General

This Prospectus is dated 16 July 2025. A copy of this Prospectus was lodged with ASIC on that date. Neither ASIC nor ASX takes any responsibility for the contents of this Prospectus or the merits of any investment under this Prospectus. No New Shares or New Options will be allotted or transferred on the basis of this Prospectus after the expiry date. This Prospectus expires on 16 August 2026.

No person may give any information or make a representation about the Offer, which is not in this Prospectus. Information or representations not in this Prospectus must not be relied on as authorised by the Company, or any other person, in connection with the Offer. This Prospectus provides information for investors to decide if they wish to invest in Imugene. Read this document in its entirety. Examine the assumptions underlying the risk factors that could affect the financial performance of Imugene. Consider these factors carefully in light of your personal financial circumstances. Seek professional advice from your accountant, stockbroker, lawyer or other professional adviser before deciding whether to invest. The Offer does not take into account the investment objectives, financial situation or needs of particular investors.

Transaction Specific Prospectus

This Prospectus is a transaction specific prospectus for an offer of continuously quoted securities and options to acquire continuously quoted securities (as defined in the Corporations Act) and has been prepared in accordance with section 713 of the Corporations Act. It does not contain the same level of disclosure as an initial public offering prospectus. In making representations in this Prospectus regard has been had to the fact that the Company is a disclosing entity for the purposes of the Corporations Act and certain matters may reasonably be expected to be known to investors and professional advisers that potential investors may consult.

Risk Factors

Potential investors should be aware that subscribing for New Shares or exercising the New Options involves a number of risks. The key risk factors of which investors should be aware of are set out in Section 6. These risks together with other general risks applicable to all investments in listed securities not specifically referred to, may affect the value of the New Shares and New Options in the future. Accordingly, an investment in the Company should be considered highly speculative. Potential investors should consider consulting their professional advisers before deciding whether to apply for New Shares pursuant to this Prospectus.

Australian and New Zealand residents only

The New Shares and New Options to be issued under the SPP Offer under this Prospectus are only available to Australian and New Zealand residents having a registered address in those jurisdictions. The distribution of this Prospectus in respect of the SPP Offer in jurisdictions outside Australia or New Zealand may be restricted by law. Seek advice on and observe any restrictions. This Prospectus is not an offer in any place where, or to any person to whom, it would not be lawful to make the offer.

Foreign selling restrictions

No action has been taken to register or qualify the New Shares, New Options or the Offers in any jurisdiction outside Australia, or otherwise to permit a public offering of the New Shares or New Options outside Australia.

The Prospectus does not constitute an offer or invitation in any jurisdiction where, or to any person to whom, the offer or invitation would be unlawful. The distribution of this Prospectus in jurisdictions outside Australia may be restricted by law and persons who come into possession of this Prospectus should observe any of those restrictions, including those set forth in Section 4.12 (being, New Zealand, Hong Kong and Singapore). Any failure to comply with the restrictions may constitute a violation of applicable securities laws.

In particular, this Prospectus does not constitute an offer to sell, or a solicitation of an offer to buy, any securities in the United States. The New Shares and the New Options (including the underlying ordinary shares) have not been, and will not be registered under the US Securities Act of 1933 and may not be offered or sold in the United States except in transactions exempt from, or not subject to, the registration requirements under the US Securities Act and any applicable US state securities laws.

Share Purchase Plan

In certain circumstances, a listed company may undertake a share purchase plan in accordance with ASIC Corporations (Share and Interest Purchase Plans) Instrument 2019/547 (Class Order). This Class Order allows a share purchase plan to be conducted without the use of a prospectus once in any consecutive 12-month period. The circumstances do not apply to the New Shares because of the terms of the offer, including the amount of new Shares that may be applied for. The Company is unable to rely on the Class Order for the New Options because the New Options to be issued under the SPP are a new class of securities not currently quoted on the ASX. Accordingly, the Company is undertaking the SPP under this Prospectus.

4 Details and effect of the Offer

4.1 The Offers

This Prospectus contains the following separate offers:

(a) Placement Offer

This Prospectus invites the Placement Subscribers to apply for a total of up to 68,236,857 New Shares, at an issue price of \$0.33 per share.

All Placement Subscribers will be sent a copy of this Prospectus, together with an Application Form. Only the Placement Subscribers can accept the Placement Offer.

Approximately \$22.5 million will be raised from the issue of the New Shares under the Placement Offer, for which the funds will be used in accordance with section 2.3.

(b) SPP Offer

By this Prospectus, the Company invites Eligible Shareholders to participate in the SPP.

Under the SPP, the Company offers to Eligible Shareholders a total of 45.45m New Shares at an issue price of \$0.33, representing:

- (i) a discount of 22.4% to the last close of \$0.4250 on 11 July 2025; and
- (ii) a discount of 19.6% to the five-day VWAP of \$0.4107 up to and including 11 July 2025.,

to raise approximately \$15 million (before costs).

The New Shares to be issued under the SPP will be subject to shareholder approval. An EGM is proposed to be held at the end of August 2025.

The SPP is subject to the terms and conditions set out in this Prospectus. Notwithstanding the target raise amount, the Directors reserve their right to increase or decrease the amount to be raised under the SPP, including under Oversubscriptions as detailed below.

