DIRECTORS' REPORT HALF YEAR ENDED 31 DECEMBER 2024

Your directors submit the financial report of Cazaly Resources Limited ('Cazaly' or 'the Company') and its controlled entities ('the Group') for the half-year ended 31 December 2024.

DIRECTORS

The names of Directors who held office during or since the end of the half year:

Clive Bruce Jones (Chairman)
Tara French (Managing Director)
Terry James Gardiner (Non-Executive Director)
Jonathan Downes (Non-Executive Director)

COMPANY SECRETARY

Mike Robbins

REVIEW OF OPERATIONS

PROJECTS

The Company has sound management systems in place for all its safety, health, environmental and community relation work practices.

During the half-year under review, there were no reportable incidents relating to safety, health, environment or community-related matters.

AUSTRALIA

Goongarrie Gold Project (earn-in up to 80%)

On 12 February 2025, the Company announced that it had entered into an exclusive binding agreement with Brightstar Resources Ltd (ASX: BTR), for an option to earn up to an 80% interest in the Goongarrie Gold project (Goongarrie).

Goongarrie is located in the northeastern goldfields, 90km north of Kalgoorlie, and is easily accessible via the Goldfields Highway that runs along the western boundary of the project area (Figure 1). The project consists of 70km² of greenstone sequence within the Kalgoorlie Terrain. Importantly Goongarrie covers twelve kilometers of the Bardoc Tectonic Zone (BTZ), which is the northern extension of the Boulder-Lefroy Shear Zone (BLSZ) to the south, one of the richest gold mineralised structures in the Yilgarn Craton. Subsequent exploration activities have identified two additional subparallel N-S structures that also have the potential to host significant gold deposits.

Material Terms of Joint Venture Agreement

The terms of the earn-in joint venture agreement for the Goongarrie project, subject to Cazaly completing due diligence, are:

- Cazaly to expend an initial \$1m on exploration to earn a 25% interest;
- Expend further funds of \$1m to earn a 51% interest;
- Expend further funds of \$1m to earn to an 80% interest.

Tenements included in the Goongarrie project are listed in Table 2.

ABN 23 101 049 334

DIRECTORS' REPORT HALF YEAR ENDED 31 DECEMBER 2024 (CONTINUED)

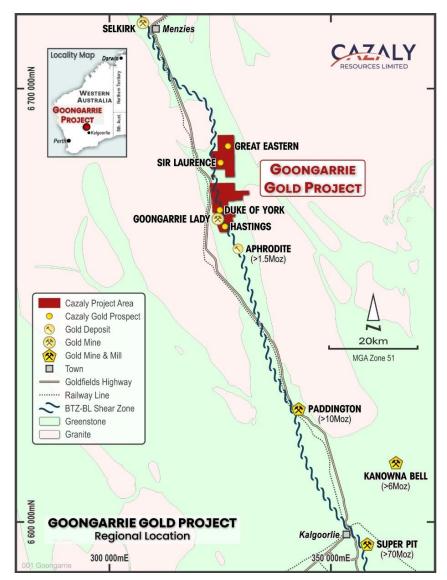

Figure 1. Regional location - Goongarrie Gold Project.

Project History

Goongarrie was acquired by Kingwest Resources Ltd (ASX: KWR) in 2019. In May 2023 KWR merged with Brightstar Resources Limited whose focus has now shifted away from the Goongarrie project following their recent merger with Alto Metals Ltd (ASX: AME)⁽ⁱ⁾.

Prior to KWR acquiring the project, very little exploration activity had been completed across the project as work was focused at Menzies and Kalgoorlie. Historic work included soil sampling, trenching, auger drilling, shallow aircore drilling, and limited RC drilling. This work targeted oxide gold mineralisation at surface associated with the Bardoc Tectonic Zone-Boulder Lefroy Shear Zone (BTZ). Two gold deposits along the BTZ were initially mined in the late 1980s at Jennys Reward, and Goongarrie Lady which was recently re-commissioned by a private group. There is potential for the discovery of new gold deposits undercover along the 2km strike length of the BTZ and along largely untested parallel mineralised structures that run N-S through the length of the project.

ABN 23 101 049 334

DIRECTORS' REPORT HALF YEAR ENDED 31 DECEMBER 2024 (CONTINUED)

KWR completed aeromagnetic and passive seismic surveys in addition to AC, RC and diamond drilling, which largely focused on targets beneath thick clay sediments on Lake Goongarrie, along a N-S structure parallel to the BTZ. Several other gold prospects were also identified along the BTZ that require further drilling and will be the initial focus for Cazaly. Material assay results are listed in Table 1.

