\$15 MILLION INSTITUTIONAL PLACEMENT TO ADVANCE THE DANTE PROJECT

Terra Metals Limited (ASX:TM1) (Company) is pleased to announce that it has successfully secured commitments from new and existing institutional and sophisticated investors to subscribe for 214,285,715 new ordinary shares of the Company at an issue price of \$0.07 per share, to raise gross proceeds of \$15 million (**Placement**).

The Placement was led by existing shareholders, Golden Energy and Resources Pte Ltd (**GEAR**), Mr. Matt Latimore (Founder and President of M Resources Pty Ltd), and Tribeca Investment Partners (**Tibeca**), confirming their support for the Company's 100%-owned Dante Project in Western Australia, which hosts multiple large-scale, near-surface, polymetallic deposits comprising titanium, vanadium, copper, gold, and platinum group metals (**PGMs**).

Proceeds from the Placement will be used to expand and accelerate the exploration and development of the Dante Project, including extensional and resource-upgrade drilling, drill testing of the extensive exploration upside across the district-scale Dante Project, and for general corporate purposes.

CEO and Managing Director, Thomas line, commented: "This \$15 million placement, cornerstoned by highly regarded resource investors, provides Terra Metals with the balance sheet strength to aggressively advance the Dante Project. The scale of the system we are uncovering continues to grow, and with these additional funds we can now expedite drilling, resource growth, and development activities without being constrained by capital. The follow-on investments from GEAR, Matt Latimore, and Tribeca underlines the quality of the project and the confidence in our strategy to rapidly advance this globally significant and growing discovery."

Petra Capital Pty Limited acted as Sole Lead Manager and Bookrunner to the Placement.

The issue price of \$0.07 per share represents a 10% discount to the 15-day VWAP of \$0.0781 per share.

The Placement will be completed in two tranches as follows:
