All Shareholders are invited to attend the Meeting or, if they are unable to attend, sign and return the Proxy Form to the Company in accordance with the instructions thereon. Please note that:

- (a) a member of the Company entitled to attend and vote at the Meeting is entitled to appoint a proxy;

- (c) a member of the Company entitled to cast two or more votes may appoint two proxies and may specify the proportion or number of votes each proxy is appointed to exercise, but where the proportion or number is not specified, each proxy may exercise half of the votes.

In order for your proxy to be valid, your Proxy Form (and any power of attorney under which it is signed) must be received prior to 11.00am (AWST) on 18 June 2025. **Proxies received after this time will be invalid.**

A Proxy Form is located at the end of the Explanatory Memorandum.

Section 250BB(1) of the Corporations Act provides that an appointment of a proxy may specify the way the proxy is to vote on a particular resolution and, if it does:

- (a) the proxy need not vote on a show of hands, but if the proxy does so, the proxy must vote that way (i.e. as directed);
- (b) if the proxy has 2 or more appointments that specify different ways to vote on the resolution – the proxy must not vote on a show of hands;

The Chair will attempt to respond to the questions during the Meeting. The Chair will request prior to a Shareholder asking a question that they identify themselves (including the entity name of their shareholding and the number of Shares they hold).

3. Competent Person Statement

The Mineral Resources referred to in this Notice were first reported in accordance with ASX Listing Rules and the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves (**JORC Code**) in the Company's announcement dated 17 September 2024. The Company confirms that it is not aware of any new information or data that materially affects the information included in the original announcement, and all material assumptions and technical parameters underpinning the mineral resource estimates continue to apply and have not materially changed.

As provided in the Company's announcement dated 17 September 2024, the Exploration Targets are based on, and fairly represent, information compiled by Mr David Larsen who is a Member of The Australian Institute of Geoscientists (MAIG) and who has sufficient experience relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Mr Larsen is an Independent Consultant and is not an employee or related

party of the Company and he consents to the inclusion of the Exploration Targets in the form and context in which they appear.

Investors are cautioned that the potential quantity and grade of Exploration Targets are conceptual in nature, there has been insufficient exploration to estimate a Mineral Resource and it is uncertain if further exploration will result in the estimation of a Mineral Resource.

4. Conditional Transaction Resolutions

Each of Resolution 1, Resolution 4 to Resolution 12 (inclusive), Resolution 15 and Resolution 16 (together, the **Transaction Resolutions**) are inter-conditional, meaning that each of them will only take effect if all of them are approved by the requisite majority of Shareholders' votes at the Meeting. If any of the Transaction Resolutions are not approved at the Meeting, none of the Transaction Resolutions will take effect and the Transaction and other matters contemplated by the Transaction Resolutions will not be completed.

5. Background to the Transaction

5.1 Existing activities of the Company

The Company was incorporated on 28 July 2021 and admitted to the Official List of ASX on 28 July 2022. The Company's securities were placed in a trading halt on 12 August 2024 and suspended from official quotation on 14 August 2024 at the request of the Company and have remained suspended since that date.

On 17 September 2024, the Company announced the proposed acquisition of 100% of the issued capital in Broken Hill Mines Pty Ltd (**BHM**) (**Acquisition**) under a share purchase agreement with the existing shareholders of BHM, the key terms of which are summarised below in section 5.2.

BHM:

- (a) recently became the owner of the operating Rasp Mine (and associated assets) in Broken Hill, NSW, following completion of the acquisition of 100% of the issued share capital in Broken Hill Operations Pty Ltd (**BHOPL**) (announced by the Company on 31 October 2024); and
- (b) is party to a binding heads of agreement for a 70% Net Smelter Return (**NSR**) based on a profit sharing operating arrangement to develop the Pinnacles Mine.

Subject to Shareholders approving the Transaction Resolutions and completion of the Acquisition (**Completion**), the Company will consolidate its issued capital on a 4 to 3 basis (**Consolidation**) (refer to section 8.6 for a summary of the effect of the Consolidation), and lodge a prospectus under Chapter 6D of the Corporations Act (**Prospectus**) for the purpose of undertaking a public offer of 42,857,143 Shares at an issue price of \$0.35 per Share (**Offer Price**) (on a post-Consolidation basis) to raise \$15,000,000 (before costs) (**Minimum Subscription**) (the **Public Offer**). The Board has reserved the right to accept up to \$5,000,000 in oversubscriptions by the issue of an additional 14,285,714 Shares (**Maximum Subscription**). The Acquisition and the Public Offer are, together, the **Transaction**.

As part of the Acquisition, the Company will issue the respective BHM securityholders the consideration securities outlined below in section 5.2(a).

BHM has 200 existing convertible notes on issue with a face value of \$5,000,000 (before costs) (**Convertible Notes**). The Convertible Notes are held by various unrelated parties to

BHM and the Company, other than \$25,000 Convertible Notes subscribed for by the CDPVL Group Pty Ltd as trustee for the Provost Family Account (**CDPVL**), an entity controlled by Mr Cameron Provost, a Director and \$50,000 subscribed for by Tadj Superannuation Pty Ltd as trustee for B&M Walsh Super Fund (**Tadj**), an entity controlled by Mr Brent Walsh, a proposed Director (**BHM Noteholders**). On Completion, the Convertible Notes will convert into Shares in the Company at a conversion price of \$0.20 per Share (**Conversion Price**), resulting in the issue of an aggregate 25,000,000 Shares (**Convertible Note Conversion Shares**) and 2,500,000 Options (**Convertible Note Conversion Options**). The key terms of the Convertible Notes are summarised below in section 5.2(d).

Listing Rule 10.12 Exception 12 sets out an exception to Listing Rule 10.11 for an issue of Equity Securities under an agreement or transaction between an entity and a person who would not otherwise be a related party but for the fact that they believe, or have reasonable grounds to believe, that they are likely to become a related party in the future because of the agreement or transaction. As a result, the Company does not consider that Listing Rule 10.11 applies to the issue of 250,000 Convertible Note Conversion Shares, 25,000 Convertible Note Conversion Options nor the issue of up to 33,400 Cash Conversion Consideration Shares on the conversion of Convertible Notes with a value of \$50,000 subscribed for by Tadj Superannuation Pty Ltd as trustee for B&M Walsh Super Fund, an entity controlled by Mr Brent Walsh who is a proposed Director, on the basis that Mr Walsh will only become a related party as a result of the Transaction.

5.2 BHM SPA

The Company entered into a binding share purchase agreement dated 10 August 2024 (as amended and restated) for the acquisition of 100% of the issued capital in BHM (**BHM SPA**), the key terms of which are summarised below:

(a) Consideration

The consideration to be provided by the Company under the terms of the BHM SPA comprises the issue of the following securities (on a post-Consolidation basis):

- (i) 125,000,000 Shares in the Company (**Consideration Shares**);
- (ii) 65,000,000 unquoted options in the capital of the Company with an expiry date of 5 years from the date of issue (**Consideration Options**), comprising:
 - (A) 25,000,000 Consideration Options with an exercise price of \$0.36 each (**Class A Consideration Options**); and
 - (B) 40,000,000 Consideration Options with an exercise price of \$0.50 each (**Class B Consideration Options**),

(together, the **Consideration Securities**).

In addition to the Consideration Securities, the Company has agreed to issue a further 20,000,000 Shares (**Cash Conversion Consideration Shares**). The number of Cash Conversion Consideration Shares was calculated based on an agreed value of cash or cash equivalents of \$8,000,000⁽¹⁾ held in BHOPL as at 31 December 2024, and a deemed issue price of \$0.40 per Share (representing a premium to the \$0.35 price under the Public Offer).

¹ BHM acquired an economic interest in BHOPL, and therefore cash generated at the Rasp Mine, from 1 July 2024.

(b) **Royalty**

A 2% NSR royalty has been granted by the Company, BHM and BHOPL to BHM RoyaltyCo Pty Ltd (**BHM RoyaltyCo**) in respect of BHM's interests in the Rasp and Pinnacles Mines (**BHM Royalty**), effective 1 January 2025. The BHM Royalty will not be payable unless and until the Transaction completes.

BHM and BHM RoyaltyCo have the same shareholders, being the BHM Vendors. Other than Proposed Director Patrick Walta who holds a 28.33% interest in BHM RoyaltyCo, the balance of the shareholders are not related parties of Coolabah. John Carr, Brent Slattery and David Neesham (or their respective associates) are shareholders in BHM RoyaltyCo and will each become substantial shareholders of Coolabah on Completion.

(c) **Conditions Precedent**

The BHM SPA is subject to certain conditions precedent, including:

- (i) Company shareholders approving:
 - (A) the issue of the Consideration Securities and Cash Conversion Consideration Shares under Listing Rule 7.1;
 - (B) the issue of Shares for the Public Offer under Listing Rule 7.1;
 - (C) the issue of the Convertible Note Conversion Shares under Listing Rule 7.1;
 - (D) the change in nature and scale for the purpose of Listing Rule 11.1.2; and
 - (E) the Consolidation of Coolabah's issued capital on a 4 to 3 basis;
- (ii) the Company raising not less than \$15,000,000 (before costs) under the Public Offer;
- (iii) the Pinnacles HOA remaining in full force and effect; and
- (iv) receipt of a letter from the ASX confirming that the Company's securities will be reinstated to quotation following completion of the Transaction, subject to satisfying certain conditions precedent, with such terms being acceptable to the Company and BHM, acting reasonably (**ASX Conditional Reinstatement Letter**),

(together, the **BHM Conditions Precedent**).

In the event that the BHM Conditions Precedent are not satisfied by 31 July 2025 (unless extended by written agreement between the parties), any party may terminate the BHM SPA by giving two business days' written notice.

(d) **Convertible Notes**

The key terms of the Convertible Notes are summarised below:

- (i) (**Conversion**): upon Coolabah receiving the ASX Conditional Reinstatement Letter, the Convertible Notes automatically convert into:
 - (A) Shares at a conversion price of \$0.20 per Share (**Conversion**), resulting in the issue of an aggregate total of 25,000,000 Convertible Note Conversion Shares; and

- (B) one free attaching unquoted option in the capital of Coolabah for every 10 Convertible Note Conversion Shares received, with an exercise price of \$0.36 and an expiry date of 5 years after the date of issue, resulting in the total issue of 2,500,000 Convertible Note Conversion Options;
 - (ii) **(Interest)**: the Convertible Notes accrue interest at a rate of 10% per annum, payable to the BHM Noteholders in cash on Conversion;
 - (iii) **(Cash Conversion Consideration Shares)**: the BHM Noteholders will be entitled to a pro-rata allocation of the Cash Conversion Consideration Shares. Each individual Convertible Note will receive approximately 0.0835% of the total number of Cash Conversion Consideration Shares. Refer to section 5.2(a) above for further details of the Cash Conversion Consideration Shares; and
 - (iv) **(Unsecured)**: the Convertible Notes are unsecured.
- (e) **Board nominees**

The BHM Vendors have the right to nominate up to four Directors to the Board of Coolabah, with one Director to remain from the existing Board.

Four Directors have been nominated by the BHM Vendors, being Patrick Walta, Brent Walsh, Mark Hine and Ian Plimer (the election of these Directors is the subject of Resolution 5, Resolution 6, Resolution 7 and Resolution 8 respectively). Existing Director Stephen Woodham will remain on the Board.

5.3 Pinnacles Heads of Agreement

BHM entered a binding Heads of Agreement (**Pinnacles HOA**) with Pinnacles Mines Pty Ltd and Broken Hill Pinnacles Pty Ltd (together, **Pinnacles**) for the exclusive right to the development and implementation of mining operations at the Pinnacles Mine and an option to undertake operations under a formal Standard Operating Agreement (**SOA**) (the **Pinnacles Option**).

The key terms of the Pinnacles HOA are summarised below:

- (a) **Option Fees**
 - (i) BHM exercised the Pinnacles Option, following completion of satisfactory due diligence on Pinnacles and the Pinnacles Mine, by making payment of a \$600,000 upfront cash fee and a further \$600,000 cash fee in March 2025 (**Pinnacles Option Fees**).
 - (ii) Subject to the Listing Rules and the signing of the SOA, the Company will issue 2,000,000 Shares to Pinnacles (or its nominee) upon the parties entering the SOA at a deemed issue price of \$0.20 per Share (**Pinnacles Shares**). Shareholder approval to issue the Pinnacles Shares is sought under Resolution 13.
- (b) **Standard Operating Agreement**
 - (i) The parties will fully document the future operational plans for the Pinnacles Mine under a SOA, which the parties intend to finalise shortly. The Pinnacles HOA will continue to bind the parties until such time that the SOA is agreed and the parties must take all actions necessary to enter into the operations contemplated in the Pinnacles HOA without delay.

- (ii) The SOA will provide Pinnacles with a right to appoint a member to the Board of BHM.
 - (iii) BHM will be the operator of the Pinnacles Mine pursuant to the terms of the SOA.
 - (iv) The SOA will initially cover mining licences ML4436, ML5627 and ML870, with the option for BHM to incorporate ML5835, ML5836 and ML5849 by paying a \$1 option fee.
- (c) **Net Smelter Returns**
- BHM and Pinnacles will receive approximately 70% and 30% of NSR, respectively. The profit-sharing interests will be calculated via a variable NSR royalty structure based on the average grade of mined ore from the Pinnacles Mine each month.
- (d) **Infrastructure**
- BHM is permitted to use Pinnacles' plant and equipment, including without limitation, all yellow goods, mobile plant, fixtures to the mine, crushing plant and floatation plant, but excluding drilling rigs. Maintenance is to be carried out by BHM at its expense. In return, BHM is required to pay Pinnacles an annual rental fee of \$600,000 commencing from the date of the Pinnacles HOA.
- (e) **Termination**
- The SOA will contain a termination provision which provides Pinnacles with the right to terminate the SOA in the event that, after underground mining has commenced, BHM ceases mining activities at the Pinnacles Mine for a continuous period of 12 consecutive months.

