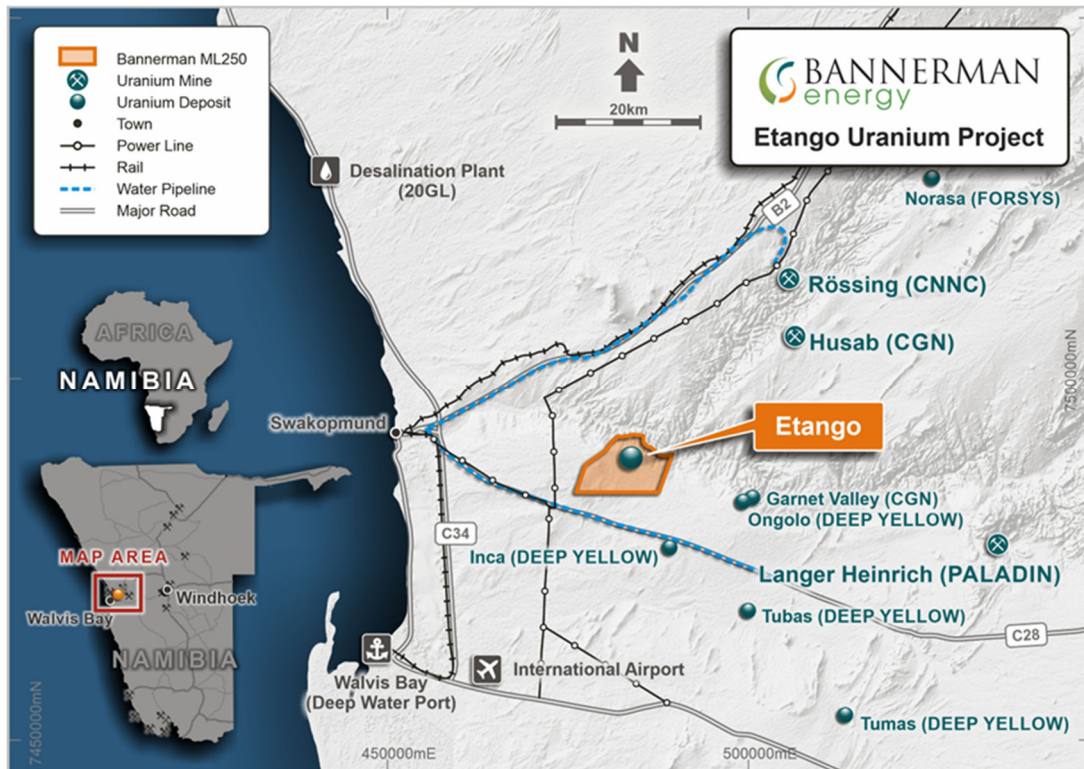

Figure 1 – The Etango Project (ML 250) is close to infrastructure and the towns of Swakopmund and Walvis Bay

Overview

The Etango Project is one of the world's largest undeveloped uranium deposits, located in the Erongo uranium mining region of Namibia, which hosts the Rössing, Husab and Langer-Heinrich mines. Etango is 73km by road from Walvis Bay, one of southern Africa's busiest deep-water ports through which uranium has been exported for over 45 years. Road, rail, electricity and water networks are all located nearby.

Regulatory Approvals

On 14 December 2023, Bannerman was granted Mining Licence (ML 250) for the Etango Project. The Company had already obtained all necessary environmental and heritage approvals based on environmental baseline monitoring and studies commenced 12-years ago. This achievement, together with positive uranium market trends, is enabling the Company's progress on crucial project activities.

Early Works and Long Lead Construction Activities

Bannerman's strong cash position and flexible approach to project development enables the Company to exercise a gated approach to Etango development, with phased green lighting of various construction works in line with advancement across broader project workstreams and financial capacity. Following completion of the first two early works contracts in July 2024 – the construction water supply and site access road – development of Etango seamlessly transitioned into the next phase of early construction and long-lead order activities at Etango, thereby maintaining critical path timelines. All early works contracts are fully funded from Bannerman's existing cash reserves.

