1 Resolutions 1 and 2 – Ratification of issue of First Tranche Convertible Debentures and Interest Equity Shares

1.1 Introduction

Convertible Debentures

On 24 July 2025, the Company announced that it had entered into a funding agreement (**Funding Agreement**) with YA II PN, Ltd (**Yorkville**), a US-based investment fund managed by Yorkville Advisors Global, LP, to provide funding to the Company of up to, in aggregate, US\$95 million via a convertible debenture facility (**Convertible Debenture Facility**), comprising the issue of the following interest-bearing redeemable unsecured convertible debentures to Yorkville:

- 24,500,000 Convertible Debentures, to raise up to a total of US\$23,275,000 (**First Tranche Convertible Debentures**); and
- 35,500,000 Convertible Debentures, to raise up to a total of US\$33,725,000 (**Second Tranche Convertible Debentures**),

representing funding of up to, in aggregate, US\$57,000,000; and

- 40,000,000 Convertible Debentures, in connection with a potential additional funding tranche, to raise up to a further US\$38,000,000 (**Additional Tranche Convertible Debentures**),

(together, the **Convertible Debentures**).

The Convertible Debentures will each have a face value of US\$1.00, and the aggregate amount to be raised under each tranche represents a 5% discount to the aggregate face value.

On 25 July 2025, the Company issued the First Tranche Convertible Debentures to Yorkville and these Convertible Debentures were fully drawn. The First Tranche Convertible Debentures were issued without prior Shareholder approval pursuant to the Company's 15% annual Placement Capacity under Listing Rule 7.1.

The Company does not have sufficient Placement Capacity to issue the Second Tranche Convertible Debentures or the Additional Tranche Convertible Debentures, and accordingly the proposed issue of the Second Tranche Convertible Debentures and the Additional Tranche Convertible Debentures is subject to approval by Shareholders under Resolutions 3 and 4, respectively.

The Second Tranche Convertible Debentures and the Additional Tranche Convertible Debentures will be issued shortly after the Meeting but the funds associated with those securities will not be fully drawn upon issue. Rather, the Funding Agreement provides that the Company may elect to draw down on:

- up to an amount representing 95% of the face value of the Second Tranche Convertible Debentures under:
 - an initial drawdown at any time up to, but excluding, the date which is 180 days from the date that the First Tranche Convertible Debentures were drawn by the Company (being 21 January 2026), provided that the total amount drawn by the Company under the Convertible Debenture Facility during this period does not exceed US\$33,725,000; and
 - a further drawdown, on 21 January 2026, in respect of the balance of such face value of the Second Tranche Convertible Debentures, up to US\$57 million; and
- up to an amount representing 95% of the face value of the Additional Tranche Convertible Debentures, such amount (if any) to be mutually agreed between the Company and Yorkville,

in each case, subject to the satisfaction of certain conditions precedent.

The Convertible Debentures have a maturity of 18 months from the date on which the funds associated with them are first drawn by the Company.

Conversion into Shares

Once drawn, Yorkville may elect to convert any part or all of the face value of any outstanding Convertible Debentures at any time up until (but excluding) the third trading day prior to the relevant maturity date.

Under the terms of the Funding Agreement, the number of Shares to be issued upon any conversion is calculated in accordance with a variable formula which depends on both the market price of the Company's shares on ASX and the AUD/USD exchange rate at the time of conversion. However, the number of Shares that could be issued upon conversion is subject to a lower limit (based on the "Fixed Conversion Price" of AU\$0.6435 per Share) and an upper limit (being a "Floor Price" of AU\$0.12 per Share). The Floor Price imposes a limit on the potential dilutionary impact of any conversion of the Convertible Debentures.

The table below sets out a worked example of the number of Shares that may be issued on conversion of each individual tranche of the Convertible Debentures, assuming an AUD/USD exchange rate of 0.6445, and based on assumed conversion prices of AU\$0.6435 (being the "Fixed Conversion Price"), AU\$0.4790 (being the 90-day VWAP of the Shares on ASX as at 1 August 2025, being the last practicable date prior to finalising this Notice) and AU\$0.12 (being the "Floor Price").

Tranche *	Shares on issue as at the date of this Notice	Maximum number of Shares issued upon conversion at an assumed conversion price equal to:			Maximum dilutive effect on existing Shareholders **
		the Fixed Price (AU\$0.6435)	the 90-day VWAP (AU\$0.4790)	the Floor Price (AU\$0.12)	
First Tranche Convertible Debentures	637,278,034	59,073,759	79,361,094	316,783,035	33.20%
Second Tranche Convertible Debentures	637,278,034	85,596,672	114,992,606	459,012,154	32.48% (after maximum conversion of First Tranche Convertible Debentures)
Additional Tranche Convertible Debentures	637,278,034	96,446,954	129,569,134	517,196,793	26.79% (after maximum conversion of each other tranche of Convertible Debentures)

* *These workings are an example only, and have been prepared on the assumption that all tranches of the Convertible Debentures will be issued to Yorkville, and that the Convertible Debentures are fully drawn, which would entitle Yorkville to convert the full face value of all of the Convertible Debentures. The actual number of Convertible Debentures that are converted to Shares and the number of Shares on issue at the time of conversion, may differ. This will result in the maximum number of Shares to be issued and the dilution percentage to also differ.*

** *This assumes conversion of the relevant tranche of Convertible Debentures at the lowest possible conversion price under the Funding Agreement, and reflects the dilutive effect of each relevant tranche based on an assumed number of Shares on issue as at the date of conversion which is inclusive of the maximum number of Shares which can be issued to Yorkville under each preceding tranche.*

As illustrated in the worked example above, the maximum number of Shares that may be issued in connection with the Funding Agreement, based on the AUD/USD exchange rate of 0.6445, is 1,292,991,982 Shares.

