Review of operations

The loss for the Group after providing for income tax and non-controlling interest amounted to \$807,981 (31 December 2023: \$1,824,778).

On 22 October 2024, the Company announced it had entered into a funding agreement with RiverFort Global Capital Ltd, for Cthe provision of a bridging loan of up to \$1,000,000. This loan is subject to a 10% fixed coupon rate paid in cash on the Maturity Date, being four months from the date of drawdown¹, however has been extended by another four months.

Thange in capital structure the Company issued 5,000,000 options exercisable at \$0.0225 each to RiverFort Global Capital Ltd, as part of the bridging loan drawdown fee.

Hanzania

or perso

uring the six months to December 2024, the Company:

Obtained drilling and rock sample assay results for the Mpanda copper-gold project in Tanzania which yielded excellent early-stage results.

Successfully completed a maiden Reverse Circulation (RC) drilling program at the Mpanda project with significant intercepts returned from the Kabungu Prospect from drill hole MPRC0007,

- 4m at 2.5g/t Au and 0.5% Cu from 39m, and

- 2m at 0.5g/t Au from 47m,

Continued mapping of structures and geological features such as gossans and quartz stockwork, with soil sample and some RC drilling assay results to be reported for a number of prospects in the March 2025 guarter.

Mpanda Project, Eastern Tanzania

During the half-year, activity was focused on the Mpanda Project which hosts major copper-gold soil anomalies that include Mpanda Ndogo, Kabungu, Mila, Soko, Mapinduzi, Magamba, Kapalala, Makongolo and Vikonge, directly north of Katavi Copper Mine; and Stalike to its south (Figure 1).

¹ ASX Announcement 22 October 2024

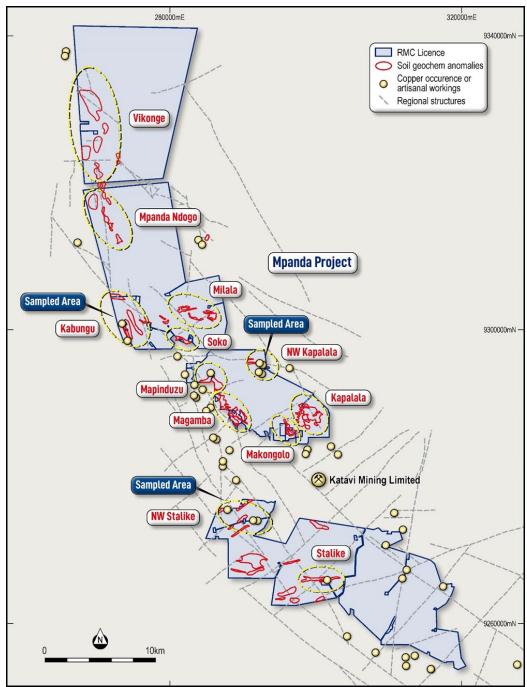

Figure 1: Location of sampled areas shown in the context of the Mpanda Prospect

Sampling and mapping of small-scale mine (artisanal) workings to establish a mineralisation trend was conducted over the Mpanda Project with very high-grade Cu-Au assay results².

All workings falling within and outside of the Company's licences were mapped to understand the general mineralisation trend and what controls the mineralisation in the area. A total of 16 rock samples were collected from the artisanal workings within the Company's licence boundary.

The artisanal workings have indicated a North West - South East general mineralisation. Spectacular results were received from the laboratory sample analysis. These latest rock sampling results to date indicate the presence of gold and copper mineralisation in the Project areas ranging in grades from 0.5 g/t gold to 36.7 g/t gold and 0.3% to almost 12% copper, in addition to the earlier results reported (Figure 2 below).

² ASX Announcement 2 September 2024

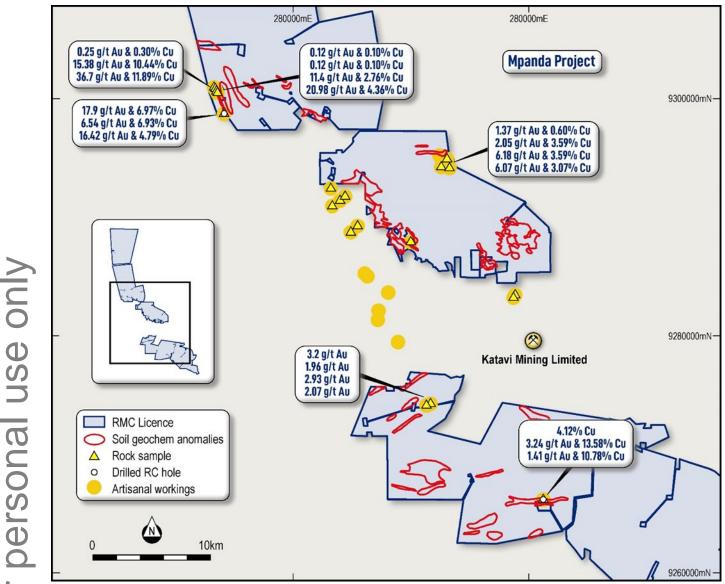

Figure 2: Locations of rock chip samples, RC drill hole, multiple historical workings and previous sample results

Drilling Program Summary

The RC drilling programme confirmed the presence of anomalous Au and Cu values within the Mpanda Project, with geological review and modelling confirming the form of the mineralisation and this work is ongoing to locate the potential areas of significant epithermal Au and Cu enrichment.