The bulk earthworks contract for the Etango Project was awarded in August 2024. Execution of this key 24-month contract is proceeding well and is on schedule.

A critical enabler for uninterrupted delivery of the bulk earthworks activities is continuity of water supply on-site during the early works and full-scale construction phases. Build of the Etango construction water storage dam, which is designed to ensure such continuity, was successfully completed and filled with water in mid-November 2024 (refer Figure 2). Importantly, this occurred on schedule and prior to the next planned maintenance shutdown by water utility provider, NamWater (which took place over 18 - 24 November 2024).

DIRECTORS' REPORT

FOR THE HALF YEAR ENDED 31 DECEMBER 2024

Figure 2: Completed construction water storage dam

Similarly, the contract for build of the construction power facilities was awarded in October 2024, in-line with the project schedule. The key elements of these works include construction of all the permanent 33kV overhead powerlines on the Etango site and the temporary connection to the local electrical distributor in the Erongo Region. Work on this contract is currently advancing ahead of schedule.

The first blast of the box cut for the primary crusher site was achieved safely and successfully on 11 November 2024 (refer Figure 3). Two further blasts have been completed, and excavation of the box cut was commenced in line with schedule.

Figure 3: First blast being set off by Bannerman Mining Resources (Namibia) Managing Director, Mr Werner Ewald

DIRECTORS' REPORT

FOR THE HALF YEAR ENDED 31 DECEMBER 2024

The contract for the blasting, crushing, and placement of the drainage layer on the Etango heap leach pad has been adjudicated. The civil concrete tender closed in January 2025.

Manufacture of the High-Pressure Grinding Rolls (**HPGR**) tertiary crusher, a key identified long lead item for the Etango process plant, commenced in May 2024 and is currently ahead of schedule.

Off-site Infrastructure and Utilities Supply

Supply contracts are already in place to cover construction water and power requirements throughout the entire Etango build schedule.

Negotiations on final supply contracts for life-of-mine operational water and power supply have progressed in line with requirements and are now at an advanced stage.

a) Water

Operational water for Etango is to be sourced from NamWater and supplied from desalinated sources to the Base Reservoir in Swakopmund. From there, the planned permanent Etango water supply infrastructure consists of a pipeline and pumping system to transport the water to the Etango site, and a terminal water storage system on site.

Bannerman has been in commercial discussions with NamWater since 2021 regarding supply of operational water for the Etango Project. With the benefit of greater clarity on Etango development timing, these discussions have now advanced to the signing of a letter of intent with NamWater on 15 October 2024, which covers full water supply requirements for the operation of the Etango mine and process facility over its initial expected life of 15 years.

To ensure that NamWater can provide desalinated water for Etango from the existing Erongo Desalination Plant, NamWater also now has a back-to-back signed letter of intent in place with the operator of that plant. The next step in this commercial process is the execution of a take-or-pay agreement between NamWater and Bannerman, which is planned to be signed upon the taking of a positive Final Investment Decision on Etango.

b) Power

Permanent operational power for the Etango site is set to be sourced from the 220 kV national grid through NamPower's Kuiseb substation.

Negotiations with power utility provider, NamPower, have now advanced to the confirmation of a definitive supply method between the parties. An offer in this regard was received from NamPower in December 2024 and accepted by Bannerman. A final commercial proposal based on this definitive supply method is expected to be received from NamPower in coming weeks.

c) Acid

Acid supply for the Etango operation is to be sourced locally and/or via import through the Walvis Bay port. Bannerman has an existing Memorandum of Understanding in place with a local acid supplier whereby the acid will be railed to a planned storage facility within the Walvis Bay port and then trucked to site. The facility in the port will also be able to receive sulphuric acid from international markets.

Bannerman's proposal to lease a site at the Walvis Bay port for the planned acid storage and import/export facility has now been approved by Namport, and the Environmental and Social Impact Assessment (ESIA) process for this facility has been completed and the application for an Environmental Clearance Certificate submitted to the Ministry of Environment, Forestry & Tourism.

