

APPENDIX 4E

AIC MINES LIMITED ACN 060 156 452 AND CONTROLLED ENTITIES PRELIMINARY FINAL REPORT

For the year ended 30 June 2025

Results for announcement to the market

Key information

	For the 12 months ended 30 June 2025	For the 12 months ended 30 June 2024	Up / (down)	
	\$'000	\$'000	\$'000	%
Revenues from contracts with customers	189,554	180,515	9,039	5%
Earnings before Interest, Tax, Depreciation & Amortisation (EBITDA)	63,245	51,803	11,442	22%
Statutory profit before income tax	18,374	11,190	7,184	64%
Profit from ordinary activities after income tax attributable to the members	14,958	7,694	7,264	94%

Dividend information

No dividends have been paid or declared in the current year or the prior year.

Net tangible assets

	For the 12 months ended 30 June 2025	For the 12 months ended 30 June 2024
	Cents	Cents
Net tangible assets per share ¹	39.37	38.46

¹Net tangible assets per share is calculated as: Net assets, less right-of-use assets then add back lease and deferred tax liabilities. This is then divided by the number of issued shares at year end. The comparison year has been updated in line with this calculation.

Earnings / (loss) per share

	For the 12 months ended 30 June 2025	For the 12 months ended 30 June 2024
	Cents	Cents
Basic earnings / (loss) per share	2.60	1.63
Diluted earnings / (loss) per share	2.46	1.54

This Appendix 4E is given to the ASX in accordance with Listing Rule 4.3A.

Additional Appendix 4E disclosure requirements can be found in the Directors' Report and the 30 June 2025 Financial Statements and accompanying notes.

This report is based on the consolidated financial statements for the year ended 30 June 2025 which have been audited by KPMG.

Directors' Report

The Directors present their report together with the consolidated financial statements for AIC Mines Limited ("the Company" or "AIC Mines") and the entities it controlled at the end of, or during, the year ended 30 June 2025 ("the Group") and the auditor's report thereon.

Items included in the Directors' Report and consolidated financial statements are presented in Australian dollars unless otherwise stated.

1 Principal activities

The principal activities of the Group during the year were exploration, mine development and production, mine operations and the sale of copper concentrate in Australia.

2 Directors and executives

2.1 Directors

The Directors of the Company at any time during or since the end of the financial year are set out below. No Director has served as a director of any other ASX-listed company in the past 3 years unless mentioned below.

Josef El-Raghy

Non-Executive Chairman

Mr. El-Raghy has extensive experience in developing and managing gold mining companies. Prior to joining AIC Mines, he was Chairman of Centamin Plc, a gold mining company listed on the Main Board of the London Stock Exchange and the Toronto Stock Exchange. Mr. El-Raghy joined Centamin as Managing Director in August 2002 and oversaw the Company's transition from junior explorer to successful gold miner before leaving Centamin in June 2020. Mr. El-Raghy formerly had a ten-year career in stockbroking. In addition to his direct management experience of project development and operation, his time at Centamin has also provided him with deep experience in international capital markets. Mr. El-Raghy is also Executive Chairman of WIA Gold Limited.

Aaron Colleran

Managing Director and Chief Executive Officer

Mr. Colleran has extensive experience in public markets mergers and acquisitions and strategic planning. Prior to joining AIC Mines, Mr. Colleran was a founding member of the leadership team of Australian gold producer Evolution Mining Limited, having managed its business development and investor relations program from inception through to 2018. He was instrumental in the multiple merger and acquisition transactions that created Evolution Mining, now one of Australia's largest gold mining companies. Originally an exploration geologist, Mr. Colleran formerly worked as a mining analyst and investment banker over a fourteen-year career in finance. Mr. Colleran was appointed as a Non-Executive Director of Demetallica Limited in November 2022 (delisted from ASX on 23 January 2023).

Brett Montgomery

Non-Executive Director

Mr. Montgomery has extensive experience in public company management in both executive and non-executive roles. Mr. Montgomery is a Non-Executive Director of Tanami Gold NL (since February 2013) and Asara Resources Ltd (since February 2023). Mr. Montgomery was appointed as a Non-Executive Director of Demetallica Limited in November 2022 (delisted from ASX on 23 January 2023).

Mr. Montgomery is Chair of the Remuneration and Nomination Committee (effective 1 July 2023).

Jon Young

Non-Executive Director

Mr. Young is Chairman of FMR Investments Pty Ltd, AIC Mines' largest shareholder, and is a Director of Wealth Management at Canaccord Genuity Financial Limited. Mr. Young has over 30 years' experience in financial services and has been advising clients with Canaccord Genuity (formerly Patersons) since 2001. Mr. Young holds a Bachelor of Commerce Degree from the University of Western Australia and is a member of the Chartered Accountants Australia and New Zealand. Mr. Young was formerly a Non-Executive Director of ASX-listed Greenstone Resources Limited, ceasing in November 2022.

Mr. Young is Chair of the Risk and Sustainability Committee (effective 1 July 2023).

Directors' Report

Linda Hale

Non-Executive Director

Ms. Hale has over 30 years' experience in financial services, stockbroking and mining sectors. Prior to joining the Board, Ms. Hale was Company Secretary at AIC Mines from 20 February 2020 until her resignation on 31 January 2023. Previous roles have included Executive Director of Finance and Administration and Company Secretary for CIBC Eyres Reed. She has also consulted on organisational change and held project management roles. Ms. Hale holds a Bachelor of Business, is a member of CPA Australia and a graduate of the Australian Institute of Company Directors. She was previously a Non-Executive Director of Demetallica Limited (December 2022 to October 2023 delisted from ASX on 23 January 2023).

Ms. Hale is Chair of the Audit Committee (effective 1 July 2023).

2.2 Senior executives

The names and details of the Company's senior executives during the year and until the date of this report are as follows. The executives were in office for the entire year unless otherwise stated.

Aaron Colleran – Managing Director and Chief Executive Officer

Refer to details set out in section 2.1 Directors on page 4.

Audrey Ferguson - Company Secretary

Ms. Ferguson is a qualified solicitor, an experienced company secretary and a graduate of the Australian Institute of Company Directors. Ms. Ferguson has more than 25 years' experience in legal and company secretarial roles. Before joining AIC Mines Ms. Ferguson was General Counsel and Company Secretary for Bindaree Food Group. Prior to this role she held a range of legal and corporate roles with Rio Tinto in London and Sydney across the copper, diamonds, minerals and energy businesses.

Tim Benfield - Chief Operating Officer

Mr. Benfield has over 30 years' experience in operational, technical and leadership roles with gold and base metals mining companies. Before joining AIC Mines, he was the Chief Operating Officer at Fetch Metals and previously Chief Operating Officer with Kingsgate Consolidated where he oversaw technical mining studies and operations in Australia and Thailand. Mr. Benfield holds a diploma in Mining Engineering, a Masters in Business Administration, and is a fellow of the AusIMM.

John Callagher (appointed on 12 May 2025) - Chief Financial Officer

Mr. Callagher has over 25 years' experience in senior financial, commercial, and corporate finance focused roles. Before joining AIC Mines, he was CFO with Aurora Healthcare, where he established the Group's stand-alone finance function and led asset divestment and debt refinancing processes. Mr. Callagher was the General Manager Finance at Whitehaven Coal, an ASX100 company, for 8 years, and prior to that he was the Group Financial Controller at Aveo, a large, listed property group. Mr. Callagher was a director with advisory firm KPMG in Sydney and London, focusing on mergers and acquisitions. Mr. Callagher is a Chartered Accountant and holds a Bachelor of Commerce from the University of NSW.

Michael Frame (resigned, ceased employment on 01 July 2025) - Chief Financial Officer

Mr. Frame has over 15 years' experience in commercial and financial functions with gold and copper mining companies. He has gained significant experience from site-based roles in Australia and the Asia Pacific. Before joining AIC Mines, he was the Group Finance Manager at Evolution Mining where he oversaw the statutory accounting, management reporting, shared services, and group-wide payroll functions. Mr. Frame holds a Bachelor of Commerce, a Bachelor of Economics, and a Graduate Diploma in Materials Science. He is a member of CPA Australia and a member of the AusIMM.

Directors' Report

2.3 Directors' interests

At the end of the year, the interests of the Directors in the shares of the Company were:

Name	Role	Ordinary Shares	Performance Rights
Josef El-Raghy	Non-Executive Chairman	40,000,000	-
Aaron Colleran	Managing Director and Chief Executive Officer	12,100,000	12,319,271
Jon Young	Non-Executive Director	1,019,055	-
Brett Montgomery	Non-Executive Director	25,000	-
Linda Hale	Non-Executive Director	420,491	176,471

2.4 Directors' meetings

The number of meetings of Directors held during the year and the number of meetings attended by each Director was as follows:

Name	Audit Committee		Risk & Sustainability Committee		Remuneration & Nomination Committee		Board of Directors	
	A	B	A	B	A	B	A	B
Josef El-Raghy	1	2	2	3	2	3	4	6
Aaron Colleran	-	-	3	3	-	-	6	6
Brett Montgomery	2	2	2	3	3	3	6	6
Jon Young	2	2	3	3	3	3	6	6
Linda Hale	2	2	3	3	3	3	6	6

A = number of meetings attended.

B = number of meetings held during the time the Director held office during the year or was a committee member.

During the year the Directors approved eleven (11) circular resolutions which were signed by all Directors of the Company.

2.5 Committee membership

The role of the Audit, Risk and Sustainability, and Remuneration and Nomination Committees is carried out in accordance with the specific charters. The Audit and the Remuneration and Nomination Committees comprise all four Directors other than the Managing Director and Chief Executive Officer. All five Directors are members of the Risk and Sustainability Committee.

2.6 Proceedings on behalf of the Group

No person has applied to the court under section 237 of the Corporations Act 2001 for leave to bring proceedings on behalf of the Group, or to intervene in any proceedings to which the Group is a party, for the purpose of taking responsibility on behalf of the Group for all or part of those proceedings.

No proceedings have been brought or intervened in or on behalf of the Group with leave of the court under section 237 of the Corporations Act 2001.

3 Other

3.1 Dividends

The Company did not pay any dividends during the year. Directors have resolved not to declare a dividend in respect of the 2025 financial year.

3.2 Indemnification and insurance of officers

During the year ended 30 June 2025 ("FY25"), the Company paid a premium in respect of a contract insuring the Directors, the Company Secretary and all executive officers of the Company and of any related body corporate against a liability incurred in such roles to the extent permitted by the Corporations Act 2001 (Cth). The contract of insurance prohibits disclosure of the nature of the liability and the amount of the premium.

Directors' Report

The Group has entered into a Deed of Indemnity, Insurance and Access with each Director (including directors of related body corporates) and the Company Secretary. In summary, the Deed provides for access to corporate records for each Director and the Company Secretary for a period after ceasing to hold office in the Group, the provision of Director and Officers Liability Insurance and an indemnity for legal costs incurred by officers in such capacity.

3.3 Share options

Shares issued on exercise of options

There were no options exercised during the reporting year.

Unissued shares under options

During the reporting year, 2,076,924 options on issue with an exercise price of \$0.4875 expired without conversion. As a result, there were no unissued ordinary shares under options of the Company at the end of the reporting year.

3.4 Rounding

The Company is of a kind referred to in ASIC Corporations Instrument 2016/191, dated 24 March 2016 and, in accordance with that Class Order, all financial information presented in Australian dollars has been rounded to the nearest million unless otherwise stated.

4 Operating and financial review

4.1 Key highlights for the reporting year

Key highlights for the 12 months ended 30 June 2025 ("year") include:

- Strong financial performance in FY25 with revenue of \$189.6 million, earnings before interest, tax and depreciation (EBITDA) of \$63.2 million and net profit after tax (NPAT) of \$15.0 million.
- FY25 production and cost guidance was delivered following strong operational performance. The Eloise copper mine produced 12,863t of copper in concentrate at an AISC of A\$4.98/lb Cu sold and an AIC of A\$5.37/lb Cu sold for FY25.
- The Group generated substantial cash flows from operating activities of \$50.9 million in FY25. This was underpinned by a strong operational performance at Eloise and good copper prices, with realised copper prices averaging A\$14,128/t in FY25.
- In June 2025, the Company awarded an engineering, procurement and construction (EPC) contract for the expansion of the Eloise processing facility to GR Engineering Services Limited. The expansion of the Eloise processing facility will increase throughput from 725ktpa to 1.1Mtpa with the potential for a further upgrade to 1.5Mtpa. The EPC contract is valued at \$77.6 million, with plans to start construction in October 2025, with commissioning expected in the December 2026 Quarter.
- The Jericho Access Drive (JAD), from the 1065 Level on the Eloise decline (125m below surface) to Jericho, was at 1,549m of its planned 3,000m total distance at the end of the year. Ground conditions remained competent and dry as expected. The access drive remains on schedule to reach first development ore in June 2026.
- A comprehensive funding package was secured to finance the Eloise processing plant expansion and Jericho mine development. This included two landmark transactions:
 - US\$40.0 million Prepayment Facility with Trafigura Asia Trading Pte Ltd
 - \$55.0 million Placement of approximately 183.3 million new fully paid ordinary shares at an issue price of \$0.30 per share to institutional and sophisticated investors.
- In addition to these two transactions, the Company also entered a \$25.0 million Surety Bond Facility and launched a Share Purchase Plan to eligible shareholders to raise up to \$10.0 million. The Surety Bond Facility resulted in \$5.7 million in restricted cash being returned to the Group's available cash. The SPP completed successfully on 1 August, raising the full \$10.0 million.

Directors' Report

4.2 Financial review

Profit and loss

The following table summarises the key reconciling items between Group EBITDA and profit/(loss) after tax.

	FY25 (\$'m)	FY24 (\$'m)
Reported EBITDA	63.2	51.8
Depreciation and amortisation	(43.1)	(39.9)
Net financial expenses	(1.7)	(0.7)
Income tax expense	(3.4)	(3.5)
Net profit after tax	15.0	7.7

- The Group recorded a consolidated net profit after tax ("NPAT") of \$15.0 million for the year (30 June 2024: \$7.7 million profit). The FY25 NPAT was impacted by a pre-tax \$3.0 million write down of exploration assets and pre-tax other income of \$4.3 million related to the historical sale of the Kitumba copper project.
- The increase in the FY25 NPAT result was driven by the following factors:
 - An increase in revenue from \$180.5 million in FY24 to \$189.6 million in FY25. The increase in revenue was underpinned by improved copper and gold prices with realised FY25 copper prices averaging A\$14,128/t compared to A\$13,329/t in FY24. Realised FY25 gold prices averaged A\$4,506/oz, well up on the A\$3,233/oz averaged in FY24.
 - The improved price performance in FY25 was partially offset by a reduction in sales volumes with FY25 copper sales of 12,295 tonnes down on FY24 sales of 13,056 tonnes.
 - FY25 cost of sales of \$105.1 million was \$7.2 million or 6.4% below FY24. The reduction in cost of sales was primarily driven by the reduction in production volumes in FY25 and a reduction in the average diesel price from A\$1.74 per litre in FY24 to A\$1.58 per litre in FY25. The FY25 cost of sales result has also been impacted by the changed accounting treatment in relation to the Group's mine development contract. A component of this contract is being treated as a lease in FY25 (refer note 12). This has the impact of reducing cost of sales and increasing depreciation and net financing costs. This contract was not treated as a lease in FY24.
 - Depreciation has increased by \$3.2 million or 8.0% to \$43.1 million in FY25. This is largely due to the changed accounting treatment in respect of the Group's mine development contract.
- The basic and diluted earnings per share for the year totalled 2.60 cents and 2.46 cents, respectively (30 June 2024: basic and diluted earnings per share of 1.63 cents and 1.54 cents).
- During the year, the Group recognised an income tax expense totalling \$3.4 million for the year (30 June 2024: \$3.5 million tax expense) and made no income tax payments as it is not in a tax payable position.

Cash flow and capital management

	FY25 (\$'m)	FY24 (\$'m)
Net cash flow from operating activities	50.9	51.9
Net cash flow from investing activities	(101.5)	(66.4)
Net cash flow from financing activities	37.2	57.9
Cash on hand at 30 June	60.9	74.3
Interest bearing liabilities at 30 June ¹	12.8	6.8

¹ Interest bearing liabilities excludes AASB16 leases.

Net cash flow from operating activities

The net cash inflow from operating activities totalled \$50.9 million (30 June 2024: inflow \$51.9 million). The reduction in cash flow from operating activities was driven by an increase in working capital in FY25. The increase in working capital reflects a change in the Group's copper concentrate invoicing strategy during the year. The change in strategy, to save costs, contributed to an increase in outstanding receivables at 30 June 2025, relative to June 2024.