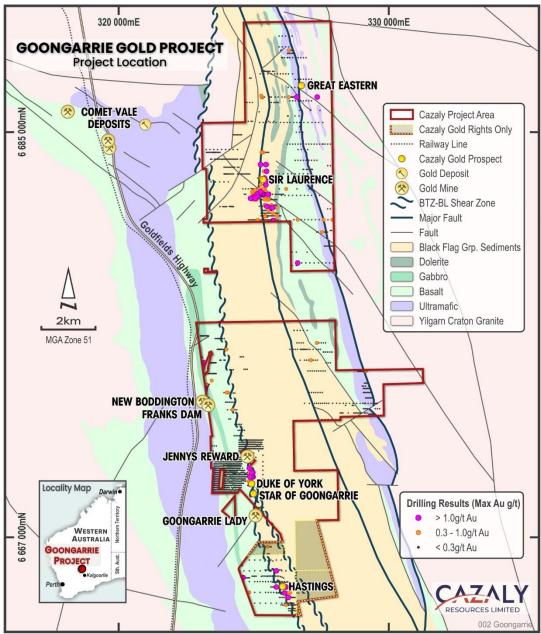

Figure 2. Gold Prospects and historical drilling. NB: all gold prospects lie within the Project area, all mines and deposits on this plan are located outside the Project area.

ABN 23 101 049 334

DIRECTORS' REPORT HALF YEAR ENDED 31 DECEMBER 2024 (CONTINUED)

Significant gold prospects (Figure 2):

- Hastings formerly the Area 9 prospect, bedrock gold mineralisation over 1km strike, including the anomalous gold intersection in KGA038, 38m@ 3.1g/t Au, that extends from 62m to the end of hole at 100m depth⁽ⁱⁱ⁾. The prospect lies under cover along the BTZ shear zone which hosts the recent +1Moz Aphrodite gold discovery located 9km to the south.
- **Duke of York** bedrock gold mineralisation along the BTZ shear extending from the open pit mines at Goongarrie Lady to Jennys Reward. Anomalous gold intercepts include **13m @ 3.5g/t Au** from 36-49m in JRRC008⁽ⁱⁱⁱ⁾, and **8m @ 10.7g/t Au** from 75-83m in JRRC024^(iv), and remains to be tested up dip and along strike.
- **Sir Laurence** widespread gold mineralisation over 2km strike within channel sands and gravels (eg KGA0409 3m @ 6.5g/t Au from 86-89m^(v)) at the base of Goongarrie Lake sediments. Mineralisation was also discovered in the underlying bedrock within the Black Flag Group with anomalous intercepts including 5m @ 4.7g/t Au from 113.3m in KGD004^(vi).
- Great Eastern formerly the East Lake prospect, bedrock gold mineralisation within ultramafic and clastic sediments associated with a significant N-S trending fault and NW splays at the greenstone/granite margin.

^{*} results annotated with an asterix were reported in 2001 and 2002 and would not have been reported in accordance with JORC Code 2012. These results would have been reported under an earlier version of the JORC Code 1989, 1992, 1996 or 1999.

Cautionary Statement (historical data)

The historical exploration results (marked *) were reported by Redback Mining and Goldfields, other results were reported by Kingwest. The information has been sourced from the Kingwest historical data base and public reports as listed under "References" and as per the links. The relevant Kingwest (ASX: KWR) announcements were reported under the JORC Code 2012. The historical exploration results marked with an asterix were reported in 2001 and 2002 and would not have been reported in accordance with JORC Code 2012. These results would have been reported under an earlier version of the JORC Code: 1989, 1992, 1996 or 1999. The Company has not yet evaluated the work required in order to report the historical exploration results in accordance with the JORC code 2012.

Compliance Statement (historical data)

At this point, the KWR and CAZ Competent Persons believe the historical information is a reliable representation of the available project data that has been sourced to date. The Company confirms it is not aware of any new information or data that is relevant to the understanding of the exploration results, or that materially affects the information included in the original market announcement(s). The Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original announcements. The historical exploration results have not been independently validated by Cazaly and the Company is not adopting or endorsing the former owners exploration results.

Next Steps

Available historical data has been sourced and is being reformatted, validated, and compiled for review (no new exploration results or data have become available relevant to the understanding of the historical data obtained from the owner). Following the conclusion of due diligence and Cazaly's decision to proceed with the JV earn in agreement, all gold targets will be ranked in order of prospectivity and an exploration program designed to progressively test prioritised gold drill targets. The Company has sufficient funds to support the initial drilling campaigns and will commence once all appropriate stakeholder approvals are in place, including heritage, environment, and drilling.

Halls Creek Copper -Zinc - Silver Project (CAZ 100%)

Cazaly continues to explore commercial opportunities for its assets at Halls Creek.