Each Eligible Shareholder is entitled to apply for their Entitlement, regardless of the number of Shares held by that Eligible Shareholder. The SPP Offer also allows Eligible

Shareholders to apply for Oversubscription up to an aggregate cap of a further \$15 million.

All of the New Shares offered under this Prospectus will rank equally with the Shares on issue at the date of this Prospectus. Please refer to Sections 8.2 and 9.3 for further information regarding the rights and liabilities attaching to the Shares.

Eligible Shareholders should be aware that an investment in Imugene involves risks. The key risks identified by Imugene are set out in section 7 of this Prospectus.

Eligible Shareholders may apply for New Shares under the SPP, but are not required to do so.

Shareholders will have their interest in Imugene diluted because of the issue of Shares under the Placement. In addition, Eligible Shareholders who do not participate in the SPP will have their percentage shareholding in Imugene further diluted.

Eligible Shareholders

Shareholders who were registered in the Company's register of Shareholders with an Australian or New Zealand address at the Record Date (i.e. 7.00pm (AEST) on Tuesday, 15 July 2025) will be Eligible Shareholders and may participate in the SPP, except in respect of any Shares such registered Shareholder holds on behalf of another person who resides outside of Australia or New Zealand.

Due to foreign securities laws, it is not practical for Shareholders resident in countries other than Australia and New Zealand to be offered the opportunity to participate in the SPP.

Joint holders

Shareholders who are joint holders of Shares are taken to be a single registered Shareholder for the purposes of the SPP and the certification in the Application Form by any joint holder is taken to have been given by all joint holders.

Custodians

Custodians should request a Custodian Certificate when making an Application on behalf of Participating Beneficiaries. To request a Custodian Certificate please contact Automic Registry Service Limited on 1300 288 664 (within Australia) or +61 2 9698 5414 (outside Australia).

For further information on how to apply, contact the Share Registry via the SPP Information Line on 1300 288 664 (within Australia) or +61 2 9698 5414 (outside Australia) between 8:30am and 7:00pm (Sydney Time), Monday to Friday during the Offer Period.

Allocation and scale back

As noted above, while the SPP aims to raise up to \$15 million, the Company may accept more or decide to scale back applications under the SPP. The SPP Offer allows Eligible Shareholders to apply for Oversubscription up to an aggregate cap of a further \$15 million.

Any shares issued under the Oversubscription will be allocated at the Company's discretion, however, priority will be given to applications received from Eligible

Shareholders to take up their Entitlement. Shares will only be issued under the Oversubscription if the SPP Offer is not fully subscribed.

Any subscriptions will be scaled back in accordance with the Company's discretion. The Company cannot guarantee that all Eligible Shareholders to the SPP will receive the number of New Securities applied for. If an Eligible Shareholder does not receive any or all of the New Securities applied for, the excess Application Money will be returned to the Eligible Shareholder without interest.

(c) **Attaching Options Offer**

For every four New Shares issued under this Prospectus, Placement Subscribers and Eligible Shareholders will receive three Attaching Options, with an exercise price of \$0.43 per option and expiry date of 30 March 2026.

The issue of Attaching Options is subject to Shareholder Approval at the EGM.

The Company intends to seek quotation of the Attaching Options on the ASX.

No funds will be raised from the issue of the Attaching Options as the Attaching Options are attaching to the Shares issued/to be issued under the Placement Offer and SPP Offer. The Attaching Options offered under this Prospectus will be issued on the terms and conditions, as set out in Annexure A.

(d) **Piggyback Options Offer**

For every Attaching Option exercised by Placement Subscribers and Eligible Shareholders before expiry on 30 March 2026, Placement Subscribers and Eligible Shareholders will receive one Piggyback Option, with an exercise price of \$0.86 per option and expiry date of 30 June 2028.

The issue of Piggyback Options is subject to Shareholder Approval at the EGM. Only Placement Subscribers or Eligible Shareholders who exercise some or all of their Attaching Options prior to 30 March 2026 are eligible to receive the Piggyback Options.

The Company intends to seek quotation of the Piggyback Options on the ASX.

No funds will be raised from the issue of the Piggyback Options as one Piggyback Option is issued for each Attaching Option exercised. The Piggyback Options offered under this Prospectus will be issued on the terms and conditions, as set out in Annexure B.

The Offers are only available to those who are personally invited to accept the Offers. Accordingly, Application Forms will only be provided by the Company to these parties.

All Shares issued on exercise of the New Options will rank equally with the Shares on issue at the date of this Prospectus. Refer to Section 8.2 for further details regarding the rights and liabilities attaching to Shares.

4.2 Purpose of this Prospectus

This Prospectus has been issued to:

- (a) facilitate secondary trading of the New Shares to be issued under the Offers. A prospectus is required under the Corporations Act to enable persons who are issued those New Shares to on-sell those New Shares within 12 months of their issue. The Company will not issue the New Shares with the purpose of the persons to whom they

are issued selling or transferring those New Shares, or granting, issuing or transferring interests in those New Shares, within 12 months of the issue, but this Prospectus provides them the ability to do so should they wish; and

- (b) facilitate secondary trading of the Shares to be issued upon exercise of the New Options to be issued under the Offers. Issuing the New Options under this Prospectus will enable persons who are issued the New Options to on-sell the Shares issued on exercise of the New Options pursuant to *ASIC Corporations (Sale Offers That Do Not Need Disclosure) Instrument 2016/80*.