Directors' Report

Net cash flow from investing activities

Net cash outflows from investment activities totalled \$101.5 million in FY25, an increase of \$35.1 million from the prior year (FY24: outflow \$66.4 million). The increase is driven by expenditure on mines under construction of \$44.1 million in FY25, the major component relating to expenditure on the Jericho Access Drive.

Net cash flow from financing activities

Net cash inflows from financing activities were \$37.2 million for FY25, a reduction of \$20.7 million from the prior year (30 June 2024: \$57.9 million). Net cash flows from financing activities were driven by proceeds of \$40.5 million being received following the completion of Tranche 1 of the equity placement announced in June 2025.

Balance sheet and capital management

At 30 June 2025, the Group held \$60.9 million in cash at bank (30 June 2024: \$74.3 million).

During the year, funding was secured for the Eloise processing plant expansion and Jericho mine development:

- US\$40.0 million Prepayment Facility with Trafigura Asia Trading Pte Ltd.
- \$55.0 million two-tranche Placement of approximately 183.3 million new fully paid ordinary shares at an issue price of \$0.30 per share to institutional and sophisticated investors. Tranche one of the placement completed on 30 June 2025.

In addition to these two transactions, the Company also entered into a \$25.0 million Surety Bond Facility and launched a Share Purchase Plan ("SPP") to eligible shareholders to raise up to \$10.0 million. At 30 June 2025, \$1.3 million of the Surety Bonding Facility remains undrawn.

Subsequent to 30 June 2025, \$10.0 million was received following the successful completion of the SPP. The Company obtained shareholders' approval for Tranche two of the Placement at the Extraordinary General Meeting (EGM) held on 20 August 2025. Tranche two relates to the placement of approximately 40.5 million new fully paid ordinary shares at \$0.30 per share.

The US\$40.0 million Prepayment Facility is linked to an offtake agreement for the Jericho Mine with Trafigura Asia Trading Pte Ltd ("Trafigura"). The funds will be used for the expansion of the Eloise processing facility. The Prepayment Facility has no commodity hedging requirements and has early repayment flexibility. As at 30 June 2025, the Prepayment Facility had not been drawn.

The Group retains an equipment financing facility of \$17.0 million. At 30 June 2025, \$12.8 million of this facility has been drawn.

4.3 Operations review

Eloise

Production from the Eloise copper mine for the year totalled 48,021dmt of concentrate containing 12,863t of copper at an All-in Sustaining Cost of \$4.98/lb and All-in Cost of \$5.37/lb. Eloise achieved FY25 production and cost guidance. This represents the second year and eighth quarter in a row that Eloise has achieved production guidance.

Operating mine cash flow for the year was \$79.2 million and net mine cash flow was positive \$27.4 million post total capital investment of \$51.7 million at an achieved copper price of \$14,128 per tonne (\$6.41/lb) of copper sold.

The table below outlines the key operating metrics for Eloise during the year ended 30 June 2025 and the year ended 30 June 2024:

Summary of operating results	Year ended 30 June 2025	Year ended 30 June 2024
Ore mined (t)	654,571	662,875
Copper grade mined (%)	2.11	2.08
Ore processed (t)	633,735	687,691
Copper grade processed (%)	2.14	2.07
Copper recovery (%)	94.77	94.27
Payable copper production (t)	12,383	12,912
All-in Sustaining Cost (\$/lb)	4.98	5.15
All-in Cost (\$/lb)	5.37	5.39

AISC and AIC are non-IFRS financial measures

Directors' Report

Jericho

AIC Mines is developing the Jericho copper deposit located 4 kilometres south of the existing Eloise processing plant. Staged development of the Jericho mine and expansion of the Eloise processing plant is expected to lift production to over 20,000 tonnes per annum copper and 7,500 ounces per annum gold ("Production Outlook"). It is also expected to reduce operating costs through shallower mining, economies of scale and de-risk production by increasing the number of available ore sources. The Production Target is based on a combination of Ore Reserves and Inferred Resources. For full details of the Eloise and Jericho Production Outlook see AIC Mines ASX announcement "Significant Increase in Ore Reserves" dated 16 April 2025.

During the year AIC Mines received all environmental permits required to build and operate the Jericho mine and the Eloise plant expansion. These included;

- the Site Specific Environmental Authority (SSEA), allowing the Jericho mine to proceed to full production,
- the Environmental Authority amendment to allow the Eloise plant to be expanded,
- the Environmental Authority amendment to allow Jericho ore to be processed through the Eloise plant.

The Jericho orebody is being accessed via an underground access drive from from the 1065 Level off the Eloise decline (125m below surface). As at 30 June 2025, the access drive had progressed 1,549m of its planned 3,000m total distance. Ground conditions remained competent and dry as expected. The access drive remains on schedule to reach first Jericho development ore in June 2026.

The Eloise Expansion project includes the replacement of the existing crushing and grinding circuit and installation of a concentrate filter press to allow the process rate to be expanded from 725ktpa Mtpa to 1.1Mtpa. As part of the plant expansion, site power generation will be expanded along with the heavy vehicle workshop and offices. A camp expansion was completed during the year in preparation for the construction crews and the subsequent increase in mining personnel.

4.4 Exploration review

Eloise Regional Project

The Eloise Regional Project consists of approximately 2,000 square kilometres of contiguous, 100% owned tenure immediately surrounding the Eloise mine. The highly endowed project contains a pipeline of targets from early-stage prospects to known resources. Endowment is centred on two geological areas, the 20-kilometre long Levuka Shear Zone, which hosts Eloise mine and the Jericho resource, and the Middle Creek Anticline which hosts the advanced prospects of Sandy Creek, Artemis and Roberts Creek, as well as numerous earlier-stage targets-within a 20-kilometre radius of Eloise.

Exploration in FY25 had a continued focused on copper-gold resource growth at Jericho. Jericho occurs predominantly as two parallel lenses, J1 and J2, with higher grades shoots within the lenses. Step-out extension drilling north of the Jericho resource resulted in the discovery of the Jolly Shoot within the J1 lens, which remains open at depth and to the north, and the Tucker Shoot, located between the Billabong and Swagman Shoots within J2. Mineralisation is defined over a strike length of 5 kilometres.

Cannington Project

The Cannington Project is located 100 kilometres south of Eloise. A program of reverse circulation drilling was completed at the Black Rock Prospect, defined by an extensive trend of copper anomalism defined by copper gossans, high grade rock chips and several shallow drill holes with both elevated copper and zinc results. Results from the drilling confirmed that this is a broad trend of anomalous copper defined along several kilometres of strike, ground-based geophysics to define targets for copper sulphide mineralisation are planned for FY26.

Queensland Projects

In addition to the Eloise Regional and Cannington Projects, AIC Mines holds the Windsor base metal project and Pyramid gold projects south of Charter Towers. A program of reverse circulation drilling was completed at the Windsor Project testing two targets. Follow-up ground-based geophysics to better define target trends are planned for FY26. No material exploration was completed in FY25 at the Pyramid project.

Delamerian Project

The Delamerian Project consists of three large exploration licences in western New South Wales. The project is prospective for mafic-ultramafic intrusive related Ni-Cu deposits and volcanogenic massive sulphide Cu-Zn deposits. Exploration continued with at the project with high-resolution ground gravity acquired at the Koonenberry target area and audio-magnetotelluric data collected along parts of the Loch Lilly and Kars targets. These foundational datasets have facilitated target generation for this frontier region.

Directors' Report

Western Australian Projects

At the Marymia project, applications for forfeiture or objections to exemption from expenditure were submitted to the Wardens Court by Pingem Metals Pty Ltd against the majority of the tenements in the project. AIC Mines was unable to resolve the matter with Pingem and subsequently lower priority tenure was rationalised to a core holding of four granted tenements and two applications. Matters relating to the forfeiture and objections against three of the remaining tenements are still before the Warden's Court. As a result, no material exploration was completed in FY25.

At the Lamil project in the Paterson Province, the management of the project was transferred to 50% joint venture partner Rumble Resources. No material exploration was completed in FY25.

South Australian Project

The Peake and Denison project, located in the Northeast Gawler, and considered prospective for IOCG style deposits such as Prominent Hill and Olympic Dam. No material exploration was completed in FY25 and partner is being sought to advance this project.

4.5 Significant changes in the state of affairs

There were no significant changes in the nature of the activities of the Group during the year, other than those included in the Key Highlights. Further information on likely developments in the operations of the Group and expected results of operations has not been included in this Directors' Report as the Directors believe doing so would likely result in unreasonable prejudice to the Group.

4.6 Significant events after the balance date

Refer to note 33 of the Consolidated Financial Statements for details of events occurring after the reporting year.

4.7 Material business risks

The Group prepares its business plans using estimates of production and financial performance based on a range of assumptions and forecasts. There is uncertainty in these assumptions and forecasts, and risk that variation from them could result in actual performance being different to expected outcomes. The uncertainties arise from a range of factors, including the nature of the mining industry and general economic factors. The material business risks faced by the Group that may have an impact on the operating and financial prospects of the Group as at 30 June 2025 are set out below.

Fluctuations in commodity price and Australian dollar

The Group's revenues are exposed to fluctuations in the copper, gold and silver prices and the Australian dollar exchange rate. Volatility in the copper, gold and silver prices and Australian dollar creates revenue uncertainty and requires careful management of business performance to ensure that operating cash margins are maintained should the Australian dollar commodity price fall. Declining copper, gold and silver prices can also impact operations by requiring a reassessment of the feasibility of a particular exploration or development project. Even if a project is ultimately determined to be economically viable, the need to conduct such a reassessment could cause delays and/or may interrupt operations, which may have a material adverse effect on our results of operations and financial condition.

Mineral Resources and Ore Reserves

The Group's Mineral Resources and Ore Reserves are estimates, based on interpretations of geological data obtained from drill holes and other sampling techniques. Actual mineralisation or geological conditions may be different from those predicted.

Market price fluctuations of copper, gold and silver as well as increased production and capital costs may render the Group's Ore Reserves unprofitable to develop at a particular site or sites for periods of time or may render Ore Reserves containing relatively lower grade mineralisation uneconomic. Ore Reserves may need to be re-estimated based on actual production experience. Any of these factors may require the Group to reduce its Mineral Resources and Ore Reserves, which could have a negative impact on the Group's financial results and prospects.

Replacement of depleted Ore Reserves

The Group must continually replace Ore Reserves depleted by production to maintain production levels over the long term. Ore Reserves can be replaced by discovering extensions to known ore bodies, discovering new deposits or acquiring new deposits. Exploration is highly speculative in nature. The Group's exploration projects involve many risks and are frequently unsuccessful. Once a site with mineralisation is discovered (or acquired), it may take several years from the initial phases of drilling until production is possible. There is no assurance that current or

Directors' Report

future exploration programs will be successful. There is a risk that depletion of Ore Reserves will not be offset by discoveries or acquisitions.

Mining risks and insurance risks

The mining industry is subject to significant risks and hazards, including, but not limited to, environmental hazards, industrial accidents, unusual or unexpected geological conditions, unavailability of materials and equipment, rock bursts, seismic events, cave-ins and severe weather conditions (including flooding and bush fires), most of which are beyond the Group's control. These risks and hazards could result in significant costs or delays that could have a material adverse effect on the Group's financial and operational performance.

There is a risk that unforeseen geological and geotechnical difficulties may be encountered when developing and mining Ore Reserves, such as unusual or unexpected geological conditions, underground access, ambient rock temperature, rock bursts, seismicity and cave ins. Unforeseen geological and geotechnical difficulties could impact production and/or require additional operating or capital expenditure to rectify problems and thereby have an adverse effect on the Group's financial and operational performance.

The Group maintains insurance to cover the most common of these risks and hazards. The insurance is maintained in amounts that are considered reasonable depending on the circumstances surrounding each identified risk. However, property, liability and other insurance may not provide sufficient coverage for losses related to these or other risks or hazards.

Production and cost estimates

The Group prepares estimates of future production, cash costs and capital costs of production for its operations. Failure to achieve production or cost estimates or material increases in costs could have an adverse impact on the Group's future cash flows, profitability, results of operations and financial condition. The Group's actual production and costs may vary from estimates for a variety of reasons, including: actual ore mined varying from estimates of grade, tonnage, dilution and metallurgical and other characteristics; short-term operating factors relating to the Ore Reserves, such as the need for sequential development of ore bodies and the processing of new or different ore grades; revisions to mine plans; risks and hazards associated with mining; natural phenomena such as inclement weather conditions, water availability and floods; and unexpected labour shortages or strikes. Costs of production may also be affected by a variety of factors including changing waste-to-ore ratios, ore grade metallurgy, labour costs, cost of commodities, general inflationary pressures and currency exchange rates.

The actual costs to expand operations or develop projects, and the associated operating performance, may differ materially from estimates due to changes in underlying assumptions, including market conditions, commodity prices and capital costs. Cost overruns and delays in project development or operational expansion may adversely affect the Group's financial position, operational performance and profitability. If the Group experiences delays or cost overruns, it may not realise its operational or development objectives as planned, or such objectives may be achieved at a higher cost or over a longer timeframe than anticipated. These outcomes may have a material adverse effect on the Group's financial and operational performance and the value of its assets.

Environmental, health, safety and permitting risks

The Group's mining and processing operations and exploration activities are subject to laws and regulations governing the protection and management of the environment, water management, waste disposal, worker health and safety, mine development and rehabilitation and the protection of endangered and other special status species. The Group's ability to obtain permits and approvals and to successfully operate may be adversely impacted by real or perceived detrimental events associated with the Group's activities or those of other mining companies affecting the environment, human health and safety of the surrounding communities. Delays in obtaining or failure to obtain government permits and approvals may adversely affect the Group's operations, including its ability to continue operations.

The Group has implemented health, safety and community initiatives at its sites to manage the health and safety of its employees, contractors and members of the community. While these control measures are in place there is no guarantee that these will eliminate the occurrence of incidents which may result in personal injury or damage to property. In certain instances, such occurrences could give rise to regulatory fines and/or civil liability.

Climate change

The Group recognises that physical and non-physical impacts of climate change may affect assets, productivity, markets and the community. Risks related to the physical impacts of climate change include the risks associated with increased severity of extreme weather events and chronic risks resulting from longer-term changes in climate patterns. Non-physical risks and opportunities arise from a variety of policy, legal, technological and market responses to the challenges posed by climate change and the transition to a lower carbon world.

Directors' Report

Finance risk

The Group has executed final documentation for a senior secured debt facility with Trafigura Asia Trading Pte. Ltd ("Trafigura"). Drawdown under the facility is subject to the satisfaction of customary conditions precedent. Any delay or failure to satisfy these conditions may result in a deferral or indefinite postponement of planned activities. CPs had been satisfied post 30 June 2025 and the facility is available for drawdown.

Drawdown of this facility will result in the Group's debt levels increasing, resulting in greater exposure to risks associated with financial leverage, including sensitivity to interest rate and foreign exchange movements. The Group's ability to meet its debt servicing obligations will depend on its financial position, operational performance and cash flows, all of which may be affected by factors outside of its control.

Failure to meet repayment obligations may lead to financial penalties, increased interest charges, or reduced access to future funding. In addition, a breach of financial covenants could result in the facility becoming repayable earlier than anticipated, which may have a material adverse impact on the Group's financial position and operating flexibility.

Risk management

The Group manages the risks listed above, and other day-to-day risks through an established risk management framework which conforms to Australian and international standards and guidance. The Group's risk reporting and control mechanisms are designed to ensure strategic, operational, legal, financial, reputational and other risks are identified, assessed and appropriately managed. These are reviewed by the Board and the Risk and Sustainability Committee, supported by management review throughout the year. The financial reporting and control mechanisms are reviewed during the year by management, the Audit Committee and the Risk and Sustainability Committee and the external auditors.

The site leadership team, the executive leadership team and the Board regularly review the risks of the business and the effectiveness of the Group's management of those risks.

Environmental regulation and performance

The Managing Director and Chief Executive Officer reports to the Board on all significant environmental incidents. The Board also has a Risk and Sustainability Committee which has oversight of the sustainability performance of the Group. The Directors are not aware of any environmental incidents occurring during the year ended 30 June 2025 which would have a materially adverse impact on the overall business of the Group.

The operations of the Group are subject to stringent environmental regulation. All of the Group's mining and exploration operations are subject to environmental regulation specific to its environmental activities as part of their operating licence, permit and/or approvals.

5 Auditor independence and non-audit services

KPMG has been appointed by the Board as the Company's external auditor effective 21 May 2025, following the resignation of PricewaterhouseCoopers ("PwC"). The change in auditor follows a review of the Company's external audit arrangements, with KPMG selected based on its industry expertise and competitive fee structure. A resolution will be put to shareholders at the Company's 2025 Annual General Meeting to ratify the appointment of KPMG as the company's auditor.

