

ASX RELEASE

30 April 2025

## MARCH 2025 QUARTERLY ACTIVITY REPORT AND APPENDIX 4C

4DS Memory Limited (ASX:4DS) (**4DS**) (the **Company**), is pleased to provide its Quarterly Activity Report and Appendix 4C for the Quarter ended 31 March 2025.

### Technical Update for the March Quarter

Further to the announcement on 17 December 2024, 4DS Memory Limited announced on 15 January 2025 it had successfully completed characterization and testing of the Fifth Platform Lot.

The purpose of the Fifth Platform Lot was to optimize the construction process of memory cell arrays to de-risk the manufacturing of the first 4DS 20nm memory cell array incorporated in the Sixth Platform Lot.

Using the proven cell size of 60nm array (demonstrated in the Fourth Platform Lot), the Fifth Platform Lot had sought to uncover any processing issues that could arise when adjusting the memory cell stack necessary for successful construction of the 20nm memory cell array in the Sixth Platform Lot.

After extensive electrical testing including chemical and physical cross-sectional analysis, key areas of optimisation were identified and shared with the imec engineering team working on the Sixth Platform Lot.

These new learnings and optimizations from the Fifth Platform Lot were critically important for the successful processing of 4DS's first 20nm memory cell array in the Sixth Platform Lot, which as announced on 28 April 2025 has now been successfully manufactured and is in transit to the Company's facilities with preliminary analysis to be undertaken during Q2 2025.

If the Company is successful in scaling from a 60nm memory cell array to a 20nm memory cell array, then the Sixth Platform Lot will position 4DS' area-based Interface Switching ReRAM technology as a potential generational memory.

### Placement and Share Purchase Plan

On 17 January 2025, 4DS advised that it had received binding commitments totalling \$6 million from a number of institutional and high net worth investors. The Placement comprised the issue of approximately 166.7 million ordinary shares in 4DS (New Shares), at an issue price of \$0.036 per New Share. Each issued share under the Placement had a 1:1 attaching unlisted option with an exercise price of \$0.036 and an expiry of 28 February 2028. Bell Potter acted as sole lead manager for the Placement. A \$2 million Share Purchase Plan was also announced on the same day.

On 20 February 2025, 4DS advised it had received valid applications for approximately \$4.76 million under the Share Purchase Plan and undertook a scale back to achieve the new Share Purchase Plan target of \$2.6 million, allowing for \$600,000 in oversubscriptions. Each issued share under the Share Purchase Plan had a 1:1 attaching unlisted option with an exercise price of \$0.036 and an expiry of 28 February 2028.

### Infineon Technologies Inc

On the 17 December 2024, Infineon Technologies LLC (a USA based subsidiary of Infineon Technologies AG) and 4DS entered into a Design Agreement ("the Agreement") whereby Infineon Technologies LLC will assign resources to design a custom ReRAM memory test chip for 4DS, based on 4DS requirements.

Under terms of the Agreement, Infineon Technologies LLC will provide technical expertise and resources to design a custom ReRAM memory test chip.

This is a vital and necessary phase in memory technology development for the Company and Infineon is the ideal party for the implementation of a memory test chip.

Both Infineon Technologies LLC and 4DS regularly met during the quarter and progress continues to be on track. The Company will provide shareholder updates as progress is made during the course of 2025.

### **Business Development**

Executive Chairman Mr David McAuliffe plans to travel to the Company facilities in early June 2025 whilst the Sixth Platform Lot is being analysed and liaise with both Infineon Technologies LLC personnel present in USA and with European imec senior representatives. Both partners could play a significant role in any commercialisation strategies based on the success the Company might potentially have into 2026.

### **Pitt Street Research Semiconductor Conference 2025**

4DS memory will be attending and presenting at the Pitt Street Research Semiconductor Conference 2025 on 7 May 2025. Attendees will be Mr David McAuliffe, Mr Ting Yeng and Mr Peter Himes (the latter two via video link).

### **Financial Review**

As of 31 March 2025, the Company held cash of \$9.081 million, compared to \$4.625 million at 31 December 2024. Net cash of \$3.511 million was used in operating activities during the March quarter, which included contractual payments to Infineon and to imec, compared to \$1.647 million used in the December quarter. It is expected that cash used in operating activities will be potentially lower in the June quarter.

### **Listing Rule 4.7.C**

In item 6 of the Appendix 4C cash flow report for the quarter, payments to related parties of approximately \$148k represent salary and superannuation paid to the Executive Chairman and Director fees paid to the Non-Executive Directors, including advisory fees paid to the US based Non-Executive Director and payment to a related party, Ignite Communications.

### **About 4DS**

**4DS Memory Limited (ASX: 4DS)**, with facilities located in Silicon Valley, is a semiconductor technology company bringing high bandwidth, high endurance, persistent non-volatile memory to advanced CMOS process nodes. Its technology, known as Interface Switching ReRAM, features tuneable persistence and low energy per bit for today's most challenging compute intensive and AI processor applications. Established in 2007, 4DS owns a patented IP portfolio, comprising 34 USA patents, and is the first company to develop PCMO ReRAM, on an advanced CMOS

processing node. 4DS has three important industry relationships: a development agreement with Belgium based imec, a world leading research and innovation hub in nano electronics and digital technologies; a design agreement with Infineon Technologies AG, Germany's largest semiconductor manufacturer and one of the ten largest semiconductor manufacturers worldwide; and a joint development agreement with Western Digital subsidiary HGST, a global leader in storage solutions.

## Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standard applies to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