The Halls Creek Copper, Zinc and Silver project is situated 25km southwest of Halls Creek and covers part of the Halls Creek Mobile Zone which is highly prospective for a range of commodities including copper, gold, and nickel. The project includes the Mount Angelo North volcanogenic massive sulphide (VMS) copper-zinc-silver deposit and the Bommie porphyry copper deposit (Figure 3).

Positive scoping study results, from Auking Mining Limited's Koongie Park copper-zinc project which included the mineral resources at the Company's 100% owned Mt Angelo North (1.72Mt @ 1.4% Cu, 1.4% Zn and 12.3g/t Ag) and Bommie (MRE: 95.6Mt @ 0.27% Cu) deposits (Figure 3), confirms the potential for a financially robust, globally competitive operation with life-of-mine of 11 years with an estimated total production of 110kt Cu, 38kt Zn and 355koz Ag.

The full scoping study results are included in Cazaly's announcement titled: "AuKing Completes Scoping Study on Halls Creek Copper Project" dated 1 June 2023.

DIRECTORS' REPORT HALF YEAR ENDED 31 DECEMBER 2024 (CONTINUED)

Cheela Plains Copper Project (CAZ 100%)

Cazaly's Cheela Plains prospect is located in the Ashburton Basin, in the Pilbara region of Western Australia. The Ashburton Basin forms the northern part of the Capricorn Orogen, a ~1,000km long, 500km wide region of variably deformed metamorphosed igneous and sedimentary rocks located between the Yilgarn and Pilbara cratons.

The Cheela Prospect covers ~6km of strike along the Cheela Fault, interpreted to be a splay off the mantle tapping crustal scale Nanjilgardy Fault, host to significant mineral deposits. Three EM targets were identified at the Cheela Prospect with an airborne survey, and rock chips returned anomalous copper assays up to 32% (refer to ASX Announcements dated 12 October 2022 and 16 February 2023). These initial results are encouraging and provide an indication of the mineralisation potential along the Cheela Fault.

CANADA

Carb Nb-REE Carbonatite - Niobium & Rare Earth Elements Project (CAZ 100%)

The Carb niobium (Nb) and rare earth elements (REE) project is located in northwest Ontario, Canda in the Red

Lake District a well-known mining province comprising 93 mineral claims covering a very large +3km diameter carbonatite complex (Figure 4).

Shallow drill holes completed in 1967 (DD001-004) intersected sovite, a coarse-grained carbonatite, with Cerium (Ce) and Lanthanum (La) bearing carbonate minerals. Subsequent geochemical studies on the drill core revealed Ce >5%, La >1% and Nb >0.5ppm. One sample returned a Nb assay of 7.1%.

Field work conducted by the Company since acquisition in June 2023 has confirmed the carbonatite has the potential to host economic Nb and REE mineralisation. The best handheld pXRF readings on historical drill core include Nb 0.6%, Neodymium (Nd) 1.49%, Praseodymium (Pr) 0.42%, La 3.36%, and Ce 4.34%.

Drill testing will provide better characterisation of the distribution of Nb and REE mineralisation across the carbonatite, and the Company and its in-country team continue to maintain regular and transparent communication with the First Nation community in order to progress the approved drill program (refer to ASX announcement 7 August 2024).

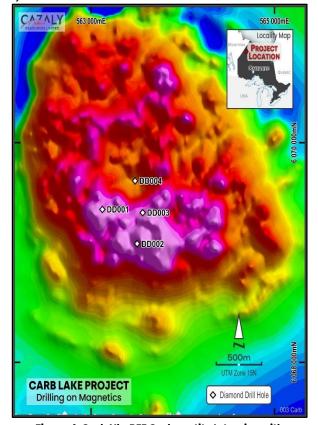

Figure 4. Carb Nb-REE Carbonatite Intrusive with historical drill hole locations.

Cautionary Statement

The historical exploration results reported have been sourced from public reports and are not reported in accordance with the JORC Code. The historical information is an accurate representation of the available data for the project that has been sourced to date. The pXRF exploration results reported herein have been collected by the Company on historical core samples and are not equivalent to analytical laboratory results. The use of spot pXRF readings only provides an indication of the potential order of magnitude of analytical laboratory assay results. The downhole location of pXRF results collected cannot be relied upon for actual location due to the incomplete nature of the remaining historical drill core.

ABN 23 101 049 334

DIRECTORS' REPORT HALF YEAR ENDED 31 DECEMBER 2024 (CONTINUED)

For further historical references and technical information please refer to Cazaly's 2023 announcements dated 27 April, 3 May, 14 June, 31 July, 22 August, 22 September and 10 November, and 2024 announcements dated 25 March and 1 July.