5.1 Non-audit services

The services provided by the Group's auditors are disclosed in note 32 to the consolidated financial statements. The Company may decide to employ the auditor on assignments additional to their statutory audit duties where the auditor's expertise and experience with the company and/or the group are important. During the year, there were no non-audit services provided by the Group's auditors.

The Board of Directors, in accordance with advice provided by the Audit Committee, is satisfied that the provision of services is compatible with the general standard of independence for auditors imposed by the Corporations Act 2001. The Directors are satisfied that no non-audit services were provided by the auditor and as such did not compromise the auditor independence requirements of the Corporations Act 2001.

5.2 Auditor independence

Section 370C of the Corporations Act 2001 requires our auditors, KPMG, to provide the Directors of the Group with an Independence Declaration in relation to the audit of the financial report. This Independence Declaration is disclosed on page 14 of this report and forms part of this Directors' Report for the year ended 30 June 2025.

Lead Auditor's Independence Declaration under Section 307C of the Corporations Act 2001

To the Directors of AIC Mines Limited

I declare that, to the best of my knowledge and belief, in relation to the audit of AIC Mines Limited for the financial year ended 30 June 2025 there have been:

- i. no contraventions of the auditor independence requirements as set out in the *Corporations Act 2001* in relation to the audit; and
- ii. no contraventions of any applicable code of professional conduct in relation to the audit.

KPMG.

Remuneration Report (audited)

1 Introduction

This Remuneration Report forms part of the Directors' Report for the year ended 30 June 2025. This report contains details of the remuneration paid to the Directors and other Key Management Personnel (collectively "KMP") and sets out the Company's overall remuneration strategy and framework. The information provided in this report has been audited as required by section 308(3C) of the Corporations Act 2001 (Cth) ("Corporations Act").

This report details the remuneration and fees during FY25 of the KMP of the Company, who are listed in the table below. For the remainder of this Remuneration Report, the KMP are referred to as either Executive KMP or Non-Executive Directors. All Non-Executive Directors listed below have held their respective positions for the full financial year.

1.1 Key Management Personnel for FY25

Name	Role held during FY25	Committee positions held
Non-Executive Directors		
Josef El-Raghy	Chairman and Non-Executive Director	Member of Remuneration & Nomination Committee Member of Audit Committee Member of Risk & Sustainability Committee
Brett Montgomery	Non-Executive Director	Chair of Remuneration & Nomination Committee Member of Audit Committee Member of Risk & Sustainability Committee
Jon Young	Non-Executive Director	Chair of Risk & Sustainability Committee Member of Remuneration & Nomination Committee Member of Audit Committee
Linda Hale	Non-Executive Director	Chair of Audit Committee Member of Risk & Sustainability Committee Member of Remuneration & Nomination Committee

Executive KMP	Role held during FY25	Dates
Aaron Colleran ¹	Managing Director and Chief Executive Officer (CEO)	Full year
Tim Benfield	Chief Operating Officer	Full year
John Callagher	Chief Financial Officer	Appointed on 12 May 2025
Michael Frame	Chief Financial Officer	Full year Ceased on 1 July 2025

¹Mr. Colleran is also a member of the Risk & Sustainability Committee.

2 Remuneration governance, principles and framework

2.1 Remuneration governance

The Board maintains overall responsibility for remuneration governance and is responsible for ensuring that the Company's remuneration structures are equitable and aligned with the long-term interests of the Company and its shareholders.

The Board has established a Remuneration and Nomination Committee, whose role is to:

- assist the Board in ensuring the Company has effective policies and practices for attracting, remunerating and retaining Group employees and Directors; including fair and compliant reward programs; and
- make recommendations to the Board regarding the recruitment, retention and termination arrangements and policies for Directors; as well as appropriate competencies of directors and succession plans.

Remuneration Report

The Committee's responsibilities include the review of the Directors' remuneration, and the review and approval of senior executives' remuneration.

The Remuneration and Nomination Committee has a formal charter, which sets out its roles and responsibilities, composition structure and membership requirements. A copy of this charter can be viewed on the AIC Mines website.

Further information regarding the Remuneration Nomination Committee's role, responsibilities and membership is set out in the Company's Corporate Governance Statement.

From time to time, the Remuneration and Nomination Committee seeks and considers advice from external advisors who are engaged by and report directly to the Remuneration and Nomination Committee. Any advice received from independent advisors is used as a guide and is not a substitute for thorough consideration by the Committee.

The Remuneration and Nomination Committee is chaired by Mr. Brett Montgomery, an independent Non-Executive Director. The Committee is responsible for determining and reviewing compensation arrangements for the Directors and other KMP, in accordance with the Remuneration and Nomination Committee Charter. Any affected Director or other KMP will not participate in the decision-making process.

2.2 Remuneration strategy

The Group's remuneration strategy was adopted by the Group in December 2021. In summary, the remuneration strategy is to attract and retain high-quality and appropriately experienced Directors, executives and employees by remunerating them fairly and appropriately with reference to relevant and prevailing employment market conditions. AIC Mines targets market median fixed remuneration and top quartile variable remuneration opportunity when benchmarked to the Australian hard rock mining industry. This strategy was designed to ensure a disciplined fixed cost base while providing material incentive and reward for performance. Remuneration packages are reviewed at least annually by benchmarking to industry remuneration surveys and where appropriate comparison to comparable mining companies where available. The objectives of the Group's executive remuneration strategy are to:

- provide market competitive levels of fixed remuneration and top quartile levels of variable remuneration relative to comparable peer companies' having regard to the level of work and the impact executives can potentially have on the performance of the Group;
- attract, retain, motivate, and reward an executive team capable of delivering business objectives and growth;
- align incentives for executives with shareholder interests; and
- comply with the Group's standards of corporate governance.

Remuneration packages are reviewed annually using industry and peer group benchmarking and are amended when deemed appropriate, given the Group's financial position and performance at the time. There are no guaranteed increases to the fixed remuneration included in employment contracts and no guaranteed grants of any variable remuneration components for KMP.

2.3 Remuneration framework – Executive KMP

Remuneration packages are made up of fixed and variable remuneration. Total fixed remuneration ("TFR") is cash paid in the form of salary and superannuation. Variable remuneration is made up of short-term incentives ("STI") and long-term incentives ("LTI"). STIs are ordinarily in the form of cash bonuses paid for a financial year, subject to individual and company performance. LTIs are provided as performance rights subject to performance hurdles and a multi-year performance period according to the Company's Equity Participation Plan as re-approved by shareholders at the annual general meeting on 22 November 2023.

The remuneration mix for Executive KMPs has been purposely designed to ensure competitive fixed remuneration coupled with material variable opportunity linked to performance.

The table below shows the remuneration mix for Executive KMP if maximum opportunity of variable remuneration incentives were to be awarded.

Remuneration Report

The table below shows the maximum opportunity for Executive KMPs as a percentage of Total Fixed Remuneration ("TFR")

Executive KMP - maximum opportunity as a percentage of TFR		
Executive KMP	STI	LTI
Managing Director and CEO	100%	150%*
Other Executive KMP	50%	150%

*Mr. Collieran's maximum LTI opportunity was changed from 200% TFR to 150% of TFR effective 1 July 2024 following the increase of his fixed remuneration from \$500,000 to \$700,000.

Total Fixed Remuneration (TFR)

Executive KMPs are offered a competitive fixed remuneration comprised of base salary and applicable legislated superannuation contributions. Superannuation contributions are capped at the legislated maximum employer superannuation contribution cap.

Short Term Incentive (STI)

Executive KMPs are eligible for an annual STI based on a percentage of their fixed remuneration. The calculation and payment of any STI is determined at the discretion of the Board following review and a recommendation from the Remuneration and Nomination Committee and includes consideration of the individual's performance as well as the performance of the Group for the year against key performance indicators set by the Board at the beginning of the year.

Long Term Incentive (LTI)

Pursuant to the AIC Mines Equity Participation Plan ("EPP"), which was reapproved by shareholders on 22 November 2023, Executive KMPs participate in the EPP whereby long-term incentives ("LTIs") in the form of performance rights or share options may be offered. The Board considers that LTIs are a cost-effective and efficient incentive and retention mechanism.

The purpose of the EPP is to:

- assist in the attraction, retention, reward, and motivation of EPP participants;
- link the reward of EPP participants to longer term performance and creation of shareholder value;
- align the interests of EPP participants more closely with the interests of shareholders by providing an opportunity for EPP participants to receive an equity interest in the form of options, performance rights and/or shares;
- provide EPP participants with the opportunity to share in any future growth in value of the Group, and
- provide greater incentive for EPP participants to focus on the Group's longer-term goals.

The Managing Director and Chief Executive Officer is eligible for an annual grant of LTIs in the form of performance rights up to 150% of fixed remuneration, subject to shareholder approval. Other Executive KMPs are also eligible for annual grants of LTIs in the form of performance rights up to 150% of fixed remuneration. The grant of any LTI is at the absolute discretion of the Board and is subject to approval by the Board.

The calculation and vesting of any LTIs will be based on the performance of the Group for each period and assessed against performance hurdles approved by the Board at the beginning of the period. Performance hurdles of absolute share price performance, relative share price performance when compared to a peer group, and Mineral Resource and Ore Reserve growth have been used to date but may be varied in future.

Since the adoption of the Group's remuneration strategy, LTIs have been issued annually spanning a 3-year performance period with the exception of the FY22 LTI issue which had a shorter performance period to allow for the transition from a January to December financial year to a July to June financial year. All unvested LTIs have the same performance hurdles as described in section 2.4 below.

The chart below shows the LTIs issued since the adoption of the Group's remuneration strategy and their respective performance period noting the FY23 LTI performance period has closed and is discussed in this report.

Remuneration Report

2.4 LTIs issued in the year

Set out below is the FY25 LTI scorecard which sets the goals and vesting conditions adopted and approved by the Board in relation to the grant of performance rights issued to Executive KMPs during the year ended 30 June 2025 for the performance period 1 July 2024 to 30 June 2027.

Goal	Weighting	Measure	Level of vesting
Total Shareholder Return – Absolute (“TSRA”) ¹	30%	Share price increase greater than 50%	100%
		Share price increase between 25% and 50%	Pro rata 75%-100%
		Share price increase 10% and 25%	Pro rata 50%-75%
		Share price <10%	Nil
Total Shareholder Return – Relative (“TSRR”) ²	30%	Equal to or above 75th percentile	100%
		Equal to or above 50th percentile and below the 75th percentile	Pro rata vesting on a straight-line basis between 50% and 100%
		Less than 50th percentile	Nil
Copper equivalent Ore Reserve growth ³	20%	Depletion* replacement +>10% increase	100%
		Between depletion replacement and up to 10% increase	Pro rata vesting on a straight-line basis between 50% and 100%
		Depletion* replaced	50%
		Depletion* not replaced	Nil
Copper equivalent Mineral Resource growth ³	20%	Depletion* replacement +>10% increase	100%
		Between depletion* replacement and up to 10% increase	Pro rata vesting on a straight-line basis between 50% and 100%
		Depletion* replaced	50%
		Depletion* not replaced	Nil

¹ TSRA measured by calculating the percentage by which the 30-day volume weighted average share price quoted on the ASX (VWAP) at close of trade on the first day of the performance period (1 July 2024) has increased compared to the 30-day VWAP quoted on the ASX on the last day of the performance period (30 June 2027).

² TSRR measured by calculating the TSRA over the performance period compared to peer companies. Peer companies may be updated over time, with Board approval. Refer to section 2.5 for the peer entities used for the relevant period.

³ 30 June 2025: Reserve and Resource growth is calculated by comparing JORC compliant MROR current at the first day of the performance period (1 July 2024) to MROR at the last day of the performance period (30 June 2027).

* Depletion refers to mining depletion.

2.5 Peer groups used

Peer groups are set and used for the purposes of the Total Shareholder Return Relative (TSRR) performance goal. Peer groups are made up of comparable mining companies, ideally ASX listed Australian base metal producers. Non-base metal producers may be used if other suitable base metal producers are not available to ensure a suitably sized peer group of 10-15 peers. If non-base metal producers are used, then the mine size is ideally similar to that of Eloise.

Remuneration Report

Peer Group Entities			
Name	FY23	FY24	FY25
29 Metals			✓
Aeris Resources	✓	✓	✓
Aurelia Metals	✓	✓	✓
Austral Resources	✓	✓	
Carnaby Resources		✓	✓
Copper Mountain Mining Corp	✓		
Cyprium Metals	✓	✓	✓

Sandfire Resources			✓
True North Copper		✓	✓

The Board has the discretion to adjust the composition and number of the peer group companies to take into account events, including but not limited to, takeovers, mergers, and demergers that might occur during the performance period.

3 FY25 remuneration outcomes

3.1 Company performance

The table below shows the Group's financial performance for the year along with the last four (4) accounting periods:

Performance Summary	FY25	FY24	FY23	FY22 ¹	FY21 ²
Revenue (\$M)	189.6	180.5	125.6	79.3	24.8
EBITDA (\$M)	63.2	51.8	24.4	29.2	7.5
Net profit / (loss) after tax (\$M)	15.0	7.7	(5.8)	21.2	1.8
Closing share price (\$)	\$0.30	\$0.42	\$0.41	\$0.55	\$0.53
Net tangible asset per share (\$)	\$0.39	\$0.38	\$0.50	\$0.40	\$0.32
Copper in concentrate (t)	12,863	13,412	10,559	5,874	2,392
All-in Cost (\$/lb)	5.37	5.39	6.43	5.11	3.29

¹ Six-month transitional financial period resulting from the change of financial year end from 31 December to 30 June.

² Upon revising the provisional fair values of Eloise (acquired 1 November 2021), prior period comparative figures have been restated.

3.2 Executive KMP

Fixed remuneration

Following market benchmarking and comparative analysis of peer companies and to reflect the increased complexity and sophistication of the Group as it enters a critical growth stage the following changes to fixed remuneration were made in the period.

Remuneration Report

Aaron Collieran's fixed remuneration was increased from \$500,000 to \$700,000 effective 1 July 2024. Mr. Collieran has agreed to defer \$200,000 of his fixed remuneration in FY26. The deferred amount of \$200,000 will be paid in two equal instalments, the first in January 2026 and the second in July 2026. These deferred amounts are contingent on the achievement of certain Group cash balance targets.

Tim Benfield's fixed remuneration was increased from \$300,000 to \$306,000 for the period 1 July 2024 to 31 December 2024 and from \$306,000 to \$330,000 for the period 1 January 2025 to 30 June 2025.

Michael Frame's fixed remuneration was increased from \$275,000 to \$286,000 effective 1 July 2024. Mr. Frame ceased employment with the Group on 1 July 2025.

John Callagher was appointed Chief Financial Officer on 12 May 2025. Mr. Callagher's fixed remuneration was set at \$330,000.

Variable remuneration

Short Term Incentive

The table below provides a summary of the STI performance results achieved in the FY25 period. For simplicity the goals have been grouped into goal topics in the STI metric column of the table.

Group STI Scorecard			
STI Metric	Weighting	Percentage of goals achieved	Weighted Score
Result for 12 months to 30 June 2025			
Financial Delivery ¹	25%	44%	11%
Sustainability ²	30%	67%	20%
Operational Excellence ³	25%	36%	9%
Growth ⁴	20%	50%	10%
Total	100%		50%

¹ Financial Delivery comprises targets relating to budget, Eloise all-in cost and securing funding for the Eloise processing plant expansion and Jericho mine development.

² Sustainability comprises targets relating to safety initiatives, recruitment of key roles & environmental approvals.

³ Operational Excellence comprises targets relating to the Jericho link drive and Eloise production.

⁴ Growth comprises targets relating to both exploration and acquisition of projects.

The Group STI scorecard outcome of 50% was lower than the prior year result (59%). Relatively good outcomes in sustainability were recorded where proactive safety initiatives, labour recruitment and retention targets and environmental permit goals were mostly met. Performance against financial delivery, operational excellence and growth outcomes were mixed - Jericho debt funding and Eloise copper production goals were met but an Eloise operating cost goal and a growth by acquisition goal were not met.

During the year, the following FY25 STI results were achieved.

STI Outcomes	Maximum STI achievable (% of TFR)	STI achieved (% of TFR) ¹	STI payment
30 June 2025			
A Collieran	100%	56%	\$392,000
M Frame ²	50%	19%	\$53,800
T Benfield	50%	25%	\$83,800
J Callagher ³	-	-	-

¹ The final STI achieved % for Mr. Collieran is based on a 70% weighting to the Group STI Scorecard result and a 30% weighting to his individual result. Mr. Frame's and Mr. Benfield's final STI achieved % is based on a 60% weighting to the Group STI Scorecard result and a 40% weighting to their individual results.

² Mr. Frame resigned on 1 July 2025.

³ Mr. Callagher was appointed on 12 May 2025 as Chief Financial Officer and, as such, was not entitled to the FY25 STI.

