## Strategic Review of the A1 Gold Mine

29 AUGUST 2025

**Kaiser Reef Limited** (ASX: KAU) ("**Kaiser**" or the "**Company**") advises that it has commenced a **strategic review** of its wholly owned **A1 Gold Mine**, located in Victoria, Australia.

Kaiser notes that the mineralisation identified in the recently reached mid to northern region of the Nova Zone is showing reduced alteration and less consistent and lower grade gold than in the levels immediately above it, resulting in lower mined grades.

The review is being undertaken to assess a range of options to maximise shareholder value from the A1 operation. This includes consideration of operational, financial, and strategic alternatives to determine the optimal pathway forward.

Kaiser emphasises that no decisions have been made at this stage, and there is no certainty that the review will result in any specific transaction or change to current operations. The Company will provide further updates to shareholders as required in accordance with its continuous disclosure obligations under the ASX Listing Rules.

Kaiser maintains a healthy and growing balance sheet and ongoing profitable operations at the Henty gold mine in Tasmania.
