2025 ANNUAL REPORT

FOR THE YEAR ENDED 30 JUNE 2025

PARKWAY CORPORATE LIMITED AND
ITS CONTROLLED ENTITIES

ABN: 62 147 346 334

ABOUT PARKWAY CORPORATE LIMITED

Parkway is a leading Australian water and wastewater treatment and process technology company. Parkway is focused on the commercialisation of a portfolio of innovative process technologies in key industrial markets, as Parkway believes this is an important and effective strategy for addressing various global water related sustainability challenges.

Stock Exchange Listing

Parkway Corporate Limited shares are listed on the Australian Securities Exchange (ASX: PWN) and the Frankfurt Stock Exchange (FSE: 4IP).

CHAIRMAN'S LETTER

Dear Shareholder,

On behalf of the board of Parkway Corporate Limited ("**Parkway**"), I am pleased to present the Parkway 2025 Annual Report to shareholders.

Although recent geopolitical developments combined with increased emphasis on more traditional financial metrics have impacted ESG related industry drivers, we are nonetheless observing strong interest in water and sustainable wastewater management. Given the importance of water, as a board we believe the urgency of addressing these challenges will not only persist but accelerate in the future. In order to address these long-term challenges, during the year, Parkway continued to establish itself as a leading Australian industrial water treatment technology company.

During the year, Parkway continued to execute its dual-pronged approach of providing proven water treatment solutions through its Industrial Operations division, whilst developing highly innovative solutions through the Industrial Technology division.

As the operations of Parkway continue to grow, Parkway is increasingly involved in the engineering, fabrication and installation of complex water and wastewater treatment related infrastructure. Our operating business continued to grow strongly, generating revenues of \$15.14 million for FY25 (FY24: \$8.90 million) resulting in a maiden full year net profit after tax of \$0.02 million (FY24: \$0.73 million loss).

Parkway continues to invest in growth and has recently made significant investments in new vehicles, equipment as well as state-of-the-art automated welding technology. These enabling investments will support continued safety and efficiency improvements as well as provide Parkway with additional project delivery related capabilities. Building these project delivery capabilities continues to be an important aspect of Parkway's broader priorities in providing integrated industrial water treatment solutions, including solutions incorporating Parkway technologies.

Whilst the operations of Parkway continue to grow, the development and commercialisation of a portfolio of proprietary process technologies remains an important priority for Parkway, with a range of ongoing activities focused on realising the substantial advantages of this proprietary technology portfolio. Although these technology development related activities are currently being advanced in the context of the coal seam gas ("**CSG**") industry, these technologies have broader applications, which Parkway is also concurrently pursuing, particularly given Parkway's growing project delivery capabilities.

Implementation of Parkway's business plan for the CSG industry through the Queensland Brine Solutions ("**QBS**") division is continuing to build momentum. QBS representatives have been actively participating in industry events across Central Queensland and continue to receive strong feedback on the QBS roadmap for delivering brine management solutions for the CSG industry. QBS is also making progress in relation to securing strategic project site/s to develop key brine management and processing related infrastructure. In addition to important site acquisition related activities, internal feasibility related studies are continuing to be performed in parallel and provide strong encouragement on the merits of the roadmap being advanced by QBS.

We continue to engage with a range of important stakeholders, including in relation to the potential adoption of our various technologies, which present significant opportunities to not only improve the sustainability of industry, but also provide attractive strategic opportunities for Parkway.

On behalf of the board, I would like to take this opportunity to thank you for your continued support as a shareholder of Parkway and to welcome all new shareholders.

Yours Sincerely,

Mr. Stephen van der Sluys
Non-Executive Chairman

23 September 2025

DIRECTORS' REPORT

The Directors present their report on Parkway Corporate Limited (ACN 147 346 334) ("**Parkway**", or the "**Company**"), and its controlled entities (the "**Group**"), for Parkway's financial year ended 30 June 2025 ("**FY25**").

Directors

The names and details of Parkway's Directors in office, for some or all of the financial year, and to the date of this report unless otherwise stated, are set out below. During FY25 there were no changes to the Board of Directors.

Name	Tenure During Financial Year
Stephen van der Sluys (Non-executive Chairman)	1 July 2024 to 30 June 2025
Bahay Ozcakmak (Group Managing Director & CEO)	1 July 2024 to 30 June 2025
Penelope Creswell (Non-executive Director)	1 July 2024 to 30 June 2025
Ayten Saridas (Non-executive Director)	1 July 2024 to 30 June 2025

Names, qualifications, experience and special responsibilities

Stephen van der Sluys – Non-executive Chairman

Qualifications
BBuild, FAusIMM, FAICD

Mr van der Sluys is a highly credentialed investment banker and business executive, with extensive international experience in capital markets and strategic transactions, including mergers & acquisitions. Mr van der Sluys has held a number of senior investment banking roles (predominantly in Australia and the United States of America), including with Citibank, JP Morgan Chase & Co, Bank of New Zealand and as CEO of CIBC Wood Gundy Australia. In addition to his investment banking experience, Mr van der Sluys has also held various senior executive roles, at a range of large companies which operate in the mining and resources industry, including as Executive Director of Queensland Nickel at the time during which Parkway successfully listed as an ASX company. More recently, Mr van der Sluys has assisted a number of junior resources companies achieve corporate success. Mr van der Sluys has extensive experience in the project and structured financing of Queensland mining and infrastructure projects over several decades. He was directly involved in QAL (Gladstone) and QNI expansion projects (Yabulu), as well as in the financing of major base metal and coal projects for the former MIM Limited (Glencore). His project experience extended to mineral sand production at Southport, fertilizer production at Gibson Island and the early attempts to develop major oil shale projects given Queensland's extensive hydrocarbon resources.

Other listed company directorships during the last 3 years: None.

Mr van der Sluys is a member of the Audit & Risk Committee, Remuneration Committee (Chairman), and the Nomination Committee.

Bahay Ozcakmak – Group Managing Director & CEO

Qualifications

BSc, MABus, DipFin(Inv.), MAICD

Mr Ozcakmak is a highly experienced executive having been engaged as a corporate adviser by a large number of companies operating in a range of sectors, during the last 20 years. Mr Ozcakmak has extensive corporate development expertise, including M&A experience in the technology, energy and mining sectors, where he has led the successful acquisition, development and/or commercialisation of several flagship projects, including major corporate transactions, mostly with publicly listed companies. In addition to extensive corporate experience in business and corporate strategy development in the energy and mining sectors, including in a diverse range of commodities, Mr Ozcakmak has also been focused on creating value through the commercialisation of innovative and sustainable technologies in these sectors. During two decades of successful technology commercialisation experience, Mr Ozcakmak has also founded several technology companies, including Activated Water Technologies (“AWT”) and was the CEO of AWT’s parent company, Consolidated Potash Corporation, up until its acquisition by Parkway. Mr Ozcakmak is considered a technology commercialisation expert, having successfully led the commercialisation of numerous technologies in the agtech, biotechnology, water, energy and mining sectors. Since 2015, Mr Ozcakmak has also led a highly successful collaboration with leading researchers at Victoria University. In recognition of the contributions made by Mr Ozcakmak to the Institute of Sustainable Industries & Liveable Cities at Victoria University, in May 2020, the honorary title of Adjunct Associate Professor was conferred upon Mr. Ozcakmak. Mr Ozcakmak has extensive equity capital market experience, is currently a director of several private companies and has previously held directorships and C-suite roles with numerous companies listed in Australia (“ASX”), Canada (“TSX”) and the UK (“AIM”).

Other listed company directorships during the last 3 years: None.

Ayten Saridas – Non-executive Director

Qualifications

CPA Australia, BComm, MAppFin

Ms Saridas is a results-driven finance executive with over 30 years of international experience across a broad range of industries including in oil and gas, mining, retail, infrastructure, property, and financial services. Ms Saridas is a proven leader with an established reputation in the financial markets, with a solid track record in the investment community and brings commercial acumen and strength in strategic thinking and delivering solutions for complex financial situations. Ms Saridas has until recently held CFO and executive roles with Coronado Global Resources, Santos Ltd, AWE Limited and Woolworths amongst other ASX listed companies. Ms Saridas’s core strengths include working with companies to develop disciplined capital allocation strategies, drive growth through strategic positioning and execution of business plans to deliver sustainable profits. Ms Saridas has led the development of corporate strategy, M&A and IPO transactions, corporate defence and multi-billion dollar capital raisings in support of these achievements.

Other listed company directorships during the last 3 years: Australian Pacific Coal Ltd (Director November 2022 – 29 November 2024).

Ms Saridas is a member of the Audit & Risk Committee, Remuneration Committee, and the Nomination Committee.

Penelope Creswell – Non-executive Director

Qualifications

BA, LLB (Hons), MAICD

Ms Creswell is a highly experienced lawyer, with 25+ years of professional experience, including ~10 years at Allens (one of Australia's most prestigious top-tier law firms) and most recently ~7 years as the leading in-house legal counsel for all planning and environmental legal matters at Cleanaway Waste Management Limited (ASX:CWY), Australia's largest waste management company. Ms Creswell is currently the Head of Environment and Regulatory Compliance at Cleanaway, a national role she has held since December 2021. Ms Creswell also brings ~4 years of experience at the Northern Land Council in the Northern Territory, as well as experience as a secondee General Counsel at Melbourne Water, to her role with the Group. While her professional career has spanned diverse areas of law, her key focus over the last 15 years has been infrastructure projects, planning and environmental law, including in the waste and water sectors.

Other listed company directorships during the last 3 years: None.

Ms Creswell is a member of the Audit & Risk Committee, Remuneration Committee, and the Nomination Committee.

Joint Company Secretaries

Amanda Wilton-Heald

Ms Wilton-Heald is a Chartered Accountant with over 20 years of accounting, auditing (of both listed and non-listed companies) and company secretarial experience within Australia and the UK. Amanda has been involved in the listing of junior explorer companies on the ASX and has experience in corporate advisory and company secretarial services.

Michael Hodgkinson

Qualifications

CPA Australia, BEc, LLB (Hons), EMBA – Global (LBS & Columbia)

Mr Hodgkinson was appointed joint company secretary on 25 October 2024 and is also the Chief Financial Officer, having been with Parkway since 29 May 2023. Mr Hodgkinson is a commercially focused executive with extensive finance experience supporting high growth businesses across industrial, energy, finance and infrastructure sectors. Over the course of his career Mr Hodgkinson has overseen numerous acquisitions, capital raises, and major IT and construction projects. His experience includes infrastructure development, complex service contracting, and the strategic use of systems and data to integrate businesses and drive sustained operational performance and efficiency.

DIRECTORS' REPORT

Interests in the shares and options of Parkway and related bodies corporate

As at 30 June 2025, the interests of the Directors (including related parties) in the shares and options of Parkway were:

	Number of ordinary shares	Number of options over ordinary shares	Number of Performance Rights over ordinary shares
Bahay Ozcakmak	222,070,534	-	12,237,500
Penelope Creswell	-	-	-
Stephen van der Sluys	-	-	-
Ayten Saridas	-	-	-

Dividends

No dividend has been paid or declared for the year ended 30 June 2025 (30 June 2024: nil) and the Directors do not recommend the payment of a dividend in respect of the financial year.

OPERATING AND FINANCIAL REVIEW

Principal activities

The principal activities of the Group during FY25 include:

- the commercialisation of proprietary water, wastewater and brine processing technologies, with applications in the energy and mining sectors ("**Industrial Technology Division**"); and
- the development of an integrated water treatment project delivery capability ("**Industrial Operations Division**"), to complement and support the Group's Industrial Technology Division.

Operating results for the year

The Group's profit after income tax expense for its FY25 was \$15,915 (2024 loss: \$734,406).

Financial Performance

	2025 \$	2024 \$	% Increase/ (Decrease)
Sales revenue	15,144,043	8,898,333	70.2%
Total income	15,260,674	9,627,625	58.5%
Profit / (Loss) before tax	21,169	(734,406)	102.9%
Profit / (Loss) after income tax expense	15,915	(734,406)	102.2%
Profit / (Loss) per share (cents)	0.001	(0.03)	102.2%

The financial position of the Group is presented in the attached Consolidated Statement of Financial Position.

As of 30 June 2025, the Group had a net asset balance of \$15,730,793 which is an increase of \$237,182 from \$15,493,611 as of 30 June 2024. The cash balance decreased from \$3,492,197 as of 30 June 2024 to \$2,580,193 as of 30 June 2025. For further details, refer to the Consolidated Statement of Financial Position.

OPERATING AND FINANCIAL REVIEW (continued)

INTRODUCTION

Parkway is a leading Australian water and wastewater treatment and process technology company. Parkway is focused on the commercialisation of a portfolio of innovative process technologies in key industrial markets, as Parkway believes this is an important and effective strategy for addressing various global water related sustainability challenges.

In recent years, Parkway has made significant investments in groundbreaking Research and Development (“R&D”) related activities, including in the acquisition, development, validation and optimisation of a comprehensive portfolio of cutting-edge industrial water treatment related process technologies.