Remuneration Report

3.3 LTI Outcomes

Outcomes for the FY23 performance rights vesting as scored in accordance with the FY23 LTI scorecard available in the AIC Mines FY23 Annual Report for the period 1 July 2022 to 30 June 2025, as approved by the Board in August 2025 are set out below.

Performance Target	Measure	Weighting	FY25 Outcome	Level of Vesting	% Vested
Absolute TSR	Compound annual return	30%	-28.0%	0%	0%
Relative TSR	Percentile rank	30%	93 rd	100%	30%
Copper Equivalent Ore Reserves Growth	Percentage increase	20%	355%	100%	20%
Copper Equivalent Mineral Resources Growth	Percentage increase	20%	377%	100%	20%
Total Vested					70%

A total of 3,110,859 LTIs were issued in FY23 for the performance period 1 July 2022 to 30 June 2025. Three of the four FY23 LTI performance targets were achieved resulting in a 70% (2,177,601 performance rights) of possible 100% vesting result.

Absolute TSR was not met due to the depreciation of the Company share price in the performance period resulting in a 0% result. Relative TSR was met with the Group's TSR performance ranking in the top quartile of the relevant peer group. Both copper equivalent ore reserves and resources growth performance targets were materially exceeded achieving a 100% result.

Executive KMP LTI awards vesting in FY25

The table below sets out the Executive KMP LTI awards vesting in FY25 considering the 70% performance result approved by the Board for the FY23 LTIs.

Executive KMP	FY23 Performance Rights issued	% Vested	Performance Rights vested ³	Performance Rights value ⁴
A Collieran	2,262,443	70%	1,583,710	\$467,194
M Frame	848,416	70%	593,891	\$175,198
T Benfield ¹	-	-	-	-
J Callaghan ²	-	-	-	-

¹ Mr. Benfield was appointed on 29 January 2024 and, as such, was not entitled to performance rights relating to the FY23 grant.

² Mr. Callaghan was appointed on 12 May 2025 and, as such, was not entitled to performance rights relating to the FY23 grant.

³ Incentives related to the FY23 performance rights grant that met the performance criteria and vested during the year.

⁴ Performance rights value is calculated by using the closing share price of \$0.295 at 30 June 2025 multiplied by the number of vested rights.

* Linda Hale (Non-Executive Director) received a vesting of 123,530 performance rights in relation to Ms. Hale's time as an executive of AIC Mines (resigned as Company Secretary on 31 January 2023).

Remuneration Report

3.4 Summary of Executive KMP realised remuneration outcomes

Details of the remuneration of the Executive KMP of the Group for the year are set out in the following tables. Other than the information disclosed in the tables below, no Executive KMP received any additional compensation in either the current or comparative periods. See statutory remuneration disclosures under section 5.1.

Executive KMP Remuneration - total (non-IFRS)

	Short-term employee benefits		Post-employment benefits	Other Entitlements	Share-based Payments	Total	Percentage of remuneration that is performance-related
Executive KMP	Salary and fees	Cash bonus	Superannuation	AL & LSL	Performance rights face value ¹		
	\$	\$	\$	\$	\$	\$	%
A Colleran							
2025	670,068	392,000	29,932	124,638	467,194	1,683,832	51%
2024	472,601	322,222	27,399	60,942	493,209	1,376,373	59%
T Benfield							
2025	288,068	83,800	29,932	9,912	-	411,712	20%
2024	116,120	37,500	12,342	6,751	-	172,713	22%
J Callagher ²							
2025	42,318	-	4,867	3,226	-	50,411	-
2024	-	-	-	-	-	-	-
M Frame ³							
2025	256,502	53,800	29,932	157	175,198	515,589	44%
2024	247,748	75,000	27,252	(4,528)	184,953	530,425	49%
Total ⁴							
2025	1,256,956	529,600	94,663	137,933	642,392	2,661,544	
2024	836,469	434,722	66,993	63,165	678,162	2,079,511	

¹ Face value of share-based rights is calculated by using the closing share price of \$0.295 at 30 June 2025 (2024: \$0.415) multiplied by the number of vested rights.

² Mr. Callagher was appointed on 12 May 2025 and current remuneration is \$330,000 per annum including superannuation.

³ Mr. Frame ceased employment on 1 July 2025.

⁴ Premium for Director's liability insurance is not included in the remuneration table above and no termination payments were paid in FY24 or FY25.

Executive KMP service agreements

The table below provides a summary of executive KMP service agreements in regard to date of agreement, notice period, and termination payments.

Name and Position	Date of Service Agreement	Term of Service Agreement	Notice Period	Termination Payments
Current Executive KMP				
Aaron Colleran <i>Managing Director / CEO</i>	17 April 2019	Open	12 months	12 months
Tim Benfield <i>Chief Operating Officer</i>	29 January 2024	Open	6 weeks	6 weeks
John Callagher <i>Chief Financial Officer</i>	8 April 2025	Open	6 weeks	6 weeks
Michael Frame ¹ <i>Chief Financial Officer</i>	30 November 2021	Open	6 weeks	6 weeks

¹ Mr. Frame ceased employment on 1 July 2025.

All Executive KMP contracts give the Company discretion to make payment in lieu of notice. No notice is required where termination is for cause. The contracts do not provide for any termination payments other than payment in lieu of notice. No termination payments were paid in FY25.

Treatment of unvested incentives is dealt with in accordance with the terms of the grant. In general, under the LTI arrangements, unvested entitlements will be forfeited where an executive is terminated. In all other circumstances, the Board retains discretion as to whether outgoing executives retain all or a portion of their entitlements (subject to any applicable performance conditions in the case of LTI arrangements).

Remuneration Report

4 Non-Executive Director remuneration

This section explains the fees paid to Non-Executive Directors during FY25. Non-Executive Director fees are designed to ensure that the Company can attract and retain suitably qualified and experienced Non-Executive Directors. Non-Executive Directors do not receive LTI for their membership of the Board, Committees, or Boards of subsidiaries. During the year, Non-Executive Directors did not receive any issue or award of long-term incentives. The Group had no contractual obligations to provide long-term incentives to Non-Executive Directors.

Non-Executive Directors are also reimbursed for travel and other expenses reasonably incurred when attending meetings of the Board or in connection with the business of the Company.

The Remuneration and Nomination Committee, reviews and makes recommendations to the Board with respect to Non-Executive Director fees and Committee fees.

Fixed remuneration paid to Non-Executive Directors will not exceed the maximum approved amount of \$750,000 per annum (approved by shareholders on 3 March 2008). The Board seeks to set fixed remuneration at a level which provides the Group with the ability to attract and retain Directors of high calibre, whilst incurring a cost which is acceptable to shareholders. The amount of fixed remuneration sought to be approved by shareholders and the manner in which it is apportioned amongst Directors is reviewed annually. The Board considers fees paid to Non-Executive Directors of comparable companies when undertaking a regular review, as well as the time commitment required. Remuneration of Non-Executive Directors for the year ended 30 June 2025 is disclosed in section 4.1 of this Report.

4.1 FY25 Non-Executive Director statutory remuneration table

	Short-term employee benefits	Post-employment benefits	
Name	Salary and fees	Superannuation	Total
	\$	\$	\$
J El-Raghy			
2025	81,448	9,366	90,814
2024	81,448	8,959	90,407

2024	836,469	434,722	66,993	63,165	1,043,156	2,444,505	

¹ Mr. Callaghan was appointed on 12 May 2025 as Chief Financial Officer and, as such, not entitled to any performance rights as of balance date.

² Mr. Frame resigned on 1 July 2025.

³ Mr. Frame was determined to be a good leaver, as such, the amortisation on his remaining performance rights has been accelerated, and the service condition has been waived.

5.2 Movement in rights held by Executive KMP

The movement for the reporting period by number and value of equity instruments in the Company held by each Executive KMP is detailed below.

Name	Opening balance ³	Granted as compensation during year	Vested during year	Exercised during year	Lapsed during year ⁹	Balance at 30 June 2025 ¹⁰	Vested and exercisable	Unvested at end of period ⁸
A Colleran	10,447,783	2,371,488	1,583,710	500,000	678,733	11,640,538	6,772,165 ⁷	4,868,373 ⁴
T Benfield	-	1,036,679	-	-	-	1,036,679	-	1,036,679 ⁵
J Callaghan ¹	-	-	-	-	-	-	-	-
M Frame ²	2,324,051	968,922	593,891	445,670	254,525	2,592,778	593,891	1,998,887 ⁶
Total	12,771,834	4,377,089	2,177,601	945,670	933,258	15,269,995	7,366,056	7,903,939

¹ Mr. Callaghan was appointed on 12 May 2025 as Chief Financial Officer and, as such, not entitled to any performance rights as of balance date.

² Mr. Frame resigned on 1 July 2025. The expense has been accelerated during the year as Mr. Frame was determined to be a good leaver, and the service condition has been waived.

³ The opening balance does not include 700,340 performance rights relating to LTI awards that were tested and deemed to have lapsed, effective at 30 June 2024.

⁴ Mr. Colleran's unvested performance rights relate to 2,496,885 LTIs granted on 22 November 2023 and 2,371,488 LTIs granted on 20 November 2024. The maximum amortised value of Mr. Colleran's remaining unvested performance rights is \$1,258,202 and the minimum value is \$629,555.

⁵ Mr. Benfield's unvested performance rights relate to 1,036,679 LTIs granted on 23 August 2024. The maximum amortised value of Mr. Benfield's remaining unvested performance rights is \$266,157 and the minimum value is \$129,315.

⁶ Mr. Frame's unvested performance rights relate to 1,029,965 LTIs granted on 18 September 2023 and 968,922 LTIs granted on 23 August 2024.

⁷ Mr. Colleran has exercised 1,000,000 performance rights on 7 August 2025.

⁸ All unvested LTIs have the same performance hurdles as described in section 2.4.

⁹ Lapsed performance rights relate to LTI awards tested and deemed to have lapsed, effective 30 June 2025.

¹⁰ The performance rights issued have a zero-exercise price. The performance rights may be exercised on or after the vesting date. With the exception of the performance rights granted 3 June 2019 (which have a 15-year expiry period), all performance rights will expire on its fifth anniversary from issue date, if not exercised prior.

Remuneration Report

The fair value at grant date of each tranche of unvested LTIs for other Executive KMP and the Managing Director and Chief Executive Officer are set out in the table below.

Performance rights issue	Absolute TSR	Relative TSR	Growth in Ore Reserve	Growth in Mineral Resources
Other KMP				
Fair value at grant date for financial year 2025 issue	\$0.17	\$0.24	\$0.33	\$0.33
Fair value at grant date for financial year 2024 issue	\$0.21	\$0.16	\$0.34	\$0.34
Fair value at grant date for financial year 2023 issue	\$0.33	\$0.42	\$0.50	\$0.50
Managing Director and Chief Executive Officer				
Fair value at grant date for financial year 2025 issue ¹	\$0.15	\$0.22	\$0.31	\$0.31
Fair value at grant date for financial year 2024 issue ²	\$0.20	\$0.29	\$0.34	\$0.34
Fair value at grant date for financial year 2023 issue ³	\$0.30	\$0.42	\$0.48	\$0.48

¹ Financial year 2025 performance rights approved at the AGM on 20 November 2024.

² Financial year 2024 performance rights approved at the AGM on 22 November 2023.

³ Financial year 2023 performance rights approved at the AGM on 24 November 2022.

5.3 Movement in ordinary shares held by KMP

The movement during the reporting period in the number of ordinary shares in the Company held directly, indirectly or beneficially by Executive KMP and each Non-Executive Director, including their related parties, is as follows.

	Opening Balance	Received on exercise rights	Other net changes	Balance at 30 June 2025
Non-Executive Directors				
J El-Raghy ¹	37,300,000	-	2,700,000	40,000,000
B Montgomery	25,000	-	-	25,000
J Young ²	819,055	-	200,000	1,019,055
L Hale	-	228,183	192,308	420,491
Executive KMPs				
A Colleran ^{1 3}	11,000,000	500,000	600,000	12,100,000
T Benfield	-	-	-	-
J Callagher ⁴	-	-	-	-
M Frame ⁵	1,101,556	445,670	(300,000)	1,247,226

¹ There are commitments to Mr. El-Raghy and Mr. Colleran to acquire 1,000,000 shares respectively in the Tranche 2 Placement upon receiving shareholders' approval.

² Mr. Young purchased an additional 200,000 shares through the Shareholder Purchase Plan on 1 August 2025.

³ Mr. Colleran has exercised his performance rights on 7 August 2025 and received 1,000,000 shares.

⁴ Mr. Callagher was appointed on 12 May 2025.

⁵ Mr. Frame resigned on 1 July 2025.

Signed in accordance with a resolution of the Directors.

Mr. Aaron Colleran

Managing Director and Chief Executive Officer

20 August 2025

Consolidated Statement of Profit or Loss and Other Comprehensive Income

Notes to the Consolidated Financial Statements

FOR THE YEAR ENDED 30 JUNE 2025

1 REPORTING ENTITY

AIC Mines Limited ("AIC Mines" or "the Company") is a for profit company domiciled in Australia and publicly listed on the Australian Stock Exchange (ASX). The Company was incorporated on 9 June 1993. The address of the Company's registered office is Suite 3, 130 Hay Street, Subiaco WA 6008. The nature of the operations and principal activities of the Company are described in the Directors' Report.

The consolidated financial statements of the Company as at and for the year comprise the Company and its subsidiaries (together referred to as the "Group"). The consolidated financial statements were authorised in accordance with a resolution of the Directors dated 20 August 2025 for issue on 21 August 2025.

2 BASIS OF PREPARATION

Statement of compliance

This financial report is a general-purpose financial report, prepared by a for-profit entity, in accordance with the requirements of the Corporations Act 2001, Australian Accounting Standards and other authoritative pronouncements of the Australian Accounting Standards Board (AASB). The financial report also complies with the International Financial Reporting Standards (IFRS) including interpretations as issued by the International Accounting Standards Board (IASB).

The financial report has been presented in Australian dollars, and all values are rounded to the nearest \$1,000 (\$'000) unless otherwise stated. The accounting policies have been consistently applied by all entities included in the Group and are consistent with those applied in the prior periods.

Basis of measurement

The consolidated financial statements are prepared on the historical cost basis with the exception of financial assets held at fair value through profit or loss (note 11).

Functional and presentation currency

These financial statements are presented in Australian dollars \$, which is the Group's functional currency.

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in profit or loss.

Subsidiaries

The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of AIC Mines Limited as at 30 June 2025 and the results of all subsidiaries for the year. Subsidiaries are all those entities (including special purpose entities) over which the Company has control. Control over an entity exists where the Company is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through the power over the investee. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Company controls another entity.

Subsidiaries are fully consolidated from the date on which control is obtained by the Company. They are de-consolidated from the date that control ceases. Intercompany transactions, balances, and unrealised profits on transactions between Group entities are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

New accounting standards and interpretations

A number of standards, amendments, and interpretations were applicable for the first time from 1 July 2024, and earlier application is permitted. These have not had a significant or immediate impact on the Group's financial statements. New standards and interpretations are also available for early adoption from 1 July 2025. The amendments to these standards are not expected to have a material impact on the Group's financial statements. The Group has not early adopted any new or amended accounting standards in preparing these consolidated financial statements. Comparative information is reclassified where appropriate to enhance comparability or in conformity with revised standards and interpretations.

For personal use only

Notes to the Consolidated Financial Statements

FOR THE YEAR ENDED 30 JUNE 2025

Accounting standards and interpretations issued but not yet effective

In June 2024, the Australian Accounting Standards Board issued AASB 18 *Presentation and Disclosure in Financial Statements [for for-profit entities]* ("AASB 18"). Upon adoption, AASB 18 replaces AASB 101 *Presentation of Financial Statements* and is applied retrospectively to comparative periods presented.

The key presentation and disclosure requirements established by AASB 18 are:

- The presentation of newly defined subtotals in the statement of comprehensive income – operating profit and profit before financing and income taxes;
- The disclosure of management-defined performance measures; and
- Enhanced requirements for grouping (aggregation or disaggregation) of financial information.

The standard is effective for the Group for the full year ending 30 June 2028, with earlier adoption permitted.

The Group is currently working to identify all impacts the amendments will have on the primary financial statements and notes to the financial statements.

3 MATERIAL ACCOUNTING POLICIES

The following is a summary of the material accounting policies adopted by the Group in the preparation of the financial report. The accounting policies detailed below have been consistently applied throughout the year presented, unless otherwise stated.

Cash and cash equivalents

Cash comprises cash at bank and on hand and deposits held at call with banks. Cash equivalents are short term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Property, plant and equipment

Property, plant and equipment is stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the consolidated entity and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the profit or loss during the financial year in which they are incurred.