5.4 Hartree Offtake Financing Facility

As announced by the Company on 10 March 2025, BHM has entered a binding conditional term sheet with Hartree Metals LLC (**Hartree**) for a US\$25m financing facility and 200,000t of lead concentrate offtake (**Hartree Offtake Financing Facility**) to fund growth activities at the Rasp and Pinnacles Mines. The Hartree Offtake Financing Facility provides for a 4 year, US\$25 million financing package at an interest rate equal to the term Secured Overnight Financing Rate (SOFR) + 3.5%. A grace period of 12 months applies to principal repayments prior to straight line repayments until the end of the term. The Hartree Offtake Financing Facility is to be senior secured by BHM, BHOPL and Coolabah.

In addition, Hartree will purchase 200,000t of lead concentrates from the Rasp operations on competitive market terms and industry standard payability for lead and byproduct metals, including silver.

The Hartree Offtake Financing Facility remains subject to certain conditions precedent being met by 30 June 2025 (unless extended by mutual agreement, not to be unreasonably withheld), including completion of the Acquisition and Hartree completing due diligence.

Subject to the satisfaction of the conditions precedent, the facility will be available to BHM in the following three tranches:

- (a) US\$10 million on 1 July 2025 (**First Drawdown**);
- (b) on the date that is 6 months after the first drawdown, up to a further US\$10 million at BHM's discretion (**Second Drawdown**); and
- (c) on the date that is 12 months after the first drawdown, up to any remainder of the facility not yet drawn (**Third Drawdown**).

Shareholders should note that the Hartree Offtake Financing Facility remains subject to conditions precedent and there is no guarantee that the conditions will be satisfied. Accordingly, the Company's proposed activities and use of funds outlined in this Notice do not include funds that may be drawn under the Hartree Offtake Financing Facility.

The Company does not have a fixed drawdown schedule, it intends to utilise the facility based on its operational expenditure and working capital needs which will be assessed on a continual basis. There is no time restriction on drawdowns other than that they must occur within the 4 year term of the facility, and the Second Drawdown and Third Drawdown must occur in line with the timeframes specified above, being 6 and 12 months after the First Drawdown, respectively.

5.5 Hartree Spot Contract

As announced by the Company on 10 March 2025, BHM entered a spot lead concentrate offtake agreement with Hartree for lead production from Rasp operations up to 30 June 2025 on competitive market terms.

5.6 Ausinmet Offtake Facility

BHOPL and Ausinmet Pte Ltd (**Ausinmet**) have entered into a zinc concentrate offtake agreement for the sale and purchase of 30,000dmt of zinc concentrate produced from the Rasp Mine (or zinc concentrate of a comparable quality), delivered in six separate parcels of 5,000 dmt each, between 1 January 2025 and 31 December 2025 (**Ausinmet Offtake Facility**).

The purchase price of zinc offtake will be based on zinc content of the offtake and the official London Metal Exchange cash settlement quotation for Special High-Grade Zinc, as published in the Fast Market \$US, subject to certain deductions.

The purchase price of silver offtake will be based on silver content of the concentrate and the official LBMA Silver Price averaged over the quotational period, subject to certain deductions.

An event of default occurs upon:

- (a) BHOPL failing to deliver concentrate as required under the Ausinmet Offtake Facility;
- (b) Ausinmet:
 - (i) failing to provide a letter of credit or make payments as required by the agreement; or
 - (ii) failing to take delivery of concentrate as required under the agreement; or

- (c) either party:
- (i) failing to make a payment due under the agreement (not otherwise in bona fide dispute), and not rectifying such failure within 10 business days following written notice; or
 - (ii) committing a material breach of any other material obligation under the agreement and not rectifying it within 20 business days following written notice.

Upon an event of default, the non-defaulting party may suspend its obligations under the agreement until the default is rectified. If the default is a material breach of a material term or if the non-defaulting party has suspended its obligations and the default is not rectified within 90 days (or is not capable of being rectified), the non-defaulting party may terminate the Ausinmet Offtake Facility with at least 20 business days' written notice.

5.7 Vendors

(a) **BHM**

BHM was incorporated in Victoria as a special purpose vehicle on 6 May 2024 for the purpose of acquiring BHOPL and the Pinnacles Option.

The Consideration Securities will be issued to the securityholders of BHM, consisting of Patrick Walta (28.33%) and various unrelated parties to the Company (71.67%) (together, the **BHM Vendors**), in proportion to their respective interests in BHM on Completion.

Proposed Executive Chair Patrick Walta will become a related party of the Company as a result of his appointment as a Director on Completion. The BHM SPA and BHM Royalty were negotiated on an arm's length basis prior to Mr Walta's proposed appointment. Listing Rule 10.3(g) provides that Listing Rule 10.1 does not apply to an agreement or transaction with a person who would not otherwise be a related party but for the fact that they believe that they are likely to become a related party in the future because of the agreement or transaction. Similarly, Listing Rule 10.12 Exception 12 sets out an exception to Listing Rule 10.11 for an issue of Equity Securities under an agreement or transaction between an entity and a person who would not otherwise be a related party but for the fact that they believe, or have reasonable grounds to believe, that they are likely to become a related party in the future because of the agreement or transaction. As a result, the Company does not consider Patrick Walta to be a party to which Listing Rules 10.1 or 10.11 applies for the purposes of the relevant Transaction Resolutions.

Other than Patrick Walta, none of the BHM Vendors, BHM Noteholders, or their associates are or will be a related party of Coolabah, other than as disclosed in this Notice.

In addition to the Consideration Securities and Cash Conversion Consideration Shares, Coolabah will issue 25,000,000 Shares to the BHM Noteholders on conversion of the Convertible Notes (see section 5.2(d) for further details of the Convertible Notes). The BHM Vendors and BHM Noteholders will collectively hold up to 66.82% of the Company's Shares on issue on completion of the Transaction (on an undiluted basis and assuming the Minimum Subscription is raised), as set out in the table below.

	Shares	% of Shares	
		Minimum Subscription	Maximum Subscription
BHM Vendors ¹	141,660,000	55.68	52.72
BHM Noteholders ²	28,340,000	11.14	10.55
Total	170,000,000	66.82	63.27

Notes:

1. Inclusive of 16,660,000 Cash Conversion Consideration Shares to be issued to the BHM Vendors.
2. Inclusive of 3,340,000 Cash Conversion Consideration Shares to be issued to the BHM Noteholders.

The issue of Consideration Securities and the Cash Conversion Consideration Shares will result in Patrick Walta having a voting power of 15.78% in Coolabah (on an undiluted basis and assuming the Minimum Subscription is raised) on Completion.

BHM holds a 100% interest in BHOPL.

(b) Pinnacles

Craig Williams is the sole director and shareholder of both Pinnacles entities, being Pinnacles Mines Pty Ltd and Broken Hill Pinnacles Pty Ltd. Mr Williams is not a related party or existing shareholder of Coolabah or BHM.

Notes:

1. The terms and conditions of the Performance Securities are in Schedule 10. The Performance Rights convert to Shares on a 1 to 1 basis.

The Performance Rights are being issued as a performance-based component of the recipients' remuneration packages. The issue of the Performance Rights represents the Company's ongoing commitment to reward, retain and attract personnel whose skills and qualifications are necessary and appropriate for the Company's future operations and development. The Company considers it necessary to further remunerate and incentivise the recipients to achieve the relevant performance milestones for the following reasons:

- (a) the recipients are (or will be) integral to the Company's operations and, more specifically, the achievement of the Company's long term strategic and corporate objectives following Reinstatement;
- (b) to attract high calibre management and employees with the required skills and industry experience to execute the Company's objectives;
- (c) link the remuneration of the recipients to the performance of the Company and the creation of Shareholder value, aligning the interests of the recipients more closely with the interests of Shareholders; and
- (d) preserve available cash reserves by providing a cost-effective remuneration structure and enabling the Company to spend a greater proportion of its cash reserves on its

operations than it would if alternative cash forms of remuneration were paid to the recipients.

The Company determined the number of Performance Rights based upon consideration of:

- (a) current market standards and/or practices of other ASX listed companies of a similar size and stage of development to the Company;
- (b) the total remuneration package of each recipient; and
- (c) the strategic objectives that will be achieved upon satisfaction of the performance milestones and the value to the Company and its Shareholders that will result from the achievement of the performance milestones.

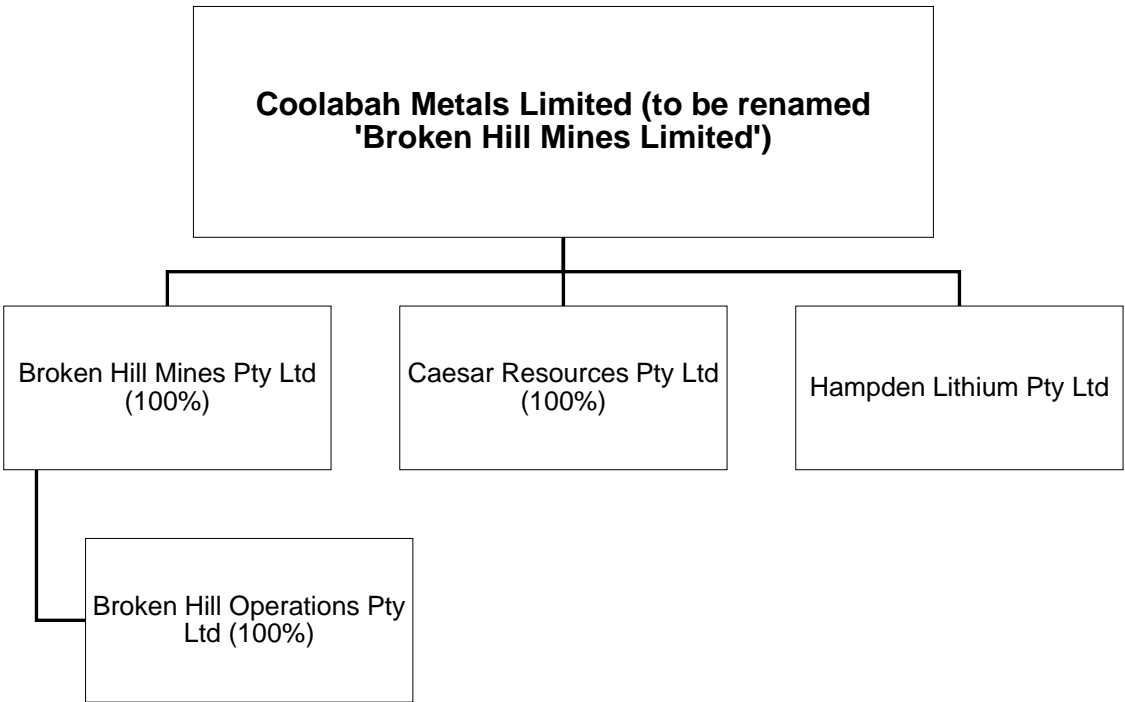

The Performance Rights will convert into a maximum of 5,000,000 Shares which, if the Minimum Subscription is raised, will represent approximately 1.97% of the Company's issued share capital at Reinstatement on an undiluted basis.

The Company determined the number of Performance Rights based on:

- (a) current market standards and/or practices of other ASX listed companies of a similar size and stage of development to the Company;
- (b) the total remuneration packages of the Directors, Proposed Directors and key management personnel; and
- (c) the strategic objectives for the Company that will be achieved upon satisfaction of the milestones attaching to the Performance Rights, and the fact that value of the Performance Rights will only be realised upon satisfaction of substantial performance milestones.

5.9 Corporate Structure

The diagram below summarises the corporate structure of the Company following Completion:

6. Overview of the Projects, business strategy and objectives

6.1 Business strategy and objectives

Following Completion, the Company will be a minerals producer with a focus on the operation and development of the Rasp and Pinnacles Mines, as well as exploration at its Existing Projects.

At the Rasp Mine, the Company plans to continue existing operations which are presently focused solely on the mining and extraction of ore from the Western Mineralisation ore body (**Western Mineralisation**). The Western Mineralisation Lowers South and the Siberia deposits also represent potential for resource extension, with a large number high-grade intercepts outside the current Mineral Resource model.

In addition to the Western Mineralisation, the Company will:

- (a) continue investing in underground development to access the Main Lode ore body (Main Lode), providing a secondary source of ore feed for the plant at a higher metal content relative to the Western Mineralisation; and
- (b) assess the potential to develop the Centenary deposit (**Centenary**) which remains completely unmined to date. Centenary has received limited exploration drilling and the ore body requires more definition work, with expected upside in grade and tonnage as ore body knowledge improves. The exploration plan for Centenary involves the use of lower levels of Western Mineralisation to establish drill platforms for further resource characterisations.

BHOPL and Byrnegut have entered the Development Agreement summarised in section 6.7(c) for the provision of underground development services to access the Main Lode ore body.

The Company also intends to conduct resource definition and exploration activities at the Rasp Mine to grow both the size and confidence of the existing Mineral Resources to prolong operational mine life of the Rasp Mine.

