Group financial performance

	Statutory	Underlying <sup>1</sup>		
NZ\$ million <sup>2</sup>	1H FY25	1H FY25	1H FY24	Var %
Sales	470.9	470.9	468.6	0.5%
Gross Profit	275.5	275.5	275.7	(0.1%)
Gross Margin	58.5%	58.5%	58.8%	
Operating Expenses	(222.8)	(271.6)	(260.6)	4.2%
EBITDA	52.7	3.9	15.1	(74.3%)
EBIT	(12.7)	(13.3)	(1.7)	
NPAT	(20.7)	(16.1)	(6.9)	

The sales result is underpinned by an improved trend in the direct-to-consumer (“DTC”) channel (including online) for all three brands. Group online sales performance has been a highlight, with all three brands achieving double digit sales growth YOY. Online remains a key growth priority for the Group.

Wholesale sales are taking longer to recover, as wholesale accounts remain cautious on pre-season commitments in a challenging market. Forward orders and in-season buying from key accounts support an improving wholesale trend through 2025.

<sup>1</sup> Excluding the impact of IFRS 16, restructuring, software as a service accounting, and the notional amortisation of Rip Curl and Oboz customer relationships.

<sup>2</sup> 1H FY25 NZD/AUD conversion rate 0.909 (1H FY24: 0.926), 1H FY25 NZD/USD conversion rate 0.595 (1H FY24 0.604).

Gross margin decreased -0.3% of sales below last year to 58.5%, remaining resilient despite increased promotional intensity for Kathmandu and clearance of inventory for Oboz.

All brands continue to actively manage operating expenses while facing global cost pressure.

In a challenging trading environment, net working capital efficiency is a key focus for the Group. Net working capital at 31 January 2025 was \$33.6 million lower than 31 January 2024, with reduced inventory balances YOY.

### **Rip Curl: Sales impacted by wholesale customer caution**

<b>Rip Curl</b>	<b>Underlying<sup>1</sup></b>		
<b>NZ\$ million</b>	<b>1H FY25</b>	<b>1H FY24</b>	<b>Var%</b>
Sales	278.5	278.3	0.1%
EBITDA	23.6	27.4	(14.0%)
EBIT	16.1	20.8	(22.9%)

Rip Curl total sales increased +0.1% to \$278.5 million, improving from -6.7% YOY during Q1 to +6.5% YOY during Q2.

DTC sales increased +4.1%, reflecting strong sales growth over the key Australasian summer and Christmas trading period. Also, stronger results were achieved in Europe and South America, supported by store openings. Online sales increased by +13.9% to \$21.1 million, comprising 11.5% of DTC sales.

Wholesale sales decreased by -7.9% in a challenging global market. Forward orders support improving wholesale momentum for Q1 FY26.

Gross margin increased +0.2% of sales with channel and product mix offsetting the impact of increased promotional intensity in a tough trading environment. Operating expenses continue to be tightly managed while facing global cost pressure.

### **Kathmandu: Improving quarterly sales trend**

<b>Kathmandu</b>	<b>Underlying<sup>1</sup></b>		
<b>NZ\$ million</b>	<b>1H FY25</b>	<b>1H FY24</b>	<b>Var %</b>
Sales	156.8	152.3	3.0%
EBITDA	(12.8)	(8.3)	(54.0%)
EBIT	(22.0)	(18.0)	(22.3%)

Kathmandu total sales increased +3.0%, improving from -2.7% YOY during Q1 to +6.9% YOY during Q2.

Australia sales<sup>3</sup> increased +3.8%, supported by enhanced in-store execution and new products. New Zealand sales were -2.0% below last year, with strong sales growth YOY during the Christmas trading period. Excluding the clearance of end-of-line products in

<sup>3</sup> At constant exchange rates.

August last year, New Zealand sales increased +4.8% YOY for the remaining 5 months of 1H FY25.

Online sales increased by +26.6% to \$20.8 million, comprising 13.4% of DTC sales.

Gross margin decreased -0.4% of sales, with increased promotional intensity in a competitive trading environment.

Kathmandu operating expenses include approximately \$3 million incremental YOY to refresh brand advertising (increased first half weighting), increase product newness and innovation, and improve the consumer experience. Brand foundations are now in place, and sales momentum is building.

### **Oboz: Sales impacted by wholesale customer caution**

Oboz	Underlying <sup>1</sup>		
	1H FY25	1H FY24	Var %
NZ\$ million			
Sales	35.6	38.0	(6.3%)
EBITDA	(2.2)	(0.1)	-
EBIT	(2.6)	(0.5)	-

Total sales decreased -6.3% YOY, impacted by wholesale customer caution.

Online sales increased +32.8%, growing strongly over the Black Friday and Christmas promotions, and reinforcing the growth opportunity for the brand.