Depreciation of operational assets is calculated based on units of production over the Ore Reserve life of the operation. Depreciation of other assets is calculated using the straight-line method over a 2-5 year period to allocate their cost, net of their residual values, over their estimated useful lives. Land is not depreciated. The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. Profits and losses on disposals are determined by comparing proceeds with carrying amounts and are included in the profit or loss.

The Directors have considered the economic life of plant and equipment with due regard to the physical life limitations. The estimated remaining useful life for all such assets is reviewed regularly with annual re-assessments being made for major items.

Mines under construction

Mines under construction represent the cost of developing mining properties and related infrastructure once the technical feasibility and commercial viability of the project have been established. When construction is completed, or when commercial production has been determined, the assets are reclassified to the relevant category of property, plant and equipment or mine properties.

Development expenditure includes direct construction costs, pre-production costs necessary to bring the mine into the condition required for its intended use, and qualifying borrowing costs incurred during the construction phase. When there is a development milestone that triggers payment, this is recognised when present obligations are deemed probable and is capitalised into the cost of the mines under construction. These costs are not amortised until the asset is available for use, which is typically when commercial production is achieved.

The carrying value of mines under construction is assessed for impairment whenever facts and circumstances suggest that the carrying amount may exceed its recoverable amount.

Notes to the Consolidated Financial Statements

FOR THE YEAR ENDED 30 JUNE 2025

Mining properties and exploration

Mine properties

Mine properties include aggregate expenditure in relation to mine construction and mine development. Expenditure incurred in constructing a mine by, or on behalf of, the Group is accumulated separately for each area of interest in which economically recoverable reserves and resources have been identified. This expenditure includes direct costs of construction, drilling costs and removal of overburden to access the ore, borrowing costs capitalised during construction and an appropriate allocation of attributable overheads.

Mine development represents expenditure in respect of near-mine exploration and evaluation, overburden removal based on underlying mining activities and related mining data and construction costs and development incurred by or on behalf of the Group previously accumulated and carried forward in relation to properties in which mining has now commenced. Such expenditure comprises direct costs and an appropriate allocation of directly related overhead expenditure.

All expenditure incurred prior to commencement of production from each development property is carried forward to the extent to which recoupment out of future revenue from the sale of production, or from the sale of the property, is probable. When further development expenditure is incurred in respect of a mine property after commencement of commercial production, such expenditure is carried forward as part of the cost of the mine property only when future economic benefits are probable, otherwise the expenditure is classified as part of the cost of production and expensed as incurred. Such capitalised development expenditure is added to the total carrying value of mine development being amortised.

Amortisation

The Group uses the units of production basis when amortising mine properties which results in an amortisation charge proportional to the depletion of the anticipated remaining life of mine production. Each item's economic life has due regard to both its physical life limitations and to present assessments of economically recoverable reserves of the mine property at which it is located. The change in Ore Reserves and Mineral Resources driving the remaining life of mine production is reflected from the beginning of the financial year when amortising existing mine properties. In order to achieve a consistent amortisation rate throughout the life of the mine, future mine development costs are revised with each annual life of mine plan and such costs are amortised or unwound on a units of production basis resulting in an amortisation charge proportional to the depletion of the anticipated remaining life of mine production.

Exploration properties and evaluation expenditure

All greenfield exploration and evaluation expenditure incurred by or on behalf of the Group up to the establishment of a commercially viable mineral deposit (as approved by the Board) is expensed as incurred.

Expenditure incurred by the Group in acquiring exploration properties where the expenditure is expected to be recouped through the successful development and exploitation of the area of interest, or alternatively, by its sale, and the regional mine exploration costs incurred near existing assets are all capitalised to exploration properties. The carrying value of capitalised exploration and evaluation assets are assessed for impairment at each reporting period and when facts and circumstances suggest that the carrying value may exceed its recoverable amount. Any amounts in excess of the recoverable amount are derecognised in the financial year it is determined.

Inventories

Ore stockpiles, metal in circuit, metal in transit and metal in concentrate stockpiles are physically measured or estimated and valued at the lower of cost and net realisable value. Cost represents the weighted average cost and includes direct costs and an appropriate portion of fixed and variable production overhead expenditure, including depreciation and amortisation, incurred in converting materials into finished goods. If the stockpile is not expected to be processed within 12 months after the reporting date, it is included in non-current assets.

Materials and supplies are valued at the lower of cost and net realisable value. Any provision for obsolescence is determined by reference to stock items identified. A regular and ongoing review is undertaken to establish the extent of surplus items and a provision is made for any potential loss on their disposal.

Impairment

Assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value-in-use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there

For personal use only

Notes to the Consolidated Financial Statements

FOR THE YEAR ENDED 30 JUNE 2025

are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets other than goodwill that suffered previous impairment are reviewed for possible reversal of the impairment at each reporting date.

Trade and other payables

Trade and other payables represent liabilities for goods and services provided to the Group prior to the end of the reporting period which are unpaid as at the balance sheet date. They are initially recognised at fair value and subsequently measured at amortised cost. The amounts are unsecured and are usually paid within thirty days of recognition.

Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

When the Group expects some or all of a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the Statement of Profit or Loss and Other Comprehensive Income net of any reimbursement.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the balance sheet date. If the effect of the time value of money is material, provisions are discounted using a pre-tax rate that reflects the time value of money and the risks specific to the liability. The increase in the provision resulting from the passage of time is recognised in finance costs.

Rehabilitation

Site restoration costs are recorded at the present value of the estimated future costs of the legal and constructive obligation to rehabilitate locations.

A liability is recognised at present value of rehabilitation costs. An equivalent amount is capitalised as part of the cost of the rehabilitation asset recognised within mine properties. Over time, the discounted liability is increased for the change in the present value based on a discount rate that reflects current market assessments. Additional disturbances or changes in rehabilitation costs will be recognised as additions or changes to the corresponding asset and rehabilitation liability when incurred.

The unwinding of the effect of discounting the provision is recorded as a finance cost in the statement of profit or loss. The carrying amount is capitalised as part of mine properties and amortised on a unit of production basis.

Employee benefits

Wages and salaries, annual leave and sick leave

Liabilities for wages and salaries, including non-monetary benefits and annual leave expected to be settled within twelve months of the reporting date, are recognised in respect of employees' services up to the reporting date and are measured at the amounts expected to be paid when the liabilities are settled. Liabilities for non-accumulating sick leave are recognised when the leave is taken and measured at the rates paid or payable.

Long service leave

The liability for long service leave expected to be settled within twelve months of the reporting date is recognised in the current provision for employee benefits and is measured in accordance with the above. The liability for long service leave expected to be settled more than twelve months from the reporting date is recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on high quality corporate bonds with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows.

Share-based payments

The Group provides benefits to its employees (including Key Management Personnel) in the form of share-based payments, whereby employees render services in exchange for shares or rights over shares (equity-settled transactions).

Notes to the Consolidated Financial Statements

FOR THE YEAR ENDED 30 JUNE 2025

Vesting conditions that are linked to the price of shares of the Company (market conditions) are taken into account when determining the fair value of equity settled transactions. Other vesting conditions such as service conditions are excluded from the measurement of fair value but are considered in estimating the number of investments that may ultimately vest.

The cost of these equity-settled transactions is measured by reference to the fair value of the equity instruments at the date at which they are granted. The cost of equity-settled transactions is recognised, together with a corresponding increase in equity, over the period in which the performance and/or service conditions are fulfilled ("the vesting period").

The charge to the Statement of Profit or Loss for the year is the cumulative amount as calculated above less the amounts already recognised in previous periods. There is a corresponding entry to equity.

Employee benefit on-costs

Employee benefit on-costs, including payroll tax and contributions to the employee's defined contributions superannuation plan, are recognised and included in employee benefit liabilities and costs when the employee benefits to which they relate are recognised as liabilities.

Termination benefits

Termination benefits are payable when employment is terminated before the normal retirement date, or when an employee accepts voluntary redundancy in exchange for these benefits. The Group recognises termination benefits when it is demonstrably committed to either terminating the employment of current employees according to a detailed formal plan without possibility of withdrawal or providing the termination benefits as a result of an offer made to encourage voluntary redundancy. Benefits falling due more than twelve months after reporting date are discounted to present value.

Current versus non-current classification

The Group presents assets and liabilities in the Consolidated Statement of Financial Position based on a classification of current or non-current.

An asset is classified as current when it is:

- expected to be realised or intended to be sold or consumed in the normal operating cycle;
- held primarily for the purpose of trading;
- expected to be realised within twelve months after the reporting period; or
- cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets not classified as current are classified as non-current.

A liability is classified as current when:

- it is expected to be settled in the normal operating cycle;
- it is held primarily for the purpose of trading;
- it is due to be settled within twelve months after the reporting period; or
- there is no right at the end of the reporting period to defer settlement of the liability for at least twelve months after the reporting period.

The Group classifies all other liabilities not classified as current as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Business combinations

Business combinations are accounted for using the acquisition method as at the acquisition date, which is the date on which control is transferred to the Group. Control over an entity exists where the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through the power over the investee. In assessing control, the Group takes into consideration potential voting rights that currently are exercisable.

Notes to the Consolidated Financial Statements

FOR THE YEAR ENDED 30 JUNE 2025

The Group measures goodwill at the acquisition date as the fair value of the consideration transferred; plus the recognised amount of any non-controlling interests in the acquiree; plus if the business combination is achieved in stages, the fair value of the existing equity interest in the acquiree; less the net recognised amount (generally fair value) of the identifiable assets acquired and liabilities assumed.

If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group reassesses whether it has correctly identified all assets acquired and all liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the profit is recognised in profit or loss.

The consideration transferred does not include amounts related to the settlement of pre-existing relationships. Such amounts are generally recognised in profit or loss.

Transaction and integration costs incurred by the Group in relation to the business combination, other than those associated with the issue of debt or equity securities, are expensed as incurred.

Any contingent consideration payable is recognised at fair value at the acquisition date. If the contingent consideration is classified as equity, it is not remeasured, and settlement is accounted for within equity. Otherwise, subsequent changes to the fair value of the contingent consideration are recognised in profit or loss.

Share capital transaction costs

Transaction costs of an equity transaction relating to the raising of new share capital or other transactions with owners of the Group such as the buyback of shares or return of capital are accounted for as a deduction from equity, net of any recoverable income tax benefit applicable.

Revenue and other income

Revenue recognition

Revenue from the sale of goods, is recognised when there has been a transfer of risks and rewards to the customer and no further processing is required by the Group, the quality and quantity of the goods has been determined with reasonable accuracy, the price is fixed or determinable, and collectability is probable. The point at which risk and title passes for concentrate sales is generally upon receipt of the bill of lading when the commodity is delivered for shipment. Revenue is measured at the fair value of the consideration received or receivable.

The terms of metal in concentrate sales contracts with third parties, contain provisional pricing arrangements whereby the selling price for metal in concentrate is based on prevailing spot prices on a specified future date after shipment to the customer (quotation period).

Adjustments to the sales price occur based on movements in quoted market prices up to the date of final settlement. The period between provisional invoicing and final settlement is typically between one and four months. Revenue on provisionally priced sales is recognised based on the estimated fair value of the total consideration receivable.

Interest

Interest revenue is recognised as it accrues using the effective interest method.

Government grants

Government grants are recognised where there is reasonable assurance that the grant will be received, and all attached conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset.

Other income

Other income includes the proceeds from the disposal of non-current assets and profits resulting from non-recurring or non-standard transactions. Proceeds from the disposal of non-current assets are recognised at the date control of the asset passes to the buyer, usually when an unconditional contract of sale is signed. The profit or loss on disposal is calculated as the difference between the carrying amount of the asset at the time of disposal and the net proceeds on disposal (including incidental costs). A profit is realised when there is a measurable increase in equity to the Group that arises from peripheral transactions not in the ordinary course of business.

Notes to the Consolidated Financial Statements

FOR THE YEAR ENDED 30 JUNE 2025

Cost of sales

Cost of sales represents the direct costs attributable to the extraction and processing of ore and the production of saleable mineral concentrate. These costs include:

- Mining and processing costs;
- Employee benefits directly related to production activities;
- Repairs and maintenance of production equipment and infrastructure;
- Site utilities and consumables used in the production process; and
- Applicable royalties and transport costs.

Cost of goods sold is recognised in profit or loss when the related revenue is recognised. Depreciation and amortisation is presented separately.

Taxes

Income tax expense comprises current and deferred tax. Current tax and deferred tax are recognised in profit or loss except to the extent that it relates to a business combination, or items recognised directly in equity or in other comprehensive income.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous periods. Current tax payable also includes any tax liability arising from the declaration of dividends.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for:

- temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss and at the time of the transaction, does not give rise to equal taxable and deductible temporary difference;
- temporary differences related to investments in subsidiaries and jointly controlled entities to the extent that it is probable that they will not reverse in the foreseeable future; and
- taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date.

A deferred tax asset is recognised for unused tax losses, tax credits and deductible temporary differences, to the extent that it is probable that future taxable profits will be available against which they can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Any additional income tax expense that arises from the distribution of cash dividends are recognised at the same time that the liability to pay the related dividend is recognised.

The Group does not distribute non-cash assets as dividends to its shareholders.

AIC Mines Limited and its wholly owned Australian resident companies formed a tax consolidated group effective from 1 October 2010. Newly incorporated companies are added to the tax consolidated group. Consequently, all members of the tax consolidated group are taxed as a single entity from this point in time.

Financial assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income (OCI), and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. The Group initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs.

For a financial asset to be classified and measured at amortised cost or fair value through OCI, it needs to give rise to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.

Notes to the Consolidated Financial Statements

FOR THE YEAR ENDED 30 JUNE 2025

The Group's business model for managing financial assets refers to how it manages its financial assets to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- financial assets at amortised cost;
- financial assets at fair value through OCI with recycling of cumulative profits and losses (debt instruments);
- financial assets designated at fair value through OCI with no recycling of cumulative profits and losses upon derecognition (equity instruments); and
- financial assets at fair value through profit or loss.

The Group does not currently have any financial assets classified to either of the fair value through OCI categories.

Financial assets at amortised cost

The Group measures financial assets at amortised cost if both of the following conditions are met:

- the financial asset is held within a business model with the objective to hold financial assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely for the payment of principal and interest on the principal amount outstanding.

Financial assets at amortised cost are subsequently measured using the effective interest (EIR) method and are subject to impairment. Profits and losses are recognised in profit or loss when the asset is derecognised, modified or impaired.

The Group's financial assets at amortised cost include trade and other receivables.

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss include financial assets held for trading, financial assets designated upon initial recognition at fair value through profit or loss, or financial assets mandatorily required to be measured at fair value. Financial assets are classified as held for trading if they are acquired for the purpose of selling or repurchasing in the near term. Financial assets with cash flows that are not solely payments of principal and interest are classified and measured at fair value through profit or loss, irrespective of the business model. Notwithstanding the criteria for debt instruments to be classified at amortised cost or at fair value through OCI, as described above, debt instruments may be designated at fair value through profit or loss on initial recognition if doing so eliminated, or significantly reduces, an accounting mismatch.

Financial assets at fair value through profit or loss are carried in the statement of financial position at fair value with net changes in fair value recognised in the statement of profit or loss.

Financial assets at fair value through profit or loss includes listed and unlisted equity investments which the Group had not irrevocably elected to classify at fair value through OCI. Dividends on listed equity investments are also recognised as other income in the statement of profit or loss when the right of payment has been established.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Group's consolidated statement of financial position) when:

- the rights to receive cash flows from the asset have expired; or
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either:
 - the Group has transferred substantially all the risks and rewards of the asset; or

Notes to the Consolidated Financial Statements

FOR THE YEAR ENDED 30 JUNE 2025

- the Group has neither transferred nor retained substantially all the risks and rewards of the asset but has transferred control of the asset.

Impairment of financial assets

The Group recognises an allowance for expected credit losses (ECLs) for all financial assets not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, or payables, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

In both the current and prior year, the Group's only financial liabilities were trade and other payables which are measured at amortised cost.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires.

Fair value estimation

The fair value of financial assets and financial liabilities must be estimated for recognition and measurement or for disclosure purposes.

The fair value of financial instruments traded in active markets (such as publicly traded derivatives, and trading and available-for-sale securities) is based on quoted market prices at the reporting date. The quoted market price used for financial assets held by the Group is the current bid price; the appropriate quoted market price for financial liabilities is the current ask price.

In valuing financial instruments, the Group uses the following fair value hierarchy that reflects the significance of the inputs used in making the measurements.

Level 1: Quoted market price (unadjusted) in an active market for an identical instrument.

Level 2: Valuation techniques based on observable inputs, either directly (i.e., as prices) or indirectly (i.e., derived from prices).

Level 3: Valuation techniques using significant unobservable inputs. This category includes all instruments where the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation.