NAMIBIA

Kaoko Lithium Project (CAZ 95%)

The Kaoko lithium project is located in northern Namibia, approximately 800km by road from the capital of Windhoek and approximately 750km from the port of Walvis Bay (Figure 5).

During the quarter a large surface geochemical lithium anomaly measuring 12km x 10km at the Ohevanga Prospect was tested with twenty-eight RC drill holes. The RC holes were drilled on 100m spacings across three north-south orientated lines spaced ~400m apart (Figure 6) to test a 1km strike zone within the anomalous target area.

The drilling intercepted intercalated dolomite, dolostone, chert and minor chloritic sandstone. 32% of drill samples returned anomalous lithium values above 100ppm Li. The highest value of 218ppm Li was returned from KARC002 from 33-37m down hole.

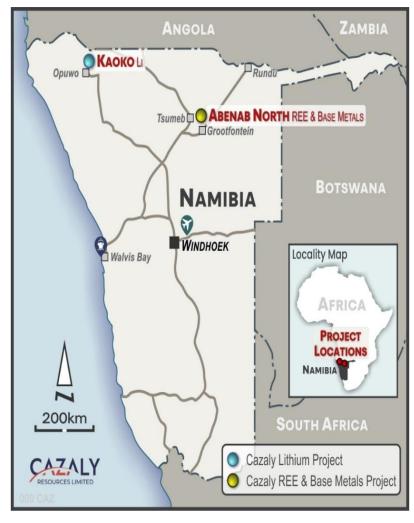

Figure 5: Location of Namibian Critical Mineral Projects

ABN 23 101 049 334

DIRECTORS' REPORT HALF YEAR ENDED 31 DECEMBER 2024 (CONTINUED)

The analytical results confirm that the sedimentary rocks intersected in drilling contain elevated lithium mineralisation. This suggests that the lithium mineralisation may have been introduced by hydrothermal fluids entering the water column from a volcanic source during sedimentation. The lithium concentrations are considered economically low level, and as such the Company will now review the existing copper targets and consider its options for the project. For additional details and information refer to ASX announcements dated 12 December 2022, 24 March and 13 November 2023, 25 March, 9 September, 7 October, 9 December, and 23 December 2024.

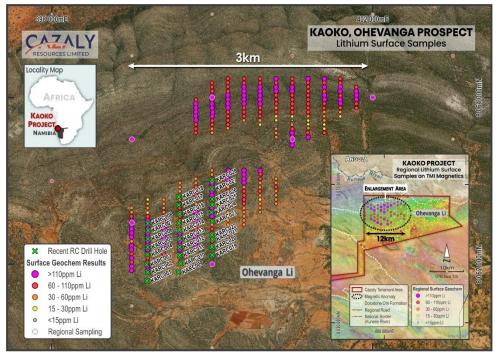

Figure 6. Location of the Ohevanga lithium anomaly and drill hole locations.

Abenab North REE - Base Metals Project (CAZ 95%)

The application status of the new exclusive prospecting licence, Abenab North, remains at notification of intention to grant. The grant is subject to an Environmental Clearance Certificate (ECC) issued by the Ministry of Environment and Tourism. The ECC will be issued upon approval of the Environmental and Social Impact Assessment and an Environmental Management Plan.

The project is located in the Otavi Mountain Land region of northern Namibia located approximately 450km by road from the capital of Windhoek in an area supported by the towns of Tsumeb and Grootfontein (Figure 5). The region is a significant well mineralised base metals province with historic production from several mines including Tsumeb, Kombat, Abenab and the Berg Aukas mines. Tsumeb is a world-famous Cu-Pb-Zn-Ag-Ge-Cd mine renowned for its wealth of rare and unusual minerals and was mined from 1897 to 1996.

The application covers an area of approximately 790km² and is considered highly prospective for base metals and REE mineralisation as evidenced from the results of previous but limited exploration (Figure 7).

For additional details and information refer to ASX announcements dated 7 November 2022, 24 March 2023 and 25 March 2024.

OTHER INTERESTS

Joint Ventures

Mt Venn (CAZ 20%)

The Mt Venn Gold project is located 125km northeast of Laverton in the North-eastern Goldfields Region of Western Australia and covers approximately 400km² of prospective greenstone sequence. The project area lies within the Mount Venn-Yamarna-Dorothy Hills greenstone belt which is the most easterly major N-S striking greenstone belt of the Yilgarn Craton.

The project is subject to an unincorporated Joint Venture originally between the operators Woomera Mining Limited 80% and Cazaly 20%. Cazaly is free carried to the completion of a pre-feasibility study.

On 9 December 2024, Woomera Mining Limited (ASX: WML) announced a change of company name to Orbminco (ASX: OBI). On 13 January 2025 Sarama Resources Limited (ASX: SRR) announced the execution of a non-binding Heads of Agreement with OBI to acquire their 80% majority share of the Mt Venn Gold project. This was formalised on 27 February 2025, when SRR announced a Binding Agreement with OBI for the acquisition of their 80% majority share in the project.