Wholesale sales decreased -10.6% as wholesale accounts remain cautious on pre-season commitments in a challenging market, partly offset by improved in-season buying from key accounts. Forward orders and in-season buying from key accounts support an improving wholesale trend through 2025.

Gross margin decreased -5.7% of sales as clearance of excess inventory has contributed to lower gross margins YOY. Gross margin on core styles and new launches remains in line with historical margins.

Operating expenses were tightly controlled YOY. Current levels of operating expense investment will be leveraged with future sales growth as the market recovers.

### **Balance sheet**

At 31 January 2025 the Group had a net debt position of \$76.2 million, down \$20.0 million from \$96.2 million one year earlier, and with funding headroom of approximately \$215 million. January inventory investment results in typically higher net debt levels at the January measurement point.

Net working capital was \$33.6 million lower than 31 January 2024, with reduced inventory balances YOY. Inventory positions continue to moderate back towards historical levels.

As previously communicated, the dividend policy remains aligned to earnings, with a target payout ratio of 50% to 70% of underlying NPAT. As a result of the 1H FY25 operating performance, the Directors have not declared an interim dividend.

**Trading update**

DTC sales (including online) for the 7 full weeks to 16 March 2025, a seasonally non-significant trading period for both brands:

- Kathmandu +5.2% YOY<sup>4</sup>. Gross margin is under pressure YOY due to increased promotional intensity in a competitive trading environment.
- Rip Curl global DTC sales for owned stores and websites approximately +0.7% YOY<sup>4</sup>. Gross margin remains resilient YOY.

**Outlook**

**Commenting on the outlook for the Group, outgoing Group CEO Michael Daly said:**

“Direct-to-consumer sales have improved for all three of our brands, while the wholesale market is taking longer to recover. Global monetary policy settings have been easing, but the return of consumer confidence will take time.”

“We are seeing short-term gross margin pressure for all brands in a highly competitive global market. However, our focus remains on growing gross margin in the medium-term as markets improve.”

“We are monitoring the impact of geopolitical uncertainty on consumer confidence and supply chains.”

**Incoming Group CEO and Managing Director Brent Scrimshaw said:**

“I am excited to step into the KMD Brands Group CEO role and look forward to my transition with Michael over the next two weeks. I was pleased to announce earlier this week the appointment of Ashley Reade as the new CEO of Rip Curl and additionally, have also commenced a worldwide search for a Melbourne-based Group Chief Financial Officer. Ben Washington will continue in his current role as Interim Group CFO until a permanent appointment is made.”

“We continue to focus on delivering positive sales growth, improving profitability, maximising cash flows, and reducing inventory.”

“We believe that with our portfolio of iconic global outdoor brands and leadership in sustainability, we remain a unique investment proposition and well-placed for the future.”

<sup>4</sup> Tropical Cyclone Alfred has impacted Queensland and Northern New South Wales stores for both brands, with approximately 100 lost trading days. Rip Curl store locations have been most materially impacted.

## KMD BRANDS LIMITED - INTERIM REPORT 2025

### DIRECTORS' REPORT

The Directors of KMD Brands Limited present the Interim Report for the Company and its controlled entities for the half year ended 31 January 2025.

#### Review of Operations

Group sales for the interim period of \$470.9 million are 0.5% above last year. Direct-to-consumer sales trends continue to improve for all three brands. This was underpinned by improved Black Friday and Christmas trade, and all brands achieving double digit online growth. The wholesale market is taking longer to recover. Wholesale accounts remain cautious on pre-season commitments in a challenging market. Forward orders and in-season buying from key accounts support an improving wholesale trend leading into 2026.

Gross margin decreased -0.3% of sales below last year to 58.5%, remaining resilient despite increased promotional intensity for Kathmandu and clearance of inventory for Oboz.

All brands continue to actively manage operating expenses while facing global cost pressure. Kathmandu has invested an additional \$3 million YTD to refresh brand advertising, increase product newness and innovation, and improve the customer experience.

At 31 January 2025 the Group had a net debt position of \$76.2 million, with funding headroom of approximately \$215 million.

Net working capital was \$33.6 million lower than 31 January 2024, with a significant reduction in inventory. Inventory positions continue to moderate back towards historical levels, with further moderation expected through the second half of FY25 and into FY26.

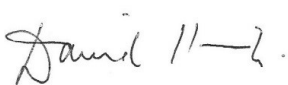

No interim dividend has been declared.

A further review of the operations of the Group is set out in the accompanying media release of 26 March 2025.

#### Seasonality

Due to the seasonal nature of the Group's activities, the activities in the second half of the year historically provide a larger portion of the sales and net profit for the full year.

