

US\$2.43M TRANCHE 2 FUNDS RECEIVED FROM FSDEA AND 2025 FIELD TRIALS

Minbos Resources Limited (ASX:MNB) ("Minbos" or the "Company") is pleased to announce it has received the second tranche of funding, totalling \$US2.43M from the Fundo Soberano de Angola ("**FSDEA**"), to continue the construction of the Cabinda Phosphate Fertilizer Project, located in Angola.

TRANCHE 2: FSDEA SUBSCRIPTION AGREEMENT

The Company has received the second tranche of construction funds, totalling US\$2.43 million into Minbos' subsidiary, Phobos Ltd. Funds received will be used for the ongoing construction of the Cabinda Phosphate Project.

The final tranche of funding, totalling US\$1.17 million will be completed upon the Company finalising renewal of project insurances and presenting supplier quotations for project long lead items to FSDEA.

ASX ANNOUNCEMENT

2025 Field Trials

The Company's early trials in Angola in 2025 continue to perform strongly. The key take aways from these trials are:

- Field trials have shown that the use of PRIMEIRO leads to improved crop yields, particularly in areas with low soil phosphorus and low pH (acidic) soils.
- On average, when applied as the only source of Phosphate, PRIMEIRO has demonstrated yield increases by up to 80%.
- This increase in yield is attributed to the essential phosphorus provided by the fertilizer, which enhances root development, flowering, and fruiting, resulting in healthier and more productive plants.
- Local trials have shown that without phosphorus, other nutrients are not effective – this is the single biggest sales tool for the Company.

- END -

This announcement has been released with the approval of the Minbos Board of Directors.
