**Hayden Locke, President & CEO of Marimaca Copper, commented:**

*"We are very pleased to see strong support from high-quality investors for the next phase of our development and exploration plans at Marimaca and Pampa Medina. This raise will allow us to move expeditiously into the detailed design and engineering phase at the MOD, as well as expand the exploration program at both Pampa Medina and the Marimaca sulphides exploration target. The recent MOD Definitive Feasibility Study demonstrated a very robust starting-point in our overall regional development goals and we are grateful for the continued support to deliver on that strategy."*
