Ventia's strategy is Redefining Service Excellence and is centred on three priorities: client focus, innovation and sustainability.

Revenue

Ventia reported a decrease in revenue of \$45.3 million, or 1.5%, to \$3,037.2 million in HY25. The decrease was driven by lower Defence Base Services project works, exited contracts and revised scope of a Housing and Community contract in Defence and Social Infrastructure; and timing of contracted work in Transport.

Section 3 provides further commentary on sector performance.

Other income

In January 2025, the Group entered into an agreement with a Joint Venture between ACCIONA and Ferrovial for the novation of the operations and maintenance contract and all associated Public Private Partnership (PPP) agreements on the Toowoomba Second Range Crossing (TSRC) contract. The novation resulted in a gain of \$24.9 million.

EBITDA

Statutory EBITDA increased by \$31.7 million, or 12.9%, to \$277.5 million in HY25. The movement was driven primarily by the TSRC novation. The Group statutory EBITDA margin increased to 9.1% (HY24: 8.0%).

Depreciation expense

Depreciation expense decreased by \$8.9 million, or 15.5%, attributable to an assessment of the remaining useful life of certain plant and machinery in HY24.

Amortisation expense

Amortisation expense decreased by \$4.2 million, or 22.7%, as a portion of acquired customer contracts and relationships became fully amortised in FY24. The remaining customer contracts and relationships were fully amortised by 30 June 2025.

Interest income

Interest income increased by \$2.3 million, or 56.1%, as a result of higher average cash balances during the period.

Income tax

Income tax expense was \$57.5 million for HY25, representing an effective tax rate of 29.9% (HY24: 29.8%).

1.3 Statutory Group financial position

Net working capital

Net working capital comprises trade and other receivables, contract assets and inventories, less trade and other payables, contract liabilities, employee benefit liabilities and provisions.

The net working capital balance increased by \$52.0 million in HY25. Key movements included an increase in trade and other receivables and contract assets of \$187.1 million, offset by an increase in trade and other payables and contract liabilities of \$152.7 million. These balances are seasonally higher in June compared to December due to higher volumes of work performed in May and June each year. Provisions decreased by \$14.2 million primarily due to the TSRC novation.

Net debt

Net debt comprises borrowings (excluding capitalised borrowing costs) and lease liabilities, less cash and cash equivalents.

Net debt increased by \$75.9 million to \$576.9 million, mainly due to the decrease in cash held at the end of HY25 of \$68.4 million. The decrease in cash held at the period end was primarily driven by the on-market buyback in HY25 of \$82.5 million, offset by an increase in operating cashflow.

1.4 Statutory Group cash flow

Operating cash flow

Net cash generated from operating activities for HY25 was \$183.4 million, representing an increase of \$21.4 million from HY24. This was driven primarily by an increase in underlying EBITDA and a reduction in income tax paid.

Investing cash flow

Total cash outflow from investing activities was \$41.1 million for HY25, representing a \$12.6 million increase compared with HY24. Cash outflow for both years comprised payments for acquisition of property, plant and equipment, and intangible assets. The increase was mainly driven by spending on digital capability uplift and investment in plant and machinery for the rig and well services business.

Financing cash flow

Total financing cash outflow of \$212.1 million increased by \$103.7 million compared to HY24, as a result of the on-market buyback of \$82.5 million, purchase of treasury shares of \$9.5 million and an increase in dividends paid of \$10.4 million.

2. Underlying Group financial performance

The underlying financial performance has been derived from the statutory financial information by excluding the impact of the TSRC novation (see Section 2.2).

Highlights for the underlying financial performance:

	June 2025 \$'m	June 2024 ¹ \$'m	Change \$'m	Change %

Underlying EBITDA increased by \$6.8 million, or 2.8%, to \$252.6 million in HY25. The improvement in the underlying EBITDA margin from 8.0% to 8.3% was driven by strategic focus on higher margin work and shift in portfolio mix.