Such maximum number of Shares would only be issued in circumstances where the Floor Price was the applicable conversion rate at the time of the conversion. This would require that the price of the Shares on ASX reduced to a price below AU\$0.12 at such time, which represents a 72.09% discount to the closing price of the Shares on ASX on 1 August 2025 (being the last practicable date prior to finalising this Notice).

In addition, under the Funding Agreement:

- at all times, Yorkville is only permitted to convert such portion of the Second Tranche Convertible Debentures and the Additional Tranche Convertible Debentures that represents the amount drawn down on the funds associated with those Convertible Debentures by the Company; and
- there are additional limitations on the number of Shares that Yorkville can be issued upon conversion of the Convertible Debentures, namely:
 - the First Tranche Convertible Debentures are initially subject to a conversion cap equal to the number of Shares which may be issued under the Company's existing 15% annual

Placement Capacity under Listing Rule 7.1. If all of these Shares were issued to Yorkville, this would represent 14.88% of all Shares currently on issue; and

- at all times, Yorkville and any associates of Yorkville are not permitted to convert any Convertible Debentures if on doing so Yorkville and its associates would hold a relevant interest in the Company that exceeds 19.99% at the time of conversion.

Interest Equity Shares

Simultaneously with the issue of the First Tranche Convertible Debentures on 25 July 2025, the Company issued 783,867 Shares (**Interest Equity Shares**) to Yorkville as a prepayment of interest that would accrue on the full face value of the First Tranche Convertible Debentures for the three-month period commencing 25 July 2025 and ending 23 October 2025 (**First Interest Period**), which was paid by the Company via the issue of the Interest Equity Shares. In accordance with the Funding Agreement, interest accrues on the outstanding face value of the Convertible Debentures at the rate of 5% per annum.

The number of Interest Equity Shares which were issued was determined based on the maximum amount of interest payable on the full face value of the First Tranche Convertible Debentures for the Interest Period (being US\$302,055) divided by the closing price of the Shares on the ASX on 23 July 2025 (being AU\$0.585) (after applying the AUD/USD exchange rate on that date).

The Interest Equity Shares were issued without prior Shareholder approval pursuant to the Company's 15% annual Placement Capacity under Listing Rule 7.1.

If the interest actually payable in respect of the First Interest Period is less than the maximum amount prepaid via the issue of the Interest Equity Shares, the amount of the over payment will be deducted from other amounts due to be paid to Yorkville under the Funding Agreement.

Further information

Further details in relation to the Funding Agreement are set out in the Company's ASX announcement of 24 July 2025. A summary of the material terms of the Convertible Debentures (contained in the Funding Agreement) are set out in **Annexure A** to this Notice of Meeting.

1.2 Use of funds

The proposed use of funds from the issue of the Convertible Debentures is to provide additional capital for the continued build-out of our Riverside facility in Chattanooga, Tennessee and for general corporate purposes. The Company will expects to begin shipping commercial-grade synthetic graphite from Riverside later this year with mass production starting next year for our lead customer, Panasonic. For further information, refer to the Company's announcement to ASX on 24 July 2025.

1.3 Shareholder approval

Listing Rule 7.1 provides that during any 12 month period, a listed company must not (subject to certain exceptions), issue any equity securities, including securities with rights of conversion to equity, if the number of those securities exceed the Company's Placement Capacity. An issue of equity securities which has been approved by Shareholders under Listing Rule 7.1 does not count towards a company's Placement Capacity. Listing Rule 7.4 provides that an issue made under Listing Rule 7.1 is treated as having been made with Shareholder approval if the issue did not breach Listing Rule 7.1 and Shareholders of the company subsequently approve it.

Where the equity securities are convertible securities, each security is counted as the maximum number of fully paid ordinary securities into which it can be converted.

The Company seeks Shareholder approval under Listing Rule 7.4 to ratify the issue of:

- 24,500,000 First Tranche Convertible Debentures; and
- 783,867 Interest Equity Shares,

so that they are not counted towards the Company's Placement Capacity under Listing Rule 7.1.

The Company wishes to maintain as much flexibility as possible to issue further equity securities in the future. If Resolutions 1 and 2 are passed, the First Tranche Convertible Debentures and the Interest Equity Shares will not count towards the Company's Placement Capacity, effectively reinstating the Company's Placement Capacity by increasing the number of equity securities it can issue without Shareholder approval, which will provide the Company flexibility to issue further equity securities in the future without obtaining further Shareholder approval as required.

If either Resolution 1 or 2 is not passed, the First Tranche Convertible Debentures and/or the Interest Equity Shares (as applicable) will count towards the Company's Placement Capacity, effectively decreasing the number of equity securities it can issue without Shareholder approval, which will impact on the Company's flexibility for future capital raisings.

1.4 Requirements of Listing Rule 7.5 – Resolution 1

In accordance with Listing Rule 7.5 the following information is provided in relation to Resolution 1:

- (a) The First Tranche Convertible Debentures were issued to Yorkville.
