BRIEF EXPLANATION OF RESULTS AND COMMENTARY ON RESULTS AND OTHER SIGNIFICANT INFORMATION

The Consolidated Entity's results incorporate the results of controlled entity, ASX-listed investment company, Orion Equities Limited (**OEQ**) and controlled entities of OEQ (**Orion**).

The Consolidated Entity's overall loss before tax relate principally to Orion's investment portfolio performance, principally attributable to \$0.10 million unrealised net loss in its investment in Strike Resources Limited (ASX:SRK) (**Strike** or **SRK**), which declined in price from 4 to 3 cents per share during the financial year.

The Consolidated Entity accounts for Bentley Capital Limited (ASX:BEL) **Bentley** or **BEL**) as an Associate entity, which means that the Consolidated Entity is required to recognise a share of Bentley's net profit or loss in respect of the financial period based on Queste's (28.556% as at 30 June 2025) direct and indirect shareholding interest in Bentley (this is known as the equity method of accounting for an associate entity).

Results for Announcement to the Market

As a result, the Consolidated Entity's carrying value of its investment in Bentley has been reduced from cost to nil – as a consequence of the Consolidated Entity's accumulated recognition of Bentley's net losses. This compares with Bentley's last closing price on ASX of 1 cent per share (valuing Queste's investment at \$0.012 million and Orion's investment at \$0.21 million) and Bentley's after-tax NTA value of 0.65 cent per share (valuing Queste's investment at \$0.008 million and Orion's investment at \$0.13 million based), as at 30 June 2025.

The Consolidated Entity is not required to carry the Bentley investment at a negative value (ie. below nil) and if Bentley should generate net profits in the future, the Consolidated Entity will recognise a share of Bentley's net profits under the equity method, which will permit the Consolidated Entity to recognise a positive carrying value for Bentley.

The Consolidated Entity's financial performance is also dependent on the share price performance of Strike (in which Orion has 10 million shares and Bentley has 56.7 million shares, as at 30 June 2025).

The Strike share price has traded within a range of 2.5 cents (on 17 December 2024) to 4.5 cents (on 13 May 2025) in the past 12 months, with a bid price of 3 cents (as at 30 June 2025) and a current price of 3 cents (as at 26 August 2025).

Further information about Orion's operations financial position and performance for the financial year ended 30 June 2025 are outlined in Orion's 30 June 2025 Full Year Report.

Further information about Bentley's operations financial position and performance for the financial year ended 30 June 2025 are outlined in Bentley's 30 June 2025 Full Year Report.

Please refer to the attached Directors' Report and Financial Report for further information on a review of the Consolidated Entity's operations and the financial position and performance of the Consolidated Entity and Company for the year ended 30 June 2025.

Notwithstanding the accounting carrying value of the Company's investments as outlined herein, it is noted that the market value of the share investments as at Balance Date are as follows:

REMUNERATION REPORT

This Remuneration Report details the nature and amount of remuneration for each Director and Company Executive (being a company secretary or senior manager) (**Key Management Personnel** or **KMP**) of Queste.

The information provided under headings (1) to (6) below has been audited for compliance with section 300A of the *Corporations Act 2001 (Cth)* as required under section 308(3C).

(1) Remuneration Policy

The Board determines the remuneration structure of all Key Management Personnel having regard to the Company's strategic objectives, scale and scope of operations and other relevant factors, including experience and qualifications, length of service, the duties and accountability of Key Management Personnel, the frequency of Board meetings, market practice (including available data concerning remuneration paid by other listed companies and in particular, companies of comparable size and nature) and the objective of maintaining a balanced Board which has appropriate expertise and experience, at a reasonable cost to the Company.

Corporate Governance Principles: The Company's Corporate Governance Statement (**CGS**) also addresses matters pertaining to the Board, Senior Management and Remuneration. The latest version of the CGS may be downloaded from the Company's website: <http://queste.com.au/corporate-governance>.

