

Catalyst completes A\$150m placement to institutional investors

Funding underwrites Catalyst's organic growth strategy and strengthens balance sheet

- Catalyst has successfully raised \$150m via a placement to leading domestic and offshore institutional investors
- The proceeds, together with existing cash reserves allow Catalyst to execute its growth plans, and pursue growth initiatives without placing pressure on its balance sheet

Catalyst Metals Limited (**Catalyst** or the **Company**) (**ASX:CYL**) is pleased to announce it has received firm commitments for an institutional placement (**Placement**) to raise A\$150 million at an issue price of \$6.00 per share. The Placement was strongly supported by existing institutional shareholders and new high quality Australian and international institutional investors.

Catalyst's Managing Director & CEO, James Champion de Crespigny, commented:

"Over the past two years, Catalyst has steadily worked toward de-risking and simplifying its business. We felt the timing was right to bring further institutional support to our register."

"With almost \$250m in cash, Catalyst is well funded to grow production at Plutonic, continue to explore the belt and pursue other growth initiatives."

Placement Details

The Company has received firm commitments from sophisticated and professional investors under the Placement to raise \$150.0 million (before costs) through the issue of 25.0 million shares at an issue price of \$6.00 per new share. The issue price of \$6.00 per new share represents a 9.6% discount to Catalyst's last traded price of \$6.64 on 20 May 2025, and a 7.2% discount to Catalyst's 10-day VWAP of \$6.46.

Catalyst shares are expected to resume trading on the ASX from market open today, Friday, 23 May 2025. Settlement of the new shares is expected to occur on Wednesday, 28 May 2025, with allotment on Thursday, 29 May 2025. Upon completion of the Placement the 25.0m new shares will represent approximately 9.9% of the expanded share capital of the Company. New shares will be issued utilising the Company's existing placement capacity under ASX Listing Rule 7.1.

Please refer to the Company's Appendix 3B lodged with ASX today for further details in regard to the Placement shares being issued.

Catalyst Metals' flagship asset is the 40km long Plutonic Gold Belt in Central Western Australia. This belt hosts the Plutonic Gold Mine which currently produces ~85koz pa at an AISC of ~A\$2,400/oz.

Over the next 12 to 18 months, Catalyst plans to develop three new projects on the belt.

These projects have a low capital intensity – A\$31m in total. Each will be processed through the existing, currently underutilised and centrally located, processing plant.

With Resource infill drilling, Catalyst is targeting a greater than five year mine plan across four mines, feeding a central processing plant.

Catalyst also controls ~15km of strike length immediately north of the historic +22Moz Bendigo goldfield. Here, Catalyst has delineated a high-grade, greenfield resource at 26 g/t Au with further discoveries along strike expected.

Capital Structure

Shares o/s: 252m
Options: 3.0m
Rights: 12.3m
Cash & Bullion: A\$248m
Debt: nil

Reserve and Resource¹

MRE: 3.2Moz at 2.9g/t Au
ORE: 0.9Moz at 2.9g/t Au

Corporate Details

ASX: CYL
E:investors@catalystmetals.com.au
W:catalystmetals.com.au

The Placement proceeds, together with current cash reserves will be applied as follows:

- Underwriting the development of the Plutonic Gold Belt;
- Ensure the drill out of multiple deposits along the belt in an attempt to increase mine life;
- Regional exploration; and
- Capital flexibility.

Advisers

Canaccord Genuity (Australia) Limited and Argonaut Securities Pty Limited acted as Joint Lead Managers and Joint Bookrunners to the Placement. Taylor Collison Limited acted as co-manager to the Placement.

Lavan acted at legal counsel to the Placement.