Accordingly, the purpose of this Prospectus is to:

- (a) make the Offers;
- (b) ensure that the on-sale of New Shares does not breach section 707(3) of the Corporations Act; and
- (c) ensure that the on-sale of the underlying Shares to be issued upon the exercise of the New Options is in accordance with *ASIC Corporations (Sale Offers That Do Not Need Disclosure) Instrument 2016/8*.

4.3 Extraordinary General Meeting

The EGM is anticipated to be held in August 2025 to ask Shareholders to approve the issuance of the:

- (a) New Shares under the SPP (including any Oversubscription);
- (b) Attaching Options; and
- (c) Piggyback Options.

At the EGM, Shareholders will also be asked to ratify the issuance of the New Shares under the Placement.

4.4 Timetable

The indicative timetable for the Offer is set out in the Timetable.

The Directors reserve the right to extend the Offer Period in relation to one or more of the Offers, or to close an Offer prior to its Closing Date, subject to or for the purposes of satisfying the requirements of the Corporations Act and the Listing Rules.

The Directors may withdraw this Prospectus or an Offer at any time prior to the issue of New Securities pursuant to that Offer.

4.5 Minimum subscriptions

The SPP has a minimum subscription of \$1,000 per Eligible Shareholder. There is no minimum subscription under the Placement Offer.

4.6 ASX quotation

Application for Official Quotation of the New Shares offered pursuant to this Prospectus will be made in accordance with the Timetable. If ASX does not grant Official Quotation of the New Shares offered pursuant to this Prospectus before the expiration of three months after the date

of issue of the Prospectus, (or such period as varied by ASIC), the Company will not issue any and will repay all Application Monies for the Shares within the time prescribed under the Corporations Act, without interest.

The Company will also seek Official Quotation of the New Options offered pursuant to this Prospectus. If ASX does not grant Official Quotation of the New Options, then they shall not be quoted.

The fact that ASX may grant Official Quotation to the New Shares and New Options is not to be taken in any way as an indication of the merits of the Company or the New Shares or New Options now offered.

4.7 Effect of Equity Raising on control of the Company

The issue of the New Shares and New Options under this Prospectus is not expected to have any material effect on the control of the Company.

4.8 Underwriting

The Offers are not underwritten.

4.9 Financial position

The effect of the Equity Raising on the financial position of the Company is set out in section 6.

4.10 Taxation considerations

The taxation consequences of an investment in the Company depend upon your particular circumstances. You should make your own enquiries about the taxation consequences of an investment in the Company. If you are in doubt about the course you should follow, you should consult your accountant, stockbroker, solicitor or other professional adviser.

4.11 Important Information for New Zealand investors

These Offers to New Zealand investors are regulated offers made under Australian and New Zealand law. In Australia, this is Chapter 8 of the Corporations Act and regulations made under that Act. In New Zealand, this is subpart 6 of Part 9 of the Financial Markets Conduct Act 2013 and Part 9 of the Financial Markets Conduct Regulations 2014.

These Offers and the content of the offer document are principally governed by Australian rather than New Zealand law. In the main, the Corporations Act and the regulations made under the Corporation Act set out how the offer must be made.

There are differences in how financial products are regulated under Australian law. For example, the disclosure of fees for managed investment schemes is different under the Australian regime.

The rights, remedies, and compensation arrangements available to New Zealand investors in Australian financial products may differ from the rights, remedies, and compensation arrangements for New Zealand financial products.

Both the Australian and New Zealand financial markets regulators have enforcement responsibilities in relation to this offer. If you need to make a complaint about this offer, please contact the Financial Markets Authority, New Zealand (<http://www.fma.govt.nz>). The Australian and New Zealand regulators will work together to settle your complaint.

The taxation treatment of Australian financial products is not the same as for New Zealand financial products.

If you are uncertain about whether this investment is appropriate for you, you should seek the advice of an appropriately qualified financial adviser.

These Offers may involve a currency exchange risk. The currency for the financial products is not New Zealand dollars. The value of the financial products will go up or down according to changes in the exchange rate between that currency and New Zealand dollars. These changes may be significant.

If you expect the financial products to pay any amounts in a currency that is not New Zealand dollars, you may incur significant fees in having the funds credited to a bank account in New Zealand in New Zealand dollars.

If the financial products are able to be traded on a financial product market and you wish to trade the financial products through that market, you will have to make arrangements for a participant in that market to sell the financial products on your behalf. If the financial product market does not operate in New Zealand, the way in which the market operates, the regulation of participants in that market, and the information available to you about the financial products and trading may differ from financial product markets that operate in New Zealand.

4.12 Foreign selling restrictions

No action has been taken to register or qualify the New Shares, New Options, or the shares underlying the New Options in any jurisdiction outside Australia, or otherwise to permit a public offering of the New Shares or New Options outside Australia or New Zealand.

The Prospectus does not constitute an offer or invitation in any jurisdiction where, or to any person to whom, the Offers would be unlawful. The distribution of this Prospectus in jurisdictions outside Australia may be restricted by law and persons who come into possession of this Prospectus should observe any of those restrictions. Any failure to comply with the restrictions may constitute a violation of applicable securities laws.

