### Major opportunity based on industry tailwinds

Elsight is capitalising on powerful global trends and industry tailwinds, including soaring defence budgets (~US\$1T in the U.S., NATO at 5% GDP), rising investment in uncrewed systems (e.g. the UK's 20-40-40 doctrine), and new U.S. regulations enabling commercial drone integration. These shifts are expanding Elsieht's total addressable market across defence and commercial sectors, driving demand and creating a ~US\$151 million\* pipeline of realisable opportunities. As a result, Elsieht's flagship connectivity platform, Halo, is increasingly positioned as a critical enabler in next-generation uncrewed programs.

### Accelerated growth to capitalise on near-term opportunities

The Placement positions Elsieht to capitalize on multiple growth opportunities, supported by strong momentum in commercial and defence uncrewed markets, fuelled by rising global budgets and increased defence investment.

The strengthened balance sheet will enable Elsieht to:

- **Expand sales and marketing efforts** into high-potential jurisdictions to swiftly capture untapped opportunities.
- **Drive product innovation**, advancing both hardware and software capabilities; and
- **Pursue strategic acquisitions** that complement and accelerate the Company's growth strategy.