Fixed Cash Short Term Employment Benefits: The Key Management Personnel of the Company are paid a fixed amount per annum plus applicable employer superannuation contributions. The Non-Executive Directors of the Company are paid a maximum aggregate base remuneration of \$75,000²² per annum inclusive of minimum employer superannuation contributions where applicable, to be divided as the Board determines appropriate.

The Board has determined the following fixed cash remuneration for current Key Management Personnel as follows (as at 30 June 2025):

Executive Director

- (1) Mr Farooq Khan (Executive Chairman and Managing Director) - a base annual salary of \$31,250 (voluntarily reduced from \$125,000) to assist the Company in reducing its corporate overheads) per annum plus employer superannuation contributions (which Mr Khan has voluntarily agreed to suspend in respect of the financial year); and
- (2) Mr Victor Ho (Executive Director and Company Secretary) - a base annual salary of \$22,500 (voluntarily reduced from \$45,000) per annum plus employer superannuation contributions (which Mr Ho has voluntarily agreed to suspend in respect of the financial year). Non – Executive Director

- (3) Mr Yaqoob Khan (Non-Executive Director) - a base annual fee of \$15,000 per annum (the payment of which Mr Khan has voluntarily agreed to suspend in respect of the financial year).

Key Management Personnel can also opt to "salary sacrifice" their cash fees/salary and have them paid wholly or partly as further employer superannuation contributions or benefits exempt from fringe benefits tax.

Special Exertions and Reimbursements: Pursuant to the Company's Constitution, each Director is entitled to receive:

- (a) Payment for reimbursement of all travelling, hotel and other expenses reasonably incurred by a Director for the purpose of attending meetings of the Board or otherwise in and about the business of the Company; and

REMUNERATION REPORT

Short-Term Benefits: The Company does not have any short-term incentive (**STI**) cash bonus schemes (or equivalent) in place for Key Management Personnel.

Long-Term Benefits: The Company does not have any long-term incentive (**LTI**) cash bonus schemes (or equivalent) in place for Key Management Personnel.

Equity Based Benefits: The Company does not presently have any equity (shares or options) based remuneration arrangements for any personnel pursuant to any executive or employee share or option plan or otherwise.

Post-Employment Benefits: The Company does not presently provide retirement benefits to Key Management Personnel. Other than compulsory superannuation contribution and early termination benefits disclosed in 'Employment Agreement' below, Key Management Personnel also have no right to termination payments save for payment of accrued unused annual and long service leave (where applicable) (these accrued employee entitlements are not applicable in respect of Non-Executive Directors). The Company notes that shareholder approval is required where a Company proposes to make a "termination payment" (for example, a payment in lieu of notice, a payment for a post-employment restraint and payments made as a result of the automatic or accelerated vesting of share based payments) in excess of one year's "base salary" (defined as the average base salary over the previous 3 years) to a director or any person who holds a managerial or executive office.

Performance-Related Benefits and Financial Performance of Company: The Company does not presently provide short- or long-term incentive/performance-based benefits related to the Company's performance to Key Management Personnel, including payment of cash bonuses. The current remuneration of Key Management Personnel is fixed, is not dependent on the satisfaction of a performance condition and is unrelated to the Company's performance.

The Board does not believe that it is appropriate at this time to implement an equity-based benefit scheme or a performance related/variable component to Key Management Personnel remuneration or remuneration generally linked to the Company's performance but reserves the right to implement these remuneration measures if appropriate in the future (subject to prior shareholder approval where applicable).

In considering the Company's performance and its effects on shareholder wealth, Directors have had regard to the data set out below for the latest financial year and the previous four financial years.

Critical accounting judgements and estimates

The above deferred tax assets have not been recognised in respect of the above items because it is not probable that future taxable profit will be available against which the Consolidated Entity can utilise the benefits. Revenue and capital tax losses are subject to relevant statutory tests.