Placement

This Prospectus may be distributed outside Australia and New Zealand only to institutional and professional investors who participated in the Placement and only with respect to the Placement Offer and Options Offer.

Hong Kong

WARNING: This Prospectus has not been, and will not be, registered as a prospectus under the Companies (Winding Up and Miscellaneous Provisions) Ordinance (Cap. 32) of Hong Kong, nor has it been authorised by the Securities and Futures Commission in Hong Kong pursuant to the Securities and Futures Ordinance (Cap. 571) of the Laws of Hong Kong (the "SFO"). Accordingly, this Prospectus may not be distributed, and the New Shares and New Options may not be offered or sold, in Hong Kong other than to "professional investors" (as defined in the SFO and any rules made under that ordinance).

No advertisement, invitation or document relating to the New Shares and New Options has been or will be issued, or has been or will be in the possession of any person for the purpose of issue, in Hong Kong or elsewhere that is directed at, or the contents of which are likely to be accessed or read by, the public of Hong Kong (except if permitted to do so under the securities laws of Hong Kong) other than with respect to such securities that are or are intended to be disposed of only to persons outside Hong Kong or only to professional investors. No person allotted New

Shares or New Options may sell, or offer to sell, such securities in circumstances that amount to an offer to the public in Hong Kong within six months following the date of issue of such securities.

The contents of this Prospectus have not been reviewed by any Hong Kong regulatory authority. You are advised to exercise caution in relation to the offer. If you are in doubt about any contents of this Prospectus, you should obtain independent professional advice.

Singapore

This Prospectus and any other materials relating to the New Shares and the New Options have not been, and will not be, lodged or registered as a prospectus in Singapore with the Monetary Authority of Singapore. Accordingly, this Prospectus and any other document or materials in connection with the offer or sale, or invitation for subscription or purchase, of New Shares and the New Options, may not be issued, circulated or distributed, nor may the such securities be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore except pursuant to and in accordance with exemptions in Subdivision (4) Division 1, Part 13 of the Securities and Futures Act 2001 of Singapore (the "SFA") or another exemption under the SFA.

This Prospectus has been given to you on the basis that you are an "institutional investor" or an "accredited investor" (as such terms are defined in the SFA). If you are not such an investor, please return this Prospectus immediately. You may not forward or circulate this Prospectus to any other person in Singapore.

Any offer is not made to you with a view to the New Shares or the New Options being subsequently offered for sale to any other party in Singapore. On-sale restrictions in Singapore may be applicable to investors who acquire such securities. As such, investors are advised to acquaint themselves with the SFA provisions relating to resale restrictions in Singapore and comply accordingly.

SPP

With respect to the SPP, this Prospectus may only be distributed to shareholders who are residents in Australia and New Zealand.

4.13 Withdrawal

The Company reserves the right to withdraw the Offers, at any time before the allotment of New Shares and New Options. If an Offer does not proceed, the Application Money for that Offer is refunded. No interest is paid on any Application Money refunded because of the withdrawal of an Offer.

- (i) return the Application Form and/or Application Monies received and not issue any New Securities to the Applicant; or
- (ii) issue to the Applicant the maximum number of New Securities represented by the Application Monies received and refund any excess amount to that Applicant by cheque or electronic funds transfer as soon as possible, without interest.

Eligible Shareholders that have not received their Prospectus and personalised Application Form, or require a replacement via post or email, should contact the Share Registry using the contact details set out in the Corporate Directory Section of this Prospectus above.

The Company reserves the right to accept a lesser amount to the total number of New Securities applied for by an Eligible Shareholder on the Application Form (including if the SPP closes oversubscribed), at the Company's complete discretion.

(b) Payment using BPAY®

Eligible Shareholders can make a payment using BPAY® if they have an account with an Australian Financial institution that supports BPAY® transactions. Eligible Shareholders who wish to submit an Application and make payment using BPAY® under the SPP should follow the

instructions on the Application Form. Eligible Shareholders who wish to submit under the SPP should follow the instructions on the Application.

Eligible Shareholders must ensure to use the specific 'Biller Code' and 'Customer Reference Number' on their individual Application Form or as outlined at the final confirmation page of the online application process. An Application may not be accepted if these details are incorrect. The 'Customer Reference Number' is used to identify each Eligible Shareholder's holding.

Eligible Shareholders with more than one holding of Shares may receive multiple 'Customer Reference Numbers'. Such Eligible Shareholders can apply for Oversubscription, to be allocated by the Company in accordance with section 4.1(b).

Payments must be made in Australian dollars for an amount equal to the number of New Shares for which the Eligible Shareholder wishes to apply, multiplied by the Offer Price.

It is an Eligible Shareholder's responsibility to ensure that the Application Monies are received by the Company before the Closing Date.

Where the amount applied for results in a fraction of a New Option or New Shares, the number of New Options or New Shares issued will be rounded down to the nearest whole New Option or New Shares.