The belt is considered highly prospective for gold and nickel and is positioned along the western limb of the Yamarna Greenstone Belt that hosts Gold Road's and Gold Fields' 6Moz Gruyere Gold Mine. Together, the Yilgarn greenstone belts account for 30% of the world's gold reserves, most of Australia's nickel production and other base metal and rare earth deposits.

ABN 23 101 049 334

DIRECTORS' REPORT HALF YEAR ENDED 31 DECEMBER 2024 (CONTINUED)

McKenzie Springs (CAZ 30%)

The McKenzie Springs project is a joint venture with Fin Resources Ltd (ASX: FIN) over exploration licence E80/4808, located in the Kimberley region of Western Australia. The project lies south along strike from the Savannah nickel-copper-cobalt mine owned by Panoramic Resources Ltd (ASX: PAN).

A ground FLTEM survey was designed to test the interpreted gossan for nickel and copper mineralisation, together with a program of stream sediment sampling across the Spring Creek Intrusion in conjunction with outcrop mapping and rock chip sampling. The program is scheduled to be undertaken in the first half of 2025.

Royalties

During the quarter Mineral Resources Limited (ASX: MIN) continued production activities at the Parker Range Iron Ore Mine. Cazaly, as the royalty holder, is entitled to receive A\$0.50/tonne of iron ore produced from the mine, once the first 10 million tonnes of production have been reached. Detailed discussions have continued with MIN since their June 2024 announcement in respect of their plans to discontinue iron ore shipments from the Yilgarn Hub.

The Company retains a royalty interest of US\$0.30/tonne in the Hamersley iron ore project, managed by Equinox Resources Limited (ASX: EQN). The project is located in the heart of the Pilbara iron ore province and currently has a total Mineral Resource estimate of 343.2Mt at 54.5% Fe (reported in compliance with JORC Code 2012 - refer to Pathfinder's ASX Announcement dated 24 January 2020). Recent work by Equinox included reinterpretation of the MRE which confirms an initial Direct Shipping Ore component of 108.5 Mt @ 58% Fe (refer to Equinox ASX Announcement dated 6 June 2024). Equinox is committed to advancing the project towards development.

CORPORATE

The Company had cash and investments totalling \$4.1 million at 31 December 2024.

Equity

There were no equity issues in the half year to 31 December 2024.

On 12 October 2024, 1,500,000 unquoted options (exercisable at \$0.056) expired.

RESULTS OF OPERATIONS & FINANCIAL POSITION

The operating loss after income tax of the Group for the half-year ended 31 December 2024 was \$2,736,101 (31 December 2023: Profit of \$117,504).

The Group had a working capital surplus, being current assets less current liabilities of \$3,594,964 at 31 December 2024 (30 June 2024: surplus of \$4,796,138).

SUBSEQUENT EVENTS

As noted under Review of Operations, on 12 February 2025, the Company announced the option to earn up to an 80% interest in the Goongarrie gold project.

Apart from the above, there have not been any matters or circumstances that have arisen since 31 December 2024 which have significantly affected, or may significantly affect the operations of the Company, the result of those operations, or the state of affairs of the Company in subsequent financial years.

Previously Reported Information

The information in this report that relates to Resource Estimates, Exploration targets and Exploration results is extracted from previous company announcements to the ASX, all are available to view on https://www.cazalyresources.com.au. For the purposes of ASX Listing Rule 5.23 the Company confirms that it is not aware of any new Exploration information or data that materially affects the information included in the original market announcements. The company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcements.

Competent Persons Statements

The information contained herein that relates to KWR Exploration results is based on information compiled by Mr Laurence Kirk who is a Member of the Australasian Institute of Mining and Metallurgy. Mr Kirk was a Consultant Geologist to Kingwest Resources Limited. Mr Kirk has sufficient experience that is relevant to the style of mineralisation, type of deposit under consideration and to the activity that they are undertaking to qualify as a Competent Person as defined in the 2012 edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves' and consents to the inclusion of their name in matters based on the information in the form and context in which they appears.

The information contained herein that relates to Exploration Results is based upon information compiled or reviewed by Ms Tara French and Mr Don Horn, who are employees of the Company. Ms Tara French and Mr Horn are both Members of the Australasian Institute of Geoscientists and have sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which they are undertaking to qualify as a Competent Persons as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Ms Tara French and Mr Horn both consent to the inclusion of their names in the matters based on the information in the form and context in which it appears.