Signed in accordance with a resolution of the Directors:

David Kirk  
Director

Abigail Foote  
Director

These consolidated interim financial statements do not include all the notes of the type normally included in an annual financial report. Accordingly, this report should be read in conjunction with the audited financial statements of KMD Brands Limited for the year ended 31 July 2024 which have been prepared in accordance with the New Zealand equivalents to International Financial Reporting Standards (NZ IFRS) and International Financial Reporting Standards (IFRS).

The Group is designated as a profit-oriented entity for financial reporting purposes.

The consolidated interim financial statements are presented in New Zealand dollars, which is the Group's presentation currency.

## 3 ACCOUNTING POLICIES

The consolidated interim financial statements have been prepared using the same accounting policies and methods of computation as those used in the audited financial statements of KMD Brands Limited for the year ended 31 July 2024.

### Use of non-GAAP disclosures

At times non-GAAP disclosures have been used in the consolidated financial statements. These disclosures have been included as they are key measurement criteria on which the Group and operating segments are reviewed by the Group Chief Executive Officer, Group Executive Management team and the Board of Directors. The following non-GAAP measures are relevant to the understanding of the Group's financial performance:

- Earnings before interest, tax, depreciation and amortisation (EBITDA) represents earnings before income taxes excluding interest income, interest expense, depreciation, and amortisation, as reported in the financial statements.
- Earnings before interest and tax (EBIT) represents EBITDA less depreciation and amortisation.
- Net debt represents cash and cash equivalents less interest-bearing liabilities. Net debt does not include lease liabilities.

Non-GAAP financial information does not have a standardised meaning prescribed by GAAP and therefore may not be comparable to similar financial information presented by other entities. The non-GAAP information within the consolidated financial statements is subject to review procedures.

### New standards first applied in the period

There are no new standards first applied in the period.

### Standards, interpretations, and amendments to published standards that are not yet effective

*NZ IFRS 18 Presentation and Disclosure in Financial Statements* is applicable to the Group from 1 August 2027. NZ IFRS 18 will supersede NZ IAS 1 *Presentation of Financial Statements* and is intended to improve comparability and transparency in the presentation of financial statements. The Group's assessment of the impact remains ongoing.

There are no other standards or amendments published but not yet effective that are expected to have a significant impact on the Group.

## KMD BRANDS LIMITED - INTERIM REPORT 2025

### 4 CLIMATE CHANGE RISK

The Group's operations may be impacted by future climate change. These impacts may be physical (e.g. severe or unusual weather patterns and events) or transitional (e.g. changes to government regulations or customer and supplier needs and demands).

The Group regularly assesses its operating environment to monitor its exposure to risk, including climate related risk. Specific consideration has been given in these financial statements to the impact of future climate change on the useful lives of the Group's property, plant, and equipment, the inclusion of expected renewals in the lease term for right-of-use assets and sustainability linked loans. The identified climate-related risks and opportunities including both physical and transitional impacts have been considered as part of the above accounting judgements and estimates.

In November 2024 the Group published its first Climate-Related Disclosure (CRD) prepared in accordance with the Aotearoa New Zealand Climate Standards (NZ CS). The CRD covers the 12 month period ended 31 July 2024 and should be read in conjunction with the Group's FY24 Annual Integrated Report.

### 10 INTANGIBLE ASSETS

#### Carrying value of intangible assets

The Group market capitalisation is below the carrying value of net assets and the Group has made a net loss after income tax of \$20,704,000 for the period. Historically the second half of the financial year is more profitable and generates more cash flow and therefore we do not consider the short term results an indicator of impairment. In addition, our internal valuation models continue to provide sufficient headroom at both Group and Brand cash generating unit levels. No impairment exists as at 31 January 2025.

#### Group Facility Agreement

The Group has a multi-option syndicated facility, which consists of an A\$240 million multi-currency revolving facility and a NZ\$54 million multi-currency revolving facility. Both facilities are sustainability linked with targets such as reducing greenhouse gas emissions, continued B Corp certification, and improving transparency within the Group supply chain, including the wellbeing and labour conditions of workers, and environmental metrics. All facilities are repayable in full on 12 November 2026.

Interest is payable based on the BKBM rate (NZD borrowings), the BBSY rate (AUD borrowings), SOFR rate (US borrowings) or the applicable short-term rate for interest periods less than 30 days, plus a margin of between 1.00% - 1.075%. The debt is secured by the assets of the guaranteeing group in accordance with the Security Trust Deed dated 25 October 2019 as amended 12 May 2023. The guaranteeing group comprises entities operating in New Zealand, Australia, North America and the United Kingdom. The carrying value of the assets held by the guaranteeing group are \$1,384,948,000 (2024: \$1,416,837,000).