For payment by Electronic Funds Transfer (**EFT**) for overseas Eligible Shareholders, please follow the instructions on the Application Form. You can only make a payment via EFT if you are the holder of an account that supports EFT transactions to an Australian bank account. Please note that should you choose to pay by EFT:

- (i) you do not need to submit the Application Form but are taken to have made the declarations on that Application Form; and
- (ii) if you have multiple holdings you will have multiple EFT unique reference numbers. To ensure that you receive your Share Application in respect of each holding, you must use the unique reference number shown on each personalised Application Form when paying for any Shares that you wish to apply for in respect of that holding. Payments in excess of the amount payable for one holding will not be treated as payment for another holding, and the excess will be refunded to the Applicant without interest.

An Application Form must be completed in accordance with the instructions provided with that Application Form.

An original, completed and lodged Application Form constitutes a binding and irrevocable offer to subscribe for the number of New Securities specified in that Application Form. An Application Form does not need to be signed to be valid. Once an Application has been made, it cannot be revoked.

If an Application Form is not completed correctly, it may be treated by the Company as valid at its discretion. Imugene is not required to determine whether or not any registered holder is acting as a nominee or the identity or residence of any beneficial owners of Shares (e.g. for the purposes of determining whether any such persons may participate in the SPP).

Where any holder is acting as a nominee for a foreign person, that holder, in dealing with its beneficiary, will need to assess whether indirect participation by the beneficiary in the SPP is compatible with applicable foreign laws. Any person that is in the United States with a holding through a nominee may not participate in the SPP and the nominee must not send any materials into the United States or to any person it knows to be in the United States or elsewhere outside Australia and New Zealand.

Introduction

This section identifies the major risks the Board believes are associated with an investment in Imugene.

The Imugene business is subject to risk factors, both specific to its business activities, and risks of a general nature. Individually, or in combination, these might affect the future operating performance of Imugene and the value of an investment in the Company. There can be no guarantee that Imugene will achieve its stated objectives or that any forward-looking statements will eventuate. An investment in the Company should be considered in light of relevant risks, both general and specific. Each of the risks set out below could, if it eventuates, have a material adverse impact on Imugene's operating performance and profits, and the market price of the Shares.

Before deciding to invest in the Company, potential investors should:

- (a) read the entire Prospectus;
- (b) consider the assumptions underlying the risk factors that could affect the financial performance of Imugene;
- (c) review these factors in light of their personal circumstances; and
- (d) seek professional advice from their accountant, stockbroker, lawyer or other professional adviser before deciding whether to invest.

7.2 Specific investment risks

Products in development and not approved for commercial sale

Imugene's ability to achieve profitability is dependent on a number of factors, including its ability to complete successful clinical trials, obtain regulatory approval for its products and successfully commercialise those products. There is no guarantee that Imugene's products will be commercially successful.

Imugene does not currently generate revenue from product sales and any such revenue is not anticipated in the short to medium term.

There are many reasons why initially promising products fail to be successfully commercialised. For example, clinical trials may be suspended for safety or efficacy reasons (see further below), following development it may prove difficult or impossible to manufacture the products on a large scale, or, during the period of development, competitors (including those with greater resources) may emerge with competing or alternative treatments.

Clinical trial risk

The Company may be unable to secure necessary approvals from regulatory agencies and institutional bodies (clinics and hospitals) to conduct future clinical trials. There is also no assurance that products developed using the Company's technology will prove to be safe and efficacious in clinical trials, or that the regulatory approval to manufacture and market its products will be received. Clinical trials might also potentially expose the Company to product

liability claims in the event its products in development have unexpected effects on clinical subjects.

Clinical trials undertaken by the Company have many associated risks which may impact the Company's profitability and future productions and commercial potential. They may prove unsuccessful or non efficacious, impracticable or costly. The clinical trials could be terminated which will likely have a significant adverse affect on the Company, the value of its Securities and the future commercial development of its portfolio and platform technology, or any other technology in the pipeline.

Regulatory and reimbursement approvals

The research, development, manufacture, marketing and sale of products using the Company's technology are subject to varying degrees of regulation by a number of government authorities in Australia and overseas.

Products developed using the Company's technology must undergo a comprehensive and highly regulated development and review process before receiving approval for marketing. The process includes the provision of clinical data relating to the quality, safety and efficacy of the products for their proposed use.

Products may also be submitted for reimbursement approval. The availability and timing of that reimbursement approval may have an impact upon the uptake and profitability of products in some jurisdictions.

Furthermore, any of the products utilising the Company's technology may be shown to be unsafe, non-efficacious, difficult or impossible to manufacture on a large scale, uneconomical to market, compete with superior products marketed by third parties or not be as attractive as alternative treatments.

Commercialisation of products and potential market failure

The Company has not yet commercialised its technology and as yet has no material revenues.

The Company is also dependent on commercially attractive markets remaining available to it during the commercialisation phase and there is a risk that, once developed and ready for sale, commercial sales, to fund sufficient revenues for continued operations and growth, may not be achieved.

Dependence upon key personnel

Imugene depends on the talent and experience of its personnel as its primary asset. There may be a negative impact on Imugene if any of its key personnel leave. It may be difficult to replace them, or to do so in a timely manner or at comparable expense. Additionally, any key personnel of the Company who leave to work for a competitor may adversely impact the Company. Increases in recruitment, wages and contractor costs may adversely impact upon the financial performance of the Company.