In support of Parkway’s accelerated technology commercialisation strategy, Parkway primarily operates through two strategically integrated capacities:

- **Industrial Operations** business division is focused on the provision of conventional water and wastewater treatment related products and services, incorporating engineering, fabrication as well as project delivery related services including installation, for a broad range of predominantly commercial, industrial and municipal clients.
- **Industrial Technology** business division is primarily focused on innovative process technology related R&D, including process development, evaluation, optimisation and piloting, as well as a range of technology commercialisation related activities.

As the *Industrial Operations* division continues to grow and build critical mass, it is increasingly important in providing Parkway with a suitable project delivery platform to commercialise its portfolio of proprietary process technologies, being developed by the *Industrial Technology* division.

Integrated Water Treatment Capabilities

Parkway has systematically assembled a fully integrated inhouse project delivery capability, including for the innovative process technologies being developed and commercialised by Parkway’s *Industrial Technology* division.

As a result of these integrated water treatment related capabilities, Parkway is increasingly capable of delivering a diverse range of industrial water, wastewater treatment and infrastructure related projects on a turnkey (Engineering, Procurement and Construction – “EPC”) basis.

INDUSTRIAL OPERATIONS DIVISION

Parkway’s *Industrial Operations* are performed through Parkway Process Solutions Pty Ltd (“PPS”) and are predominantly focused on the provision of conventional water and wastewater treatment related products and services, including specialty project execution related services. In addition, PPS is increasingly involved in integrated project delivery related services including engineering, specialised fabrication and installation services for a diverse range of commercial, industrial and municipal clients.

Project Delivery Capabilities

As the *Industrial Operations* of Parkway continue to grow, Parkway is increasingly involved in the engineering, fabrication and installation of complex water and wastewater treatment related infrastructure. As outlined above, building these project delivery capabilities, is an important aspect of Parkway’s broader priorities in providing integrated industrial water treatment solutions, including solutions incorporating Parkway Process Technology Pty Ltd (“PPT”) technologies.

In the ordinary course of operations, Parkway collaborates closely with leading industrial companies including with energy, mining and major engineering contractors as well as municipal water authorities, to provide a range of water infrastructure related engineered solutions.

OPERATING AND FINANCIAL REVIEW (continued)

INDUSTRIAL OPERATIONS DIVISION (continued)

Operating Performance

During the year, PPS generated increasing operating revenues of \$4.22 million, underpinned by a strong contribution from project execution related activities, predominantly delivered by the Tankweld business division. The ongoing focus on targeting more specialised projects requiring engineered solutions, continued to support the transition to profitability with \$0.47 million in EBITDA generated during the year. Further financial details are provided in the *Corporate* section of this report.

Business Development & Growth Outlook

Parkway continues to expand its market penetration by securing new business from a diverse range of clients, for the provision of industrial water and wastewater treatment related products, services, and solutions. The growing PPS client base provides a strong foundation and supports future revenue growth as these commercial relationships continue to grow and mature. Despite limited marketing and business development related activities the PPS project pipeline is growing strongly. As part of ordinary operations, Parkway secured the award of several water infrastructure related projects, including the successful award of ~\$12.85 million contract with a major (tier-1) engineering and construction contractor. The Parkway scope for the contract is predominantly focused on delivering Structural, Mechanical and Piping ("SMP") related scope, from fabrication through to site installation, specialised and project management related services to support the development of a high-profile wastewater treatment complex incorporating innovative resource recovery functions.

The growth outlook for the *Industrial Operations* division of Parkway remains encouraging, as Parkway has a growing project backlog as well as a substantial pipeline of project opportunities. In addition to the award of the contracts outlined above, Parkway anticipates the award of several additional contracts which will further underpin the continued growth of Parkway.

Project Delivery Related Investments

Parkway continues to invest in growth and has recently made significant investments in new vehicles, equipment as well as state-of-the-art automated welding technology. These enabling investments will also drive continued safety and efficiency improvements as well as provide Parkway with additional project delivery related capabilities.

INDUSTRIAL TECHNOLOGY DIVISION

Parkway's *Industrial Technology* related activities are performed through PPT and predominantly focused on innovative process technology related R&D, including process development, evaluation, optimisation and piloting, as well as a range of technology commercialisation related activities.

Technology Development

By leveraging the process engineering capabilities of Parkway, PPT continues to build a portfolio of proprietary technologies, capable of providing highly integrated process solutions, for a range of complex wastewater and industrial process streams traditionally considered difficult to treat. PPT has developed innovative applications for these technologies, including applications resulting in improvements in the processing and treatment of challenging industrial wastewater streams, particularly for large scale industrial, oil & gas, mining and mineral processing related operations.

PPT Technology Priorities

The development and commercialisation of a portfolio of proprietary process technologies remains an important priority for Parkway, with a range of ongoing activities focused on realising the substantial advantages of the PPT technology portfolio. Although these technology development related activities are currently being advanced in the context of Coal Seam Gas ("CSG") related solutions for Queensland Brine Solutions Pty Ltd ("QBS"), a wholly owned subsidiary of Parkway, these technologies have broader applications, which Parkway is also concurrently pursuing, particularly given Parkway's growing project delivery capabilities.

OPERATING AND FINANCIAL REVIEW (continued)

INDUSTRIAL OPERATIONS DIVISION (continued)

Technology Commercialisation – QBS

Since the large-scale development of the CSG industry in Queensland in 2010 and the corresponding establishment and subsequent transition to the export of Liquefied Natural Gas (“LNG”) commencing in 2015, the CSG industry has been a significant part of the Queensland economy. In addition to supplying a significant proportion of East Coast gas production, according to estimates from Australian Energy Producers¹, in FY24 the Queensland CSG industry generated \$22.4 billion in LNG export revenue and \$2.4 billion in local and state government revenues, highlighting the scale of the industry.

Waste Brine Related Challenges

Notwithstanding the significant scale and importance of the Queensland CSG industry, over the life of currently operating CSG projects in Queensland, an estimated 6 million tonnes of waste salts are forecast to be produced by these projects. A significant proportion of these salts have already been produced, in the form of waste brine and are currently being stored in regulated waste brine storage ponds, awaiting a viable long-term disposal solution. The disposal of waste brine and salts, as contemplated by the CSG industry, present extensive environmental risks and challenges, and remains deeply unpopular, with significant opposition from a range of stakeholders.

Recognising these significant challenges, in recent years, Parkway has methodically developed a portfolio of proprietary process technologies, to specifically address the waste brine and salt management and disposal related challenges facing the CSG industry. These technologies have undergone extensive process optimisation, piloting and technoeconomic evaluations, providing a high level of confidence in the value proposition presented by these technologies, particularly in comparison to the industry’s proposed approach of sophisticated salt disposal (salt encapsulation).

Importantly, the encapsulation of waste salts from the CSG industry remains unproven, is inconsistent with the long-established regulatory (waste management hierarchy) and policy framework and no disposal plans and/or facilities have been permitted in Australia, highlighting the enduring waste management related challenges facing the industry.

QBS Master Plan

As part of a long-term strategy to address the significant CSG derived waste brine and salt challenges in Queensland, on 22 June 2023, Parkway released² the QBS Master Plan, an innovative, sustainability driven concept based on providing an industry-wide solution. Parkway’s CSG brine processing and commercialisation related activities in Queensland are being conducted through QBS, a wholly owned subsidiary of Parkway.

The primary objective of the QBS Master Plan is to utilise the proprietary process technologies developed by Parkway, to convert CSG derived waste brine and salts produced in Queensland, into valuable industrial chemical products. This proposed approach is intended to improve the sustainability of the Queensland CSG industry, by addressing significant community concerns and by providing a permanent waste “disposal” (convert waste-to-products) solution.

Developing an Integrated Solution

Following a series of comprehensive assessments including technoeconomic evaluations and feedback from industry and other stakeholders, Parkway has developed a roadmap for providing an industry-wide solution to the waste brine and salt related challenges facing the Queensland CSG industry, based on the Best Available Technology (“BAT”) being commercialised by Parkway.

¹ Australian Energy Producers (“AEP”), *Queensland’s natural gas: A plan for energy and economic security*. Published by AEP in October 2024.

² Refer to 22 June 2023 ASX announcement, available at Parkway Investor Hub: <https://investorhub.pwnps.com/announcements/4372527>.

OPERATING AND FINANCIAL REVIEW (continued)

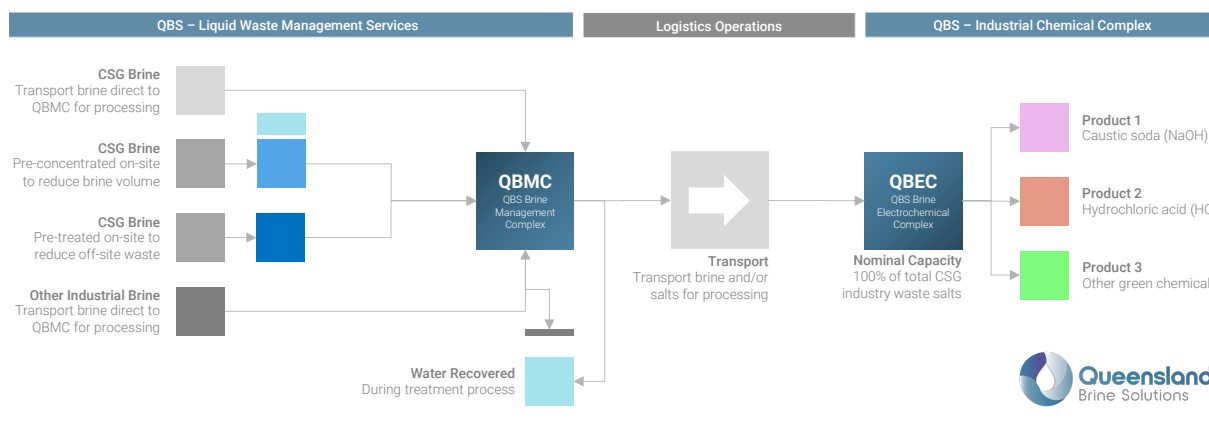

INDUSTRIAL OPERATIONS DIVISION (continued)

As part of this roadmap, Parkway recently disclosed it intends to lead the development of several strategic brine processing related projects in Queensland, by leveraging its proprietary technologies to address significant industry challenges (provision of liquid waste management services), whilst concurrently creating significant value through the production of industrial chemicals. This industry-leading approach enables Parkway, through QBS, to leverage a range of strategic advantages and create significant value.

The QBS brine management solution consists of the following key components:

- The upstream pre-treatment and stage 1 concentration of brine (depending on the specific CSG project, this may occur at the client project site), which is then transported to QBS Brine Management Complex ("QBMC");
- QBMC, where regional upstream brines are consolidated, undergo processing and stage 2 concentration, before the now much smaller volume of brine and/or salts are transported to QBS Brine Electrochemical Complex ("QBEC");
- QBEC, where the brine and/or salts are converted into valuable green industrial chemicals based on state-of-the-art technology.

An overview of the integrated brine management solution being developed by QBS is outlined below.

Recent Progress

Implementation of Parkway's QBS business plan is building momentum, supported by strong industry and stakeholder engagement. In recent months QBS representatives have participated in several industry events across Central Queensland and continue to receive strong feedback on the QBS roadmap for delivering brine management solutions for the CSG industry. As a member of the Toowoomba and Surat Basin Enterprise ("TSBE"), QBS participated in the inaugural Surat Basin Coexistence Symposium in Dalby on 30 – 31 July 2025.

QBS is also making progress in relation to securing strategic project site/s to develop key brine management and processing related infrastructure. In addition to being shortlisted for a strategic project site through a recent tender process, QBS is also engaging in encouraging discussions with a range of other relevant parties.

Whilst important site acquisition related activities are being progressed, internal feasibility related studies are continuing to be performed in parallel and provide strong encouragement on the merits of the roadmap being advanced by QBS.

Technology Commercialisation – Industrial

In parallel with the research and development activities relating to the portfolio of innovative process technologies and commercialisation activities being advanced by QBS, Parkway is also focused on the commercialisation of PPT's more advanced proprietary flowsheets, with applications in mining and other industries.

OPERATING AND FINANCIAL REVIEW (continued)

INDUSTRIAL OPERATIONS DIVISION (continued)

Technology Evaluation – Global Mining Company

Parkway has been performing various piloting related activities (based on a proprietary aMES[®] based flowsheet) on concentrated brines derived from an international critical minerals project, for a global mining company. Representatives of the global mining company recently visited Parkway, including the Parkway Centre for Brine Technologies, to observe the piloting related activities. The piloting related activities have recently concluded and were successful in meeting all the objectives of the testing campaign and associated evaluations, with results summarised in a final report recently submitted to the client.

Technology Applications – Industrial Liquid Waste Management

Parkway is collaborating with several reputable organisations in relation to evaluating the potential to incorporate PPT technologies as part of a range of industrial liquid waste management related solutions. One of these opportunities has recently advanced to a technoeconomic evaluation stage and potentially involves Parkway becoming a part owner/operator, as well as brine technology solutions provider.

The continued inbound interest in the PPT technology portfolio highlights the strategically valuable nature of this intellectual property portfolio and provides Parkway with significant opportunities to create substantial value.