## KMD BRANDS LIMITED - INTERIM REPORT 2025

The covenants entered into by the Group require specified calculations of Group earnings before interest, tax, depreciation and amortisation (EBITDA) plus lease rental costs to exceed total fixed charges (net interest expense and lease rental costs) at the end of each half during the financial year. Similarly, EBITDA must be no less than a specified proportion of total net debt at the end of each six-month interim period. The calculations of these covenants are specified in the bank facility agreement of 25 October 2019 as amended and restated on 12 May 2023. The Group obtained a reduction of the fixed cover and leverage covenants for the January 2025 measurement point. The Group has complied with its revised banking covenants at all measurement points during the period.

The current interest rate, prior to hedging, on the term loans range between 5.50% - 5.51% (2024: 5.40% - 5.41%).

### 13 FINANCIAL RISK MANAGEMENT AND FINANCIAL INSTRUMENTS

#### (a) Financial risk factors

The Group's activities expose it to a variety of financial risks, market risk (including currency risk and interest rate risk), credit risk and liquidity risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the Group. The Group uses derivative financial instruments such as foreign exchange contracts and interest rate swaps to manage certain risk exposures. Derivatives are exclusively used for economic hedging purposes, i.e. not as trading or other speculative instruments, however not all derivative financial instruments qualify for hedge accounting.

Risk management is carried out based on policies approved by the Board of Directors. The Group treasury policy provides written principles for overall risk management, as well as policies covering specific areas, such as foreign exchange risk.

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group manages this risk by actively managing working capital and ensuring flexibility in funding arrangements. Refer to note 12 for details of the funding arrangements in place as at 31 January 2025.

The consolidated interim financial statements do not include all financial risk management information and disclosures required in the annual financial statements; they should be read in conjunction with the Group's annual financial statements as at 31 July 2024. There have been no changes in the risk management department or in any risk.

#### (b) Fair value estimation

The only financial instruments held by the Group that are measured at fair value are over-the-counter derivatives. These derivatives have all been determined to be within level 2 (for the purposes of NZ IFRS 13) of the fair value hierarchy as all significant inputs required to ascertain the fair value of these derivatives are observable.

There were no changes in valuation techniques during the period.

The following methods and assumptions were used to estimate the fair values for each class of financial instrument.

##### Trade debtors, trade creditors and bank balances

The carrying value of these items is equivalent to their fair value.

##### Term liabilities

The fair value of the Group's term liabilities is approximately carrying value.

##### Foreign exchange contracts and interest rate swaps

The forward foreign exchange contracts have been fair valued using forward exchange rates that are quoted in an active market. Interest rate swaps are fair valued using forward interest rates extracted from observable yield curves. The effects of discounting are insignificant for these derivatives.

##### Guarantees and overdraft facilities

The fair value of these instruments is estimated on the basis that management do not expect settlement at face value to arise. The carrying value and fair value of these instruments is approximately nil. All guarantees are repayable on demand.

- present fairly, in all material respects, the Group's financial position as at 31 January 2025 and its financial performance and cash flows for the 6 month period then ended and comply with New Zealand Equivalent to International Accounting Standard 34 Interim Financial Reporting (NZ IAS 34) issued by the New Zealand Accounting Standards Board.

We have completed a review of the accompanying interim consolidated financial statements which comprise:

- the interim consolidated balance sheet as at 31 January 2025;
- the interim consolidated statements of comprehensive income, changes in equity and cash flows for the 6 month period then ended; and
- notes, including material accounting policy information.

## Basis for conclusion

We conducted our review of the financial statements in accordance with NZ SRE 2410 (Revised) Review of Financial Statements Performed by the Independent Auditor of the Entity (NZ SRE 2410 (Revised)). We are independent of KMD Brands Limited in accordance with the relevant ethical requirements in New Zealand relating to the audit of the annual financial statements and we have fulfilled our other ethical responsibilities in accordance with these ethical requirements.

Our firm has provided other services to the Group in relation to tax compliance services. Subject to certain restrictions, partners and employees of our firm may also deal with the Group on normal terms within the ordinary course of trading activities of the business of the Group. ## Auditor's responsibilities for the review of the interim consolidated financial statements

Our responsibility is to express a conclusion on the interim consolidated financial statements based on our review.

NZ SRE 2410 (Revised) requires us to conclude whether anything has come to our attention that causes us to believe that the interim consolidated financial statements, taken as a whole, are not prepared, in all material respects, in accordance with NZ IAS 34.

A review of the interim consolidated financial statements prepared in accordance with NZ SRE 2410 (Revised) is a limited assurance engagement. The auditor performs procedures, consisting of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures.

The procedures performed in a review are substantially less than those performed in an audit conducted in accordance with International Standards on Auditing (New Zealand) and consequently does not enable us to obtain assurance that we might identify in an audit. Accordingly, we do not express an audit opinion on the financial statements.

The engagement partner on the audit resulting in this independent auditor's review report is Peter Taylor.