Project Funding

The Etango financing process continues to progress, with Bannerman evaluating diverse funding options to support the development of the project. These options range from conventional debt facilities to strategic joint ventures, designed to align with Bannerman's disciplined approach to optimising its funding mix. Azure Capital and Vermilion Partners (both global affiliates of French financial services institution, Natixis) are advising on and assisting with the execution of the optimal funding mix for Etango.

DIRECTORS' REPORT

FOR THE HALF YEAR ENDED 31 DECEMBER 2024

Confidential discussions with multiple counterparties progressed during the half year, informed by Bannerman's commitment to establishing a robust financial framework for the project. The process considers various factors to optimise shareholder return and risk, such as the cost of various alternatives weighed against respective requisite levels of offtake coverage (and key terms), covenants and security, counterparty strength and alignment with project development milestones. Bannerman's favourable financial position, underpinned by a strong cash balance, enables the Company to retain maximum flexibility in securing favourable terms and timing while advancing project development.

Technical Disclosures

Certain disclosures in this report, including management's assessment of Bannerman's plans and projects, constitute forward-looking statements that are subject to numerous risks, uncertainties and other factors relating to Bannerman's operation as a mineral development company that may cause future results to differ materially from those expressed or implied in such forward-looking statements. Full descriptions of these risks can be found in Bannerman's various statutory reports and announcements. Readers are cautioned not to place undue reliance on forward-looking statements. Bannerman expressly disclaims any intention or obligation to update or revise any forward-looking statements whether as a result of new information, future events or otherwise.

The information in this report as it relates to Exploration Results is based on, and fairly represents, information and supporting documentation prepared by Mr Marthinus Prinsloo. Mr Prinsloo is a full time employee of the Company and is a Member of the Australasian Institute of Mining and Metallurgy (AusIMM). Mr Prinsloo has sufficient experience which is relevant to the style of mineralisation and the type of deposit under consideration, and to the activities, which he is undertaking. This qualifies Mr Prinsloo as a "Competent Person" as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves' and a "Qualified Person" as defined by Canadian National Instrument 43-101. Mr Prinsloo consents to the inclusion in this announcement in the form and context in which it appears. Mr Prinsloo holds shares and performance rights in Bannerman Energy Ltd.

The Etango Project is based on a resource estimate compiled or reviewed by Mr Ian Glacken, Principal Consultant at Snowden Optiro Pty Ltd and a Fellow of the Australasian Institute of Mining and Metallurgy. Mr Glacken has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves", is an independent consultant to Bannerman.

The Ore Reserves of the Etango Project is based on information compiled or reviewed by Mr Werner K Moeller, a Director since 2016 of Qubeka Mining Consultants CC based in Klein Windhoek, Namibia. Prior to 2016 Mr. Moeller was a Director of VBKom Consulting Engineers (Pty) Ltd based in Centurion, South Africa from 2008. Mr Moeller is a Member of The Australasian Institute of Mining and Metallurgy (MAusIMM nr. 329888), a Member of the South African Institute of Mining and Metallurgy (MSAIMM nr. 704793) and a Member of the Canadian Institute of Mining, Metallurgy and Petroleum (MCIM nr. 708163). He graduated from the University of Pretoria, South Africa and holds a Bachelor degree, majoring in Mine Engineering (2001) and an Honours degree, majoring in Industrial Engineering (2002). Mr Moeller is a practising mining engineer, having practiced his profession continuously since 2002, and has sufficient experience relevant to the style of mineralisation and types of deposits under consideration and to the activity which is being undertaken to qualify him as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves".

DIRECTORS' REPORT

FOR THE HALF YEAR ENDED 31 DECEMBER 2024

CORPORATE

Issued Securities

At the date of this report, Bannerman has 178,784,496 ordinary shares on issue.