SIGNIFICANT CHANGES IN THE STATE OF AFFAIRS

On 25 June 2024 Parkway was awarded a major contract with a total value of \$12.9 million, expected to materially increase operating revenue from FY25 levels. This represents a material change in the scale of operations and future financial position.

On 28 July 2024 245,918,535 Parkway options with an exercise price of \$0.019 expired without exercise or conversion.

On 16 December 2024 15,000,000 Parkway options with an exercise price of \$0.02 expired without exercise or conversion.

Other than the above, and except for the matters disclosed in this Operating and Financial Review, there were no other significant changes in the state of affairs of the Group during FY25.

SIGNIFICANT EVENTS AFTER THE REPORTING DATE

On 22 July 2025 Parkway signed a Deed of renewal of the lease for 5/45 Bunnett Street, Sunshine North for three years. The Group has one further three-year option on this lease. A market review associated with each option renewal saw an agreed increase in rent from \$85,788 to \$119,160 p.a. effective from 11 January 2026. The FY25 ROU asset and lease liability associated with this agreement assumes both options are exercised, and that the rent increases by 2.5% p.a. In accordance with AASB 16 Leases during FY26 there will be an adjustment to the value of both the ROU asset and lease liability to reflect the new rental adjustment.

On 11 July 2025 Parkway issued 39,282,200 Performance Rights to employees (no Key Management Personnel ("KMP")).

On 5 August 2025, Parkway issued 11,211,010 Performance Rights to KMP being vested FY25 Performance Rights described in the remuneration report below.

SIGNIFICANT EVENTS AFTER THE REPORTING DATE (continued)

On 11 August 2025, Parkway acquired the assets of a small complementary e-commerce business for a total purchase consideration of <\$0.1M. While FY25 sales for the acquired business were modest (less than 5% of Group revenue), it supports the Group's strategic growth in online sales of water and water industry related equipment. This acquisition is not expected to materially impact the business.

Other than the above, there have not been any matters that have arisen after reporting date that have significantly affected, or may significantly affect, the operations and activities of the Group, the results of those operations or the state of affairs of the Group in future financial years other than disclosed elsewhere in this consolidated financial report.

ENVIRONMENTAL REGULATION AND PERFORMANCE

The Group's activities are subject to Australian legislation relating to the protection of the environment. The Group is subject to significant environmental legal regulations in respect to its exploration and evaluation activities (however no substantive mining exploration activities occurred during FY25). During the Group's FY25, the Group's operations did not result in any known breaches of relevant Australian environmental legislation and/or regulations.

RISK MANAGEMENT

The Group takes a proactive approach to risk management, outlined in the Board approved Parkway Integrated Management System (PIMS). The Board is responsible for ensuring that risk and opportunities are identified on a timely basis and that the Group's objectives and activities are aligned with these risks and opportunities. The Audit and Risk Committee also plays a role in assisting the Board in fulfilling its responsibility to manage the Group's risks by monitoring the actions taken by Management to ensure they align with Group policy. As part of the Group's annual ISO 9001/14001/45001 internal reviews, Management reviews relevant risks and opportunities as well as the ongoing appropriateness of existing controls and residual risks. Parkway's overarching objective is to embed risk management throughout the Group, maintaining a structured, systematic, and proactive approach. The Group's material business risks and how they are addressed are as follows:

- **Commercialising Industrial Technology:** While the Group is in the commercialisation phase and depends on further funding for successful commercialisation, it has robust risk mitigation strategies in place. However, it is essential to acknowledge the inherent risks associated with technology commercialisation, some of which may be beyond Parkway's control and could potentially lead to delays in commercialisation.
- **Project Management:** With the acquisition of Tankweld Group, and the \$12.85 million contract signed on 25 June 2025 noted above, commercial and delivery risks and opportunities associated with projects have increased compared to both FY23 and FY24. To mitigate these risks, the Group has implemented processes to ensure projects are well-defined and commercial terms suitable, projects are appropriately resourced for successful execution, and project risks and opportunities are identified throughout a project's lifecycle in a timely manner through effective reviews, monitoring and feedback.
- **Corporate:** including safety, quality, recruitment and retention of exceptional employees, innovation, customer credit, financial, and procurement. In addition to the annual reviews noted above, the Group manages these risks through continuous review and monitoring by the executive leadership team.
- **Environmental:** the Group acknowledges the potential risks associated with climate change, which can impact both the Group and its clients. As climate change leads to increased weather extremes and resource variability, Parkway's portfolio of solutions is strategically developed to address these challenges. The Group remains vigilant in monitoring evolving risks and challenges through its risk assessment framework contained in the PIMS, in line with the Group's commitment to building a sustainable business.

RISK MANAGEMENT (continued)

- **Community/Social Risks:** Parkway's operations involve numerous stakeholders, including employees, contractors, local communities, government agencies, customers, and suppliers. Managing reputational damage and potential claims due to harm or loss to any stakeholder is a critical concern. In addition to the annual reviews noted above, the Group manages these risks through continuous review and monitoring by the executive leadership team.
- **Regulatory and Compliance:** Complying with various governance requirements, including those tied to Parkway's ASX listing, is essential. Navigating evolving regulations and international standards can be complex and unpredictable. Changes in fiscal or regulatory regimes, tax laws, and community expectations may impact international opportunities. To manage and minimise these risks, the Group relies on regularly reviewed Board-approved governance policies. The Group's Legislation Register provides a comprehensive summary of the various legislative and regulatory frameworks within which the Group operates.

INDEMNIFICATION AND INSURANCE OF DIRECTORS AND OFFICERS

Parkway has entered into deeds of access and indemnity with the Directors and Officers of Parkway, indemnifying them against liability incurred, including costs and expenses in successfully defending legal proceedings. The indemnity applies to a liability for costs and expenses incurred by the Director or Officer acting in their capacity as a Director or Officer.

Except in the case of a liability for legal costs and expenses, each deed of access and indemnity does not extend to a liability that is:

- owed to Parkway or a related body corporate of Parkway; or
- for a pecuniary penalty order under section 1317G or a compensation order under section 1317H or section 1317HA of the *Corporations Act 2001*.

Similarly, the indemnity does not extend to liability for legal costs and expense:

- owed to someone other than Parkway or a related body corporate of Parkway where the liability did not arise out of conduct in good faith;
- in defending proceedings in which the officer is found to have a liability described in paragraph (a), (b) or (c);
- in proceedings successfully brought by the Australian Securities & Investments Commission or a liquidator; or
- in connection with proceedings for relief under the *Corporations Act 2001* in which the court denies the relief.

During FY25, the Group has paid premiums in respect of a contract insuring all the Directors and Officers. The terms of the contract prohibit the disclosure of the details of the insurance contract and premiums paid.

INDEMNIFICATION OF AUDITORS

To the extent permitted by law, the Group has agreed to indemnify its auditors, Nexia Perth Audit Services Pty Ltd, as part of the terms of its audit engagement agreement against claims by third parties arising from the audit (for an unspecified amount). No payment has been made to indemnify Nexia Perth Audit Services Pty Ltd during and/or since the Group's FY25.

UNISSUED ORDINARY SHARES UNDER OPTION ("OPTIONS")

As at 30 June 2025, there were 165,413,440 Options and Performance Rights on issue as follows:

Expiry Date	Exercise price	Number of Options	Number of Performance Rights
16 May 2027	\$0.015	125,000,000	-
7 December 2033	n/a	-	40,413,440

During FY25, the Company issued 16,800,940 Performance Rights, 3,937,500 Performance Rights expired, 260,912,785 Options expired, and no Options were issued, cancelled or forfeited.

Option and Performance Right holders do not have any right, by virtue of the option, to participate in any share issue of the Company or any related body corporate.

NON-AUDIT SERVICES

The Group may decide to employ the auditor on assignments additional to its statutory audit duties where the auditor's expertise and experience with the Group are important. The Directors are satisfied that the provision of non-audit services is compatible with the general standard of independence for audits by the *Corporations Act 2001*.

Details of the amounts paid or payable to the auditor, Nexia Perth Audit Services Pty Ltd, for non-audit services provided during FY25 are set out below.

	2025	2024
	\$	\$
Remuneration of Nexia Perth Audit Services Pty Ltd for:		
- Non-audit services	-	-
	-	-

In the event that non-audit services are provided by Nexia Perth Audit Services Pty Ltd, the Board has established certain procedures to ensure that the provision of non-audit services are compatible with, and do not compromise, the auditor independence requirements of the *Corporations Act 2001*. These procedures include:

- non-audit services are subject to the corporate governance procedures adopted by the Group and are reviewed by the Board to ensure they do not impact the integrity and objectivity of the auditor; and
- ensuring non-audit services do not undermine the general principles relating to auditor independence as set out in APES 110 *Code of Ethics for Professional Accountants (including independence Standards)* by ensuring they do not involve reviewing or auditing the auditor's own work, acting in a management or decision-making capacity for the Group, acting as an advocate for the Group or jointly sharing risks and rewards.

DIRECTORS' REPORT

DIRECTORS' MEETINGS

Meetings of Directors held during Parkway's FY25 (and the Directors' attendance at such meetings) were as follows:

	Board	Audit & Risk Committee	Remuneration & Nomination Committee
Number of Meetings Held	6	3	1
Number of Meetings Attended:			
Stephen van der Sluys	6	2	1
Bahay Ozcakmak	6	2*	n/a
Penelope Creswell	6	3	1
Ayten Saridas	5	3	1

* attended by invitation.

REMUNERATION REPORT (AUDITED)

This Remuneration Report outlines the Group's Director and Executive remuneration arrangements, in accordance with the requirements of the *Corporations Act 2001* (Cth) and its regulations. For the purposes of this report, Key Management Personnel ("KMP") of the Group are defined as those persons having authority and responsibility for planning, directing, and controlling the major activities of the Group, directly or indirectly, and includes Directors and Executives of the Group. The information provided in this remuneration report has been audited as required by section 308(3C) of the *Corporations Act 2001* (Cth).

The Group's remuneration report for its financial year ended 30 June 2024 was adopted at Parkway's 2024 Annual General Meeting on 27 November 2024. 330,171,455 (2023: 280,818,824) votes were in favour of the report and 10,012,579 (2023: 13,447,547) were against. No questions or comments were raised relating to the FY24 remuneration report.

No remuneration consultants were engaged during FY25.

Details of KMP

(i) Directors:

Stephen van der Sluys	Non-Executive Chairman
Bahay Ozcakmak	Group Managing Director and CEO
Penelope Creswell	Non-Executive Director
Ayten Saridas	Non-Executive Director

(ii) Executives:

Michael Hodgkinson	Chief Financial Officer
--------------------	-------------------------

REMUNERATION REPORT (AUDITED) (continued)

Remuneration Philosophy

The performance of the Group depends upon the quality of its Directors (defined as being both Executive and Non-Executive) and Executives. To prosper, the Group must attract, motivate and retain highly skilled Directors and Executives.

To this end, the Group embodies the following principles in its remuneration framework:

- Provide competitive rewards to attract high calibre Directors and Executives; and
- Link Director and Executive rewards to shareholder value.

Shares and options issued under the incentive plans provide an incentive to stay with the Group. Shares and options issued do not have performance criteria attached, however since FY24, Performance Rights both with and without performance criteria have been issued. This policy is considered to be appropriate for the Group, having regard to the current state of its development.

The Group has a policy which precludes Directors and Executives from entering into contracts to hedge their exposure to options or shares granted to them as remuneration.

The Group also recognises that, at this stage in its development, it is most economical to have only a few employees and to draw, as appropriate, upon a pool of consultants selected by the Directors on the basis of their known management, geoscientific, and engineering and other professional and technical expertise and experience. The Group will nevertheless seek to apply the principles described above to its Directors and Executives, whether they are employees of/or consultants to the Group.

Remuneration Committee Responsibilities

The Committee assesses the appropriateness of the nature and amount of remuneration and fees of Directors and Executives on a periodic basis, by reference to relevant employment market conditions, with the overall objective of ensuring maximum stakeholder benefit from the attraction and retention of a high-quality Board of Directors and Executives.

Remuneration Structure

In accordance with best practice corporate governance, the structure of Non-Executive Director and Executive Director remuneration is separate and distinct.

Non-Executive Director Remuneration

Objective

The Board seeks to set aggregate remuneration at a level which provides the Group with the ability to attract and retain Non-Executive Directors of the highest calibre, whilst incurring a cost which is acceptable to shareholders.

Structure

Parkway's constitution and the ASX Listing Rules specify that the aggregate remuneration of Non-Executive Directors must be determined from time to time by shareholders of Parkway in a general meeting. An amount not exceeding the amount determined is then divided between the Non-Executive Directors. As at the date of this Annual Report, the aggregate directors' fees for Non-Executive Directors has been set at an amount not exceeding \$200,000 per annum (2024: \$200,000 per annum).

REMUNERATION REPORT (AUDITED) (continued)

The amount of aggregate remuneration sought to be approved by shareholders and the manner in which it is apportioned amongst Non-Executive Directors is reviewed annually. The Board may consider advice from external consultants (none were used by the Group in FY25), as well as the fees paid to Non-Executive Directors of comparable companies, when undertaking the annual review process. The remuneration report has been approved by shareholders at the annual general meeting.