Goods and services tax

Revenues, expenses and assets are recognised net of the amount of goods and services tax (GST), except where the amount of GST incurred is not recoverable from the taxation authority. In these circumstances, the GST is recognised as part of the cost of acquisition of the asset or as part of the expense.

Receivables and payables are stated with the amount of GST included. The net amount of GST recoverable from, or payable to, the tax authority is included as a current asset or liability in the balance sheet.

Cash flows are included in the statement of cash flows on a net basis. The GST component of cash flows arising from investing and financing activities which are recoverable from, or payable to, the tax authority are classified as operating cash flows.

Notes to the Consolidated Financial Statements

FOR THE YEAR ENDED 30 JUNE 2025

Earnings per share

Basic earnings per share

Basic earnings per share is calculated by dividing the result attributable to equity holders of the Group, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the year, adjusted for bonus elements in ordinary shares issued during the year.

Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after-tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

Segment reporting

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components. All operating segments' operating results are regularly reviewed by the Group's Board of Directors to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available.

Segment results that are reported to the Board include items directly attributable to a segment as well as those that can be allocated on a reasonable basis.

4 SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

Significant accounting estimates and judgements

The carrying amounts of certain assets and liabilities are often determined based on estimates and assumptions of future events and are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the year in which the estimates are revised and in any future periods affected. The key estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of certain assets and liabilities with the next annual reporting period are:

Net realisable value of inventory

Net realisable value involves significant judgements and estimates in relation to the selling price in the ordinary course of business less estimated costs of completion and estimated costs necessary to make the sale.

Units of production method of depreciation and amortisation

The Group uses the units of production basis when depreciating and amortising specific assets which results in a depreciation and amortisation charge proportional to the depletion of the anticipated remaining life of mine production. Each item's economic life, which is assessed annually, has due regard to both its physical life limitations and to present assessments of economically recoverable reserves of the mine property at which it is located. These calculations require the use of estimates and assumptions. The changes in Ore Reserves are accounted for prospectively when depreciating and amortising existing assets.

Ore Reserves and Mineral Resources

The Group estimates its Ore Reserves and Mineral Resources each year and reports them based on information compiled by Competent Persons as defined in accordance with the 2012 edition of the "Australasian Code for Reporting Exploration Results, Mineral Resources and Ore Resources" (JORC Code 2012). The estimated quantities of economically recoverable Ore Reserves are based upon interpretations of geological models and require assumptions to be made regarding factors such as estimates of short and long-term exchange rates, estimates of short and long-term commodity prices, future capital requirements and future operating performance. Changes in reported Ore Reserve estimates can impact the carrying amount of mine development (including exploration and evaluation assets), the provision for rehabilitation obligations, the recognition of deferred tax assets, as well as the amount of amortisation charged to the statement of profit or loss.

Employee benefits

Management judgement is required in determining the future probability of employee departures and period of service used in the calculation of long service leave.

For personal use only

Notes to the Consolidated Financial Statements

FOR THE YEAR ENDED 30 JUNE 2025

Share-based payments

The Group measures the cost of equity-settled transactions with employees by reference to the fair value of equity instruments at the date at which they are granted. The fair value is determined by an external specialist using an option pricing model, based off the assumptions detailed above.

Rehabilitation

Significant estimates and assumptions are required in determining the provision for mine rehabilitation as there are many transactions and other factors that will affect the ultimate liability payable to rehabilitate the mine sites. Factors that will affect this liability include changes in technology, changes in regulations, price increases, changes in timing of cash flows which are based on life of mine plan and changes in discount rates. When these factors change or become known in the future, such differences will impact the mine rehabilitation provision in the year in which they change or become known. Cash flows related to rehabilitation are expected to occur progressively as rehabilitation becomes possible albeit with the majority of cash out flow occurring at the end of the mine's life.

Impairment of capitalised exploration and evaluation expenditure

The future recoverability of any capitalised exploration and evaluation expenditure (i.e., capitalised exploration and evaluation acquired or developed) is dependent on a number of factors, including whether the Group decides to exploit the related lease itself or, if not, whether it successfully recovers the related exploration and evaluation asset through sale. To the extent that capitalised exploration and evaluation expenditure is determined not to be recoverable in the future, profits and net assets will be reduced in the year in which this determination is made. To the extent it is determined in the future that this capitalised expenditure should be written off, profits and net assets will be reduced in the year in which this determination is made.

Deferred tax

Judgement is required to determine whether deferred tax assets are recognised in the Consolidated Statement of Financial Position. Management assesses the likelihood that the Group will generate sufficient taxable earnings in future years in order to recognise and utilise those deferred tax assets. Estimates of future taxable income are based on forecast cash flows from operations and existing tax laws. These assessments require the use of estimates such as commodity prices and operating performance over the life of the assets. To the extent that cash flows and taxable income differ significantly from estimates, the Group's ability to realise the deferred tax assets reporting could be impacted.

5 SEGMENT REPORTING

The Group operates in one geographical area being Australia and operates in the mining industry. The Group identifies its operating segments based on the internal reports that are reviewed and used by the Chief Executive Officer and the Leadership Team (the chief business decision makers) in assessing performance and determining the allocation of resources. The accounting policies applied for internal reporting purposes are consistent with those applied in the preparation of the financial statements. The Group's mine and exploration and corporate activities are treated as individual operating segments. Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. All of the revenue in the mining segment relates to the sale of concentrate to one customer.

Segment performance is evaluated based on earnings before interest, tax, depreciation and amortisation (EBITDA) which is a non IFRS number.

	For the 12 months ended 30 June 2025 \$'000	For the 12 months ended 30 June 2024 \$'000

	(1,746)	(734)

¹ Concentrate sales are provisionally priced at the initial revenue recognition (bill of lading) date, with the final settlement price based on a pre-determined quotational period.

² The Group received deferred consideration of US\$2.75 million (A\$4.3 million) during the year for the sale of the Kitumba copper project in Zambia completed on 14 February 2019. Refer to note 9 for more details.

Notes to the Consolidated Financial Statements

FOR THE YEAR ENDED 30 JUNE 2025

7 INCOME TAX EXPENSE

	For the 12 months ended 30 June 2025	For the 12 months ended 30 June 2024
Current tax benefit / (expense) for the year	-	-
Deferred tax movement	(5,213)	(3,496)
Tax benefit related to recognising tax losses	1,398	-
Adjustments for current tax of prior periods	399	-
	(3,416)	(3,496)

Reconciliation of tax expense to prima facie tax payable

Profit before income tax	18,374	11,190
Tax expense at the statutory income tax rate 30%	(5,513)	(3,357)
Non-assessable / (non-deductible)	300	(690)
Previously unrecognised tax losses used to reduce deferred tax expense	-	551
Tax benefit related to recognising tax losses	1,398	-
Adjustments for current tax of prior periods	399	-
Income tax expense	(3,416)	(3,496)

8 CASH AND CASH EQUIVALENTS

	As of 30 June 2025 \$'000	As of 30 June 2024 \$'000
Cash and cash equivalents		
Cash at bank and on hand	60,808	74,173
Restricted cash	117	168
	60,925	74,341

The above figures are shown as cash and cash equivalents as at the end of the year and prior year in the cash flow statement. Restricted cash relates to term deposits acting as bank guarantees facilities.

(a) Reconciliation of profit after tax to net cash flows from operations

Profit after tax	14,958	7,693
Adjustments to reconcile profit to net cash flows from operating activities:		
Depreciation charge to profit or loss	43,125	39,879
Exploration expense	2,986	-
Share-based payment expense	3,234	2,628
Interest unwind	3,057	750
Other income from deferred consideration receivable	(4,296)	-
Fair value (profit) / loss on sale of listed investments	(233)	144
Loss on sale of property, plant and equipment	306	221
Operating profit before changes in working capital and provisions	63,137	51,315
Changes in operating assets & liabilities:		
(Increase) in receivables	(1,675)	(791)
(Increase) / decrease in inventories	(4,168)	1,305
(Increase) in financial assets fair value through P/L	(15,534)	(6,558)
(Increase) / decrease in other assets	(678)	-
Increase in trade and other payables	4,894	819
Increase in deferred tax	3,416	3,496
Increase in provisions	1,491	2,340
Net cash inflow from operating activities	50,883	51,926

Notes to the Consolidated Financial Statements

FOR THE YEAR ENDED 30 JUNE 2025

(b) Reconciliation of movements to cash flows arising from financing activities

	Lease liabilities \$'000	Interest bearing liabilities \$'000	Issued Capital \$'000	Total \$'000
Balance at 1 July 2024	157	6,837	206,628	213,622
Changes from financing cash flows				
Lease liability principal payments	(9,374)	-	-	(9,374)
Proceeds from interest bearing liabilities	-	10,773	-	10,773
Repayment of interest bearing liabilities	-	(5,509)	-	(5,509)
Net proceeds from issue of shares	-	-	41,359	41,359
Total changes from financing cash flows	(9,217)	12,101	247,987	250,871
Other changes				
Recognition of lease liabilities	39,601	-	-	39,601
Interest expense	2,072	741	-	2,813
Deferred tax credit recognised directly in equity	-	-	706	706
Shares issued as Employee Share Scheme	-	-	130	130
Carrying amount at 30 June 2025	32,456	12,842	248,823	294,121

9 TRADE AND OTHER RECEIVABLES

	As of 30 June 2025 \$'000	As of 30 June 2024 \$'000
Trade debtors	77	273
Prepayments	1,156	269
Equipment deposits	835	440
Diesel fuel rebate / Net GST receivable	1,430	852
Deferred consideration receivable ¹	4,198	5,696
Impairment of deferred consideration receivable ¹	(4,198)	(5,696)
Security deposits	152	142
	3,650	1,975

¹ The deferred consideration receivable relates to the sale of the Mumbwa and Kitumba copper projects in Zambia to Vulcan Copper Limited ('Vulcan') completed on 14 February 2019. During the year ended 30 June 2025, the Group entered into an agreement with Vulcan for a Deed of Release ('Deed'), with a revised cash consideration amount of US\$5.5 million being agreed (previously US\$4.0 million at 30 June 2024) in exchange for Vulcan being released from all its obligations contained within the original Share Purchase Agreement. The Group received US\$2.75 million (A\$4.3 million) during the year which has been recognised in other income (refer to note 6 (c)). The remaining US\$2.75 million (A\$4.2 million) is still outstanding and given Vulcan's historical track record, this remaining deferred consideration receivable is fully impaired until the Group receives the consideration.

Due to the short-term nature of the trade and other receivables, their carrying value is assumed to approximate their fair value.

10 INVENTORIES

	As of 30 June 2025 \$'000	As of 30 June 2024 \$'000
Inventory stores	10,149	8,153
Less: provision for obsolescence	(1,098)	(913)
	9,051	7,240
Ore stockpile inventory	2,944	83
Metal in circuit and finished goods	1,720	2,222
	13,715	9,545

Notes to the Consolidated Financial Statements

FOR THE YEAR ENDED 30 JUNE 2025

Ore stockpile inventory and metal in circuit and finished goods are physically measured and valued at the lower of cost and net realisable value. Cost represents the weighted average cost and includes direct costs and an appropriate portion of fixed and variable production overhead expenditure incurred in converting materials into finished goods.

Inventory stores are valued at the lower of cost and net realisable value. The provision for obsolescence is determined by reference to stock items identified.

11 FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT AND LOSS

	As of 30 June 2025 \$'000	As of 30 June 2024 \$'000
Trade receivables at fair value through profit and loss	28,748	13,215
Fair value of listed shares in Rumble Resources Ltd	-	36
Fair value of unlisted options in Larvotto Resources Ltd	-	5
Fair value of listed shares in Power Nickel Inc	43	29
	28,791	13,285

Fair value hierarchy

The Group held the following financial instruments measured at fair value:

Valuation technique	Quoted market price (Level 1) \$'000	Market observable inputs (Level 2) \$'000	Non- market observable inputs (Level 3) \$'000	Total \$'000
Financial Assets at fair value through profit and loss				
30 June 2025				
Trade receivables at fair value through profit and loss	-	28,748	-	28,748
Unlisted options	-	-	-	-
Listed shares	43	-	-	43
Carrying value at the end of the year	43	28,748	-	28,791
30 June 2024				
Trade receivables at fair value through profit and loss	-	13,215	-	13,215
Unlisted options	-	5	-	5
Listed shares	65	-	-	65
Carrying value at the end of the year	65	13,220	-	13,285

a) Trade receivables at fair value through profit and loss

Trade receivables from concentrate sales are subject to provisional price adjustments at balance date, with final settlement determined after the contractual quotation period. During the year, receivables are remeasured at fair value using observable market data, including prevailing London Metal Exchange (LME) prices at reporting date. Final settlement amounts are also subject to assay adjustments for contained metal content. These adjustments are finalised through the final invoice and verified by independent, assay laboratories. Foreign exchange gains and losses arising on provisionally priced concentrate receivables are recognised in profit or loss, with revaluations performed at each reporting date based on prevailing exchange rates until final settlement.

Notes to the Consolidated Financial Statements

FOR THE YEAR ENDED 30 JUNE 2025

b) Listed shares

The group holds 32,812 listed shares in Power Nickel Inc. (CVE: PNPN) with the closing share price at 30 June 2025 quoted on the CVE used to determine the fair value at the end of the year. The Group sold all 962,094 listed shares in Rumbles Resources Limited (ASX: RTR) during the year.

c) Unlisted options

The Group exercised all 703,013 options in Larvotto Resources Limited (exercise price of \$0.30) and subsequently sold all shares during the year.

d) Transfer between categories

There were no transfers between Level 1 and Level 2, and no transfers into and out of Level 3 fair value measurement during the year.

12 LEASES

This note provides information for leases where the Group is in a lease. The consolidated balance sheet includes the following amounts relating to leases:

	As of 30 June 2025 \$'000	As of 30 June 2024 \$'000
Right-of-use assets		
Property	165	130
Plant and Equipment	31,868	-
	32,033	130
Lease Liabilities		
Current	9,011	92
Non-current	23,445	65
	32,456	157

During the year, the Group recognised right-of-use asset additions of \$39.8 million, depreciation expense of \$7.8 million, of which \$3.0 million was capitalised to mines under construction. Lease liabilities of \$39.6 million were recognised, lease payments of \$9.4 million made and interest expense of \$2.0 million was recognised (\$0.7 million of the interest expense was capitalised to mines under construction).

Amounts capitalised represent costs directly attributable to bringing the mine asset to the condition necessary for it to be capable of operating in the manner intended by management, in accordance with AASB 116 Property, Plant and Equipment.

The consolidated statement of profit or loss and other comprehensive income shows the following amounts relating to leases:

	For the 12 months ended 30 June 2025 \$'000	For the 12 months ended 30 June 2024 \$'000
Depreciation charge for right-of-use assets	4,807	71
Interest payments	1,331	15
	6,138	86
Lease liability maturities		
Less than 1 year	10,894	71
Between 1 and 5 years	22,580	59
	33,474	130

Notes to the Consolidated Financial Statements

FOR THE YEAR ENDED 30 JUNE 2025

The Group incurred \$1.9 million of expenses relating to short-term leases.

13 PERFORMANCE BOND

	As of 30 June 2025 \$'000	As of 30 June 2024 \$'000
Performance bond	-	5,685

During the year, the Group entered into a new surety bond facility, replacing the previous cash-backed environmental bonds held with NAB via term deposit of \$5.70 million. Refer to note 28 for more details.

14 PROPERTY, PLANT AND EQUIPMENT

	As of 30 June 2025 \$'000	As of 30 June 2024 \$'000
Cost	96,146	64,498
Accumulated depreciation	(32,405)	(20,467)
Net carrying amount	63,741	44,031
At beginning of year, net carrying amount	44,031	40,840
Additions – cost	33,197	14,870
Disposals	(1,202)	(672)
Depreciation charge to profit and loss	(12,285)	(11,007)
At end of year, net carrying amount	63,741	44,031

During the year, plant and equipment additions was \$5.8 million, disposals \$1.2 million, depreciation charged was \$12.0 million and closing balance was \$29.5 million (30 June 2024: \$37.0 million). Land and buildings additions amounted to \$5.9 million, depreciated charged was \$0.3 million and the closing balance was \$9.3 million (30 June 2024: \$3.6 million). Assets under construction additions was \$21.5 million, with a closing balance at 30 June 2025 of \$24.9 million (30 June 2024: \$3.4 million).

Assets under construction in property, plant and equipment largely relates to Jericho plant expansion equipment, surface infrastructure and non-processing infrastructure.

15 EXPLORATION PROPERTIES

	As of 30 June 2025 \$'000	As of 30 June 2024 \$'000
Balance at the beginning of the year	49,243	39,972
Exploration property additions – Demetallica	-	9,271
Exploration property write-off (a)	(2,986)	-
Reclassifications (refer to note 16)	(43,105)	-
	3,152	49,243

a) Exploration property write-off

During the year, the Group recognised a non-cash exploration expense of \$3.0 million, reducing the carrying value of acquired exploration properties at the Marymia, Peake and Dennison and Pyramid projects.