Arrangements with third-party collaborators

Imugene may pursue collaborative arrangements with pharmaceutical and life science companies, academic institutions or other partners to complete the development and commercialisation of its products. These collaborators may be asked to assist with funding or performing clinical trials, manufacturing, regulatory approvals or product marketing. There is no assurance that Imugene will attract and retain appropriate strategic partners or that any such collaborators will perform and meet commercialisation goals. If Imugene is unable to find a

partner, it would be required to develop and commercialise potential products at its own expense. This may place significant demands on the Company's internal resources and potentially delay the commercialisation of its products.

Risk of delay and continuity of operations

Imugene may experience delay in achieving a number of critical milestones, including securing commercial partners, completion of clinical trials, obtaining regulatory approvals, manufacturing, product launch and sales. Any material delays may impact adversely upon the Company, including the timing of any revenues under milestone or sales payments.

Imugene may also experience business continuity problems arising from extreme events. As with most businesses, Imugene is reliant on IT systems in its day-to-day operations. An inability to operate such systems would impact the business. This might result, for example, from a computer virus or other cyber attack or from a physical event at its offices.

Competition

The biotechnology and pharmaceutical industries are intensely competitive and subject to rapid and significant technological change. A number of companies, both in Australia and abroad, may be pursuing the development of products that target the same markets that Imugene is targeting.

The Company's products may compete with existing alternative treatments that are already available to customers. In addition, a number of companies, both in Australia and abroad, may be pursuing the development of products that target the same conditions that the Company is targeting. Some of these companies may have, or develop, technologies superior to the Company's own technology. The Company may face competition from parties who have substantially greater resources than the Company.

Requirement to raise additional funds

The Company may be required to raise additional equity or debt capital in the future. There is no assurance that it will be able to raise that capital when it is required or, even if available, the terms may be unsatisfactory. If the Company is unsuccessful in obtaining funds when they are required, the Company may need to delay or scale down its operations.

Growth

There is a risk that the Company may be unable to manage its future growth successfully. The ability to hire and retain skilled personnel as outlined above may be a significant obstacle to growth.

Intellectual property

The Company's ability to leverage its innovation and expertise depends upon its ability to protect its intellectual property and any improvements to it. The intellectual property may not be capable of being legally protected, it may be the subject of unauthorised disclosure or be unlawfully infringed, or the Company may incur substantial costs in asserting or defending its intellectual property rights.

7.3 General investment risks

Investment risks

The price of the Shares might rise or fall and they might trade at prices below or above the Offer Price. There can also be no assurance that an active trading market will exist for the Shares.

Factors affecting the price at which Imugene Shares are traded on ASX could include domestic and international economic conditions. In addition, the prices of a listed entity's securities are affected by factors that might be unrelated to its operating performance, such as general market sentiment.

Quotation of New Options

Depending on the level of participation in the Offer, there is a risk that required conditions for the quotation of the New Options may not be satisfied. In which case, the New Options will be issued but will remain unquoted.

Macro economic risks

Imugene's operating and financial performance is influenced by a variety of general economic and business conditions including the level of inflation, interest rates and government fiscal, monetary and regulatory policies. Prolonged deterioration in general economic conditions, including an increase in interest rates, could be expected to have a corresponding adverse impact on the Company's operating and financial performance.

Taxation risks

Changes to the rate of taxes imposed on Imugene (including in overseas jurisdictions in which Imugene operates now or in the future) or tax legislation generally may affect Imugene and its Shareholders. In addition, an interpretation of Australian tax laws by the Australian Taxation Office that differs to Imugene's interpretation may lead to an increase in Imugene's tax liabilities and a reduction in Shareholder returns.

Personal tax liabilities are the responsibility of each individual investor. Imugene is not responsible either for tax or tax penalties incurred by investors.

Accounting standards

Australian accounting standards are set by the Australian Accounting Standards Board (**AASB**) and are outside the Directors' and Imugene's control. Changes to accounting standards issued by AASB could materially adversely affect the financial performance and position reported in Imugene's financial statements.

Litigation

There is a risk that the Company may in future be the subject of or required to commence litigation. There is, however, no litigation, mediation, conciliation or administrative proceeding taking place, pending or threatened against the Company.

7.4 Cautionary statement

Statements in this Prospectus may be forward looking statements.

Forward looking statements can be identified by the use of forward-looking terminology such as, but not limited to, 'may', 'will', 'expect', 'anticipate', 'estimate', 'would be', 'believe', or 'continue'

or the negative or other variations of comparable terminology. These statements are subject to risks and uncertainties that could cause actual results to differ materially from those projected. The Directors' expectations, beliefs and projections are expressed in good faith and are believed to have a reasonable basis. They are based on, among other sources, the examination of historical operating trends, data in the Company's records and other data available from third parties. There can be no assurance, however, that the Directors' expectations, beliefs or projections will give the results projected in the forward-looking statements. Investors should not place undue reliance on these forward-looking statements.

Additional factors that could cause actual results to differ materially from those indicated in the forward-looking statements are discussed earlier in this section.

8 Material agreements

8.1 Key documents

The Board considers that certain agreements relating to Imugene are significant to the Offer, the operations of Imugene or may be relevant to investors. A description of material agreements or arrangements, together with a summary of the more important details of each of these agreements is set out below.