Agreements with Non-Executive Directors

Director's fees of \$76,018 per annum (exclusive of the prevailing superannuation guarantee percentage) were paid, or due and payable to Mr Stephen van der Sluys. In the event of termination, there is no notice period required.

Director's fees of \$43,439 per annum (exclusive of the prevailing superannuation guarantee percentage) were paid, or due and payable to each of the Group's Non-Executive Directors during FY25, being Ms Penelope Creswell and Ms Ayten Saridas. In the event of termination, there is no notice period required.

As outlined above, each of the Group's Non-Executive Directors receive a fee for being a Director of the Group. No additional fee is paid for participating in the Audit, Remuneration and Nomination Committees.

Non-Executive Directors are encouraged by the Board to hold shares in Parkway (purchased on-market and in accordance with Parkway's approved policies to ensure there is no insider trading). The Non-Executive Directors of the Group may also participate in Parkway's share and option plans, as described in this Annual Report.

As an incentive to employees, Directors and Executives and consultants, Parkway has adopted a scheme called the Parkway Corporate Limited Employee Securities Incentive Plan (the "ESIP"). The purpose of the ESIP is to give employees, Directors and Executives and consultants of the Group an opportunity to subscribe for shares and/or options in Parkway. The Directors consider that the ESIP will enable the Group to retain and attract skilled and experienced employees, Directors and Executives and provide them with the motivation to participate in the future growth of the Group and, upon becoming shareholders in Parkway, to participate in Group's profits and development.

Executive Remuneration

Objective

The Group aims to reward Executives with a level and mix of remuneration commensurate with their position and responsibilities within the Group and so as to:

- reward Executives for Group, business team and individual performance;
- align the interests of Executives with those of shareholders; and
- ensure total remuneration is competitive by market standards.

Structure

- At this time, the cash component of remuneration paid to the Executive Directors, and other senior managers is not dependent upon the satisfaction of performance conditions.
- Executive Directors are encouraged by the Board to hold shares in Parkway (purchased on-market and in accordance with Parkway's approved policies to ensure there is no insider trading). It is considered good governance for Directors of a company to have a stake in that company. The Executive Directors of the Group may also participate in the share and option plans as described in this report.

REMUNERATION REPORT (AUDITED) (continued)

Performance table

The following table details the net earnings of the Group from continuing operations after income tax, together with the basic earnings per share for last 5 financial years:

	2025 \$	2024 \$	2023 \$	2022 \$	2021 \$
Net profit (loss) from continuing operations after income tax	15,915	(734,406)	(1,680,056)	(2,332,196)	(923,715)
Basic profit (loss) per share in cents	0.001	(0.03)	(0.08)	(0.11)	(0.04)
Share Price in Cents*	1.2	0.8	1.0	1.0	1.0

* closing price 30 June.

No dividends were paid in any of these years.

Executive Remuneration

Long-Term Incentive ("LTI") awards to Executives are made under the ESIP and are delivered in the form of shares or share options. A Performance Rights plan has also been established by the Group under the ESIP and approved by shareholders at a general meeting, whereby the Group may, at the discretion of the Remuneration Committee, grant performance rights over ordinary shares in the Company to certain employees. The rights are issued for nil consideration and are granted in accordance with performance guidelines established by the Remuneration Committee. Performance Rights carry no dividend or voting rights.

Agreement with Group Managing Director and CEO

On 26 October 2021, Parkway entered into an Executive Services Agreement with Mr Ozcakmak ("MD Agreement"). Pursuant to the terms of the MD Agreement:

- Mr Ozcakmak was engaged by Parkway on a full-time and permanent basis, with no fixed term included in the MD Agreement;
- Mr Ozcakmak's annual salary was set at \$275,000 (exclusive of superannuation); and
- either party may terminate the MD Agreement on providing six months' prior written notice to the other party.

On 1 November 2023, Mr Ozcakmak's annual salary (exclusive of the prevailing superannuation guarantee percentage) was set at \$305,000. Following approval at the AGM on 30 November 2023, Mr Ozcakmak was granted 3,050,000 Performance Rights for FY23 and 10,500,000 Performance Rights for the period FY24 to FY26 (3,500,000 each year). Vesting of 50% of the Rights are subject to certain performance hurdles and vesting of the remaining 50% of the Rights are subject to the discretion of the Board having regard to the performance of Mr Ozcakmak during the applicable performance period. Mr Ozcakmak must also remain employed with the Group as at the vesting date for each of the relevant tranches in order for the applicable tranche to vest.

Total Shareholder Return (TSR) performance hurdle

50% of each tranche of the FY24-26 Performance Rights are subject to the following performance hurdles:

- up to 25% of the Performance Rights vest based on the satisfaction of a relative TSR performance hurdle; and
- up to 25% of the Performance Rights vest based on the absolute TSR return performance of the Company.

REMUNERATION REPORT (AUDITED) (continued)**Relative performance hurdle**

The percentage of Performance Rights subject to the relative TSR performance hurdle will vest in accordance with the following table:

Outcome vs. ASX Small Ordinaries Index	Percentage of Performance Rights which vest
< -12% per annum	6.25%
0% per annum	12.5%
> 12% per annum	25%

There is a straight-line pro-rata vesting of Performance Rights where the relative TSR performance fails between the thresholds set out in the above table.

Absolute TSR performance hurdle

The percentage of Performance Rights subject to the absolute TSR performance hurdle will vest in accordance with the following table:

Outcome	Percentage of Performance Rights which vest
< -12% per annum	6.25%
0% per annum	12.5%
> 12% per annum	25%

There is a straight-line pro-rata vesting of Performance Rights where the relative TSR performance fails between the thresholds set out in the above table.

Agreement with Chief Financial Officer

On 1 November 2023 Mr Hodgkinson was appointed Chief Financial Officer on a full-time and permanent basis, with no fixed term, after serving as Chief Commercial Officer since 29 May 2023. Either party may terminate the Agreement on providing twelve weeks prior written notice. On 30 November 2023, Mr Hodgkinson was awarded 10,500,000 Performance Rights as a Long Term Incentive (LTI) for the period FY24 to FY26 (3,500,000 each year). These Performance Rights have the same terms as the CEO Performance Rights outlined above. \$70,000 in Performance Rights are also issued each financial year at the end of year weighted average price, with half based on performance hurdle's agreed by the Board. In accordance with AASB 2 *Share-based Payment* the Fair Value of these Performance Rights is determined at the date of formal issue, at which time the share price may vary materially from the end of year weighted average price. On 1 January 2025 M Hodgkinson's annual salary (exclusive of the prevailing superannuation guarantee percentage) was set at \$206,042 (of which \$46,830 was salary sacrificed into ESIP) and a discretionary bonus of \$1,295 (inclusive of superannuation and a \$295 gift card) was awarded for the prior 12 months.

REMUNERATION REPORT (AUDITED) (continued)

Valuation of Performance Rights

Performance Rights were measured at fair value on grant date. Fair value was determined using monte carlo simulations on a Binomial option pricing model accounting for the term (10 years), share price at grant date, nil exercise price, and performance criteria detailed above, utilising the expected price volatility of the underlying share and the ASX small ordinaries index (based on three year daily data) and risk free interest rate. The valuation of all Performance Rights issued during FY25 and outstanding is:

Grant date	Expiry date	Number issued	Exercise price	Fair value per right at grant date	Grantee	No. vested at 30 June 2025	No. lapsed at 30 June 2025	Total Fair Value	Fair Value recognised as expense in FY25

(c) Other Transactions with KMP and their related parties

There were no other transactions with KMP and their related parties during FY25 and no outstanding balances as at the date of this report.

(d) Loans to KMP and their related parties

There were no loans made to KMP and their related parties during FY25 and no outstanding balances as at the date of this report.

End of Remuneration Report (audited).

Proceedings on behalf of the Company

No person has applied to the Court under section 237 of the *Corporations Act 2001* for leave to bring proceedings on behalf of the Company, or to intervene in any proceedings to which the Company is a party for the purpose of taking responsibility on behalf of the Company for all or part of those proceedings.

Rounding of amounts

The Group has applied the relief available to it in ASIC Legislative Instrument 2016/191 and accordingly amounts included in this report and in the consolidated financial report have been rounded off to the nearest \$1 (where rounding is applicable).

Auditor's Independence Declaration

A copy of the auditor's independence declaration as required under section 307C of the *Corporations Act 2001* is set out on page 28 and forms part of this report.

This report is made in accordance with a resolution of Directors.

Bahay Ozcakmak
Group Managing Director & CEO
Melbourne
Dated: 23 September 2025

To the Board of Directors of Parkway Corporate Limited

Auditor's Independence Declaration under section 307C of the *Corporations Act 2001*

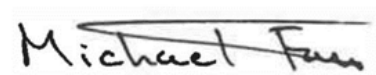

As lead auditor for the audit of the consolidated financial statements of Parkway Corporate Limited for the financial year ended 30 June 2025, I declare that to the best of my knowledge and belief, there have been no contraventions of:

- (a) the auditor independence requirements of the *Corporations Act 2001* in relation to the audit; and
- (b) any applicable code of professional conduct in relation to the audit.

Yours sincerely

NPAS

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2025

Note 1: Corporate information

The consolidated financial report of Parkway Corporate Limited (the “Company” or “Parkway”) and its controlled entities (the “Group”) for the year ended 30 June 2025 was authorised for issue in accordance with a resolution of Directors on 23 September 2025. The Group is a for-profit entity. The Group’s consolidated financial statements are presented in Australian dollars, which is also Parkway’s functional currency.

Parkway is a company limited by shares incorporated and domiciled in Australia whose shares are publicly traded on the Australian Securities Exchange (ASX: PWN).

The nature of operations and principal activities of the Group are described in the Directors’ report.

The following is a summary of the material accounting policies adopted by the Group in the preparation and presentation of the consolidated financial report. The accounting policies have been consistently applied, unless otherwise stated.

Note 2: Material accounting policy information

(a) Basis of preparation

The consolidated financial report is a general purpose financial report, which has been prepared in accordance with the requirements of the *Corporations Act 2001*, Australian Accounting Standards and Interpretations and complies with other requirements of the law, as appropriate for for-profit oriented entities.

Reporting basis and convention

The consolidated financial report has also been prepared on a historical cost basis.

Parent entity information

In accordance with the *Corporations Act 2001*, these financial statements present the results of the Group only. Supplementary information about the Company is disclosed in note 27.

Going concern

These consolidated financial statements have been prepared on a going concern basis. In arriving at this position, the Directors have had regard to the fact that the Group has, or in the Directors’ opinion will have access to, sufficient cash to fund administrative and other committed expenditure. The Group’s cashflow forecasts for the twelve months ended 30 September 2026 indicate that the Group will have access to sufficient cash to fund administrative and other committed expenditure and be able to settle its liabilities as and when they fall due for a period of at least 12 months from the date of signing the consolidated financial report.

(b) Adoption of new revised or amending accounting standards and interpretations

The Group has where applicable, adopted all of the new and revised Standards and Interpretations issued by the Australian Accounting Standards Board (the “AASB”) that are relevant to their operations and effective for the year ended 30 June 2025.

The adoption of these amendments did not have any impact on the current period or any prior period and is not likely to affect future periods.

Note 2: Material accounting policy information (continued)

(c) New Accounting Standards and Interpretations not yet mandatory or early adopted

Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet mandatory, have not been early adopted by the Group for the annual reporting period ended 30 June 2025. The Group has not yet assessed the impact of these new or amended Accounting Standards and Interpretations.

(d) Statement of compliance

The consolidated financial report complies with Australian Accounting Standards and International Financial Reporting Standards ("IFRS").

(e) Critical accounting estimates and judgements

The application of accounting policies requires the use of judgements, estimates and assumptions about carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions are recognised in the year in which the estimate is revised if it affects only that year or in the year of the revision and future years if the revision affects both current and future years.

Share-based payment transactions

Parkway measures the share-based payment transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. Estimating fair value for share based payment transactions requires determining the most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimate also requires determining the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them. The assumptions and models used for estimating fair value for share-based payment transactions are disclosed in Note 21.

Recovery of deferred tax assets

Deferred tax assets are recognised for deductible temporary differences only when management considers that it is probable that sufficient future tax profits will be available to utilise those temporary differences. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits over the next two years together with future tax planning strategies.

Intangible assets and goodwill

The Group assesses impairment for intangible assets at each reporting date or when an impairment indicator exists, by evaluating conditions specific to the Group and to the particular asset that may lead to impairment. These include product, technology, economic and political environments and future expectations. If an impairment indicator exists, the recoverable amount of the asset is determined.

The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period.

Goodwill is reviewed for impairment annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired. For further information on intangible assets and goodwill, refer to Note 15.

Note 2: Material accounting policy information (continued)

Research and development rebate

Research and development rebates are recognised when there is reasonable assurance that the rebate will be received, and the Group will comply with the conditions attached to it. Management judgement is required to assess that the rebate meets the recognition criteria and in determining the measurement of the rebate including the assessment of the eligibility and appropriateness of the apportionment of eligible expenses based on research and development activities undertaken by the Group and taking into consideration relevant legislative requirements.

Further, the Research and Development Tax Incentive Offset program in Australia is a self-assessment regime and there is a four-year period from the date of lodgement where the claim may be subject to a review by the Australian Taxation Office or AusIndustry, with any amounts overclaimed being potentially subject to full repayment with interest and penalties.

(f) Principles of consolidation

The consolidated financial statements comprise the financial statements of the Company and its controlled entities as at 30 June 2025.

Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee);
- Exposure, or rights, to variable returns from its involvement with the investee; and
- The ability to use its power over the investee to affect its returns.

When the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee,
- Rights arising from other contractual arrangements; and
- The Group's voting rights and potential voting rights.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the Consolidated Statement of Profit or Loss and Other Comprehensive Income from the date the Group gains control until the date the Group ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income ("OCI") are attributed to the equity holders of the parent of the Group and to the Non-controlling interests, even if this results in the Non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Note 2: Material accounting policy information (continued)

The acquisition of subsidiaries is accounted for using the acquisition method of accounting. A change in ownership interest, without the loss of control, is accounted for as an equity transaction, where the difference between the consideration transferred and the book value of the share of the Non-controlling interest acquired is recognised directly in equity attributable to the parent.

Non-controlling interest in the results and equity of subsidiaries are shown separately in the statement of profit or loss and other comprehensive income, statement of financial position and statement of changes in equity of the Group. Losses incurred by the Group are attributed to the Non-controlling interest in full, even if that results in a deficit balance.

Where the Group loses control over a subsidiary, it derecognises the assets including goodwill, liabilities and non-controlling interest in the subsidiary together with any cumulative translation differences recognised in equity. The Group recognises the fair value of the consideration received and the fair value of any investment retained together with any gain or loss in profit or loss.

Subsidiaries

Subsidiaries are entities controlled by the Group. The Group 'controls' an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

(g) Business combinations

The Group applies the acquisition method in accounting for business combinations.

The consideration transferred by the Group to obtain control of a subsidiary is calculated as the sum of the acquisition date fair values of assets transferred, liabilities incurred and the equity interests issued by the Group, which includes the fair value of any asset or liability arising from a contingent consideration arrangement. Acquisition costs are expensed as incurred.

The Group recognises identifiable assets acquired and liabilities assumed in a business combination regardless of whether they have been previously recognised in the acquirer's financial statements prior to the acquisition. Assets acquired and liabilities assumed are generally measured at their acquisition-date fair values.

Goodwill is stated after separate recognition of identifiable intangible assets. It is calculated as the excess of the sum of a) fair value of consideration transferred, b) the recognised amount of any non-controlling interest in the acquire and c) acquisition-date fair value of any existing equity interest in the acquire, over the acquisition-date fair values of identifiable net assets. If the fair values of identifiable net assets exceed the sum calculated above, the excess amount (i.e., gain on a bargain purchase) is recognised in profit or loss immediately.

(h) Share-based payment transactions

Employees (including Directors and Executives) of the Group may receive remuneration in the form of share-based payment transactions, whereby employees render services as consideration for equity instruments (equity-settled transactions).

The cost of equity-settled transactions is recognised, together with a corresponding increase in other capital reserves in equity, over the period in which the performance and/or service conditions are fulfilled. The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and Parkway's best estimate of the number of equity instruments that will ultimately vest. The Consolidated Statement of Profit or Loss and Other Comprehensive Income expense or credit for a period represents the movement in cumulative expense recognised as at the beginning and end of that period and is recognised in equity-based payments expense (Note 21).

Note 2: Material accounting policy information (continued)

No expense is recognised for awards that do not ultimately vest, except for equity-settled transactions for which vesting are conditional upon a market or non-vesting condition. These are treated as vesting irrespective of whether or not the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

When the terms of an equity-settled transaction award are modified, the minimum expense recognised is the expense as if the terms had not been modified if the original terms of the award are met. An additional expense is recognised for any modification that increases the total fair value of the share-based payment transaction or is otherwise beneficial to the employee as measured at the date of modification.

When an equity-settled award is cancelled, it is treated as if it vested on the date of cancellation, and any expense not yet recognised for the award is recognised immediately. This includes any award where non-vesting conditions within the control of either the entity or the employee are not met. However, if a new award is substituted for the cancelled award, and designated as a replacement award on the date that it is granted, the cancelled and new awards are treated as if they were a modification of the original award, as described in the previous paragraph. The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted loss per share, unless the Group incurs a loss, in which case the effect of options on issue is considered to be antidilutive and thus not factored in determining the diluted earnings per share (further details are given in Note 7).

(i) Plant & equipment

Plant and equipment is stated at historical cost less accumulated depreciation and any accumulated impairment in value. Depreciation is calculated on a straight-line basis over the estimated useful life of the asset as follows:

Plant and equipment – over 2 to 15 years

Impairment

The carrying values of plant and equipment are reviewed for impairment when impairment indicators exist under the accounting standards.

For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

If any indication exists of impairment and where the carrying values exceed the estimated recoverable amount, the assets or cash-generating units are written down to their recoverable amount.

The recoverable amount of plant and equipment is the greater of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

Derecognition

An item of plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the item) is included in the Consolidated Statement of Profit or Loss and Other Comprehensive Income in the period the item is derecognised.

(j) Income tax

Current tax assets and liabilities for the current year and prior periods are measured at amounts expected to be recovered from or paid to the taxation authorities based on the current year's taxable income. The tax rates and tax laws used for computations are enacted or substantively enacted by the reporting date.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2025**

Note 2: Material accounting policy information (continued)

Deferred tax is provided on all temporary differences at reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences except where the deferred income tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

Deferred tax assets are recognised for all deductible temporary differences, carry-forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry-forward of unused tax assets and unused tax losses can be utilised except where the deferred income tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Income taxes relating to items recognised directly in equity are recognised in equity and not in the Consolidated Statement of Profit or Loss and Other Comprehensive Income.

Deferred tax assets and deferred tax liabilities are offset only if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and liabilities relate to the same taxable entity and the same taxation authority.

Tax Consolidation

Parkway Corporate Limited and its 100% owned subsidiaries have entered into tax consolidated group which took effect from 1 July 2016. Parkway Corporate Limited is the head entity of the tax consolidated group.

(k) Goods and Services Tax (GST)

Revenues, expenses, and assets are recognised net of the amount of GST except:

- where the GST incurred on a purchase of goods and services is not recoverable from the taxation authority, in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- receivables and payables are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the Consolidated Statement of Financial Position.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2025**

Note 2: Material accounting policy information (continued)

Cash flows are included in the Consolidated Statement of Cash Flows on a gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the taxation authority, are classified as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the taxation authority.

(l) Provisions and employee benefits

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made for the amount of the obligation.

When the Group expects some or all of a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the Consolidated Statement of Profit or Loss and Other Comprehensive Income net of any reimbursement.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the reporting date. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects the time value of money and the risks specific to the liability. The increase in the provision resulting from the passage of time is recognised in finance costs.

Employee leave benefits

i. Wages and salaries and annual leave

Liabilities for wages and salaries including non-monetary benefits and annual leave due to be settled within 12 months of the reporting date are recognised in provisions in respect of employees' services up to the reporting date and are measured at the amounts expected to be paid when the liabilities are settled.

ii. Long service leave

The liability for long service leave is recognised and measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the projected unit credit method. Consideration is given to the expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on corporate bonds with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows.

(m) Cash and cash equivalents

Cash and cash equivalents in the Consolidated Statement of Financial Position comprise cash at bank and in hand and short-term deposits with an original maturity of three months or less.

For the purposes of the Consolidated Statement of Cash Flows, cash and cash equivalents consist of cash and cash equivalents as defined above, net of outstanding bank overdrafts.

Note 2: Material accounting policy information (continued)

(n) Trade and other receivables

Trade receivables are initially recognised at their transaction price and other receivables at fair value. Receivables that are held to collect contractual cash flows and are expected to give rise to cash flows representing solely payments of principal and interest are classified and subsequently measured at amortised cost. Receivables that do not meet the criteria for amortised cost are measured at fair value through profit or loss.

The Group assesses on a forward-looking basis the expected credit losses associated with its debt instruments carried at amortised cost. The amount of expected credit losses is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument.

The expected credit losses on these financial assets are estimated based on the Group's historic credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as forecast conditions at the reporting date.

For all other receivables measured at amortised cost, the Group recognised lifetime expected credit losses when there has been a significant increase in credit risk since initial recognition. If on the other hand the credit risk on the financial instrument has not increased significantly since initial recognition, the Group measures the loss allowance for that financial instrument at an amount equal to expected credit losses within the next 12 months.

(o) Inventories

Inventories are valued at the lower of cost and net realisable value.

The Group elected to use average cost method to value inventory. When the Group sells a product, the weighted average cost of all inventory produced or acquired in the accounting period is used to determine the cost of goods sold. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs necessary to make the sale.

(p) Revenue recognition

Revenue from contracts with customers

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services.

Revenue from the sale of water treatment related products and rendering of services are recognised at the point in time based on the amount invoiced to the customer. The normal credit term is 30 days.

Revenue from a contract to provide project services is recognised over time, based on the revenue associated with each milestone delivered if applicable or otherwise as a percentage of project completion, as the services are rendered based on either a fixed price or an hourly rate.

Other revenue

Interest Income

Income is recognised as the interest accrues (using the effective interest method, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial instrument) to the net carrying amount of the financial asset.

Note 2: Material accounting policy information (continued)

Government grants

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to an expense item, it is recognised as income over the period necessary to match the grant on a systematic basis to the costs that it is intended to compensate. When the grant relates to an asset, it is recognised as deferred income and released to income in equal amounts over the expected useful life of the related asset.

When the Group receives non-monetary grants, the asset and the grant are recorded gross at nominal amounts and released to the Consolidated Statement of Profit or Loss and Other Comprehensive Income over the expected useful life and pattern of consumption of the benefit of the underlying asset by equal annual instalments. When loans or similar assistance are provided by governments or related institutions with an interest rate below the current applicable market rate, the effect of this favourable interest is regarded as additional government grants.

(q) Contributed equity

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

Own equity instruments (treasury shares) are recognised at cost and deducted from equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

(r) Trade and other payables

Trade payables and other payables are carried at amortised costs and represent liabilities for goods and services provided to the Group prior to the end of the financial year that are unpaid and arise when the Group becomes obliged to make future payments in respect of the purchase of these goods and services.

(s) Earnings per share

Basic earnings per share is calculated as net profit attributable to members of Parkway adjusted to exclude any costs of servicing equity (other than dividends) divided by the weighted average number of ordinary shares, adjusted for any bonus element.

Diluted earnings per share is calculated as net profit attributable to members of Parkway adjusted for:

- costs of servicing equity (other than dividends);
- the after-tax effect of dividends and interest associated with dilutive potential ordinary shares that have been recognised as expenses; and
- other non-discretionary changes in revenues or expenses during the period that would result from the dilution of potential ordinary shares;
- divided by the weighted average number of ordinary shares and dilutive potential ordinary shares, adjusted for any bonus element.

Note 2: Material accounting policy information (continued)

(t) Investments and Financial assets

Initial recognition and measurement:

Financial assets are classified, at initial recognition, at amortised cost, financial assets at fair value through profit or loss, fair value through other comprehensive income as appropriate. Other financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

The Group has not recognised any financial assets at fair value through other comprehensive income.
Subsequent measurement:

The subsequent measurement of other financial assets depends on their classification as described below:

a) Financial assets at fair value through profit or loss

Financial assets are classified at fair value through profit or loss ("FVTPL") include financial assets held for trading, financial assets designated upon initial recognition at FVTPL, or financial assets mandatorily required to be measured at fair value. Financial assets at FVTPL are carried in the statement of financial position at fair value with net changes in fair value presented in the Consolidated Statement of Profit or Loss.

The Group does not hold any financial assets at FVTPL.

b) Amortised cost

In order for a financial asset to qualify for measurement as amortised cost, it has to pass both the contractual cash flow characteristics test as well as the business model test. Under the contractual cash flow characteristics test, an entity has to assess, whether the cash flows resulting from the financial asset are solely payments for principal and interest on the outstanding principal amount. Under the business model test the objective is to hold the financial assets in order to collect contractual cash flows.

Receivables that are held to collect contractual cash flows and are expected to give rise to cash flows representing solely payments of principle and interest are classified and subsequently measured at amortised cost using the effective interest rate method. Receivables that do not meet the criteria for amortised cost are measured at fair value through profit or loss.

This category is most relevant to the Group.

(u) Impairment of financial assets

The Group assesses at each reporting date whether a financial asset or group of financial assets is impaired, excluding financial assets at FVTPL.

The Group assesses on a forward-looking basis the expected credit loss associated with other financial assets. Evidence of impairment may include indications that the debtors or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganisation and observable data indicating that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

Note 2: Material accounting policy information (continued)

For financial assets, the expected credit loss is based on the 12-month expected credit loss. The 12-month expected credit loss is the portion of lifetime expected credit losses that results from default events on a financial instrument that are possible within 12 months after the reporting date. However, when there has been a significant increase in credit risk since origination, the allowance will be based on the lifetime expected credit loss.

