### **Franklin Templeton Australia Limited Funds**

Notice of proposed changes to the ClearBridge RARE Infrastructure Value Fund – Hedged –  
Class A (APIR: TGP0008AU); mFund (RAI01)

Dear Investor,

This notice is intended to provide you, an investor of the ClearBridge RARE Infrastructure Value Fund – Hedged Class A Units (ARSN 121 027 709) (the “Fund”) with information about the proposed quotation of the Fund’s Class A units on the Australian Securities Exchange (“ASX”) as a dual-access Exchange Traded Product (“ETP”).

Franklin Templeton Australia Limited (“FTAL”; “Responsible Entity”; “we”, “us”) as the responsible entity of the Fund has formally applied to the ASX to remove the Fund from the mFund Settlement Service; and admit it to trading status. This will mean, subject to approval from the Australian Securities and Investment Commission (“ASIC”) and the ASX, the Fund’s Class A units will be tradable on the ASX, similar to listed securities. This only applies to Class A units in the Fund.

The proposed quotation date is 14 April 2025 (“Quotation Date”). This date is subject to change pending the necessary regulatory approvals. Additionally, please be advised that effective on the Quotation Date, the Fund will change its name to the **ClearBridge Global Infrastructure Value Fund (Hedged)** and the Fund’s Class A Units on the ASX will be referred to as the **ClearBridge Global Infrastructure Value Fund (Hedged) Active ETF** in accordance with ASIC’s guidelines.

### **Notice of Exposure Period and Offer Notice Board**

To comply with the regulatory requirements regarding ETPs, the current short-form Product Disclosure Statement for the Fund will be replaced with a long-form version which will be available from [www.ClearBridgeInvestments.com.au](http://www.ClearBridgeInvestments.com.au) on the Quotation Date.

The new PDS is required to undergo an exposure period starting on or around 02 April 2025. This period is set for a minimum of 7 days but may be extended by ASIC for an additional 7 days if necessary.

For personal use only

Throughout the exposure period, the existing PDS dated 22 May 2023 will remain available. Investors may continue to apply for Units under the current PDS until the closure of the exposure period and subsequent ASX approval for the quotation of the Fund's Class A Units.

The new PDS can be reviewed on ASIC's Offer Notice Board during the exposure period.

Following the quotation and in accordance with ASIC's naming guidelines for exchange-traded products, the Fund's Class A Units will be referred to as the **ClearBridge Global Infrastructure Value Fund (Hedged) Active ETF**.

### Investors in other Classes of the Fund

If you are an investor in the Fund's other Classes, these Units are not being quoted. However, Fund's name change will still apply.

### Why are we now offering ETPs?

We believe that the ETPs provide investors with:

- **Choice and flexibility:** the structure we have opted for is what is referred to as a "dual access" model. In this model, investors can choose to invest in the Fund either directly with us through the managed fund channel as they always have and, upon quotation, investors will also be able to invest into the quoted ETP via the ASX.
- **Intraday trading and execution:** ETPs trade on the stock exchange throughout the day. This intraday liquidity provides investors with the ability to enter or exit positions at market prices during trading hours.
- **Standardised settlement:** for quoted securities, the standard settlement cycle is typically two business days after the trade date, commonly referred to as T+2 (Trade Date plus 2 business days) via a process called Delivery versus Payment, or "DvP" and ensures the transfer of securities is accompanied by the corresponding transfer of cash.

### Will the Fund change?

There will be no changes to the Fund's investment strategy, objective, or fees. However, investors should note that some operational arrangements will be made leading up to the Quotation Date.

#### 1. Market Maker

In order to facilitate an orderly and liquid market in the Fund, we have appointed a market maker to maintain continuous liquidity to the market by acting as a buyer and seller on the ASX once the Fund is admitted to quotation.

A market maker will create and redeem units as required to hold an inventory of units enabling it to quote buy and sell prices to investors through the ASX.

More information on the role of the market maker (including the associated risks) will be made available to investors in the Fund's PDS available at [www.ClearBridgeInvestments.com.au](http://www.ClearBridgeInvestments.com.au) from the Quotation Date.

#### 2. Indicative Net Asset Value (iNAV)

An iNAV is calculated by a third-party calculation agent and will be available on the ClearBridge website throughout the trading day. An iNAV is the best estimate of the value of the Fund throughout the trading day. The iNAV will be updated to reflect real time movements in markets and currencies during the trading day. The iNAV is indicative only and might not accurately reflect the underlying value of the Fund.

More information on what an iNAV is (including the associated risks and limitations) will be made available to investors in the Fund's PDS on the Quotation Date.

### 3. Additional Disclosures

In order to comply with regulatory and exchange requirements regarding disclosure on exchange traded products, we have also added information around the following aspects in the PDS and on the ClearBridge website in relation to the Fund:

- **Underlying Assets Disclosure:** information released daily about the Fund's representative basket of the Fund's underlying assets, providing transparency to investors.
- **Portfolio Holdings:** full portfolio holdings disclosure on a quarterly basis, with a two-month lag, to help investors understand the Fund's composition.
- **Liquidity Provision and Market Making:** aspects around our arrangements for liquidity provision and market making.

These disclosure changes have been made to improve transparency and promote investor understanding. There is no change to how your investment is being managed.

#### What do I need to do?

As an existing unitholder of the Fund, you may choose to:

1. Continue to access your investment directly with the Responsible Entity:

This is the default option.

Please read and understand the Fund's updated Product Disclosure Statement which outlines how the Fund will work once it's admitted to quotation. If you have any questions about the Fund and how it operates, please consult your financial advisor or contact ClearBridge on (02) 9397 7351.

2. Transact via the ASX:

Upon the Quotation Date, you will also be able to access the Fund via your stockbroker using ticker code **CIVH**.

Please read and understand the Fund's updated Product Disclosure Statement which outlines how the Fund will work once it's admitted to quotation. If you have any questions about the Fund and how it operates, please consult your financial advisor or contact ClearBridge on (02) 9397 7351.

3. Unit conversion from off-market to quoted (and vice versa):

A conversion is the movement of units, from being held off-market on the issuer-sponsored registry to the on-market Clearing House Electronic Subregister System (“CHESS”) so that you can transact on the ASX.

You may also convert your units from CHESS to be held off-market so that you can transact directly with us.

Please contact ClearBridge on (02) 9397 7351 to find out more about how to effect a conversion.

Some of these options may also be available to you if you invest indirectly such as an investor directed wrap service (IDPS) or master trust. Please contact your IDPS or master trust operator for more information.

**If you are an investor accessing the Fund via the mFund Settlement Service:**

As an existing unitholder of the Fund via the mFund Settlement Service, you may choose to:

1. Do nothing: this is the default option.

To enable the transition of the Fund from mFund to ETP, access to mFund will cease at the end of trading on 04 April 2025. Your holding will be **rounded up** to the nearest whole unit, and a confirmation of your updated holding along with your Holder Identification Number (HIN) will be issued by the Fund’s Unit Registry on and from the proposed Quotation Date.

Once the Fund is quoted as an ETP, you can access your holdings through your broker via mFunds using the new ASX ticker, **CIVH**. Please note that the existing mFund Code, **RAI01**, will be retired.

2. Redeem your mFund Holdings: If you wish to redeem your mFund holdings before the transition to ETP, this should be done before the redemption cut-off time on 04 April 2025 to allow sufficient time for your transaction to be settled prior to the transition.
3. Convert to off-market: If you wish to transact directly with us once mFunds is removed, you may do so by undergoing a conversion process. To do so, please contact ClearBridge on (02) 9397 7351 prior to 04 April 2025.

The table below outlines the important dates in relation to the proposed quotation and removal of the mFund Settlement Service as it relates to the Fund:

| Date           |   |
|----------------|---|
| 04 April 2025  | Final day of transacting for the Fund via mFund. All mFund transactions are suspended from midday on 04 April 2025. |
| 14 April 2025  | Expected Quotation Date of the Fund.  |
| April/May 2025 | Updated Unitholder statements sent via CHESS.   |

On and from the Quotation Date, the Fund will be available by directly transacting with us, or via the ASX as an ETP.

There are important differences between accessing the Fund directly with us or via the ASX. We have set out in Appendix 1 a summary of the key differences between buying and selling units via the ASX or directly with us. You should also read the PDS in full before you make any decision to invest in the Fund.

If you have any questions regarding the content of this notice or require any further information, please contact ClearBridge on (02) 9397 7351 or email [auclientservice@clearbridge.com](mailto:auclientservice@clearbridge.com).
