

ASX ANNOUNCEMENT

3 July 2025

NRW awarded Brockman Contract by Rio Tinto

NRW Holdings Limited (ASX:NWH) is pleased to advise that NRW Civil & Mining has been awarded a contract by Rio Tinto for work at its Brockman Syncline 1 mine development, located within the Brockman Mine Hub in the Pilbara region of Western Australia.

Under the contract NRW will be responsible for the construction of earthworks, roadworks and drainage associated with the primary crusher, overland conveyor and non-process infrastructure, together with construction of haul roads, access roads and concrete structures.

The scope includes drill and blast along with supply and construction of the mechanically stabilised earth ROM wall, two precast concrete overpass tunnels and in-situ concrete foundations for the primary crusher.

The contract is scheduled to commence immediately with a peak workforce of over 300 people and is valued at circa \$167 million.

The project is in close proximity to other NRW construction sites, including the Brockman 4 to Brockman 2 Haul Road contract and the recently completed Western Turner Northern Access Road.

NRW is pleased to be awarded this project with one of the world's leading mining companies. This is another significant project that NRW will undertake for Rio Tinto and continues to build on the longstanding relationship of delivering successful projects together.

This ASX Announcement has been approved in accordance with the Company's published continuous disclosure policy and authorised for release by the Chief Executive Officer of NRW Holdings Limited.

About NRW Holdings Limited:

NRW is a leading provider of diversified contract services to the resources and infrastructure sectors in Australia. With extensive operations in all Australian States except Tasmania and offices in Canada and the United States, NRW's geographical diversification is complemented by its ability to deliver a wide range of services. These encompass civil construction including bulk earthworks, road and rail construction and concrete installation, together with contract mining and drill and blast services through NRW Civil & Mining, Golding Contractors and Action Drill & Blast. NRW also offers a comprehensive OEM capability through Action Mining Services providing refurbishment and rebuild services for earthmoving equipment and machinery. NRW's MET Division comprising RCR Mining Technologies, DIAB Engineering and Primero offers tailored mine to market solution, specialist maintenance (shutdown services and onsite maintenance), Non- Process Infrastructure, innovative materials handling capability and complete turnkey design, construct & operation of minerals processing and energy projects. NRW has a workforce of around 8,000 people supporting more than one hundred projects around Australia for clients across the resources, infrastructure, industrial engineering, maintenance and urban subdivision sectors.