The Consolidated Entity recognised an income tax benefit of \$1.41 million from the reversal of a provision for income tax expense of \$1.41 million previously recognised as at 30 June 2024 in respect of the \$5 million total gross consideration received by the Consolidated Entity on the termination (in 8 March 2024) of a royalty in relation to the Paulsens East Iron Ore Project. Subsequent to 30 June 2024, the Consolidated Entity has determined that it does not have an income tax liability due to the utilisation of available carried forward prior year tax losses of \$12 million in respect of the Consolidated Entity's Income tax return for the financial year ended 30 June 2024.

8. FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS	2025	2024
	\$	\$
Listed securities at fair value	300,005	400,002

Accounting policy

Financial instruments are initially measured at cost on trade date, which includes transaction costs, when the related contractual rights or obligations exist. Subsequent to initial recognition, financial assets at fair value through profit and loss acquired principally for the purpose of selling in the short term or if so designated by management and within the requirements of AASB 9: Financial Instruments will recognise its realised and unrealised gains and losses arising from changes in the fair value of these assets are included in profit or loss in the period in which they arise.

The fair value of financial instruments traded in active markets (such as publicly traded derivatives, and trading and available-for-sale securities) is based on quoted market prices at the balance sheet date which is the current bid price. The Consolidated Entity's investment portfolio is accounted for as "financial assets at fair value through profit and loss" and is carried at fair value.

9. FINANCIAL RISK MANAGEMENT

The Consolidated Entity's financial instruments consist of deposits with banks, accounts receivable and payable, investments in listed securities, and other unlisted securities. The principal activity of the Consolidated Entity is the management of these investments - "financial assets at fair value" (refer to Note 8). The Consolidated Entity's investments are subject to market (which includes interest rate and price risk), credit and liquidity risks.

The Board of Directors are responsible for the overall internal control framework (which includes risk management) but no cost-effective internal control system will preclude all errors and irregularities. The system is based, in part, on the appointment of suitably qualified management personnel. The effectiveness of the system is continually reviewed by management and at least annually by the Board.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

for the year ended 30 June 2025

9. FINANCIAL RISK MANAGEMENT (continued)

The financial receivables and payables of the Consolidated Entity in the table below are due or payable within 30 days. The financial investments are held for trading and are realised at the discretion of the Board of Directors.

The Consolidated Entity holds the following financial assets and liabilities:		2025	2024
	Notes	\$	\$
Cash and cash equivalents	7	4,129,870	1,462,979
Financial assets at fair value through profit or loss	8	300,005	400,002
Receivables	11	2,822	3,000,000
		4,432,697	4,862,981
Payables	13	(120,708)	(320,634)
Net financial assets		4,311,989	4,542,347

(a) Market risk

Market risk is the risk that the fair value and/or future cash flows from a financial instrument will fluctuate as a result of changes in market factors. Market risk comprises of price risk from fluctuations in the fair value of equities and interest rate risk from fluctuations in market interest rates.

(i) Price risk

The Consolidated Entity is exposed to equity securities price risk. This arises from investments held by the Consolidated Entity and classified in the Statement of Financial Position at fair value through profit or loss. The Consolidated Entity is not exposed to commodity price risk, save where this has an indirect impact via market risk and equity securities price risk.

The value of a financial instrument will fluctuate as a result of changes in market prices, whether those changes are caused by factors specific to the individual instrument or its issuer or factors affecting all instruments in the market. By its nature as an investment company, the Consolidated Entity will always be subject to market risk as it invests its capital in securities that are not risk free - the market price of these securities can and will fluctuate. The Consolidated Entity does not manage this risk through entering into derivative contracts, futures, options or swaps.

Equity price risk is minimised through ensuring that investment activities are undertaken in accordance with Board established mandate limits and investment strategies.

The Consolidated Entity has performed a sensitivity analysis on its exposure to market price risk at balance date. The analysis demonstrates the effect on the current year results and equity which could result from a change in these risks. The ASX All Ordinaries Index was utilised as the benchmark for the unlisted and listed share investments which are financial assets available-for-sale or at fair value through profit or loss.