8.2 Constitution

The following is a summary of the major provisions of the Company's constitution:

Shares

The Directors are entitled to issue and cancel Shares in the capital of Imugene, grant Options over unissued Shares and settle the manner in which fractions of a Share are to be dealt with. The Directors may decide the persons to whom, and the terms on which, Shares are issued or Options are granted as well as the rights and restrictions that attach to those Shares or Options.

The Constitution also permits the issue of preference shares on terms determined by the Directors.

Imugene may also sell a Share that is part of an unmarketable parcel of shares under the procedure set out in the constitution.

Variation of class rights

The rights attached to any class of Shares may, unless their terms of issue state otherwise, only be varied with the consent in writing of members holding at least three-quarters of the Shares of that class, or with the sanction of a special resolution passed at a separate meeting of the holders of Shares of that class.

Restricted securities

If the ASX classifies any of Imugene's share capital as restricted securities, then the restricted securities must not be disposed of during the escrow period and Imugene must refuse to acknowledge a disposal of the restricted securities during the escrow period, except as permitted under the Listing Rules or by the ASX.

Share certificates

Subject to the requirements of the Corporations Act, the Listing Rules or the ASX Settlement Operating Rules, Imugene need not issue share certificates if the Directors so decide.

Calls

The Directors may, from time to time, call upon Shareholders for unpaid monies on their shares. The Directors must give Shareholders notice of a call at least 10 Business Days before the amount called is due, specifying the time and place of payment. If a call is made, Shareholders are liable to pay the amount of each call by the time and at the place specified.

A call is taken to have been made when a Directors' resolution passing the call is made or on any later date fixed by the Board. A call may be revoked or postponed at the discretion of the Directors.

Forfeiture and lien

Imugene may forfeit Shares to cover any call, or other amount payable in respect of Shares, which remains unpaid following any notice to that effect sent to a Shareholder. Forfeited Shares become the property of Imugene and the Directors may sell, reissue or otherwise dispose of the Shares as they think fit.

A person whose Shares have been forfeited may still be required to pay Imugene all calls and other amounts owing in respect of the forfeited Shares (including interest) if the Directors so determine.

Imugene has a first and paramount lien for unpaid calls, instalments and related interest and any amount it is legally required to pay in relation to a Shareholder's Shares. The lien extends to all distributions relating to the Shares, including dividends.

Imugene's lien over Shares will be released if it registers a transfer of the Shares without giving the transferee notice of its claim.

Share transfers

Shares may be transferred by any method permitted by the Corporations Act, the Listing Rules or the ASX Settlement Operating Rules or by a written transfer in any usual form or in any other form approved by the Directors. The Directors may refuse to register a transfer of Shares where it is not in registrable form, Imugene has a lien over any of the Shares to be transferred or where it is permitted to do so by the Listing Rules or the ASX Settlement Operating Rules.

General meetings

Each Shareholder, Director and auditor is entitled to receive notice of and attend any general meeting of Imugene. Two Shareholders must be present to constitute a quorum for a general meeting and no business may be transacted at any meeting except the election of a chair and the adjournment of the meeting, unless a quorum is present when the meeting proceeds to business.

Voting rights

Subject to any rights or restrictions attached to any Shares or class of shares, on a show of hands each Shareholder present has one vote and, on a poll, one vote for each fully paid Share held, and for each partly paid Share, a fraction of a vote equivalent to the proportion to which the Share has been paid up. Voting may be in person or by proxy, attorney or representative.

Remuneration of Directors

Each Director is entitled to remuneration from Imugene for his or her services as decided by the Directors but the total amount provided to all Directors for their services as Directors must not exceed in aggregate in any financial year the amount fixed by Imugene in general meeting. The remuneration of a Director (who is not the managing Director or an executive Director) must not include a commission on, or a percentage of, profits or operating revenue.

Remuneration may be provided in the manner that the Directors decide. There is also provision for Directors to be paid additional remuneration (as resolved by the Directors) or provide benefits if they perform extra or special services, including being a member on a committee of Directors or the chairman of Directors or deputy chairman of Directors.

Directors are also entitled to be paid all travelling and other expenses they incur in attending to Imugene's affairs, including attending and returning from general meetings or Board meetings, or meetings of any committee engaged in Imugene's business.

Interests of Directors

A Director who has a material personal interest in a matter that is being considered by the Board must not be present at a meeting while the matter is being considered nor vote on the matter, unless the Corporations Act allows otherwise (however the Director may, subject to the Corporations Act, be counted in a quorum for, and vote at, a meeting of Directors considering the contract or arrangement).

Election and retirement of Directors

There must be a minimum of three Directors and a maximum of ten Directors unless Imugene in general meeting resolves otherwise.

Where required by the Corporations Act or Listing Rules, Imugene must hold an election of directors each year. No Director, other than the managing director, may hold office without re-election beyond the third annual general meeting following the meeting at which the Director was last elected or re-elected. A Director appointed to fill a casual vacancy, who is not a managing Director, holds office until the conclusion of the next annual general meeting following his or her appointment. If there would otherwise not be a vacancy, and no Director is required to retire, then the director who has been longest in office since last being elected must retire.

If a number of Directors were elected on the same day, the Directors to retire is (in default of agreement between them) determined by ballot.