The Group considers an event of default has occurred when a financial asset is more than 90 days past due or external sources indicate that the debtor is unlikely to pay its creditors, including the Group. A financial asset is credit impaired when there is evidence that the counterparty is in significant financial difficulty or a breach of contract, such as a default or past due event has occurred. The Group writes off a financial asset when there is information indicating the counterparty is in severe financial difficulty and there is no realistic prospect of recovery.

(v) Leases

(i) Right-of-use assets

The Group recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any re-measurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Unless the Group is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognised right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term (where the Group does not have a purchase option at the end of the lease term). Right-of-use assets are subject to impairment.

Lease term

The lease term is a significant component in the measurement of both the right-of-use asset and lease liability. Judgement is exercised in determining whether there is reasonable certainty that an option to extend the lease or purchase the underlying asset will be exercised, or an option to terminate the lease will not be exercised, when ascertaining the periods to be included in the lease term. In determining the lease term, all facts and circumstances that create an economical incentive to exercise an extension option, or not to exercise a termination option, are considered at the lease commencement date. Factors considered may include the importance of the asset to the Group's operations; comparison of terms and conditions to prevailing market rates; incurrence of significant penalties; existence of significant leasehold improvements; and the costs and disruption to replace the asset. The Group reassesses whether it is reasonably certain to exercise an extension option, or not exercise a termination option, if there is a significant event or significant change in circumstances.

(ii) Lease Liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating a lease, if the lease term reflects the Group exercising the option to terminate. The variable lease payments that do not depend on an index or a rate are recognised as expense in the period on which the event or condition that triggers the payment occurs.

Note 2: Material accounting policy information (continued)

In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

(iii) Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases of machinery and equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

(w) Current versus non-current classification

The Group presents assets and liabilities in the Consolidated Statement of Financial Position based on current/non-current classification. An asset is current when it is:

- Expected to be realised or intended to be sold or consumed in the normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

The Group classifies all other assets as non-current.

A liability is current when:

- It is expected to be settled in the normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Group classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Note 2: Material accounting policy information (continued)

(x) Intangible assets

Intangible assets represent identifiable non-monetary assets without physical substance.

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. Internally generated intangibles, excluding capitalised development costs, are not capitalised and the related expenditure is reflected in profit or loss in the period in which the expenditure is incurred. The useful lives of intangible assets are assessed as either finite or indefinite. Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates and adjusted on a prospective basis. The amortisation expense on intangible assets with finite lives is recognised in the Consolidated Statement of Profit or Loss and Other Comprehensive Income.

Intangible assets with indefinite useful lives are not amortised, but are tested for impairment annually, and when indicators of impairment exist, individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually, or when indicators of impairment exist, to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Goodwill

Goodwill is initially measured at cost (being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests and any previous interest held over the net identifiable assets acquired and liabilities assumed). If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in profit or loss.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill is tested for impairment annually, and when indicators of impairment exist, individually or at the cash-generating unit level. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units. Where goodwill has been allocated to a cash-generating unit ("CGU") and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

Business combinations

As discussed in note 2(g), business combinations are initially accounted for on a provisional basis. The fair value of assets acquired, liabilities and contingent liabilities assumed are initially estimated by the Group taking into consideration all available information at the reporting date. Fair value adjustments on the finalisation of the business combination accounting is retrospective, where applicable, to the period the combination occurred and may have an impact on the assets and liabilities, depreciation and amortisation reported.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2025

Note 2: Material accounting policy information (continued)

Intellectual property

The Group's intellectual property portfolio consists of trade secrets, know-how, trademark, and patent. The Group is still in the process of developing the technology associated with the intellectual property; hence, the corresponding asset is not yet available for use.

The Group tests the intangible assets not yet available for use for impairment annually by comparing its carrying amount with its recoverable amount. The estimated useful life will only be determined, and the corresponding amortisation will be recognised when the corresponding asset is available for use.

(y) Rounding of amounts

The Group has applied the relief available to it in ASIC Legislative Instrument 2016/191 and accordingly amounts included in this report and in the consolidated financial report have been rounded off to the nearest \$1 (where rounding is applicable).

(z) Research and development costs

Research costs are expensed as incurred. Development expenditures on an individual project are recognised as an intangible asset when the Group can demonstrate:

- the technical feasibility of completing the intangible asset so that the asset will be available for use or sale;
- its intention to complete and its ability and intention to use or sell the asset;
- how the asset will generate future economic benefits;
- the availability of resources to complete the asset; and
- the ability to measure reliably the expenditure during development.

Following initial recognition of the development expenditure as an asset, the asset is carried at cost less any accumulated amortisation and accumulated impairment losses. Amortisation of the asset begins when development is complete, and the asset is available for use. It is amortised over the period of expected future benefit. During the period of development, the asset is tested for impairment annually.

Note 3: Segment information

The Group has based its operating segment on the internal reports that are reviewed and used by the executive management team ("Chief Operating Decision Makers") in assessing performance and in determining the allocation of resources.

As no substantial exploration related activities occurred during the financial year, exploration related expenditures were not deemed to be considered a separate segment for reporting purposes as a consequence, activities in the operating segment are identified by management based on the manner in which resources are allocated, the nature of the resources provided and the identity of the manager and country of expenditure. Information is reviewed on a whole of entity basis. At 30 June 2025, all revenues and material assets are considered to be derived and held in one geographical area being Australia.

Based on these criteria the Group has one operating segment providing water treatment related products and services, and the segment operations and results are reported internally based on the accounting policies as described in Note 2 for the computation of the Group's results presented in this set of consolidated financial statements.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2025**

Note 4: Income tax

	2025 \$	2024 \$
(a) Income tax expense/(benefit)		
Current tax	-	-
Deferred tax	-	-
Franking deficit tax	5,254	-
Total tax (benefit)/expense	5,254	-
(b) Income tax recognised in equity		
Deferred tax liability recognised	-	-
Total income tax recognised in equity	-	-
(c) Numerical reconciliation of income tax expense to prima facie tax payable		
Profit (Loss) from continuing operations before income tax expense	21,169	(734,406)
Prima facie tax benefit at the Australian tax rate of 25% (FY24: 25%)	5,292	(183,601)
Tax effect of amounts which are not deductible (taxable) in calculating taxable income:		
Non-deductible expenses	197,061	87,341
Non-assessable income	(13,459)	(158,367)
Income tax expense (benefit) not recognised	188,894	(254,627)
(d) Tax losses not recognised		
Unused tax losses for which no deferred tax asset has been recognised	21,879,054	22,068,208
Potential tax benefit @25% (FY24: 25%)	5,468,764	5,517,052
The above potential tax benefit for tax losses has not been recognised in the Consolidated Statement of Financial Position.		
(e) Deferred tax assets not recognised		
Deferred tax assets not recognised comprises temporary differences attributable to:		
Tax losses	5,469,764	5,517,052
Accruals and provisions	288,162	271,064
Total gross deferred tax assets not recognised	5,757,925	5,788,116
Offset against deferred tax liabilities	(31,412)	(19,458)
Total net deferred tax assets not recognised	5,726,514	5,768,658

The Group offsets tax assets and liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority. The taxation benefits of certain tax losses and temporary differences have not been brought to account since it is not probable whether future assessable income would be derived of a nature and of an amount sufficient to enable the benefits from the deductions to be realised.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2025**

Note 5: KMP remuneration

	2025	2024
	\$	\$
Short-term employee benefits	651,586	679,360
Post-employment benefits	77,317	116,956
Termination benefits	-	23,176
Share-based payments	221,265	145,423
Total compensation	950,168	964,915

Refer to Note 24 for other related parties transactions.

Note 6: Auditor's remuneration

Details of the amounts paid or payable to the auditor, Nexia Perth Audit Services Pty Ltd, for audit services provided during FY25 are set out below;

	2025	2024
	\$	\$
Remuneration of Nexia Perth Audit Services Pty Ltd for:		
- Auditing the consolidated financial reports of the Group (half year and full year reports)	93,610	88,300
	93,310	88,300

Note 7: Earnings (loss) per share

	2025	2024
	\$	\$
Basic earnings (loss) per share (cents per share)	0.001	(0.03)
Diluted loss per share (cents per share)	0.001	(0.03)
Earnings (loss)	15,915	(734,406)
Earnings (loss) used in calculating basic and diluted loss per share	15,915	(734,406)
	Number	Number
Weighted average number of ordinary shares used in the calculation of basic and diluted loss per share	2,767,113,855	2,494,752,622

As of 30 June 2025, a total of 165,413,440 options and performance rights on ordinary shares had been issued (2024: 413,462,785). As the Group incurred a loss for the year ended 30 June 2024, the effect of options on issue is considered to be antidilutive and thus not factored in determining the diluted earnings per share for FY24.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2025**

Note 8: Cash and cash equivalents

	2025	2024
	\$	\$
Cash at bank and on hand	2,580,193	3,492,197
	<u>2,580,193</u>	<u>3,492,197</u>

Note 9: Trade and other receivables

	2025	2024
	\$	\$
Current		
Trade debtors	2,614,071	2,872,243
R&D Tax incentive Receivable	892,886	673,635
Other Receivables	243,210	224,633
	<u>3,750,167</u>	<u>3,770,511</u>
Non-Current		
Project retentions	177,619	109,895
Security Bonds	356,533	235,023
	<u>534,152</u>	<u>344,918</u>

Trade debtors are non-interest bearing and are generally on 30-90 days terms.

For trade and other receivables, the Group has applied AASB 9 *Financial Instruments* simplified approach and has calculated ECLs based on lifetime expected credit losses. The Group has established a provision matrix that is based on the Group's historical credit loss experience for customer groups, adjusted for forward-looking factors specific to the debtors, industry payment profiles and the economic environment. At 30 June 2025, an ECL of \$523 was recognised (2024: \$29,826).

The R&D Tax incentive provides tax offsets for eligible Research and Development expenditure. The R&D Tax Incentive Receivable is based on the tax return submitted by the Group for FY25.

Project retentions is a fixed percentage of the total payment due for a contract, withheld for a period after the work is completed, typically until the end of the defect liability period (DLP).

Other than those receivables specifically provided for, trade and other receivables are considered fully recoverable.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2025**

Note 10: Inventories

During the year, the Group recognised an expense of \$71,270 in respect of inventories written down to net realisable value due to aging.

	2025 \$	2024 \$
Inventories	1,455,109	1,787,434

Less accumulated depreciation	(110,394)	(85,726)
	23,346	48,014
Motor vehicles at cost	1,122,534	956,796
Less accumulated depreciation	(358,669)	(183,407)
	763,865	773,389
Low value assets at cost	21,063	8,958
Less accumulated depreciation	(6,033)	(1,287)
	15,030	7,672
Total plant, equipment & motor vehicles	998,873	999,593

* During FY24 Parkway performed an impairment test on assets in the Parkway Process Solutions business in Perth and determined that the Plant and Equipment should be valued at the lower of depreciated cost and net realisable value, in accordance with AASB 136 *Impairment of Assets*, paragraph 110. The total impairment loss recognised was \$24,114. During FY25 due to the favourable performance of the Parkway Process Solutions business in Perth the estimate of the Plant and Equipment's recoverable amount was estimated to be above the depreciated cost, and in accordance with AASB 136 *Impairment of Assets*, paragraph 114 the impairment has been reversed.

FOR THE YEAR ENDED 30 JUNE 2025**

Note 13: Sales revenue

Set out below is the disaggregation of the Group's revenue from contracts with customers:

	2025 \$	2024 \$
Type of goods or service		
Water industry fabrication and installation services	11,582,487	4,387,890
Sale of water treatment related products	683,995	829,404
Commercial water treatment solutions	860,720	913,039
Industrial water related solutions	2,016,841	2,768,000
Total revenue from contracts with customers	15,144,043	8,898,333
	2025 \$	2024 \$
Timing of revenue recognition		
Goods and services transferred at a point in time	3,135,757	4,394,959
Goods and services recognised based on percentage project completion	12,008,286	4,503,374
Total revenue from contracts with customers	15,144,043	8,898,333

For the year ended 30 June 2025, all revenue from contract with customers is considered to be derived and from one geographical area being Australia.

Note 14: Government grants

The Group has recognised the following government grants:

	2025 \$	2024 \$
R&D incentive for FY23 – consolidated statement of Profit and Loss and Other Comprehensive Income*	-	591,083
R&D incentive for FY24 – consolidated statement of Profit and Loss and Other Comprehensive Income *	-	57,503
R&D incentive for FY24 – consolidated statement of Financial Position*	-	616,132
R&D incentive for FY25 – consolidated statement of Profit and Loss and Other Comprehensive Income*	54,375	-
R&D incentive for FY25 – consolidated statement of Financial Position*	838,511	-
Total	892,886	1,264,718

*Because in FY23 all expenditure to which the R&D incentive relates was expensed, the full FY23 amount was recognised as income in the Consolidated Statement of Profit or Loss and Other Comprehensive Income in FY24 being the year in which the Group determined with reasonable assurance that the government grant will be received and all attached conditions will be complied with had been obtained. Because in FY24 and in FY25 expenditure to which the R&D incentive relates was capitalised, the proportion of FY24 and FY25 amounts capitalised has been recognised as an offset to the Capitalised R&D Asset in the Consolidated Statement of Financial Position in FY24 and FY25 respectively, and the proportion of FY24 and FY25 amounts expensed has been recognised as income in the Consolidated Statement of Profit or Loss and Other Comprehensive Income in FY24 and FY25 respectively, being the year in which the Group determined with reasonable assurance that the government grant will be received and all attached conditions will be complied with has been obtained.