Notes to the Consolidated Financial Statements

FOR THE YEAR ENDED 30 JUNE 2025

16 MINES UNDER CONSTRUCTION

	As of 30 June 2025 \$'000
Balance at the beginning of the year	-
Additions – WIP ¹	47,869
Reclassifications ²	43,105
Net carrying amount at year end	90,974

¹ Mines under construction additions includes \$47.6 million of expenditure in developing the Jericho link drive, non-processing infrastructure, project labour and resource definition drilling. The remaining addition relates to a non-cash recognition of a contingent payment provision which has been capitalised to mines under construction (refer to note 20) and capitalisation of IFRS 16 lease charges.

² During the year, \$43.1 million was reclassified from Exploration properties to Mines under construction which represents the acquisition cost of Jericho as well as prior year expenditure.

All ongoing expenditure for the development of the Jericho deposit will be treated as mines under construction until commercial production commences at Jericho.

17 MINE PROPERTIES

	As of 30 June 2025 \$'000	As of 30 June 2024 \$'000
Cost	165,373	128,630
Accumulated amortisation	(86,113)	(60,079)
Net carrying amount	79,260	68,551
Balance at the beginning of the year	68,551	57,274
Mine development additions	37,660	41,414
Additions / remeasurement of rehabilitation asset (see note 20)	(918)	(1,336)
Depreciation charge to profit and loss	(26,033)	(28,801)
Net carrying amount at year end	79,260	68,551

18 DEFERRED TAX

	As of 30 June 2025 \$'000	As of 30 June 2024 \$'000
Deferred tax balances		
Mine properties	(23,778)	(20,565)
Plant and equipment	(4,649)	(7,094)
Mines under construction	(8,763)	-
Exploration properties	(885)	(5,162)
Right-of-use assets	(10,541)	(126)
Lease liabilities	10,582	140
Employee provisions	1,728	1,158
Rehabilitation provision	5,918	5,944
Provision for stores obsolescence	329	274
Provisions other	10	6
Payment provision	721	-

Notes to the Consolidated Financial Statements

FOR THE YEAR ENDED 30 JUNE 2025

	As of 30 June 2025 \$'000	As of 30 June 2024 \$'000
Deferred tax balances		
Share issue costs	1,827	1,921
Transaction costs	106	84
Recognised tax losses	24,239	22,974
Net deferred tax (liabilities)	(3,156)	(446)

Movement in deferred tax balances	30 June 2024 \$'000	Recognised in profit & loss \$'000	Recognised in equity \$'000	30 June 2025 \$'000
Mine properties	(20,565)	(3,213)	-	(23,778)
Plant & equipment	(7,094)	2,445	-	(4,649)
Mines under construction	-	(8,763)	-	(8,763)
Exploration properties	(5,162)	4,277	-	(885)
Right-of-use assets	(126)	(10,415)	-	(10,541)
Lease liabilities	140	10,442	-	10,582
Employee provisions	1,158	570	-	1,728
Rehabilitation provision	5,944	(26)	-	5,918
Provision for stores obsolescence	274	55	-	329
Provisions other	6	4	-	10
Payment provision	-	721	-	721
Share issue costs	1,921	(800)	706	1,827
Transaction costs	84	22	-	106
Recognised tax losses	22,974	1,265	-	24,239
Net deferred tax (liabilities) / assets	(446)	(3,416)	706	(3,156)

The Group has recognised deferred tax assets of \$24.2 million in respect of tax losses based on:

- forecast models, showing that the Group will derive future assessable income of a nature and amount sufficient to enable the benefit from the tax losses to be used;
- the Group continues to comply with the conditions for deductibility imposed by tax legislation; and
- no changes in tax legislation adversely affect the Group in realising the benefit from the tax losses.

The Group also has deferred tax assets which have not been recognised in respect of the following items:

	As of 30 June 2025 \$'000	As of 30 June 2024 \$'000
Revenue tax losses	-	1,398
Revenue tax losses subject to available fraction	13,531	13,531
Capital tax losses	59,257	59,257
Deferred consideration receivable	527	1,686
	73,315	75,872

Notes to the Consolidated Financial Statements

FOR THE YEAR ENDED 30 JUNE 2025

19 TRADE AND OTHER PAYABLES

	As of 30 June 2025 \$'000	As of 30 June 2024 \$'000
Trade payables	9,154	3,710
Accruals	12,283	12,598
	21,437	16,308

Trade payables and other creditors are non-interest bearing and are normally settled on 30-day terms. Due to the short-term nature of these payables, their carrying value is assumed to approximate their fair value.

Accruals include royalties, goods and services received not yet invoiced, and audit and tax compliance services.

20 PROVISIONS

	As of 30 June 2025 \$'000	As of 30 June 2024 \$'000
Current		
Employee benefits	5,493	4,073
Other	20	-
	5,513	4,073
Non-current		
Employee benefits	83	13
Other	-	20
Payment provision	2,402	-
Rehabilitation provision	19,732	19,818
	22,217	19,851
	27,730	23,924

Employee Benefits

The provision for employee benefits represents wages and salaries, annual leave, long service leave entitlements, and other short-term benefits.

Other

Other provision includes a make good provision for a lease office building.

Payment provision

A contingent payment of \$2.75 million is payable to a third party on commencement of mining at Jericho. The Group has recognised a non-current payment provision of \$2.4 million (discounted) following commencement of underground development for Jericho as it is now probable that ore will be mined at Jericho and the contingent payment will be triggered.

Rehabilitation provision

The rehabilitation provision includes the dismantling and removal of mining plant, equipment and building structures, waste removal and restoration, reclamation and revegetation of affected areas of the site in accordance with the requirements of the mining permits. The provision was remeasured as at 30 June 2025 resulting in a decrease due to extending the expected closure date.

The Group covers its rehabilitation obligations with Queensland Treasury through financial guarantees provided by Assetinsure. Refer to note 28 for more details.

For personal use only

Notes to the Consolidated Financial Statements

FOR THE YEAR ENDED 30 JUNE 2025

Movement in provisions	Employee Benefits	Other	Payment provision	Rehabilitation	Total

21 INTEREST BEARING LIABILITIES

	As of 30 June 2025 \$'000	As of 30 June 2024 \$'000
Current		
Equipment financing	6,403	2,944
Non-current		
Equipment financing	6,439	3,893
	12,842	6,837

Equipment financing

The Group maintains a revolving equipment finance facility with NAB for \$17.0 million (30 June 2024: \$13.4 million) in order to finance the purchase of mining equipment. As at the end of June 2025 \$12.8 million was owing on this facility. The mining equipment subject to the finance has been pledged as security and there are no covenants in place. The carrying value of the liability is materially the same as the fair value.

Trafigura debt facility

In June 2025, the Group announced the execution of a US\$40M prepayment facility linked to an offtake agreement for the Jericho Mine with Trafigura Asia Trading Pte Ltd ("Trafigura") to fund the expansion of the Eloise processing facility. The prepayment facility is provided by Trafigura to secure delivery of a minimum of approximately 400,000dmt of concentrate from the Jericho Mine.

The interest rate is a 3-month US\$ Secured Overnight Financing Rate (SOFR) + 3% per annum. The loan has a grace period of 18 months where no principal repayment or interest is required from the date all conditions precedent are satisfied. The maturity date of the loan is thirty-six (36) months after the last day of the grace period, with quarterly repayments commencing after the grace period.

Trafigura holds a first ranking floating charge over revolving assets and fixed charge over all other collateral of AIC Mines and subsidiaries; a charge over shares in AIC Mines' subsidiaries; mortgage over the Eloise and Jericho mining leases; and sharing of security pursuant to an Intercreditor Deed.

The Group is subject to certain debt service covenants which are only required to be tested quarterly commencing after the end of the grace period.

The facility is available to drawdown at any time but is undrawn and therefore no financial liability has been recognised on the Group's balance sheet. The facility will be accounted for as a financial liability under IFRS 9 upon drawdown.

Notes to the Consolidated Financial Statements

FOR THE YEAR ENDED 30 JUNE 2025

22 ISSUED CAPITAL

	Number	\$'000
Issued capital at end of year as at 30 June 2023	462,224,392	151,932
Shares issued as Employee Share Scheme	246,240	95
Issue of shares	108,407,692	56,372
Less: transaction costs arising on share issues	-	(2,634)
Deferred tax credit recognised directly in equity	-	863
Issued capital at end of the year 30 June 2024	570,878,324	206,628
Shares issued on conversion of performance incentives	2,785,396	-
Shares issued as Employee Share Scheme	426,612	130
Issue of shares	144,392,308	43,668
	718,482,640	250,426
Less: transaction costs arising on share issues	-	(2,309)
Deferred tax credit recognised directly in equity	-	706
Issued capital at end of the year 30 June 2025	718,482,640	248,823

Terms and conditions of contributed equity

Ordinary shares (including escrowed shares) have the right to receive dividends as declared and, in the event of winding up the Group, to participate in the proceeds from the sale of all surplus assets in proportion to the number of and amounts paid up on shares held. On a show of hands, every holder of ordinary shares present at a meeting in person or by proxy is entitled to one vote, and upon a poll each share is entitled to one vote. As per the *Corporations Act 2001*, the Group does not have authorised capital and ordinary shares do not have a par value.

23 EARNINGS PER SHARE

	For the 12 months ended 30 June 2025	For the 12 months ended 30 June 2024
Basic earnings per share – cents per share	2.60	1.63
Diluted earnings per share – cents per share	2.46	1.54

Earnings per share used in the calculation of basic and diluted earnings per share

Profit after tax attributable to the owners of the parent	14,957,670	7,693,409
Weighted average number of ordinary shares (basic)	575,453,873	471,633,193
Effect of dilutive securities ¹	32,110,186	27,839,452
Adjusted weighted average number of ordinary shares used in calculating the diluted earnings per share	607,564,059	499,472,645

¹ Performance rights have been included in the determination of diluted earnings per share.

Basic earnings per share is calculated by dividing the after-tax profit or net loss for the year by the weighted average number of ordinary shares outstanding during the year.

At 30 June 2025, the Company had 32,110,186 unlisted performance rights (30 June 2024: 28,476,565) and nil unlisted options (30 June 2024: 2,076,924).

24 COMMITMENTS

Exploration Expenditure Commitment

In order to maintain the Group's interest in mining and exploration tenements, the Group is committed to meet the minimum expenditure conditions under which the tenements were granted. These amounts change annually as tenements are relinquished, partially relinquished, or new tenements are granted. The amounts are also based on whether extensions of term are granted for each tenement. The amounts disclosed below represent expenditure

Notes to the Consolidated Financial Statements

FOR THE YEAR ENDED 30 JUNE 2025

commitments for tenements owned by the Group. The disclosure also assumes that all tenements will be renewed at the relevant date.

	As of 30 June 2025 \$'000	As of 30 June 2024 \$'000
Within 1 year	3,676	5,271
After 1 year but not more than 5 years	20,229	14,671
	23,905	19,942

Capital Commitments

Significant capital expenditure contracted for at the end of the reporting year but not recognised as liabilities is as follows:

	As of 30 June 2025 \$'000	As of 30 June 2024 \$'000
Property, plant and equipment ¹	85,671	3,987
Mines under construction	1,173	-

¹ Includes award of Eloise plant expansion contract to GR Engineering for contract value of \$77.6 million.

Sales Commitment

In June 2025, the Group signed an offtake agreement with Trafigura Pte Ltd which involves delivery of a minimum of approximately 400,000dmt of concentrate from the Jericho Mine. This offtake agreement includes standard invoicing and payment conditions for a contract of this type.

25 FINANCIAL RISK MANAGEMENT

The Group's principal financial instruments comprise of cash and short-term deposits. The Group has various other financial assets and liabilities such as trade receivables, interest bearing liabilities, lease liabilities and trade payables, which arise directly from its operations.

Details of the significant accounting policies and methods adopted, including the criteria for recognition, the basis of measurement and the basis on which income and expenses are recognised, in respect of each class of financial asset, financial liability and equity instrument are disclosed in notes 8, 9, 11, 12, 19, and 21 to the financial statements.

The Group manages its exposure to a variety of financial risks: market risk (including commodity risk and interest rate risk), credit risk, liquidity risk and cash flow interest rate risk in accordance with the approved Company policies. Primary responsibility for the identification and control of financial risks rest with the Board. The Board reviews and agrees policies for managing each of the risks identified.

The Group uses different methods to measure and manage different types of risks to which it is exposed. These include monitoring levels of exposure to interest rate and foreign exchange risk and assessment of market forecasts for interest rates and foreign exchange. The Group manages credit risk by only dealing with recognised, creditworthy, third parties and liquidity risk is monitored through cash flow forecasting.

Price risk

The Group is affected by the price volatility of certain commodities. Price risk relates to the risk that the fair value of future cash flows of commodity sales will fluctuate because of changes in market prices largely due to supply and demand factors for commodities. The Group is currently exposed to the risk of fluctuations in prevailing market commodity prices for copper, gold, and silver which are produced from its copper mine. The Group is also exposed to market share price movements on its equity investments at fair value.

Interest rate risk

The Group's exposure to interest rate risk relates primarily to interest earned on its cash holdings and its equipment finance facility. During the year, the Group utilised a mix of fixed interest term deposits and at call cash accounts to maximise interest earned on its cash holdings. Also during the year, the Group drew down \$10.8 million from its

Notes to the Consolidated Financial Statements

FOR THE YEAR ENDED 30 JUNE 2025

equipment finance facility taking total drawn downs since inception to \$12.8 million. The drawdowns include a series of equipment financing loans over 3-year terms at fixed interest rates.

Foreign currency risk

Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities denominated in a currency that is not the Group's functional currency. The Group continuously reviews its procedures to manage its foreign exchange risk against its functional currency and is measured using sensitivity analysis and cash flow forecasting.

Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Group's receivables from customers and investment securities. The Group sells all of its copper concentrate to one customer who has an exemplary track record of meeting their contractual obligations. In addition, the Group only deals with financial institutions that have investment grade or higher credit ratings. For these reasons at the balance sheet date, there were no significant concentrations of credit risk. The total trade and other receivables outstanding at 30 June 2025 was \$32.4 million (30 June 2024: \$15.3 million). Cash and cash equivalents at 30 June 2025 were \$60.9 million (30 June 2024: \$74.3 million). The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets in the Statement of Financial Position.

Credit Quality of Financial Assets	S&P credit rating				
	AAA	A1+	A1	A2	Unrated
	\$'000	\$'000	\$'000	\$'000	\$'000

As at 30 June 2024					
Cash and cash equivalents	74,341	-	-	-	-
Performance bond	5,685	-	-	-	-
Trade and other receivables at amortised cost	-	-	-	-	1,975
Trade and other receivables at fair value through P&L	-	-	-	-	13,285

Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as and when they fall due. Prudent liquidity risk management focuses on maintaining sufficient cash to meet the operating requirements of the business and investing excess funds into higher yielding term deposits. The Group manages liquidity risk by continuously monitoring actual and forecasted cash flows and matching the maturity profiles of financial assets and liabilities. The Group's liquidity needs can be met through a variety of sources, including cash generated from metal sales, interest accrued on cash balances, short- and long-term borrowings and the issue of equity instruments.

Cash outflow	Less than 1 year	Between 1 & 2 years	Between 2 & 5 years	Total contractual cash flows	Carrying amount liabilities

	19,699	3,160	994	23,853	23,302

Capital risk management

The Group's capital management objectives are:

- To safeguard the business as a going concern;
- To maximise potential returns for shareholders through minimising dilution; and
- To retain an optimal debt to equity balance in order to minimise the cost of capital.

The Group may issue new shares or sell assets to improve liquidity if needed.

26 SHARE-BASED PAYMENTS

Current year

During the year, the Group had incurred a total of \$203,137 share-based payment expense under the Group's tax-exempt Employee Share Scheme (Scheme). A total of 426,612 shares were issued under the Scheme on 7 August 2024.

On 20 November 2024, shareholder approval was obtained at the annual general meeting for the issue of 2,371,488 performance rights to Aaron Collieran (Managing Director and Chief Executive Officer).

In addition, the Group granted 8,528,243 performance rights to employees (including KMP) as a result of the Board approved remuneration framework and in-line with the AIC Mines Equity Participation Plan ("EPP") as approved by shareholders. All the performance rights granted during the year are subject to the same vesting criteria as set out below. The performance rights were valued at grant date using a Monte-Carlo simulation model for the market based vesting conditions of absolute total shareholder return and relative total shareholder return and a Black-Scholes-Merton model for non-marketing based vesting conditions related to the growth in copper equivalent Ore Reserve and copper equivalent Mineral Resource. The fair values are amortised on a straight-line basis over the vesting period. Current year amortisation is recognised as share-based payment expense in the Statement of Comprehensive Income net of the tax effects (if applicable). The share-based payment expense for the year on amortisation of the performance rights is \$3.0 million (for year ended 30 June 2024: \$2.4 million).