At the Pinnacles Mine, the Company plans to carry out a series of infill and extension drilling programs to progressively grow the size and confidence of the existing Mineral Resources, as well as to convert the current Exploration Target to a Mineral Resource.

* Opportunity exists for near term open pit operations at Pinnacles to be assessed (via an options analysis study) prior to commencing underground operations.

Additionally, the Company plans to undertake a feasibility study for developing the Pinnacles Mine as a third feed source for the processing plant at the Rasp Mine. This strategic initiative aims to leverage the Company's modern processing infrastructure at the Rasp Mine which currently utilises approximately 50% of the plant's capacity, presenting a clear opportunity for increased throughput and efficiency. The proposed board and management team brings extensive experience in zinc and lead mine development and operations, with a track record that includes notable projects such as Pasminco, Century Mine and the Dugald River Mine in Queensland.

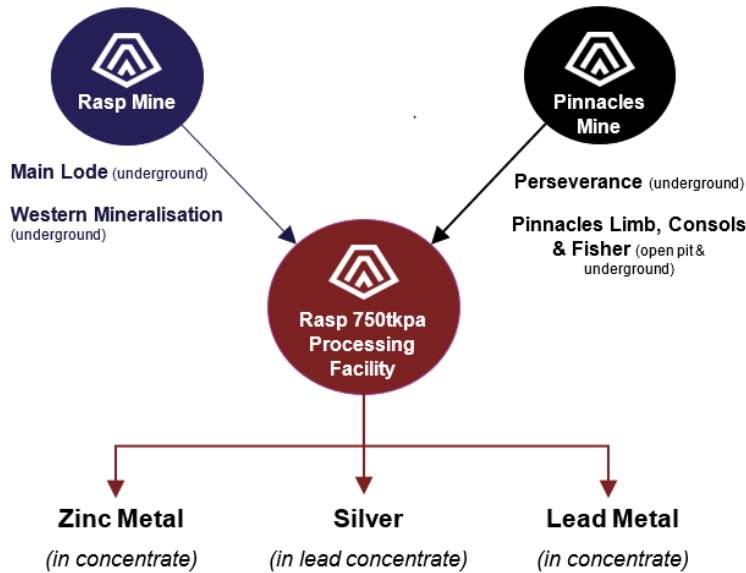

Figure 1 - Consolidation strategy

These activities aim to help the Company secure sufficient ore feed to utilise the maximum processing capacity of the Rasp plant, thereby optimising the production of zinc and silver/lead concentrates.

The Company will also assess ongoing future consolidation options within the Broken Hill region.

6.2 Rasp Mine

(a) Background

The Rasp Mine is an operating silver-lead-zinc mine located in Broken Hill, NSW. The mine hosts a Mineral Resource estimate of 10.1Mt at 9.4% ZnEq (5.7% Zn, 3.2% Pb and 48.5g/t Ag) (**Rasp MRE**) reported in accordance with the JORC Code, with a plant capacity designed to produce up to 750,000 tonnes per annum. There are approximately 118 employees and contractors presently engaged at the Rasp Mine.

Figure 2 - Rasp Mine infrastructure

The Rasp Mine and broader resource base hosts a range of known deposits discovered and in certain cases, exploited, to date. These deposits can be broadly categorised into three separate mineralised zones, being the Western Mineralisation, Centenary and Main Lode (which includes the Blackwood-Thompson, British Zone, Northern Boundary Pillar (**NBP**) and Wilson deposits).

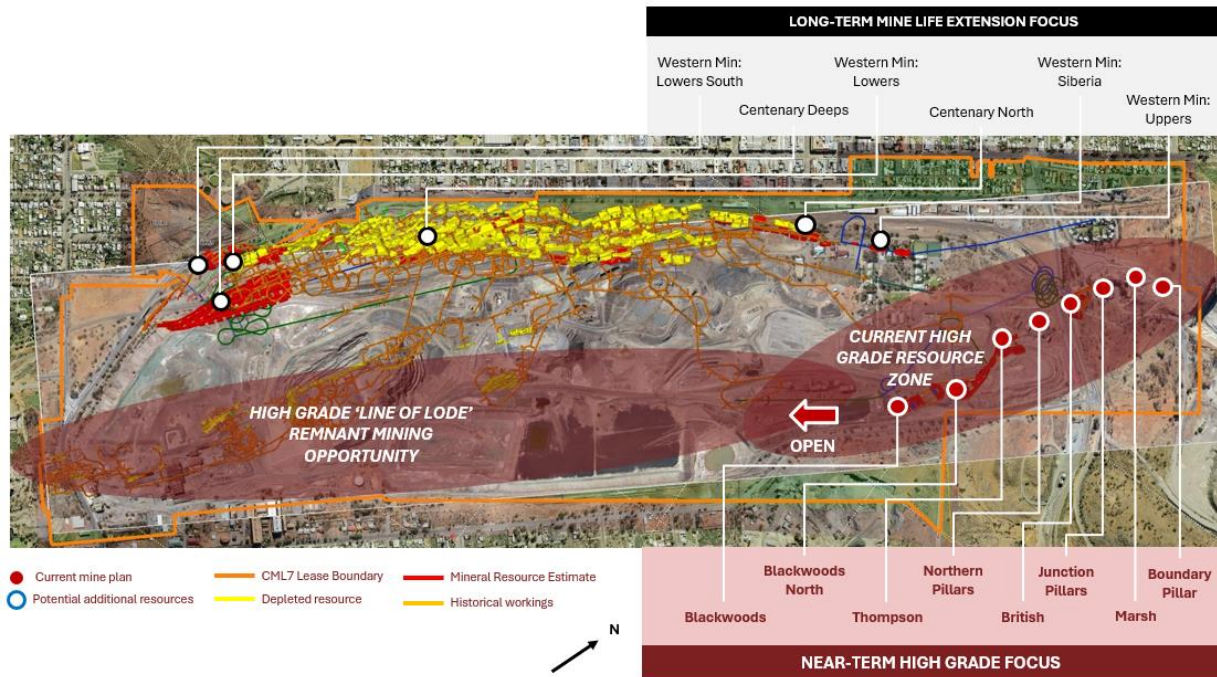

Figure 3 - Plan view of the Rasp Mine

(b) **Mineral Resource**

The Rasp MRE was completed in January 2024. This comprised separate estimates for the Western Mineralisation, Centenary Mineralisation and Main Lode zones including Blackwood - Thompson, British Zone, NBP and Wilson.

Investors are cautioned that the Rasp MRE does not capture immaterial depletion caused through mining operations carried out since the completion of the Rasp MRE.

The Rasp MRE is a total of 10.1 Mt at 5.7% Zn, 3.2% Pb and 48.5g/t Ag. This includes 1,185 kt at 6.3% Zn, 3.9% Pb and 59.8 g/t Ag of Measured Resources, 2,610 kt at 5.0% Zn, 3.9% Pb and 58.3 g/t Ag of Indicated Resources and 6,260 kt at 5.8% Zn, 2.7% Pb and 42 g/t Ag of Inferred Resources.

The Rasp MRE is presented in the table below.

Notes:

1. The Rasp MRE is reported at a 5% Pb+Zn block cut-off grade
2. Due to the effects of rounding, totals may not represent the sum of all components.
3. Tonnages are rounded to the nearest 5,000 tonnes, and grades are shown to one significant figure.
4. The Mineral Resource does not account for immaterial depletion as a result of mining operations undertaken since the completion of the Rasp MRE.
5. All resources are evaluated as having reasonable prospects of eventual economic extraction.

A zinc equivalent grade is reported with the Mineral Resources using the equation $Zinc\ Equivalent\ \% = Zn\% + (Pb\% \times 0.754717) + (Ag\ ppm \times 0.02792)$ with the following metal price and recovery assumptions:

Metal	Price (US\$)	Recovery (%)
Zn	2,650/t	88
Pb	2,000/t	88
Ag	27/oz	75

Recovery assumptions are based on metallurgical testwork and actual recoveries at the Rasp Mine. It is the opinion of the Company and the Competent Persons that all elements in the metal equivalents calculations have a reasonable potential to be recovered and sold.

(c) **Historical production**

The Rasp Mine produces zinc and lead concentrates which are dispatched via rail to Port Pirie and Port Adelaide in South Australia. The existing operations include the following components:

- (i) current and historic underground mine workings;
- (ii) four open cuts, two used for tailings deposition (Blackwood and Kintore Pits), one used for ancillary mining activities (BHP Pit) and one filled with waste material from the box cut;
- (iii) a processing plant;
- (iv) concentrate rail load out area, and
- (v) ancillary mine infrastructure, including water management, workshops, offices and other facilities.

The figures below provide an overview of the historical activities at the Rasp Mine, prior to the ownership of BHM or the Company:

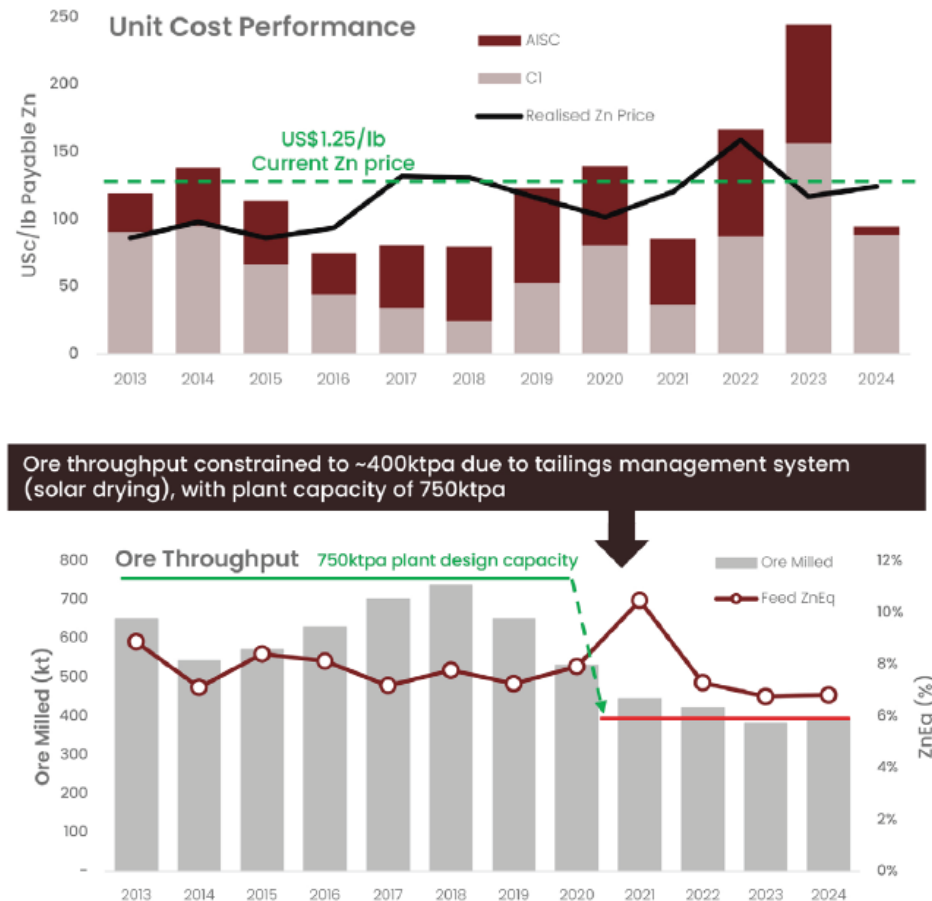

Figure 4 – Historical Production and cost performance of the Rasp Mine

(vi) **Mining**

The predominant mining method is long hole open stoping with selective rock backfill. The stope is extracted with a slot to provide a free breaking face and sufficient void for the blasted rock.

The stope is then drilled via up holes and down holes, essentially dividing the stope across the middle. The up holes are blasted and cleaned before the down holes are blasted.

The long hole stoping method is most common bulk mining method where the ore body is steeply dipping and generally less than 15m in thickness. The level spacing varies in the different mining areas and when mined. The level spacing between the 24 and 25 Levels is 30m.

Figure 5 - Processing Plant (constructed 2012)

The Rasp concentrator is designed to process up to 750,000 dry metric tonnes per annum of silver-lead-zinc ore. A single stage jaw crusher and two stage grinding circuit are used to liberate the valuable minerals from the waste rock. These minerals are then separated from the waste using the traditional, sequential flotation process.

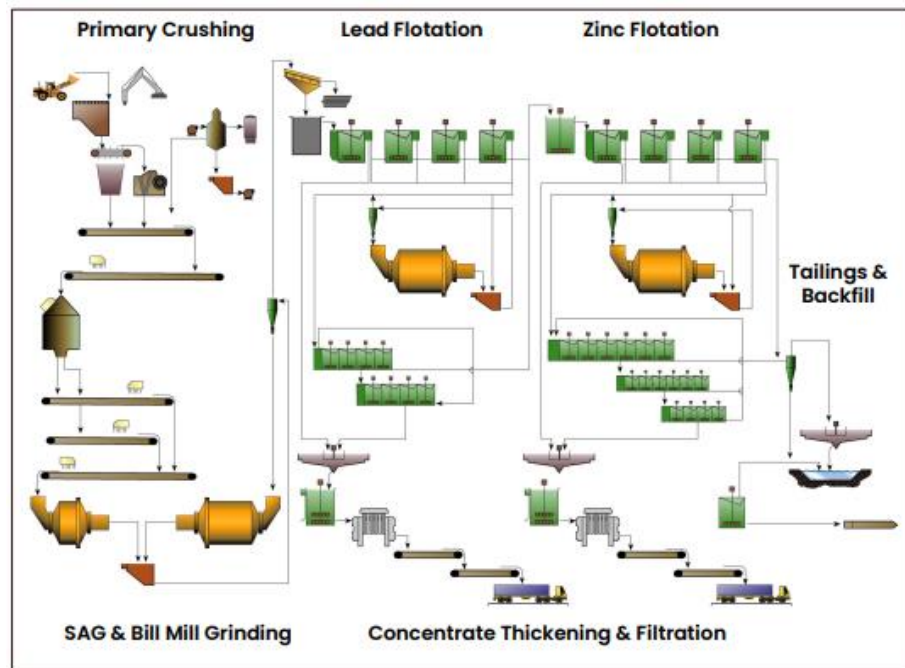

Figure 6 - Modern, 750ktpa capacity plant using comminution (coarse 200um grind) & sequential flotation

Two concentrates are produced - a lead-silver concentrate and a zinc concentrate.