(1) The information contained herein that relates to the Mount Angelo North Mineral Resource is based on information compiled by Ms Vanessa O'Toole Principle Consultant of Honey Mining and Resources Pty Ltd, a Competent Person, who is a Member of The Australasian Institute of Mining and Metallurgy and has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Ms Vanessa O'Toole consented to the inclusion of their name in the matters based on the information in the form and context in which it appears.

ABN 23 101 049 334

DIRECTORS' REPORT HALF YEAR ENDED 31 DECEMBER 2024 (CONTINUED)

(2) The information contained herein that relates to the Bommie porphyry copper mineral resource estimation is based on work completed by Mr. Stephen Hyland, a Competent Person and Fellow of the AuslMM. Mr. Hyland is Principal Consultant Geologist with Hyland Geological and Mining Consultants (HGMC), who is a Fellow of the Australian Institute of Mining and Metallurgy and holds relevant qualifications and experience as a qualified person for public reporting according to the JORC Code in Australia. Mr Hyland is also a Qualified Person under the rules and requirements of the Canadian Reporting Instrument NI43-101 and consents to the inclusion of their name in the matters based on the information in the form and context in which it appears.

Forward Looking Statement

This ASX report may include forward-looking statements. Forward-looking statements include, but are not limited to, statements concerning Cazaly's planned exploration program(s) and other statements that are not historical facts. When used in this document, the words such as "could," "plan," "estimate," "expect," "intend," "may", "potential," "should," and similar expressions are forward looking statements. Although Cazaly Resources Limited believes that its expectations reflected in these forward-looking statements are reasonable, such statements involve risks and uncertainties, and no assurance can be given that actual results will be consistent with these forward-looking statements. The forward-looking statements in this report reflect views held only as at the date of this report.

ABN 23 101 049 334

NOTES TO THE FINANCIAL STATEMENTS HALF YEAR ENDED 31 DECEMBER 2024

1 STATEMENT OF MATERIAL ACCOUNTING POLICIES

(a) Corporate information

The interim financial report of Cazaly Resources Limited ('Cazaly' or the 'Company') for the half year ended 31 December 2024 was authorised for issue in accordance with a resolution of the Directors on 12 March 2025.

Cazaly is a company limited by shares incorporated and domiciled in Australia whose shares (CAZ) are publicly traded on the Australian Securities Exchange. The principal activity of Cazaly Resources Limited is the exploration and development of mineral resources.

(b) Statement of compliance

The interim consolidated financial statements are a general purpose financial report prepared in accordance with the requirements of the *Corporations Act 2001* and Accounting Standard AASB 134: *Interim Financial Reporting*. Compliance with AASB 134 ensures compliance with International Financial Reporting Standards IAS34: *Interim Financial Reporting*.

The condensed half-year report does not include full disclosures of the type normally included in an annual financial report. Therefore, it cannot be expected to provide as full an understanding of the financial performance, financial position and cash flows of the group as in the full financial report.

It is recommended that this financial report be read in conjunction with the annual financial report for the year ended 30 June 2024 and any public announcements made by Cazaly and its controlled entities during the half-year in accordance with continuous disclosure requirements arising under the *Corporations Act 2001* and the ASX Listing Rules.

(c) Basis of preparation

The accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period except for the impact of the standards and interpretations below in note 1(e). These accounting policies are consistent with Australian Accounting Standards and with International Financial Reporting Standards.

The financial statements are for the consolidated entity consisting of Cazaly Resources Ltd and its subsidiaries (the 'Group').

The financial report has also been prepared on an historical cost basis, except for available for sale investments which have been measured at fair value through profit and loss. Cost is based on the fair values of the consideration given in exchange for assets.

The financial report is presented in Australian Dollars, which is the Company's functional currency.

(d) New, revised or amending accounting standards and interpretations adopted

Adoption of new and revised Accounting Standards

The Group has adopted all new and revised Standards and Interpretations issued by the Australian Accounting Standards Board that are relevant to its operations.

ABN 23 101 049 334

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) HALF YEAR ENDED 31 DECEMBER 2024

Standards and Interpretations in issue not yet adopted

The Group has reviewed the new and revised Standards and Interpretations on issue not yet adopted for the half year ended 31 December 2024 and determined that there is no material impact of the Standards and Interpretations in issue not yet adopted by the Company.

(e) Significant accounting judgements and key estimates

The preparation of interim financial reports requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expense. Actual results may differ from these estimates. In preparing this half-year report, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial report for the year ended 30 June 2024.

Capitalised exploration costs carried forward

The future recoverability of capitalised exploration costs carried forward has been reviewed by the directors. They are dependent on a number of factors, including whether the Group decides to exploit the related lease/licence itself or, if not, whether it successfully recovers the related exploration and evaluation asset through sale.