The Company completed an equity raising of \$85,000,657 in a two-tranche placement to new and existing institutional and sophisticated investors. These two tranches were ratified (first tranche) and approved (second tranche) at the Company's 12 August 2024 general meeting. Details of each tranche of securities are included below:

1. First tranche - On 4 July 2024 the Company issued 22,927,010, fully paid ordinary shares at an issue price of \$3.30, raising \$75,659,133 (before fees).
2. Second tranche - On 15 August 2024 following shareholder approval the company released a second tranche of 2,830,765 fully paid ordinary shares with the same issue price of \$3.30, raising a further \$9,341,524 (before fees).

The proceeds of the funding will be utilised in the continuing development of the Etango Project and will fund the detailed engineering design, early works program and provide general working capital.

As at 31 December 2024, Bannerman had on issue 2,076,732 performance share rights and 2,091,403 unlisted zero exercise price options issued under the shareholder-approved Employee Incentive Plan ("EIP") and 134,570 unlisted zero exercise price options issued under the Non-Executive Director Share Incentive Plan ("NEDSIP"). The EIP incentives are subject to various performance targets and continuous employment periods. The NEDSIP incentives are subject to continuous employment periods.

Cancellation and Issue of Securities

The Company advised during the period that the following securities in Bannerman were cancelled or issued:

- 106,202 unlisted options were exercised, and a corresponding number of shares were issued.
- 138,780 unlisted options with an exercise price of A\$4.50 expired.
- 65,864 unlisted employee options have, pursuant to the terms of the Employee Incentive Plan (EIP), been forfeited and cancelled following non-satisfaction of the relevant performance criteria.
- 73,783 fully paid ordinary shares were issued upon vesting of unlisted employee performance rights in accordance with the terms of the EIP and Non-Executive Director Share Incentive Plan (NEDSIP).
- 551,655 unlisted options were granted (with 491,655 being issued) in accordance with the EIP and NEDSIP as approved by shareholders on 16 November 2022.

Namibia Critical Metals Inc additional investment

On 28 November 2024, the Company acquired a further 7,342,857 shares in Namibia Critical Metals Inc (NMI) with a share price of C\$0.035 (Canadian dollar) per share due to the Company's participation in an NMI Private Placement (capital raising). The acquisition takes the Company's interest in NMI to 43.0%. The shares were issued with 3,671,428 free-attaching warrants which are exercisable at C\$0.05 on or before 28 November 2025.

Annual General Meeting

Bannerman held its Annual General Meeting on 15 November 2024. As previously announced, the proposed Resolution 4, the Replacement of Constitution, being a special resolution, did not pass, as it failed to achieve the required 75% shareholder approval. Consequently, Resolution 5 (Amendment to the Constitution for Virtual Only General Meetings) and Resolution 6 (Approval of Proportional Takeover Provisions) were no longer applicable and did not proceed further, as their consideration was contingent upon the successful passage of Resolution 4.

All other resolutions put to the meeting were passed by poll.

DIRECTORS' REPORT

FOR THE HALF YEAR ENDED 31 DECEMBER 2024

SUBSEQUENT EVENTS

On 14 January 2025 the Company issued 60,000 zero exercise price options (ZEPOs) under the Company Employee Incentive share price. The options have an expiry of 15 Nov 2031.

On 15 January 2025 the Company announced that 4,200 zero exercise price options (ZEPOs) with an expiry of 15 Nov 2031 lapsed.

On 22 January 2025 the Company announced the appointments of:

- Felicity Gooding to the position of Non-Executive Director (effective immediately) and;
- Matthew Horgan to the position of Vice President, Corporate Development (effective 28 January 2025)

Other than the events noted above there are no other matters or circumstances that have arisen since the end of the period which significantly affected or may significantly affect the operations of the Group, the results of those operations or the state of affairs of the Group.

1. BASIS OF PREPARATION AND ACCOUNTING POLICIES

Corporate Information

Bannerman Energy Ltd (the “**Company**”) is a company incorporated in Australia and limited by shares. Bannerman’s shares are publicly traded on the Australian Securities Exchange (“**ASX**”) with an additional listing on the Namibian Stock Exchange and the OTCQB Venture Market.