Tailings from the process are placed in the surface tailing storage facilities in the Blackwood Pit and the Kintore Pit.

The concentrates are thickened and then filtered. The filtered concentrate is discharged directly into sealed concentrate containers which are then trucked less than a kilometre to the Rasp rail siding. The lead concentrate is railed directly to the Port Pirie smelter (or can also be exported) and the zinc concentrate railed to the Port of Adelaide where it is unloaded and ultimately shipped to smelter facilities globally.

6.3 Pinnacles Mine

(a) Background

The Pinnacles Mine, located 15km south-west of Broken Hill, is considered to contain one of the highest grade and shallowest known deposits in Broken Hill. The Pinnacles Deposit remains relatively undeveloped, with only small-scale historical mining targeting the rich Galena (lead ore) lodes occurring since it was originally opened in the 1880s as an underground lead-silver mine.

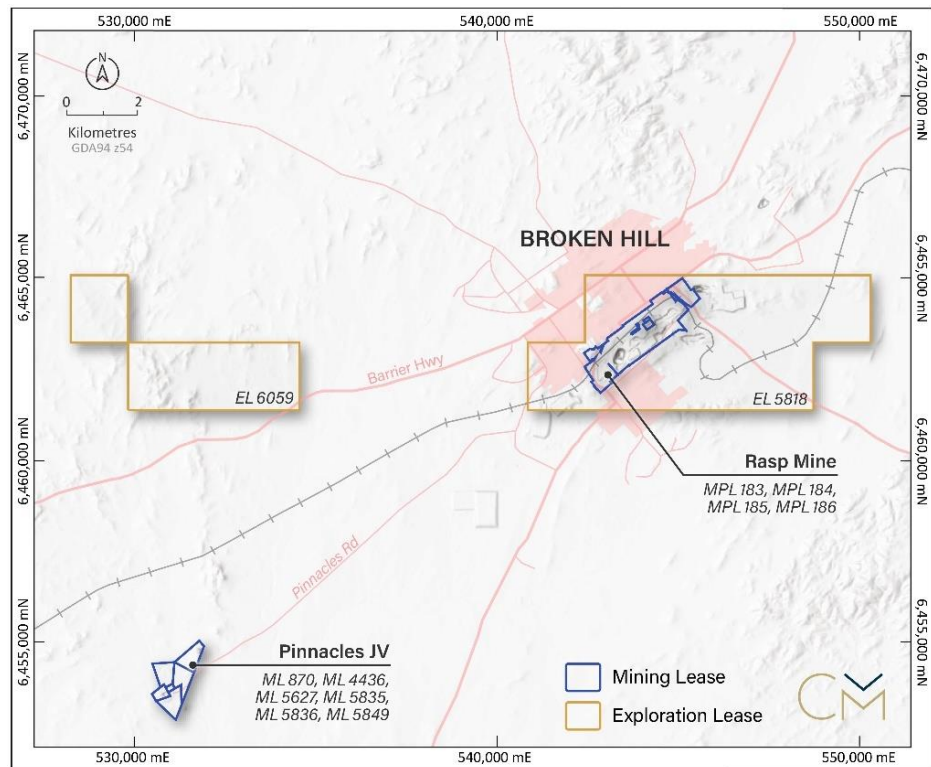

Figure 8 - Location of the Pinnacles Mine and Rasp Mine

A series of companies and syndicates owned and operated the Pinnacles Mine since its initial pegging in 1884. Ownership passed to the Williams family in 1952. In 1966, the leases were sold to Barrier Pinnacles Mine Inc., which later became Lone Star Exploration NL. The Williams family re-acquired the Pinnacles Mine in 1977.

Over 55,000m of drilling has been completed at the Pinnacles Mine to date, with approximately 33,000m occurring since 2001. In addition, approximately 22,000m of trenching has been completed at the Pinnacles Mine.

Operations from the Edwards Pit at the Pinnacles Mine began in early 2007, producing oxidised and fresh ore which was transported from the Pinnacles Mine's rail siding to Port Pirie for smelting. The Pinnacles Mine was then progressively expanded to include on site production of zinc and lead (-Ag) concentrates.

Operations were placed on care and maintenance in 2022 due to the impact of COVID-19, however drilling has continued on site, expanding the known resource base.

The Edwards Pit borders five other potentially significant deposits which make up the overall Mineral Resource for the Pinnacles Mine, including the most recent discovery of the high-grade Perseverance Deposit.

(b) **Pinnacles Mineral Resource**

A Mineral Resource estimate of 6.0Mt at 10.9% ZnEq (4.7% Zn, 3.3% Pb and 133ppm Ag & 0.5ppm Au) was reported for the Pinnacles Mine in accordance with

the JORC Code in June 2024 (**Pinnacles MRE**). Gold is not currently included in the metal equivalents' calculation.

Total	5,971	4.7%	3.3%	132	0.50	10.88

A cut-off grade of 4% combined Pb+Zn has been used for the underground Mineral Resources at Consols, Fisher, Pinnacles and Perseverance.

A zinc equivalent grade is reported with the Mineral Resources using the equation $Zinc\ Equivalent\ \% = Zn\% + (Pb\% * 0.754717) + (Ag\ ppm * 0.02792)$ with the following metal price and recovery assumptions:

Metal	Price (USD\$)	Recovery (%)
Zn	2,650/t	88
Pb	2,000/t	88
Ag	27/oz	75

Recovery assumptions are based on recovery results from available metallurgical test work and recovery data from Rasp Mine which demonstrate that the ore recovery is typically 88% Pb and 75% Ag (to the Pb concentrate) and 88% Zn (to the Zn concentrate).

Gold is not currently included in the metal equivalents calculation.

It is the Company's view that all elements in the metal equivalents calculation have a reasonable potential to be recovered and sold.

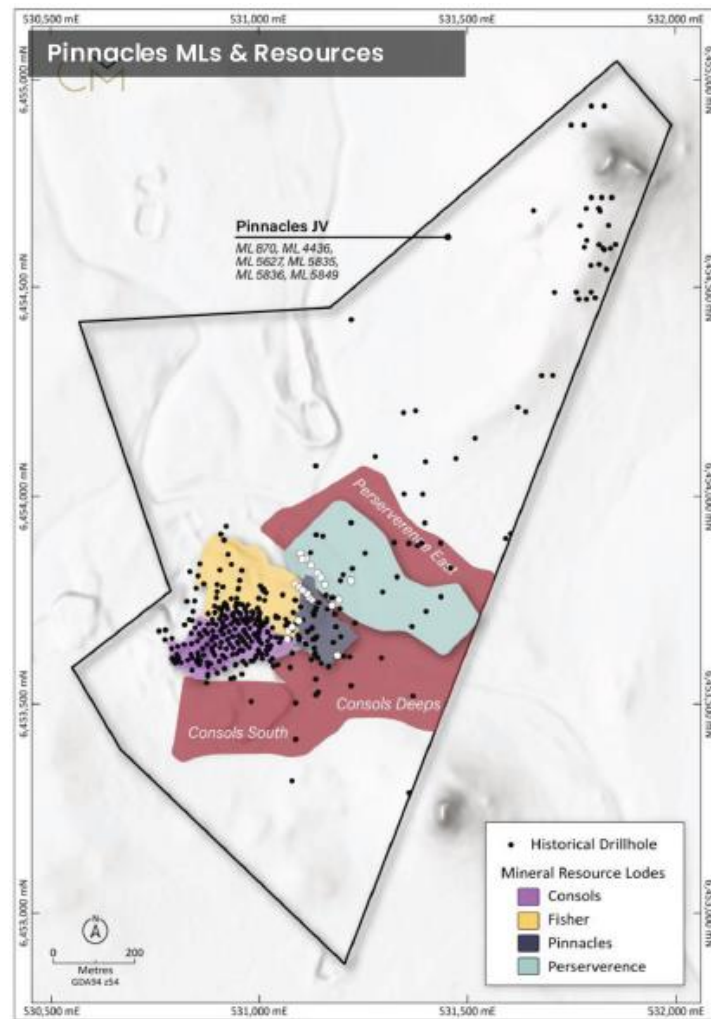

Figure 9 - Pinnacles historical drilling locations

The majority of recent drilling was in the Consols area with 67% of the holes (139 holes) being part of a major resource drill out in the period 2001-2007, prior to commencement of mining in the Edwards Pit.

Figure 10 - Pinnacles historical drill core

(c) **Pinnacles Exploration Target**

The Pinnacles Mine has a current Exploration Target reported in accordance with JORC 2012 of between 6.0Mt to 15.0Mt at 2.0 - 4.0% Zn, 3.0 - 6.0% Pb, 40 - 125 ppm Ag. The Exploration Target is separate to, and does not form part of, the current Pinnacles MRE. The Exploration Target comprises potential mineralisation below and adjacent to the current Pinnacles MRE.

Investors are cautioned that the potential quantity and grade of Exploration Targets are conceptual in nature, there has been insufficient exploration to estimate a Mineral Resource and it is uncertain if further exploration will result in the estimation of a Mineral Resource.

The Exploration Target is derived from historical drilling which enabled extrapolation of the mineralised domains (Main Lead Lode and Immediate Footwall Zinc Lode only) beyond the limits of the Inferred Resource. This extrapolation is based on the latest geological modelling with an estimation of a potential grade range sourced from all the drilling data for the lode intersections. The Exploration Target represents an informed geological opinion of the Mineral Resource that could potentially be identified with additional drilling.

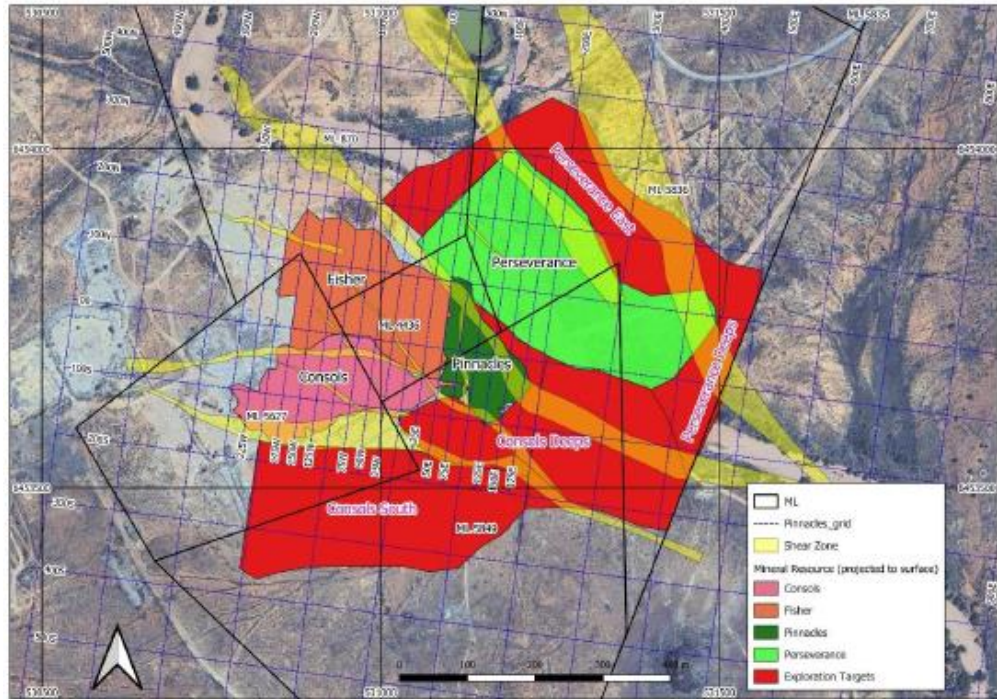

Figure 11 - Pinnacles Mineral Resource and Exploration Target

The Company intends to commence near mine exploration shortly after completing the Transaction which will focus on extending the down dip and along strike extensions of the known deposit with the view to convert the Exploration Target into a Mineral Resource.

6.4 Dividend Policy

The Company does not expect to pay dividends in the near term as its focus will primarily be on growing its business.

Any future determination as to the payment of dividends by the Company will be at the discretion of the Directors and will depend upon matters such as the availability of distributable earnings, the operating results and financial condition of the Company, future capital requirements, general business and other factors considered relevant by the Directors. No assurances are given in relation to the payment of dividends, or that any dividends may attach franking credits.

The Company has sought in-principle advice from ASX in which ASX has set out, on an in-principle basis, that it has not identified any reasons to date, to exercise its discretion to prevent the Company from being re-admitted to the Official List. Investors are cautioned however, that such advice is not binding and cannot be relied upon to prevent ASX from exercising its discretion as it sees fit.