Factors that could impact the future recoverability include the level of reserves and resources, sovereign risk, future technological changes, availability of funds, future legal changes (including changes to environmental restoration obligations) and changes to commodity prices.

To the extent that capitalised exploration expenditure is determined not to be recoverable in the future, results and net assets will be reduced in the period in which this determination is made.

In addition, exploration and evaluation expenditure is capitalised if activities in the area of interest have not yet reached a stage that permits a reasonable assessment of the existence or otherwise of economically recoverable resources. To the extent it is determined in the future that this capitalised expenditure should be written off, results and net assets will be reduced in the period in which this determination is made.

(f) Segment information

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments has been identified as the Managing Director of Cazaly.

ABN 23 101 049 334

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) HALF YEAR ENDED 31 DECEMBER 2024

2. INCOME AND EXPENSES

The following revenue and expense items are relevant in explaining the income statement for the half-year:

| | 31 December | 31 December |
|--|------------------------|--------------------|
| | 2024 \$ | 2023 \$ |
| Revenue | | |
| Interest received | 103,321 | 53,016 |
| Office service recharges | 54,355 | 74,252 |
| | 157,676 | 127,268 |
| Other Income | | |
| Gain on sale of financial assets | 86,666 | 236,125 |
| Other income | 28,150 | 2,578 |
| | 114,816 | 238,703 |
| | 31 December 2024 \$ | 30 June 2024 \$ |
| Exploration and evaluation phases at cost | 8,939,043 | 10,195,974 |
| Movements in exploration and evaluation assets | - | |
| Brought forward | 10,195,974 | 7,537,893 |
| Expenditure capitalised during the period | 1,086,850 | 1,708,775 |
| | | |
| Acquisitions | (51,045) | 1,127,737 |

Exploration expenditure, including tenement acquisitions, totalled \$1,086,850 for the 2024 half year (2023: \$2,452,988). The main expenditure was incurred on the Company's Carb and Kaoko projects as well as new project generation. Exploration expenditure written off for the 2024 half year was (\$2,343,781) (2023: \$90,603) and relates to historical expenditures associated with the Ashburton and Lyons projects, new project generation costs and other tenements that were relinquished or written off during the half year.

8,939,043

10,195,174

The value of the Group's interest in exploration expenditure is dependent upon the continuance of the rights to tenure of the areas of interest, the results of future exploration and the recoupment of costs through successful development and exploitation of the areas of interest, or alternatively, by their sale.

4. TRADE AND OTHER PAYABLES

Equity Based Payments

Options are issued to directors, employees and consultants. The options may be subject to performance criteria, and may be issued to directors, employees and consultants to increase goal congruence between executives, directors and shareholders. Options carry no dividend or voting rights. There were no option issues made during the half year.

ABN 23 101 049 334

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) HALF YEAR ENDED 31 DECEMBER 2024

Performance Rights

After shareholder approval was obtained at the 2021 AGM, the Company's Managing Director, Ms Tara French, was issued a total of 5 million performance rights (expiring on 11 October 2025).

6. OPTION RESERVE

| | 31 December | 30 June | |
|--|-------------|----------|--|
| | 2024\$ | 2024\$ | |
| | | | |
| Opening balance | 532,214 | 503,690 | |
| Equity based payments (options and performance rights) | - | 52,722 | |
| Transfers to accumulated losses | _ | (24,198) | |
| Closing balance | 532,214 | 532,214 | |

This reserve records the value of equity benefits provided to employees, consultants and directors as part of their remuneration, share based payments to third parties and option consideration for any acquisitions.

7. ACCUMULATED LOSSES

| Opening balance | (14,193,834) | (13,326,581) |
|---|--------------|--------------|
| Net earnings/loss attributable to members | (2,729,181) | (891,451) |
| Transfers from option reserve | - | 24,198 |
| Closing balance | (16,923,015) | (14,193,834) |

8. SUBSEQUENT EVENTS

As noted under Review of Operations, on 12 February 2025, the Company announced the option to earn up to an 80% interest in the Goongarrie gold project.

Apart from the above, there have not been any matters or circumstances that have arisen since 31 December 2024 which have significantly affected, or may significantly affect the operations of the Company, the result of those operations, or the state of affairs of the Company in subsequent financial years.

9. CONTINGENT LIABILITIES AND ASSETS

Contingent Liabilities

Kaoko Project

As announced on 26 March 2018, the Company acquired an option to earn the rights to a 95% interest in the Kaoko project ('Kaoko') in Namibia. The following contingent liabilities remain for Cazaly's registered 95% interest at 31 December 2024:

Under the KDN JV:

KDN Geo Consulting (5% KDN JV partner) is free carried to a definitive feasibility study.