The following table illustrates the performance rights by grant date and outstanding balance as of 30 June 2025.

Issuance	Grant Date	Outstanding Balance
May 2022 grants	2 May 2022	150,000
September 2022 grants	29 August 2022	1,246,542
November 2022 grants	25 November 2022	678,733
March 2023 grants	13 March 2023	215,217
September 2023 grants	18 September 2023	6,838,425
December 2023 grants	1 December 2023	2,496,885
March 2024 grants	4 March 2024	148,140
September 2024 grants	23 August 2024	7,732,320
December 2024 grants	20 November 2024	2,371,488
March 2025 grants	20 February 2025	562,647
Total		22,440,397

The following table illustrates the number and movements in performance rights during the year.

Notes to the Consolidated Financial Statements

FOR THE YEAR ENDED 30 JUNE 2025

	For the year ended 30 June 2025	For the year ended 30 June 2024
Outstanding balance at the beginning of the year	28,476,565	17,889,791
Performance rights granted during the year	10,899,731	11,093,454

The following table sets out the goals and vesting conditions of the performance rights.

Goal	Weighting	Measure	Level of vesting
Total Shareholder Return – Absolute ("TSRA") ¹	30%	Share price increase greater than 50%	100%
		Share price increase between 25% and 50%	Pro rata 75%-100%
		Share price increase 10% and 25%	Pro rata 50%-75%

Notes to the Consolidated Financial Statements

FOR THE YEAR ENDED 30 JUNE 2025

		Share price <10%	Nil
Total Shareholder Return – Relative (“TSRR”) ²	30%	Equal to or above 75th percentile	100%
		Equal to or above 50th percentile and below the 75th percentile	Pro rata vesting on a straight-line basis between 50% and 100%
		Less than 50th percentile	Nil
Copper equivalent Ore Reserve growth ³	20%	Depletion* replacement +>10% increase	100%
		Between depletion replacement and up to 10% increase	Pro rata vesting on a straight-line basis between 50% and 100%
		Depletion* replaced	50%
		Depletion* not replaced	Nil
Copper equivalent Mineral Resource growth ³	20%	Depletion* replacement +>10% increase	100%
		Between depletion* replacement and up to 10% increase	Pro rata vesting on a straight-line basis between 50% and 100%
		Depletion* replaced	50%
		Depletion* not replaced	Nil

¹ TSRA measured by calculating the percentage by which the 30-day volume weighted average share price quoted on the ASX (VWAP) at close of trade on the first day of the performance period has increased compared to the 30-day VWAP quoted on the ASX on the last day of the performance period.

² TSRR measured by calculating the TSRA over the performance period compared to peer companies. Peer companies may be updated over time, with Board approval. Refer below for the Peer entities used for the relevant period.

³ 30 June 2025: Reserve and Resource growth is calculated by comparing JORC compliant MROR current at the first day of the performance period to MROR at the last day of the performance period.

* Depletion refers to mining depletion.

Comparative year

In FY24, the Group had incurred a total of \$191,959 share-based payment expense under the Group's tax-exempt Employee Share Scheme (Scheme). A total of 246,240 shares were issued under the Scheme on 31 July 2023.

On 22 November 2023, shareholder approval was provided at the annual general meeting for the issue of 2,496,885 Performance rights to Aaron Collieran (Managing Director and Chief Executive Officer).

In addition, the Group granted 8,596,569 performance rights to employees (including KMP) as a result of the Board-approved LTIP remuneration framework and in line with the AIC Mines Equity Participation Plan (“EPP”) as approved by shareholders. All the performance rights granted during the year are subject to the same vesting criteria as set out above. The performance rights were valued at the grant date using a Monte-Carlo simulation model for the market-based vesting conditions of absolute total shareholder return and relative total shareholder return, and a Black-Scholes-Merton model for non-market-based vesting conditions related to the growth in copper equivalent Ore Reserve and copper equivalent mineral resource. The fair values are amortised on a straight-line basis over the vesting period. Prior year amortisation is recognised as share-based payment expense in the Statement of Comprehensive Income, net of the tax effects (if applicable). The share-based payment expense for the year on amortisation of the performance rights is \$2.4 million (for the year ended 30 June 2023: \$2.0 million).

The following table lists the inputs to the models used for the performance rights granted for the year:

	Absolute TSR	Relative TSR	Growth in Ore Reserve	Growth in Mineral Resource

27 RELATED PARTY TRANSACTIONS

Parent entity

Parent entity disclosures in note 29 reflect AIC Mines Limited.

Subsidiaries

Interests in subsidiaries are set out in note 30. Disclosures within this note are also based on the corporate structure of the group from a legal perspective with AIC Mines Limited as the ultimate parent entity.

KMP compensation

Directors and other KMP compensation is summarised below:

	For the year ended 30 June 2025 \$	For the year ended 30 June 2024 \$
Short-term benefits	2,062,572	1,739,853
Post-employment benefits	126,404	113,398
Long-term entitlements	137,932	69,309
Share-based payments	1,509,505	1,205,124
	3,836,413	3,127,684

Share-based payments

Refer to note 26 in relation to disclosure of share-based payments awarded to the Managing Director and Chief Executive Officer. There have not been any share-based payments awarded to other related parties in either the current or comparative periods.

Agreements with Directors

No director or other related party has entered into a material contract with the Group since the end of the year, and there were no material contracts involving directors' interests as at the end of the year.

Agreement with shareholder

There has not been any other material change in related parties or related party transactions.

Notes to the Consolidated Financial Statements

FOR THE YEAR ENDED 30 JUNE 2025

28 CONTINGENT LIABILITIES

a) Contingent liability

Contingent payments of up to US\$8.8 million are payable on announcement of Measured and Indicated Resources exceeding 200,000 tonnes of payable copper at Jericho or production from Jericho exceeding 200,000 tonnes of payable copper at a rate of US\$0.04/lb of payable copper exceeding 200,000t.

b) Surety bond facility

In May 2025, the Group entered into a new surety bond facility, replacing the previous cash-backed environmental bonds held with NAB via term deposit of \$5.7 million and previous Trafigura environmental bond facility of \$16.3 million.

The facility was executed with Assetinsure, Australian agents of Swiss Re International SE, with a limit of \$25.0 million and secured by a second-ranking general security deed over the Group's assets. The facility duration is 2 years at an interest rate of 3% per annum payable upfront upon utilisation.

As at 30 June 2025, \$23.7 million (30 June 2024: \$21.9 million) of surety were issued under this facility in favour of Queensland Treasury. The Group had increased the amount of surety for both the plant expansion at Eloise of \$1.6 million and for the standard environment authority (EA) at Jericho of \$0.1 million.

31 DEED OF CROSS GUARANTEE

AIC Mines Limited, AIC Copper Pty Ltd, AIC Resources Pty Ltd, AIC Jericho Pty Ltd and Demetallica Pty Ltd are parties to a deed of cross guarantee under which each company guarantees the debts of the others. By entering into the deed, the wholly owned entities have been relieved from the requirement to prepare a financial report and Directors' Report under Class Order 98/1418 (as amended) issued by the Australian Securities and Investments Commission.

The companies identified above represent a "closed group" for the purposes of the Class Order, and as there are no other parties to the deed of cross guarantee that are controlled by AIC Mines Limited.

The consolidated statement of comprehensive income and consolidated statement of financial position, comprising the Company and controlled entities which are a party to the Deed, for the year ended 30 June 2025 is set out as follows:

Consolidated Statement of Comprehensive Income – Closed Group entities	For the 12 months ended 30 June 2025	For the 12 months ended 30 June 2024

33 EVENTS AFTER THE BALANCE SHEET DATE

Subsequent to the end of the year, shareholder approval was obtained on 20 August 2025 to issue 40,500,000 shares to AIC Mines' largest shareholder, FMR Investments Pty Ltd and certain Directors of AIC Mines Limited (or entities associated with these Directors) at an issue price of \$0.30 per share. These new shares will be subscribed for as part of the placement to institutional and sophisticated investors of approximately 183.3 million shares which was announced to the ASX on 24 June 2025.

\$10.0 million was also received from a share purchase plan conducted at an issue price of \$0.30 per share, to eligible shareholders in Australia and New Zealand on 1 August 2025.

Apart from the matters outlined above, no other matters or circumstances have arisen since the end of the year which significantly affected or may significantly affect the operations of the Group, the results of those operations, or state of affairs of the Group in future financial years.

¹All entities are body corporate entities.

²AIC Lamil Pty Ltd holds the Lamil Project, a joint venture, where AIC Mines and Rumble Resources (ASX: RTR) each hold a 50% interest in the project.

Basis of preparation

Key assumptions and judgements

Determination of Tax Residency

Section 295 (3A) of the Corporation Acts 2001 requires that the tax residency of each entity which is included in the Consolidated Entity Disclosure Statement (CEDS) be disclosed. For the purposes of this section, an entity is an Australian resident at the end of a financial year if the entity is:

- an Australian resident (within the meaning of the *Income Tax Assessment Act 1997*) at that time; or
- a partnership, with at least one partner being an Australian resident (within the meaning of the *Income Tax Assessment Act 1997*) at that time; or
- a resident trust estate (within the meaning of Division 6 of Part III of the *Income Tax Assessment Act 1936*) in relation to the year of income (within the meaning of that Act) that corresponds to the financial year.

The determination of tax residency involves judgment as the determination of tax residency is highly fact dependent and there are currently several different interpretations that could be adopted, and which could give rise to a different conclusion on residency.

In determining tax residency, the consolidated entity has applied the following interpretations:

- Australian tax residency**
The consolidated entity has applied current legislation and judicial precedent, including having regard to the Commissioner of Taxation's public guidance in Tax Ruling TR 2018/5.
- Foreign tax residency**
The consolidated entity has applied current legislation and where available judicial precedent in the determination of foreign tax residency. Where necessary, the consolidated entity has used independent tax advisers in foreign jurisdictions to assist in its determination of tax residency to ensure applicable foreign tax legislation has been complied with.

Directors' Declaration

FOR THE YEAR ENDED 30 JUNE 2025

In accordance with a resolution of the Directors of AIC Mines Limited, I state that:

In the opinion of the Directors:

- (a) the financial statements and notes of the Company and its subsidiaries (collectively the Group) are in accordance with the *Corporations Act 2001*, including:
 - (i) giving a true and fair view of the Group's financial position as at 30 June 2025 and of its performance for the year ended on that date; and
 - (ii) complying with Australian Accounting Standards and the Corporations Regulations 2001; and
- (b) the financial statements and notes also comply with International Financial Reporting Standards as disclosed in note 2; and
- (c) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable; and
- (d) the consolidated entity disclosure statement on page 60 is true and correct, and
- (e) as at the date of this declaration, there are reasonable grounds to believe that the Company and the subsidiaries identified in note 30 will be able to meet any obligations or liabilities to which they are or may become subject to, including by virtue of the Deed of Cross Guarantee between the Company and those subsidiaries identified in note 31.

This declaration has been made after receiving the declarations required to be made to the Directors from the Chief Executive Officer and Chief Financial Officer in accordance with section 295A of the *Corporations Act 2001* for the year ended 30 June 2025.

On behalf of the Board

Mr. Aaron Colleran
Managing Director and Chief Executive Officer
20 August 2025

Independent Auditor's Report

To the shareholders of AIC Mines Limited

Report on the audit of the Financial Report

Opinion

We have audited the **Financial Report** of AIC Mines Limited (the Company).

In our opinion, the accompanying Financial Report of the Company gives a true and fair view, including of the **Group's** financial position as at 30 June 2025 and of its financial performance for the year then ended, in accordance with the *Corporations Act 2001*, in compliance with *Australian Accounting Standards* and the *Corporations Regulations 2001*.

The **Financial Report** comprises:

- Consolidated statement of financial position as at 30 June 2025;
- Consolidated statement of profit or loss and other comprehensive income, Consolidated statement of changes in equity, and Consolidated statement of cash flows for the year then ended;
- Consolidated entity disclosure statement and accompanying basis of preparation as at 30 June 2025;
- Notes, including material accounting policies; and
- Directors' Declaration.

The **Group** consists of the Company and the entities it controlled at the year end or from time to time during the financial year.

Basis for opinion

We conducted our audit in accordance with *Australian Auditing Standards*. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the Financial Report* section of our report.

We are independent of the Group in accordance with the *Corporations Act 2001* and the ethical requirements of the *Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the Financial Report in Australia. We have fulfilled our other ethical responsibilities in accordance with these requirements.

Key Audit Matters

Key Audit Matters are those matters that, in our professional judgement, were of most significance in our audit of the Financial Report of the current period.

This matter was addressed in the context of our audit of the Financial Report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on this matter.

Measurement and Recognition of Sales Revenue	
Refer to Note 6(a) to the Financial Report (\$189,554,000)	
The key audit matter	How the matter was addressed in our audit
The Group's measurement and recognition of sales revenue is a key audit matter due to: • The significance of this revenue to the Group's Financial Report; and • The audit effort that resulted from contractual terms in customer agreements driving revenue measurement and recognition. This included consideration of: – Provisional pricing arrangement in relation to prices and quantities sold; – Adjustment in final quotational period sales prices and quantities sold; and • The additional audit effort in testing the timing of revenue recognition near the end of the accounting period.	Our procedures included: • We assessed the Group's sales revenue recognition and measurement accounting policies against the requirements of the accounting standards; • We obtained an understanding of the Group's revenue recording processes and systems around invoicing of sales revenue; • For sales revenue recorded during the year, we checked the: – Provisional and final pricing against external market pricing indices and the underlying contracts and other written agreements with customers; – Quantities sold to the underlying documentation including provisional and final assay results; • We checked the timing of revenue recognised shortly before and after the end of the accounting period to underlying shipping documents; and • We evaluated the adequacy of disclosures in the financial report against the requirements of the accounting standards.

Other Information

Other Information is financial and non-financial information in AIC Mines Limited's annual report which is provided in addition to the Financial Report and the Auditor's Report. The Directors are responsible for the Other Information.

The Other Information we obtained prior to the date of this Auditor's Report was the Corporate Directory and Directors' Report. The Chairman's Letter, Mineral Resource and Ore Reserve Estimates, ASX Additional Information and 2025 Annual Sustainability Report are expected to be made available to us after the date of the Auditor's Report.

Our opinion on the Financial Report does not cover the Other Information and, accordingly, we do not and will not express an audit opinion or any form of assurance conclusion thereon, with the exception of the Remuneration Report and our related assurance opinion.

In connection with our audit of the Financial Report, our responsibility is to read the Other Information. In doing so, we consider whether the Other Information is materially inconsistent with the Financial Report or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

We are required to report if we conclude that there is a material misstatement of this Other Information, and based on the work we have performed on the Other Information that we obtained prior to the date of this Auditor's Report we have nothing to report.

Responsibilities of the Directors for the Financial Report

The Directors of the Company are responsible for:

- Preparing the Financial Report in accordance with the *Corporations Act 2001*, including giving a true and fair view of the financial position and performance of the Group, and in compliance with *Australian Accounting Standards* and the *Corporations Regulations 2001*;
- Implementing necessary internal control to enable the preparation of a Financial Report in accordance with the *Corporations Act 2001*, including giving a true and fair view of the financial position and performance of the Group, and that is free from material misstatement, whether due to fraud or error; and
- Assessing the Group and Company's ability to continue as a going concern and whether the use of the going concern basis of accounting is appropriate. This includes disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless they either intend to liquidate the Group and Company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the Financial Report

Our objective is:

- To obtain reasonable assurance about whether the Financial Report as a whole is free from material misstatement, whether due to fraud or error; and
- To issue an Auditor's Report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with *Australian Auditing Standards* will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error. They are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the Financial Report.

A further description of our responsibilities for the audit of the Financial Report is located at the *Auditing and Assurance Standards Board* website at: https://www.auasb.gov.au/media/bwvjcgre/ar1_2024.pdf. This description forms part of our Auditor's Report.

Report on the Remuneration Report

Opinion

In our opinion, the Remuneration Report of AIC Mines Limited for the year ended 30 June 2025, complies with *Section 300A* of the *Corporations Act 2001*.

Directors' responsibilities

The Directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with *Section 300A* of the *Corporations Act 2001*.

Our responsibilities

We have audited the Remuneration Report included in pages 15 to 25 of the Directors' report for the year ended 30 June 2025.

Our responsibility is to express an opinion as to whether the Remuneration Report complies in all material respects with *Section 300A* of the *Corporations Act 2001*, based on our audit conducted in accordance with *Australian Auditing Standards*.
