Interim review of accounts

The interim financial statements have been reviewed by the Group's independent auditor. The independent auditor's review report is included within the interim financial report which accompanies this Appendix 4D.

The independent auditor's review report contains an emphasis of matter in relation to going concern. The emphasis of matter draws attention to Note 1(b) of the interim financial report and states that the factors described in that going concern note to the interim financial statements, indicate the existence of a material uncertainty that may cast significant doubt on the Group's ability to continue as a going concern.

In Note 1(b), the Directors confirm their belief that the factors described in that note to the interim financial statements demonstrate that the Group will be able to pay its debts as and when they become due and payable and continue as a going concern.

Results

The net loss after tax of the Group for the half-year was \$2,339,510 (2023: loss of \$2,141,366).

The Group's gross revenue from continuing operations increased by 34.3% to \$2,179,772 in this half year, and gross profit from continuing operations increased by 52.7% to \$678,033. The net loss from continuing operations increased by 9.3% to \$2,339,510. Net liabilities increased by 69.8% to \$5,661,142 as at 31 December 2024 compared to June 2024.

Review of Operations

Carly Holdings Limited has continued to deliver strong revenue growth in H1 FY25 with subscription revenue growing to \$2.18m, an increase of 34% vs H1 FY24. This result has been driven by Carly's strategic objective, to increase the size of the owned fleet, diversify customer acquisition channels and retain a higher proportion of receipts as revenue.

By 31 December 2024 Carly's total fleet reached 503 vehicles with 334 vehicles being owned or financed and the remaining 169 vehicles provided on an asset light basis by automotive manufacturers and dealers.

With the growth in Carly's owned fleet of vehicles, Carly no longer solely relies on an asset light model, for which supply of the most suitable vehicles cannot always be assured. The previous investment made in expanding the fleet, has had a direct impact on the H1 FY25 gross profit through the higher vehicle depreciation rate and general vehicle costs, including vehicle registrations, vehicle trackers and vehicle servicing.

Auditor's independence declaration under Section 307C of the Corporations Act 2001

1. MATERIAL ACCOUNTING POLICIES

(a) Reporting entity

Carly Holdings Limited (**Company** or **Parent Entity**) is a company limited by shares incorporated in Australia whose shares are publicly traded on the Australian Securities Exchange. The consolidated financial statements of the Company for the half-year ended 31 December 2024 comprise the Company and its subsidiaries (**Consolidated Entity** or **Group**). The Company is domiciled in Australia.

(b) Basis of Preparation

Statement of Compliance

The consolidated interim financial statements are general purpose financial statements which have been prepared in accordance with the requirements of the Corporations Act 2001, applicable accounting standards including AASB 134 'Interim Financial Reporting', Accounting Interpretations and other authoritative pronouncements of the Australian Accounting Standards Board ('AASB'). Compliance with AASB 134 ensures compliance with IAS 34 'Interim Financial Reporting'.

The interim financial statements were authorised for issue by the Board on 10 March 2025.

The interim financial report does not include full disclosures of the type normally included in an annual financial report. Therefore, it cannot be expected to provide as full an understanding of the financial performance, financial position and cash flows of the group as in the full financial report.

It is recommended that this interim financial report be read in conjunction with the annual financial report for the year ended 30 June 2024 and considered together with any public announcements made by the Company during the half-year ended 31 December 2024 in accordance with the continuous disclosure requirements arising under the Corporations Act 2001 and the ASX Listing Rules.

The annual financial report of the consolidated entity for the year ended 30 June 2024 is available upon request from the Company's registered office or may be viewed on the Company's website, <https://investors.carly.co>.

Basis of measurement

The interim financial statements have been prepared on the accruals basis and the historical cost basis. All amounts are presented in Australian dollars, unless otherwise noted.

For the purpose of preparing the interim financial statements, the half-year has been treated as a discrete reporting period.

Going concern

These financial statements have been prepared on a going concern basis which assumes the Group realising its assets and extinguishing its liabilities in the normal course of business. The Directors acknowledge that stakeholders may be concerned regarding the ability of the Group to continue as a going concern due to the Group having incurred a net loss of \$2,339,510 during the half year (31 December 2023: loss of \$2,141,366), that there is a net liability position of \$5,661,142 (31 December 2023: net liabilities of \$1,302,976) and a net cash outflow from operating activities of \$896,280 (31 December 2023: outflow of \$1,076,702).