2. Approximately US\$6,000,000 relating to the Ausinmet Offtake Facility based on an assumed AUD/USD exchange rate of 0.66. See section 5.6 for further information on the Ausinmet Offtake Facility.

The Company intends to apply funds raised from the Public Offer towards the costs of the Acquisition and Proposed Activities as set out in the table below.

Total	31,400,000	100.0	36,400,000	100.0

Notes:

1. Rasp Mine Development Activities includes the fixed costs of underground development works under the Development Agreement with Byrnesecut.
2. The Company intends to maintain minimum expenditure on its existing Australian and Canadian assets through reconnaissance and drill targeting programs, however, the Company will also conduct strategic reviews of its existing assets over the 24-month period following Completion.
3. Working capital includes the general costs associated with the management and operation of the business including funds that will be applied to ongoing costs associated with the operations of the Rasp Mine, including the payment of operational staff and contractors; reagent costs; operating consumables used in the production of zinc and lead concentrate; logistics and sales costs associated with the sale of zinc and lead concentrates. Working capital also includes surplus funds, including funds that may be used for development studies and potential future acquisition costs which include costs required for the identification of new projects and opportunistic acquisitions. The Company notes that:
 - (a) it is not currently considering other acquisitions;
 - (b) that any future acquisitions are likely to be in the mineral exploration sector;
 - (c) that the timing of any such transactions is not yet known; and

- (d) if no suitable acquisition opportunity arises, and subject to the outcomes of exploration activities, the Company may elect to allocate some or all of these funds to exploration on the Company's existing Projects.

The above table is a statement of the Board's current intentions as at the date of this Notice. Shareholders should note that, as with any budget, the allocation of funds set out in the above table may change depending on a number of factors including:

- (a) the risk factors outlined in section 7; and
- (b) the outcome of operational activities, regulatory developments and market and general economic conditions.

In light of this, the Board reserves the right to alter the way the funds are applied.

The Board is satisfied that upon completion of the Public Offer, the Company will have sufficient working capital to meet its stated objectives.

- (c) Brent Walsh – Non-Executive Director;
- (d) Mark Hine – Non-Executive Director;
- (e) Ian Plimer – Non-Executive Director; and
- (f) Michael Worcester – Chief Financial Officer.

6.16 Advantages of the proposed Transaction Resolutions

The Directors are of the view that the following non-exhaustive list of advantages may be relevant to a Shareholder's decision on how to vote on the Transaction Resolutions:

- (a) the Acquisition represents an attractive investment opportunity for the Company and has the potential to deliver value for Shareholders;
- (b) Shareholders will be provided with exposure to an operating mine;
- (c) the Public Offer will provide the Company with sufficient funds to support its strategy post-Completion;
- (d) the potential increase in market capitalisation of the Company following completion of the Transaction may lead to access to improved equity capital market opportunities and increased liquidity; and
- (e) the Company will re-comply with the Listing Rules, ensuring its reinstatement to quotation and continued liquidity of its quoted Shares (however, the Company notes that the ASX reserves the right to reinstate the Company and there is no guarantee that the Company will successfully re-comply with Chapters 1 and 2 of the Listing Rules).

6.17 Disadvantages of the proposed Transaction Resolutions

The Directors are of the view that the following non-exhaustive list of disadvantages may be relevant to a Shareholder's decision on how to vote on the Transaction Resolutions:

- (a) the Company will undergo a change in the nature and scale of its activities which may not be consistent with the objectives of all Shareholders;
- (b) Shareholders will be diluted through the issue of Shares under the Transaction;
- (c) the Company's future capital requirements may require that additional funds are raised through equity, debt or a combination thereof, which could further dilute Shareholders that do not participate in such capital raisings;
- (d) the Shareholders will lose the benefit of the skill and experience of the Resigning Directors; and
- (e) there are inherent risks associated with the Company's business as well as other risks which may not suit a Shareholder's risk profile or be consistent with their objectives. A summary of key risks to be faced by the Company is set out in section 7.

6.18 Taxation

The Transaction may give rise to income tax implications for the Company and Shareholders.

Existing Shareholders are advised to seek their own taxation advice on the effect of the Transaction Resolutions on their personal taxation position and neither the Company, nor any existing or Proposed Director or advisor to the Company accepts any responsibility for any individual Shareholder's taxation consequences on any aspect of the Transaction or the Transaction Resolutions.

6.19 Plans for the Company if the Transaction Resolutions are not passed or if the Transaction does not proceed

If the Transaction Resolutions are not passed, the Company will be unable to proceed with the Transaction and the Company will continue to look for alternative potential business acquisitions to enable the Company to seek a relisting on the ASX and generate value for Shareholders. The time taken to identify and execute an alternative acquisition is uncertain and there can be no guarantee that the Company will ultimately be successful in executing an alternative acquisition. Trading in the Company's Shares is currently suspended and will remain suspended until the Company re-complies with Chapters 1 and 2 of the Listing Rules following completion of the Acquisition or can otherwise satisfy ASX that the level of its operations is sufficient for the purposes of Listing Rule 12.1.

Notes:

1. On a post-Consolidation basis (4 to 3).
2. On an undiluted basis, assuming no Options and Performance Rights are converted to Shares and no other Shares are issued.

7. Risks associated with the Transaction

This section identifies the key dependencies and areas of risk associated with the Transaction, but should not be taken as an exhaustive list of the risk factors to which the Company and its Shareholders are exposed.

An investment in Securities of the Company involves significant risks, which should be carefully considered by prospective investors before purchasing such Securities. Management of the Company considers the following risks to be most significant for potential investors, but such risks do not necessarily comprise all those associated with an investment in the Company. Additional risks and uncertainties not currently known to management of the Company may also have an adverse effect on the Company's business. If any of these risks actually occur, the Company's business, financial condition, capital resources, results of operations and/or future operations could be materially adversely affected.

The key dependencies influencing the viability of the Transaction and the Company's business model include:

- (a) the Company's ability to re-comply with Chapters 1 and 2 of the ASX Listing Rules to enable reinstatement of the Company's Securities on the ASX;
- (b) completion of the Acquisition;

- (c) the Company's ability to raise the Minimum Subscription amount under the Public Offer;
- (d) the Company's ability to secure further prepayment offtake financing;
- (e) commodity price volatility and exchange rate risk;
- (f) operational and cost risk; and
- (g) exploration success.

In addition to the other information set forth elsewhere in this Notice of Meeting, the following risk factors should be carefully considered when assessing risks related to the Company's business.

(a) **Re-Quotation of Shares on ASX**

The Acquisition constitutes a significant change in the nature and scale of the Company's activities and the Company needs to re-comply with Chapters 1 and 2 of the Listing Rules as if it were seeking admission to the Official List.

There is a risk that the Company may not be able to meet the requirements of the ASX for reinstatement of its Shares to quotation on the ASX. Should this occur, the Shares will likely remain in suspension and not be able to be traded on the ASX until such time as those requirements can be met, if at all. Shareholders may be prevented from trading their Shares should the Company be suspended until such time as it does re-comply with the Listing Rules.

(b) **Going Concern Risk**

On Completion the Company will acquire 100% of BHM which, in turn, holds 100% of BHOPL. BHOPL's financial statements have been prepared on the basis that BHOPL can continue as a going concern and pay its debts as and when they fall due. The operating result of BHOPL for the half-year ended 30 June 2024 was a loss after tax of \$8.3 million compared to a loss after tax of \$237.1 million for the half-year ended 30 June 2023.

BHOPL previously relied on letters of financial support from Toho its ultimate parent entity, via CBH Resources its intermediate parent entity, to meet its liabilities as and when they fall due. Without the financial support of Toho and CBH there are material uncertainties in respect of BHOPL's ability to continue as a going concern. However, the Directors believe that the sources of funds available to the Company as set out in section 6.13 will be sufficient to meet its proposed use of funds over the next 24 months, and that it will be able to satisfy its liabilities as and when they fall due over that period. The long-term success of the Company will be dependent on its ability to reduce its operating losses through the successful execution of its proposed business model.

(c) **Future Capital Needs**

Although the Directors consider that the Company will, on Completion, have sufficient working capital to carry out its stated objectives and to satisfy the anticipated current working capital and other capital requirements set out in this Notice, there can be no assurance that such objectives can continue to be met in the future without securing further funding.

The future capital requirements of the Company will depend on many factors, including the continuation of its current business and sales, and the Company may need to raise additional funds from time to time to finance its ongoing operations.

Should the Company require additional funding, there can be no assurance that additional financing will be available on acceptable terms or at all. Any inability to obtain additional financing, if required, would have a material adverse effect on the Company's business, financial condition and results of operations. In the event the Company is required to raise additional funding through equity raisings, it is likely that Shareholders' interests will be diluted. In the event that further funding is obtained through debt financing, it is likely to be accompanied by restrictive debt covenants and the granting of a security interest over the assets of the Company.

(d) **Dilution risk**

The Company currently has 33,539,351 Shares on issue (on a post-Consolidation basis).

On Completion and assuming that the Maximum Subscription is raised:

- (i) the existing Shareholders will retain approximately 12.48% of the Company's issued Share capital on an undiluted basis and 9.17% of the Company's issued Share capital on a fully diluted basis;
- (ii) the Shares to be issued under the Acquisition (including the Consideration Shares, Convertible Note Conversion Shares, Cash Conversion Consideration Shares and Facilitator Shares) will represent approximately 66.25% of the Company's issued Share capital on an undiluted basis and 48.68% of the Company's issued Share capital on a fully diluted basis; and
- (iii) the investors under the Public Offer will hold approximately 21.27% of the Company's issued Share capital on an undiluted basis and 15.63% of the Company's issued Share capital on a fully diluted basis.

The number of Shares in the Company will increase from 33,539,351 to 268,682,209 (on a post-Consolidation basis) assuming that the Maximum Subscription is raised. This means that on reinstatement to official quotation, the number of Shares on issue will be increased by approximately 701.10% of the number on issue as at the date of this Notice.

On this basis, existing Shareholders should note that if they do not participate in the Public Offer (and even if they do), their holdings may be considerably diluted (as compared to their holdings and number of Shares on issue as at the date of this Notice).

(e) **Completion, counterparty and contractual risk**

The BHM SPA is subject to the fulfilment of certain conditions precedent. There is a risk that the conditions precedent to the BHM SPA will not be fulfilled and, in turn, that Completion will not occur.

The ability of the Company to achieve its stated objectives will depend on the performance by each of the vendors and certain third parties under the BHM SPA and Pinnacles HOA. If any vendor or any other counterparty defaults in the performance of its obligations, it may be necessary for the Company to approach a court to seek a legal remedy, which can be costly and without any certainty of a favourable outcome.

(f) **Product sales and commodity price risk**

The Company's ability to proceed with the development of its mineral projects and benefit from any future mining operations will depend on market factors, some of which may be beyond its control. It is anticipated that any revenues derived from mining will primarily be derived from the sale of zinc, lead and silver. Consequently, any future earnings are likely to be closely related to the price of these commodities and the terms of any offtake agreements that the Company enters into.

The world market for minerals is subject to many variables and may fluctuate markedly. These variables include world demand for zinc, lead and silver that may be mined commercially in the future from the Company's project areas, forward selling by producers and production cost levels in major mineral-producing regions. Minerals prices are also affected by macroeconomic factors such as general global economic conditions and expectations regarding inflation and interest rates. These factors may have an adverse effect on the Company's exploration, development and production activities, as well as on its ability to fund those activities. Metals are principally sold throughout the world in US dollars. The Company's cost base will be payable in various currencies including Australian dollars and US dollars. As a result, any significant and/or sustained fluctuations in the exchange rate between the Australian dollar and the US dollar could have a materially adverse effect on the Company's operations, financial position (including revenue and profitability) and performance. The Company may undertake measures, where deemed necessary by the Board, to mitigate such risks.

(g) **Resource estimation risk**

Mineral resource estimates (inferred, indicated and measured) have been reported at the Rasp Mine and Pinnacles Mine. Resource estimates are expressions of judgement based on knowledge, experience and industry practice. Estimates of mineral resources that were valid when originally made may alter significantly when new information or techniques become available or when commodity prices change.

In addition, by their very nature, mineral resource estimates are imprecise and depend on interpretations which may prove to be inaccurate, and whilst the Company employs industry-standard techniques including compliance with the JORC Code 2012 to reduce the resource estimation risk, there is no assurance that this approach will alter the risk.

As further information becomes available through additional fieldwork and analysis, mineral resource estimates may change. This may result in alterations to mining and development plans which may in turn adversely affect the Company.

Whilst the Company intends to undertake further exploration and development activities with the aim of expanding the existing mineral resources and converting them to ore reserves, no assurances can be given that this will be successfully achieved. Notwithstanding that mineral resources have been identified, no assurance can be provided that these can be economically extracted. Failure to convert mineral resources into ore reserves or maintain or enhance existing mineral resources could have a material adverse effect on the Company's business, financial condition, results of operations and prospects.

(h) **Offtake and offtake financing risk**

The Company may seek to enter into offtake financing in the near future. Post-reinstatement the Company may also seek interest from global trading houses to acquire offtake as part of an offtake financing package. The Company's ability to

enter into such agreements is not guaranteed and is dependent on several extrinsic and uncontrollable factors, namely the state of global commodity prices and markets.

In the event that the Company, or an entity that the Company stands as guarantor to, is not able to satisfy its obligations under its offtake agreements generally, the Company may be liable for damages under the agreements (including any guarantee agreement) or the relevant counterparties may be able to terminate the agreements and/or enforce their security.