Drilling was conducted at 4 prospects within the Mpanda Project area, including Mpanda Ndogo, Stalike, Kabungu and Vikonge, and comprised 13 RC holes (MPRC0001 through to MPRC0013) for a total of 723 metres (see Table 1 below).

The program was designed to test the geological and geochemical targets that were generated from the recently completed soil geochemistry and mapping programs. Four drill holes encountered difficult drilling or a cavity and were discontinued and did not achieve their planned depth.

Resource Mining Corporation Limited Directors' report 31 December 2024

All exploration completed to date has confirmed the presence of numerous Cu-Au soil anomalies⁴, and all work within these areas has shown that the anomalies tested relate directly to Cu-Au mineralisation. All current work provides a platform for definition of future drill programs and resource development.

Finland

During the six months to December 2024, the Company undertook limited exploration activities on the Finland Projects due to the status of tenements in application and weather conditions. Field work including rock chip sampling on the granted Köyhäjoki exploration permit is scheduled to be completed in the March 2025 guarter.

Competent Person Statement – Exploration Results

Information in this Report that relates to Exploration results and targets is based on, and fairly reflects, information compiled by Mr. Mark Gifford, a Competent Person who is a Fellow of the Australian Institute of Mining and Metallurgy. Mr. Gifford is an independent consultant for Resource Mining Corporation Limited. Mr. Gifford has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity he is undertaking to qualify as a Competent Person as defined by the 2012 Edition of the Australian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Mr. Gifford consents to the inclusion of the data in the form and context in which it appears.

Where the Company references Exploration results and targets previously announced, it confirms that it is not aware of any new information or data that materially affects the information included in those announcements and all material assumptions and technical parameters underpinning the resource estimates with those announcements continue to apply and have not materially changed.

This report is made in accordance with a resolution of directors, pursuant to section 306(3)(a) of the Corporations Act 2001.

Basis of Preparation

This half-year financial report for the six months ended 31 December 2024 has been prepared in accordance with AASB 134 Interim Financial Reporting and the Corporations Act 2001 and was authorised for issue in accordance with a resolution of the directors on 14 March 2025.

These half-year financial reports do not include all the notes of the type normally included in annual financial reports and therefore cannot be expected to provide as full an understanding of the financial performance, financial position and financing and investing activities of the Company as the full financial reports.

The half-year financial reports should be read in conjunction with the annual financial reports for the year ended 30 June 2024 and any public announcements made by Resource Mining Corporation Limited during the half-year reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001. For the purpose of preparing the half-year financial statements, the half-year has been treated as a discrete reporting period.

The financial report is presented in Australian dollars, which is the Company's functional and presentation currency.

Resource Mining Corporation Limited is a for-profit entity for the purpose of preparing the half-year financial statements.

Going Concern

The financial report has been prepared on a going concern basis, which assumes continuity of normal business activities and the realisation of assets and the settlement of liabilities in the ordinary course of business.

For the half year ended 31 December 2024 the Group recorded a loss of \$809,184 (31 December 2023 loss \$1,853,283) and had net cash outflows from operating and investing activities of \$412,229 (31 December 2023 \$1,739,967). At 31 December 2024, At 31 December 2024, the Group had a deficiency of current assets to current liabilities of \$1,528,263 (30 June 2024 \$186,314).

The ability of the Group to continue as a going concern is dependent on the realisation of value of the Group's projects and the future successful raising of funding through equity or other available forms of funding. These conditions indicate a material uncertainty that may cast a significant doubt about the Group's ability to continue as a going concern.

For the Group to be able to continue to carry out its exploration activity and to have sufficient working capital, it is dependent on the financial support from its shareholders to fund its working capital requirements and/or successfully raise capital. The Directors are satisfied they will be able to raise additional working capital as required and thus it is appropriate to prepare the financial statements on a going concern basis. In arriving at this position, the Directors have considered the following matters:

• The Group has successfully raised \$1,000,000 via a bridging loan, of which \$500,000 is undrawn at 31 December 2024. This undrawn amount supports the Group's ability to settle short term creditors as required;

Trade creditors and accrued expenditure at 31 December 2024 include amounts due to Directors of \$288,967. These mounts have agreed deferral arrangements until the company has raised additional capital. The company expects it will be able to manage all other creditors on agreed terms of settlement;

C The company expects to raise capital in the short term through a share placement plan, and additional capital raising in the next 12 months if and as required;

There is an ability to reduce expenditure where required, the Directors would undertake steps to scale down its operations And reduce its discretionary expenditure in order to curtail cash outflows.