The Group's intellectual property portfolio consists of trade secrets, know-how, trademarks, and patents. At 30 June 2025, the Group is still in the process of developing the technology associated with the intellectual property; hence, the corresponding asset is not yet available for use, however is the subject of various technoeconomic evaluations.

15A Impairment testing

At 30 June 2025, management performed an impairment test on the Intellectual Property, the Capitalised R&D, and the Mawpump and Tankweld Goodwill and in accordance with the Group's accounting policy assessed the recoverable amount of the CGU's to which the Intellectual Property and the goodwill are allocated by reference to 'value in use'. In assessing value in use, the estimated future cash flows of the CGUs to which the Intellectual Property and the goodwill are allocated were discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. The recoverable amount of the CGUs to which the Intellectual Property and the goodwill are allocated was in excess of the carrying value and hence no impairment was recognised. The following key assumptions were used in the discounted cash flow model:

- 14.9% (2024: 19.9%) pre-tax discount rate
- 3% (2024: 3%) per annum projected EBITDA growth rate

Management believes the projected EBITDA growth is prudent and justified, based on the general market conditions for these businesses.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2025**

Note 15: Intangible assets (continued)

In performing the impairment tests, management applied a number of assumptions and judgments such as future forecasted revenue, future revenue growth, allocation of costs and discount rates. The assumptions and judgments used by management were determined to be reasonable based on the present and anticipated market conditions applicable to Group. No reasonable fluctuation in assumptions or judgments would cause the carrying amount of the CGUs to which the intangible assets were allocated to exceed the recoverable amount to require an adjustment for impairment.

15B Business combination

On 13 March 2024, the Group, through its wholly owned subsidiary, Parkway Process solutions Pty Ltd, entered into a Share Purchase Agreement to acquire the business of Tankweld Group (comprised of Tankweld Engineering Pty Ltd and Tankweld Installations Pty Ltd) for total consideration of \$2,350,260. Tankweld Group Goodwill was measured at cost less the fair market value of the tangible assets, liabilities, and intangible assets able to be identified. As management was still completing the acquisition accounting as at 30 June 2024, the identification and announced valuation of the assets and liabilities acquired was provisional as allowable per AASB3 *Business Combinations* ("AASB3") paragraph 45. At 30 June 2025 the acquisition accounting has been finalised, and no differences are noted to the provisional accounting.

The fair values of the identifiable assets as at the date of acquisition were:

	\$
Cash and cash equivalents	777
Trade receivables	1,180,315
Work in Progress	391,870
Plant and equipment	737,923
Trade payables	(1,619,965)
Employee benefits	(553,512)
Loans	(1,999,225)
Total identifiable net assets at fair value	(1,861,817)
Goodwill arising on acquisition	4,212,077
Purchase Price	2,350,260

Purchase Consideration

Cash consideration	650,000
Liabilities acquired (net)	1,700,260
Total purchase consideration	2,350,260
Less: Cash and cash equivalents balances acquired	(777)
Net cash flow on acquisition	2,349,483

**NOTES TO THE FINANCIAL STATEMENTS

Private debt facility	1,000,000	1,000,000
	1,027,418	1,116,596

Unused at the reporting date

Vehicle Hire Purchase	-	-
Private debt facility	4,000,000	3,000,000
	4,000,000	3,000,000

Private debt loan

On 14 June 2024 Parkway entered into a Private Debt Facility agreement. The Private Debt Facility consists of a Senior Secured Debt Facility of \$3,000,000 and a separate Acquisition Facility of \$2,000,000, intended to support potential future acquisitions. The initial loan term is two years, with an option to extend the Private Debt Facility for a further twelve months, at the election of Parkway. The facility is interest only and Parkway is not required to repay any principal until the end of the term. Fees include an arranger fee equivalent to 2.5% of funds drawn at the time of each drawdown, and an establishment Fee of 2% of the Senior Secured Debt Facility paid on settlement. Fees are capitalised and amortised over the two year loan term. Interest, based on the Bank Bill Swap rate (BBSW), is:

- Draw amounts – BBSW (subject to 3% floor) plus 8% p.a., payable monthly in arrears.
- Undrawn amounts – BBSW (subject to 3% floor), payable monthly in arrears.

The Private Debt Facility was pledged through a General Security Deed covering all present and future undertakings, assets and rights. Other terms include customary covenants for a secured corporate facility of this nature, including Conditions Precedent, Conditions Subsequent, Representations and Warranties and Undertakings (including Permitted Disposals, Permitted Distributions, and Permitted Debt) and events of default with market standard grace periods, carve outs and equity cure.

On 17 June 2024 Parkway extended the period during which Parkway can draw down on the Private Debt Facility from 17 June 2025 to 17 December 2025 and increased the size of the Acquisition Facility from \$1,000,000 to \$2,000,000. Except for these amendments, other terms of the Private Debt Facility remain unchanged.

Refer to note 26 for further information on financial instruments.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2025**

Note 19: Contributed equity

	2025		2024	
	No.	\$	No.	\$
Ordinary shares - fully paid	2,767,113,855	41,587,275	2,767,113,855	41,587,275

When managing capital (which is defined as the Group's total equity amounting to \$15,730,793 (2024: \$15,493,611)), the Board's objective is to ensure the Group continues as a going concern as well as to maintain optimal returns to shareholders and benefits for other stakeholders. The Board also aims to maintain a capital structure that ensures the lowest cost of capital available for future development activity. The Group is not subject to any externally imposed capital requirements.

Movements in fully paid ordinary shares on issue of the legal parent are:

	2025 Number	2024 Number	2025 \$	2024 \$
At the beginning of year	2,767,113,855	2,226,818,847	41,587,275	35,630,714
Issue of shares for cash – August 2023	-	285,714,286	-	4,000,000
Cost of issuing shares for cash	-	-	-	(187,427)
Issue of shares for cash – May 2024	-	250,000,000	-	2,250,000
Cost of issuing shares for cash	-	-	-	(106,012)
Issue of shares as share-based payments	-	4,580,722	-	-
Issue of shares for exercised options	-	-	-	-
At the end of the reporting year	2,767,113,855	2,767,113,855	41,587,275	41,587,275

On 23 August 2023 Parkway successfully conducted a share placement to sophisticated and professional investors, raising gross proceeds of \$4,000,000, through the issuance of 285,714,286 new fully paid ordinary shares at an issue price of \$0.014. Allotment of the placement shares was made pursuant to Parkway's ASX Listing Rule 7.1 capacity.

On 15 May 2024 Parkway successfully conducted a placement to sophisticated and professional investors, raising gross proceeds of \$2,250,000, through the issuance of 250,000,000 new fully paid ordinary shares at an issue price of \$0.009. Allotment of the placement shares was made pursuant to Parkway's ASX Listing Rule 7.1 capacity.

Note 20: Reserves

	Note	2025 \$	2024 \$
At the beginning of reporting year		3,281,772	1,178,047
Tankweld General Reserve from payment of net liabilities	20A	-	1,950,000

At 30 June 2025	125,000,000	-	125,000,000

Note 20C: Performance Rights

A performance rights plan has been established by the Group and approved by shareholders at a general meeting, whereby the Group may, at the discretion of the Remuneration Committee, grant performance rights over ordinary shares in the Company to certain employees. The rights are issued for nil consideration and are granted in accordance with performance guidelines established by the Remuneration Committee.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2025**

Note 20: Reserves (continued)

Reconciliation of total Performance Rights on issue:

	Performance Rights issued as share- based payments	Other Performance Rights issued	Total Performance Rights on issue
At 30 June 2023	-	-	-
Issued during the year	27,550,000	-	27,550,000
Expired during the year	-	-	-
At 30 June 2024	27,550,000	-	27,550,000
Issued during the year	16,800,940	-	16,800,940
Expired during the year	(3,937,500)	-	(3,937,500)
At 30 June 2025	40,413,440	-	40,413,440

Note 21: Equity based payments

Expenses arising from share-based payment and option-based payment transactions

Total expenses arising from share-based payment transactions recognised during the year were as follows:

	Note	2025 \$	2024 \$
Performance rights issued to KMP	21.1	163,465	51,510
Performance rights to be issued to KMP	21.1	72,801	43,913
Shares issued to KMP	21.2	-	35,000
Shares to be issued to KMP	21.2	(15,000)	15,000
Total KMP		221,266	145,423
Shares issued to employees	21.2	-	8,302
Shares to be issued to employees	21.2	(7,506)	7,506
Total other employees		(7,506)	15,808
Total equity based payments expense		213,760	161,231

- 21.1 A performance rights plan has been established by the Group and approved by shareholders at a general meeting, whereby the Group may, at the discretion of the Remuneration Committee, grant performance rights over ordinary shares in the Company to certain employees. The rights are issued for nil consideration and are granted in accordance with performance guidelines established by the Remuneration Committee.
- 21.2 During the year nil shares were issued to employees as part of their remuneration (June 2024: 4,580,722 shares issued), at the share price on the date of issue. The \$7,506 reversal relates to an employee that departed the Group before the 12 month vesting period for the shares. The \$15,000 adjustment relates to the fair value adjustment from Shares to be issued to KMP to Performance Rights issued to KMP.

For the equity-based payments expense recognised in the Condensed Consolidated Statement of Profit or Loss and Other Comprehensive Income, the fair value of Options, Performance Rights and Shares issued have been recognised in the Share and Option Based Payment reserve and Shares to be issued to employees of nil (June 2024: \$7,506) have been recognised as accrued expenses.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2025**

Note 21: Equity based payments (continued)

Options, Shares and Performance Rights	30 Jun 2025	30 Jun 2024	30 Jun 2025	30 Jun 2024
	Number	Number	\$	\$
At the beginning of reporting period	413,462,785	260,912,785	1,331,772	1,178,047
Performance rights issued	16,800,940	27,550,000	236,265	95,423
Performance rights expired	(3,937,500)	-	-	-
Shares issued	-	-	(15,000)	58,302
Options issued	-	125,000,000	-	-
Options exercised	-	-	-	-
Options expired	(260,912,785)	-	-	-
At reporting date	165,413,440	413,462,785	1,553,037	1,331,772

Performance Rights were measured at fair value on grant date. Fair value was determined using monte carlo simulations on a Binomial option pricing model accounting for the term (10 years), share price at grant date (\$0.01), nil exercise price, and performance criteria detailed above, utilising the expected price volatility of the underlying share and the ASX small ordinaries index (based on three year daily data) and risk free interest rate. The inputs used to the valuation of performance rights granted as share-based compensation during the reporting period were as follows:

Grant date	Expiry date	Number issued	Exercise price	Fair value per right at grant date	No. vested at 30 June 2025	No. lapsed at 30 June 2025	Total Fair Value	Fair Value recognised as expense in FY25
7/12/2023	7/12/2033	3,500,000	n/a	0.00600	2,187,500	1,312,500	21,010	-
7/12/2023	7/12/2033	7,000,000	n/a	0.00600	4,375,000	2,625,000	42,020	-
7/12/2023	7/12/2033	7,000,000	n/a	0.00627	-	-	43,888	29,259
7/12/2023	7/12/2033	7,000,000	n/a	0.00655	-	-	27,930	40,666
7/12/2023	7/12/2033	3,050,000	n/a	0.01000	3,050,000	-	30,500	-
13/9/2024	7/12/2033	4,487,179	n/a	0.00688	-	-	30,890	30,890
13/9/2024	7/12/2033	12,313,761	n/a	0.01100	12,313,761	-	135,451	135,451

All performance rights issued as equity-based payments were issued for nil cash consideration and were valued at market fair value which was considered to approximate the fair value of the services provided.

Note 22: Commitments

The Group has certain obligations with respect to Research Projects and the minimum expenditure requirements are as follows:

	2025	2024
	\$	\$
Within 1 year	125,000	125,000
1 to 2 years	125,000	125,000
Total	250,000	250,000

The commitments may vary depending upon additions or relinquishments of funding agreements. The above figures are based on the agreements at 30 June 2025. The figures are adjusted on the anniversary date of each funding agreement. During the financial year, the Group recognised \$125,000 of research expense (2024: 125,000).

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2025**

Note 23: Contingent liabilities

There are no contingent liabilities at 30 June 2025 (2024: Nil).

Note 24: Related party transactions

Other than payments to KMP there were no related party transactions for FY25 (2024: Nil) and no balances outstanding at 30 June 2025 (2024: Nil).