ASX All Ordinaries Index	Impact on post-tax profit		Impact on other components of equity	
	2025	2024	2025	2024

Increase 15%	24,177	23,436	24,177	23,436
Decrease 15%	(24,177)	(23,436)	(24,177)	(23,436)

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

for the year ended 30 June 2025

9. FINANCIAL RISK MANAGEMENT (continued)

(ii) *Interest rate risk*

Interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market interest rates. The Consolidated Entity's exposure to market risk for changes in interest rates relate primarily to investments held in interest bearing instruments. The average interest rate for the year for the table below is 3.7% (2024: 4.19%). The revenue exposure is immaterial in terms of the possible impact on profit or loss or total equity.

(b) *Credit risk*

Credit risk refers to the risk that a counterparty under a financial instrument will default (in whole or in part) on its contractual obligations resulting in financial loss to the Consolidated Entity. Credit risk arises from cash and cash equivalents and deposits with banks and financial institutions, including outstanding receivables and committed transactions. Concentrations of credit risk are minimised primarily by undertaking appropriate due diligence on potential investments, carrying out all market transactions through approved brokers, settling non-market transactions with the involvement of suitably qualified legal and accounting personnel (both internal and external), and obtaining sufficient collateral or other security (where appropriate) as a means of mitigating the risk of financial loss from defaults. The Consolidated Entity's business activities do not necessitate the requirement for collateral as a means of mitigating the risk of financial loss from defaults.

The credit quality of the financial assets are neither past due nor impaired and can be assessed by reference to external credit ratings (if available with Standard & Poor's) or to historical information about counterparty default rates. The maximum exposure to credit risk at Balance Date is the carrying amount of the financial assets as summarised below:

	2025	2024
	\$	\$
Cash and cash equivalents		
AA-	4,128,743	1,461,852
Receivables (due within 30 days)		
No external credit rating available	99,072	3,000,000

The Consolidated Entity measures credit risk on a fair value basis. The carrying amount of financial assets recorded in the financial statements, net any provision for losses, represents the Consolidated Entity's maximum exposure to credit risk.

(c) *Liquidity risk*

Liquidity risk is the risk that the Consolidated Entity will encounter difficulty in meeting obligations associated with financial liabilities. The Consolidated Entity has no external borrowings. The Consolidated Entity's non-cash investments can be realised to meet trade and other payables arising in the normal course of business. The financial liabilities disclosed in the above table have a maturity obligation of not more than 30 days.

10. FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS

Fair value hierarchy

AASB 13 (Fair Value Measurement) requires disclosure of fair value measurements by level of the following fair value measurement hierarchy:

- (i) Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;
- (ii) Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices); and
- (iii) Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

for the year ended 30 June 2025

10. FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS (continued)

Financial assets at fair value through profit or loss:

	Level 1	Level 2	Level 3	Total
	\$	\$	\$	\$
Listed securities at fair value				
2025	300,005	-	-	300,005
2024	400,002	-	-	400,002

There have been no transfers between the levels of the fair value hierarchy during the financial year.

(a) Valuation techniques

The fair value of the listed securities traded in active markets is based on closing bid prices at the end of the reporting period. These investments are included in Level 1.

The fair value of any assets that are not traded in an active market are determined using certain valuation techniques. The valuation techniques maximise the use of observable market data where it is available, or independent valuation and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in Level 2. If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3.

(b) Fair values of other financial assets and liabilities

	Notes	2025	2024
		\$	\$
Cash and cash equivalents	7	4,129,870	1,462,979
Receivables	11	2,822	3,000,000
		4,132,692	4,462,979
Payables	13	(120,708)	(320,634)
		4,011,984	4,142,345

Due to their short-term nature, the carrying amounts of cash, current receivables and current payables is assumed to approximate their fair value.

Accounting policy

The fair value of financial assets and financial liabilities must be estimated for recognition and measurement or for disclosure purposes. The fair value of financial instruments traded in active markets (such as publicly traded derivatives, and trading and available-for-sale securities) is based on quoted market prices at the Balance Date. The quoted market price used for financial assets held by the Consolidated Entity is the current bid price; the appropriate quoted market price for financial liabilities is the current ask price.