The Directors have assessed the cash flow requirements for the 12 months period from the date of approval of the financial statements and its impact on the Group and believe that by adopting the above course of action, there will be sufficient funds to meet the Group's working capital requirements.

Should the Group not be able to continue as a going concern, it may be required to realise its assets and discharge its liabilities than in the ordinary course of business, and at amounts that differ from those stated in the financial statements. The financial report does not include any adjustments relating to the recoverability and classification of recorded asset amounts or liabilities that might be necessary should the Group not continue as a going concern.

The adoption of these Accounting Standards and Interpretations did not have any significant impact on the financial performance or position of the Group.

The following Accounting Standards and Interpretations are most relevant to the Group:

Borrowings

Loans and borrowings are initially recognised at the fair value of the consideration received, net of transactions costs. They are subsequently measured at amortised cost using the effective interest method.

Note 2. Segment Information

The Group operates within two geographical segments within the mineral exploration and extraction industry, being Tanzania and Finland. The segment information provided to the chief operating decision maker is as follows:

Note 15. Events after the reporting period

Post the half year end, the Company signed a binding term-sheet granting the Company the Option to acquire a 70% interest a Saudi Arabia Joint Venture with a gold project focus.
 RMI assumes all obligations and responsibilities of the seller under the Joint Venture Agreement as the sole consideration for acquiring 70% interest. Unless, RMI does not exercise the option within one month of the tender license being granted, and will result in the option

automatically being terminated resulting in the 70% not being acquired by RMI.

Subsequent to 31 December 2024, the Company extended the maturity date of the funding agreement with RiverFort Global Opportunities PCC Ltd (RiverFort) to 21 June 2025, via a Deed of Amendment and Restatement (Deed). Pursuant to the Deed:

- the outstanding Balance will accrue a fixed extension fee of 10% in consideration of the Initial Term Extension, which will be settled either in cash or Shares upon the election of the Company.
- the settlement of the extension fee in Shares will be calculated at the lower of:
- (i) the average of the 5 daily VWAPs prior to the date of the Deed, and
- (ii) the average of the 5 daily VWAPs prior to the date of the written notification pursuant to clause 2.1(b). Such Shares will be delivered into the designated account of RiverFort within 3 trading days of the written notification; and
- the outstanding Balance will accrue interest per the rate prescribed by the definition of Interest for the period between . the original Maturity Date and the Extended Maturity Date.

No other matter or circumstance has arisen since 31 December 2024 that has significantly affected, or may significantly affect the Group's operations, the results of those operations, or the Group's state of affairs in future financial years.

1. In the opinion of the directors:

a) The financial statements and notes are in accordance with the Corporations Act 2001, including:

i) giving a true and fair view of the Company's financial position as at 31 December 2024 and of its performance for the half-year ended on that date: and

ii) complying with Australian Accounting Standards (including the Australian Accounting Interpretations), the Corporations Regulations 2001 and other mandatory reporting requirements; and

b) Subject to the matters disclosed in note 1, there are reasonable grounds to conclude that at the time of the directors' declaration, the entity will be able to pay its debts as and when they fall due. The Directors have modified their solvency statement to reflect the uncertainty and this is appropriate.

2. This declaration has been made after receiving the declarations required to be made to the directors in accordance with Section 303(5)(a) of the Corporations Act 2001 for the half-year ended 31 December 2024.

This declaration is signed in accordance with a resolution of the Board of Directors.

INDEPENDENT AUDITOR'S REVIEW REPORT

To the members of Resource Mining Corporation Limited

Report on the Half-Year Financial Report

Conclusion

We have reviewed the half-year financial report of Resource Mining Corporation Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 31 December 2024, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the half-year ended on that date, material accounting policy information and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of the Group does not comply with the *Corporations Act 2001* including:

- i. Giving a true and fair view of the Group's financial position as at 31 December 2024 and of its financial performance for the half-year ended on that date; and
- ii. Complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.

Basis for conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity.* Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to the audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001* which has been given to the directors of the Company, would be the same terms if given to the directors as at the time of this auditor's review report.

Material uncertainty relating to going concern

We draw attention to Note 1 in the financial report which describes the events and/or conditions which give rise to the existence of a material uncertainty that may cast significant doubt about the Group's ability to continue as a going concern and therefore the Group may be unable to realise its assets and discharge its liabilities in the normal course of business. Our conclusion is not modified in respect of this matter.

BDO Audit Pty Ltd ABN 33 134 022 870 is a member of a national association of independent entities which are all members of A.C.N. 050 110 275 Ltd ABN 77 050 110 275, an Australian company limited by guarantee. Liability limited by a scheme approved under Professional Standards Legislation

Responsibility of the directors for the financial report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is true and fair and is free from material misstatement, whether due to fraud or error.

Auditor's responsibility for the review of the financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the Corporations Act 2001 including giving a true and fair view of the Group's financial position as at 31 December 2024 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