Note 25: Cash flow information

Reconciliation of cash flow from operations with loss from ordinary activities after income tax

	2025	2024
	\$	\$
Profit (Loss) from ordinary activities after income tax	15,915	(734,406)
Adjustments for:		
Depreciation	937,916	587,331
Impairment (reversal) expense	(24,114)	24,114

Changes in operating assets and liabilities		
(Increase)/decrease in receivables	168,889	(1,563,452)
(Increase)/decrease in inventories	(332,324)	(103,540)
(Increase)/decrease in other assets	44,381	(412,794)
Increase/(decrease) in trade and other payables	441,929	2,004,996
Increase/(decrease) in provisions	(551,737)	504,789
Cash flows from operating activities	955,972	644,445

Non-cash investing and financing activities

During the year, additions to the right-of-use assets were nil (2024: \$4,108,657).

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2025**

Note 26: Financial risk management objectives and policies

The Group's principal financial instruments comprise cash and short-term deposits, trade and other receivables and trade and other payables. The main purpose of the financial instruments is to finance the Group's operations. The main risks arising from the Group's financial instruments are interest rate risk and credit risk. The Board reviews and agrees policies for managing each of these risks and they are summarised below:

(a) Interest Rate Risk

The Group's exposure to interest rate risk, which is the risk that a financial instrument's value will fluctuate as a result of changes in market interest rates and the effective weighted average interest rate for each class of financial assets and financial liabilities is set out in the following table. Also included is the effect on profit and equity after tax if interest rates at that date had been 10% higher or lower with all other variables held constant as a sensitivity analysis.

The Group has not entered into any hedging activities to manage interest rate risk. In regard to its interest rate risk, the Group continuously analyses its exposure. Within this analysis consideration is given to potential renewals of existing positions, alternative investments and the mix of fixed and variable interest rates.

* Credit card security deposit held in National Australia Bank with the interest rate of 4.4% p.a. FY25 (FY24: 4.8%).

** Security bonds, classified as non current receivables. See note 9.

A sensitivity of 10% (2024: 10%) has been selected as this is considered reasonable given the current level of both short term and long term Australian dollar interest rates. A -10% sensitivity would move short term interest rates at 30 June 2025 from around 4.35% to 3.92% (2024: 4.35% to 3.92%) representing 41 basis points (2024: 43 basis points), which is 31 basis points (2024: 33 basis points) net of tax.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2025**

Note 26: Financial risk management objectives and policies (continued)

(b) Liquidity Risk

The Group manages liquidity risk by maintaining sufficient cash reserves and marketable securities required to meet the current commitments, through the continuous monitoring of actual cash flows.

Maturity analysis of financial liabilities based on contractual maturity

Year ended 30 June 2025	On demand	Less than 3 months	3 to 12 months	1 to 5 years	>5 years	Total
	\$	\$	\$	\$	\$	\$
Lease liabilities	-	204,895	614,685	3,911,736	4,812,044	9,543,360
Short Term Debt	-	1,389	26,029	-	-	27,418
Long Term Debt	-	31,595	106,611	1,000,000	-	1,138,206
Trade and other payables	-	2,004,983	-	-	-	2,004,983
	-	2,242,862	747,325	4,911,736	4,812,044	12,713,967

All trade payables are due within 30 days, which is consistent with the prior year.

(c) Fair Values

For financial assets and liabilities, the fair value approximates their carrying value. No financial assets and financial liabilities are readily traded on organised markets in standardised form.

(d) Credit Risk

Credit risk arises in the event that counterparty will not meet its obligations under a financial instrument leading to financial losses. The Group is exposed to credit risk from its operating activities, financing activities including deposits with banks. The credit risk control procedures adopted by the Group is to assess the credit quality of the institution with whom funds are deposited or invested, taking into account its financial position and past experiences.

The maximum exposure to credit risk on financial assets of the Group which have been recognised on the Consolidated Statement of Financial Position is generally limited to the carrying amount.

Cash is maintained with Macquarie Bank, Westpac, National Australia Bank and Bank of Queensland, all investment grade rated banks, and therefore carries insignificant expected credit loss.

**NOTES TO THE FINANCIAL STATEMENTS

Other comprehensive income	-	-
Total comprehensive loss for the financial year	259,755	(915,370)

The accounting policies of the parent entity are consistent with the Group accounting policies.

Note 28: Subsequent events

On 22 July 2025 Parkway signed a Deed of renewal of the lease for 5/45 Bunnett Street, Sunshine North for three years. The Group has one further three-year option on this lease. A market review associated with each option renewal saw an agreed increase in rent from \$85,788 to \$119,160 p.a. effective from 11 January 2026. The FY25 ROU asset and lease liability associated with this agreement assumes both options are exercised, and that the rent increases by 2.5% p.a. In accordance with *AASB 16 Leases* during FY26 there will be an adjustment to the value of both the ROU asset and lease liability to reflect the new rental adjustment.

On 11 July Parkway issued 39,282,200 Performance Rights to employees (no KMP).

On 5 August 2025, Parkway issued 11,211,010 Performance Rights to KMP being vested FY25 Performance Rights described in the remuneration report below.

On 11 August 2025, Parkway acquired the assets of a small complementary e-commerce business for a total purchase consideration of <\$0.1M. While FY25 sales for the acquired business were modest (less than 5% of Group revenue), it supports the Group's strategic growth in online sales of water and water industry related equipment. This acquisition is not expected to materially impact the business.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2025**

Note 28: Subsequent events (continued)

Other than the above, there have not been any other matters that have arisen after reporting date that have significantly affected, or may significantly affect, the operations and activities of the Group, the results of those operations or the state of affairs of the Group in future financial years other than disclosed elsewhere in this consolidated financial report.

DIRECTORS' DECLARATION

In the opinion of the Directors of Parkway Corporate Limited:

- (a) the consolidated financial statements and notes set out on pages 30 to 67 are in accordance with the *Corporations Act 2001*, including:
 - (i) giving a true and fair view of the financial position of the Group as at 30 June 2025 and of its performance, as represented by the results of its operations and its cash flows, for the year ended on that date; and
 - (ii) complying with Accounting Standards in Australia and the *Corporations Regulations 2001*;
- (b) the consolidated financial statements and notes also comply with International Financial Reporting Standards as disclosed in Note 2(c); and
- (c) there are reasonable grounds to believe that Parkway will be able to pay its debts as and when they become due and payable.
- (d) The information disclosed in the consolidated entity disclosure statement is true and correct.

This declaration has been made after receiving the declarations required to be made to the Directors in accordance with section 295A of the *Corporations Act 2001* for the year ended 30 June 2025.

This declaration is made in accordance with a resolution of the Directors.

Bahay Ozcakmak
Group Managing Director & CEO
Melbourne
Dated: 23 September 2025

Independent Auditor's Report to the Members of Parkway Corporate Limited

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of Parkway Corporate Limited (the "Company") and its subsidiaries (the "Group"), which comprises the consolidated statement of financial position as at 30 June 2025, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial statements, including material accounting policy information, the consolidated entity disclosure statement and the Directors' declaration.

In our opinion, the accompanying financial report of the Group is in accordance with the *Corporations Act 2001*, including:

- (i) giving a true and fair view of the Group's financial position as at 30 June 2025 and of its performance for the year then ended; and
- (ii) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Report section of our report. We are independent of the Group in accordance with the *Corporations Act 2001* and the ethical requirements of the Accounting Professional & Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the "Code") that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the Directors of the Company, would be in the same terms if given to the Directors as at the time of this Auditor's Report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Advisory. Tax. Audit.

Key audit matter	How our audit addressed the key audit matter
<p>Funding and Liquidity</p> <p><i>(Refer to 'Going Concern' in Note 2 to the financial report)</i></p> <p>The Group's strategy is focused on commercialising proprietary brine processing technologies, with applications in the energy and mining sectors ("Technology Commercialisation Business") and the development of an integrated water treatment products and services business to complement and support the Group's Technology Commercialisation Business.</p> <p>As per the consolidated financial statements, the Group reported a net profit of \$15,915 (2024: Loss of \$734,406) and a cash inflow from operating activities of \$955,972 (2024: \$644,445) for the year ended 30 June 2025. The Group had a net working capital surplus of \$4,736,476 (2024: \$5,463,652) including cash and cash equivalents of \$2,580,193 at 30 June 2025 (2024: \$3,492,197).</p> <p>The adequacy of funding and liquidity, as well as the relevant impact on the going concern assessment, is a key audit matter due to the significance of management's judgments and estimates in respect of this assessment.</p>	<p>Our procedures included, amongst others:</p> <ul style="list-style-type: none"> Assessing the Group's working capital position as at 30 June 2025; Vouching cash and cash equivalents to supporting documentation; Checking the mathematical accuracy of the cash flow forecast prepared by management; Evaluating the reliability and completeness of management's assumptions by comparing them to our understanding of the Group's future plans and operating conditions; Obtaining an understanding of management's cash flow forecast and evaluating the sensitivity of assumptions made by management; Considering events subsequent to year end to determine whether any additional facts or information have become available since the date on which management made its assessment; and Assessing the appropriateness of the disclosures included in the financial report.
<p>Carrying value of goodwill and other intangible assets</p> <p><i>(Refer to Note 15 to the financial report)</i></p> <p>Goodwill and other intangible assets are reviewed for impairment at least once a year and additionally whenever there is an indication for impairment.</p> <p>The Group annually carries out an impairment assessment of goodwill using a value-in-use model which is based on the net present value of the forecast earnings of the cash-generating units to which the goodwill is allocated. This is calculated using certain assumptions around discount rates, growth rates and cash flow forecasts.</p> <p>The carrying value of goodwill and other intangible assets is a key audit matter due to the following:</p> <ul style="list-style-type: none"> The evaluation of the recoverable amount is based upon a value-in-use calculation which requires significant judgement and estimation; and The balance is material to users of the financial statements. 	<p>Our procedures included, amongst others:</p> <ul style="list-style-type: none"> Obtaining an understanding of management's process with regards to the preparation of the value-in-use model; Evaluating management's methodologies and key assumptions; Assessing and challenging the following: <ul style="list-style-type: none"> i. reasonableness of long-term growth rates used in the forecast cash flows by comparing them to historical results; and ii. discount rate applied. Testing the mathematical accuracy and integrity of the value-in-use model; Assessing the accuracy of management's cash flow forecast model; Performing sensitivity analysis on the key drivers of growth rates used in the cash flow forecasts and the discount rate applied; Assessing management's consideration of the sensitivity to a change in key assumptions that both individually or collectively would be required for goodwill and other intangible assets to be

	<p>impaired and considering the likelihood of such a movement in those key assumptions; and</p> <ul style="list-style-type: none"> Assessing the appropriateness of the disclosures included in the financial report.
<p>Revenue from contracts with customers (Refer to Note 13 to the financial report)</p> <p>Included in the consolidated statement of profit or loss and other comprehensive income for the year ended 30 June 2025 is an amount of \$15,144,043 relating to revenue. This is split between water industry fabrication and installation services, industrial water related solutions, commercial water treatment solutions and the sale of water treatment related products.</p> <p>\$12,008,286 of total revenue is recognised over time based on a percentage of project completion basis with the remainder recognised at a point in time in accordance with the requirements of AASB 15 <i>Revenue from contracts with customers</i> ("AASB 15").</p> <p>Revenue recognition is a key audit matter due to its significance to the Group's financial report and the judgment exercised by management in determining when revenue should be recognised.</p>	<p>Our procedures included, amongst others:</p> <ul style="list-style-type: none"> Obtaining an understanding of and evaluating the internal controls and processes relating to revenue recognition; Considering the adequacy of the Group's revenue recognition policies and assessing them for compliance with Australian Accounting Standards; Testing a sample of sales, considering the terms and conditions and identification of the performance obligations in those arrangements, and assessing the accounting treatment under AASB 15; Performing cut-off testing for a sample of sales to determine whether revenue had been recorded in the correct accounting period based on the contractual terms; and Assessing the appropriateness of the disclosures included within the financial report.

Other Information

The Directors are responsible for the other information. The other information comprises the information in the Group's annual report for the year ended 30 June 2025 but does not include the financial report and the auditor's Report thereon.

Our opinion on the financial report does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of the other information we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The Directors of the Company are responsible for the preparation of:

- the financial report (other than the consolidated entity disclosure statement) that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001*; and
- the consolidated entity disclosure statement that is true and correct in accordance with the *Corporations Act 2001*; and

for such internal control as the Directors determine is necessary to enable the preparation of:

- the financial report (other than the consolidated entity disclosure statement) that gives a true and fair view and is free from material misstatement, whether due to fraud or error; and

- ii) the consolidated entity disclosure statement that is true and correct and is free of misstatement, whether due to fraud or error.

In preparing the financial report, the Directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at The Australian Auditing and Assurance Standards Board website at:

https://www.auasb.gov.au/auditors_responsibilities/ar2.pdf This description forms part of our Auditor's Report.

Report on the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included in pages 18 to 28 of the Directors' Report for the year ended 30 June 2025.

In our opinion, the Remuneration Report of Parkway Corporate Limited for the year ended 30 June 2025 complies with section 300A of the *Corporations Act 2001*.

Responsibilities

The Directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