(i) **Metallurgy**

Metal and/or mineral recoveries are dependent upon the metallurgical process, and by its nature contain elements of significant risk such as:

- (i) identifying a metallurgical process through test work to produce a saleable metal and/or concentrate;
- (ii) developing an economic process route to produce a metal and/or concentrate; and
- (iii) changes in mineralogy in the ore deposit, such as areas of increased oxidation, can result in inconsistent metal recovery, affecting the economic viability of the project.

(j) **Regulatory and environmental risks**

The operations and proposed activities of the Company are subject to laws and regulations concerning the environment. As with most exploration projects and mining operations, the Company's activities are expected to have an impact on the environment. It is the Company's intention to conduct its activities to the highest standard of environmental obligation, including compliance with all environmental laws.

Mining operations have inherent risks and liabilities associated with safety and damage to the environment and the disposal of waste products occurring as a result of mineral exploration and production. The occurrence of any such safety or environmental incident could delay production or increase production costs. Events, such as unpredictable rainfall or bushfires may impact on the Company's ongoing compliance with environmental legislation, regulations and licences. Significant liabilities could be imposed on the Company for damages, clean-up costs or penalties in the event of certain discharges into the environment, environmental damage caused by previous operations or noncompliance with environmental laws or regulations.

The disposal of mining and process waste and mine water discharge are under constant legislative scrutiny and regulation. There is a risk that environmental laws and regulations become more onerous making the Company's operations more expensive.

Approvals are required for land clearing and for ground disturbing activities. Delays in obtaining or renewing such approvals can result in the delay to anticipated exploration programmes or mining activities.

(k) **Historical Liabilities**

Upon Completion, Coolabah will become directly or indirectly liable for any liabilities that BHM and BHOPL have incurred in the past, including liabilities which may not have been identified during its due diligence or which are greater than expected, for

which insurance may not be adequate or available, and for which Coolabah may not have post-closing recourse under the relevant acquisition agreements. These could include liabilities relating to environmental claims or breaches, contamination, regulatory actions and health and safety claims. Such liabilities may adversely affect the financial performance or position of Coolabah.

(l) **Major Shareholder**

Patrick Walta and his associates will, on completion of the Transaction, hold 40,137,000 Shares and 18,416,666 Options. Mr Walta's shareholding will represent 15.78% of the Company's issued capital on an undiluted basis and assuming the Minimum Subscription is raised.

As the holder of 15.78% of the Shares on issue, Mr Walta (and his associates) will have significant voting power on Completion. The Company and its Directors will comply with all applicable laws and the Listing Rules in relation to any dealings between Mr Walta and the Company. However, there is a risk that investors will discount the Company's Shares as a result of the level of control being acquired by Mr Walta, and the decreased likelihood of a third party making a takeover bid for the Company.

(m) **Employees**

Coolabah may make offers of employment to certain employees at the Rasp Mine on terms and conditions that are the same or substantially similar to and, considered on an overall basis, no less favourable than the terms and conditions of their existing employment. However, there is a risk that not all employees will elect to continue their employment after Completion and there could be an associated workforce shortage at the Rasp Mine.

(n) **Securities investment**

Investors should be aware that there are risks associated with any securities investment. The prices at which the Company's Shares trade may be above or below the issue price of the Public Offer and may fluctuate in response to a number of factors. Further, the stock market is prone to price and volume fluctuations. There can be no guarantee that trading prices will be sustained. These factors may materially affect the market price of the Shares, regardless of the Company's operational performance.

8. Resolution 1 – Consolidation of capital

8.1 General

The Company completed a 3 to 1 consolidation in December 2024, as approved at the general meeting held on 29 November 2024.

Resolution 1 seeks Shareholder approval for the Company to undertake a further consolidation of its capital on a 4 for 3 basis (**Consolidation**).

Resolution 1 is a Transaction Resolution and is conditional on Shareholders passing each of the Transaction Resolutions.

8.2 Legal requirements

Section 254H of the Corporations Act provides that a company may, by resolution passed in a general meeting, convert all or any of its shares into a larger or smaller number.

Listing Rule 7.20 provides that where an entity proposes to reorganise its capital, it must tell Equity Security holders:

- (a) the effect of the proposal on the number of Securities and the amount unpaid (if any) on the Securities;
- (b) the proposed treatment of any fractional entitlements; and
- (c) the proposed treatment of any Convertible Securities on issue. Listing Rule 7.21 provides that a listed entity which has Convertible Securities (except Options) on issue may only reorganise its capital if, in respect of the Convertible Securities, the number of its Convertible Securities or the conversion price, or both, is reorganised so that the holder of the Convertible Securities will not receive a benefit that holders of ordinary Securities do not receive.

Listing Rule 7.22.1 requires that when a listed entity undertakes a consolidation of capital, the number of its Options must be consolidated in the same ratio as the ordinary capital and the exercise price must be amended in inverse proportion to that ratio. If Resolution 1 is passed, the Company will be able to proceed with the Consolidation and the number of Securities on issue is anticipated to be adjusted as follows, based on the Securities on issue as at the date of this Notice (in each case, subject to rounding up):

Security	Pre-Consolidation	Post-Consolidation
Shares	44,718,913	33,539,351
Quoted Options	16,218,361	12,163,943
Unquoted Options	0	0
Performance Rights	1,666,670	1,250,005

If Resolution 1 is not passed, the Company will not be able to proceed with the Consolidation and will not be able to complete the Transaction.

8.3 Fractional entitlements

Not all Shareholders will hold that number of Securities (Shares, Options or Performance Rights, as the case may be) which can be evenly divided based on a 4 to 3 ratio. Where a fractional entitlement occurs, the Company will round that fraction up to the nearest whole Security (Shares, Options or Performance Rights, as applicable).

8.4 Taxation

It is not considered that any taxation implications will exist for Shareholders arising from the Consolidation. However, Shareholders are advised to seek their own tax advice on the effect of the Consolidation and the Company accepts no responsibility for the individual taxation implications arising from the Consolidation.

8.5 Holding statements

From the date of the Consolidation, all holding statements for Securities will cease to have any effect, except as evidence of entitlement to a certain number of Securities on a post-Consolidation basis. After the Consolidation becomes effective, the Company will arrange for new holding statements for Securities to be issued to holders of those Securities. It is the responsibility of each Shareholders to check the number of Securities held prior to disposal or exercise (as the case may be).

8.6 Effect on capital structure

The approximate effect which the Consolidation will have on the Company's current capital structure is set out in the tables below. All numbers are subject to rounding.

The Board recommends that Shareholders vote in favour of Resolution 1.

9. Resolution 2 – Approval to issue Broker Options

9.1 General

The Company issued 4,471,875 shares on 16 April 2024 (**Placement Shares**) through a placement to sophisticated and professional investors to raise \$715,500 (before costs) at \$0.16 per share (on a post-Consolidation basis) (**Placement**). The Company also agreed to issue 1,117,969 free-attaching CBHOA Options (**Placement Options**), subject to receipt of shareholder approval at the General Meeting.

Funds raised under the placement and entitlement offer announced on 16 April 2024 have been used for the following purposes:

- (b) future acquisitions;
- (c) working capital; and
- (d) costs of the of the placement and entitlement offer.

Resolution 14 is an ordinary resolution.

The Board recommends that Shareholders vote in favour of Resolution 14.

22. Resolution 15 – Approval to issue Convertible Note Conversion Securities

22.1 General

BHM has 200 existing convertible notes on issue with a face value of \$5,000,000 (before costs). Excluding the Securities to be issued to a related party (the subject of Resolution 16), the Convertible Notes automatically convert into 25,000,000 Convertible Note Conversion Shares and 2,500,000 Convertible Note Conversion Options (on a post-Consolidation basis) (including the Director Convertible Note Conversion Securities the subject of Resolution 16) upon Coolabah receiving an ASX Conditional Reinstatement Letter. The material terms of the Convertible Notes are summarised in section 5.2(d).

In the event the Transaction does not complete, the Company will be under no obligation to issue the Convertible Note Conversion Securities to the BHM Noteholders.

Resolution 15 is a Transaction Resolution and is conditional on Shareholders passing each of the Transaction Resolutions.

22.2 Listing Rule 7.1

A summary of Listing rule 7.1 is set out in section 9.3 above.

The issue of the Convertible Note Conversion Shares does not fit within any of the exceptions to Listing Rule 7.1 and exceeds the 15% limit. It therefore required the approval of the Company's Shareholders under Listing Rule 7.1.

Resolution 15 seeks shareholder approval to the issue of the Convertible Note Conversion Shares under and for the purposes of Listing Rule 7.1.

If Resolution 15 and each of the other Transaction Resolutions are passed, the Company can proceed to issue the Convertible Note Conversion Shares.

If Resolution 15 is not passed, the Company will be unable to issue the Convertible Note Conversion Shares and the Transaction will not proceed.

22.3 Specific information required by Listing Rule 7.3

Pursuant to and in accordance with Listing Rule 7.3, the following information is provided in relation to the proposed issue of the Convertible Note Conversion Shares:

- (a) The Convertible Note Conversion Shares will be issued to BHM Noteholders (or their respective nominee/s), none of whom are a related party or a Material Investor, except for Convertible Notes with a value of \$50,000 subscribed for by Tadj Superannuation Pty Ltd as trustee for B&M Walsh Super Fund, an entity controlled by Mr Brent Walsh who is a proposed Director of the Company.
- (b) A maximum of 24,625,000 Convertible Note Conversion Shares and 2,462,500 Convertible Note Conversion Options will be issued under this Resolution. A further 375,000 Convertible Note Conversion Shares and 37,500 Convertible Note Conversion Options will be issued to Director Cameron Provost and Proposed Director Brent Walsh subject to Shareholders approving Resolution 16(a) and (b).

22.4 Additional information

Resolution 15 is an ordinary resolution.

The Board recommends that Shareholders vote in favour of Resolution 15.

23. Resolution 16(a) and (b) – Approval to issue Director Conversion Securities

23.1 General

The background to the Cash Conversion Consideration Shares and Convertible Note Conversion Securities is set out in sections 19.1 and 22.1 respectively.

An entity controlled by Cameron Provost (CDPVL), a Director of the Company, holds 1 Convertible Note, valued at \$25,000.

An entity controlled by Brent Walsh (Tadji), a Proposed Director of the Company, holds 2 Convertible Notes, valued at \$50,000.

Resolution 16(a) and (b) (inclusive) seek Shareholder approval pursuant to Listing Rule 10.11 for the issue of the following Securities:

- (a) 125,000 and 250,000 Convertible Note Conversion Shares to CDVPL and Tadji respectively (**Director Convertible Note Conversion Shares**);
- (b) 12,500 and 25,000 Convertible Note Conversion Options to CDVPL and Tadji respectively (**Director Convertible Note Conversion Options**); and
- (c) 16,700 and 33,400 Cash Conversion Consideration Shares to CDVPL and Tadji respectively (**Director Cash Conversion Consideration Shares**),

(collectively, the **Director Conversion Securities**).

In the event Completion does not occur, the Company will be under no obligation to issue the Director Conversion Securities.

Resolution 16(a) and (b) are Transaction Resolutions and are conditional on Shareholders passing each of the Transaction Resolutions.

23.2 Listing Rule 10.11

Listing Rule 10.11 requires shareholder approval to be obtained where an entity issues, or agrees to issue, Equity Securities to:

- (a) a related party;
- (b) a person who is or was at any time in the 6 months before the issue or agreement to issue, a substantial (30%+) holder in the entity;
- (c) a person who is or was at any time in the 6 months before the issue or agreement to issue, a substantial (10%+) holder in the entity and who has nominated a director to the board of the entity pursuant to a relevant agreement which gives them a right or expectation to do so;
- (d) an associate of any of the persons referred to above; or
- (e) a person who or a person whose relationship with the entity or a related party is, in ASX's opinion, such that approval should be obtained, unless an exception in Listing Rule 10.12 applies.

CDPVL and Tadji are each a related party of the Company by virtue of Mr Cameron Provost, a Director of the Company, controlling CDPVL, and Mr Brent Walsh, a Proposed Director of the Company, controlling Tadji. Shareholder approval pursuant to Listing Rule 10.11 is

therefore required unless an exception applies. It is the view of the Board that the exceptions set out in Listing Rule 10.12 do not apply in the current circumstances.

Approval pursuant to Listing Rule 7.1 is not required for the issue of the Director Conversion Securities as approval is being obtained under Listing Rule 10.11. Accordingly, the issue of the Director Conversion Securities will not be included in the Company's 15% annual placement capacity pursuant to Listing Rule 7.1.

If Resolution 16(a) and each of the other Transaction Resolutions are passed, the Company will be able to proceed with the issue of the Director Conversion Securities to CDPVL and proceed with the Transaction as outlined in this Notice.

If Resolution 16(b) and each of the other Transaction Resolutions are passed, the Company will be able to proceed with the issue of the Director Conversion Securities to Tadjl and proceed with the Transaction as outlined in this Notice.

If Resolution 16(a) is not passed, CDPVL will not be able to receive the Director Conversion Securities and the Transaction will not progress.

If Resolution 16(b) is not passed, Tadjl will not be able to receive the Director Conversion Securities and the Transaction will not progress.

23.3 ASX Waiver

The Company has obtained a waiver from Listing Rule 10.13.5 to enable the Company to issue the Director Conversion Securities to Cameron Provost and Brent Walsh no later than three months after the date of the Meeting, rather than within one month after the date of the Meeting (as required by Listing Rule 10.13.5). The full terms and conditions of the waiver decision are set out in Schedule 6.