Basis of Preparation

This general purpose condensed financial report for the half year ended 31 December 2024 has been prepared in accordance with AASB 134 *Interim Financial Reporting* and the *Corporations Act 2001*.

The financial report does not include all notes of the type normally included within the annual financial report and therefore cannot be expected to provide as full an understanding of the financial performance, financial position and financing and investing activities of Bannerman and its controlled entities (the “**Group**”) as the annual financial report.

It is recommended that this interim financial report be read in conjunction with the annual report for the year ended 30 June 2024 and considered together with any public announcements made by Bannerman since that time in accordance with the continuous disclosure obligations of the ASX Listing Rules.

The financial report is presented in Australian dollars and, unless otherwise stated, all values are rounded to the nearest thousand dollars (A\$1,000) in accordance with the option available to the Company under ASIC Corporations (Rounding in Financial/Directors’ Reports) Instrument 2016/191. The Company is an entity to which the class orders applies.

Changes in Accounting Policies

New and amended accounting standards and interpretations

From 1 July 2024, the Group has adopted all the Standards and Interpretations mandatory for annual periods beginning on 1 July 2024. Adoption of these Standards and Interpretations did not have any material effect on the financial position or performance of the Group.

The Group has not elected to early adopt any new Standards or Interpretations. The accounting policies adopted in the preparation of the consolidated financial statements are consistent with those followed in the preparation of the Group’s annual consolidated financial statements for the year ended 30 June 2024.

(a) Savannah Etango Project settlement

On 17 December 2008, the Company entered into a settlement agreement with Savanna Marble CC ("Savanna") relating to Savanna's legal challenge to the Company's rights to the Etango Project Exclusive Prospecting Licence. Under the terms of the settlement a final tranche payment of A\$500,000 and 1,250,000 ordinary shares is due to Savanna upon receipt of the Etango Project mining licence. The company received its mining license on 14 December 2023, and granted the final settlement consideration on 20 December 2023.

Expenditure incurred during the period comprises expenditure on geological, study and associated activities.

The value of the Company's interest in exploration and evaluation expenditure is dependent upon:

- the continuance of the Company's rights to tenure of the areas of interest;
- the results of pre-development activities; and
- the recoupment of costs through successful development and exploitation of the areas of interest, or alternatively, by their sale.

Etango Uranium Project – Bannerman 95%

The Etango Uranium Project is situated near CNNC's Rössing uranium mine, Paladin's Langer Heinrich uranium mine and CGNPC's Husab uranium mine. Bannerman, in 2012, completed a Definitive Feasibility Study ("DFS") on an open pit mining and heap leach processing operation at Etango. The DFS confirmed the viability of a large open pit and heap leach operation at one of the world's largest undeveloped uranium deposits.

Bannerman announced to the ASX on 2 August 2021 the completion of a Pre-Feasibility Study ("PFS") for an 8Mtpa development of its flagship Etango Uranium Project in Namibia (Etango-8 Project). The Company completed a Definitive-Feasibility Study ("DFS") on Etango-8 Project in December 2022. Following DFS Bannerman undertook a scoping study to analyse two future phase growth options: a post ramp-up expansion in throughput capacity to 16 Mtpa (Etango-XP) or an extension of operating life to 27 years (Etango-XT). The outcomes categorically evidenced this future growth optionality, with the long-term scalability of the world-class Etango resource remaining highly robust under the base case Etango-8 approach to initial project development.

In December 2023, Bannerman was granted the Etango Mining Licence (ML 250), confirming the receipt of all necessary licences and pre-approvals required to initiate mining activities.

On 11 June 2024, Bannerman announced the completion of the FEED and Control Budget Estimate ("CBE") processes.

The Consolidated entity has office lease agreements for its corporate premises in Subiaco, Western Australia and its operational premises in Swakopmund, Namibia.

Subiaco, Western Australia

On 1 February 2025, the Company agreed to extend its lease for the corporate premises in Subiaco, Western Australia for a further year.

Swakopmund, Namibia

On 1 May 2024, the Company's subsidiary Bannerman Mining Resources (Namibia) (Pty) Ltd signed a lease agreement for the period of one year.