Sector EBITDA	101.1	89.0	12.1	13.6%
<i>Sector EBITDA %</i>	8.1%	6.7%	n/a	1.4pp

Defence and Social Infrastructure reported revenue of \$1,249.4 million, which represents a decrease of \$79.2 million or 6.0% on HY24. The decrease was driven by lower Defence Base Services project work, exited contracts and revised scope of a Housing and Community contract.

During HY25, the Defence Base Services contract was extended. The outcome of the Defence Base Services Transformation tender is anticipated later this year.

HY25 EBITDA was \$101.1 million, an increase of \$12.1 million or 13.6% on HY24, driven by strategic focus on higher margin work and delivery of efficiency programs.

3.2 Infrastructure Services

	June 2025 \$'m	June 2024 \$'m	Change \$'m	Change %
Sector revenue	690.6	630.2	60.4	9.6%
Sector EBITDA	60.6	49.9	10.7	21.4%
<i>Sector EBITDA %</i>	8.8%	7.9%	n/a	0.9pp

Infrastructure Services reported revenue of \$690.6 million, which represents an increase of \$60.4 million or 9.6% on HY24. This was a result of the full year impact of 2024 contract wins in Energy and Water.

New work won in HY25 included a three-year delivery services panel contract with Transgrid to deliver projects across its transmission network and a contract with Elecnor and Harmony Energy for the Tauhei solar farm project in New Zealand. Contract renewals included a one-year Plant Maintenance Extension for BlueScope and a two-year extension of the Water Services Alliance agreement with Far North District Council in New Zealand.

HY25 EBITDA was \$60.6 million, an increase of \$10.7 million or 21.4% on HY24, driven by the shift in portfolio mix toward Energy and Water and productivity improvements.

3.3 Telecommunications

	June 2025 \$'m	June 2024 \$'m	Change \$'m	Change %
Sector revenue	772.7	782.3	(9.6)	(1.2%)
Sector EBITDA	97.0	100.3	(3.3)	(3.3%)
<i>Sector EBITDA %</i>	12.6%	12.8%	n/a	(0.2pp)

Telecommunications reported revenue of \$772.7 million, which represents a decrease of \$9.6 million or 1.2% on HY24. This decrease was due to the mobilisation of new contract wins with Telstra and NBN.

New work won in HY25 included NBN Field Module of \$2.1 billion, NBN Fibre to the Node upgrade of \$800 million and Tuatahi First Fibre of \$100 million, in addition to the \$570 million Telstra Strategic Field Maintenance, Design and Construction Contract announced in December 2024.

HY25 EBITDA was \$97.0 million, a decrease of \$3.3 million or 3.3% on HY24, primarily driven by the expensing of mobilisation costs during the period.

3.4 Transport

	June 2025 \$'m	June 2024 \$'m	Change \$'m	Change %
Sector revenue	324.5	341.4	(16.9)	(5.0%)

Sector EBITDA %	7.6%	7.4%	n/a	0.2pp

Transport reported revenue of \$324.5 million, which represents a decrease of \$16.9 million or 5.0% on HY24. This was a result of completion of works in the second half of 2024 and timing of contracted work.

Transport has been successful in securing new contracts in HY25. These include a three-year maintenance and renewals contract with Whangarei District Council in NZ with two further three-year options for a potential total nine-year term. Transport also secured pavement rehabilitation works with the Pilbara Ports Authority and works with BP for the first phase of the Australian Renewable Energy Hub. Contract extensions in HY25 included a one-year extension with Queensland South Coast Road Asset Management and a two-year maintenance contract extension for Thames Coromandel District Council.

HY25 EBITDA was \$24.6 million, a decrease of \$0.5 million or 2.0% on HY24. The EBITDA margin increased from 7.4% to 7.6% due to continued focus on project efficiency and productivity improvements.

5. Dividends

Since the end of the half year, the Ventia Board resolved to pay an interim dividend of 10.71 cents per share, 90% franked, representing a payout ratio of 75% of Underlying NPATA.

Our disciplined approach to capital allocation and operational execution ensures we remain well-positioned to convert quality opportunities into sustainable growth.

Ventia's customer renewal rate remains high at > 90%, reflecting the trust placed in our delivery model.