Dividends

If the Directors determine that a final or interim dividend is payable, it is (subject to the terms of issue on any Shares or class of Shares) paid on all Shares proportionate to the amount for the time being paid on each Share. Dividends may be paid by cash, electronic transfer or any other method as the Board determines.

The Directors have the power to capitalise and distribute the whole or part of the amount from time to time standing to the credit of any reserve account or otherwise available for distribution to Shareholders. The capitalisation and distribution must be in the same proportions which the Shareholders would be entitled to receive if distributed by way of a dividend.

Subject to the Listing Rules, the Directors may pay dividends as the directors resolve but only out of the profits of Imugene.

Indemnities and insurance

Imugene must indemnify current and past Directors and other executive officers (**Officers**) of Imugene on a full indemnity basis and to the fullest extent permitted by law against all liabilities incurred by the Officer as a result of their holding office in Imugene or a related body corporate.

Imugene may also, to the extent permitted by law, purchase and maintain insurance, or pay or agree to pay a premium for insurance, for each Officer against any liability incurred by the Officer as a result of their holding office in Imugene or a related body corporate.

8.3 CVI facility

As announced to ASX on 23 December 2024, Imugene entered into a subscription agreement with CVI Investments, Inc. (**Noteholder**), an affiliate of Heights Capital Management (**Heights**), an investment arm of Susquehanna International Group, LLP (**Susquehanna**), to raise up to \$46 million via the issue of the Convertible Notes and the exercise of the Noteholder Warrants granted as part of the convertible note issue (**Subscription Agreement**). Payments to Directors

The constitution of Imugene provides that the Directors may be paid, as remuneration for their services, a sum set from time to time by the Shareholders in general meeting, with that sum to be divided among the Directors as they agree.

The maximum aggregate amount which has been approved by the Shareholders for payment to the Directors is \$1 million per annum. The current Executive director fees are \$260,100 per annum for the Chairman and USD\$50,000 per annum for each of the non-executive directors, excluding Committee fees.

9.12 Expenses of the Offers

The total estimated expenses of the Offers payable by the Company including ASX and ASIC fees, accounting fees, legal fees, Share Registry fees, printing costs, public relations costs and other miscellaneous expenses are estimated to be \$1.5 million.

9.13 CHESS

The Company participates in the Clearing House Electronic Sub-register System (**CHESS**), operated by ASX Settlement (a wholly owned subsidiary of ASX), in accordance with the Listing Rules and ASX Settlement Rules.

Under CHESS, the Company does not issue certificates to the holders of Securities. Instead, the Company provides holders with a Holding Statement (similar to a bank account statement) that sets out the number of New Securities allotted and issued to them under this Prospectus.

This Holding Statement also advises investors of either their Holder Identification Number (HIN) in the case of a holding on the CHESS sub-register or Security Holder Reference Number (SRN) in the case of a holding on the issuer sponsored sub-register.

A Holding Statement is routinely sent to holders at the end of any calendar month during which their holding changes. A holder may request a statement at any other time; however, a charge may be incurred for additional statements.

9.14 Taxation implications

The Directors do not consider that it is appropriate to give potential Applicants advice regarding the taxation consequences of applying for New Securities under this Prospectus, as it is not possible to provide a comprehensive summary of the possible taxation positions for potential Applicants.

Neither the Company nor any of its advisers or officers accept any responsibility or liability for any taxation consequences to potential Applicants in relation to the Offers. Potential Applicants should, therefore, consult their own tax adviser in connection with the taxation implications of the Offers.

9.15 Electronic Prospectus

This Prospectus is available in electronic form at www.imugene.com. Any person receiving this Prospectus electronically will, on request, be sent a paper copy of the Prospectus by Imugene free of charge until the Closing Date.

An Application Form may only be distributed attached to a complete and unaltered copy of the Prospectus. An Application Form included with this Prospectus contains a declaration that the investor has personally received the complete and unaltered Prospectus before completing the Application Form.

Imugene will not accept a completed Application Form if it has reason to believe that the Applicant has not received a complete paper copy or electronic copy of the Prospectus or if it has reason to believe that the Application Form or electronic copy of the Prospectus has been altered in any way.

While Imugene believes that it is extremely unlikely that during the period of the Offer the electronic version of the Prospectus will be altered in any way, Imugene can not give any absolute assurance that this will not occur. Any investor in doubt about the validity or integrity of an electronic copy of the Prospectus should immediately request a paper copy of the Prospectus directly from Imugene or a financial adviser.

9.16 Privacy

Eligible Shareholders may be asked to give personal information to Imugene directly, and through the Share Registry, such as name, address, telephone and fax numbers, tax file number and account details. The Company and the Share Registry collect, hold and use that personal information to provide facilities and services to Eligible Shareholders and undertake administration. Access to information may be disclosed by the Company to its agents and service providers on the basis that they deal with the information under the *Privacy Act 1988* (Cth). The Company's privacy policy sets out how Shareholders may request access to and correction of their personal information held by or on behalf of the Company (by contacting the Share Registry), how Shareholders can complain about privacy related matters and how the Company responds to complaints.

Any questions concerning the Offers should be directed to the SPP Information Line on 1300 288 664 (within Australia) or +61 2 9698 5414 (outside Australia) between 8:30am and 7:00pm (Sydney time), Monday to Friday during the Offer Period.
