Dear Ms Vanam

Response to ASX Aware Letter – Reference: ODIN111755

Baby Bunting Group Limited (ASX:BBN) notes the questions contained in the letter from ASX dated 18 August 2025 (ASX Letter) and responds as follows.

1. Does BBN consider the following information, or any part thereof, to be information that a reasonable person would expect to have a material effect on the price or value of its securities?

1.1 "Pro forma NPAT of \$12.1m, up 228% vs pcg, at upper end of guidance range."

No.

1.2 "Record total sales of \$521.9m, up 4.7% vs pcg. Comparable store sales growth of 4.2% vs pcg."

No.

1.3 "Gross margin of 40.2% up 340 bps vs pcg, exceeding FY25 40% target."

No.

1.4 "Trading Update and Outlook: The first 6 weeks of trade to 10 August has seen +4.8% total sales growth and +4.0% comparable sales growth, with AU comparable sales growth of +3.7% and NZ comparable sales growth of +13.9%."

No.

2 If the answer to any part of question 1 is "no", please advise the basis for that view.

2.1 "Pro forma NPAT of \$12.1m, up 228% vs pcg, at upper end of guidance range."

The pro forma NPAT result of \$12.1 million was within the range of \$10.0 million to \$12.5 million that BBN had previously disclosed to the market.

As BBN had published earnings guidance throughout FY25, that guidance formed the basis of BBN's assessment of what the market was expecting for its FY25 financial performance.

BBN first provided guidance in relation to its FY25 pro forma NPAT on 20 August 2024 in a release to ASX "FY24 Full Year Results". BBN stated that it "expects FY25 Pro Forma NPAT to be in the range of \$9.5 million to 12.5 million...". That guidance was reiterated on 18 February 2025.

On 1 May 2025, BBN released an updated guidance statement in the ASX announcement "*Store of the Future*" now open'. In that announcement, BBN stated that it had increased the lower end of its FY25 pro forma NPAT guidance and now expects it to be in the range of \$10m to \$12.5m (previously \$9.5m to \$12.5m).

BBN's FY25 pro forma NPAT was finally determined to be \$12.1 million, within the guidance range it had most recently provided to the market on 1 May 2025 and consistent with what it anticipated the market to be expecting.

2.2 "Record total sales of \$521.9m, up 4.7% vs pcg. Comparable store sales growth of 4.2% vs pcg."

NPAT performance is the key metric for determining BBN's financial performance. Sales performance is one input into BBN's financial performance.

BBN is covered by sell-side analysts. Consensus for BBN's FY25 sales was \$520.3 million. Individual sell-side analysts' FY25 sales forecasts (published in the period before BBN's FY25 results were released) ranged from \$514.1 million to \$530.9 million.

BBN's actual FY25 sales of \$521.9 million were 0.3% higher than consensus of \$520.3 million. Accordingly, when considered in light of consensus and analysts' sales forecasts, the FY25 sales result is not considered to be material (in the context of question 1).

2.3 "Gross margin of 40.2% up 340 bps vs pcg, exceeding FY25 40% target."

Gross margin finished the year at 40.2%. This was in line with (and not materially different from):

- (a) the guidance provided of 40%; and
- (b) the actual gross margin (year-to-date as at 27 April 2025) announced to the market on 1 May 2025.

Sell-side analysts' gross margin forecasts for FY25 ranged from 39.6% to 40.5% and consensus was 39.9%.

2.4 "Trading Update and Outlook: The first 6 weeks of trade to 10 August has seen +4.8% total sales growth and +4.0% comparable sales growth, with AU comparable sales growth of +3.7% and NZ comparable sales growth of +13.9%."

It is BBN's practice to provide an update on the first six weeks of sales performance when providing its results for the prior year. BBN usually calculates the year-to-date trading from the first week of the financial year to the end of the trading week immediately before the release of the results. As the FY25 results were released on Friday, 15 August, the year-to-date sales result was determined for the first six weeks of FY26 ended Sunday, 10 August.

While the sales trend is positive, it is noted that six weeks is a very short time in the context of a 52-week year. As part of its FY25 Results Announcement, BBN stated that comparable store sales growth for FY26 is assumed to be 4%-6%.

As noted above, sales are one input into BBN's financial performance. Gross margin, costs of doing business and other elements all play a significant part in determining BBN's profitability for a period. Sales performance for the first six weeks of a financial year is not considered, of itself, to be material.

3 When did BBN first become aware of the information referred to in question 1 above?

3.1 "Pro forma NPAT of \$12.1m, up 228% vs pcg, at upper end of guidance range."

A Board meeting was held on 14 August 2025, where BBN's draft financial statements were considered by the Board (along with other draft documents proposed to be released to ASX along with BBN's FY25 results). Having considered the documents and to allow management time to make further requested amendments to the documents, the Board resolved to delegate final approval to release those documents to a Committee of the Board. That Committee met at 7.30am on 15 August 2025. Authority from the auditor to release its final independent audit report was received shortly thereafter, and the FY25 financial statements and related information were released to ASX at approximately 8am.