ABN 23 101 049 334

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) HALF YEAR ENDED 31 DECEMBER 2024

Under the Kunene Purchase Agreement:

The Company acquired 100% of the issued capital of Kunene North Pty Ltd and therefore its rights under the KDN JV, and has the following commitments outstanding:

- i) Issue 10.5 million fully paid Cazaly shares upon the delineation of a JORC compliant mineral resource containing at least 10,000t of contained cobalt (or other metal equivalent)
- ii) Pay A\$1 million (or issue fully paid Cazaly shares to that amount) upon a formal Decision to Mine

Halls Creek

As announced on 12 November 2020, the Company acquired an 80% interest in the Halls Creek project from 3D Resources Limited bringing Cazaly to a 100% interest in the project. There is a contingent liability of \$250,000 due to 3D Resources Limited upon production of minerals in a commercial and saleable quantity and there is a royalty obligation to Vox Royalty Australia Pty Ltd on the tenement (M80/247). The royalty payable is a 1.5% net smelter return of production attributable to the tenement.

Contingent Assets

Parker Range

On 19 August 2019, the sale of Parker Range to Mineral Resources was completed pursuant to which Cazaly is entitled to a royalty at the rate of A\$0.50 for every dry metric tonne of iron ore extracted and removed from the Parker Range area after the first 10 million dry metric tonnes of production.

<u>Hamersley</u>

Following the sale of the Hamersley Iron Ore Project in 2021, to Equinox Resources Limited (ASX:EQN), the Company still retains a royalty interest of US\$0.30/tonne in the project. The project is located in the heart of the Pilbara iron ore province and currently has a total Mineral Resource estimate of 343.2 Mt at 54.5% Fe (reported in compliance with JORC Code 2012 - refer to Pathfinder's ASX Announcement dated 24 January 2020). Equinox continues to advance feasibility studies to progress the development of the Project.

10. OPERATING SEGMENTS

The Group currently operates in three geographical areas being Canada, Namibia and Australia, and in one industry, being exploration, for the half year ended 31 December 2024. The chief operating decision maker is the Managing Director of the Company. There is currently only one operating segment identified, being exploration activities based on internal reports reviewed by the chief operating decision maker in assessing performance and allocation of resources.

The accounting policies applied for internal reporting purposes are consistent with those applied in the preparation of the financial statements.

ABN 23 101 049 334

DIRECTORS' DECLARATION HALF YEAR ENDED 31 DECEMBER 2024

In the opinion of the directors:

- (a) the financial statements and notes are in accordance with the Corporations Act 2001, including:
 - (i) giving a true and fair view of the Group's financial position as at 31 December 2024 and its performance for the half-year ended on that date; and
 - (ii) complying with Accounting Standard AASB 134: "Interim Financial Reporting" and the *Corporations Regulations 2001*; and
- (b) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

Signed in accordance with a resolution of directors, made pursuant to section 303(5)(a) of the *Corporations Act* 2001.

On behalf of the Board.

Tara French Managing Director

fred

Dated 12 March 2025

To the Board of Directors,

AUDITOR'S INDEPENDENCE DECLARATION UNDER SECTION 307C OF THE CORPORATIONS ACT 2001

As lead audit director for the review of the financial statements of Cazaly Resources Limited and its controlled entities for the period ended 31 December 2024, I declare that to the best of my knowledge and belief, there have been no contraventions of:

- the auditor independence requirements of the Corporations Act 2001 in relation to the review; and
- any applicable code of professional conduct in relation to the review.

Yours Faithfully,

Hall Chadwick

INDEPENDENT AUDITOR'S REVIEW REPORT TO THE MEMBERS OF CAZALY RESOURCES LIMITED

Conclusion

We have reviewed the accompanying half-year financial report of Cazaly Resources Limited ("the Company") and Controlled Entities ("the Consolidated Entity") which comprises the condensed consolidated statement of financial position as at 31 December 2024, the condensed consolidated statement of profit or loss and other comprehensive income, condensed consolidated statement of changes in equity and condensed consolidated statement of cash flows for the half-year ended on that date, a summary of material accounting policies and other selected explanatory notes, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Cazaly Resources Limited and Controlled Entities does not comply with the *Corporations Act 2001* including:

- a. Giving a true and fair view of the Consolidated Entity's financial position as at 31 December 2024 and of its performance for the half-year ended on that date; and
- b. Complying with Accounting Standard AASB 134: *Interim Financial Reporting* and *Corporations Regulations* 2001.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Entity. Our responsibilities are further described in the Auditor's Responsibilities for the Review of the Financial Report section of our report. We are independent of the Company in accordance with the auditor independence requirements of the Corporations Act 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001* which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's review report.

Responsibility of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility for the Review of the Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Consolidated Entity's financial position as at 31 December 2024 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