The fair value of financial instruments that are not traded in an active market (for example over-the-counter derivatives) is determined using valuation techniques, including but not limited to recent arm's length transactions, reference to similar instruments and option pricing models. The Consolidated Entity may use a variety of methods and makes assumptions that are based on market conditions existing at each Balance Date. Other techniques, such as estimated discounted cash flows, are used to determine fair value for other financial instruments.

The Consolidated Entity's investment portfolio (comprising listed) is accounted for as "financial assets at fair value through profit and loss" and is carried at fair value based on the quoted last bid prices at the Balance Date (refer Note 8).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

for the year ended 30 June 2025

11. RECEIVABLES

Current	\$	\$
Iron ore royalty entitlement termination payment	-	3,000,000

The Consolidated Entity received the \$3 million iron ore royalty entitlement termination payment (due on 30 June 2024) on 3 July 2024.

Risk exposure

The Consolidated Entity's exposure to credit and interest rate risks is discussed in Note 9.

Impaired trade receivables

None of the Consolidated Entity's receivables are impaired or past due.

12. INVESTMENT PROPERTY

	2025	2024
	\$	\$
Property at fair value	2,100,000	1,850,000

Change in Classification – Reclassification from Assets Held for Sale to Investment Property

A real property non-current asset has been reclassified from being a 'Property held for redevelopment and resale' (under AASB 5) to an 'Investment property' (under AASB 140) in light of the current status of the property where the Consolidated Entity is not undertaking an active program to sell or redevelop the property. The property is still measured at fair value, with any changes in value recorded in the statement of profit or loss and other comprehensive income. This reclassification did not have a material financial effect for the financial year and prior year comparative values have not been adjusted.

Critical accounting judgement and estimate

The investment property was valued by an independent qualified valuer (a Licensed Valuer of the Australian Property Institute) at \$2,100,000 as at 30 June 2025 (2024: \$1,850,000). The \$250,000 increase in value has been recognised as a fair value gain in the statement of profit or loss and other comprehensive income.

Accounting policy

The investment property was initially valued at its cost. Cost includes the cost of acquisition and any directly attributable expenditure. The investment property is now valued based on its fair value. A gain or loss arising from a change in the fair value of investment property is recognised in the statement of profit or loss and other comprehensive income.

13. PAYABLES

(a) Amounts not expected to be settled within 12 months

The provision for annual leave and long service leave is presented as current since the Consolidated Entity does not have an unconditional right to defer settlement for any of these employee benefits. Long service leave covers all unconditional entitlements where employees have completed the required period of service and also where employees are entitled to pro-rata payments in certain circumstances.

Based on past experience, the employees have never taken the full amount of long service leave or require payment within the next 12 months. The following amounts reflect leave that is not expected to be taken or paid within the next 12 months:

19. INVESTMENT IN CONTROLLED ENTITY (continued)

Changes in Ownership Interests

When the Consolidated Entity ceases to have control, any retained interest in the entity is re-measured to its fair value with the change in carrying amount recognised in profit or loss. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the Consolidated Entity has directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to profit or loss.

 - (a) The Consolidated Entity has applied current legislation and judicial precedent, including having regard to the Tax Commissioner's public guidance in Tax Ruling TR 2018/5 and the advice of independent Australian tax advisers; and
 - (b) Where necessary, the Consolidated Entity has used independent tax advisers in foreign jurisdictions to assist in its determination of tax residency to ensure applicable foreign tax legislation has been complied with.
- (6) Where the entity is not an Australian tax resident but is a foreign tax resident based on the Australian domestic law definition, then each foreign country in which the entity is a tax resident (as determined under the law of foreign jurisdictions) must be disclosed in the CEDS. However, if the entity is an Australian tax resident, this requirement does not apply and no further information needs to be provided about other tax residencies of the entity.