23.4 Specific information required by Listing Rule 10.13

Pursuant to and in accordance with Listing Rule 10.13, the following information is provided in relation to the proposed issue of the Director Conversion Securities:

- (a) The Director Conversion Securities will be issued to CDPVL (Resolution 16(a)) and Tadjl (Resolution 16(b)) (or their respective nominee/s).
- (b) CDPVL and Tadjl fall into the category stipulated by Listing Rule 10.11.1 by virtue of being an entity controlled by a Director or Proposed Director of the Company respectively.
- (c) A maximum of 154,200 and 308,400 Director Conversion Securities will be issued to CDPVL (Resolution 16(a)) and Tadjl (Resolution 16(b)) (or their respective nominee/s), respectively, in the manner set out in section 23.1.
- (d) The Director Conversion Shares and Director Cash Conversion Shares will be fully paid ordinary Shares in the capital of the Company and rank equally in all respects with the Company's existing Shares on issue.
- (e) The Director Convertible Note Conversion Options will have an exercise price of \$0.36 each expiring 5 years after the date of issue and will otherwise be subject to the terms and conditions in Schedule 8.
- (f) The Director Conversion Securities will be issued no later than three months after the date of the Meeting.

- (g) The Director Conversion Securities are being issued on conversion of the Convertible Notes. Accordingly, nil additional cash consideration is payable and no funds will be raised as a result.
- (h) The proposed issue is not intended to remunerate or incentivise Cameron Provost or Brent Walsh.
- (i) A summary of the material terms of the BHM SPA is in section 5.2 above. A summary of the material terms of the Convertible Notes is in section 5.2(d) above.
- (j) A voting exclusion statement is included in the Notice.

23.5 Chapter 2E of the Corporations Act

In accordance with Chapter 2E of the Corporations Act, in order to give a financial benefit to a related party, the Company must:

- (a) obtain Shareholder approval in the manner set out in section 217 to 227 of the Corporations Act; and
- (b) give the benefit within 15 months following such approval,

unless the giving of the financial benefit falls within an exception set out in sections 210 to 216 of the Corporations Act.

The issue of Director Conversion Securities constitutes giving a financial benefit and the recipients, being entities controlled by Messrs Provost and Walsh, are related parties of the Company by virtue of their positions as a Director or Proposed Director.

The proposed issue of Director Conversion Securities constitutes giving a financial benefit to a related party of the Company.

The Board (with Mr Provost abstaining due to having a material personal interest in the outcome of the Resolution) considers that Shareholder approval pursuant to Chapter 2E of the Corporations Act is not required in respect of the issue of the Director Conversion Securities because the Director Conversion Securities will be issued on the same terms as the Convertible Note Conversion Securities and the Cash Conversion Consideration Shares (as applicable) issued to non-related party BHM Noteholders under the Transaction and as such the giving of the financial benefit is on arm's length terms.

23.6 Additional information

Resolution 16(a) and (b) are separate ordinary resolution.

The Board (with Mr Provost abstaining due to having a material personal interest in the outcome of the Resolution) recommends that Shareholders vote in favour of Resolution 16(a) and (b).

24. Resolution 17 – Participation in Public Offer by the Participating Directors

24.1 General

The background to the Public Offer is set out in Section 5.1 above.

Messrs Provost, Ward and Woodham wish to participate in the Public Offer, subject to Shareholder approval being obtained (**Director Participants**).

Resolution 17(a) to (c) (inclusive) seek the approval of Shareholders pursuant to Listing Rule 10.11 for the issue of up to 671,642 Public Offer Shares to the Director Participants (or their respective nominees) arising from their participation in the Public Offer (**Director Participation**) as follows:

- (a) up to 214,500 Shares to Cameron Provost;
- (b) up to 28,571 Shares to David Ward; and
- (c) up to 428,571 Shares to Stephen Woodham.

Resolution 17(a) to (c) (inclusive) are separate ordinary resolutions.

24.2 Listing Rule 10.11

Listing Rule 10.11 requires shareholder approval to be obtained where an entity issues, or agrees to issue, equity securities to:

- (a) a related party;
- (b) a person who is or was at any time in the 6 months before the issue or agreement to issue, a substantial (30%+) holder in the entity;
- (c) a person who is or was at any time in the 6 months before the issue or agreement to issue, a substantial (10%+) holder in the entity and who has nominated a director to the board of the entity pursuant to a relevant agreement which gives them a right or expectation to do so;
- (d) an associate of any of the persons referred to above; or
- (e) a person who or a person whose relationship with the entity or a related party is, in ASX's opinion, such that approval should be obtained, unless an exception in Listing Rule 10.12 applies.

Under the Listing Rules, related parties include Directors of a Company and persons whom the Company reasonably believes will become a related party in the future. As such, the Director Participants are related parties of the Company.

As the Director Participation involves the issue of Shares to related parties of the Company, Shareholder approval pursuant to Listing Rule 10.11 is required unless an exception applies. It is the view of the Directors that the exceptions set out in Listing Rule 10.12 do not apply in the current circumstances.

Approval pursuant to Listing Rule 7.1 is not required for the Director Participation as approval is being obtained under Listing Rule 10.11. Accordingly, the issue of Shares to the Director Participants (or their nominees) will not be included in the use of the Company's 15% placement capacity pursuant to Listing Rule 7.1.

If Resolution 17(a) to (c) (inclusive) is passed, the Company will be able to proceed with the issue of the Public Offer Shares to the Director Participants.

If Resolution 17(a) to (c) (inclusive) are not passed, the Director Participants will not be able to acquire the Public Offer Shares pursuant to the Director Participation, in which case these Public Offer Shares will be issued to unrelated applicants under the Public Offer.

24.3 ASX Waiver

The Company has obtained a waiver from Listing Rule 10.13.5 to enable the Company to issue these Public Offer Shares under the Director Participation no later than three months after the date of the Meeting, rather than within one month after the date of the Meeting (as

required by Listing Rule 10.13.5). The full terms and conditions of the waiver decision are set out in Schedule 6.

24.4 Specific information required by Listing Rule 10.13

Pursuant to and in accordance with Listing Rule 10.13, the following information is provided in relation to the Director Participation:

- (a) The Director Participants (or their respective nominees) are to be issued a maximum of 671,642 Public Offer Shares as follows;
 - (i) up to 214,500 Shares to Cameron Provost (Resolution 17(a));
 - (ii) up to 28,571 Shares to David Ward (Resolution 17(b)); and
 - (iii) up to 428,571 Shares to Stephen Woodham (Resolution 17(c)).
- (b) The Director Participants are related parties of the Company by virtue of their position as a Director and fall under the category stipulated under Listing Rule 10.11.1.
- (c) These Public Offer Shares will be issued to the Director Participants no later than three months after the date of the Meeting.
- (d) The Public Offer Shares to be issued to the Director Participants will be issued at a price of \$0.35 each.
- (e) The Public Offer Shares will be fully paid ordinary shares in the capital of the Company issued on the same terms and conditions as the Company's existing Shares.
- (f) The Company's intended use of the funds raised from the issue of the Public Offer is set out in Section 6.13 above.
- (g) The proposed issue of the Public Offer Shares to be issued to the Director Participants are not intended to remunerate or incentivise the Director Participants.
- (h) Further details of the Transaction are set out in Section 5.
- (i) A voting exclusion statement is included in the Notice.

24.5 Chapter 2E of the Corporations Act

In accordance with Chapter 2E of the Corporations Act, in order to give a financial benefit to a related party, the Company must:

- (a) obtain Shareholder approval in the manner set out in section 217 to 227 of the Corporations Act; and
- (b) give the benefit within 15 months following such approval,

unless the giving of the financial benefit falls within an exception set out in sections 210 to 216 of the Corporations Act.

The Director Participation will result in the issue of Shares which constitutes giving a financial benefit and the Director Participants are related parties of the Company by virtue of their position as a Director.

The Board considers that Shareholder approval pursuant to Chapter 2E of the Corporations Act is not required in respect of the Director Participation, because the Public Offer Shares to be issued to the Director Participants will be issued on the same terms as Public Offer Shares

issued to other unrelated participants in the Public Offer, and as such the giving of the financial benefit is on arm's length terms.

24.6 Additional information

Resolution 17(a) to (c) (inclusive) are separate ordinary resolutions.

Given the personal interests of all Directors in the outcome Resolution 17(a) to (c) (inclusive), the Board declines to make a recommendation to Shareholders regarding these Resolutions.

25. Resolution 18 – Approval to issue Director Performance Securities

25.1 General

As outlined in section 5.8, the Company is proposing to issue 500,000 Director Performance Rights and 200,000 Director Performance Options to existing Director, Stephen Woodham (or his nominee/s), under the Plan on the terms and conditions in Schedule 10 (Director Performance Rights) and Schedule 11 (Director Performance Options).

The Company is at an important stage of development with significant opportunities and challenges in both the near and long term, and the proposed issue of the Director Performance Securities aims to align the efforts of Mr Woodham in seeking to achieve growth of the Company's projects and in the creation of Shareholder value.

The Board believes that the issue of the Director Performance Securities will further align the interests of Mr Woodham with those of the Company and its Shareholders. In addition, the Board also believes that incentivising with performance securities is a prudent means of conserving the Company's available cash reserves.

In the event the Transaction does not complete, the Company will be under no obligation to issue the Performance Securities.

Resolution 18 seeks Shareholder approval pursuant to Listing Rule 10.14 for the issue of the Director Performance Securities to Stephen Woodham (or his nominee/s) under the Plan.

25.2 Listing Rule 10.14

Listing Rule 10.14 provides that an entity must not permit any of the following persons to acquire Equity Securities under an employee incentive scheme without the approval of its Shareholders:

- (a) a director of the entity (Listing Rule 10.14.1);
- (b) an associate of a person referred to in Listing Rule 10.14.1 (Listing Rule 10.14.2); and
- (c) a person whose relationship with the entity or a person referred to in Listing Rule 10.14.1 or 10.14.2 is such that, in ASX's opinion, the acquisition should be approved by shareholders.

Approval pursuant to Listing Rule 7.1 is not required for the issue of the Director Performance Securities as approval is being obtained under Listing Rule 10.14. Accordingly, the issue of the Director Performance Securities to Mr Woodham (or his nominee/s) will not be included in the Company's 15% annual placement capacity in Listing Rule 7.1.

The effect of Shareholders passing Resolution 18 will be to allow the Company to issue the Director Performance Securities to Mr Woodham (or his nominee/s).

If Resolution 18 is not passed, the Company will not be able to proceed with the issue of the Director Performance Securities, and the Company may need to consider alternative commercial means to incentivise Mr Woodham.

25.3 Specific information required by Listing Rule 10.15

Pursuant to and in accordance with Listing Rule 10.15, the following information is provided in relation to the proposed issue of the Director Performance Securities:

- (a) The Director Performance Securities will be issued under the Plan to Stephen Woodham.
- (b) Mr Woodham falls into the category stipulated by Listing Rule 10.14.1 by virtue of being a Director of the Company. In the event the Director Performance Securities are issued to a nominee of Mr Woodham, that person will fall into the category stipulated by Listing Rule 10.14.2.
- (c) A maximum of 500,000 Director Performance Rights and 200,000 Director Performance Options will be issued to Mr Woodham in the tranches set out at Section 5.8.
- (d) The Company pays Mr Woodham \$60,000 per annum (excluding statutory superannuation) for services provided to the Company as Non-Executive Director. Additionally, the Company has entered into a services agreement with Locksley Holdings Pty Ltd (an entity controlled by Mr Woodham) for exploration manager services, pursuant to which the Company is required to pay a fee of \$1,500 per day (excluding GST) that these services are provided.
- (e) No Equity Securities have been issued under the Plan since it was approved at the annual general meeting on 29 November 2024.
- (f) The Director Performance Securities will be issued on the terms and conditions set out in Schedule 10 (Director Performance Rights) and Schedule 11 (Director Performance Options).
- (g) A valuation of the Director Performance Securities is in Schedule 12 and is summarised below:

Number	Valuation
Director Performance Rights	
500,000	\$175,000
Director Performance Options	
200,000	\$38,800

- (h) The Board considers that performance securities with performance-based milestones, rather than Shares, are an appropriate form of incentive because they reward Mr Woodham for the achievement of specific development milestones and sustained growth in the value of the Company. Additionally, the issue of performance securities instead of cash is a prudent means of rewarding and incentivising Mr Woodham whilst conserving the Company's available cash reserves.
- (i) The Director Performance Securities will be issued to Mr Woodham (or his nominee/s) as soon as practicable following the Meeting and in any event not later than three years after the Meeting.

- (j) The Director Performance Securities will be issued for nil cash consideration and will be provided as an incentive component of Mr Woodham's remuneration package. The Director Performance Options will be exercisable at a price of \$0.36 each. Consequently, the Company will receive \$72,000 if all of the Director Performance Options are exercised.
- (k) A summary of the material terms of the Plan is in Schedule 9.
- (l) No loan will be provided in relation to the issue of the Director Performance Securities.
- (m) Details of any Securities issued under the Plan will be published in the annual report of the Company relating to a period in which they were issued, along with a statement that approval for the issue was obtained under Listing Rule 10.14.
- (n) Any additional persons covered by Listing Rule 10.14 who become entitled to participate in the Plan after the Resolution is approved and who were not named in the Notice will not participate until approval is obtained under Listing Rule 10.14.
- (o) A voting exclusion statement is included in the Notice.