Both leases were discounted using an interest rate of 10.72% in calculating the lease liability.

11. INVESTMENTS ACCOUNTED FOR USING THE EQUITY METHOD

On 15 August 2022, the Company acquired a significant interest in Namibia Critical Metals Inc (“NMI”) following the acquisition of a 41.8% shareholding in the entity. NMI is a Canadian public company (TSXC:NMI and OTC:NMREF) and is the developer of the fully permitted Lofdal Heavy Rare Earths Project in Namibia, one of the very few development projects outside China that offer substantial future production of dysprosium and terbium.

Under AASB 128, investors who acquire an interest in an associate of which they have sufficient influence over, are to account for the investment by applying the equity method of accounting.

Consideration for the acquisition

On 15 August 2022, the Company issued 846,337 fully paid ordinary shares at an issue price of \$2.00 per share (total value \$1,692,674) finalising the agreement to acquire 41.8% of the issued capital of NMI from major shareholders. In addition to the shares paid, the Company provided a cash payment of \$7,236,179 in June 2022. Costs incurred implementing this transaction amounted to \$64,914. The aggregate cost to acquire the interest in this associate amounted to \$8,993,767.

Additional investment/capital raising

On 22 December 2023, the Company acquired a further 3,983,333 shares in Namibia Critical Metals Inc (NMI) with a share price of C\$0.06 (Canadian dollar) per share due to the Company’s participation in an NMI Private Placement (capital raising). The acquisition took the Company’s interest in NMI to 42.1%.

On 28 November 2024, the Company acquired a further 0.89% interest in Namibia Critical Metals Inc (“NMI”) when it acquired 7,342,857 shares with a share price of C\$0.035 (Canadian dollar) per share due to the Company’s participation in an NMI private placement (capital raising). The acquisition increased the Company’s interest in NMI to 43.0%. The shares were issued with 3,671,428 free-attaching warrants which are exercisable at C\$0.05 on or before 28 November 2025.

In order to protect from the risk of dilution of its interest, the Company has an agreement with the investee to elect to participate in any capital raisings. However, the Company has no commitment in the event that it elects not to participate. Otherwise, the Company has no contractual operational relationships with the associate, and no other commitments.

Impairment of investment

The Company, as part of its close process at the end of financial reporting date, conducts an assessment of whether there is any objective evidence that its net investment in the associate or joint venture is impaired. This assessment is conducted in accordance with AASB 128 (para 41).

Objective evidence that the net investment is impaired includes observable data that comes to the attention of the entity of a significant or prolonged decline in the fair value of an investment in an equity instrument below its cost, amongst other factors.

The Company performed its impairment testing on 31 December 2024 and considered the relationship between NMI’s market capitalisation on the Toronto stock exchange (the derivative value) and its book value, when reviewing all potential indicators of impairment. At 31 December 2024, the market capitalisation of the NMI was below the Company’s carrying value of the investment, indicating a potential impairment of the Company’s investment.

Consequently, following the impairment testing, the Company adjusted the carrying value of NMI and booked an impairment of A\$1,420,618 (30 June 2024 A\$4,396,125).

NOTES TO THE FINANCIAL STATEMENTS

Independent auditor's review report to the members of Bannerman Energy Ltd

Conclusion

We have reviewed the accompanying half-year financial report of Bannerman Energy Ltd (the Company) and its subsidiaries (collectively the Group), which comprises the consolidated statement of financial position as 31 December 2024, the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the half-year ended on that date, explanatory notes and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of the Group does not comply with the *Corporations Act 2001*, including:

- a. Giving a true and fair view of the consolidated financial position of the Group as at 31 December 2024 and of its consolidated financial performance for the half-year ended on that date; and
- b. Complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Basis for conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity* (ASRE 2410). Our responsibilities are further described in the *Auditor's responsibilities for the review of the half-year financial report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Directors' responsibilities for the half-year financial report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's responsibilities for the review of the half-year financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2024 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