Work in Hand increased to \$20.6 billion as at 30 June 2025, supported by strategic contract wins including the NBN Field Module, Fibre to the Node upgrade, and Defence Base Services extension. These wins demonstrate the strength of our long-term partnerships and our ability to respond to evolving market needs.

We continue to see strong tailwinds across our core business and adjacencies, including:

- Increased government investment in infrastructure and defence
- Accelerating energy transition and digitisation
- Population growth driving demand for essential services

We remain focused on delivering sustainable financial returns, maintaining strong cash conversion (>90%), and continuing to return capital to shareholders through dividends and our on-market buyback program.

For FY25, we upgrade our guidance for underlying NPATA growth to 10-12%, excluding the one-off positive impact of the TSRC novation.

Estimation of fair values

The fair value of interest rate swaps is determined using a discounted cash flow model where future cash flows are estimated based on market forward rates at the reporting date and the contract rates, discounted at a rate that reflects the credit risk of the various respective counterparties.

Contingent consideration

The fair value of contingent consideration is measured at the present value of the estimated future cash outflows which are based on a number of conditions as set out in the relevant acquisition documentation.

Fair value of financial assets and financial liabilities that are not measured at fair value on a recurring basis

The carrying value of cash and cash equivalents, financial assets, bank and other loans, and non-interest bearing monetary financial liabilities of the Group approximate their fair value.

6.1.2 Legal and other matters

Legal, commercial and regulatory matters may arise in the ordinary course of business. The Directors consider that appropriate provisions have been raised to reflect expected costs for the resolution and finalisation of open matters and therefore no contingent liabilities for potential settlements, fines or judgements have been noted, other than the matters below.

6.1.3 Gateway Motorway project

Claims have been made by Queensland Motorways Pty Limited (QM) in the Supreme Court of Queensland against various parties, including the head design, construction and maintenance contractors of the Gateway Motorway project (D&C Contractor) in relation to alleged defects in the motorway upgrade project.

Two companies in which the Group has an interest, Visionstream Australia Pty Limited (VA) (a wholly-owned subsidiary) and Gateway Motorway Services Pty Limited (GMS) (a 50/50 joint venture company), independently provided services to the D&C Contractor in connection with the project. The D&C Contractor has sought to pass down the nature and the value of certain claims made against it by QM to VA, and separately GMS.

Both VA and GMS have respectively served their defence to each allegation, denying all liability. The effect of contractual liability caps, any applicable insurance cover and other relevant matters, will need to be considered. The potential outcome of the proceedings cannot be determined at this stage.

6.1.4 Australian Competition and Consumer Commission proceedings

In December 2024, the Australian Competition and Consumer Commission (ACCC) started civil proceedings in the Federal Court against Ventia Australia Pty Ltd (VAPL, a wholly-owned subsidiary) and two employees, alleging contraventions of the Australian competition law provisions for services provided to the Department of Defence (Defence).

The ACCC alleges that in 2020 and 2022, VAPL made and gave effect to, or attempted to make arrangements or understandings containing provisions which had the purpose, effect or likely effect of fixing, controlling or maintaining the prices at which services would be supplied to Defence under specific programs of works.

On the basis of information currently known to the Group, the Group intends to defend the proceedings. The potential outcome of the proceedings cannot be determined at this stage.

Conclusion

We have reviewed the half-year financial report of Ventia Services Group Limited (the "Company") and its subsidiaries (the "Group"), which comprises the condensed consolidated statement of financial position as at 30 June 2025, and the condensed consolidated statement of profit or loss and other comprehensive income, the condensed consolidated statement of changes in equity and the condensed consolidated statement of cash flows for the half-year ended on that date, notes to the financial statements, including material accounting policy information and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of the Group does not comply with the *Corporations Act 2001*, including:

- Giving a true and fair view of the Group's financial position as at 30 June 2025 and of its performance for the half-year ended on that date; and
- Complying with Accounting Standard AASB 134 Interim Financial Reporting and the *Corporations Regulations 2001*.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 Review of a *Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Half-year Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards) ("the Code") that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001* which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's review report.

Directors' Responsibilities for the Half-year Financial Report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Review of the Half-year Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 30 June 2025 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Deloitte.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
