## Appendix 4E

### Preliminary Final Report period ending 30 June 2025

#### Results for announcement to the market

Financial Results			June 2025	June 2024
Revenue from ordinary activities	Up	7.44%	16,601,935	15,452,354
Comprehensive profit (Loss) from ordinary activities after tax attributable to members	Up	101.30%	20,556	(1,585,841)

Dividends	2025 Final Dividend	2024 Final Dividend
Amount per Ordinary Security	nil	nil
Franked amount per Security	N/A	N/A
Record date for determining entitlements to final dividend	N/A	

Net Tangible Asset Backing	June 2025	June 2024
Net tangible asset backing per ordinary security *	\$0.030	\$0.030

*\*Right of use assets, intangible assets and lease liabilities have been excluded from the above calculation.*

## COMMENTARY

The main goals of FY25 after several challenging years with unfavourable results, were to stabilise the business performance, address and resolve any outstanding historic issues, ensure continuity of the growth trajectory, and to commence seeking further opportunities for growth through new business expansion or acquisition. The results of these clear goals have been successful this year. The significant improvement has been delivered despite high cost inflation experienced from suppliers, rents and labour.

This year represented the first full financial year of a revised and updated executive and non-executive team with a new Chairman and Chief Operating Officer appointed during FY24.

The business continued to see steady sales growth throughout the year and increased total revenue by 7.44% across the 12-month period through current and new customers demonstrating that there is a high level of confidence in the market and is an encouraging sign that further growth is possible through strategically placing Eneco in a number of categories in retail, wholesale and industrial sales.

Further investment has been made in plant and equipment to drive efficiencies in our operations, and we have significantly reduced our outgoings through detailed reviews and implemented actions, which provide an exciting outlook in FY26.

The Board of Directors and the management team of Eneco Refresh are in alignment and fully committed to the ongoing improvement of performance through the agreed action plans that management have in place which have contributed to this year's improvement.

A breakdown by Cash Generating Units is presented below.

	<b>FY 2025</b>	<b>FY 2024</b>	
	<b><u>\$'000</u></b>	<b><u>\$'000</u></b>	<b><u>Variance</u></b>
<b><u>Revenue</u></b>			
Western Australia (WA)	5,240	4,883	7%
New South Wales (NSW)	3,262	3,134	4%
Victoria (VIC)	2,190	2,088	5%
Northern Territory (NT)	82	62	32%
Queensland (QLD)	3,342	2,836	18%
Refresh Waters	14,116	13,003	9%
Refresh Plastics	2,486	2,449	2%
<b>Total</b>	<b>16,602</b>	<b>15,452</b>	<b>7%</b>
<b><u>Profit/(Loss)</u></b>			
Western Australia	304	(32)	1050%
New South Wales	213	267	-20%
Victoria	(192)	(395)	51%
Northern Territory	73	(344)	121%
Queensland	184	(172)	207%
Refresh Waters	582	(676)	186%
Refresh Plastics	134	(282)	148%
	716	(958)	175%
Corporate Expenses	(691)	(628)	10%
<b>Total</b>	<b>25</b>	<b>(1,586)</b>	<b>102%</b>

## Refresh Waters

An incredible amount of commitment, focus and resource has been applied to the bottled water business units over the financial year, and this has been rewarded with a significantly improved financial result when compared to prior year. The Directors and management team are confident that the strategies we have implemented will take the business from strength to strength in the coming years as we look for acquisitional opportunities and synergies to increase our capabilities and market share.

Our West Australian revenue reflects a solid 7% overall increase on prior year. WA has delivered a superb profit turnaround from a loss of (\$32k) last year to an encouraging profit of \$ \$304k this year demonstrating how the cost and margin focus has helped to turn the state of WA into a positive contributor for Refresh. Management believes there are good opportunities within the WA market as well as further margin gains to be achieved through continued investment in automation in the 2025/26 year ahead.

NSW had a mixed year with a soft 4% revenue growth and a disappointing decline in profit to \$213k from \$267k in the year. As the business seeks accelerated growth and margin improvements, we have changed our operating model and had appointed in the fourth quarter a State Manager to drive our focus and results. Early indications are looking promising, and we feel that 2025/26 has good upside opportunity as we roll forward.

A commitment was made by the team in 2024 that management will direct a great deal of attention to the Victorian business in 2025 and look to turn the results around and build a stronger platform to achieve profitability after several disappointing years. Numerous cost saving measures were implemented, alongside pricing reviews and investments to drive efficiency. The efforts in the last year have helped to reduce the losses in Victoria by \$203k when compared to FY24. In addition to this, Victoria's plastics business delivered a profit improvement of \$416k which is covered below in the Plastics commentary. Combined Victorian finances represent a bottom-line improvement of over \$600k against a revenue of just over \$4.6m for the State.

Eneco continues to own 7.7 hectares of land in the Northern Territory which is home to a natural spring water reserve which we utilise to supply water to a local bottling plant. This is providing a small but regular income which will continue throughout FY26.

Queensland delivered an excellent growth result of 18%, which was assisted through strong retail sales results and our branch contribution. The profit performance was impressive with a \$356k improvement on the previous year to deliver a positive \$184k result from the state. Queensland shall benefit from the investment in some additional automated equipment which we have made at the end of FY25, further demonstrating our team's commitment to reducing costs and increasing operational efficiency.

## Refresh Plastics

We are delighted to report that throughout the last financial year our new revised operational model for the Plastics business not only stabilised but is performing extremely well. Following our financial loss of (\$282k) in FY24, the target was to ensure continuity and provide a platform to move forward. Although total revenue remained very similar to the previous year with just a 2% improvement the real impact was seen in the years profit turnaround of \$416k delivering an operational profit contribution of \$134k in FY25.

We believe there to be good growth opportunities within the business segment and the team continues to explore these. Whether they be new products, new customers or acquisition opportunities, we remain committed to improving our operating margins and accelerating growth to deliver improved value to our shareholders.

**1. SEGMENT INFORMATION**

The Group has identified its operating segments based on the internal reports that are reviewed and used by the Board of Directors (chief operating decision makers) in assessing performance and determining the allocation of resources.

In identifying its operating segments, management follows the geographical location of the Group's bottled water business but show Refresh Plastics separately. Corporate costs are included under "Other". Segment information can be analysed as follows for the reporting period under review.

	WA	NSW	VIC	NT	QLD	Plastics	OTHER (Corporate)	TOTAL
<b>30 June 2025</b>								
Revenue from external customers	5,239,935	3,261,698	2,190,080	81,930	3,342,006	2,486,286	-	16,601,935