In consideration of the Group's financial position and the capital raising opportunities available to it, the Directors have concluded that a sale of the operating entities will provide the best outcome for shareholders. On 14 February 2025, Carly Holdings signed a non-binding agreement to merge its Carly car subscription business with Carbar Holdings Pty Ltd (**Carbar**) in a deal that will merge two of Australia's largest and original car subscription platforms.

1. MATERIAL ACCOUNTING POLICIES (continued)

The merger anticipates the sale to Carbar of all of the shares in Carly's operating entities, Carly Car Subscription Pty Ltd (**Carly Car Subscription**), OneX Operations Pty Ltd (**OneX**) and ElevenX Operations Pty Ltd (**ElevenX**) (the **Proposed Transaction**). Following completion of the sale, Carly Holdings will hold shares in Carbar, subject to a 24-month escrow period, which will be the head company of the merged group. The Proposed Transaction is subject to certain conditions precedent including, Carly Holdings shareholder approval pursuant to ASX Listing Rule 11.2 at a general meeting, a notice of meeting for which will be dispatched shortly.

Consideration

The consideration payable by Carbar for the acquisition comprises approximately \$3.8 million (prior to working capital adjustments and other completion adjustments) consisting of approximately \$160,000 in cash and approximately \$3.64 million worth of fully paid ordinary shares in the capital of Carbar (**Carbar Shares**). Working capital and any other adjustments will adjust the Carbar Shares component. The consideration is to be allocated between the Company and its financier (funds associated with iPartners) as described below.

In addition to the consideration payable, as a part of Carbar acquiring the OneX and ElevenX entities, Carbar will also assume the respective asset finance facilities of OneX and ElevenX which, at 31 December 2024, were approximately \$6.925 million and \$1.2 million respectively. iPartners will provide funding to OneX on revised arrangements as agreed between iPartners and Carbar.

Prior to any completion adjustments, the Proposed Transaction consideration will be allocated to iPartners and Carly as outlined below.

As part of the Proposed Transaction and in order to rationalise the Company's capital structure, iPartners has agreed to cancellation of the existing Convertible Note facility (a liability of \$2.76 million recorded in Carly's accounts as at 31 December 2024), and will receive proceeds of approximately \$2.77 million worth of Carbar Shares. Carly will receive proceeds of approximately \$160,000 in cash and approximately \$0.87 million worth of Carbar Shares, subject to a 24-month escrow period. Any completion adjustments will reduce or increase the Carbar Shares component (as required) and the adjustment will be allocated 50% to iPartners and 50% to the Company.

The cash proceeds from the Proposed Transaction will be utilised to meet the Group's ongoing funding requirements. The cashflow forecast prepared by management indicates a potential insignificant capital raising requirement. If the Proposed Transaction is not completed, or if the Company is unable to generate sufficient additional funding via any other means, there exists a material uncertainty that may cast significant doubt on the ability of the Group to continue as a going concern and, therefore, whether it will be able to realise its assets and extinguish its liabilities in the normal course of business and at the amounts stated in the financial report. The financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or to the amounts and classification of liabilities that might be necessary should it not continue as a going concern.

Significant accounting judgements, estimates and assumptions

The preparation of the interim financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing this consolidated interim financial report, the significant judgments made by management in applying the consolidated entity's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements as at and for the year ended 30 June 2024, except for:

- i) The significant judgements and estimates involved with assessing the fair value of the embedded derivative liability for the convertible notes. Refer to note 15 for further details; and
- ii) The impact of new standards and interpretations effective from 1 July 2024 as described below.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. MATERIAL ACCOUNTING POLICIES (continued)

Significant accounting policies

The accounting policies and methods of computation adopted are consistent with those of the previous financial year and corresponding interim reporting period, except for the impact of the Standards and Interpretations described below. These accounting policies are consistent with Australian Accounting Standards and with International Financial Reporting Standards.

(i) Adoption of new and revised standards

The Group has adopted new and revised Accounting Standards that are mandatory for the current reporting period.