25.4 Chapter 2E of the Corporations Act

In accordance with Chapter 2E of the Corporations Act, in order to give a financial benefit to a related party, the Company must:

- (a) obtain Shareholder approval in the manner set out in sections 217 to 227 of the Corporations Act; and
- (b) give the benefit within 15 months following such approval,

unless the giving of a financial benefit falls within an exception set out in section 210 to 216 of the Corporations Act.

The proposed issue of the Director Performance Securities constitutes giving a financial benefit to a related party of the Company. The Directors (other than Mr Woodham who has a personal interest in the outcome of this Resolution) consider that Shareholder approval pursuant to Chapter 2E of the Corporations Act is not required in respect of the issue of the Director Performance Securities, because the issue of the Director Performance Securities constitutes reasonable remuneration and therefore falls within the exception stipulated by section 211 of the Corporations Act.

As detailed in section 5.8, the Company is also proposing to issue up to 5,500,000 Performance Rights and 1,750,000 Performance Options under the Plan to various Proposed Directors and management personnel. The proposed issue of the Performance Securities to Proposed Directors constitutes giving a financial benefit to a related party of the Company. The Directors consider that Shareholder approval pursuant to Chapter 2E of the Corporations Act is not required in respect of the issue of these Performance Securities, because the recipients are not current Directors and consequently did not participate in the Board's deliberations on or resolution to issue the Performance Securities. Additionally, the Directors consider that the issue of these Performance Securities constitute reasonable remuneration and therefore falls within the exception stipulated by section 211 of the Corporations Act.

25.5 Additional information

Resolution 18 is an ordinary resolution.

The Board (with Mr Woodham abstaining due to having a material personal interest in the outcome of the Resolution) recommends that Shareholders vote in favour of Resolution 18.

Schedule 9 Summary of material terms of the Employee Securities Incentive Plan

The following is a summary of the material terms and conditions of the Employee Securities Incentive Plan (**Plan**):

1. **(Eligible Participant):** Eligible Participant means a person that has been determined by the Board to be eligible to participate in the Plan from time to time and is an “ESS participant” (as that term is defined in Division 1A) in relation to the Company or an associated entity of the Company. This relevantly includes, amongst others:
 - (a) an employee or director of the Company or an individual who provides services to the Company;
 - (b) an employee or director of an associated entity of the Company or an individual who provides services to such an associated entity;
 - (c) a prospective person to whom paragraphs (i) or (ii) apply;
 - (d) a person prescribed by the relevant regulations for such purposes; or
 - (e) certain related persons on behalf of the participants described in paragraphs (i) to (iv) (inclusive).
2. **(Maximum allocation)** The Company must not make an offer of Securities under the Plan in respect of which monetary consideration is payable (either upfront, or on exercise of convertible securities) where:

- (a) the total number of Plan Shares (as defined in paragraph 13 below) that may be issued or acquired upon exercise of the convertible securities offered; plus
- (b) the total number of Plan Shares issued or that may be issued as a result of offers made under the Plan at any time during the previous 3 year period,

would exceed 5% of the total number of Shares on issue at the date of the offer or such other limit as may be specified by the relevant regulations or the Company's Constitution from time to time.

The maximum number of equity securities proposed to be issued under the Plan for the purposes of Listing Rule 7.2, Exception 13 will be as approved by Shareholders from time to time (**ASX Limit**). This means that, subject to the following paragraph, the Company may issue up to the ASX Limit under the Plan without seeking Shareholder approval and without reducing its placement capacity under Listing Rule 7.1.

The Company will require prior Shareholder approval for the acquisition of equity securities under the Plan to Directors, their associates and any other person whose relationship with the Company or a Director or a Director's associate is such that, in ASX's opinion, the acquisition should be approved by Shareholders. The issue of Securities with Shareholder approval will not count towards the ASX Limit.

3. **(Purpose):** The purpose of the Plan is to:
 - (a) assist in the reward, retention and motivation of Eligible Participants;
 - (b) link the reward of Eligible Participants to Shareholder value creation; and
 - (c) align the interests of Eligible Participants with shareholders of the Group (being the Company and each of its Associated Bodies Corporate), by providing an opportunity

to Eligible Participants to receive an equity interest in the Company in the form of Securities.

4. **(Plan administration):** The Plan will be administered by the Board. The Board may exercise any power or discretion conferred on it by the Plan rules in its sole and absolute discretion, subject to compliance with applicable laws and the Listing Rules. The Board may delegate its powers and discretion.
5. **(Eligibility, invitation and application):** The Board may from time to time determine that an Eligible Participant may participate in the Plan and make an invitation to that Eligible Participant to apply for Securities on such terms and conditions as the Board decides. An invitation issued under the Plan will comply with the disclosure obligations pursuant to Division 1A.

On receipt of an invitation, an Eligible Participant may apply for the Securities the subject of the invitation by sending a completed application form to the Company. The Board may accept an application from an Eligible Participant in whole or in part. If an Eligible Participant is permitted in the invitation, the Eligible Participant may, by notice in writing to the Board, nominate a party in whose favour the Eligible Participant wishes to renounce the invitation.

A waiting period of at least 14 days will apply to acquisitions of Securities for monetary consideration as required by the provisions of Division 1A.

6. **(Grant of Securities):** The Company will, to the extent that it has accepted a duly completed application, grant the successful applicant (**Participant**) the relevant number of Securities, subject to the terms and conditions set out in the invitation, the Plan rules and any ancillary documentation required.
7. **(Terms of Convertible Securities):** Each 'Convertible Security' represents a right to acquire one or more Shares (for example, under an option or performance right), subject to the terms and conditions of the Plan.

Prior to a Convertible Security being exercised a Participant does not have any interest (legal, equitable or otherwise) in any Share the subject of the Convertible Security by virtue of holding the Convertible Security. A Participant may not sell, assign, transfer, grant a security interest over or otherwise deal with a Convertible Security that has been granted to them. A Participant must not enter into any arrangement for the purpose of hedging their economic exposure to a Convertible Security that has been granted to them.

8. **(Vesting of Convertible Securities):** Any vesting conditions applicable to the grant of Convertible Securities will be described in the invitation. If all the vesting conditions are satisfied and/or otherwise waived by the Board, a vesting notice will be sent to the Participant by the Company informing them that the relevant Convertible Securities have vested. Unless and until the vesting notice is issued by the Company, the Convertible Securities will not be considered to have vested. For the avoidance of doubt, if the vesting conditions relevant to a Convertible Security are not satisfied and/or otherwise waived by the Board, that Convertible Security will lapse.
9. **(Exercise of Convertible Securities and cashless exercise):** To exercise a Convertible Security, the Participant must deliver a signed notice of exercise and, subject to a cashless exercise of Convertible Securities (see below), pay the exercise price (if any) to or as directed by the Company, at any time prior to the earlier of any date specified in the vesting notice and the expiry date as set out in the invitation.

At the time of exercise of the Convertible Securities, and subject to Board approval, the Participant may elect not to be required to provide payment of the exercise price for the number of Convertible Securities specified in a notice of exercise, but that on exercise of those Convertible Securities the Company will transfer or issue to the Participant that number

of Shares equal in value to the positive difference between the Market Value of the Shares at the time of exercise and the exercise price that would otherwise be payable to exercise those Convertible Securities.

Market Value means, at any given date, the volume weighted average price per Share traded on the ASX over the 5 trading days immediately preceding that given date, unless otherwise specified in an invitation.

A Convertible Security may not be exercised unless and until that Convertible Security has vested in accordance with the Plan rules, or such earlier date as set out in the Plan rules.

10. **(Delivery of Shares on exercise of Convertible Securities):** As soon as practicable after the valid exercise of a Convertible Security by a Participant, the Company will issue or cause to be transferred to that Participant the number of Shares to which the Participant is entitled under the Plan rules and issue a substitute certificate for any remaining unexercised Convertible Securities held by that Participant.
11. **(Forfeiture of Convertible Securities):** Where a Participant who holds Convertible Securities ceases to be an Eligible Participant or becomes insolvent, all unvested Convertible Securities will automatically be forfeited by the Participant, unless the Board otherwise determines in its discretion to permit some or all of the Convertible Securities to vest.

Where the Board determines that a Participant has acted fraudulently or dishonestly, or wilfully breached his or her duties to the Group, the Board may in its discretion deem all unvested Convertible Securities held by that Participant to have been forfeited.

Unless the Board otherwise determines, or as otherwise set out in the Plan rules:

- (a) any Convertible Securities which have not yet vested will be forfeited immediately on the date that the Board determines (acting reasonably and in good faith) that any applicable vesting conditions have not been met or cannot be met by the relevant date; and
 - (b) any Convertible Securities which have not yet vested will be automatically forfeited on the expiry date specified in the invitation.
12. **(Change of control):** If a change of control event occurs in relation to the Company, or the Board determines that such an event is likely to occur, the Board may in its discretion determine the manner in which any or all of the Participant's Convertible Securities will be dealt with, including, without limitation, in a manner that allows the Participant to participate in and/or benefit from any transaction arising from or in connection with the change of control event.
13. **(Rights attaching to Plan Shares):** All Shares issued under the Plan, or issued or transferred to a Participant upon the valid exercise of a Convertible Security, (**Plan Shares**) will rank pari passu in all respects with the Shares of the same class. A Participant will be entitled to any dividends declared and distributed by the Company on the Plan Shares and may participate in any dividend reinvestment plan operated by the Company in respect of Plan Shares. A Participant may exercise any voting rights attaching to Plan Shares.
14. **(Disposal restrictions on Securities):** If the invitation provides that any Plan Shares or Convertible Securities are subject to any restrictions as to the disposal or other dealing by a Participant for a period, the Board may implement any procedure it deems appropriate to ensure the compliance by the Participant with this restriction.
15. **(Adjustment of Convertible Securities):** If there is a reorganisation of the issued share capital of the Company (including any subdivision, consolidation, reduction, return or cancellation of such issued capital of the Company), the rights of each Participant holding

Convertible Securities will be changed to the extent necessary to comply with the Listing Rules applicable to a reorganisation of capital at the time of the reorganisation.

If Shares are issued by the Company by way of bonus issue (other than an issue in lieu of dividends or by way of dividend reinvestment), the holder of Convertible Securities is entitled, upon exercise of the Convertible Securities, to receive an allotment of as many additional Shares as would have been issued to the holder if the holder held Shares equal in number to the Shares in respect of which the Convertible Securities are exercised.

Unless otherwise determined by the Board, a holder of Convertible Securities does not have the right to participate in a pro rata issue of Shares made by the Company or sell renounceable rights.

16. **(Participation in new issues):** There are no participation rights or entitlements inherent in the Convertible Securities and holders are not entitled to participate in any new issue of Shares of the Company during the currency of the Convertible Securities without exercising the Convertible Securities.
17. **(Amendment of Plan):** Subject to the following paragraph, the Board may at any time amend any provisions of the Plan rules, including (without limitation) the terms and conditions upon which any Securities have been granted under the Plan and determine that any amendments to the Plan rules be given retrospective effect, immediate effect or future effect.

No amendment to any provision of the Plan rules may be made if the amendment materially reduces the rights of any Participant as they existed before the date of the amendment, other than an amendment introduced primarily for the purpose of complying with legislation or to correct manifest error or mistake, amongst other things, or is agreed to in writing by all Participants.

18. **(Plan duration):** The Plan continues in operation until the Board decides to end it. The Board may from time to time suspend the operation of the Plan for a fixed period or indefinitely, and may end any suspension. If the Plan is terminated or suspended for any reason, that termination or suspension must not prejudice the accrued rights of the Participants.

If a Participant and the Company (acting by the Board) agree in writing that some or all of the Securities granted to that Participant are to be cancelled on a specified date or on the occurrence of a particular event, then those Securities may be cancelled in the manner agreed between the Company and the Participant.

Schedule 12 Valuation of Director Performance Securities

Valuation of Director Performance Rights

Based on the assumptions set out below, the Director Performance Rights were ascribed the following value:

Assumptions:	
Valuation date	14 April 2025
Public Offer price of Shares	\$0.35
- Stephen Woodham	\$175,000
Total Value of Director Performance Rights	\$175,000

Note: The valuation noted above is not necessarily the market price that the Director Performance Rights could be traded at and is not automatically the market price for taxation purposes. The value of the Director Performance Rights have been recognised on the basis that all performance metrics will be achieved and have not been discounted for the likelihood of achievement of those performance metrics.

Valuation of Director Performance Options

Using the Black & Scholes option pricing model and based on the assumptions set out below, the Director Performance Options were ascribed the following value:

Assumptions:	
Valuation date	14 April 2025
Market price of Shares ¹	\$0.35
Exercise price	\$0.36
Expiry date (length of time from issue)	Five years from the date of Issue
Risk free interest rate ²	3.552%
Volatility ³	63.30%
Annual dividend yield	0.00%
Days in year	365
Indicative value per Director Performance Option	\$0.194
Total value of Director Performance Options	\$38,800
Stephen Woodham	\$38,800

Notes:

1. Being the Offer Price of Public Offer Shares.
2. Based on the 5-year Reserve Bank treasury bond rate as at 9 April 2025.
3. Volatility based on historical volatility of the Company.

Additional note: The valuation noted above is not necessarily the market prices that the Director Performance Options could be traded at and they are not automatically the market prices for taxation. The Black & Scholes option pricing model assumes that the options the subject of the valuation can be sold on a secondary market. The terms and conditions of the Director Performance Options state that the Options shall not be listed for official quotation on ASX. Any change in the variables applied in the Black & Scholes calculation between the date of the valuation and the date of the Director Performance Options are granted would have an impact on their value.