3.2 "Record total sales of \$521.9m, up 4.7% vs pcg. Comparable store sales growth of 4.2% vs pcg."

See the response to 3.1.

3.3 "Gross margin of 40.2% up 340 bps vs pcg, exceeding FY25 40% target."

See the response to 3.1.

3.4 "Trading Update and Outlook: The first 6 weeks of trade to 10 August has seen +4.8% total sales growth and +4.0% comparable sales growth, with AU comparable sales growth of +3.7% and NZ comparable sales growth of +13.9%."

Information about weekly sales is available to BBN at or shortly after the conclusion of the relevant weekly trading period.

4 If BBN first became aware of the information referred to in question 1 before the date of the Results Announcement, did BBN make any announcement subsequent to the Store of the Future and Trading Update? If not, please explain why the information was not released to the market at an earlier time, commenting specifically on when you believe BBN was obliged to release the information under Listing Rule 3.1 and 3.1A and what steps BBN took to ensure that the information was released promptly and without delay.

4.1 "Pro forma NPAT of \$12.1m, up 228% vs pcg, at upper end of guidance range."

See response to 3.1.

The pro forma NPAT result of \$12.1 million was within the range of \$10.0 million to \$12.5 million that BBN had previously disclosed to the market. On that basis, the information did not constitute an earning surprise and was not required to be disclosed under Listing Rule 3.1. Disclosure was required once the FY25 statutory report had been finalised.

Board approval for the finalisation of the FY25 statutory report (and the release of the independent auditor's report) was provided around 7.30am on Friday, 15 August 2025. Until Board approval had been obtained (and the directors' report and the financial statements had been authorised to be signed on behalf of the Board), the FY25 results remained incomplete and information that a reasonable person would not expect to be disclosed. In addition, BBN considers that the information remained confidential until it was released to ASX at approximately 8.00am on Friday, 15 August 2025.

In those circumstances, if there was an obligation to disclose the information under Listing Rule 3.1 the relevant carve-outs from disclosure in Listing Rule 3.1A were satisfied until the time of Board approval. Once Board approval had been obtained, the information was promptly lodged with ASX for release to the market.

4.2 "Record total sales of \$521.9m, up 4.7% vs pcg. Comparable store sales growth of 4.2% vs pcg."

See the response to 3.1 and 4.1.

4.3 "Gross margin of 40.2% up 340 bps vs pcg, exceeding FY25 40% target."

See the response to 3.1 and 4.1.

4.4 "Trading Update and Outlook: The first 6 weeks of trade to 10 August has seen +4.8% total sales growth and +4.0% comparable sales growth, with AU comparable sales growth of +3.7% and NZ comparable sales growth of +13.9%."

BBN became aware of the first 6 weeks sales information on or around the morning of Monday, 11 August 2025.

BBN does not consider information about the first 6 weeks of trade to be material information requiring disclosure for the purpose of Listing Rule 3.1. See response to 2.4.

- 5 Please provide details of any other explanation BBN may have both for the trading in its securities following the release of the Results Announcement and on the day prior to the release of the Results Announcement (noting the 9.1% increase in the price of BBN's securities on 14 August 2025).**

BBN is not aware of any explanation for the trading in its securities on the day prior to the release of the Results Announcement (ie 14 August 2025).

BBN considers that there may have been a variety of factors which may have influenced trading in its securities following the Results Announcement on 15 August 2025. BBN noted in its Results Announcement its guidance as to FY26 pro forma NPAT. It stated that pro forma NPAT is expected to be in the range of \$17.0 million to \$20.0 million assuming various elements. It also provided guidance as to its plans for FY26. Prior to the announcement, consensus FY26 guidance was \$16.5 million. The mid-point of BBN's FY26 guidance (released on 15 August) was 12% above consensus. Board consideration and approval of the FY26 guidance statement was only obtained around 7.30am on Friday, 15 August 2025 after which time the FY26 guidance statement was promptly disclosed to ASX.

- 6 Please confirm that BBN is in compliance with the Listing Rules and, in particular, Listing Rule 3.1.**

BBN is in compliance with the Listing Rules and, in particular, Listing Rule 3.1.

- 7 Please confirm that BBN's responses to the questions above have been authorised and approved in accordance with its published continuous disclosure policy or otherwise by its board or an officer of BBN with delegated authority from the board to responds to ASX on disclosure matters.**

BBN's responses to the questions above have been authorised and approved by BBN's Board.

Yours sincerely

- H. The concept of “confidentiality” detailed in section 5.8 of *Guidance Note 8 Continuous Disclosure: Listing Rules 3.1 – 3.1B*. In particular, the Guidance Note states that:

Accordingly, even though an entity may consider information to be confidential and its disclosure to be a breach of confidence, if it is in fact disclosed by those who know it, then it is no longer a secret and it ceases to be confidential information for the purposes of this rule.”