(ii) Standards and interpretations in issue not yet adopted

The Directors have also reviewed new and revised standards and interpretations in issue not yet adopted that are relevant to the Group and effective for the reporting periods beginning on or after 1 January 2025. The Directors have determined that there is no material impact of the new and revised standards and interpretations in issue not yet adopted and therefore no material change is necessary to the Group's accounting policies.

2. SEGMENT INFORMATION

The Group operates one business segment, being the vehicle subscription business. Accordingly, only one operating segment has been identified and no further disclosure is required in the financial statements.

3. REVENUE FROM CONTRACTS WITH CUSTOMERS

The Group derives its revenue from the provision of services over time in the following major category.

15. FINANCIAL INSTRUMENTS

The Group has a number of financial instruments which are not measured at fair value on a recurring basis. The carrying amounts of these financial instruments approximate their fair value. The fair value of financial liabilities is estimated by discounting the remaining contractual maturities at the prevailing contract interest rate.

On the 30 November 2023, the Group issued 2,850,000 convertible notes at an issue price of \$1.00 per note, raising an additional \$2,850,000 (Convertible Note) before transaction costs. The key features of the convertible notes, included conversion at the holder's election at any time prior to the maturity date (6 June 2025), volume weighted average price (VWAP) over the previous 60 days on which CL8 shares were traded on the ASX if the trigger share price (TSP):

- If TSP is between \$0.048 and \$0.080; Conversion Price is a 25% discount to the TSP
- If TSP is less than \$0.048; Conversion Price = \$0.036
- If TSP is greater than \$0.080; Conversion Price = \$0.060

An independent assessment and valuation of the convertible notes was undertaken to determine the classification of the convertible notes. It was determined that there are 2 separate components to the Convertible Note; an embedded derivative liability arising due to the variable issue of ordinary shares, and a financial liability. A Monte Carlo simulation approach was taken to determine the value of the embedded derivative, which at 31 December 2024 was determined to be \$30,452 (2023: \$120,480).

16. COMMITMENTS AND CONTINGENCIES

The Group does not have any other commitments or contingent liabilities at reporting date.

17. EVENTS SUBSEQUENT TO REPORTING DATE

The entity requested, and was granted, a waiver request from its external funder, iPartners. The waiver request was made as a result of a breach by the entity exceeding its 90% LVR requirement for the facility A and B loan covenants with iPartners.

The entity assessed the raising of additional funding during H1 FY25 to support the existing iPartners loan covenants and ongoing vehicle acquisitions strategy, however suitable funding was not available. On 14 February 2025 the entity signed a non-binding agreement to merge its Carly car subscription business with Carbar Holdings Pty Ltd (**Carbar**) in a deal that will merge two of Australia's largest and original car subscription platforms. The merger will take place via the sale to Carbar of all of the shares in Carly's operating entities, Carly Car Subscription Pty Ltd, OneX Operations Pty Ltd and ElevenX Operations Pty Ltd (**Proposed Transaction**). Following completion of the sale, Carly will hold shares in Carbar which will be the head company of the merged group. The Proposed Transaction is subject to Carly shareholder approval pursuant to ASX Listing Rule 11.2 at a general meeting, a notice of meeting for which will be dispatched shortly. As outlined below, the waiver from iPartners is ongoing so that the Proposed Transaction can be completed.

The Company has also entered into a binding deed of agreement with iPartners Nominees Pty Ltd (**Deed**) pursuant to which the parties have agreed key objectives around completing the Proposed Transaction, managing the existing operations of Carly and its subsidiaries in a cost-efficient manner so that the Proposed Transaction can be completed; the terms upon which iPartners will provide the relevant consents and waivers to facilitate the Proposed Transaction and processes that may be followed in the event the Proposed Transaction does not complete. All operational decisions regarding the Company remain the responsibility of the Directors. The Deed will remain in place until the earlier of completion of the Proposed Transaction or the Proposed Transaction failing to complete

Other than the matters described above, there has not arisen in the interval between the end of the half year and the date of this report any item, transaction or event of a material and unusual nature likely, in the opinion of the Directors to affect significantly the operations of the Group, the results of those operations, or the state of affairs of the Group in future financial years.

Auditor's Responsibility for the Review of the Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2024 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*.
